No. MC–F 6489. Authority sought for control by BURREN TRANSFER COMPANY, 155 South Melrose Avenue, Elgin, Ill., of GOLD STAR MOTOR SERVICE, INC., 322 North Hough Street, Barrington, Ill., and for acquisition by WALTER SCHOCK and MICHAEL UMBDENSTOCK, both of Elgin, of control of GOLD STAR MOTOR SERVICE, INC., through the acquisition by BURREN TRANSFER COMPANY. Applicant's representatives: Earl Girard, 6739 Beckwith, Morton Grove, Ill., and Franklin R. Overmyer, 111 West Monroe Street, Chicago, Ill. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over regular routes between Harvard, Ill., and Chicago, Ill., and between Elgin, Ill., and Chicago and Crystal Lake, Ill., serving all intermediate and certain off-route points; operations under the Second Proviso of section 206 (a) (1) in the transportation of *general freight* as a *local carrier* within a radius of fifty miles from Barrington, Ill. BURREN TRANSFER COMPANY is authorized to operate as a *common carrier* in Illinois and Indiana. Application has been filed for temporary authority under section 210a (b).

No. MC–F 6490. Authority sought for purchase by DANIELS MOTOR FREIGHT, INC., Niles Road Extention, Warren, Ohio, of the operating rights of Ethel J. Stahl, doing business as CITY EXPRESS & TRANSFER CO., 912 North First Street, St. Louis 2, Mo., and for acquisition by J. W. COX, also of Warren, of control of such rights through the purchase. Applicants' representative: Herbert Baker, 50 West Broad Street, Columbus 15, Ohio. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over irregular routes between points in the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone, as defined by the Commission. Vendee is authorized to operate as a *common carrier* in Pennsylvania, Maryland, New Jersey, New York, West Virginia, Ohio, Indiana, Michigan and Illinois. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6491. Authority sought for purchase by TRANSAMERICAN FREIGHT LINES, INC., 1700 North Waterman Avenue, Detroit 9, Mich., of a portion of the operating rights of LUPER TRANSPORTATION COMPANY OF OKLAHOMA, 801 North Darlington Street, Tulsa, Okla., and for acquisition by R. B. GOTFREDSON and C. B. GOTFREDSON; both of Detroit, of control of such rights through the purchase. Applicants' representatives: Howell Ellis, 520 Illinois Bldg., Indianapolis, Ind., Lee Reeder and Wentworth E. Griffin, both of 1012 Baltimore Bldg., Kansas City 5, Mo. Operating rights sought to be transferred: *General commodities*, with certain exceptions including Class A and B explosives and household goods, but excluding commodities in bulk, as a *common carrier* over regular routes between Oklahoma City, Okla., and Sapulpa, Okla., between Atoka, Okla., and Tulsa, Okla., between Calvin, Okla., and McAlester, Okla., and between Ada, Okla., and Allen, Okla., serving all intermediate points; *general commodities*, with certain exceptions including Class A and B explosives, household goods and commodities in bulk, between specified Oklahoma points, between Durant, Okla., and De Queen, Ark., and between Kansas City, Mo., and Tulsa, Okla., serving certain intermediate and off-route points; alternate routes for operating convenience only between Tulsa, Okla., and Atoka, Okla., between Olathe, Kans., and Garnett, Kans., between Denison, Tex., and Dallas, Tex., and between Coffeyville, Kans., and Collinsville, Okla.;

general commodities, except Class A and B explosives, between Dallas, Tex., and Oklahoma City, Okla., and between Durant, Okla., and Atoka, Okla., serving certain intermediate and off-route points; alternate route for operating convenience only between Oklahoma City, Okla., and Dallas, Tex.; *general commodities*, with certain exceptions including Class A and B explosives, and household goods but excluding commodities in bulk, over irregular routes between Denison, Tex., and Colbert, Okla., on the one hand, and, on the other, the Denison Dam Site in Texas and Oklahoma, and Cartwright, Okla.; *household goods*, as defined by the Commission between points in Oklahoma within 100 miles of Shawnee, Okla., on the one hand, and, on the other, points in Kansas. Vendee is authorized to operate as a *common carrier* in Michigan, Illinois, Indiana, Ohio, Pennsylvania, Missouri, Kentucky, Wisconsin, New Jersey, New York, West Virginia, Delaware, Connecticut, Iowa, Nebraska, Minnesota, Colorado, Massachusetts and Rhode Island. Application has been filed for temporary authority under section 210a (b).

No. MC–F 6492. Authority sought for purchase by BUCKINGHAM TRANSPORTATION, INC., Omaha and West Blvd., Rapid City, S. Dak., of the operating rights and certain property of HIGHWAY MOTOR FREIGHT, INC., P. O. Box 451, Hastings, Nebr., and for acquisition by EARL F. BUCKINGHAM and HAROLD D. BUCKINGHAM, both of Rapid City, of control of such rights and property through the purchase. Applicant's representative: Marion F. Jones, 526 Denham Bldg., Denver 2, Colo. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and excluding commodities in bulk, as a *common carrier* over regular routes, from Hastings, Nebr., to Eustis, Nebr., between Hastings, Nebr., and Maywood, Nebr., and between Omaha, Nebr., and McCook, Nebr., serving certain intermediate points and the off-route point of Orafino, Nebr.; *general commodities*, with certain exceptions including household goods and commodities in bulk, between Council Bluffs, Iowa, and Lincoln, Harrison, Alliance and McCook, Nebr., between Akron, Colo., and Sterling and Denver, Colo., and between Akron, Colo., and McCook, Nebr., serving certain intermediate and off-route points; *general commodities*, with certain exceptions including household goods and commodities in bulk, over irregular routes, between points in Omaha, Nebr., and between points in Omaha, Nebr., on the one hand, and, on the other, points in Council Bluffs, Iowa; *salt*, from Lyons, Hutchinson, and Kanopolis, Kans., to certain points in Colorado; *livestock feed* and *seed*, from points in Nebraska, Iowa and Kansas and certain points in Missouri to points in Yuma County, Colo.; *livestock, farm machinery, used farm equipment, emigrant movables*, and *farm products*, between points in Yuma, Washington and Phillips Counties, Colo., on the one hand, and, on the other, points in Nebraska, Iowa and Kansas, and certain points in Missouri; *building and fencing materials, machinery, used household goods*, and *livestock feed*, including salt and seed, between farms or between farms and towns in Phillips, Yuma, and Washington Counties, Colo., on the one hand, and, on the other, certain points in Kansas and Nebraska. Vendee is authorized to operate as a *common carrier* in Minnesota, South Dakota, Montana, Utah, Washington, California and Nevada. Application has been filed for temporary authority under section 210a (b).

No. MC–F 6494. Authority sought for control by JACK COLE COMPANY, 1900 Vanderbilt Road, Birmingham, Ala., of B. C. TRUCK LINES, INC., P. O. Box 678, La Grange, Ga., and for acquisition by J. B. COLE, JR., also of Birmingham, of control of B. C. TRUCK LINES, INC., through the acquisition by JACK COLE COMPANY. Applicant's representatives: B. A. Monaghan, 2100 Comer Bldg., Birmingham, Ala., and H. C. Ephraim, 1001 15th Street, N. W., Washington, D. C. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over irregular routes, between La Grange, Ga., on the one hand, and, on the other, points in Alabama and Georgia. JACK COLE COMPANY is authorized to operate as a *common carrier* in Alabama, Pennsylvania, New York, Michigan, Illinois, Ohio, Tennessee, Georgia, Indiana, Rhode Island and Massachusetts. Application has been filed for temporary authority under section 210a (b).

By the Commission.

PRESIDENTIAL INAUGURAL CEREMONIES

WASHINGTON BY-PASS HIGHWAYS FOR MOTOR CARRIERS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 11th day of January A. D. 1957. Highways authorized to enable motor carriers to by-pass Washington, D. C., during the period January 19, 20, 21, and 22, 1957.

The above matter coming on for consideration:

It appearing that during January 19, 20, 21, and 22, 1957, there will be considerable congestion on the streets and highways in and about Washington, D. C., due to Presidential Inaugural Ceremonies at that time;

It further appearing that the use of the highways specified below as alternate routes by motor common and contract carriers subject to the Interstate Commerce Act which are now authorized to operate over U. S. Highway 1 between Richmond, Va., and Baltimore, Md., via Washington, D. C., would materially relieve such congestion, and good cause therefor appearing:

It is ordered, That motor carriers holding authority from this Commission to operate over U. S. Highway 1 between Richmond, Va., and Baltimore, Md., via Washington, D. C., may, without obtaining prior authority therefor, operate over the following alternate routes, in performing their presently authorized service, between the points indicated:

Between Richmond, Va., and Baltimore, Md.:

From Richmond over U. S. Highway 1 to junction Virginia Highway 207, thence over Virginia Highway 207 to junction U. S. Highway 301, and thence over U. S. Highway 301 to Baltimore; or

From Richmond over U. S. Highway 1 to Fredericksburg, Va., thence over Virginia Highway 3 to junction U. S. Highway 301, and thence over U. S. Highway 301 to Baltimore; or

From Richmond over U. S. Highway 360 to junction U. S. Highway 17, thence over U. S. Highway 17 to junction U. S. Highway 301, and thence over U. S. Highway 301 to Baltimore; and

Return over either of the above-described routes to Richmond.

It is further ordered, That this order shall be effective only for the period of January 19, 20, 21, and 22, 1957.

By the Commission, Division 1.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F. R. Doc. 57–329; Filed, Jan. 15, 1957; 8:53 a. m.]

[Special Permission No. 71468]

SOUTHERN TERRITORY

INCREASED FARES, 1957

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 11th day of January 1957.

Upon consideration of a petition filed January 8, 1957, by M. B. Duggan, Agent, and A. J. Dixon, and other attorneys, for and on behalf of certain rail carriers, as amended, for authority to depart from the Commission's tariff-publishing rules to the extent necessary to enable them to publish and file a general increase of five percent in passenger fares and charges within southern territory and between southern territory, on the one hand, and eastern and western territories, on the other, as set forth in the petition, as amended, and for modification of all outstanding orders of the Commission to the extent necessary to permit only the publication of the aforesaid increase in fares and charges;

For good cause shown: *It is ordered:*

1. Carriers for and on whose behalf the above-mentioned petition, as amended, was filed, and their tariff-publishing agents, are hereby authorized to depart from the Commission's tariff-publishing rules when providing for increased fares and charges (exclusive of commutation fares), as set forth in the petition, as amended, in the following manner:

(a) By publication and filing of a master tariff of increased fares and charges.

(b) By publication and filing of connecting link supplements to one or more tariffs connecting such tariff or tariffs with the master tariff of increased fares and charges.

(c) By publication and filing of tariffs or supplements of specific increased fares and charges.

(d) By publication and filing by carriers of individual or blanket supplements to their local tariffs containing conversion table.

2. Connecting link supplements authorized herein shall be exempt from the Commission's tariff-publishing rules relating to the number of supplements and volume of supplemental matter permitted until further ordered. All other relief from the Commission's tariff-publishing rules authorized herein shall continue until further ordered.

3. (1) Master tariffs, supplements thereto, and supplements to tariffs which are issued in short form method shall bear notation reading substantially as follows:

The form of this publication is permitted by authority of Interstate Commerce Commission Permission No. 71468 of January 11, 1957.

(2) Other tariffs or supplements containing specific increased fares or charges shall bear notation reading:

This publication is issued under authority of Interstate Commerce Commission Permission No. 71468 of January 11, 1957.

4. Outstanding orders of the Commission are modified only to the extent necessary to permit the filing of tariffs containing the proposed increased fares and charges, which tariffs will be subject to protest, suspension, or rejection.

And it is further ordered, That a copy of this order be filed with the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested parties.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F. R. Doc. 57-330; Filed, Jan. 15, 1957; 8:53 a. m.]

[No. 32099]

SOUTHERN TERRITORY

INCREASED FARES, 1957

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 11th day of January A. D. 1957.

It appearing that on January 8, 1957, a petition, as amended, was filed by agents and attorneys for and on behalf of certain southern railroads described in the petition for authority to depart from the Commission's tariff-publishing rules to the extent necessary to enable them to publish tariffs containing a general increase of five percent in passenger fares and charges within southern territory and between southern territory, on the one hand, and eastern and western territories, on the other, as set forth in the petition, as amended, and for the modification of all outstanding orders of the Commission to the extent necessary to permit only the publication of the aforesaid tariffs;

It further appearing that on January 11, 1957, special permission order No. 71468[1] was issued to permit the filing of tariffs containing the proposed increase in fares and charges, which tariffs will be subject to protest, suspension, or rejection;

It further appearing that the petitioners will file simultaneously with the publication of the said tariffs verified statements in justification of said fares, and that a copy of said petition and verified statements will be furnished to any interested party upon request addressed to Mr. M. B. Duggan, Southern Passenger Association, Room 8, Terminal Station, Atlanta, Ga.

And it further appearing that the above petitioners request that the following outstanding order be further amended to the extent necessary to permit the proposed fares and charges to be established: No. 26550, Passenger Fares and Surcharges, as amended.

Upon consideration of the above-described petition, and good cause appearing therefor:

It is ordered, That protests to the entry of an order further modifying the Commission's order in No. 26550 as amended may be filed with the Commission on or before February 6, 1957. Protests should give the reasons therefor, and a copy should be furnished to Mr. M. B. Duggan, Southern Passenger Association, Room 8, Terminal Station, Atlanta 3, Ga.

It is further ordered, That a copy of this order be served upon the petitioning railroads, upon the parties in Ex Parte No. 202, and that notice of this proceeding be given to the public by posting a copy of this order in the Office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[Special Permission No. 71469]

NEW ENGLAND TERRITORY

INCREASED FARES, 1957

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 11th day of January 1957.

Upon consideration of a petition filed January 8, 1957, by W. H. Clifford, Agent, and J. W. Grady and other attorneys, for and on behalf of certain rail carriers, as amended, for authority to depart from the Commission's tariff-publishing rules to the extent necessary to enable them to publish a general increase of five percent, with certain exceptions, in passenger fares and charges within New England territory and between New England territory and other territories, as set forth in the petition, as amended, and for modification of all outstanding orders of the Commission to the extent necessary to permit only the publication of the aforesaid increases in fares and charges;

For good cause shown: *It is ordered:*

1. Carriers for and on whose behalf the above-mentioned petition, as amended, was filed and their tariff-publishing agents, are hereby authorized to depart from the Commission's tariff-publishing rules when providing for increased fares and charges (exclusive of commutation fares), as set forth in the petition, as amended, in the following manner:

(a) By publication and filing of a master tariff of increased fares and charges.

(b) By publication and filing of connecting link supplements to one or more tariffs connecting such tariff or tariffs with the master tariff of increased fares and charges.

(c) By publication and filing of tariffs or supplements of specific increased fares and charges.

(d) By publication and filing by carriers of individual or blanket supplements to their local tariffs containing conversion table.

2. Connecting link supplements authorized herein shall be exempt from the Commission's tariff-publishing rules relating to the number of supplements and volume of supplemental matter permitted until further ordered. All other relief from the Commission's tariff-publishing rules authorized herein shall continue until further ordered.

3. (1) Master tariffs, supplements thereto, and supplements to tariffs which are issued in short form method shall bear notation reading substantially as follows:

The form of this publication is permitted by authority of Interstate Commerce Commission Permission No. 71469 of January 11, 1957.

(2) Other tariffs or supplements containing specific increased fares or charges shall bear notation reading:

This publication is issued under authority of Interstate Commerce Commission Permission No. 71469 of January 11, 1957.

4. Outstanding orders of the Commission are modified only to the extent necessary to permit the filing of tariffs containing the proposed increased fares and charges, which tariffs will be subject to protest, suspension, or rejection.

And it is further ordered, That a copy of this order be filed with the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested parties.

NEW ENGLAND TERRITORY

INCREASED FARES, 1957

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 11th day of January A. D. 1957.

It appearing that on January 8, 1957, a petition, as amended, was filed by agents and attorneys for and on behalf of certain New England railroads described in the petition for authority to depart from the Commission's tariff-publishing rules to the extent necessary to enable them to publish tariffs containing a general increase of five percent in passenger fares and charges, within New England and between New England territory and other territories, as set forth in the petition, as amended, and for modification of all outstanding orders of the Commission to the extent necessary to permit only the publication of the aforesaid tariffs;

It further appearing, that on January 11, 1957, special permission order No. 71469[1] was issued to permit the filing of tariffs containing the proposed increase in fares and charges, which tariffs will be subject to protest, suspension, or rejection.

It further appearing, that the petitioners will file simultaneously with the publication of the said tariffs verified statements in justification of said fares, and that a copy of said petition and verifide statements will be furnished to any interested party upon request addressed to Mr. J. W. Grady, 54 Meadow Street, New Haven, Connecticut.

And it further appearing, that the above petitioners request that the following outstanding order be further amended to the extent necessary to permit the proposed fares and charges to be established: No. 26550, Passenger Fares and Surcharges, as amended.

Upon consideration of the above-described petition, and good cause appearing therefor:

It is ordered, That protests to the entry of an order further modifying the Commission's order in No. 26550 may be filed with the Commission on or before February 6, 1957. Protests should give the reason therefor, and a copy should be furnished to Mr. J. W. Grady, 54 Meadow Street, New Haven, Connecticut.

It is further ordered, That a copy of this order be served upon the petitioning railroads, upon the parties in Ex Parte No. 202, and that notice of this proceeding be given to the public by posting a copy of this order in the Office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER.

Pursuant to the provisions of the Rural Electrification Act of 1936, as amended, a loan contract bearing the following designation has been signed on behalf of the Government acting through the Administrator of the Rural Electrification Administration:

Loan designation:	*Amount*
Arkansas 28T Conway	$50,000

[SEAL] FRED H. STRONG, *Acting Administrator.*

[F. R. Doc. 57-315; Filed, Jan. 15, 1957; 8:51 a. m.]

[Administrative Order 5623]

GEORGIA

LOAN ANNOUNCEMENT

DECEMBER 14, 1956.

Pursuant to the provisions of the Rural Electrification Act of 1936, as amended, a loan contract bearing the following designation has been signed on behalf of the Government acting through the Administrator of the Rural Electrification Administration:

Loan designation:	*Amount*
Georgia 86T Seminole	$40,000

[SEAL] FRED H. STRONG, *Acting Administrator.*

[F. R. Doc. 57-316; Filed, Jan. 15, 1957; 8:51 a. m.]

[Administrative Order 5624]

KANSAS

LOAN ANNOUNCEMENT

DECEMBER 18, 1956.

Pursuant to the provisions of the Rural Electrification Act of 1936, as amended, a loan contract bearing the following designation has been signed on behalf of the Government acting through the Administrator of the Rural Electrification Administration:

Loan designation:	*Amount*
Kansas 28P Norton	$980,000

[SEAL] DAVID A. HAMIL, *Administrator.*

[F. R. Doc. 57-317; Filed, Jan. 15, 1957; 8:51 a. m.]

[Administrative Order 5625]

NORTH DAKOTA

LOAN ANNOUNCEMENT

DECEMBER 18, 1956.

Pursuant to the provisions of the Rural Electrification Act of 1936, as amended, a loan contract bearing the following designation has been signed on behalf of the Government acting through the Administrator of the Rural Electrification Administration:

Loan designation:	*Amount*
North Dakota 11AA Cass	$780,000

[SEAL] DAVID A. HAMIL, *Administrator.*

[F. R. Doc. 57-318; Filed, Jan. 15, 1957; 8:51 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 2]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.237 *Red civil airway No. 37 (Tyler, Tex., to Gordonsville, Va.)* is amended by changing the first portion to read: "From the Tyler, Tex., nondirectional radio beacon to the intersection of a line bearing 13° True from the Tyler nondirectional radio beacon with the west course of the Shreveport, La., radio range."

2. Section 600.268 *Red civil airway No. 68 (Midland, Tex., to Shreveport, La.)* is amended by changing name of the facility "Tyler, Tex., radio range station" to read: "Tyler, Tex., nondirectional radio beacon".

3. Section 600.6006 *VOR civil airway No. 6 (Oakland, Calif., to New York, N. Y.)* is amended by changing the portion which reads: "Wells, Nev., omnirange station, including a south alternate from the Battle Mountain omnirange station to the Wells omnirange station via the Elko, Nev., omnirange station;" to read: "Elko, Nev., omnirange station; Wells, Nev., omnirange station;"

4. Section 600.6094 *VOR civil airway No. 94 (El Paso, Tex., to Longview, Tex.)* is amended by adding a new portion to read: "The portion of this airway which overlaps the McGregor restricted area (R-211) is excluded."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t., February 12, 1957.

[SEAL] JAMES T. PYLE,
Administrator of Civil Aeronautics.

[F. R. Doc. 57-335; Filed, Jan. 16, 1957; 8:45 a. m.]

[Amdt. 2]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

contrary to public interest and therefore is not required:

Part 601 is amended as follows:

1. Section 601.1240 *Control area extension (Tyler, Tex.)* is amended by correcting the name of the facility "Tyler, Tex., radio range station" to read: "Tyler, Tex., nondirectional radio beacon".

2. Section 601.1268 is amended to read:

§ 601.1268 *Control area extension (Sioux Falls, S. Dak.).* That airspace within a 23 mile radius of the Sioux Falls omnirange station extending clockwise from VOR civil airway No. 15 to VOR civil airway No. 80 and with a 15 mile radius of the omnirange station extending clockwise from VOR civil airway No. 80 to VOR civil airway No. 15.

3. Section 601.2250 is amended to read:

§ 601.2250 *Tyler, Tex., control zone.* Within a 5 mile radius of Pounds Field and within 2 miles either side of a 283° True bearing extending from the Tyler nondirectional radio beacon to a point 5 miles northwest of the nondirectional radio beacon.

4. Section 601.4210 *Red civil airway No. 10 (Amarillo, Tex., to Charleston, S. C.)* is amended by changing the reporting point which reads: "The intersection of the north course of the Tyler, Tex., radio range and the west course of the Shreveport, La., radio range;" to read: "the intersection of a line bearing 13° True from the Tyler, Tex., nondirectional radio beacon with the west course of the Shreveport, La., radio range;"

5. Section 601.4327 *Red civil airway No. 37 (Tyler, Tex., to Gordonsville, Va.)* is amended by correcting the name of the facility "Tyler, Tex., radio range station;" to read: "Tyler, Tex., nondirectional radio beacon;"

6. Section 601.7001 *VOR Domestic reporting points* is amended by adding the following reporting points:

El Centro, Calif., omnirange station.
Fairland Intersection: The intersection of the Herndon, Va., omnirange 084° True and the Washington, D. C., terminal omnirange 016° True radials.

and by revoking the following reporting point:

Seeley Intersection: The intersection of the Yuma, Ariz., omnirange 267° True and the Thermal, Calif., omnirange 155° True radials.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. February 12, 1957.

[SEAL] JAMES T. PYLE,
Administrator of Civil Aeronautics.

[F. R. Doc. 57-336; Filed, Jan. 16, 1957; 8:45 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 54286]

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

INVOICES, WATCH MOVEMENTS, AND TIME-KEEPING, TIME-MEASURING, OR TIME-INDICATING MECHANISMS, DEVICES, AND INSTRUMENTS

On February 7, 1956, notice was given in the FEDERAL REGISTER (21 F. R. 840) that, in order to facilitate the determination as to whether imported watch movements or other mechanisms, devices, or instruments provided for in paragraph 367 (a), Tariff Act of 1930, have been specially manipulated after assembly to produce an adjustment or adjustments within the meaning of paragraphs 367 (a) and 367 (b) of the act and T. D. 50277 (3), it was proposed to require under the authority of section 481 (a) (10), Tariff Act of 1930 (19 U. S. C., 1481 (a) (10)), that, unless the Commissioner determined with respect to any particular importations that the purposes of this requirement have been otherwise satisfied, in addition to all other information required by law or regulations, customs invoices for such watch movements, mechanisms, devices, or instruments shall contain certain supplementary information on a separate sheet to be attached to and constitute a part of the invoice.

Paragraph 367 (a), Tariff Act of 1930 (19 U. S. C. 1001, 367 (a)), provides that imported watch movements and timekeeping, time-indicating, or time-measuring devices, instruments, and mechanisms shall be subject to an additional duty of $1 (50 cents, as modified) for each adjustment of whatever kind (treating adjustment to temperature as two adjustments) in accordance with the marking.

In a decision dated November 5, 1940, an abstract of which was published as Treasury Decision 50277 (3), the Bureau of Customs held that watch movements and other mechanisms, devices, and instruments provided for in paragraph 367 (a) are properly marked "unadjusted" under paragraph 367 (b) if they have not been specially manipulated otherwise than by ordinary assembly, to produce one or more of the following results: (a) Temperature adjustment, (b) isochronal adjustment, or (c) position adjustment.

The decision published as T. D. 50277 (3) has been extensively reviewed in the light of all representations and pertinent considerations. The Bureau has concluded that no change should be made therein, but that the following clarification of the meaning of the term position adjustment would be helpful.

Position adjustments in a watch movement, mechanism, device, or other instrument, however accomplished, result in correlation between the rates of timekeeping in various positions to meet specific precision tolerances. Any such instrument shall be considered as adjusted to position if, after assembly, it has been tested in two or more positions and specially manipulated in any manner which reduces to a prescribed limit of 45 seconds or less the observed differences between the rates in any of the positions in which tested and/or corrects the rate in any tested position for an instrument for which there is a prescribed tolerance not exceeding 45 seconds fast for one or more positions. The number of adjustments shall equal the number of positions in which the instrument was so tested, if tests were made in more than one position.

The term "specially manipulated" does not include manipulation necessary to the process of timing and regulation, which is not considered as adjustment within the meaning of paragraph 367 of the tariff act. That process results solely in making the instrument run faster or slower to the same extent in each and every position and does not result in any modification of any difference between rates in the individual positions. Any operation which results in making the instrument run faster or slower to a different extent in any tested or observed position than in any other tested or observed position, or results in a modification of any difference between rates in the individual positions, goes beyond the process of timing and regulation.

In order to facilitate the determination of whether imported watch movements or other mechanisms, devices, or instruments provided for in paragraph 367 (a) of the Tariff Act of 1930, have been specially manipulated after assembly to produce an adjustment or adjustments within the meaning of paragraphs 367 (a) and 367 (b) of the act and T. D. 50277 (3), certain information is required. After the most careful consideration of all written and oral representations made in response to the FEDERAL REGISTER announcement of February 7, 1956, it has been determined that in addition to all other information required by law or regulations, unless the Commissioner determines with respect to any particular importations that the purposes of this requirement have been otherwise satisfied, for all commercial shipments of watch movements, mechanisms, devices, or instruments having 17 or less jewels there shall be required to be shown on the invoice, on a separate sheet attached to and constituting a part of the invoice, such information as will reflect with respect to the individual instruments in the shipment:

(A) The commercial description (ebauche calibre number and ligne size) and style of each class of watch movement, time-keeping mechanism, device, or instrument covered by the invoice.

(B) The name of the manufacturer or assembler of the exported articles, and also the name of the supplier when the manufacturer or assembler is not the supplier.

(C) In the case of watch movements, the distinguishing marks (symbols) with which the watch movements are marked pursuant to the declaration annexed to the Swiss Trade Agreement.

(D) As to watch movements, time-keeping mechanisms, devices, or instruments, after the complete instruments were first assembled:

	Yes	No
(1) Were they tested or observed at different temperatures?	----	----
(2) Were they tested or observed for uniformity in rate as the mainspring runs down?	----	----
(3) Were corrections made to eliminate or reduce the differences in rates revealed by the tests in (1) and (2)?	----	----
(4) Were they tested or observed in more than one position?	----	----
(5) Was there a prescribed limit of 45 seconds or less between positions?	----	----
(6) Was there a prescribed tolerance of 45 seconds or less fast in any one position?	----	----

	Yes	No
(7) Were they corrected but marked wtih a different number of position adjustments than the number of positions (at least two) in which tested or observed?	----	----
(8) Were corrections made, other than moving the regulator arm, which affected the rate of timekeeping in any position?	----	----
(9) Were corrections made which resulted in eliminating or reducing the differences between the rates in various positions (as revealed in the tests) to a prescribed limit of 45 seconds or less?	----	----
(10) Were corrections made which altered the difference between the rates in various positions where there was a prescribed tolerance not exceeding 45 seconds fast for one or more positions?	----	----

(E) If the answers are "yes" to questions (3), (7), (9) or (10) under (D) immediately above, and the instruments are marked unadjusted, or are marked with a lesser number of position adjustments than the number of positions in which tested, describe in detail the corrections made.

It is not necessary that the required invoice information be repeated with respect to each individual item each time that item is imported. When the required information has been furnished with respect to a given item, the invoices covering subsequent shipments of that item may identify the item in the statement on which the required information for that item was first furnished. This may continue so long as the facts set out in such statement with respect to the given item remain unchanged.

Section 8.13 (h), Customs Regulations, is amended by adding the following to the list of merchandise with respect to which additional information is required to be furnished on customs invoices, and by placing opposite such addition the number and date of this Treasury decision:

Watch movements, and time-keeping, time-measuring, or time-indicating mechanisms, devices, and instruments.

In order to provide sufficient time to comply with these requirements this amendment shall become effective after 180 days after publication in the weekly Treasury Decisions.

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interprets or applies sec. 481, 46 Stat. 719; 19 U. S. C. 1481)

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: January 15, 1957.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 57-389; Filed, Jan. 16, 1957; 12:00 m.]

[T. D. 54285]

PART 23—ENFORCEMENT OF CUSTOMS AND NAVIGATION LAWS

NARCOTIC ADDICTS AND VIOLATORS: BORDER CROSSINGS

JANUARY 9, 1957.

Section 201 of the Narcotic Control Act of 1956, approved July 18, 1956, Public Law 728, 84th Congress (T. D. 54145), requires any citizen who is addicted to or uses certain narcotic drugs, or has been convicted of a violation of any of the narcotic or marihuana laws of the United States or of any State thereof, the penalty for which is imprisonment for more than 1 year, to register with a customs official prior to his departure from, and upon his return to, the United States, under such rules and regulations as may be prescribed by the Secretary of the Treasury. To prescribe such regulations, Part 23 of the Customs Regulations is amended by adding a new section designated § 23.9a reading as follows:

§ 23.9a *Narcotic addicts and violators; border crossings.* Any United States citizen who is addicted to or uses narcotic drugs as defined in section 4731 of the Internal Revenue Code of 1954, as amended (except in those cases where the narcotic drug is lawfully prescribed by a duly licensed physician in attendance upon such person) or who has been convicted of a violation of any of the narcotic or marihuana laws of the United States or of any State thereof, the penalty for which is imprisonment for more than one year, shall register his departure from the United States with the collector of customs at the port of departure on customs Form 3231, Registration Certificate of Narcotic User or Violator. The original shall be given to the registrant who, upon his return to the United States, shall register with the collector of customs at the port of arrival by signing before a customs officer and in the space provided for this purpose on the original and by surrendering the completed form to the customs officer. Any United States citizen subject to the registration requirements of the Narcotic Control Act of 1956 [1] who had departed from the United States prior to July 19, 1956, the effective date of said act, shall register his return to the United States with the collector of customs at the port of arrival on customs Form 3231. (Sec. 201, 70 Stat. 574; 18 U. S. C. 1407.)

(Sec. 201, 70 Stat. 574; 18 U. S. C. 1407)

[SEAL] DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 57-338; Filed, Jan. 16, 1957; 8:45 a. m.]

[1] "(a) * * * no citizen of the United States who is addicted to or uses narcotic drugs, as defined in section 4731 of the Internal Revenue Code of 1954, as amended (except a person using such narcotic drugs as a result of sickness or accident or injury and to whom such narcotic drug is being furnished, prescribed, or administered in good faith by a duly licensed physician in attendance upon such person, in the course of his professional practice) or who has been convicted of a violation of any of the narcotic or marihuana laws of the United States, or of any State thereof, the penalty for which is imprisonment for more than one year, shall depart from or enter into or attempt to depart from or enter into the United States, unless such person registers, under such rules and regulations as may be prescribed by the Secretary of the Treasury with a customs official, agent, or employee at a point of entry or a border customs station. Unless otherwise prohibited by law or Federal regulation such customs official, agent, or employee shall issue a certificate to any such person departing from the United States; and such person shall, upon returning to the United States, surrender such certificate to the customs official, agent, or employee present at the port of entry or border customs station.

"(b) Whoever violates any of the provisions of this section shall be punished for each such violation by a fine of not more than $1,000 or imprisonment for not less than one nor more than three years, or both." (18 U. S. C. 1407.)

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

Subchapter B—Food and Food Products

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF 1,1-DICHLORO-2,2-*bis*(*p*-ETHYLPHENYL) ETHANE

A petition was filed with the Food and Drug Administration requesting the establishment of tolerances for residues of 1,1-dichloro-2,2-*bis*(*p*-ethylphenyl) ethane (also known as diethyl diphenyl dichloroethane) in or on broccoli, brussels sprouts, cabbage, cauliflower, and kohlrabi.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g)), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120) are amended as follows:

1. In § 120.3 *Tolerances for related pesticide chemicals*, paragraph (e) (4) is amended by deleting "Diethyl diphenyl dichloroethane" from the list of chlorinated hydrocarbons and inserting "1,1-Dichloro-2,2-*bis*(*p*-ethylphenyl) ethane" after the line reading "DDT."

2. Section 120.139 is amended to read as follows:

§ 120.139 *Tolerances for residues of 1,1 - dichloro - 2,2 - bis (p-ethylphenyl) ethane.* A tolerance of 15 parts per million is established for residues of 1,1-dichloro-2,2-*bis*(*p*-ethylphenyl) ethane in or on each of the following raw agricultural commodities: Broccoli, brussels sprouts, cabbage, cauliflower, cherries, kohlrabi, lettuce, spinach.

3. Section 120.149 *Tolerances for residues of sodium 2,2-dichloropropionate* (22 F. R. 32, FEDERAL REGISTER of January 3, 1957, is renumbered as § 120.150.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 511; 21 U. S. C. 346a)

Dated: January 10, 1957.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 57-353; Filed, Jan. 16, 1957; 8:48 a. m.]

Subchapter C—Drugs

PART 141a—PENICILLIN AND PENICILLIN-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 141c—CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-CONTAINING DRUGS

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for tests and methods of assay and certification of antibiotic and antibiotic-containing drugs (21 CFR Parts 141a, 141c, 146, 146a, 146c, 146e; 21 F. R. 131, 609, 1511, 1744, 1745, 8985) are amended as indicated below:

1. In § 141a.9 *Penicillin tablets*, paragraph (a) *Potency* is amended in the following respects:

a. Subparagraph (1) is amended by deleting "or" and inserting in the headnote after the words ", penicillin V," the phrase "or potassium penicillin V".

b. Subparagraph (3) is amended by changing the headnote to read: *"Tablets that contain penicillin V or potassium penicillin V."*

2. Part 141a is amended by adding the following new section:

§ 141a.10 *Potassium penicillin V (potassium penicillin V salt)*—(a) *Potency.* Proceed as directed in § 141a.81 (a).

(b) *Toxicity.* Proceed as directed in § 141a.81 (b).

(c) *Moisture.* Proceed as directed in § 141a.5 (a) or § 141a.26 (e).

(d) *pH.* Proceed as directed in § 141a.5 (b), using an aqueous solution prepared by adding 30 milligrams per milliliter.

(e) *Microscopical test for crystallinity.* Proceed as directed in § 141a.5 (c).

(f) *Penicillin V content.* Accurately weigh approximately 50 milligrams of the sample, dissolve in 0.1 *N* NaOH solution, and make to 100 milliliters with 0.1 *N* NaOH solution. Determine the absorbance of the sample at the absorption peak at 275 mμ, using a suitable ultraviolet spectrophotometer and quartz cells. Set the instrument to 100-percent transmission with 0.1 *N* NaOH solution. If a recording spectrophotometer is used, record the ultraviolet absorption spectrum from 240 mμ to 290 mμ. If a nonrecording instrument is used, determine the absorbance (of a solution containing 20 milligrams per 100 milliliters) at the 275 mμ absorption peak, using a slit width of 0.5 millimeter or less. (The exact position of the peak should be determined for the particular instrument used.)

$$\text{Percent potassium penicillin } V = \frac{\text{Absorbance at } 275\ m\mu \times 10{,}000}{\text{Grams of sample (per 100 milliliters)} \times Evs \times 90.2}$$

where:

Evs = Specific absorbance $\left(E\ \frac{1\%}{1\ \text{cm.}}\right)$ of penicillin *V* standard similarly treated,

90.2 = Percentage of penicillin *V* in pure potassium penicillin *V*.

3. In § 141c.217 *Chlortetracycline calcium syrup* * * *, paragraph (c) *Toxicity* is amended by changing the period at the end of the first sentence to a comma and adding the following new clause: "except that if it contains analgesic substances or antihistaminics, administer 0.5 milliliter containing 6.25 milligrams."

4. Section 146.26 *Animal feed containing penicillin* * * * is amended in the following respects:

a. Paragraph (b) (6) is amended by changing the second sentence to read as follows: "If it contains not less than 100 grams of chlortetracycline or oxytetracycline or a combination of such drugs per ton of feed, it may also be represented for use as an aid in the prevention of synovitis in poultry."

b. Paragraph (b) (7) is amended by changing the second sentence to read as follows: "If it contains not less than 200 grams of chlortetracycline or oxytetracycline or a combination of such drugs per ton of feed, it may also be represented for use as an aid in the control of synovitis in poultry."

5. Section 146a.27 *Penicillin tablets* is amended in the following respects:

a. Paragraph (a) *Standards of identity* * * * is amended by inserting in the first sentence, after the words "crystalline penicillin V", the following new words: "crystalline potassium penicillin V,", and by inserting in the fourth sentence, after the words "or crystalline penicillin O;" the following new clause: "not more than 1.5 percent if it contains crystalline potassium penicillin V;".

b. In paragraph (c) *Labeling*, subparagraph (1) (vi) (c) is amended by inserting after the words "penicillin V" the words "or potassium penicillin V".

c. In paragraph (d) *Request for certification* * * *, subparagraph (2) (ii) is amended by changing the words "or crystalline penicillin V" to read "crystalline penicillin V, or crystalline potassium penicillin V)."

d. Paragraph (d) (3) (ii) is amended by changing the words "or penicillin V" to read "penicillin V, or potassium penicillin V".

6. Part 146a is amended by adding the following new section:

§ 146a.61 *Potassium penicillin V (potassium penicillin V salt)*—(a) *Standards of identity, strength, quality, and purity.* Potassium penicillin V is the crystalline potassium salt of penicillin V. It contains not less than 90 percent by weight of the potasium salt of penicillin V. It is so purified and dried that:

(1) Its potency is not less than 1,380 units per milligram.

(2) It is nontoxic.

(3) Its moisture content is not more than 1.5 percent.

(4) Its pH in a solution containing 30 milligrams per milliliter is not less than 4.0 and not more than 7.5.

(b) *Packaging; labeling; request for certification, samples; fees.* Proceed as directed in § 146a.103 (b), (c), (d), and (e).

7. In § 146c.212 *Chlortetracycline suppositories* * * *, subparagraph (1) (iv) of paragraph (c) *Labeling* is amended by changing the colon after the word "certified" to a comma and adding the following new clause: ", except that the blank may be filled in with the date that is 36 months after the month during which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies

with the standards prescribed by paragraph (a) of this section:".

8. Section 146c.217 *Chlortetracycline calcium syrup* • • • is amended in the following respects.

a. Paragraph (a) *Standards of identity* • • • is amended by inserting in the first sentence, after the word "sulfonamides, the following words: "analgesic substances, antihistaminics, caffeine," and by changing the number "4.5" in the fourth sentence to "3.5".

b. In paragraph (c) *Labeling*, subparagraph (1) (iii) is changed to read as follows:

(iii) If the batch contains, in addition to chlortetracycline calcium, tetracycline, or tetracycline magnesium, one or more of the other active ingredients specified in paragraph (a) of this section, the name and quantity of each such ingredient used in making the batch.

c. Paragraph (c) is further amended by changing subparagraph (3) to read as follows:

(3) On the label and labeling, if it contains, in addition to chlortetracycline calcium, tetracycline, or tetracycline magnesium, one or more of the active ingredients specified in paragraph (a) of this section, after the name "chlortetracycline calcium syrup" or "tetracycline syrup" or "tetracycline magnesium syrup," wherever it appears, the words "with _____ (the blank being filled in with the common or usual name of each such other ingredient)," in juxtaposition with such name.

9. In § 146e.405 *Bacitracin with vasoconstrictor* • • •, paragraph (c) *Labeling* is amended by changing the period at the end of the second sentence of subparagraph (1) (iii) to a comma and adding the following new clause: ", except that the blank may be filled in with the date that is 24 months after the month during which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that such drug as prepared by him is stable for such period of time."

Notice and public procedure are not necessary prerequisites to the promulgation of this order, since it was drawn in collaboration with interested members of the affected industry, since a portion of the order relaxes existing requirements, and since it would be against public interest to delay providing for the amendments above set forth.

I find that animal feeds containing antibiotic drugs, as specified in amendment 4, need not comply with the requirements of sections 502 (l) and 507 of the Federal Food, Drug, and Cosmetic Act in order to insure their safety and efficacy, provided they comply with the conditions specified.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: January 10, 1957.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 57-355; Filed, Jan. 16, 1957; 8:48 a. m.]

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter L—Irrigation Projects; Operation and Maintenance

PART 130—OPERATION AND MAINTENANCE CHARGES

FORT HALL INDIAN IRRIGATION PROJECT, IDAHO

JANUARY 8, 1957.

On December 20, 1956, there was published in the daily issue of the FEDERAL REGISTER, Volume 21, Number 246, page 10207, an amendment to § 130.32, Subchapter L, Chapter I of the Code of Federal Regulations, Title 25, which consisted of establishing of a basic water charge for the Minor Units on the Fort Hall Indian Reservation. In restating the charges for the Fort Hall Project in the final notice of amendment, an error was made in the last sentence of paragraph (b) covering the minimum charges which read, "No bills shall be rendered for less than $6.00," whereas it should have read "No bill shall be rendered for less than $6.50." Accordingly, § 130.32 of Title 25, Code of Federal Regulations, Chapter I, Bureau of Indian Affairs, Subchapter L. Irrigation Projects: Operation and Maintenance, is correctly amended to read as follows:

§ 130.32 *Basic and other water charges.* (a) In compliance with the provisions for the act of March 1, 1907 (34 Stat. 1024), the annual basic water charges for the operation and maintenance of the lands in non-Indian ownership of the Fort Hall Indian Reservation, Idaho, to which water can be delivered for irrigation are hereby fixed for the calendar year 1957 and subsequent years until further notice as follows:

(1) Fort Hall Project	$3.25 per acre
(2) Minor Units, Fort Hall	1.25 per acre

(b) In addition to the foregoing charges, there shall be collected annually a minimum charge of $3.00 for the first acre or fraction thereof on each tract of land for which operation and maintenance bills are prepared. No bill shall be rendered for less than $6.50.

(c) Indian lands, leased, as discussed in the letter from the Commissioner of Indian Affairs of December 1, 1938, and approved by the Assistant Secretary of the Interior on December 17, 1938, are subject to the payment of the foregoing charges as therein provided.

(Secs. 1, 3, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

H. L. MOORE,
Acting Area Director.

[F. R. Doc. 57-337; Filed, Jan. 16, 1957; 8:45 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

PART 40—MANUFACTURERS AND RETAILERS EXCISE TAXES

EDITORIAL NOTE: The following sections are deleted from the Code of Federal Regulations: §§ 1.452—1.462-7 and §§ 40.4226—40.4226-8.

TITLE 42—PUBLIC HEALTH

Chapter I—Public Health Service, Department of Health, Education, and Welfare

Subchapter D—Grants

PART 53—GRANTS FOR SURVEY, PLANNING AND CONSTRUCTION OF HOSPITALS AND MEDICAL FACILITIES

ALLIED SPECIAL HOSPITAL; SPLIT PROJECTS; PUBLICIZING THE STATE PLAN

Notice of proposed rule making, public rule making procedure, and postponement of effective date have been omitted in the issuance of the following amendments of §§ 53.1 (g), 53.14, 53.81, and 53.126 of this part, which relate solely to grants to States, political subdivisions and public or other nonprofit agencies for construction of public and other nonprofit hospitals and medical facilities.

1. Section 53.1 (g) is deleted.
2. Section 53.14 is revised as follows:

§ 53.14 *Beds classified as general hospital beds.* The count of existing general hospital beds shall include the beds in the hospitals of this category as defined above, and beds in any tuberculosis, mental or chronic disease hospital which are specifically assigned for the care of general patients, except where the beds so assigned in any institution number less than ten. Beds for persons hospitalized for the primary condition of tuberculosis, mental, or chronic disease shall be excluded.

3. Section 53.81 is deleted.
4. Section 53.126 is revised as follows:

§ 53.126 *Publicizing the State plan.* (a) At least 30 days prior to the submission of the State plan and its annual revision to the Surgeon General, the State Agency shall publish in newspapers having general circulation throughout the State a general description of its provisions, and the State plan shall be available for examination and comment by interested persons prior to submission to the Surgeon General.

(b) The provisions of this section shall also apply to any revisions of or supplements to the State plan pursuant to Part G of the Federal Act.

(Sec. 215, 58 Stat. 690 as amended; 42 U. S. C. 216. Interprets or applies sec. 622, 60 Stat. 1042; 42 U. S. C. 291e)

The above amendments were approved by the Federal Hospital Council at a meeting held December 7, 1956 and shall be effective on the date of publication in the FEDERAL REGISTER.

Dated: December 31, 1956.

[SEAL] L. E. BURNEY,
Surgeon General.

Approved:

L. E. BURNEY,
Chairman, Federal Hospital Council.

Approved: January 11, 1957.

M. B. FOLSOM,
Secretary.

[F. R. Doc. 57-356; Filed, Jan. 16, 1957; 8:48 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Rules Amdt. 2-27; FCC 57-39]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

CALL SIGNS

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of January 1957;

The Commission having before it for consideration § 2.302 of its rules, which includes the Table of allocation of call signs;

It appearing that the Department of Commerce has requested that the call signs WWI and WWVL be assigned for the use of standard frequency stations which the National Bureau of Standards is establishing; and

It further appearing that the call sign WWI has been assigned to the Department of Commerce for many years and the call sign WWVL is at present available for assignment; and

It further appearing that the proposed change is not substantive and does not in any way affect the requirements of any of the Commission's rules, but that said change consists of the addition of information with reference to call signs allocated for use by the standard frequency class of station; and

It further appearing that because of the informational nature of the proposed changes, notice and public procedure hereon as prescribed by section 4 (a) of the Administrative Procedure Act is unnecessary, and that this order may be made effective immediately for the same reason;

It is ordered, That, pursuant to authority contained in sections 303 (o) (p) and (r) of the Communications Act of 1934, as amended, § 2.302 of Part 2 of the Commission's rules and regulations is amended as set forth below effective March 1, 1957.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: January 14, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Part 2 of the Commission's rules, § 2.302 *Table of allocation of call signs*, is amended by adding the call signs WWI and WWVL to Column 3 of the Table of allocation of call signs opposite the standard frequency class of station so that the entry for that class of station will read as follows:

Column 1	Column 2	Column 3
Standard frequency		WWI, WWV, WWVH, and WWVL.

[F. R. Doc. 57-361; Filed, Jan. 16, 1957; 8:49 a. m.]

[Docket No. 11822; FCC 57-44]

[Rules Amdt. 11-7]

PART 11—INDUSTRIAL RADIO SERVICES

AVAILABILITY OF CERTAIN FREQUENCIES

1. By Notice of Proposed Rule Making of September 11, 1956 (FCC 56-873, released September 13, 1956), in the above entitled matter, the Commission proposed to amend Subparts F, G, H, I and K of Part 11, rules governing the Industrial Radio Services, to place the assignment of frequencies below 25 Mc on a case-by-case basis, and to stipulate that frequencies in that range now listed in Part 11 are not, in every case, available for assignment.

2. Comments have been received from The Central Committee on Radio Facilities of the American Petroleum Institute and Offshore Raydist, Inc. The Central Radio Committee, in general, supports the proposal if it does not contemplate a change in the present eligibility for frequencies below 25 Mc used extensively by the Petroleum Industry for long-range communications and for seismic operations. The proposed rule contemplates that new applicants in the Industrial Radio Services proposing to use frequencies below 25 Mc will make a showing that the use of frequencies above 25 Mc will not meet the operational requirements. Additional showings will not be required in connection with petroleum geophysical operations, since this showing has already been made on an industry basis.

3. Comment of Offshore Raydist, Inc., indicates that the proposal is reasonable if it does not require new types of eligibility showings and urges that the Commission make no changes in the present method of assigning frequencies in the Industrial Radiolocation Service. The proposal would not change the rules governing the Industrial Radiolocation Service and the present method of assigning frequencies would not be affected.

4. In view of the foregoing, the Commission concludes that the proposed amendment would materially serve the public interest, convenience and necessity. *Accordingly, it is ordered*, Pursuant to the authority contained in sections 4 (i), 303 (b), (c), (d), (f), (h), and (r) of the Communications Act of 1934, as amended, that effective February 25, 1957, Part 11 of the Commission's rules governing the Industrial Radio Services is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: January 10, 1957.

Released: January 14, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

A. Section 11.252 is amended in the following particulars:

1. In paragraph (b), delete the frequencies 2292 kc, 2398 kc, and 4637.5 kc, together with the footnotes 1, 3, and 4 referenced thereto.

2. Add a new paragraph, to read as follows:

(e) (1) Frequencies in the bands listed below may be assigned to Base Stations and to Mobile Stations in this service upon a satisfactory showing that use of frequencies above 25 Mc will not meet the operational requirements of the applicant: *Provided, however*, That due to the occupancy of the subject frequency bands by many stations in many services of this and other countries frequencies in the listed bands, in some cases, may be unavailable for assignment and, in other cases, may be available only with technical and/or operating limitations. In addition to the information routinely shown, each Base Station application should indicate the proposed transmitter output power; the type of antenna system and its approximate radiation pattern if not omnidirectional; the minimum necessary hours of operation; and the desired service area. A Mobile Station application should include the proposed transmitter output power and the minimum necessary hours of operation. The frequency bands are as follows:

Bands	*Bands*
1605–1750 kc	2505–2850 kc
2107–2170 kc	3155–3400 kc
2194–2495 kc	4438–4650 kc

(2) The following frequencies may be assigned to Base and Mobile Stations at many locations within the continental limits of the United States and, in some cases, in territories and possessions, in accordance with the provisions of subparagraph (1) of this paragraph:

Frequencies
2292 kc
2398 kc
4637.5 kc

B. Section 11.302 is amended in the following particulars:

1. In paragraph (b) delete the frequencies 1614 kc, 1628 kc, 1652 kc, 1676 kc, 1700 kc, 2292 kc, 2398 kc, and 4637.5 kc together with the footnotes 1, 2, and 3 referenced thereto.

2. Add a new paragraph, to read as follows:

(e) (1) Frequencies in the bands listed below may be assigned to Base Stations and to Mobile Stations in this service upon a satisfactory showing that use of frequencies above 25 Mc will not meet the operational requirements of the applicant: *Provided, however*, That

due to the occupancy of the subject frequency bands by many stations in many services of this and other countries frequencies in the listed bands, in some cases, may be unavailable for assignment and, in other cases, may be available only with technical and/or operating limitations. In addition to the information routinely shown, each Base Station application should indicate the proposed transmitter output power; the type of antenna system and its approximate radiation pattern if not omnidirectional; the minimum necessary hours of operation; and the desired service area. A Mobile Station application should include the proposed transmitter output power and the minimum necessary hours of operation. The frequency bands are as follows:

Bands	*Bands*
1605–1750 kc	2505–2850 kc
2107–2170 kc	3155–3400 kc
2194–2495 kc	4438–4650 kc

(2) The following frequencies may be assigned to Base and Mobile Stations at many locations within the continental limits of the United States and, in some

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 101–114]

CANCELED WAREHOUSE RECEIPTS

PROPOSED AMENDMENT OF REGULATIONS

Notice is hereby given in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Agricultural Marketing Service, pursuant to the authority conferred by section 28 of the United States Warehouse Act (7 U. S. C. 268), is considering amending the warehouse regulations appearing in Parts 101 through 114 of Subchapter D of Chapter I in Title 7 of the Code of Federal Regulations by deleting the last sentence in each of §§ 101.28, 102.34, 103.28, 104.28 (b), 105.29, 106.30, 107.31, 108.29, 109.34, 110.29, 111.33, 112.29, 113.29, and 114.29 and by inserting in lieu thereof in each instance the following: "Each canceled receipt shall be retained by the warehouseman for a period of six years after December 31 of the year in which the receipt is canceled and for such longer period as may be necessary for the purposes of any litigation which the warehouseman knows to be pending, or as may be required by the Administrator in particular cases to carry out the purposes of the Act. Canceled receipts shall be arranged by the warehouseman in numerical order and otherwise in such manner as shall be directed, for purposes of audit, by authorized officers or agents of the Department of Agriculture."

These amendments would relieve restrictions by specifying a more definite period for which canceled warehouse receipts are to be retained by federally licensed warehousemen and otherwise would clarify the requirements of the regulations.

Any interested person who wishes to submit written data, views or arguments with respect to the proposed amendments may do so by filing them with the Chief, U. S. Warehouse Act Branch, Special Services Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C., not later than 30 days after publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 27th day of December 1956.

[SEAL] GEORGE A. DICE,
Director,
Special Services Division.

[7 CFR Part 962]

FRESH PEACHES GROWN IN GEORGIA

FINDINGS AND DETERMINATIONS WITH RESPECT TO CONTINUATION IN EFFECT OF AMENDED MARKETING AGREEMENT AND ORDER

Pursuant to the applicable provisions of Marketing Agreement No. 99, as amended, and Order No. 62, as amended (7 CFR, Part 962), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), notice was given in the FEDERAL REGISTER on December 6, 1956 (21 F. R. 9662), that a referendum would be conducted among the growers who, during the calendar year 1956 (which period was determined to be a representative period for the purpose of such referendum), had been engaged, in the State of Georgia, in the production of peaches for market to determine whether a majority of such growers favor the termination of the amended marketing agreement and order.

Upon the basis of the results of the aforesaid referendum, which was conducted during the period December 12, to December 21, 1956, both dates inclusive, it is hereby found and determined that the termination of the amended marketing agreement and order, regulating the handling of fresh peaches grown in the State of Georgia, is not favored by the requisite majority of such growers.

Dated: January 14, 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 130]

[Docket No. FDC–62]

NEW DRUGS; DRUGS EXEMPTED FROM PRESCRIPTION-DISPENSING REQUIREMENTS

FINAL ORDER DENYING EXEMPTION FROM PRESCRIPTION-DISPENSING REQUIREMENTS TO HYDROCORTISONE AND HYDROCORTISONE ACETATE OINTMENTS AND LOTIONS

In the matter of exempting certain drugs composed wholly or partially of hydrocortisone or hydrocortisone acetate from prescription-dispensing requirements:

A. Based on petitions filed as supplements to new-drug applications, a notice of proposed rule making to exempt certain drugs containing hydrocortisone or hydrocortisone acetate from prescription-dispensing requirements was published in the FEDERAL REGISTER of January 20, 1956 (21 F. R. 430). Comments on and exceptions to the proposals having been received, the Commissioner of Food and Drugs issued a notice of hearing in the FEDERAL REGISTER of March 31, 1956 (21 F. R. 2112), to provide for a more thorough development of the facts. Pursuant to the notice of postponement of hearing published in the FEDERAL REGISTER of May 19, 1956 (21 F. R. 3329), a public hearing was held on August 15, 16, and 17, 1956.

The available evidence may be summarized as follows:

1. The evidence supporting the proposed exemptions, including evidence contained in new-drug applications, indicated that:

a. Hydrocortisone and hydrocortisone acetate are not absorbed through the human skin when ointments and lotions containing the drugs are applied to the skin.

b. No systemic effects of hydrocortisone have been observed clinically in the course of extensive use under medical supervision of ointments and lotions containing hydrocortisone and hydrocortisone acetate.

c. Hydrocortisone and hydrocortisone acetate ointments and lotions have been used extensively under medical supervision, without reports of any significant adverse reactions.

d. Such preparations are effective and useful in the treatment or alleviation of many minor skin irritations.

2. The evidence opposing the proposed exemptions, including reports of studies conducted after publication of the proposed exemption order, indicated that:

a. Studies by newly devised laboratory procedures on small numbers of human subjects showed absorption of varying amounts of hydrocortisone and hydrocortisone acetate through the skin and through mucous membranes adjoining skin areas, following application to such areas of ointments and lotions containing the drugs.

b. There is insufficient evidence to establish conclusively whether or not the amount of hydrocortisone or hydrocortisone acetate that may be absorbed as a result of using ointment and lotion preparations as provided in the proposed exemption may cause clinically significant systemic effects or may result in disturbance to the glandular system.

c. There are documented cases of serious adverse effects following application of hydrocortisone preparations to the skin under medical supervision, particularly cases in which such preparations caused the spread of infection, the presence of which was undetected by the attending physician.

d. A number of well qualified experts believe that laymen in general cannot differentiate between skin conditions in which ointments or lotions of hydrocortisone or hydrocortisone acetate are indicated and those in which such preparations are contraindicated; In particular, this is a serious concern in relation to the possible spread of infection.

e. A number of well qualified experts believe that it is impossible to write adequate directions for use of hydrocortisone or hydrocortisone acetate ointments and lotions in self-medication, because the layman is generally incapable to diagnose the conditions in which the drugs may be indicated.

f. A number of well qualified experts offered the opinion that since hydrocortisone and hydrocortisone acetate ointments and lotions merely relieve temporarily but do not cure the conditions in which they are indicated, a layman would be expected to use the drugs beyond the time limit stated in the labeling in order to obtain continued relief of symptoms. It is generally agreed that prolonged use of that kind would increase the hazard of systemic effects from absorption.

g. There is a difference of opinion among well qualified medical experts as to whether or not hydrocortisone and hydrocortisone acetate ointments and lotions are safe and useful for self-medication.

3. There is general agreement that hydrocortisone and hydrocortisone acetate are not safe for use in self-medication, irrespective of the route or method of administration, if such medication causes or may cause clinically observable systemic effects or results in significant disturbance of the glandular system.

B. Based on a study of all the available fact and opinion, the Commissioner of Food and Drugs finds:

1. The available evidence fails to show that hydrocortisone and hydrocortisone acetate ointments and lotions are safe for use in self-medication as provided in the proposed regulation to exempt such articles from prescription-dispensing requirements.

2. The evidence now available does not include adequate tests by all methods reasonably applicable to show whether or not such preparations are safe for use under the conditions proposed. In particular, it fails to include reports of tests sufficiently extensive to demonstrate adequately the range of absorption of hydrocortisone and hydrocortisone acetate through the skin and adjoining mucous membranes on application of such preparations to the skin. Further,

it fails to include studies adequate to establish the significance of such absorption.

In view of the above, the Commissioner of Food and Drugs cannot conclude that the drugs are safe for use as provided in the proposed regulation. It is concluded that the prescription-dispensing requirements of hydrocortisone and hydrocortisone acetate are necessary for the protection of the public health. Accordingly, the petitions to exempt hydrocortisone and hydrocortisone acetate ointments and lotions from prescription-dispensing requirements are denied.

This order is issued in accordance with the procedure outlined in the regulations (21 CFR 130.101; 21 F. R. 5576) promulgated pursuant to section 503 (b) (3) of the Federal Food, Drug, and Cosmetic Act (sec. 503 (b) (3), 52 Stat. 1052, as amended 65 Stat. 648, 649; 21 U. S. C. 353 (b) (3)), under authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (20 F. R. 1996; 21 CFR 1.108 (b) and (c), as recodified 21 F. R. 5582, § 130.101 (b)).

(Sec. 701 (a), 52 Stat. 1055; 21 U. S. C. 371 (a). Interpret or apply secs. 503 (b) (3), 505, 52 Stat. 1052, 65 Stat. 649; 21 U. S. C. 353 (b) (3), 355 (c))

Dated: January 8, 1957.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 16]

[Docket No. 11903; FCC 57-43]

AUTOMOBILE EMERGENCY RADIO SERVICE

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The present paragraph (a) of § 16.503 of Part 16, Subpart K, Automobile Emergency Radio Service, provides, among other things, for the primary assignment of the frequencies 35.70 Mc and 35.98 Mc to base stations and mobile stations other than those aboard aircraft, which are operated by public garages. In the administration of this Section it has been considered that the intent of the rule was to permit the assignment to a licensee of one or the other of the frequencies but not both. This interpretation appears to have permitted the licensing of a larger number of public garages with less mutual interference than would have resulted if each licensee had been authorized the use of both frequencies. It is therefore proposed to clarify the purpose and intent by amending paragraph (a) of § 16.503 as set forth below.

3. The proposed amendment is issued under the authority contained in sections 4 (i) and 303 of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form set forth herein, and any person desiring to support this proposal may file with the Commission on or before February 15, 1957, a written statement or brief setting forth his comments. Replies to such comments may be filed within ten days from the last day for filing original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

5. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: January 10, 1957.

Released: January 14, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

It is proposed to amend paragraph (a) of § 16.503 to read as follows:

§ 16.503 *Frequencies available for base and mobile stations.* (a) The frequencies 35.70 Mc and 35.98 Mc are primarily available for assignment to base stations and to mobile stations other than those aboard aircraft, which are operated by or on behalf of public garages. Only one of these two frequencies will be assigned to a single licensee. At the discretion of the Commission, these frequencies may be assigned to base stations and to mobile stations other than those aboard aircraft, which are operated by or on behalf of associations of owners of private automobiles upon a showing that: (1) The same applicant has previously held an authorization for the operation of a station or stations in the same area on the frequencies requested, or (2) one or both of the frequencies specified in paragraph (b) of this section are currently assigned to stations operated in the same area by or on behalf of another such association with which the applicant is not directly affiliated.

MONTANA

RESTORING LANDS TO TRIBAL OWNERSHIP OF BLACKFEET TRIBE OF INDIANS

Whereas pursuant to authority contained in the act of Congress approved March 1, 1907 (34 Stat. 1015, 1039), certain townsites were established within the Blackfeet Indian Reservation, Montana, and

Whereas there are certain undisposed of lands within the townsites referred to which are desired by the Indians and for which there appears to be no public demand, and

Whereas the Tribal Council and the Commissioner of Indian Affairs, have recommended restoration of the lands involved to tribal ownership.

Now, therefore, by virtue of the authority vested in the Secretary of the Interior by sections 3 and 7 of the act of June 18, 1934 (48 Stat. 984; 25 U. S. C. 463a), I hereby find that the restoration to tribal ownership of the remaining vacant, undisposed of lands included in the townsites listed below will be in the public interest and the said lands are hereby restored to tribal ownership for the use and benefit of the Blackfeet Indian Reservation, Montana, and are added to and made a part of the existing reservation, subject to any valid existing rights:

DEPARTMENT OF COMMERCE

Federal Maritime Board

[Docket No. 807]

UNITED STATES ATLANTIC AND GULF-PUERTO RICO CONFERENCE; INCREASES IN RATES

NOTICE OF INVESTIGATION AND OF HEARING

On January 4, 1957, the Federal Maritime Board entered the following order:

It appearing that there have been filed with the Federal Maritime Board by the U. S. Atlantic & Gulf-Puerto Rico Conference, comprised of the following participating carriers: Bull Insular Line, Lykes Bros. Steamship Co., Inc., Waterman Steamship Corporation and Alcoa Steamship Company, Inc., tariffs naming commodity rates from and to U. S. Atlantic & Gulf ports on the one hand and ports in Puerto Rico on the other, effective as shown:

United States Atlantic and Gulf-Puerto Rico Conference, Loose-Leaf Tariffs FMB, F-No. 14—Homeward Freight Tariff No. 7, FMB. F-No. 13—Outward Freight Tariff No. 7, effective January 5, 1957.

It further appearing that said tariffs name increases in rates over the applicable rates presently in effect;

It further appearing that a number of protests have been received from shippers in Puerto Rico and the United States alleging that the proposed increases named in the aforesaid schedules are excessive and unreasonable;

It further appearing that the increases in rates may be in violation of Section 18 of the Shipping Act, 1916, as amended, and the Intercoastal Act of 1933, as amended;

It further appearing that investigation should be made to determine the reasonableness and lawfulness of such rates, charges, regulations and practices and the Board being of the opinion that the effective date of said schedules should be suspended, pending investigation;

It is ordered, That the Board enter upon a hearing concerning the reasonableness and lawfulness of the rates, charges, regulations and practices stated in said schedules;

It is further ordered, That the operation of said schedules be, and they are hereby, suspended and that the use of the rates, charges, regulations, and practices therein stated be, and they are hereby deferred until midnight, January 8, unless otherwise ordered by the Board;

It is further ordered, That no change shall be made in the rates, charges, regulations, and practices hereby deferred until this investigation and suspension proceeding has been disposed of, or until the period of suspension or any extension thereof has expired, unless otherwise authorized by special permission of the Board;

It is further ordered, That there shall be filed immediately with the Board by United States Atlantic and Gulf-Puerto Rico Conference, by J. W. de Bruycker, Agent, consecutively numbered supplements to the aforesaid tariffs which supplements shall bear no effective date; shall reproduce the portion of this order wherein the suspended schedules are described; shall state that said schedules are suspended and that the rates, charges, regulations and practices therein stated may not be used until the 9th day January 1957, unless otherwise authorized by special permission of the Board; and that the rates, charges, regulations and practices hereby deferred may not be changed during the period of suspension or any extension thereof, unless otherwise authorized by special permission of the Board;

It is further ordered, That copies of this order shall be filed with said tariff in the office of the Federal Maritime Board; that a copy hereof shall be forthwith served upon the U. S. Atlantic and Gulf-Puerto Rico Conference, Agent J. W. de Bruycker and all participating carriers named in the aforesaid tariffs, and said agent and carriers be, and they are hereby, made respondent in this proceeding; that said protestants, agent and carriers be duly notified of the time and place of the hearing herein ordered and that notice of such hearing be published in the FEDERAL REGISTER.

On January 8, 1957, the Board adopted the following order amending the order, quoted above, heretofore entered in this proceeding on January 4, 1957:

It appearing that there have been filed with the Federal Maritime Board by the U. S. Atlantic & Gulf-Puerto Rico Conference, comprised of the following participating carriers: Bull Insular Line, Lykes Bros. Steamship Co., Inc., Waterman Steamship Corporation and Alcoa Steamship Company, Inc., tariffs naming commodity rates from and to U. S. Atlantic & Gulf ports on the one hand and ports in Puerto Rico on the other, effective as shown:

United States Atlantic and Gulf-Puerto Rico Conference, Loose Leaf Tariffs FMB–F. No. 14—Homeward Freight Tariff No. 7, FMB–F. No. 13—Outward Freight Tariff No. 7, effective January 9, 1957.

It further appearing that said tariffs name increases in rates over the applicable rates presently in effect;

It further appearing that protests have been received from shippers in Puerto Rico and the United States alleging that the proposed increases named in the aforesaid schedules are excessive and unreasonable;

It further appearing that the Board is of the opinion that this question should be made the subject of a public investigation and hearing to determine whether the increased rates are in violation of section 18 of the Shipping Act, 1916, or the Intercoastal Shipping Act, 1933, as amended; and

It further appearing that the carriers are in need of additional revenues in order that they may continue to perform adequate and efficient transportation services;

It further appearing that members of the U. S. Atlantic and Gulf-Puerto Rico Conference, i. e., Alcoa Steamship Company, Bull Insular Line, Inc., Lykes Bros. Steamship Co., Inc., and Waterman Steamship Corporation have agreed (1) to keep account of all freight moneys received by reason of the increased rates for a period commencing with January 9, 1957, and terminating with May 5, 1957; and (2) to refund to the person who paid the freight, upon proper authorization by the Federal Maritime Board, any freight charges collected during the said period which may be in excess of those determined by the Board to be just and reasonable, provided the proposed increased rates, modified as hereinafter indicated, are permitted to go into effect without further suspension;

It further appearing that under date of December 20, 1956, J. W. de Bruycker, Agent, U. S. Atlantic & Gulf-Puerto Rico Conference, filed special permission application to modify the increases in rates to reflect an adjustment not in excess of 15 percent or 6 cents per cubic foot or 12 cents per 100 pounds over the applicable rates presently in effect (whichever produces the greater increase in revenue);

It further appearing that good cause exists for granting the special permission to publish the adjustment in rates effective on one day's notice but not earlier than January 9, 1957;

It is ordered, That special permission application No. 16, filed by J. W. de Bruycker, Agent, for carriers parties to U. S. Atlantic and Gulf-Puerto Rico Freight Tariffs FMB–F. Nos. 13 and 14 to publish revised tariff pages, as specified in appendix attached hereto, on one day's notice, but not earlier than January 9, 1957, be and it is hereby, granted under authority of the Board's Special Permission No. 3599;

It is further ordered, That the Board enter upon a hearing concerning the reasonableness and lawfulness of the rates, charges, regulations and practices stated in said schedules as amended by the Board's Special Permission No. 3599;

It is further ordered, That (a) Alcoa Steamship Company, Inc., Bull Insular Line, Inc., Lykes Bros. Steamship Co., Inc. and Waterman Steamship Corporation (hereinafter called the carriers) shall keep an account of all freight moneys received by reason of the increases in rates published in said tariffs over the rates presently in effect for a period commencing with January 9, 1957, and terminating with May 5, 1957; and (b) the carriers, upon final determination by the Board, shall repay to shippers, out of their general funds, the sums if any to which the respective persons who pay the freight may be entitled;

It is further ordered, That this order amends order entered in this proceeding on the 4th day of January 1957; and

It is further ordered, That copies of this order shall be filed with said tariff in the office of the Federal Maritime Board; that a copy hereof shall be forthwith served upon the U. S. Atlantic and Gulf-Puerto Rico Conference, Agent J. W. de Bruycker and all participating carriers named in the aforesaid tariffs, and said agent and carriers be, and they are hereby, made respondent in this proceeding; that said protestants, agent and carriers be duly notified of the time and place of the hearing herein ordered and that notice of such hearing be published in the FEDERAL REGISTER.

Pursuant to the above orders, notice is hereby given that a public hearing in this proceeding will be held before an examiner of the Board's Hearing Examiners' Office at a time and place to be hereafter determined and announced by the Chief Examiner. The hearing will be conducted in accordance with the Board's rules of practice and procedure, and a recommended decision will be issued by the examiner.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies), having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Board on or before February 15, 1957, and should file petitions for leave to intervene in accordance with Rule 5 (n) of said rules of practice and procedure.

By order of the Federal Maritime Board.

Dated: January 14, 1957.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11180, 11901; FCC 57-35]

BILL MATHIS AND GILLESPIE BROADCASTING CO. (KNAF)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Bill Mathis, Abilene, Texas; Docket No. 11180, File No. BP-8917; Gillespie Broadcasting Company (KNAF), Fredericksburg, Texas; Docket No. 11901, File No. BP-10598; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of January 1957;

The Commission having under consideration the above-captioned applications for construction permits by Bill Mathis for a new standard broadcast station at Abilene, Texas, to operate on 910 kilocycles with a power of 500 watts, daytime only; and by the Gillespie Broadcasting Company to change the facilities of Station KNAF, Fredericksburg, Texas, from operation on 1340 kilocycles with a power of 250 watts, unlimited time, to operation on 910 kilocycles with a power of 1 kilowatt, daytime only;

It appearing that both applicants are legally, financially, technically and otherwise qualified, except as may appear from the issues specified below, to construct and operate the stations as proposed, but that operation by both stations as proposed would result in mutually destructive interference; that both proposed operations would involve interference with Station KRRV, Sherman, Texas (910 kc, 1 kw, DA-1, U); and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the instant applicants were advised by letter dated October 11, 1956, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that a timely reply was filed by each of the applicants; and that the reply by Bill Mathis contained field intensity measurements purporting to show that the conductivity of the area is less than shown in Figure M-3 of the Standard Broadcast Technical Standards in the Commission's Rules and that no interference would be involved with Station KRRV; but that we are of the opinion the measurements are insufficient to prove a lower conductivity because they were made on radials from Station KRBC, Abilene, Texas, which is located approximately 6 miles from the site proposed in the Mathis application and, thus, are not on a direct path from the Mathis site toward Station KRRV; and because measurements were not made within one mile from the KRBC transmitter to show an inverse distance field intensity at one mile; and

It further appearing, that, after consideration of the replies, we are of the opinion that a hearing on these applications is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of Station KNAF, and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which would receive primary service from the operation proposed by Bill Mathis, and the availability of other primary service to such areas and populations.

3. To determine whether the operations proposed by Bill Mathis and the Gillespie Broadcasting Company (KNAF) would involve objectionable interference with Station KRRV, Sherman, Texas, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine, in light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations here proposed would better provide a fair, efficient and equitable distribution of radio service.

5. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That Red River Valley Broadcasting Corporation, licensee of Station KRRV, Sherman, Texas, is made a party to the proceeding; and

It is further ordered, That, to avail themselves of the opportunity to be heard, Bill Mathis, Gillespie Broadcasting Company, and Red River Valley Broadcasting Corporation, pursuant to § 1.387 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

Released: January 14, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket Nos. 11673, 11674; FCC 57M-35]

MISSISSIPPI BROADCASTING CO. (WCOC-TV) AND LAUREL TELEVISION CO., INC.

ORDER CONTINUING HEARING

In re applications of Mississippi Broadcasting Company (WCOC-TV), Pachuta, Mississippi; Docket No. 11673, File No. BMPCT-3213; for modification of construction permit. Laurel Television Company, Inc., Laurel, Mississippi; Docket No. 11674, File No. BPCT-2031; for television construction permit (Channel 7).

On the oral request of counsel for the applicants and without objection by counsel for the Broadcast Bureau: *It is ordered*, This 11th day of January 1957, that the hearing now scheduled for January 14, 1957, is continued to Thursday, January 17, 1957, at 9:00 a. m., in the offices of the Commission, Washington, D. C.

[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-365; Filed, Jan. 16, 1957; 8:50 a. m.]

[Docket Nos. 11818, 11819; FCC 57M-36]

SEPIA BROADCASTING CO. AND RADIO PINE BLUFF

ORDER CONTINUING HEARING

In re applications of Mrs. Mary Davis Barland and Mrs. Juanita L. Wilson, d/b as Sepia Broadcasting Company, Little Rock, Arkansas; Docket No. 11818, File No. BP-10125; W. L. Kent tr/as Radio Pine Bluff, Pine Bluff, Arkansas; Docket No. 11819, File No. BP-10526; for construction permits.

The Hearing Examiner having under consideration a petition filed on January 10, 1957, by Radio Pine Bluff, in the above-entitled proceeding, requesting that the exchange of exhibits presently scheduled for January 15, 1957, the further pre-hearing conference presently scheduled for January 24, 1957, and the hearing presently scheduled for January 25, 1957, be continued indefinitely;

It appearing that there is pending before the Commission a petition to dismiss the application of Sepia Broadcasting Company, the other applicant in this proceeding, and for other relief, based upon the failure of Sepia Broadcasting Company to attend the pre-hearing conference held on November 29, 1956, to which Sepia Broadcasting Company has filed no response;

It further appearing that public interest requires an early consideration of the instant petition and good cause has been shown for the grant thereof;

It is ordered, This 11th day of January 1957, that the petition be and it is hereby granted and the dates for the exchange of exhibits, the pre-hearing conference, and the hearing be and the same are hereby postponed until further order, pending disposition of the petition to dismiss now pending before the Commission.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-366; Filed, Jan. 16, 1957; 8:50 a. m.]

[Docket Nos. 11836, 11837; FCC 57-33]

PLAINVIEW RADIO AND STAR OF THE PLAINS BROADCASTING CO.

ORDER AMENDING ISSUES

In re applications of Earl S. Walden, Homer T. Goodwin, and Leroy Durham d/b as Plainview Radio, Plainview, Texas; Docket No. 11836, File No. BP-10200; Troyce H. Harrell & Kermit S. Ashby d/b as Star of the Plains Broadcasting Company, Slaton, Texas; Docket No. 11837, File No. BP-10499; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of January 1957;

The Commission having under consideration a petition to enlarge issues filed on October 29, 1956, by Plainview Radio; oppositions to that petition filed by Star of the Plains Broadcasting Company and the Broadcast Bureau on November 15 and 16, 1956, respectively; and a reply thereto filed on November 23, 1956, by Plainview Radio;

It appearing that Plainview requests in its petition that the issues be enlarged in the above-entitled proceeding to include:

(5) To determine whether Star of the Plains Broadcasting Company filed its above-entitled application for the purpose of impeding, obstructing, or delaying determination on the above-entitled application of Plainview Radio.

(6) To determine the degree of overlap between the operation proposed by Star of the Plains Broadcasting Company at Slaton, Texas, and Station KVOP, Plainview, Texas.

(7) To determine if the overlap, as evidenced under Issue 6, is so substantial as to violate § 3.35 of the Commission's rules and regulations.

(8) To determine, in the light of the record made with respect to the above issues, whether the other qualifications of Star of the Plains Broadcasting Company warrant the granting of its above-entitled application in the public interest, convenience, or necessity.

It further appearing that Plainview filed an application for a new standard broadcast station in Plainview, Texas, and that successively two applications were filed by other applicants which involved interference with the application of Plainview and necessitated a consolidated proceeding, one of these applications, for a station at Santa Rosa, New Mexico, thereafter being dismissed, but both applications involving parties who are connected with the parties presently owning station KVOP, the only existing station in Plainview;

It further appearing that Plainview alleges that Harrell, one of the partners in the Star application, made the statement that Star did not particularly desire 1050 kc, the frequency for which both applications were filed, but any frequency which would be suitable, and that Star has refused to amend to one of two other frequencies which allegedly would be as suitable;

It further appearing that there are categorical denials by each party to statements made by the other in the affidavits attached to the petition, opposition, and reply which so becloud the issue that the Commission at this time is unable to determine the facts of the matter, and thus a full hearing seems necessary;

It further appearing that Ashby, one of the partners in the Star application owns 33.3 percent of the stock of the existing station in Plainview and that the 0.5 mv/m contour of that station will overlap that of the proposed Star operation;

It further appearing that requested issue 8 is merely a restatement of existing issue 5 and that the latter includes all that is contained in the requested issue;

It is ordered, That the subject petition of Plainview to enlarge the issues is granted to the extent that the issues are enlarged by the addition of the above listed new issues 5, 6, and 7; that it is denied as to inclusion of requested issue 8; that existing issue number 5 is redesignated issue 8; and that the burden of proceeding with the introduction of evidence and burden of proof concerning new issues 5, 6, and 7 is placed on Star.

Released: January 14, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-11717]

COLORADO INTERSTATE GAS CO.

ORDER SUSPENDING PROPOSED REVISED TARIFF SHEETS AND PROVIDING HEARING

On December 17, 1956, Colorado Interstate Gas Company (Colorado) tendered for filing Third Revised Sheets 5, 8, and 11, and Second Revised Sheet No. 13g in Colorado's Tariff Original Volume No. 1 and First Revised Sheet No. 2 of Colorado's Tariff First Revised Volume No. 2 and Second Revised Sheet No. 2 in Colorado's Tariff, Original Volume No. 3. Third Revised Sheet 11 and Second Revised Sheet No. 13g pertain to sales of gas for resale for industrial use only. Colorado proposes an effective date of February 1, 1957 for the tendered tariff sheets.

The revised tariff sheets which have been filed pertain to gas sold for resale, for general service, pipeline service, special use and for industrial use only and increase the rates for such classes of sales subject to the jurisdiction of the Commission in the approximate amount of $3,137,000 over those rates presently being collected pursuant to undertakings filed in proceedings at Docket Nos. G-2260 and G-2576.

As a statement in support of such proposed increased rates, Colorado states, among other reasons, that it "• • • will experience a substantial increase in gas purchase costs with the commencement of purchases from Pacific Northwest Pipeline Corporation • • •," and that Colorado has added approximately $48,000,000 in new plant since the test period utilized in the last rate proceedings. In addition, Colorado states that: "It was and is the Company's opinion that it is entitled to a commodity value for its own gas comparable to that received by other producers of gas in this area." Colorado further states that it "• • • will pay an average price of 12.76 cents per Mcf for the gas it purchases at the well head in its supply area. However • • • (Colorado) has not claimed such price in this filing but has used a lower commodity value of 9.76 cents per Mcf • • • without prejudice to any future claim of a higher price." Colorado claims a rate of return of 6.75 percent with the statement that it "• • • will face the need to attract substantial amounts of new capital • • •" and a "• • • rate of return of 6.75 percent is required to accomplish this purpose."

The increased rates and charges proposed in Third Revised Sheets 5, 8, and 11 and Second Revised Sheet No. 13g in Volume 1, First Revised Sheet No. 2 in Volume 2 and Second Revised Sheet

No. 2 in Volume 3 of Colorado's Tariff have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such Act, concerning the lawfulness of the rates, charges, classifications and services of Colorado's FPC Gas Tariffs and contracts related thereto as proposed to be amended by Third Revised Sheets 5, 8, and 11, and Second Revised Sheet No. 13g in Volume 1, First Revised Sheet No. 2 in Volume 2, and Second Revised Sheet No. 2 in Volume 3, and that said tariff sheets, excepting Third Revised Sheet No. 11 and Second Revised Sheet No. 13g in Volume 1 be suspended as hereinafter ordered and the use thereof be deferred pending hearing and decision thereon, except as they may become effective as provided by the Natural Gas Act.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act, a public hearing be held commencing March 4, 1957 at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the lawfulness of the rates, charges, classifications and services contained in Colorado Interstate Gas Company's FPC Gas Tariffs and contracts related thereto as proposed to be amended by Third Revised Sheets 5, 8, and 11 and Second Revised Sheet No. 13g in Volume 1, First Revised Sheet No. 2 in Volume 2 and Second Revised Sheet No. 2 in Volume 3.

(B) Pending such hearing and decision thereon, Colorado Interstate Gas Company's proposed Third Revised Sheets 5, and 8, in Volume 1, First Revised Sheet No. 2 in Volume 2 and Second Revised Sheet No. 2 in Volume 3 of its FPC Gas Tariffs and the same are hereby suspended and the use deferred until July 1, 1957, and until such further time as they may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: January 10, 1957.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 57-339; Filed, Jan. 16, 1957; 8:45 a. m.]

[Docket No. G-11721]

N. B. HUNT

ORDER SUSPENDING PROPOSED CHANGE IN RATES

N. B. Hunt (Hunt) on December 11, 1956, tendered for filing a proposed change in its presently effective rate schedule for a sale of gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description; Purchaser; Rate Schedule Designation; and Effective Date[1]

Notice of change, undated; Texas-Illinois Natural Gas Pipeline Company; Supplement No. 7 to Hunt's FPC Rate Schedule No. 8; January 11, 1957.

The rate proposed to be increased was suspended by orders issued June 13, 1956 and August 9, 1956, in Docket No. G-10564 and was permitted to become effective, subject to refund, by order issued in that proceeding on January 7, 1957.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed increased rate and charge, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed increased rate and charge; and, pending such hearing and decision thereon, the above-designated supplement hereby is suspended and the use thereof deferred until June 11, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of, or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: January 10, 1957.

By the Commission.[2]

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 57-340; Filed, Jan. 16, 1957; 8:45 a. m.]

[1] The stated effective date is the first day after expiration of the required thirty days notice, or the effective date proposed by Hunt, if later.

[2] Commissioner Digby dissenting.

[Docket No. G-10821]

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JANUARY 11, 1957.

Take notice that El Paso Natural Gas Company (Applicant), a Delaware corporation with its principal place of business at El Paso, Texas, filed an application on July 30, 1956, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain previously installed facilities together with certain new proposed facilities, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant seeks authorization for the following existing and proposed facilities:

(a) One existing 2,200 horsepower compressor station, consisting of four portable type compressor units of 550 horsepower each, known as the Largo Canyon Field Station and located in San Juan County, New Mexico, together with dehydration facilities having a capacity of 32,000 Mcf per day, and appurtenances.

(b) Installation of an additional 1,320 horsepower of portable type compressor facilities to Applicant's above existing 2,200 horsepower Largo Canyon Field Station together with additional dehydration facilities having a capacity of 22,000 Mcf per day, and appurtenances.

(c) One new 3,300 horsepower compressor station, together with dehydration facilities having a capacity of approximately 43,000 Mcf per day and appurtenances, to be known as the Ballard Compressor Station and to be located in San Juan County, New Mexico.

The actual cost of the presently installed facilities totals $513,469 and the estimated total cost of the proposed facilities is $1,089,330, for a total of $1,602,799.

The facilities described above will enable Applicant to receive natural gas from the Pictured Cliffs production zone of the San Juan Basin. No additional markets are proposed to be served by Applicant, other than those previously authorized by the Commission.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday February 11, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such supplemented application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 31, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 57-341; Filed, Jan. 16, 1957; 8:46 a. m.]

[Docket No. G-11200]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JANUARY 11, 1957.

Take notice that United Gas Pipe Line Company (Applicant), a Delaware corporation having its principal place of business at 1525 Fairfield Avenue, Shreveport, Louisiana, filed on October 5, 1956, an application, and on November 14, 1956 a supplement thereto for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing it to construct and operate certain natural gas facilities, as hereinafter described, and to render direct natural gas service to a new steam electric generating station of Mississippi Power Company (Mississippi) now under construction near Gulfport, Harrison County, Mississippi, subject to the jurisdiction of the Commission, all as more fully described in the application, which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate an 8-inch tap, 1.0 mile of 8-inch pipeline and sales meter and regulator station, beginning near Milepost 141 on the 12-inch main line that extends from Lirette Field to the Mobile, Alabama Area and extending in a Southeasterly direction to end at the proposed meter station site for the Mississippi Power Company Plant, all located in Sections 7 and 18, Township 7 South, Range 10 West, Harrison County, Mississippi.

The estimated cost of the proposed facilities is $101,156, which will be financed out of current working funds.

Applicant's service agreement with Mississippi provides for the delivery of natural gas on an interruptible basis of a volume up to 22,000 Mcf per day (on a pressure base of 14.9 psia). Applicant estimates annual deliveries of 6,650,000 Mcf.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, February 12, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 1, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 57-342; Filed, Jan. 16, 1957; 8:46 a. m.]

[Docket No. G-11723]

PHILLIPS PETROLEUM CO.

ORDER SUSPENDING PROPOSED CHANGE IN RATES

Phillips Petroleum Company (Phillips), on December 10, 1956, tendered for filing a proposed change in its presently effective rate schedule for a sale subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate, is contained in the following designated filing, which is proposed to become effective on the date shown:

Description; Purchaser; Rate Schedule Designation; and Effective Date

Notice of change, dated December 7, 1956; Natural Gas Pipeline Company of America; Supplement No. 3 to Phillips FPC Gas Rate Schedule No. 257; January 24, 1957.

The increased rate and charge proposed in the aforesaid filing has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed change in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement is hereby suspended and the use thereof defefred until June 24, 1957; and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: January 11, 1957.

By the Commission.[1]

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3679]

KROY OILS LTD.

ORDER SUMMARILY SUSPENDING TRADING

JANUARY 11, 1957.

In the matter of trading on the American Stock Exchange in the 20 cents par value Capital Stock of Kroy Oils Limited, File No. 1-3679.

I. The 20 cents par value Capital Stock of Kroy Oils Limited, an Alberta corporation (hereinafter called "registrant"), is listed and registered on the American Stock Exchange, a national securities exchange (hereinafter called "the exchange").

II. The Commission on November 2, 1956, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act") to determine at a hearing to be held on November 20, 1956, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the Capital Stock of registrant on the exchange for failure to comply with section 13 of the act and the rules and regulations adopted thereunder, in that the Commission has reason to believe that a current report for the month of May 1956; on Form 8-K, filed by registrant with the Commission was false and misleading in certain respects set forth in said order. On January 3, 1957 the Commission issued its order summarily suspending trading of said securities on the exchange pursuant to section 19 (a) (4) of the act for the reasons set forth in said order to prevent fraudulent, deceptive or manipulative acts or practices for

[1] Commissioner Digby dessenting.

a period of ten days from January 4, 1957, to January 13, 1957, inclusive.

III. On November 7, 1956, counsel representing registrant requested a postponement of the hearing under section 19 (a) (2) of the act in order to enable him to prepare for the hearing. Pursuant to this request, the Commission on November 7, 1956, issued its order postponing the date of said hearing to November 26, 1956. Said hearing has commenced but has not yet been concluded by Commission order or decision.

IV. The Commission has reason to believe that the false report filed by registrant as alleged in the order and notice of hearing referred to in paragraph II and the relationship between registrant and Great Sweet Grass Oils Limited, also subject to an order issued concurrently herewith under section 19 (a) (4) of the act, and also subject to an order and notice of hearing under section 19 (a) (2) of the act, which hearing has been consolidated with the hearing referred to in paragraph III, are such as to cause widespread confusion and uncertainty in the market for registrant's shares. Under the circumstances recited in this order, the Commission is of the opinion that it would be impossible for the investing public to reach an informed judgement at this time as to the value of registrant's securities or for trading in such securities to be conducted in an orderly and equitable manner.

V. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the act and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the act that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten day from January 14, 1957 to January 23, 1957, inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 1-3827]

GREAT SWEET GRASS OILS LTD.

ORDER SUMMARILY SUSPENDING TRADING

JANUARY 11, 1957.

In the matter of trading on the American Stock Exchange in the $1.00 par value Capital Stock of Great Sweet Grass Oils Limited, File No. 1-3827.

I. The $1.00 par value Capital Stock of Great Sweet Grass Oils Limited (hereinafter called "registrant") is listed and registered on the American Stock Exchange, a national securities exchange (hereinafter call "the exchange").

II. The Commission on October 19, 1956, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act"), and on October 24, 1956, issued its amended order and notice of hearing under the act to determine at a hearing to be held November 13, 1956, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the Capital Stock of registrant on the exchange for failure to comply with section 13 of the act and the rules and regulations thereunder, in that the Commission had reason to believe that the reports filed by registrant on Form 8-K and Form 10-K were false and misleading in certain respects set forth in said orders. On October 31, 1956, the Commission issued its second amended order and notice of hearing under section 19 (a) (2) of the act restating the allegations in the original and amended orders and including allegations that the Commission had reason to believe that the registrant's current report on Form 8-K for the month of December, 1955, and amendments thereto, and that registrant's annual report on Form 10-K for its fiscal year ended December 31, 1955, and amendments thereto, were false and misleading in additional respects set forth in said order. On November 16, 1956, the Commission issued its third amended order and notice of hearing under section 19 (a) (2) of the act restating the allegations in the original and amended orders and including allegations that the Commission had reason to believe that the registrant's current report on Form 8-K for the month of August, 1955, was false and misleading in certain respects set forth in said order, and that the Form 8-K report for the month of December, 1955, and the Form 10-K report for the fiscal year ended December 31, 1955 were false and misleading in additional respects set forth in said order. On January 3, 1957 the Commission issued its order summarily suspending trading pursuant to section 19 (a) (4) of the act in said securities on the exchange for the reasons set forth in said order to prevent fraudulent, deceptive and manipulative acts or practices from January 4, 1957, to January 13, 1957, inclusive.

III. On November 7, 1956, counsel representing registrant requested a postponement of the hearing under section 19 (a) (2) of the act in order to enable him to prepare for the hearing. Pursuant to this request, the Commission on November 7, 1956, issued its order postponing the date of said hearing to November 26, 1956. Said hearing has commenced but has not yet been concluded by Commission order or decision.

IV. The Commission has reason to believe that the false reports filed by registrant as alleged in the orders and notices of hearing referred to in paragraph II and the relationship between registrant and Kroy Oils Limited, also subject to an order issued concurrently herewith under section 19 (a) (4) of the act, and also subject to an order and notice of hearing under section 19 (a) (2) of the act, which hearing has been consolidated with the hearing referred to in paragraph III, are such as to cause widespread confusion and uncertainty in the market for registrant's shares. Under the circumstances recited in this order, the Commission is of the opinion that it would be impossible for the investing public to reach an informed judgment at this time as to the value of registrant's securities or for trading in such securities to be conducted in an orderly and equitable manner.

V. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the act and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the act that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten days from January 14, 1957 to January 23, 1957, inclusive.

By the Commission.

[File No. 70-3546]

PUBLIC SERVICE COMPANY OF OKLAHOMA

NOTICE OF FILING OF APPLICATION REGARDING THE ISSUANCE AND SALE OF NEW BONDS

JANUARY 11, 1957.

Notice is hereby given that Public Service Company of Oklahoma ("Oklahoma"), a public utility subsidiary of Central and South West Corporation, a registered holding company, has filed an application with this Commission pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act") and the rules and regulations promulgated thereunder. Oklahoma has designated section 6 (b) of the act and Rule U-50 as applicable to the proposed transactions.

All interested persons are referred to the application on file in the offices of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Oklahoma proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $12,000,000 principal amount of its First Mortgage Bonds ("New Bonds"), Series F, to be dated February 1, 1957, and to mature February 1, 1987. The New Bonds will be issued under and secured by an Indenture of Mortgage, dated July 1, 1945, between Oklahoma and The First National Bank and Trust Company of Tulsa, as Trustee, as amended by indentures supplemental thereto and to be further amended by a proposed Supplemental Indenture to be dated February 1, 1957. The interest rate on the New Bonds (which shall be a multiple of ⅛ of 1 percent) and the price, exclusive of accrued interest, to be paid Oklahoma for the New Bonds, which price shall be not less than 97.25 percent and not more than 102.75 percent of the principal amount thereof, will be determined by the competitive bidding.

The application states that the net proceeds (after expenses and exclusive of accrued interest) to be received from the issuance and sale of the New Bonds will be used by the company to pay for a part of the cost of additions, extensions and improvements to its electric utility properties and for the payment or prepayment of short-term bank debt of the company incurred and to be incurred for that purpose. Such bank debt aggregated $6,000,000 at December 10, 1956, and may be increased by about $6,000,000 prior to the receipt by the company of the proceeds of the bonds. It is further stated that Oklahoma's construction expenditures for the calendar years 1957 and 1958 are presently estimated at about $26,200,000 and $24,800,000, respectively.

The application states that no State commission other than the Corporation Commission of the State of Oklahoma, and no Federal Commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than January 28, 1957, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said filing which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application, as filed or as it may hereafter be amended, may be granted, as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

[F. R. Doc. 57-347; Filed, Jan. 16, 1957; 8:47 a. m.]

NEW ENGLAND POWER CO. AND NEW ENGLAND ELECTRIC SYSTEM

[File No. 70-3550]

NOTICE OF FILING REGARDING ISSUANCE AND SALE OF MORTGAGE BONDS AND COMMON STOCK BY SUBSIDIARY OF REGISTERED HOLDING COMPANY AND ACQUISITION OF COMMON STOCK FOR CASH BY PARENT REGISTERED HOLDING COMPANY

JANUARY 11, 1957.

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and its direct subsidiary New England Power Company ("NEPCO"), a public utility company, have made a joint filing with this Commission designating sections 6 (b), 9 (a), and 10 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 promulgated thereunder as applicable to the transactions described therein, which are summarized as follows:

NEPCO proposes to issue and sell $10,000,000 principal amount of Series G Bonds pursuant to the competitive bidding requirements of Rule U-50. The terms and conditions relating to bids provide that each bid shall specify the coupon rate (which shall be a multiple of ⅛ of 1 percent and not in excess of 4¾ percent) and the price, exclusive of accrued interest, to be paid the company, which price shall be not less than the principal amount nor more than 102¾ percent, thereof. The new bonds will be issued under an Indenture of Trust and First Mortgage dated as of November 15, 1936, as amended and supplemented, and as to be further amended by a Sixth Supplemental Indenture dated as of February 1, 1957.

At the present time NEPCO has outstanding 2,478,468 shares of common stock, par value $20 per share, having an aggregate par value of $49,569,360. These shares are all owned by NEES. NEPCO proposes to issue and NEES proposes to acquire 142,857 additional shares of common stock of NEPCO for a total cash consideration of $4,999,995 ($35 a share), this amount being $2,142,855 in excess of the aggregate par value of such shares. The proceeds from the sale of this additional common stock and from the sale of the Series G Bonds are to be applied to the payment of short-term note indebtedness incurred by NEPCO for capitalizable expenditures and the balance, if any, will be used to pay for capitalizable expenditures or to reimburse NEPCO's treasury therefor.

The filing states that no underwriters fees or commissions are to be paid with respect to the proposed issue of common stock. Certain services are to be performed by New England Power Service Company ("NEPSCO"), an affiliated service company, at cost and are estimated not to exceed $300 for NEES and $1,700 for NEPCO. Other expenses to be borne by NEPCO in connection with the issuance of the common stock are original issue stamp taxes of $3,143, a State filing fee of $1,429, and services of legal counsel in Vermont estimated at $100.

The total expenses of NEPCO in connection with the issuance and sale of the Series G Bonds are estimated at an aggregate of $60,000, including $11,000 Federal original issue stamp tax, $8,000 printing cost, $10,000 service charges of NEPSCO, $6,500 service charges of the indenture trustee, and $9,260 for recording fees, advertising and blue-sky fees.

The filing states that the proposed issue and sale of securities by NEPCO are subject to the jurisdiction of this Commission and the Massachusetts Department of Public Utilities, the New Hampshire Public Utilities Commission, and the Vermont Public Service Commission, and that no State commission or Federal commission other than this Commission has jurisdiction in respect of the acquisition of the common stock of NEPCO by NEES.

Notice is further given that any interested person may not later than January 28, 1957, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on this matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by such joint filing which he proposes to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the joint application as filed, or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

[File No. 811-380]

MINNESOTA INVESTORS CORP.

NOTICE OF FILING OF APPLICATION FOR ORDER DECLARING THAT COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

JANUARY 11, 1957.

Notice is hereby given that Minnesota Investors Corporation ("Minnesota"), a registered closed-end; diversified investment company under the Investment Company Act of 1940 ("act"), has filed an application pursuant to section 8 (f) of the act for an order declaring that the applicant has ceased to be an investment company under the act.

The applicant makes the following representations:

At a stockholders meeting on June 30, 1953, it was determined by a vote of approximately 90 percent of all outstanding voting stock to liquidate the company. Pursuant to this determination to liquidate, the assets of the company were converted to cash and by August 31, 1954, all cash on hand was disbursed through payments of a liquidating dividend. At that time the company had a claim against the Minnesota Tax Commission of $1,991.41, which was subsequently paid in full together with interest amounting to $134.40, which resulted in

a final liquidating dividend being paid on February 27, 1956.

The Company represents that complete dissolution was effected February 27, 1956; that there are no shares of stock of any class presently outstanding; that the company has no assets and that total distributions of $28.35 per share on a pro rata basis have been made.

Section 8 (f) of the act provides, in part, that whenever the Commission upon application, finds that a registered investment company has ceased to be an investment company it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than January 29, 1957, at 5:30 p. m. submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request, and the issues if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[File No. 24NY-3908]

ANKLES AWEIGH CO.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JANUARY 11, 1957.

I. Howard Hoyt as "The Ankles Aweigh Company," a company formed to produce a theatrical venture, with principal offices located in New York, N. Y., having filed with the Commission on January 11, 1955, a Notification on Form 1-A and Offering Circular, relating to a proposed offering of pre-formation limited partnership interests not to exceed $240,000, including a 20 percent overcall, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A, promulgated thereunder; and

II. The Commission having been advised that the terms and conditions of said Regulation A have not been complied with in that the issuers have failed to file Form 2-A reports of sales, as required by Rule 224 of Regulation A, and have ignored requests by the Commission's staff for such reports;

III. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

By the Commission.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10695

REVOKING PARAGRAPH 2 (b) OF EXECUTIVE ORDER NO. 10096[1] OF JANUARY 23, 1950, ENTITLED "PROVIDING FOR A UNIFORM PATENT POLICY FOR THE GOVERNMENT WITH RESPECT TO INVENTIONS MADE BY GOVERNMENT EMPLOYEES AND FOR THE ADMINISTRATION OF SUCH POLICY"

By virtue of the authority vested in me by the Constitution and statutes, and as President of the United States, it is hereby ordered as follows:

1. Paragraph 2 (b) of Executive Order No. 10096 of January 23, 1950, relating to the indexing of inventions owned or controlled by the United States, be, and it is hereby, revoked.

2. The Chairman of the Government Patents Board is hereby authorized to transfer to the Department of Commerce any or all of the records heretofore prepared by the Board pursuant to paragraph 2 (b) of Executive Order No. 10096.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
January 16, 1957.

TITLE 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

[P. P. C. 612, Fourth Rev., Supp. 2]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—KHAPRA BEETLE

ADMINISTRATIVE INSTRUCTIONS DESIGNATING PREMISES AS REGULATED AREAS

Pursuant to § 301.76–2 of the regulations supplemental to the Khapra Beetle Quarantine (7 CFR 301.76–2, 20 F. R. 1012) under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), revised administrative instructions issued as 7 CFR 301.76–2a (21 F. R. 9199), effective November 27, 1956, as amended effective December 13, 1956 (21 F. R. 9936), are hereby amended in the following respects:

(a) The designation as regulated areas of the following premises, included in the list contained in paragraph (a) of such instructions, is hereby revoked, and the reference to such premises in the list is hereby deleted, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra bettle in and upon such premises:

ARIZONA

C-Bar-B Ranch, Bouse (31 miles northeast of Bouse).
Snyder Ranch, Box 31, Tacna.
Vita-Gro Feed Mill, Mesa.

NEW MEXICO

Elgin E. Fowler Farm, Route 1, Floyd.

(b) The following premises are added to the list, contained in paragraph (a) of such instructions, of warehouses, mills, and other premises in which infestations of the khapra beetle have been determined to exist. Such premises are thereby designated as regulated areas within the meaning of said quarantine and regulations:

ARIZONA

Antelope Union High School property, Wellton.
Carl Baldridge Calf Lot, P. O. Box 1984, Parker.
Eichenauer Hay Sales property, 1301 North 40th Street, Phoenix.
Glendale Feed & Seed Company property, 1110 East Glendale Avenue, Glendale.
L. E. Knowlton Calf Lot, P. O. Box 1751, Parker.
F. P. Nielson & Sons property, 116 West 4th Avenue, Mesa.
Phoenix Indian School Farm, Scottsdale.
Ralston Purina Company property, 535 South 14th Street, Phoenix.

CALIFORNIA

Rudnick Trust Feed Lot, 1½ miles west of Oak Street, on Panama Lane. Mail address, P. O. Box 548, Bakersfield.

(c) The following premises are added to the list, contained in paragraph (b) of such instructions, of premises in which infestations of the khapra beetle have been determined to exist. The portion of the following premises in which live

khapra beetles were found has received the approved fumigation treatment, but these premises must continue under frequent observation and inspection for a period of one year following fumigation before a determination can be made at to the adequacy of such treatment to eradicate the khapra beetle in and upon such premises. During this period regulated articles may be moved from the premises only in accordance with the regulations in this subpart.

CALIFORNIA

Niland Food Market (store), west side of 200 block, east side of Highway 111, Niland.

(d) The item appearing in the list, contained in paragraph (a) of such instructions under the subhead California, as "F. J. Hauseur & Sons Feed Lot, located 2 miles south of Orita, 1½ miles east on Oxalio Canal, Brawley," is changed to read: "Cal-Fed Feed Yard, located 2 miles south of Orita, 1½ miles east on Oxalio Canal, Brawley."

This amendment shall become effective January 18, 1957.

This amendment revokes the designation as regulated areas of certain premises, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra beetle in and upon such premises. It also adds premises to the list of premises in which khapra beetle infestations have been determined to exist, and designates such premises as regulated areas under the khapra beetle quarantine and regulations.

As an informative item, the amendment also segregates certain regulated premises in California where the approved fumigation treatment has been applied to the portion of the premises in which live khapra beetles were found and which are consequently in a somewhat different category than untreated premises.

This amendment in part imposes restrictions supplementing khapra beetle quarantine regulations already effective. It also relieves restrictions insofar as it revokes the designation of presently regulated areas. It must be made effective promptly in order to carry out the purposes of the regulations and to permit the interstate movement, without restriction under the quarantine, of regulated products from the premises being removed from designation as regulated areas. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest, and good cause is found for making the effective date thereof less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 9, 37 Stat. 318; 7 U. S. C. 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 15th day of January 1957.

[SEAL] E. D. BURGESS,
Chief,
Plant Pest Control Branch.

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 723—CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO

FINDINGS AND DETERMINATIONS; NATIONAL MARKETING QUOTA

Finding and determination of cigar-binder (types 51 and 52) tobacco as a kind of tobacco separate from the types 42, 43, 44, 53, 54 and 55 compromising cigar-filler and binder tobacco, proclamation of a national marketing quota for cigar-binder (types 51 and 52) tobacco and of a national marketing quota for cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco, for the three marketing years beginning October 1, 1957, and announcement of the amounts of and the apportionments of the national marketing quotas for the 1957–58 marketing year among the several States.

Sec.
723.801 Basis and purpose.
723.802 Findings and determinations with respect to cigar-binder (types 51 and 52) tobacco as a kind of tobacco separate from the types 42, 43, 44, 53, 54 and 55 compromising cigar-filler and cigar-binder tobacco.
723.803 Findings and determinations with respect to the national marketing quota for cigar-binder (types 51 and 52) tobacco for the marketing year beginning October 1, 1957.
723.804 Findings and determinations with respect to the national marketing quota for cigar-filler and cigar-binder tobacco, types 42, 43, 44, 53, 54 and 55, for the marketing year beginning October 1, 1957.

AUTHORITY: §§ 723.801 to 723.804 issued under sec. 375, 52 Stat. 66, as amended 7 U. S. C. 1375. Interpret or apply secs. 301, 312, 313, 52 Stat. 38, as amended, 46, as amended, 47, as amended; 7 U. S. C. 1301, 1312, 1313.

§ 723.801 *Basis and purpose.* (a) The regulations contained in §§ 723.801 to 723.804 are issued (1) to announce the findings and determinations of the Secretary that there is a difference in the supply and demand conditions for types 51 and 52 tobacco as compared with the supply and demand conditions for types 42, 43, 44, 53, 54 and 55 tobacco comprising cigar-filler and cigar-binder tobacco which results in a difference in the adjustments needed in the marketings thereof in order to maintain supplies in line with demand, and that cigar-binder (types 51 and 52) tobacco shall be considered as a kind of tobacco separate from the types 42, 43, 44, 53, 54 and 55, comprising cigar-filler and cigar-binder tobacco; (2) to announce the reserve supply level and the total supply of (i) cigar-binder (types 51 and 52) tobacco, and (ii) cigar-filler and cigar-binder tobacco (types 42, 43, 44, 53, 54 and 55) for the marketing year beginning October 1, 1956; (3) to proclaim a national marketing quota for cigar-binder (types 51 and 52) tobacco and a national marketing quota for cigar-filler and binder tobacco (types 42, 43, 44, 53, 54 and 55) tobacco for each of the 1957–58, 1958–59 and 1959–60 marketing years; (4) to announce the national marketing quotas for (i) cigar-binder (types 51 and 52) tobacco, and (ii) cigar-filler and cigar-binder tobacco (types 42, 43, 44, 53, 54 and 55) for the marketing year beginning October 1, 1957; and (5) to apportion the national marketing quotas among the several States. The findings and determinations by the Secretary contained in §§ 723.802, 723.803 and 723.804 have been made on the basis of the latest available statistics of the Federal Government and after due consideration of data, views, and recommendations received from cigar-filler and cigar-binder tobacco producers and others as provided in notices (21 F. R. 7493 and 10317) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since the Agricultural Adjustment Act of 1938, as amended, requires the holding of referenda of producers of cigar-binder (types 51 and 52) tobacco and of producers of cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco within 30 days after the issuance of the proclamations of the national marketing quotas for such respective kinds of tobacco to determine whether such producers favor marketing quotas, and requires insofar as practicable the mailing of notices of farm acreage allotments to farm operators prior to the date of the respective referenda, it is hereby found that compliance with the 30-day effective date provisions of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the findings and determinations and the proclamations and apportionments of the quotas contained herein shall become effective upon the date of their filing with the Director, Division of the Federal Register.

§ 723.802 *Findings and determinations with respect to cigar-binder (types 51 and 52) tobacco as a kind of tobacco separate from cigar-filler and cigar-binder (types 42, 43, 44, 53, 54 and 55) tobacco.* (a) Cigar-binder (types 51 and 52) tobacco is more acutely affected than are types 42, 43, 44, 53, 54 and 55 tobacco by the development and use of processed binders in the manufacture of cigars since a much larger proportion of types 51 and 52 have traditionally been used for binder purposes than any of the other binder types. The 1956 and 1957 Soil Bank goals for types 51 and 52 as contrasted with goals for other types were based on cognizance of this situation.

(b) Difference has been found to exist in the supply and demand conditions for cigar-binder (types 51 and 52) tobacco as among other types of cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco resulting in a difference in the adjustment needed in the 1957 crop of such tobacco to maintain supplies of cigar-binder (types 51 and 52) tobacco in line with demand, and it is hereby determined that cigar-binder (types 51 and 52) tobacco shall be treated as a separate kind of tobacco for the purpose of marketing quotas and price support on the 1957 and subsequent crops of such tobacco.

§ 723.803 *Findings and determinations with respect to the national marketing quota for cigar-binder (types 51 and 52) tobacco for the marketing year beginning October 1, 1957*[1]—(a) *Reserve supply level.* The reserve supply level for cigar-binder (types 51 and 52) tobacco is 64,700,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 21,500,000 pounds and a normal year's exports of 1,500,000 pounds.

(b) *Total supply.* The total supply of cigar-binder (types 51 and 52) tobacco for the marketing year beginning Octo-

[1] Rounded to the nearest tenth of a million pounds.

ber 1, 1956, is 64,900,000 pounds consisting of carryover of 52,500,000 pounds and estimated 1956 production of 12,400,000 pounds.

(c) *Carryover.* The estimated carryover of cigar-binder (types 51 and 52) tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1957, is calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1956, of 23,400,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The total supply of cigar-binder (types 51 and 52) tobacco exceeds the reserve supply level and marketing quotas for cigar-binder (types 51 and 52) tobacco for the 1957–58, 1958–59, and 1959–60 marketing years are hereby proclaimed. The amount of cigar-binder (types 51 and 52) tobacco which will make available during the marketing year beginning October 1, 1957, a supply of cigar-binder (types 51 and 52) tobacco equal to the reserve supply level of such tobacco is 23,200,000 pounds, and a national marketing quota of such amount is hereby announced.

(e) *Apportionment of the quota.* The national marketing quota for cigar-binder (types 51 and 52) tobacco is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Connecticut	8,870
Massachusetts	4,539
New Hampshire	1
New York	1
Vermont	0
Reserve [1]	67

[1] Acreage reserved for establishing allotments for new farms.

§ 723.804 *Findings and determinations with respect to the national marketing quota for cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco for the marketing year beginning October 1, 1957* [1]—(a) *Reserve supply level.* The reserve supply level for cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco is 104,100,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 35,600,000 pounds and a normal year's exports of 700,000 pounds.

(b) *Total supply.* The total supply of cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco for the marketing year beginning October 1, 1956 is 104,700,000 pounds consisting of carryover of 81,100,000 pounds and estimated 1956 production of 23,600,000 pounds.

(c) *Carryover.* The estimated carryover of cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1957 is calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1956 of 35,200,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The total supply of cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco exceeds the reserve supply level and marketing quotas for cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco for the 1957–58, 1958–59 and 1959–60 marketing years are hereby proclaimed. The amount of cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco which will make available during the marketing year beginning October 1, 1957, a supply of cigar-filler and binder tobacco equal to the reserve supply level of such tobacco is 34,600,000 pounds, and a national marketing quota of such amount is hereby announced.

(e) *Apportionment of the quota.* The national marketing quota for cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Illinois	7
Indiana	1
Iowa	8
Minnesota	242
New York	104
Ohio	4,948
Pennsylvania	254
Wisconsin	17,408
Reserve [1]	115

[1] Acreage reserved for establishing allotments for new farms.

Done at Washington, D. C., this 15th day of January, 1957. Witness my hand and the seal of the Department of Agriculture.

[SEAL] EARL L. BUTZ,
Acting Secretary.

[1023-Allotments-(Cigar-Filler and Binder Tobacco-57)-1]

PART 723—CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO

MARKETING QUOTA REGULATIONS, CIGAR-FILLER AND BINDER TOBACCO 1957–58 MARKETING YEAR; OLD FARMS

This amendment is based on the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, applicable to tobacco (7 U. S. C. 1311–15) hereinafter referred to as the "act", and is made for the purpose set forth, as discussed, that it has been found in the course of determining preliminary allotments, that 1 percent of acreage allotted in the State for the 1956–57 marketing year is inadequate, except in the case of cigar-binder (types 51 and 52) tobacco, to make due allowance for the factors specified in section 313 (b) of the act and establish allotments which are fair and equitable among farms in a community. The amendment increases the acreage available for such purposes from 1 percent to 4 percent of the acreage allotted in the State for the 1956–57 marketing year.

Since tobacco farmers are making their 1957 farming plans and need to know the 1957 tobacco acreage allotments for their farms as soon as possible, and as farmers are required insofar as practicable to be notified of allotments prior to the date of the referendum which must be within 30 days following the proclamation not later than February 1, 1957 of the national marketing quotas, it is hereby found and determined that compliance with the notice, public procedure and 30-day effective date provisions of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the amendment contained herein shall become effective upon the date of filing with the Director, Division of the Federal Register.

Section 723.818 is hereby amended to read as follows:

§ 723.818 *Adjustment of acreage allotments for old farms, correction of errors, and allotments for overlooked old farms.* Notwithstanding the limitations contained in § 723.816, the individual 1957 farm acreage allotment heretofore established for an old farm may be increased if the county committee justifies such increase to the satisfaction of the State committee or its representative as being necessary to establish an allotment for such farm which is fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. The acreage available in the State for increasing allotments as above described under this Section, correction of errors, and providing acreage allotments for overlooked farms shall not exceed in the case of types 42, 43, 44, 53, 54 and 55 tobacco 4 percent of the total acreage allotted to all farms in the State for the production of such types of tobacco for the 1956–57 marketing year, and shall not exceed in the case of cigar binder (types 51 & 52) tobacco one percent of the total acreage allotted to all farms in the State for the production of such types of tobacco for the 1956–57 marketing year.

(Sec. 375, 52 Stat. 66 as amended; 7 U. S. C. 1375. Interprets or applies sec. 313, 52 Stat. 47, as amended, 7 U. S. C. 1313)

Done at Washington, D. C., this 15th day of January, 1957. Witness my hand and the seal of the Department of Agriculture.

[SEAL] EARL L. BUTZ,
Acting Secretary.

[F. R. Doc. 57-374; Filed, Jan. 17, 1957; 8:45 a. m.]

[1] Rounded to the nearest tenth of a million pounds.

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 811, Amdt. 1]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

REQUIREMENTS AND QUOTAS FOR 1957

Basis and purpose. The purpose of Sugar Regulation 811 is to determine, pursuant to section 201 of the Sugar Act of 1948, as amended (hereinafter called the "act"), the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1957 and to establish, pursuant to section 202 of the act, sugar quotas for the supplying areas in terms of short tons of sugar, raw value, equal to the quantity determined by the Secretary of Agriculture to be needed in 1957 and to prescribe the time in which quotas may be filled. Further, this regulation establishes (1) the amounts of certain quotas that may be filled by direct-consumption sugar, pursuant to section 207 of the act, (2) liquid sugar quotas pursuant to section 208, and (3) limitations on total importations to effectuate Article 7 of the International Sugar Agreement pursuant to section 411 of the act.

The act requires that the Secretary shall revise the determination of sugar requirements at such times during the calendar year as may be necessary. It now appears that an increase in the estimate of requirements for the calendar year 1957 is necessary. The purpose of this amendment is to make such determination conform to the requirements indicated on the basis of the factors specified in section 201 of the act, as amended and give effect to the revised determination.

The quotas and prorations established herein differ from those in effect under Sugar Regulation 811 (21 F. R. 10332). To permit areas for which larger quotas or prorations are hereby established to plan to market or to market in an orderly manner the larger quantity of sugar, it is essential that this amendment be made effective immediately. Therefore, it is hereby determined and found that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), is impracticable, unnecessary and contrary to the public interest. The amendments made herein shall become effective upon publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, 65 Stat. 318, 7 U. S. C. 1100, Public Law 545, 84th Congress), and the Administrative Procedure Act (60 Stat. 237), §§ 811.90, 811.91 (a) and 811.92, of Sugar Regulation 811 (21 F. R. 10332) are amended to read as hereinafter set forth.

1. Section 811.90 is amended to read:

§ 811.90 *Sugar requirements, 1957.* The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1957 is hereby determined to be 9,000,000 short tons, raw value.

2. Section 811.91 (a) is amended to read:

§ 811.91 *Quotas for domestic areas.* (a) For the calendar year 1957 quotas for sugar to be brought into or marketed for consumption in the continental United States from domestic areas are established in column (1) and the amounts of such quotas for offshore areas that may be filled by direct-consumption sugar are established in column (2) as follows:

(Short tons, raw value)

Country	(1) Quotas	(2) Direct-consumption limits
Republic of the Philippines	980,000	50,920
Cuba	3,001,295	375,000
Peru	75,207	9,560
Dominican Republic	61,657	8,523
Mexico	44,409	15,481
Nicaragua	11,731	10,208
Haiti	6,179	6,179
Netherlands	3,453	3,453
China	3,386	3,386
Panama	3,386	3,386
Costa Rica	3,381	3,381
Canada	631	631
United Kingdom	516	516
Belgium	182	182
British Guiana	84	84
Hong Kong	3	3
All other countries	0	0

3. Section 811.92 is amended to read:

§ 811.92 *Quotas for foreign countries.* For the calendar year 1957, quotas for sugar to be imported into the continental United States for consumption therein from foreign countries are established in column (1) and the amount of each such quota that may be filled by direct-consumption sugar is established in column (2), as follows:

(Short tons, raw value)

Area	(1) Quota	(2) Direct-consumption limit
Domestic beet sugar	1,953,952	no limit
Mainland cane sugar	601,250	no limit
Hawaii	1,060,496	30,700
Puerto Rico	1,140,253	133,064
Virgin Islands	15,549	000

STATEMENT OF BASES AND CONSIDERATIONS

Requirements. Sugar requirements for 1957, on December 20, 1956, were initially determined to be 8,800,000 short tons, raw value. This quantity was intended to provide fully for probable consumption in 1957 and a slight increase in stocks to be held by refineries, other distributors and users. Initial announcement of quotas of such magnitude provided a basis for supplying areas to plan effectively to make such a total supply available.

Since December 20 the spot and futures prices for world sugar have continued to rise sharply and on January 9, the spot price for world sugar rose above that for quota sugar after allowance for the prevailing freight rate from Cuba to New York. On January 9, the spot price for quota sugar which had been stable since the issuance of the determination also increased 5 cents per 100 pounds. On January 10, the spot price for world sugar increased further by 25 cents per 100 pounds.

In view of these price trends, it is desirable to establish quotas which will provide supplying areas a basis for reserving additional supplies to cover potential demands in the continental United States for increasing inventories as well as for current use. Establishing quotas totaling 9,000,000 tons should allay any apprehension of United States consumers regarding the availability of sugar to meet their requirements in 1957 despite changes in world prices.

Quotas. The quotas herein established were determined in compliance with the specific procedures provided in section 202 of the act for translating the total sugar requirements into quotas for individual areas and countries.

The amounts of the quotas which may be filled by direct-consumption sugar were established pursuant to section 207 of the act, which specifies the quantity for some countries and provides the procedure for determining the others.

Done at Washington, D. C., this 11th day of January, 1957.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153)

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 57-377; Filed, Jan. 17, 1957; 8:46 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 941—MILK IN CHICAGO, ILLINOIS, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 941.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act.

(2) The parity price of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than February 1, 1957. Any delay beyond that date in the effective date of this order would tend to disrupt the orderly marketing of milk in the aforesaid marketing area and would defeat the purpose of the amendment. The amendment action of this order amending the order is known to handlers. The public hearing was held on June 4, 6 and 7, 1956, and the recommended decision was issued September 24, 1956 (21 F. R. 7373). The final decision was issued by the Assistant Secretary on December 20, 1956 (21 F. R. 10408). Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for not delaying the effective date of this order for 30 days after its publication in the FEDERAL REGISTER (section 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations or producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the Chicago, Illinois, marketing area) of more than 50 percent of the milk which is marketed within said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (July 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Delete § 941.6 and substitute therefor the following:

§ 941.6 *Reload point.* "Reload point" means any location at which milk moved from the farm in a tank truck is commingled with other milk before entering a plant, except that reloading operations on the premises of a plant shall be considered a part of the plant's operations.

2. Delete § 941.41 (c) (1) and substitute therefor the following:

(1) Condensed milk (sweetened or unsweetened) disposed of to commercial food processors located within the surplus milk manufacturing area, sweetened condensed milk in hermetically sealed cans, evaporated milk, whole milk powder, nonfat dry milk, malted milk, and condensed skim milk (the products specified in this subparagraph are referred to hereinafter as Class III (a) milk);

3. Delete § 941.70 (d) and substitute therefor the following:

(d) Subtract the amount of any location adjustment to producers allowable pursuant to paragraphs (d) and (e) of § 941.81.

4. Delete § 941.71 (b) and substitute therefor the following:

(b) Add the aggregate of location adjustments to producers allowable pursuant to § 941.81 (a).

5. Delete § 941.80 and substitute therefor the following:

§ 941.80 *Time and method of payment for producer milk.* (a) On or before the 15th day after the end of each delivery period each handler shall pay to each cooperative association which is also a handler for milk received from it during the delivery period not less than the total value of such milk computed by multiplying the pounds of such milk in each class by the applicable class price subject to the location adjustment credit pursuant to § 941.53, or to the location adjustments to producers allowable pursuant to paragraphs (b) and (c) of § 941.81, whichever is applicable at the plant where the milk is received by the cooperative association and to a butterfat differential computed pursuant to § 941.82.

(b) On or before the 18th day after the end of each of the delivery periods of July through February each handler shall pay to each producer per hundredweight of milk received from him during such delivery period, respectively, not less than the uniform price, for such delivery period, subject to the location adjustments and butterfat differential provided by §§ 941.81 and 941.82.

(c) On or before the 18th day after the end of each of the delivery periods March through June each handler shall pay to each producer per hundredweight of base milk received from him during such delivery period, respectively, not less than the uniform price for base milk, and for excess milk received from such producer the handler shall pay not less than the uniform price for excess milk, subject in the case of both base milk and excess milk to the location adjustments and butterfat differential provided by §§ 941.81 and 941.82.

6. Delete § 941.81 and substitute therefor the following:

§ 941.81 *Location adjustments to producers.* In making payments to producer pursuant to § 941.80 (b) and (c), each handler shall:

(a) Deduct per hundredweight of milk received from producers at a pool plant located more than 70 miles from the City Hall in Chicago, 2 cents for each 15 miles, or fraction thereof, greater than 70 miles;

(b) Add 2 cents per hundredweight of milk received from producers at a pool plant located outside the marketing area but not more than 55 miles from the City Hall in Chicago;

(c) Add 4 cents per hundredweight of milk received from producers at a pool plant located within the marketing area;

(d) Add 4 cents per hundredweight of milk received from producers whose farms are located in the territory lying within the City of Kenosha, the townships of Pleasant Prairie, Bristol and Salem in Kenosha County, all in the State of Wisconsin; the townships of Richmond, Burton, Greenwood, McHenry, Seneca, Dorr, Nunda, Coral, Grafton and Algonquin in McHenry County, Lake County, Kane County, Cook County, Du Page County, Kendall County, Will County; the townships of Saratoga, Aux Sable, Goose Lake and Felix in Grundy County; and the townships of Rockville, Manteno, Sumner, Yellowhead, Bourbonnais, Ganeer and Momence in Kankakee County, all in the State of Illinois; and Lake County, and Porter County, except Pleasant Township all in the State of Indiana, which territory shall be known as Zone A; and

(e) Add 2 cents per hundredweight of milk received from producers whose farms are located in the territory lying within the City of Racine, the townships of Raymond, Caledonia, Burlington, Dover, Yorkville and Mount Pleasant in Racine County; the townships of Brighton, Paris, Somers, Wheatland and Randall in Kenosha County; the townships of Lyons, Linn and Bloomfield, of Walworth County, all in the State of Wisconsin; the townships of Chemung, Alden, Hebron, Dunham, Hartland, Marengo and Riley in McHenry County; the townships of Boone, Bonus and Spring in Boone County, DeKalb County, the townships of Earl, Adams, Northville, Serena, Mission, Dayton, Rutland, Miller and Manlius, in LaSalle County; the townships of Nettle Creek, Erienna, Norman, Morris, Wauponsee, Vienna, Mason, Maine, Braceville, Good Farm, Garfield and Greenfield in Grundy County; the townships of Essex, Salina, Limestone, Kankakee, Norton, Pilot, Otto, Aroma, St. Anne, and Pembroke, in Kankakee County; the townships of Chebanse, Papineau and Beaverville in Iroquois County, all in the State of Illinois; the townships of Lake, Lincoln, McClellan, Colfax, Beaver and Jackson in Newton County; the townships of Keener, Union, Wheatfield, Walker and Kankakee in Jasper County; Pleasant township in Porter County; the townships of Dewey, Prairie, Cass, Hanna, Clinton, Noble, New Durham, Scipio, Coolspring, Center, Kankakee, Michigan, Springfield and Galena in LaPorte County, all in the State of Indiana; and the townships of New Buffalo, Three Oaks and Chikaming in Berrien County in the State of Michigan, which territory shall be known as Zone B.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 15th day of January 1957, to be effective on and after February 1, 1957.

[SEAL] EARL L. BUTZ,
Acting Secretary.

[F. R. Doc. 57-392; Filed, Jan. 17, 1957; 8:48 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter D—Exportation and Importation of Animals and Animal Products

[B. A. I. Order 379, Amdt. 6]

PART 92—IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS

CATTLE FROM MEXICO

Pursuant to the provisions of the act of August 30, 1890, as amended (21 U. S. C. 102–105), and section 2 of the act of February 2, 1903, as amended (21 U. S. C. 111), § 92.35 of the regulations governing the importation of certain animals and poultry and certain animal and poultry products (9 CFR, 1955 Supp., 92.35), is hereby amended by changing paragraph (c) to read as follows:

§ 92.35 *Cattle from Mexico.* • • •

(c) *Brucellosis.* (1) All bulls and female cattle for entry into the United States from Mexico shall be detained or quarantined at the port of entry, and, except as provided in subparagraph (2) of this paragraph, a blood sample shall be obtained from each animal and an agglutination test made for brucellosis. Animals not negative to the test shall be refused entry.

(2) The following classes of animals shall not be required to be tested under the provisions of subparagraph (1) of this paragraph:

(i) Cattle for immediate slaughter;

(ii) Animals under six months of age; and

(iii) Female calves which are officially vaccinated against brucellosis at the port of entry by a veterinarian at no expense to the Department, under supervision of the inspector, with a vaccine approved by the Agricultural Research Service of the Department, and which are permanently identified by a tattoo in the right ear or a "V" fire brand on the right jaw as approved by the Agricultural Research Service.

The effect of this amendment is to impose certain additional restrictions on the importation of cattle from Mexico and to provide vaccination measures at the port of entry, optional with the importers, which, if complied with, will make female calves eligible for entry into the United States without a test for brucellosis. The amendment should be made effective promptly in order to protect the livestock of the United States and to be of maximum benefit to affected persons. Accordingly, under provisions of section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure concerning this amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER.

(Secs. 6, 7, 8, 10, 26 Stat. 416, as amended, sec. 2, 32 Stat. 792, as amended; 21 U. S. C. 102–105, 111)

Done at Washington, D. C., this 14th day of January 1957.

[SEAL] M. R. CLARKSON,
Acting Administrator.

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

Subchapter F—Rehabilitation and Neighborhood Conservation Housing Insurance

PART 266—HOME RELOCATION INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING SINGLE FAMILY DWELLINGS

MISCELLANEOUS AMENDMENTS

1. In § 266.1, paragraph (a) is amended by adding to the listed provisions the following:

§ 266.1 *Incorporation by reference.* (a) • • •

§ 221.41 Rental properties.

2. Part 266 is amended by adding two new §§ 266.7a and 266.10a as follows:

§ 266.7a *Deferred sale of properties.* A mortgagor may, subject to such terms and conditions as the Commissioner may prescribe, be permitted to sell properties subject to insured mortgages on a deferred payment basis, such as an installment contract or lease with an option to purchase.

§ 266.10a *Rental for transient or hotel purposes.* No single-family dwelling, if it is a part of a group of five or more single-family dwellings held by the same mortgagor, or any part or unit thereof, shall be rented or offered for rent for transient or hotel purposes, so long as such dwelling is subject to an insured mortgage.

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b. Interpret or apply sec. 221, 68 Stat. 599, as amended; 12 U. S. C. 1715l)

Issued at Washington, D. C., January 15, 1957.

NORMAN P. MASON,
Federal Housing Commissioner.

Chapter III—Public Housing Administration, Housing and Home Finance Agency

PART 300—GENERAL PROCEDURAL PROVISIONS

REPRESENTATIVE APPEARANCES BEFORE THE PHA OF FORMER GOVERNMENT EMPLOYEES

Part 300 of Title 24, Code of Federal Regulations, is amended by adding the following new section:

§ 300.5 *Representative appearances before the PHA of former Government Employees—(a) Authorization to appear in representative capacity.* No former officer or employee of the United States or anyone knowingly acting on behalf of or under the direct supervision of such person, may, within a period of two years after the termination of such employment, appear in a representative capacity before the PHA unless, in each matter, he obtains prior approval as prescribed herein. The term "representative capacity" shall mean the function of rendering representative services to any person, firm, corporation, or association.

(b) *Form of request.* A request by a former officer or employee of the United States to appear in a representative capacity before the PHA shall be made by letter, in duplicate, addressed to the Director of the Regional Office or head of the Central Office Division before which such former officer or employee desires to appear. Each such request must set forth, under oath, the following information:

(1) A brief description of his duties and functions while employed with the Government, and the duration of his employment.

(2) The subject and scope of the matter in which he desires to appear in a representative capacity.

(3) Whether the consideration of the matter would have devolved upon any division, branch, or other unit in which he was employed, either during or subsequent to his employment therein.

(4) Whether while he was employed by the Government, the matter was pending therein; and, if it was so pending:

(i) Whether he gave personal consideration to it, or had any knowledge thereof while so employed; and

(ii) Whether he is assisting or will be assisted by any person who has personally considered it or gained personal knowledge thereof while employed by the Government.

(c) *Violations.* Any former officer or employee of the United States violating the provisions of this section will be barred from appearing in a representative capacity before the PHA for such time as the Commissioner may prescribe. Also, if it appears that any violations of law are involved the matter will be referred to the Department of Justice.

(d) *Approval or denial of requests.* The Regional Director or Division Head to whom a request is made is authorized to solicit such information as he may deem necessary and to approve or deny the request, subject to appeal to the Commissioner as provided for below. No approval to appear in a representative capacity before the PHA will be granted if such appearance would be in violation of law or otherwise contrary to the public interest, or might involve an improper exercise of personal influence by the applicant. The applicant will be notified of the decision in writing, and the notification will include, for the applicant's guidance, a copy of a document entitled "Excerpt From Memorandum No. 40 of the Department of Justice to Prosecuting Authorities, August 27, 1953," construing Title 18 U. S. C. 284. Letters of approval will include a statement that the approval does not constitute a finding on the part of the PHA as to the relationship of the proposed representation to the provisions of Title 18 U. S. C. 284. Letters of denial will include a statement of the reasons for the decision and a statement that the applicant may, within 10 days, appeal to the PHA Commissioner.

(e) *Appeals.* An appeal for review by the Commissioner shall be made in writing and shall be submitted to the Regional Director or Division Head concerned. The applicant will be notified in writing of the Commissioner's decision.

(Sec. 8, 50 Stat. 891; 42 U. S. C. 1408)

Date approved: January 8, 1957.

[SEAL] CHARLES E. SLUSSER,
Commissioner.

[Amdt. 5]

PART 570—WASHINGTON NATIONAL AIRPORT

DEMONSTRATIONS

Correction

In Federal Register Document 57-10276, published on page 10008, December 18, 1956, "Airport Directors" in § 570.51 should read "Airport Director."

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

PART 171—MISCELLANEOUS REGULATIONS RELATING TO LIQUOR

EDITORIAL NOTE: Subpart H (§§ 171.300–171.310), and Subpart I (§§ 171.320–171.341) of Part 171 are deleted from the Code of Federal Regulations.

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 13—ADMISSION, GUIDE, ELEVATOR, AND AUTOMOBILE FEES

COLONIAL NATIONAL HISTORICAL PARK

1. Section 13.3 *Commercial passenger-carrying vehicles, Colonial National Historical Park,* is amended to read as follows:

§ 13.3 *Commercial passenger-carrying vehicles, Colonial National Historical Park.* (a) Permits issued by the Superintendent shall be required for the operation of commercial passenger-carrying vehicles, including taxicabs, carrying passengers for hire on any portion of the Colonial Parkway, Colonial National Historical Park. The fees for such permits shall be as follows:

(1) Annual permit for the calendar year: $3.50 for each passenger-carrying seat in the vehicle to be operated.

(2) Quarterly permit for a period beginning January 1, April 1, July 1, or October 1: $1.00 for each passenger-carrying seat in the vehicle to be operated.

(3) Permit good for one day, 5-passenger vehicle: $1.00.

(4) Permit good for one day, more than 5-passenger vehicle: $3.00.

2. Paragraph (d) of § 13.13 *Admission fees, miscellaneous,* is amended to read as follows:

(d) A fee of 25 cents shall be charged each person entering the Government area on Jamestown Island and Glasshouse Point in Colonial National Historical Park, except members of the Association for the Preservation of Virginia Antiquities. The fee shall be combined with a fee of 25 cents per person charged for admission to the area owned by the Association for the Preservation of Virginia Antiquities and included within the Jamestown National Historic Site, and during the period from April 1 through November 30, 1957, with a fee of 50 cents per person for admission to the Festival Center to be operated in the State Park by the Commonwealth of Virginia. Officials of the National Park Service, the Commonwealth of Virginia, and the Association for the Preservation of Virginia Antiquities may admit the general public to the areas under their jurisdiction without charge upon special occasions, and official complimentary passes issued by any of the three parties shall be honored by the other parties.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

These amendments shall become effective on April 1, 1957.

FRED A. SEATON,
Secretary of the Interior.

JANUARY 12, 1957.

[F. R. Doc. 57-380; Filed, Jan. 17, 1957; 8:47 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular 1968]

PART 188—ASPHALT LEASES

On pages 6957 to 6959, inclusive, of the FEDERAL REGISTER of September 14, 1956, there was published a notice of proposed rule making to implement asphalt regulations pursuant to the authority vested in the Secretary of the Interior by the act of June 28, 1944 (58 Stat. 463, 483–485). Interested persons were given 30 days in which to submit written comments, suggestions, or objections with respect to the proposed regulations.

As the result of comments received within the 30-day period, which were carefully considered, the proposed regulations are hereby adopted with the following change: The third sentence of § 188.20 (a) is revised to delete language which was inadvertently included in the notice of proposed rule making, since the act does not authorize prospecting for asphalt deposits. The sentence is revised to read as follows: "The approval of a transfer will not extend the renewal periods of the lease."

FRED A. SEATON,
Secretary of the Interior.

JANUARY 12, 1957.

A new Part 188, is added to Chapter I, Title 43 of the Code of Federal Regulations, reading as follows:

PART 188—ASPHALT LEASES

GENERAL

Sec.
188.1 Authority to lease.
188.2 Lands applicable.
188.3 Definitions.
188.4 Area and limitation on holdings.
188.5 Qualifications of applicant.
188.6 Leases for lands disposed of with reservation of asphalt deposits.
188.7 Requirements when lands are within a withdrawal.

ASPHALT LEASES

188.8 Form of lease.
188.9 Lease bond.
188.10 Royalty and rental.
188.11 Minimum production.
188.12 Application for lease by competitive bidding.
188.13 Notice of lease offer.
188.14 Bid deposits.
188.15 Award of lease.
188.16 Modification and leasing of additional land or asphalt deposits.
188.17 Renewal leases.
188.18 Relinquishment of lease.
188.19 Cancellation of lease.

TRANSFERS OF LEASES

188.20 Transfers, including subleases.
188.21 Limitation on overriding royalties.

AUTHORITY: §§ 188.1 to 188.21, issued under sec. 32, 41 Stat. 450; 30 U. S. C. 189. Interpret or apply 58 Stat. 483–485, 63 Stat. 76, 84; 16 U. S. C. 482n–1.

GENERAL

§ 188.1 *Authority to lease.* The act of June 28, 1944 (58 Stat. 463, 483–485), authorizes the Secretary of the Interior to lease asphalt deposits in certain lands situated in Oklahoma, acquired under the provisions thereof.

§ 188.2 *Lands applicable.* The lands or asphalt deposits subject to the regulations in this part are those situated in Oklahoma which were (a) sold to the United States under the terms of a contract executed October 8, 1947, by and between the Secretary of the Interior and officials of the Choctaw and Chickasaw Nations of Indians in Oklahoma, which contract was ratified by the act of June 24, 1948 (62 Stat. 596), and (b) acquired when the purchase price provided in the contract was appropriated by the act of May 24, 1949 (63 Stat. 76, 84).

§ 188.3 *Definitions.* The following terms, as used in this part, or in any lease approved under the regulations in this part, shall have the meanings here given:

(a) *Secretary.* The Secretary of the Interior or any person duly authorized to exercise the powers vested in that officer.

(b) *Land Office.* The Land Office, Bureau of Land Management, Santa Fe, New Mexico, for lands covered by a lease or application therefor, situated in the State of Oklahoma.

(c) *Manager.* The Manager of the Land Office as defined in paragraph (b) of this section.

(d) *Mining Supervisor.* The Regional Mining Supervisor of the Geological Survey for the State in which the lands under lease or application therefor are situated.

§ 188.4 *Area and limitation on holdings.* Except where the rule of approximation applies, a lease may not include over 640 acres in reasonably compact form. No person, association or corporation may hold, either directly or indirectly, leases for an area that exceeds in the aggregate 2,560 acres.

§ 188.5 *Qualifications of applicant.* (a) As used in this section, "applicant" means an applicant for lease under § 188.12, the successful bidder to whom a lease is awarded under § 188.15, or an assignee or transferee under § 188.20.

(b) Leases may be issued to citizens of the United States, association of citizens, and corporations organized under the laws of the United States or of any State or Territory thereof.

(c) All applicants must file with the Manager statements and evidence as follows (unless previously filed, in which event a reference by serial number to the record and where it is filed, together with a statement as to any amendment, will be accepted):

(1) As to citizenship, whether native born or naturalized.

(2) If applicant is an association (including a partnership), it must submit a certified copy of the articles of association and the same showing as to the citizenship and holdings of its members as required of an individual.

(3) A corporation must submit a statement showing:

(i) The State in which it is incorporated.

(ii) That it is authorized to hold leases for asphalt deposits and that the person executing an instrument on behalf of the corporation is authorized to act in such matters.

(iii) The percentage of voting stock, of all the stock owned by aliens and of all the stock owned by those having addresses outside of the United States. When the stock owned by aliens is over 10 percent, additional information may be required.

(iv) The name, address, citizenship, and acreage holdings of any stockholder owning or controlling 20 percent or more of the stock of any class, of the corporation.

(4) That holdings do not exceed the acreage limitations specified in § 188.4.

§ 188.6 *Leases for lands disposed of with reservation of asphalt deposits.* Where lands included in a lease have been or may be disposed of with reservation of the asphalt deposits, rights of surface use are subject to the provisions of the law under which such reservation was made. See the act of February 19, 1912 (37 Stat. 67), and the act of August 3, 1955 (69 Stat. 445), and the regulations thereunder, in Part 119 of this chapter.

§ 188.7 *Requirements when lands are within a withdrawal.* Where any part of the lands embraced in an application for asphalt lease is within a withdrawal which does not preclude disposition of the asphalt deposits, the head of the Government agency having control will be called upon for a report as to whether there is any objection to the granting of an asphalt lease. Where he recommends that a special stipulation be required to protect the interest of the United States, an appropriate stipulation may be included in the lease.

ASPHALT LEASES

§ 188.8 *Form of lease.* Leases shall be issued on Form 4–1320.[1]

§ 188.9 *Lease bond.* A compliance bond, in no event less than $1,000, with approved corporate surety (Form 4–1113), or the lessee's personal bond in similar amount (Form 4–1114), will be required prior to the issuance of a lease. Personal bonds must be secured by negotiable Federal securities in the amount of the bond. If the amount of the bond is fixed at $1,000, the lessee may, instead, furnish a bond on Form 4–1113 with two qualified individual sureties, as provided in § 191.13 of this chapter. The right is reserved at any time before or after issuance of the lease to require an increase of the amount of the bond, whether a corporate, personal or individual surety bond, in any case where the Bureau of Land Management deems it proper to do so.

§ 188.10 *Royalty and rental.* (a) The rate of royalty shall be fixed prior to the issuance of the lease but in no event shall it be less than 25 cents per ton of two thousand pounds of marketable production.

(b) Beginning with the date of the lease, annual rental payable in advance for each acre or part thereof covered by the lease shall be 25 cents for the first calendar year or fraction thereof, 50 cents for the second, third, fourth and fifth calendar years, respectively, and $1 for each calendar year thereafter during the continuance of the lease, such rental for any year to be credited against royalties accruing under the lease during the year for which the rental was paid.

§ 188.11 *Minimum production.* (a) Each lease will provide for the mining of asphalt deposits from the lands involved and the payment of royalty thereon to a value of not less than $1 an acre or fraction thereof each year, beginning with the sixth full calendar lease year, except when operations are interrupted by strikes, the elements, or casualties not attributable to the lessee or unless operations are suspended upon a showing that the lease can not be operated except at a loss because of unfavorable market conditions.

(b) Applications by lessees for relief from the production requirement of leases shall be filed, in triplicate, with the Mining Supervisor, who is authorized to grant such relief. A copy of each application shall be filed in the land office. Complete information must be furnished showing the necessity for such relief.

§ 188.12 *Application for lease by competitive bidding.* (a) An application for lease must be filed in duplicate in the land office. A filing fee of $10, which will be retained as a service charge in any event, must accompany the application. No specific form is required, but the application should include the following:

(1) The applicant's name and address.

(2) If the requested lands are surveyed, they should be described by legal subdivisions, showing meridian, township, range, and section; if not surveyed, by metes and bounds connected by courses and distance with some corner of the public land survey. When possible, the approximate legal subdivisions of unsurveyed lands should be stated.

(3) Evidence that the land is valuable for its asphalt content, with a statement as to the character, extent, and mode of occurrence of the asphalt deposits.

(b) The application must be signed by applicant, or by his attorney in fact, supported by the power of attorney.

(c) If it be found that the area applied for is not available for leasing, the applicant will be so informed.

[1] A copy of this, as well as of every other form mentioned in this part, may be obtained from the Land Office, Santa Fe, New Mexico, or from the Director, Bureau of Land Management, Washington 25, D. C.

§ 188.13 *Notice of lease offer.* Notice of offer of lands or deposits for lease will be by publication once a week for four consecutive weeks or for such other period as may be determined, in a newspaper of general circulation in the county in which the lands or deposits are situated. The notice will state the time and place of sale, whether the sale will be at public auction or by sealed bids, the description of the lands and the place where a detailed statement of the terms and conditions of the lease offer and the obligations of the successful bidder to pay for publication of that notice may be obtained. A copy of the notice will be posted in the land office during the period of publication. The detailed statement will set forth the terms and conditions of the sale, including the manner in which bids may be submitted, and statements (a) that the successful bidder will be required, prior to the issuance of a lease, to pay his proportionate share of the total cost of publication of the notice of lease offer, and that the successful bidder's share shall be that proportion of the total advertising cost, that the number of parcels of land awarded to him bears to the number of parcels for which high bidders are declared, and (b) that the Government reserves the right to reject any and all bids. If any bid be rejected, the deposit will be returned. The commission of any act of intimidation of bidders, or the combination of bidders to hinder or prevent bidding, is unlawful. See 18 U. S. C. 1860.

§ 188.14 *Bid deposits.* The successful bidder at a sale by public auction must deposit with the Manager of the Land Office, or the officer conducting the sale, on the date of the sale, and each bidder at a sale by sealed bids, must submit with his bid, certified check, cashier's check, bank draft, money order, or cash for one-fifth of the amount of the bid, and evidence of qualifications as required by § 188.5 (c).

§ 188.15 *Award of lease.* (a) Upon receipt of the high bid at, and at the close of, an oral auction, or the opening of the sealed bids, the Manager, subject to his right to reject any and all bids, will award the lease to the successful bidder, who will be notified accordingly. Four copies of the lease will be sent to the successful bidder, who will be required, within 30 days from receipt thereof, to execute them, pay the balance of the bonus bids, the first year's rental, and the cost of publication of the notice of lease offer as specified in § 188.13, and file a bond as required by § 188.9. If a bidder, after being awarded a lease, fails to execute it or otherwise comply with the applicable regulations, his deposit will be forfeited and deposited in the general fund of the Treasury of the United States. (See act of June 28, 1944, 58 Stat. 483, 485). If the lease awarded to the successful bidder is executed by an attorney acting in behalf of the bidder, the lease must be accompanied by evidence that the bidder authorized the attorney to execute the lease.

(b) If the bidder dies before the lease is issued, the lease will be issued to the executor or administrator of the estate if probate of the estate has not been completed; if probate has been completed, or is not required, to the heirs or devisees; and if there are minor heirs or devisees, to their legal guardian or trustee in his name, provided there is filed in all cases the following information:

(1) Where probate of the estate has not been completed:

(i) Evidence that the person, who as executor or administrator submits forms of lease and bond, has authority to act in that capacity and to sign such forms.

(ii) Evidence that the heirs or devisees are the heirs or devisees of the deceased lessee and are the only heirs or devisees of the deceased.

(iii) A statement over the signature of each heir or devisee concerning citizenship and holdings similar to that required by § 188.5 (c) (1) and (4).

(2) Where the executor or administrator has been discharged or no probate proceedings are required:

(i) A certified copy of the will or decree of distribution, if any, and if not, a statement signed by the heirs that they are the only heirs of the lessee and citing the provisions of the law of the deceased's last domicile showing no probate is required.

(ii) A statement over the signature of each of the heirs or devisees with reference to citizenship and holding similar to that required by § 188.5 (c) (1) and (4), except that if the heir or devisee is a minor, the statement must be over the signature of the guardian or trustee.

(3) Where there is a legal guardian or trustee:

(i) A certified copy of the court order authorizing the guardian or trustee to act as such and to fulfill in behalf of the minor or minors all obligations of the lease or arising thereunder; statements by the guardian or trustee as to the citizenship and holding of each of the minors and as to his own citizenship and holdings, including his holdings for the benefit of other minors similar to that required by § 188.5 (c) (1) and (4).

§ 188.16 *Modification and leasing of additional lands or asphalt deposits.* A lessee may obtain modification of his lease to include asphalt lands or asphalt deposits contiguous to those embraced in his lease if the Manager shall determine, after consultation with the Mining Supervisor, that it will be to the advantage of the lessee and the United States, but in no event shall the area embraced in such modified lease exceed in the aggregate 640 acres, except where the rule of approximation applies. The lessee must file his application for modification in duplicate in the land office describing the additional land desired, the reasons for and the advantage to the lessee of such modification. Upon determination by the Manager that the modification is justified and the interest of the United States is protected, the lease will be modified without competitive bidding to include such part of the land or deposits as he shall prescribe. If, however, it is determined that the additional lands or deposits can be developed as part of an independent operation or that there is a competitive interest in them, they may be offered as provided in § 188.13. Each application for modification must be accompanied by a filing fee of $10 which will not be returnable.

§ 188.17 *Renewal leases.* An application for a renewal lease must be filed in duplicate in the land office within 90 days prior to the expiration of the lease term. Thereafter, the lessee will be notified of the terms and conditions to be prescribed in the renewal lease. Unless the lessee filed written objections to the proposed terms, or files a relinquishment of the lease within 30 days after receipt of such notice, he will be deemed to have agreed to such terms and to the renewal of the lease. Prior to the issuance of a renewal lease, the lessee will be required to submit a satisfactory bond as prescribed in § 188.9. Each application for renewal must be accompanied by a filling fee of $10 which will not be returnable.

§ 188.18 *Relinquishment of lease.* Upon a satisfactory showing that the public interest will not be impaired, the lessee may surrender the entire lease or any legal subdivision thereof. A relinquishment must be filed in duplicate in the land office. Upon its acceptance it shall be effective as of the date it is filed, subject to the continued obligation of the lessee and his surety to make payment of all accrued rental and royalties and provide for the preservation of any mines or productive works or permanent improvements on the lands relinquished in accordance with the regulations and terms of the lease.

§ 188.19 *Cancellation of lease.* If the lessee fails to comply with the general regulations in force at the date of the lease, or defaults with respect to any of the terms, covenants, or stipulations of the lease, and such failure or default continues for 30 days after service of written notice thereof by the lessor, then the lessor may bring appropriate court proceedings to forfeit and cancel the lease as provided in section 31 of the Mineral Leasing Act of February 25, 1920, as amended (30 U. S. C. 188). A waiver of any particular cause of forfeiture shall not prevent the cancellation and forfeiture of the lease for any other cause, or for the same cause occurring at any other time.

TRANSFERS OF LEASES

§ 188.20 *Transfers, including subleases.* (a) Leases may be transferred in whole or in part. The approval of a transfer of part of the land in a lease will create a new lease for the transferred portion. The approval of a transfer will not extend the renewal periods of the lease. Transfers, whether by direct assignments, operating agreements, subleases, working or royalty interests, or otherwise, must be filed for approval in duplicate at the land office within 90 days after execution. Evidence of the qualifications of the assignee or transferee to hold the lease, as required by § 188.5 must be submitted simultaneously. Before a transfer of a lease will be approved, the transferee must submit a new bond, or the consent of the surety on the lease bond to the substitution of the transferee as principal thereon, and the lease account must be in good standing. If the transfer is for part of the land only, it must be for a legal subdivision and (1) the consent of the surety to the transfer and its agreement to remain bound as to the interest retained by the lessee must be submitted, as well as (2) a new bond with the transferee as principal covering the portion of the lands transferred. A transfer will take effect the first day of the month following its approval, or if the transferree requests, in writing, the first day of the month of the approval.

(b) An application for approval of any instrument transferring a lease, or interest therein, must be accompanied by a service fee of $10. An application not accompanied by such a fee will not be accepted. The fee will not be returned even though the application is later withdrawn or rejected.

(c) No transfer will be approved if the transferee is not qualified to take and hold a lease or if his bond is insufficient. A minor, except a minor heir or devisee of a lease, is not qualified to hold a lease and a transfer to a minor will not be approved.

(d) In order for the heirs or devisees of a deceased holder of a lease, an operating agreement, or a royalty interest in a lease, to be recognized by the Department as the holder of the lease, agreement or interest, there must be furnished the appropriate showing required under § 188.15 (b).

(e) The assignor or sublessor and his surety will continue to be responsible for the performance of any obligation under the lease until the assignment or sublease is approved. If the assignment or transfer is not approved, their obligations to the United States shall continue as though no such assignment or transfer had been filed for approval. After approval the assignee or sublessee and his surety will be responsible for the performance of all lease obligations notwithstanding any terms in the assignment or sublease to the contrary.

§ 188.21 *Limitation on overriding royalties.* An overriding royalty interest shall not be created by assignment or otherwise exceeding 50 percent of the rate of royalty first payable to the United States under the lease or an overriding royalty interest which when added to any other overriding royalty interest exceeds that percentage, excepting that where an interest in the leasehold, or operating agreement is assigned, the assignor may retain an overriding royalty interest in excess of the above limitation if he shows to the satisfaction of the Bureau of Land Management, that he has made substantial investments for improvements on the land covered by the assignment.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 942]

[Docket No. AO-103-A15]

MILK IN NEW ORLEANS, LA., MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Correction

In the first paragraph of Federal Register Document 57-250, appearing at page 263, January 12, 1957, the date "January 27, 1957" should read "January 28, 1957."

[7 CFR Parts 960, 963]

[Docket Nos. AO-253-A2, AO-233-A6]

MILK IN AKRON, OHIO, AND STARK COUNTY, OHIO, MARKETING AREAS

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provision of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), public hearings were conducted at Akron, Ohio, on August 22, 1956, pursuant to notice thereof which was issued on August 1, 1956 (21 F. R. 5846).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on December 27, 1956, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision and opportunity to file written exceptions thereto which was published in the FEDERAL REGISTER on December 29, 1956 (21 F. R. 10508).

The material issues of record relate to:

(1) The merger of orders No. 60 and No. 63 regulating the handling of milk in the Akron, Ohio, and Stark County, Ohio, marketing areas;

(2) The extent to which the present provisions of Order No. 60 (other than those involved in the issues listed below) are appropriate for the merged marketing area;

(3) The determination and level of the price for Class I milk;

(4) The pricing of milk used to produce cottage cheese; and

(5) Distribution of returns to producers by means of eligible milk quotas.

Findings and conclusions. The following findings and conclusions are based on the evidence presented at the hearing and the record thereof.

1. Order No. 63 regulating the handling of milk in the Stark County, Ohio, marketing area should be consolidated with Order No. 60 regulating the handling of milk in the Akron, Ohio, marketing area and in the marketing area of the merged order there should also be included two sections of land in Stark County, Ohio, not now included in the marketing area of either order.

The presently defined Akron and Stark County marketing areas are, with one minor exception, contiguous to each other. When the Stark County order was issued in 1952, the northern boundary of the marketing area was defined in considerable detail (by sections in Green Township of Summit County and by lots in Suffield Township of Portage County) in an attempt to establish the precise point at which major distribution of milk by Stark County handlers ceased and distribution by Akron handlers became more important. Sections 6 and 7 of Lake Township, Stark County, were omitted from the marketing area because of distribution of Akron milk in the village of Uniontown. When the Akron order was issued, effective February 1955, the area included all of Summit County and all of Suffield Township of Portage County other than those areas defined in the Stark County marketing area. Sections 6 and 7 of Lake Township, Stark County, were omitted, although distribution by Akron handlers still continued to be important and all sales in this area are by Akron and Stark County handlers.

There has long been substantial completion in procurement and sales of milk between Akron and Stark County dealers. For considerable time an Akron handler has made substantial milk sales in the Stark County area. Handlers in the Akron marketing area regularly distribute milk packaged in a Stark County plant, a situation recognized by the allocation provisions of the Akron order. One distributor with a plant subject to each order transfers milk and producers between the Akron and Stark County markets. Intermarket sales and movements of milk have accelerated recently. Two Akron handlers now have permits to sell milk in Canton, the largest city of the Stark County area. Health requirements for production and handling of milk for fluid consumption are sufficiently uniform that milk acceptable to any of the municipalities of the area moves freely throughout the area.

Stark County producers are interspersed with Akron producers throughout the southeastern two-thirds of the area from which the larger Akron market draws its milk supply. Because of competition for milk in this general area between Akron, Stark County and the nearby Cleveland market, it has been necessary to bring Akron and Stark County Class I prices into precise align-

ment with each other and into close alignment with the Cleveland price.

The extent to which overlapping and intermingling of production and sales of milk have developed makes it clear that no clearly defined boundary between the areas any longer exists.

Producer organizations and handlers of both areas uniformly support a merger of the Akron and Stark County orders to regulate the entire area under one regulation. The principal advantages of this action will be the stability provided producers by reflecting in one uniform price the Class I sales of all handlers, rather than dividing these sales into two separate pools; and greater freedom to handlers for movements of milk within the entire area without distinction as to the individual market pools affected. Integration into a single market has in this instance progressed to the point that these objectives should be achieved by providing a single regulation governing the two presently defined marketing areas. Also included in the combined marketing area should be sections 6 and 7 of Lake Township, Stark County. These sections are in all respects similar to the adjacent territory now included in the respective separate orders.

To accomplish the merger effectively and most equitably the assets in the custody of the market administrator in the administrative marketing service and producer-settlement funds under the Stark County order should be merged with assets in similar funds under the Akron order when the merger is effected. To distribute such funds under the Stark County order to Stark County producers and handlers, would unduly burden handlers and producers now regulated by the Akron order. To distribute the funds under both orders and again accumulate the necessary reserves would entail considerable administrative detail to no good purpose.

2. *Applicability of provisions of Akron order to merged order.* While there are many differences in language between the Akron and Stark County orders, there are relatively few differences in substantive effect as applied to the marketing conditions that prevail in the areas presently defined. The majority of the provisions of a milk order apply to the individual operations of handlers in determining the classification and minimum value of receipts of milk from producers by each handler. The effect of similar provisions of such nature in two separate orders are not changed when the two orders are combined into a single regulation.

A few of the differences between the present orders are of an administrative nature such as the manner in which prices are stated, dates on which payroll reports are required, offers of reimbursement by cooperatives as a prerequisite to receipt of payments of dues or for milk of their members, or certificates of use required with respect to classification of milk transferred to nonpool plants. With respect to these matters the provisions of the present Akron order appear to be applicable to the combined marketing area.

As indicated elsewhere in this decision the Akron order provides that milk in bottled form classified and priced under another Federal order that is received by an Akron handler, be assigned to the same classification in the Akron handler's plant as under the other order. The Stark County order has no such provision. While its chief use under the Akron order has been with respect to receipts of Stark County milk, need for free movement of packaged milk from the nearby Cleveland market justifies retention of the provision.

A butter-cheese formula price now serving only as an alternative basis for pricing Class II milk under the Stark County order has never been effective. The Akron order does not include provision for use of this price. There is no reason for including this price in the order for the combined area.

The provisions of the Akron order which permit classification as Class II milk in all months of milk disposed of to manufacturers of soup, candy or bakery products, are appropriate for the classification of milk now regulated by the Stark County order, under which such classification is now limited to certain months.

The Akron order provides for the adjustment of prices to producers by a weighted average butterfat differential computed on the basis of the class use of butterfat in producer milk. This results in a somewhat higher differential than that provided in the Stark County order. Producers of both markets supported the use of weighted average differential in distributing to producers the value of milk in the combined pool. This differential reflects the value of butterfat under the order in accordance with its use.

The Stark County order provides for public announcement by the market administrator of the percentage of producer milk used in each class by each handler. It was proposed that a similar provision be included in the combined order. The principal justification for such provision appears to be its value to cooperative associations in allocating milk of their members to handlers in accordance with their need. Cooperative associations should be informed as to the use of milk of their member producers supplied to handlers. Public announcement of percentage utilization by classes for each handler is not required, however, in order to provide this information to cooperative associations with respect to use of milk of their members. Accordingly, it is provided that the market administrator provide such information to cooperative associations, if they so request, without public announcement.

It is in the related provisions with respect to producers whose milk is to be priced, pool plants, the receipts of which are fully regulated, and the provisions applicable to nonpool plants doing business in the area that there are more substantial differences between the two orders. The Akron order specifies that milk of producers must have approval of a health authority of the marketing area; the Stark County order contains no such requirement, but does provide price and pooling differentials applicable to milk received at plants which do not have a health authority permit from either Canton, Massillon, or Alliance, the principal cities of the area. All plants making route distribution of Class I milk in the Akron area, except plants located out of the area with sales of less than 300 points daily on routes entering the area, are subject to full regulation. Plants subject to full regulation under the Stark County order must distribute 18,000 pounds or more of Class I milk on routes entering the marketing area, and, if located outside the area, such distribution must be 10 percent or more of the plants' total Class I distribution. Except for reporting, plants with sales of less than 300 points in the Akron area are exempt from regulation; nonpool plants make payments with respect to Class I sales in the Stark County marketing area. The pool plant requirements of the Stark County order were largely designed to avoid full regulation of Akron plants with minor sales in the Stark County area. Regulation of the Akron area has removed need for certain of these requirements. It was proposed that the Akron pool plant provisions be retained for the merged area, but that provision be made to include as producers, dairy farmers without health authority approval, if their milk is received at a plant which distributes milk only in those portions of the marketing area for which health authorities do not exercise jurisdiction with respect to approval of milk for fluid consumption.

In Stark County, health authority approval is required only for distributors of milk in the cities of Canton, Massilon and Alliance. Despite the fact that there is very substantial urban population outside these cities, there is little milk distributed in Stark County from plants without permits issued by these cities or the recognized health authorities of the Akron area. Milk of only about 20 producers is presently subject to the pricing and pooling differentials of the Stark County order. Stark County is expected in the near future to operate a milk inspection program. Producers supplying nonpermit plants are frequently paid without deduction of the differential provided in the order.

There is little need to continue provision for regulation of nonpermit milk. The volume of such milk has declined to the point that it is no longer a serious competitive factor in the market. Plants presently operating on a nonpermit basis must compete for supplies with regulated plants. The nominal (300 point) pooling requirements would, however, provide considerable incentive for outside manufacturing plants to pool their receipts on the basis of minimum sales in the area. It is concluded that plants dealing only in nonpermit milk should be exempt from pricing and pooling and that health authority approval should be required for all milk to be considered as producer milk under the order.

3. The price for Class I milk under the combined order should continue to be maintained in fixed alignment with that of the Cleveland market.

The price for Class I milk under each of the existing Akron and Stark County orders is established as 5 cents less than that under Order No. 75, regulating the handling of milk in the nearby Cleveland market. These Class I pricing provisions each expire January 31, 1957. Such price alignments and expiration date were established in the Akron order as originally issued effective February 1955, and in the Stark County order were included by amendment effective April 1, 1956. For some two years prior to that date, the Stark County price had been maintained at approximately this relationship to the Cleveland price, with some variations resulting from amendment of the Cleveland order without corresponding change in the Stark County order, and from minor differences in supply-demand adjustment provisions.

Producers proposed that the Class I price of the order for the combined marketing area be established by adding each month a Class I differential of $2.25 to a price identical with the Cleveland basic formula price, subject to adjustment by the supply-demand provisions of the Cleveland order. The Cleveland Class I differential is $1.40 for the months of February through July and $1.85 for other months. The proposal would thus provide a Class I price for the Akron-Stark County market 85 cents above the Cleveland price six months of the year and 40 cents above for the other six months, an annual overage of 62.5 cents.

The Akron-Stark County market is closely related to the Cleveland market in both procurement and sale of milk. The Akron-Stark County milkshed lies entirely within the area from which Cleveland draws milk supplies. Many Cleveland producers in this area deliver their milk direct to bottling plants in the Cleveland marketing area; there are, in addition, some Cleveland supply plants within the Akron-Stark County milkshed to which other Cleveland producers deliver milk. Sales competition is particularly keen. One Akron-Stark County handler operates 30 or more dairy stores in the Cleveland marketing area, from which he has substantial Class I sales. Other Akron-Stark County handlers also sell milk in the Cleveland marketing area. Several Cleveland handlers have substantial sales in the Akron-Stark County area. One such handler began serving a number of stores in Canton two days prior to the hearing. There is also substantial competition for sales between Akron-Stark County and Cleveland handlers at points outside the designated marketing areas. At least one handler with plants under each order can and does shift producers and sales outlets between these plants. The competition for supplies and sales was a major factor in establishment of the price alignments now prevailing.

To provide Class I prices averaging 62.5 cents more than the Cleveland price would place Akron-Stark County handlers at a competitive sales disadvantage. The proponents of the price proposals presented at the hearing recognized the necessity for alignment of prices between Akron-Stark County and Cleveland but insisted that changes in the seasonal pattern and level of the Class I price should be made in both markets. They further asserted the logic of making the changes they advocated in the Akron-Stark County order to be later followed by appropriate changes in the Cleveland order. Such a procedure of parallel amendment would require future hearings in each market to maintain the necessary price alignment whenever there was need for any change in pricing provisions. Official notice is hereby taken that at a public hearing held in Cleveland October 10–12, 1956, evidence was received with respect to the seasonality, level, and supply-demand adjustment of the Class I price for that market, and that Akron-Stark County producers and handlers had opportunity to and did present evidence at such hearing.

In view of the larger volume of milk in the Cleveland pool and the evidence in this record that the Akron-Stark County market depends upon the Cleveland market for supplemental supplies, rather than vice-versa, it is considered appropriate that price alignment with the Cleveland market be maintained by specifying the Akron-Stark County Class I price in terms of the Cleveland price.

The present 5-cent differential has been based on (1) a difference no longer in effect in the classification and pricing of fluid cream sales under the Cleveland order at the time the Akron order was issued, and (2) a lower average farm to plant hauling cost to Akron-Stark County plants than to Cleveland plants for farmers in the area of common supply. Farm to plant hauling cost comparisons presented for this record were principally to plants in Akron and in Cleveland and showed, in some instances, slightly higher hauling costs to Cleveland plants.

While hauling rates to Stark County plants are in the record, competitive rates from the Stark County production area to Cleveland are not. At the present price alignment Akron and Stark County producer blend prices have averaged somewhat higher than Cleveland producer prices, due to higher Class I utilization. At the present differential the Akron-Stark County market is at no disadvantage in competing for supplies with the Cleveland market in the supply area common to the two markets. To eliminate the differential would merely accentuate the differences in blend prices in the common supply area. Despite the higher Cleveland Class I price and transportation costs on packaged milk, a Cleveland handler has recently opened sales outlets in Canton. The present price alignment is evidently such that Cleveland handlers can compete for sales throughout the area. It is concluded that the Akron-Stark County Class I price should continue to be the Cleveland Class I price less 5 cents.

4. The price of Class II milk used to produce cottage cheese should be increased 30 cents.

Milk used to produce cottage cheese is presently classified as Class II milk under the Akron and Stark County orders, a class which includes all milk manufacturing uses. Under the Cleveland order milk used to produce cottage cheese is classified separately as Class II milk and other milk manufacturing uses are Class III milk. The Cleveland Class II milk is priced 30 cents higher per hundredweight than Cleveland Class III milk or Akron-Stark County Class II milk. It was proposed that the Akron-Stark County price for Class II milk used to produce cottage cheese be 30 cents per hundredweight more than that for other Class II uses.

While cottage cheese uses and sales under all three orders have increased in the past year, production of cottage cheese has increased much more rapidly in Akron-Stark County plants than in Cleveland plants. There is indication in this record that some cheese production for the Cleveland market has been shifted to Akron-Stark County plants.

The recommended decision issued in this proceeding proposed to deny the proposed increase in price of Class II milk used to produce cottage cheese. This decision was based in part on the possible diversion of cottage cheese production to nonpool plants with resulting difficulties in disposition of Class II milk. Cooperative associations in their exceptions pointed out adequate facilities in the market for disposition of Class II milk.

The close competition between Cleveland and Akron-Stark County handlers makes desirable a close alignment of prices of milk used for production of cottage cheese. After a review of the record concerning this proposal, it is concluded that the order should price Class II milk used to produce cottage cheese at an additional 30 cents above the price for other Class II milk.

5. A quota plan similar to that of the Cleveland market should be adopted as a means of encouraging more even production of milk during the year. Eligible milk quotas should be established during the short production months (beginning in 1957) for use in the following flush season as a basis for distribution of returns to producers. For milk delivered in excess of his established quota each producer would receive approximately the Class II price, while for deliveries within the quota the price would be based on the relationship of Class I sales to quota deliveries of all producers.

Such plans have been effective in many markets in encouraging a more even flow of milk throughout the year. The chief advantage of the plan is that each producer sets his own quota by his fall deliveries. The price for deliveries within this quota in the following spring is not reduced by the volume of excess milk. Each producer can realize the results of his own efforts to achieve level seasonal production. Such a plan has been in effect in the Cleveland market the past year. The interrelationship of the Cleveland and Akron-Stark County production areas make it highly desirable that a similar plan be in effect in the Akron-Stark County market. The extent to which the necessary alignment of class prices may be maintained depends to a considerable extent upon alignment of provisions to encourage a desirable seasonal pattern of production.

It was proposed that the months (October, November and December) used in the Cleveland market to establish quotas also be used in the Akron-Stark County

market. It was also proposed that payments on the quota plan be made for the months of April, May and June as in Cleveland, and that other provisions of the plan be essentially the same as those under the Cleveland order. Certain handlers suggested that the provisions be written so that any amendments made in the plan for the Cleveland market be automatically adopted for the Akron-Stark County market. Producers opposed this provision and one cooperative association testified that no change should be made until the plan had been in operation two years.

It is concluded that, with one minor exception, the plan should be identical with that effective in the Cleveland market. The Cleveland plan provides for transfer of quotas between producers. Since quotas are used only for a three-month period, provision for widespread quota transfers are not necessary and may provide opportunity for minimizing the effectiveness of the plan in leveling production. Provision should be adopted for transfer of quotas in case of death of a producer or dissolution of joint holdings.

Rulings on exceptions. In arriving at the findings and conclusions and the regulatory provisions of this decision, each of the exceptions received was carefully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled.

Order of the secretary directing conduct of a referendum: determination of representative period; and designation of referendum agent. Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted to determine whether the issuance of the attached amended order regulating the handling of milk in the Akron-Stark County, Ohio, marketing area is approved or favored by the producers as defined under the terms of said amended order and who during the following determined representative period were engaged in the production of milk for sale within the aforesaid marketing area.

The month of October 1956 is hereby determined to be the representative period for the conduct of such referendum.

W. W. Hurwitz is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 10th day from the date this referendum order is issued.

General findings. (a) The proposed marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the proposed marketing agreement and in the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, the said marketing agreement upon which a hearing has been held.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Akron-Stark County, Ohio, Marketing Area," and "Order, as Amended, Regulating the Handling of Milk in the Akron-Stark County, Ohio, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 14th day of January 1957.

[SEAL] EARL L. BUTZ,
Acting Secretary.

Order,[1] as Amended, Regulating the Handling of Milk in the Akron-Stark County, Ohio, Marketing Area

Sec.

960.0 Findings and determinations.

DEFINITIONS

960.1 Act.
960.2 Secretary.
960.3 Marketing area.
960.4 Handler.
960.5 Pool plant.
960.6 Nonpool plant.
960.7 Producer.
960.8 Producer milk.
960.9 Other source milk.
960.10 Producer-handler.
960.11 Route.
960.12 Person.
960.13 Department of Agriculture.
960.14 Cooperative association.
960.15 Eligible milk.
960.16 Ineligible milk.

MARKET ADMINISTRATOR

960.20 Designation.
960.21 Powers.
960.22 Duties.

REPORTS, RECORDS AND FACILITIES

960.30 Monthly reports of receipts and utilization.
960.31 Other reports.
960.32 Records and facilities.
960.33 Retention of records.

CLASSIFICATION

960.40 Skim milk and butterfat to be classified.
960.41 Classes of utilization.
960.42 Shrinkage.
960.43 Responsibility of handlers and reclassification of milk.
960.44 Transfers.
906.45 Computation of skim milk and butterfat in each class.
906.46 Allocation of butterfat.
906.47 Allocation of skim milk.

MINIMUM PRICES

960.50 Class I milk prices.
960.51 Class II milk prices.
960.52 Handler butterfat differentials.

DETERMINATION OF ELIGIBLE MILK QUOTA

960.55 Determination of eligible milk quota for each producer.
960.56 Quota rules.

DETERMINATION OF UNIFORM PRICE

960.60 Value of producer milk for each handler.
960.61 Computation of uniform price.
960.62 Computation of ineligible milk price.
960.63 Computation of eligible milk price.
960.64 Notification.

PAYMENTS FOR MILK

960.70 Time and method of payment.
960.71 Producer-settlement fund.
960.72 Payments to the producer-settlement fund.
960.73 Payments out of the producer-settlement fund.
960.74 Producer butterfat differential.
960.75 Expense of administration.
960.76 Marketing services.
960.77 Errors in payments.
960.78 Termination of obligation.

APPLICATION OF PROVISIONS

960.80 Handler exemption.
960.81 Producer-handler.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

960.90 Effective time.
960.91 Suspension or termination.
960.92 Continuing obligations.
960.93 Liquidation.

MISCELLANEOUS PROVISIONS

960.100 Agent.
960.101 Separability of provisions.

AUTHORITY: §§ 960.0 to 960.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 960.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Akron, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies and demand for such, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order as hereby amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 3 cents per hundredweight or such amount not exceeding 3 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of milk from producers and other source milk which is classified as Class I milk and which is not subject to administrative assessment under another Federal order.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Akron-Stark County, Ohio, marketing area shall be in conformity to and in compliance with the following terms and conditions as set forth below:

DEFINITIONS

§ 960.1 *Act.* "Act" means Public Act No. 10 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 960.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 960.3 *Marketing area.* "Akron-Stark County, Ohio, marketing area", hereinafter referred to as the "marketing area" means all territory, including but not limited to all municipal corporations within the boundaries of: Summit County; Stark County, except Paris and Sugar Creek Townships; Franklin, Ravenna, Brimfield, and Suffield Townships and Lots 5 to 10, 15 to 20, 25 to 30, and 35 to 40, inclusive, of Randolph Township in Portage County; Smith Township in Mahoning County, except Great Lot 35 thereof; Knox Township in Columbiana County; and Sections 1, 2, 3, 10, 11, and 12 of Sugar Creek Township in Wayne County; all in the State of Ohio.

§ 960.4 *Handler.* "Handler" means any person (a) in his capacity as the operator of a plant or plants where milk is processed and packaged for distribution on a route(s) in the marketing area, and (b) any cooperative association with respect to the milk of any producer which such cooperative association causes to be diverted from producers' farms to a plant for the account of such cooperative association.

§ 960.5 *Pool plant.* "Pool plant" means any plant at which milk received from dairy farmers is packaged and distributed as Class I milk on a route(s) wholly or partially within the marketing area, except plants exempted pursuant to § 960.80.

§ 960.6 *Nonpool plant.* "Nonpool plant" means a plant other than a plant operated by a producer-handler, during such months as it is not a pool plant.

§ 960.7 *Producer.* "Producer" means any person other than a producer-handler who produces milk which has approval of the health authorities of any community in the marketing area for consumption as fluid milk in such community and is received at a pool plant. This definition shall include any such person who is regularly designated as a producer but whose milk is caused to be diverted to a plant, other than a pool plant, by a handler for his account. Milk so diverted shall be deemed to have been received at a pool plant by the handler or cooperative association which caused it to be diverted.

§ 960.8 *Producer milk.* "Producer milk" means skim milk and butterfat contained in milk received from producers.

§ 960.9 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in milk, skim milk, or cream, used to produce all other milk products, received from all sources other than producers and pool plants.

§ 960.10 *Producer-handler.* "Producer-handler" means any person who (a) produces milk; (b) receives no milk from producers or from other sources; and (c) operates a plant from which a route(s) is operated wholly or partially within the marketing area.

§ 960.11 *Route.* "Route" means a sale or delivery (including a sale from a plant or store) of Class I milk to a wholesale or retail stop(s).

§ 960.12 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 960.13 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture.

§ 960.14 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines after application by the association; (a) to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; (b) to have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and (c) to have all of its activities under the control of its members.

§ 960.15 *Eligible milk.* "Eligible milk" means the amount of milk received by a handler from a producer during each of the months specified in § 960.63 which is not in excess of such producer's daily average quota computed pursuant to § 960.55 multiplied by the number of days in such month on which such producer delivered milk to such handler: *Provided,* That with respect to any producer on "every-other-day" delivery to a pool plant, the days of non-delivery shall be considered as days of delivery for purposes of this section and of § 960.55.

§ 960.16 *Ineligible milk.* "Ineligible milk" means the amount of milk received by a handler from a producer during each of the months specified in § 960.63 which is in excess of eligible milk received from such producer during such month, and shall include all milk received from a producer for whom no daily average quota can be computed pursuant to § 960.55.

MARKET ADMINISTRATOR

§ 960.20 *Designation.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 960.21 *Powers.* The market administrator shall have the power to:

(a) Administer all of the terms and provisions of this subpart;

(b) Make rules and regulations to effectuate the terms and provisions of this subpart;

(c) Receive, investigate, and report to the Secretary complaints of violations of this subpart; and

(d) Recommend to the Secretary amendments to this subpart.

§ 960.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties as market administrator and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this subpart;

(c) Obtain a bond in reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 960.75, (1) the costs of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, (2) his own compensation, and (3) all other expenses (except those incurred under § 960.76) necessarily incurred by him in the maintenance and functioning of his office in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart and upon request by the Secretary surrender the same to his successor or to such other person as the Secretary may designate.

(f) Publicly announce unless otherwise directed by the Secretary by posting in a conspicuous place in his office and by such other means as he deems appropriate the name of any person who, within 8 days after the day upon which he is required to perform such acts, has not made reports pursuant to § 960.30 or § 960.31 or payments pursuant to §§ 960.70, 960.72, 960.75, 960.76, or 960.77;

(g) Submit his books and records to examination and furnish such information and verified reports as may be requested by the Secretary;

(h) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate;

(1) On or before the 5th day of each month the minimum class prices for the preceding month for milk of 3.5 percent butterfat content, as computed pursuant to §§ 960.50 and 960.51, and the butterfat differentials, computed pursuant to § 960.52.

(2) On or before the 13th day of each month the uniform price(s) for the preceding month, computed pursuant to § 960.61, or §§ 960.62 and 960.63 as applicable, and the butterfat differential for the preceding month computed pursuant to § 960.74.

(j) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such information concerning the operation of this subpart as does not reveal confidential information.

(k) On or before the 13th day of each month, report to each cooperative association that so requests the class utilization of milk received during the preceding month by each handler from producers who are members of such association, prorating to such receipts the class utilization of all producer receipts of such handler.

(l) Provide notice, for each producer for whom a daily average quota is computed pursuant to § 960.55, on or before the first day of the month first stated in § 960.63 to: (1) Such producers, (2) cooperative associations for such producers who are its members, and (3) handlers for such producers from whom they received milk.

REPORTS, RECORDS AND FACILITIES

§ 960.30 *Monthly reports of receipts and utilization.* On or before the 8th day of each month, each handler who operates a pool plant(s), and any cooperative association with respect to milk for which it is a handler pursuant to § 960.4 (b), shall, with respect to milk or milk products which were received at a pool plant by such handler during the preceding month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The quantities of butterfat and skim milk contained in milk received from producers, and, for the months specified in § 960.63 the aggregate quantities of eligible milk;

(b) The quantities of butterfat and skim milk contained in or used to produce receipts of milk and milk products from other pool plants;

(c) The quantities of butterfat and skim milk contained in or used to produce receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all butterfat and skim milk the receipt of which is required to be reported pursuant to this section;

(e) The pounds of butterfat and skim milk contained in all milk, skim milk, and cream and other Class I products on hand at the beginning and at the end of the month;

(f) Such other information with respect to the use of milk as the market administrator may request.

§ 960.31 *Other reports.* Other reports shall be submitted to the market administrator as follows:

(a) Each producer-handler, and each handler who does not operate a pool plant, shall make reports at such time and in such manner as the market administrator may request.

(b) On or before the 20th day of each month each handler who operated a pool plant(s) at which producer milk was received in the preceding month shall submit such handler's producer payroll for the preceding month which shall show (1) the total pounds and the butterfat content of milk received from each producer, and for the months specified in § 960.63, the pounds of eligible milk and of ineligible milk received from each producer, (2) the amount and date of payment to each producer or cooperative association pursuant to § 960.70, (3) the nature and amount of each deduction or charge made by the handler, and (4) the number of days, if less than the entire month, for which milk was received from such producers.

§ 960.32 *Records and facilities. Each* handler and producer-handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of any of his operations and such facilities as in the opinion of the market administrator are necessary to verify or to establish the correct data with respect to: (a) The receipts and utilization or disposition of all skim milk and butterfat received, including all milk products received and disposed of in the same form; (b) the weights and tests for butterfat, skim milk and other contents of all milk and milk products handled; and (c) all payments required to be made by such handler pursuant to §§ 960.70, 960.72, 960.75, 960.76, and 960.77.

§ 960.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler or producer-handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if within such three-year period the market administrator notifies the handler or producer-handler in writing that the retention of such books and records or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler or producer-handler shall retain such books and records or specified books and records until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler or producer-handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 960.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received by a handler which is required to be reported pursuant to § 960.30 shall be classified pursuant to §§ 960.41 through 960.44.

§ 960.41 *Classes of utilization.* Subject to the conditions set forth in §§ 960.43 and 960.44, the classes of utilization shall be:

(a) Class I milk shall be all skim milk (including the skim milk equivalent of concentrated products) and butterfat (1) disposed of for consumption in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, concentrated milk not in hermetically sealed cans, cream, including sour cream or any mixture of cream and milk or skim milk, or (2) not accounted for as Class II milk.

(b) Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those specified in paragraph (a) of this section; (2) disposed of for livestock feed or skim milk dumped subject to prior notification to and inspection (at his discretion) by the market administrator; (3) in shrinkage of producer milk up to 2 percent of receipts from producers; and (4) in shrinkage of other source milk.

§ 960.42 *Shrinkage.* (a) If producer milk is utilized in conjunction with other source milk, the shrinkage shall be allocated pro rata between the receipts of skim milk and butterfat in producer milk and other source milk.

(b) Producer milk transferred or diverted by a handler from his pool plant to another pool plant without first having been received for purposes of weighing in the transferring or diverting handler's pool plant shall be included in the receipts at the pool plant to which such milk was transferred or diverted for the purpose of computing shrinkage and shall be excluded from the receipts at the transferring or diverting handler's pool plant for such purpose.

§ 960.43 *Responsibility of handlers and reclassification of milk.* All skim milk and butterfat contained in producer milk and in other source milk received by a handler shall be classified as Class I milk unless the handler proves to the market administrator that such skim milk and butterfat or a portion thereof should be classified as Class II milk. Any skim milk or butterfat which is classified in Class II shall be reclassified to Class I if subsequent to the original classification such skim milk or butterfat is handled in such a manner as to justify its reclassification.

§ 960.44 *Transfers.* (a) Skim milk and butterfat disposed of from a pool plant to the pool plant of another handler in the form of milk, skim milk or cream shall be Class I milk unless Class II milk is indicated by the operators of both plants in their reports submitted pursuant to § 960.30: *Provided,* That in no event shall the amount so classified as Class II be greater than the amount of producer milk used in such class in the pool plant(s) of the transferee handler after allocating other source milk in such plant(s) in series beginning with the lowest priced utilization.

(b) Skim milk and butterfat moved in the form of milk, skim milk or cream from a pool plant to a handler described in § 960.80 or to a nonpool plant shall be Class I milk unless all of the following conditions are met:

(1) Class II milk is indicated by the operator of the pool plant in his report submitted pursuant to § 960.30.

(2) The operator of the nonpool plant maintains books and records which are made available for examination upon request by the market administrator and which are adequate for the verification of such Class II utilization.

(3) If the above conditions are met, the market administrator shall classify all skim milk and butterfat received at the nonpool plant and the skim milk and butterfat so transferred shall be allocated in series beginning with any skim milk and butterfat, respectively, remaining in Class I milk after allocating skim milk and butterfat in milk received from dairy farmers whom the market administrator determines constitute the regular source of milk for Class I uses at such plant, in series beginning with Class I milk.

(c) Skim milk and butterfat transferred in the form of milk, skim milk, or cream to a producer-handler shall be classified as Class I milk.

§ 960.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the report submitted by each handler pursuant to § 960.30 and shall compute separately the pounds of skim milk and butterfat in each class.

§ 960.46 *Allocation of butterfat.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in Class II milk the pounds of butterfat shrinkage allowed pursuant to § 960.41 (b) (3);

(b) Subtract from the total pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk other than that received from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk received in a form other than that specified in paragraph (d) of this section from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

(d) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat contained in milk or milk products received in packaged form which were classified and priced under another Federal order and disposed of in the same form as received;

(e) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat received from other handlers in such classes pursuant to § 960.44 (a); and

(f) Add to the remaining pounds of butterfat in Class II milk the pounds subtracted pursuant to paragraph (a) of this section.

(g) If the remaining pounds of butterfat in both classes exceed the pounds of butterfat in milk received from producers, subtract such excess from the remaining pounds of butterfat in each class in series, beginning with the lowest-priced utilization.

§ 960.47 *Allocation of skim milk.* Allocate the pounds of skim milk in each class to milk received from producers in a manner similar to that prescribed for butterfat in § 960.46.

MINIMUM PRICES

§ 960.50 *Class I milk prices.* The minimum price per hundredweight to be paid by each handler, f. o. b. a pool plant, for milk of 3.5 percent butterfat content received from producers or from cooperative associations during the month, which is classified as Class I milk shall be 5 cents less than the Class I price as determined pursuant to § 975.61 of this chapter.

§ 960.51 *Class II milk price.* The minimum price per hundredweight to be paid by each handler, f. o. b. a pool plant, for milk of 3.5 percent butterfat content received from producers or from cooperative associations during the month which is classified as Class II milk shall be the higher of the prices computed by the market administrator pursuant to paragraph (a) or (b) of this section, except that for such Class II milk used to produce cottage cheese such minimum price shall be increased 30 cents.

(a) The average of the basis (or field) prices ascertained to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture by the companies indicated below:

PRESENT OPERATOR AND LOCATION

Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Ortordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price computed by adding together the plus amounts pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month, subtract 3 cents, add 20 percent of the resulting amount, and then multiply by 3.5.

(2) From the simple average, as computed by the market administrator of the weighted averages of the carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the month for which prices are being computed by the Department of Agriculture, deduct 5.5 cents, and multiply by 8.2.

§ 960.52 *Handler butterfat differentials.* If the average butterfat content of the milk of any handler allocated to any class is more or less than 3.5 percent, there shall be added to the prices of milk for each class as computed pursuant to §§ 960.50 and 960.51 for each one-tenth of one percent that the average butterfat content of such milk is above 3.5 percent, or subtracted for one-tenth of one percent that such average butterfat content is below 3.5 percent, an amount equal to the average daily wholesale price per pound of Grade A (92-score) bulk creamery butter per pound at Chicago as re-

ported by the Department of Agriculture during the month, multiplied by the following factors:

(a) *Class I milk.* Multiply by 1.3, and divide the result by 10.

(b) *Class II milk.* Mutliply by 1.15, and divide the result by 10.

DETERMINATION OF ELIGIBLE MILK QUOTA

§ 960.55 *Determination of eligible milk quota for each producer.* Subject to the rules set forth in § 960.56 the market administrator shall determine quotas for producers as follows: During each of the months specified in § 960.63 of each year beginning with 1958, the daily quota of each producer whose milk was received by a handler(s) on not less than thirty (30) days during the immediately preceding months of October through December, inclusive, shall be a quantity computed by dividing such producer's total pounds of milk delivered in the 3-month period by the number of days from the date of the first delivery to the end of such 3-month period.

§ 960.56 *Quota rules.* (a) Except as provided in paragraph (b) of this section, an eligible milk quota shall apply to deliveries of milk by the producer for whose account that milk was delivered to a handler(s) during the quota forming period.

(b) A daily quota may be transferred during the period of April through June by notifying the market administrator in writing before the first day of any delivery period that such quota is to be transferred to the person named in such notice, but under the following conditions only:

(1) In the event of the death of a producer, the entire daily quota may be transferred to a member of such producer's immediate family who carries on the dairy operation on the same farm;

(2) If a quota is held jointly and such joint holding is terminated on the basis of written notice to the market administrator from the joint holders, the entire daily quota may be transferred to one of the joint holders, or divided in accordance with such notice between the former joint holders if they continue dairy farm operations.

DETERMINATION OF UNIFORM PRICE

§ 960.60 *Value of producer milk for each handler.* The value of producer milk received during the month by each handler who operates a pool plant(s), and by any cooperative association with respect to milk for which it is a handler pursuant to § 960.4 (b), shall be a sum of money computed by the market administrator by multiplying by the applicable class price, adjusted pursuant to § 960.52, the total combined hundredweight of skim milk and butterfat received from producers and allocated to each class pursuant to §§ 960.46 and 960.47, adding together the resulting amounts, and adding an amount computed by multiplying any excess utilization classified pursuant to § 960.46 (g) and § 960.47 by the applicable class prices.

§ 960.61 *Computation of uniform price.* For each month (except those specified in § 960.63) the market administrator shall compute a uniform price per hundredweight of milk containing 3.5 percent of butterfat to be paid to producers delivering milk to any pool plant as follows:

(a) Combine into one total the value of producer milk for each handler as computed pursuant to § 960.60 for all handlers who reported pursuant to § 960.30 for such month, except those in default in payments required pursuant to § 960.72 for the preceding month;

(b) Add the total amount of all payments made pursuant to § 960.72 (b);

(c) Add any amounts paid into the producer-settlement fund and subtract any amounts paid out of the producer-settlement fund pursuant to § 960.77;

(d) Add an amount representing not less than one-half of the unobligated balance in the producer-settlement fund exclusive of the amounts added or subtracted pursuant to paragraphs (b) and (c) of this section;

(e) Subtract, if the weighted average butterfat test of all producer milk represented by the amounts included under paragraph (a) of this section is greater than 3.5 percent, or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the difference of such weighted average butterfat test from 3.5 percent by the butterfat differential computed pursuant to § 960.74 multiplied by 10;

(f) Divide the resulting amount by the total hundredweight of producer milk received by all handlers during the month for which uniform prices are being computed;

(g) Subtract not less than 4 cents nor more than 5 cents, and the result shall be the uniform price to be paid per hundredweight of milk containing 3.5 percent of butterfat to producers who delivered milk during the month for which uniform prices are being computed.

§ 960.62 *Computation of ineligible milk price.* Effective April 1958, for the months specified in § 960.63, the market administrator shall compute the uniform price per hundredweight for ineligible milk of 3.5 percent butterfat content by:

(a) Multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk by the price for Class II milk of 3.5 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 3.5 percent butterfat content, and adding together the resulting amounts; and

(b) Dividing the total value of ineligible milk obtained in paragraph (a) of this section by the total hundredweight of such milk and adjusting to the nearest cent.

§ 960.63 *Computation of eligible milk price.* Effective April 1958, for each of the months of April through June the market administrator shall compute the uniform price per hundredweight for eligible milk of 3.5 percent butterfat content received from producers at a pool plant by:

(a) Subtracting the value of ineligible milk obtained in § 960.62 (a) from the aggregate value of milk computed pursuant to § 960.61 (a) through (e) and adjusting by an amount involved in adjusting the uniform price of ineligible milk to the nearest cent;

(b) Dividing the amount obtained in paragraph (a) of this section by the total hundredweight of eligible milk included in these computations; and

(c) Subtracting not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (b) of this section.

§ 960.64 *Notification.* On or before the 13th day of each month the market administrator shall notify each handler who submitted a report for the preceding month pursuant to § 960.30 of:

(a) The classification pursuant to §§ 960.46 and 960.47 of skim milk and butterfat contained in producer milk received by such handler during the preceding month and the value of such milk computed pursuant to § 960.60;

(b) The uniform prices for the month computed pursuant to § 960.61 or §§ 960.62 and 960.63, as applicable; and

(c) The amount due such handler pursuant to § 960.73 and the amount to be paid by such handler pursuant to §§ 960.72, 960.75, and 960.76.

PAYMENTS

§ 960.70 *Time and method of payment.* (a) Except as provided by paragraph (b) of this section, on or before the 18th day of each month, each handler (except a cooperative association) shall pay each producer for milk received from him during the preceding month, not less than an amount of money computed by multiplying the total pounds of such milk by the applicable uniform price(s) pursuant to § 960.61 or §§ 960.62 and 960.63, adjusted by the butterfat differential pursuant to § 960.74, and less any proper deductions authorized by the producer: *Provided,* That if by such date such handler has not received full payment for such month pursuant to § 960.73 he may reduce such payments uniformly per hundredweight for all producers, by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(b) (1) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the association, each handler shall (i) pay to the cooperative association on or before the 16th day of each month, in lieu of payments pursuant to paragraph (a) of this section an amount equal to the gross sum due for all milk received from certified members, less amounts owing by each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer and submit to the cooperative association written information which shows for each such member-producer (*a*) the total pounds of milk received from him during the preceding month, (*b*) the total pounds of butterfat contained in such milk, (c) the number of days on which milk was received, and (*d*) the amounts withheld by the handler in payment for supplies sold. The foregoing payment and submission of information shall be made with respect to milk of each producer whom the cooperative association certifies is a member, which is received on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association.

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler shall be made by written notice to the market administrator, and shall be subject to his determination.

§ 960.71 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made pursuant to §§ 960.72 and 960.77 and out of which he shall make all payments pursuant to §§ 960.73 and 960.77.

§ 960.72 *Payments to the producer-settlement fund.* On or before the 14th day of each month handlers shall make payments to the market administrator as follows:

(a) If the value of producer milk received by a handler in the preceding month as computed pursuant to § 960.60 exceeds the amount which such handler is required to pay all producers pursuant to § 960.70 such handler shall pay the difference between the two amounts.

(b) If, during the preceding month, the total receipts from all producers was 110 percent or more of the total Class I milk at pool plants, any handler who received other source milk during the preceding month which was allocated to Class I pursuant to § 960.46 (b) or § 960.47 shall pay an amount equal to the value of such milk at the Class I price less the value of such milk at the Class II price.

§ 960.73 *Payments out of the producer-settlement fund.* On or before the 16th day of each month, the market administrator shall pay to each handler any amount by which the sum required to be paid by such handler for the preceding month pursuant to § 960.70 is greater than the total value of the milk of such handler computed pursuant to § 960.60 for such preceding month less any unpaid obligations of the handler to the market administrator pursuant to §§ 960.72, 960.75, 960.76 (a), and 960.77 (a): *Provided,* That if the balance in the producer-settlement fund is insufficient to make payments to all handlers pursuant to this paragraph, the market administrator shall reduce such payments by a uniform amount per hundredweight of milk and shall complete such payments as soon as the necessary funds become available.

§ 960.74 *Producer butterfat differential.* In making payments pursuant to § 960.70, the uniform prices shall be adjusted for each one-tenth of one percent of butterfat content in the milk of each producer above or below 3.5 percent, as the case may be, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 960.52, weighted by the pounds of butterfat in producer milk in each class and rounded to the nearest tenth of a cent.

§ 960.75 *Expense of administration.* As his pro rata share of the expense incurred pursuant to § 960.22 (d), each handler shall pay the market administrator on or before the 16th day of each month 3 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe with respect to (a) all receipts within the preceding month of producer milk (including such handler's own production) and (b) all other source milk allocated to Class I pursuant to § 960.46 (b) and the corresponding portion of § 960.47.

§ 960.76 *Marketing services.* In making payments to producers or cooperative associations pursuant to § 960.70 a handler shall make deductions and dispose of amounts so deducted as follows:

(a) Except as set forth in paragraph (b) of this section a handler shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, with respect to all producer milk for which payment is being made pursuant to § 960.70 and shall pay the total amount of such deductions to the market administrator on or before the 16th day after the end of the month in which such producer milk was received. Such amount shall be expended by the market administrator to verify weights and tests of milk of producers and to provide producers with market information, such service to be performed by the market administrator or by an agent engaged by and responsible to him.

(b) Each association of producers which is actually performing the services described in paragraph (a) of this section, as determined by the Secretary, may file with a handler a claim for authorized deductions from the payments otherwise due to its producer members for milk delivered to such handler. Such claim shall contain a list of the producers for which such deductions apply, an agreement to indemnify the handler for the amount of any loss sustained by him because of any improper claim on the part of the association, and a certification that the association, and an unterminated membership contract with each producer, which contract authorizes the claim deduction. In making payments to producers for milk received during the month, each handler shall make deductions in accordance with the association's claim and shall pay the amount deducted within 16 days after the end of the month.

§ 960.77 *Errors in payments.* Whenever audit by the market administrator of any handler's reports, books, records or accounts discloses errors or whenever skim milk or butterfat is reclassified pursuant to § 960.43 resulting in monies due (a) the market administrator from such handler or such handler from the market administrator or (b) any producer or cooperative association from such handler pursuant to § 960.70 the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice. In computing amounts due pursuant to this section the class prices, the appropriate uniform price, the butterfat differential, the rate of administrative assessment pursuant to § 960.75, and the rate of marketing service deduction pursuant to § 960.76 which were applicable in the month for which the original calculation of amounts due were made shall be used.

§ 960.78 *Termination of obligation.* (a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator received the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notified the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association the name of such producers or association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books or records required by this subpart to be made available, the market administrator may, within the two-year period provided in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which such books and records pertaining to such

obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which milk involved in the claim was received if any underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within that applicable period of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 960.80 *Handler exemption.* A handler operating any plant specified below shall be exempted with respect to the milk received of such plant during the month from all provisions of this subpart except §§ 960.31, 960.32 and 960.33:

(a) A plant located outside the marketing area from which an average of less than 300 points (one point being defined as one-half pint of cream or one quart of any other Class I product) of Class I milk per day is disposed of during the month on a route(s) operated wholly or partly within the marketing area;

(b) A plant at which the Secretary finds is subject during the month to another Federal order; or

(c) A plant at which no milk approved by the health authorities of any community of the marketing area for consumption as fluid milk is received from dairy farmers and from which disposition of Class I milk in the marketing area is permitted only in portions of the marketing area for which no health authority exercises jurisdiction with respect to approval of milk for fluid consumption.

§ 960.81 *Producer-handler.* A producer-handler shall be exempt from all provisions of this subpart except that he shall make reports to the market administrator at such time and in such manner as the market administrator may request.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 960.90 *Effective time.* The provisions of this subpart, or any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated. The provisions of this section shall apply to any obligation under this subpart for the payment of money.

§ 960.91 *Suspension or termination.* Whenever the Secretary finds the subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act, he shall terminate or suspend the operation of this order or any such provision of this subpart.

§ 960.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 960.93 *Liquidation.* Upon the suspension of the provisions of the subpart, except this section, the market administrator, or such other liquidation agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable and execute and deliver all assignments or other instrument necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidation agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 960.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 960.101 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid the application of such provisions, and the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

[7 CFR Part 985]

[Docket No. AO-240-A3]

MILK IN MUSKEGON, MICHIGAN, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposals to amend the tentative marketing agreement and the order, as amended, regulating the handling of milk in the Muskegon, Michigan, marketing area. Interested persons may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D. C., not later than the close of business the fifth day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record for which the proposed amendments to the tentative marketing agreement and to the order, as amended, were formulated, was held at Kalamazoo, Michigan, November 27, 1956, pursuant to notice thereof issued November 16, 1956 (21 F. R. 9144).

The sole issue related to pool plant qualifications as they pertain to a plant operated by a cooperative association.

Findings and conclusions. The following findings and conclusions are based on the evidence received at the hearing and the record thereof:

1. Provision should be made for including in the definition of "pool plant" a plant operated by a cooperative association if a substantial percentage of the milk of producer members of such association is delivered to the pool plants of other handlers.

The Muskegon order presently limits pool plants to distributing plants from which 20 percent or more of total milk receipts is disposed of as Class I milk on routes in the marketing area, and to supply plants from which 20 percent or more of receipts from dairy farmers is moved to such distributing plants. Since the order first became effective in October 1953, the cooperative association representing 95 percent or more of the Muskegon producer milk supply has opened a milk receiving station without manufacturing facilities. This plant has so far qualified on the basis of movements of 20 percent or more of its receipts to the pool plants of other handlers.

Changes in marketing practices in the area threaten to jeopardize the pool qualification of this plant without change in the essential services and volume of milk supplied by the cooperative association operating the plant. This association supplies handlers' needs and assumes responsibility for milk in excess of such requirements. In the past, disposal of such surplus milk has largely been by diversion from farms to manufacturing plants. Disposal of surplus milk now requires assembly at the association receiving station and bulk delivery to manufacturing plants. The volume of receipts at the association plant is thereby increased considerably without change in the volumes of surplus milk handled by the association, and thus the percentage of receipts moved to other pool plants may be reduced below that required for qualification as a pool plant.

At the same time at least one handler is receiving his entire supply as bulk milk from the association plant. Other handlers draw upon the plant for emergency needs. If it were not for these supply functions of the plant it would make little difference whether or not the plant were defined as a pool plant. The milk diverted from other pool plants for surplus disposal could be pooled as milk diverted to a nonpool plant for the account of the association. Milk of producers received regularly in order to supply other plants could not fall in this category, however, and would be excluded from the pool if the plant were not a pool plant.

The qualifications for pool plant status are a means of establishing the identity of plants with the fluid milk trade of the market. In the Muskegon order a requirement that a substantial volume of the producer milk that a cooperative association represents, be delivered to the pool plants of other handlers provides adequate identification of the supply of the cooperative association to qualify a plant which such association may operate even though 20 percent of its receipts are not moved to other pool plants. Seventy-five percent of the association's supply, except for May and June, when 50 percent should apply, is an appropriate proportion to be delivered to the pool plants of other handlers as such identification. In addition it should be required that the association plant be approved by appropriate health authorities of the marketing area as a source of supply of milk for fluid use. The performance required of other plants makes such approval necessary, without specific requirement in the order.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act:

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply-demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended will regulate the handling of milk in the same manner as, and will be applicable to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. A brief was filed on behalf of producers. The brief contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the brief was carefully considered along with the evidence in the record in making the findings and reaching the conclusions herein before set forth. To the extent that the findings and conclusions proposed in the brief are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and amendments to the order. The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included with this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended:

Delete § 985.6 and substitute therefore the following:

§ 985.6 *Pool plant.* "Pool plant" means a plant (except one which is exempt pursuant to § 985.101):

(a) From which 20 percent or more of the total milk received at such plant during the month is disposed of in the marketing area as Class I other than to another pool plant;

(b) From which 20 percent or more of the total milk received from dairy farmers at such plant during the month is moved to pool plant(s) as described in paragraph (a) of this section; or

(c) Approved by an appropriate health authority of the marketing area as a supply of milk for fluid consumption and operated by a cooperative association, if 75 percent (50 percent for May and June) or more of the milk delivered during the month by producers who are members of such association is received at the pool plants of other handlers.

Filed at Washington, D. C., this 15th day of January 1957.

[SEAL] FRANK E. BLOOD,
Acting Deputy Administrator.

CIGAR-BINDER (TYPES 51 AND 52) TOBACCO; CIGAR-FILLER AND BINDER (TYPES 42, 43, 44, 53, 54 AND 55) TOBACCO

NOTICE OF REFERENDA

Notice is hereby given that on February 13, 1957, referenda will be held of farmers engaged in the production in 1956 of cigar-binder (types 51 and 52) tobacco, and of farmers engaged in the production in 1956 of cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended. Notice that consideration would be given to establishing a date for holding the referenda was given in 21 F. R. 5114. The purpose of each referendum is to determine whether the farmers voting favor national marketing quotas for each of the 1957-58, 1958-59, and 1959-60 marketing years for such respective kinds of tobacco. The referenda will be conducted in accordance with the provisions of the Act and the Regulations Governing the Holding of Referenda on Marketing Quotas (21 F. R. 3960, 4799, 8793).

In order that arrangements for holding the referenda may be made in an orderly manner and as much advance notice as possible be given of the date of the referenda, it is essential that this notice be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date requirement of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest and this notice shall be effective upon filing of this document with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 15th day of January 1957.

[SEAL] EARL L. BUTZ,
Acting Secretary of Agriculture.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 27]

[Docket No. FDC-63]

CANNED PRUNE JUICE, A WATER EXTRACT OF DRIED PRUNES

NOTICE OF HEARING

In the matter of amending the definition and standard of identity for canned prune juice, a water extract of dried prunes:

A notice of proposed rule making was published in the FEDERAL REGISTER of October 28, 1955 (20 F. R. 8125) setting forth a proposed definition and standard of identity for canned prune juice. An order acting on such proposal and establishing a definition and standard of identity for canned prune juice, a water extract of dried prunes, to become effective 6 months from date of publication, was published in the FEDERAL REGISTER of February 17, 1956 (21 F. R. 1094).

Within 30 days of the date of publication of this order objections thereto were filed under the Federal Food, Drug, and Cosmetic Act (sec. 401 (b) (2), 52 Stat. 1046, 68 Stat. 54; 21 U. S. C. 341 (b) (2)) by W. F. Straub and Company, Chicago, Illinois, a firm which cans and distributes canned prune juice containing approximately 2 percent of added honey.

By a notice published in the FEDERAL REGISTER of July 14, 1956 (21 F. R. 5288), the definition and standard of identity for canned prune juice was stayed insofar as it affected canned prune juice that in all respects complies with the regulations except for containing not more than 2 percent of honey.

Now, therefore, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401,

701, 52 Stat. 1046, 1055 as amended, 70 Stat. 919; 21 U. S. C. 341, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 9196; 21 F. R. 6581), notice is hereby given that a public hearing will be held for the purpose of receiving evidence relevant and material to the objection of W. F. Straub and Company to the definition and standard of identity for canned prune juice, a water extract of dried prunes based on its failure to include honey as an optional ingredient.

The hearing will begin at 10 o'clock in the morning of March 12, 1957, in Room G–755, Health, Education, and Welfare Building, 330 Independence Avenue SW., Washington 25, D. C. All persons interested are invited to attend this hearing and present evidence. The hearing will be conducted in accordance with the rules of practice therefor.

Mr. Leonard D. Hardy is hereby designated as presiding officer to conduct the hearing, with full authority to administer oaths and affirmations and do all other things appropriate to the conduct of the hearing. The presiding officer is required to certify the entire record of the proceedings to the Commissioner of Food and Drugs for action on the proposal.

Dated: January 14, 1957.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F. R. Doc. 57–379; Filed Jan. 17, 1957; 8:46 a. m.]

[21 CFR Part 130]

NEW DRUGS; PROCEDURAL AND INTERPRETATIVE REGULATIONS

NOTICE OF PROPOSAL TO AMEND REQUIREMENTS GOVERNING NEW DRUGS FOR INVESTIGATIONAL USE

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505 (i), 701 (a), 52 Stat. 1053, 1055; 21 U. S. C. 355 (i), 371 (a)) and under the authority delegated to him by the Secretary of Health, Education, and Welfare (20 F. R. 1996), hereby announces his proposal to amend the regulations relating to new drugs for investigational use (21 CFR 1.114, as recodified 21 F. R. 5576, § 130.3 (a) (3)) as hereinafter set forth, and offers an opportunity to all interested persons to submit their views in writing to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER on the proposed amendment. Views and comments should be submitted in quintuplicate.

It is proposed to amend § 130.3 *New drugs for investigational use; exemptions from section 505 (a)* by changing paragraph (a) (3) to read as follows:

(3) The person who introduced such shipment or who delivered the drug for introduction into interstate commerce obtains, prior to the introduction or delivery, a statement signed by such expert showing that he has adequate facilities for the investigation to be conducted by him and that such drug will be used solely by him or under his direction for the investigation, unless and until an application becomes effective with respect to such drug under section 505 of the act. This paragraph shall not apply when such shipment or delivery:

(i) Is made to an agency of the Government of the United States (including the National Research Council) or of any State or municipality whose official functions involve investigations of new drugs by such experts; or

(ii) Consists of radioactive drugs the shipment of which has been authorized by the Atomic Energy Commission.

Dated: January 14, 1957.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

NOTICES

DEPARTMENT OF THE TREASURY

Fiscal Service, Bureau of Accounts

[Dept. Circ. 570, Rev. Apr. 20, 1943, 1957 Supp. 157]

NORTH AMERICAN REINSURANCE CORP.

CORPORATIONS ACCEPTABLE AS SURETIES ON FEDERAL BONDS

JANUARY 14, 1957.

Effective as of November 28, 1956, North American Casualty and Surety Reinsurance Corporation, New York, N. Y., formally changed its name to North American Reinsurance Corporation. A copy certified by the Deputy Superintendent of Insurance of the State of New York of Certificate of Amendment of Certificate of Incorporation changing the name of North American Casualty and Surety Reinsurance Corporation to North American Reinsurance Corporation has been received and filed in the Treasury.

The change in the name of North American Casualty and Surety Reinsurance Corporation does not affect its status or liability with respect to any obligation in favor of the United States or in which the United States has an interest, which it may have undertaken pursuant to its authority under the act of Congress approved July 30, 1947 (6 U. S. C. secs. 6–13), to qualify as sole surety on such obligations.

Hereafter the name of the company will appear as North American Reinsurance Corporation on Treasury Form No. 356, which shows a list of the companies authorized to act as acceptable sureties on bonds in favor of the United States.

[SEAL] W. RANDOLPH BURGESS,
Acting Secretary of the Treasury.

Internal Revenue Service

[Order 37 (Revised)]

ASSISTANT COMMISSIONER (INSPECTION) ET AL.

DELEGATION OF AUTHORITY TO ADMINISTER OATHS AND TO CERTIFY

The following officers and employees are hereby authorized to administer such oaths or affirmations and to certify to such papers as may be necessary under the internal revenue laws or regulations made thereunder:

(a) Assistant Commissioner (Inspection).

(b) Regional Commissioners and District Directors of Internal Revenue.

(c) Assistant Regional Commissioners (Intelligence); Executive Assistants to Assistant Regional Commissioners (Intelligence); Chiefs, Review and Conference Staff, Intelligence Division; and Reviewer Conferees, Intelligence Division.

(d) Assistant Regional Commissioners (Alcohol and Tobacco Tax); and Chiefs, Aides to Chiefs, Supervisors in Charge, Assistant Supervisors in Charge, Special Investigators, Investigators, and Inspectors, Alcohol and Tobacco Tax Division.

(e) Officers and employees of the respective divisions of the Internal Revenue Service designated as follows:

(1) *International Operations Division.* Director, Chiefs of Branches, Chiefs of Sections, Internal Revenue Agents, Estate Tax Examiners, Special Agents, Treasury Representatives (Taxation), Assistant Treasury Representatives (Taxation), Officers in Charge, and Special Procedures Officer.

(2) *Collection Division.* Chiefs of the Collection Divisions, Chiefs of the Delinquent Accounts and Returns Branches, Group Supervisors, and Collection Officers.

(3) *Audit Division.* Chiefs of Divisions and Branches, Group Supervisors, all Internal Revenue Agents, and Estate Tax Examiners.

(4) *Intelligence Division.* Chief, Assistant Chiefs, Group Supervisors and all Special Agents.

(5) *Inspection.* Director, Internal Security Division; Assistant Directors, Internal Security Division; Regional Inspectors; and all Internal Security Inspectors.

This order supersedes Delegation Order No. 37 dated August 9, 1956. (21 F. R. 6521)

Date of issue: January 8, 1957.

Effective date: January 8, 1957.

[SEAL] RUSSELL C. HARRINGTON,
Commissioner.

4. Title of position: Director, Chemical & Rubber Division.

FEDERAL POWER COMMISSION

[Docket No. E–6716]

CITIZENS UTILITIES CO.

NOTICE OF DECLARATION OF INTENTION

JANUARY 14, 1957.

Public notice is hereby given that Citizens Utilities Company (Declarant), of Stamford, Connecticut, has filed a declaration of intention pursuant to section 23 (b) of the Federal Power Act (16 U. S. C. 817) to construct a hydroelectric project (Docket No. E–6716), known as Unit No. 11 plant, to be located about one mile upstream from the mouth of the Clyde River near Newport in Orleans County, Vermont, and to consist of a new concrete gravity-type diversion dam 19 feet high at the center of the stream and 110 feet in length, located approximately 950 feet downstream from an existing unlicensed 3,600 kw plant, the new spillway crest to be at the elevation of tailwater at the existing plant; an earth diversion canal at the south end of the dam, the entrance to which is formed by a reinforced concrete buttressed wingwall serving also as a flood spillway, the canal to follow ground contour downstream for a distance of approximately 2,400 feet and leading to the forebay at which is a reinforced concrete intake structure containing trash racks, headgate and one end of a penstock; the 10 foot diameter penstock to be about 125 feet long and conducts the water to the new power plant at which one 1,600 kilowatt generating unit will be installed; the prime mover consisting on one turbine rated at 2,400 horsepower to operate at 54 feet head; the new unit to be remotely controlled from the existing unlicensed project and operated only in conjunction with upstream units. The Commission will investigate the proposed construction and determine whether a license under the Federal Power Act is required or whether the project may be constructed merely upon compliance with State laws. Any communication from persons interested in this matter may be submitted on or before March 1, 1957, to the Federal Power Commission, Washington 25, D. C. The declaration of intention is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket Nos. G–10426, G–10446]

PACIFIC NORTHWEST PIPELINE CORP. AND MOUNTAIN FUEL SUPPLY CO.

NOTICE OF HEARING

JANUARY 14, 1957.

The Commission has by its order issued November 30, 1956, ordered that the matter of Pacific Northwest Pipeline Corporation, Docket No. G–10426 be severed for hearing from the proceedings in Docket Nos. G–9966 et al., and consolidated with the matter of Mountain Fuel Supply Company, Docket No. G–10446 for hearing, to commence at a time and place to be thereinafter fixed and to that end:

Take notice that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules and regulations thereunder, a hearing will be held on February 12, 1957, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the Applications in Docket Nos. G–10426 and G–10446.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–3536]

SOUTHWESTERN GAS AND ELECTRIC CO.

ORDER AUTHORIZING ISSUANCE AND SALE OF PRINCIPAL AMOUNT OF FIRST MORTGAGE BONDS

JANUARY 14, 1957.

Southwestern Gas and Electric Company ("Southwestern"), a public utility subsidiary of Central and South West Corporation, a registered holding company, has filed a declaration and amendments thereto pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 thereunder regarding the following proposed transaction:

Southwestern proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $10,000,000 principal amount of its First Mortgage Bonds, Series G, to be dated January 1, 1957, and to mature January 1, 1987. The bonds are to be issued under and secured by a mortgage dated February 1, 1940, as heretofore amended and supplemented and to be further amended by a proposed Supplemental Indenture to be dated January 1, 1957. The interest rate on the bonds, which is to be a multiple of ⅛ of 1 percent, and the price thereof to Southwestern, which price, exclusive of accrued interest, is to be not less than 100 percent and not more than 102.75 percent of the principal amount, will be determined by competitive bidding.

The net proceeds from the sale of the bonds will be used by Southwestern to pay for a part of the cost of additions, extensions and improvements made and to be made to its electric utility properties, and to pay or prepay short-term bank debt incurred and to be incurred in connection therewith.

Orders authorizing the issuance and sale of the bonds by Southwestern (a Delaware corporation) have been issued by the Public Service Commission of the State of Arkansas and the Corporation Commission of the State of Oklahoma, the only state commissions having jurisdiction over the proposed transaction.

Due notice having been given of the filing of said declaration (Holding Com-

pany Act Release No. 13343), and a hearing not having been requested of or ordered by the Commission, and the Commission finding that the applicable provisions of the Act and the rules promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the declaration as amended be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 102]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.402 *Navel Orange Regulation 102*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 21 F. R. 4707), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on January 17, 1957, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., January 20, 1957, and ending at 12:01 a. m., P. s. t., January 27, 1957, is hereby fixed as follows:

(i) District 1: 462,000 cartons;

(ii) District 2: 184,800 cartons;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) All navel oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: January 18, 1957.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, including Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all oranges, including Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 15, 1957; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, including Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1186 of this title).

(2) During the period beginning at 12:01 a. m., e. s. t., January 21, 1957, and ending at 12:01 a. m., e. s. t., February 4, 1957, no handler shall ship:

(i) Any oranges, including Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Bronze;

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than 2 1/16 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1186 of this title): *Provided*, That in determining the percentage of oranges in any lot which are smaller than 2 1/16 inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 2 1/16 inches in diameter and smaller; or

(iii) Any Temple oranges, grown in the State of Florida, which are of a size smaller than 2 9/16 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of Temple oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1186 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: January 16, 1957.

[Grapefruit Reg. 256]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.824 *Grapefruit Regulation 256*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the department after an open meeting of the Growers Administrative Committee on January 15, 1957; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all grapefruit, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Grapefruit (§§ 51.750–51.790 of this title); and the term "mature" shall have the same meaning as set forth in section 601.16 Florida Statutes, Chapters 26492 and 28090, known as the Florida Citrus Code of 1949, as supplemented by section 601.17 (Chapters 25149 and 28090) and also by section 601.18, as amended June 2, 1955 (Chapter 29760).

(2) During the period beginning at 12:01 a. m., e. s. t., January 21, 1957, and ending at 12:01 a. m., e. s. t., February 4, 1957, no handler shall ship:

(i) Any seeded grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 1 Bronze;

(ii) Any seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iii) Any seedless grapefruit, grown in Regulation Area I, which are not mature and do not grade at least U. S. No. 1 Bronze;

(iv) Any seedless grapefruit, grown in Regulation Area II which are not mature and do not grade at least U. S. No. 1 Bronze: *Provided*, That not to exceed 40 percent, by count, of such grapefruit may be damaged, but not seriously damaged, by scars; or

(v) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: January 16, 1957.

[Tangerine Reg. 184]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.825 *Tangerine Regulation 184*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Florida tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of tangerines, grown in the State of Florida, are

presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 15, 1957; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade and standard pack, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Tangerines (§§ 51.1810–51.1836 of this title).

(2) During the period beginning at 12:01 a. m., e. s. t., January 21, 1957, and ending at 12:01 a. m., e. s. t., February 4, 1957, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 1; or

(ii) Any tangerines, grown in the State of Florida, that are of a size smaller than the size that will pack 210 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches, capacity 1,726 cubic inches).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: January 1, 1957.

[Grapefruit Reg. 112]

PART 955—GRAPEFRUIT GROWN IN ARIZONA; IN IMPERIAL COUNTY, CALIF.; AND IN THAT PART OF RIVERSIDE COUNTY, CALIF., SITUATED SOUTH AND EAST OF SAN GORGONIO PASS

LIMITATION OF SHIPMENTS

§ 955.373 *Grapefruit Regulation 112*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 55, as amended (7 CFR Part 955), regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California; and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Administrative Committee (established under the aforesaid amended marketing agreement and order), and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this regulation is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than January 20, 1957. Shipments of grapefruit, grown as aforesaid, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since October 21, 1956, and will so continue until January 20, 1957; the recommendation and supporting information for continued regulation subsequent to January 19, 1957, were promptly submitted to the Department after an open meeting of the Administrative Committee on January 10, 1957; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time thereof, are identical with the aforesaid recommendation of the committee and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., January 20, 1957, and ending at 12:01 a. m., P. s. t., February 10, 1957, no handler shall ship:

(i) Any grapefruit of any variety grown in the State of Arizona; in Imperial County, California; or in that part of Riverside County, California, situated south and east of the San Gorgonio Pass unless such grapefruit grade at least U. S. No. 2; or

(ii) From the State of California or the State of Arizona (*a*) to any point outside thereof in the United States, any grapefruit, grown as aforesaid, which are of a size smaller than 3$^{11}/_{16}$ inches in diameter, or (*b*) to any point in Canada, any grapefruit, grown as aforesaid, which are of a size smaller than 3$^{15}/_{16}$ inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than the foregoing minimum sizes shall be permitted which tolerance shall be applied in accordance with the provisions for the application of tolerance, specified in the revised United States Standards for Grapefruit (California and Arizona), §§ 51.925–51.955 of this title: *Provided*, That, in determining the percentage of grapefruit in any lot which are smaller than 3$^{11}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size 4$^{2}/_{16}$ inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are smaller than 3$^{15}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size 3$^{15}/_{16}$ inches in diameter and smaller.

(2) As used herein, "handler," "variety," "grapefruit," and "ship" shall have the same meaning as when used in said amended marketing agreement and order; and the term "U. S. No. 2" shall have the same meaning as when used in the revised United States Standards for Grapefruit (California and Arizona), §§ 51.925–51.955 of this title.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6539]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

ROYAL TILE STORES ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.15 *Business status, advantages, or connections:* Stock, product or service; § 13.55 *Prices:* Bait; [1] § 13.170 *Qualities or properties of product or service;* Sec. 13.250 *Success, use, or standing.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1886 *Quality, grade or type of product.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Jack B. Tizer et al. t. a. Royal Tile Stores, etc., Philadelphia, Pa., Docket 6539, Dec. 27, 1956]

[1] New.

In the Matter of Jack B. Tizer and William B. Tizer, Individuals, Trading as Royal Tile Stores, Royal Tile Company and Royal Carpet Company

This proceeding was heard by a hearing examiner on the complaint of the Commission charging two respondents, individually owning a number of stores in Pennsylvania, New Jersey, and Delaware, and advertising cooperatively in offering floor covering materials for sale at all of their stores, with representing falsely in extensive "bait" advertising in newspapers that their "Tile Tone" asphalt tile was America's most popular floor tile, that it could not wear out or crack, and that it was available at the advertised price in many different colors; and with advertising and selling imperfect tile without clearly disclosing that they were "seconds".

Following entry of an agreement containing consent order to cease and desist, the hearing examiner made his initial decision including order to cease and desist which became on December 27 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Jack B. Tizer and William B. Tizer, individuals trading and doing business as Royal Tile Stores, Royal Tile Company and Royal Carpet Company, or under any other name, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of asphalt tile, rubber tile or other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that certain merchandise is offered for sale when such offer is not a bona fide offer to sell the merchandise so offered;

2. Representing, directly or by implication, that Tile Tone is America's most popular floor tile or that it cannot wear out or crack;

3. Representing, directly or by implication, that merchandise is available at an advertised price in colors, when such is not the fact;

4. Offering for sale or selling imperfect tile without clearly disclosing such fact.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Jack B. Tizer and William B. Tizer, individuals, trading as Royal Tile Stores, Royal Tile Company and Royal Carpet Company, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 27, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 57-414; Filed, Jan. 18, 1957; 8:48 a. m.]

[Docket 6550]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

CLINFORD COMB AND NOVELTY CO., INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.15 *Business status, advantages, or connections:* Producer Status of Dealer or Seller: *Manufacturer.* Subpart—*Misbranding or mislabeling:* § 13.1185 *Composition.* Subpart—*Misrepresenting oneself and goods*—Business status, advantages or connections: § 13.1400 *Dealer as manufacturer.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Clinford Comb and Novelty Co., Inc., et al., New York, New York, Docket 6550, Dec. 27, 1956]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a concern doing business in New York City with stamping and branding as "rubber" and "Atlas Rubber" combs made in large part of other material, and with representing falsely in circulars and letters that they manufactured the merchandise they sold.

Following entry of an agreement for consent order, the hearing examiner made his initial decision and order to cease and desist which became on December 27 the decision of the Commission.

In the Matter of Clinford Comb and Novelty Co., Inc., a Corporation, and Louis G. Katz, and Julius Wolfsie, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a concern doing business in New York City with stamping and branding as "rubber" and "Atlas Rubber" combs made in large part of other material, and with representing falsely in circulars and letters that they manufactured the merchandise they sold.

Following entry of an agreement for consent order, the hearing examiner made his initial decision and order to cease and desist which became on December 27 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent Clinford Comb and Novelty Co., Inc., a corporation, and its officers, and respondents Louis G. Katz and Julius Wolfsie, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of any combs designed for use on the human hair, do forthwith cease and desist from:

1. Representing directly or by implication, by any advertisement, packaging, labeling, branding, stamping, or other marking or indication that such combs are "rubber", "Atlas Rubber", or "hard rubber" or are made of "rubber", "Atlas Rubber" or "hard rubber", unless such combs are in fact made of vulcanized hard rubber.

2. Representing through the use of the words "manufacturer of plastic products", "we are manufacturers" or any other word or words of similar import and meaning in circulars, letters or in any other manner, that they or any of them manufacture the merchandise sold by them.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 27, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 57-416; Filed, Jan. 18, 1957; 8:48 a. m.]

[Docket 6604]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

FIT-RITE WATCH CASE CORP. ET AL.

Subpart—*Misbranding or mislabeling:* § 13.1185 *Composition;* § 13.1295 *Quality or grade.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Fit-Rite Watch Case Corp. et al., New York, N. Y., Docket 6604, Dec. 27, 1956]

In the Matter of Fit-Rite Watch Case Corporation, a Corporation, and Alex Fenster, Harry Steingardt, Murry Crown and Earl Freyeisen, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a New York City seller of watch cases to distributors and jobbers with stamping as "14 K" gold, watch cases manufactured from gold of 13½ karat fineness.

Following agreement between the parties for a consent order, the hearing examiner made his initial decision and order to cease and desist which became on December 27 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents, Fit-Rite Watch Case Corporation, a corporation, and its officers, and Alex Fenster, Harry Steingart, Murry Crown and Earl Freyeisen, individually and as officers of said corporation, and their agents, representatives and employees, directly or through any corporate or other device in connection with the offering for sale, sale, or distribution of any articles composed in whole or in part of gold or an alloy of gold in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

Stamping, branding, engraving, or marking any article with any phrase or mark such as 14 K, or otherwise representing directly or by implication that the whole or a part of any article is composed of gold or an alloy of gold of a designated fineness, unless the article or part thereof so marked or represented is composed of gold of the designated fineness within the permissible tolerances established by the National Stamping Act (15 U. S. Code, Sections 294, et seq.).

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 27, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary*.

[F. R. Doc. 57-415; Filed, Jan. 18, 1957; 8:48 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

Subchapter A—Armed Services Procurement Regulations

[Amdt. 17]

MISCELLANEOUS AMENDMENTS

The following miscellaneous amendments are made to this subchapter:

PART 2—PROCUREMENT BY FORMAL ADVERTISING

SUBPART D—OPENING OF BIDS AND AWARD OF CONTRACT

Section 2.409 has been added to codify herein the provisions of DoD Directive 7830.1, May 31, 1956. The requirement for interest charge has been eliminated on advance payments on contracts for the management and operation of Government-owned plants. The interest rate on new interest-bearing advance payments has been increased to five (5) percent.

§ 2.409 *Advance payments.* Pursuant to the First War Powers Act and Executive Order No. 10210, provisions for advance payments may be made after award of contracts resulting from formal advertising. The provisions for advance payment shall comply with Part 3, Subpart E of this subchapter (and particularly § 3.502–2).

(R. S. 161; 5 U. S. C. 22. Interprets or applies 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151–162)

PART 3—PROCUREMENT BY NEGOTIATION

SUBPART A—USE OF NEGOTIATION

1. A new § 3.109 has been added, affecting negotiated procurements only, which permits an offeror to restrict the disclosure of "data" (design, plans, etc.), submitted with the proposal, providing the specified legend is placed on each sheet of data.

§ 3.109 *Restrictions on disclosure of data in proposals.* (a) Requests for Proposals may require the offeror to submit data with its proposal which may include a design or plan for accomplishing the objectives of the procurement. Such data may include information which the offeror does not want disclosed to the public or used by the Government for any purpose other than evaluation of the proposals. Offerors shall mark each sheet of data which they so wish to restrict with the legend set forth below:

> This data furnished in response to RFP No. ----------, shall not be disclosed outside the Government or be duplicated, used or disclosed in whole or in part for any purpose other than to evaluate the proposal, that if a contract is awarded to this offeror as a result of or in connection with the submission of such data, this legend shall be of no force or effect; and the Government shall have the right to use the data for any purpose except as otherwise provided in the contract. This restriction does not limit the Government's right to use information contained in such data if it is obtained from another source.

Contracting officers shall not refuse to consider any proposal merely because data submitted with that proposal is so marked. Data so marked shall be used only to evaluate proposals and shall not be disclosed outside the Government without the written permission of the offeror except under the conditions provided in the legend. With respect to contracts for experimental, developmental, or research work, see § 9.112 of this subchapter.

(b) The provisions of paragraph (a) of this section do not apply to procurements by formal advertising.

(R. S. 161; 5 U. S. C. 22. Interprets or applies 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151–162)

2. Subpart E of this part has been revised in its entirety to codify herein the provisions of DoD Directive 7830.1, May 31, 1956. The requirement for interest charge has been eliminated on advance payments on contracts for the management and operation of Government-owned plants. The interest rate of new interest-bearing advance payments has been increased to five (5) percent.

SUBPART E—ADVANCE PAYMENTS

Sec.

3.500 Scope of subpart.
3.501 Nature of advance payments.
3.502 Authority and approval requirements for advance payments.
3.502-1 Under the Armed Services Procurement Act.
3.502-2 Under the First War Powers Act.
3.503 Limitations on use of advance payments.
3.504 Security for advance payments.
3.505 Interest on advance payments.
3.506 Resolution of disagreements.

AUTHORITY: §§ 3.500 to 3.506 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151–162.

§ 3.500 *Scope of subpart.* This subpart authorizes advance payments, and describes the approvals required and the limitations and conditions on the use of advance payments.

§ 3.501 *Nature of advance payments.* Advance payments are payments made by the Government to a contractor in the nature of a loan or advance prior to and in anticipation of complete performance of a contract. Advance payments are to be distinguished from partial, progress, and other payments made because of performance or part performance of a contract.

§ 3.502 *Authority and approval requirements for advance payments.*

§ 3.502–1 *Under the Armed Services Procurement Act.* Pursuant to section 5 of the act, advance payments may be made under negotiated contracts in any amount not exceeding the contract price and upon such terms as the parties shall agree: *Provided*, That the Government shall not be committed, directly or indirectly, to make any advance payment pursuant to this authority unless the Secretary of the Department concerned approves the contract provision for advance payments, or the terms and conditions thereof, and determines, in accordance with the requirements of subpart C of this part, that the provision for advance payments, is (a) in the public interest or in the interest of national defense, and (b) necessary in order to procure the required supplies or services.

§ 3.502–2 *Under the First War Powers Act.* (a) Pursuant to the First War Powers Act and Executive Order No. 10210 the Military Departments have been authorized to make advance payments under formally advertised or negotiated contracts heretofore or hereafter made, without regard to other provisions of law relating to contracts, and to amend such contracts to provide for advance payments: *Provided*, That the Government shall not be committed, directly or indirectly, to make any advance payment pursuant to this authority unless, as applicable, (1) the Comptroller of the Army (or an alternate within his office), (2) the Assistant Comptroller, Accounting and Finance (or an alternate within his office) in the Department of the Navy, or (3) the Deputy for Contract Financing to the Assistant Secretary (Financial Management) of the Air Force (or an alternate responsible to the Deputy for Contract Financing), approves the contract provision for advance payments, or the terms and conditions thereof, and finds that the provision for advance payments will facilitate the national defense.

(b) All contracts, and amendments to contracts, providing for advance payments pursuant to the First War Powers Act and Executive Order No. 10210 shall (1) cite that Act and Executive Order; (2) state that the Department has found that the national defense will be facilitated by the provision; and (3) include the Examination of Records clause set forth in § 7.104–15 of this subchapter.

(c) Each Department shall maintain as to all contracts, and amendments to contracts, complete data relating to advance payments made pursuant to the First War Powers Act and Executive Order No. 10210.

§ 3.503 *Limitations on use of advance payments.* (a) Provisions for advance payments generally will not be approved under §§ 3.502–1 or 3.502–2 unless no other means of adequate financing is available to the contractor, and the amount of the authorization is predicated upon use of the contractor's own working capital to the extent possible; except that this requirement will not be applied to (1) nonprofit contracts with nonprofit educational or research institutions for experimental, research, and development work, and (2) contracts solely for the management and operation of Government-owned plants.

(b) Advance payments shall be used sparingly and care shall be taken to see that advances outstanding are sufficient for but do not exceed the actual reasonable requirement for the contracts. The amount of the advance payment shall be based upon an analysis of the cash flow required under the contract, and as a general rule should not exceed the interim cash needs arising during the reimbursement cycle.

§ 3.504 *Security for advance payments.* The advance payment provision shall require the deposit of all payments into a special bank account. Advance payments shall be limited to the contractor's financial needs, and withdrawals from the special bank account shall be closely supervised. The advance payment provision shall include as security, in addition to or in lieu of the requirements for an advance payment bond, a lien in favor of the Government, paramount to all other liens, upon the supplies contracted for, upon the credit balance in the special account, and upon the material and other property acquired for performance of the contract.

§ 3.505 *Interest on advance payments.* (a) Interest shall be charged on all advance payments at the rate of 5 percent per annum on the unliquidated balance, except that interest-free advance payments may be approved in (1) nonprofit contracts with nonprofit educational or research institutions for experimental, research and development work, (2) contracts solely for the management and operation of Government-owned plants, and (3) in unusual cases when specifically authorized by the Secretary. Facilities contracts as defined in § 13.101 (p) of this subchapter shall be considered as profit contracts requiring interest on advance payments.

(b) Contracts with interest-free advance payments shall require the contractor to charge interest at the rate of 5 percent per annum on subadvances or down payments made to subcontractors, and to credit such interest to the account of the Government. However, interest need not be charged on subadvances under nonprofit subcontracts with nonprofit educational or research institutions for experimental, research or development work.

§ 3.506 *Resolution of disagreements.* Any disagreement between the Departmental contract financing office and the cognizant procuring activity as to whether, to what extent, or in what form financing should be furnished, shall be resolved in accordance with Departmental procedures.

PART 5—INTERDEPARTMENTAL PROCUREMENT

1. Section 5.000 is revised to read as follows:

§ 5.000 *Scope of part.* This part deals with the procurement of supplies and services by the Military Departments from or through any other Government department or agency, with the exception of the procurement of supplies and services under the authority of Part 4 of this subchapter, Coordinated Procurement. This part is not applicable to procurement effected outside the continental United States except as otherwise provided by Departmental procedures.

2. Subpart A of this part has been revised and reorganized so as to clarify regulations applicable to procurement under Federal Supply Schedule Contracts. Section 5.106 has been added to reflect Comptroller General Decision Nos. B–121926 and B–122682 dated February 7, 1956; justification is now required for selection of other than the lowest-price item from a Schedule listing several contractors for similar items, where orders are in excess of $1,000. Revisions have also been made in various paragraphs of Subparts A through G of this Part 5 to require use of Revised DD Form 1155, which replaces DD Forms 702 and 738, effective January 1, 1957, or when existing stocks of the replaced forms are exhausted (see § 16.303). Subparts A through G are revised as follows:

a. Subpart A is revised to read as follows:

SUBPART A—PROCUREMENT UNDER FEDERAL SUPPLY SCHEDULE CONTRACTS

Sec.

5.101 Federal Supply Schedule contracts.
5.102 Distribution of Federal Supply Schedules and related publications.
5.103 Mandatory use of Federal Supply Schedules.
5.103-1 General.
5.103-2 Exceptions to mandatory use.
5.103-3 List of Federal Supply Schedule contracts which are mandatory upon the Department of Defense.
5.103-4 Establishment or revision of Federal Supply Schedules mandatory upon the Department of Defense.
5.104 Federal Supply Schedules the mandatory use provisions of which do not apply to the Department of Defense.
5.105 Completely optional Federal Supply Schedules.
5.106 Federal Supply Schedules with multiple award provisions.

AUTHORITY: §§ 5.101 to 5.106 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151–162.

§ 5.101 *Federal Supply Schedule contracts.* The Federal Supply Service, General Services Administration, enters into open end contracts for many classes of supplies and services which, although in common use by Federal agencies, normally do not lend themselves to definite quantity consolidated buying or to distribution from GSA warehouse stock. Federal Supply Schedules are General Services Administration publications which list under commodity classifications the supplies or services to be purchased from the contractors named therein. Military purchasing activities are required (see § 5.103) or authorized (see §§ 5.104 and 5.105) to order supplies and services under Federal Supply Schedule contracts. The ordering of such supplies and services under Federal Supply Schedule contracts shall be effected by placing delivery orders on DD Form 1155 (see § 16.303 of this subchapter) in accordance with the provisions of the applicable Federal Supply Schedule and §§ 5.103, 5.104 and 5.105.

§ 5.102 *Distribution of Federal Supply Schedules and related publications.* To obtain copies of Federal Supply Schedules, contractors' catalogs (including price lists) except those catalogs which by special agreement may be furnished directly by contractors, and Federal Supply Schedule check lists, purchasing activities and installations shall process requests on GSA Form 457 to the General Services Administration regional office serving the area in which the purchasing activity or installation is located. The check lists are issued periodically to show the status of all Federal Supply Schedules in effect, amendments thereto as to the dates specified, and information as to other pertinent matters. Purchasing activities and installations shall also request from the GSA regional office distribution of copies of general provisions for Federal Supply Schedule contracts. The General Services Administration regional or district offices are listed in § 5.204.

§ 5.103 *Mandatory use of Federal Supply Schedules.*

§ 5.103–1 *General.* Section 5.103–3 lists the classes of supplies and services, the procurement of which under Federal Supply Schedules is mandatory on the Department of Defense. These Federal Supply Schedule contracts provide that for a definite period the contractor is obligated to deliver all supplies and services that may be ordered thereunder by Government agencies, subject to stated minimum and maximum amounts of any order (see § 5.103–2 (b)).

§ 5.103–2 *Exceptions to mandatory use*—(a) *Emergency procurement.* When an emergency requires immediate delivery of supplies or services designated as mandatory on the Department of Defense which cannot be effected by ordering under Federal Supply Schedule contracts, authority is granted to make open market procurements of such supplies and services after the contracting officer has determined in writing that an emergency exists.

(b) *Abnormal requirements.* Federal Supply Schedule contracts generally provide that the mandatory use of provisions do not apply to abnormal requirements; that is, (1) any order of less than a stated minimum amount, (2) any order for an item or combination of items in excess

of a stated maximum amount, and (3) a series of orders from the same ordering office in quick succession and aggregating in excess of the maximum amount.

§ 5.103–4 *Establishment or revision of Federal Supply Schedules mandatory upon Department of Defense*—(a) *Policy.* The Administrator of General Services has agreed that the concurrence of the Office of the Secretary of Defense will be obtained prior to establishing a Federal Supply Schedule which is mandatory upon the Department of Defense or prior to adding or removing any items from Federal Supply Schedules which are mandatory upon the Department of Defense or making any other changes in such schedules affecting their use by Department of Defense in meeting its supply requirements. However, deletion of an item from a Federal Supply Schedule will not require Office of the Secretary of Defense concurrence when the reports of sales for that item amount to less than $1,000 per year except where—

(1) The item is a part or accessory incidental to a basic item;

(2) The item is a component of a unit assembly;

(3) The item has a demonstrated need to fill out a range of colors, sizes or other characteristics; or

(4) The item involves a contract for services.

(b) *Procedures.* Requests for the establishment of or a change in a Federal Supply Schedule mandatory on elements of the Department of Defense shall be forwarded through channels to the Office of the Assistant Secretary of Defense (Supply and Logistics). Such proposals normally shall be forwarded in sufficient time to provide three months for consideration by all interested elements of the Department of Defense and General Services Administration prior to the desired effective date. In the event action on such proposals is desired in a shorter period of time, a minimum of thirty-five days for consideration should be anticipated. These proposals will be distributed to the representatives of the Military Departments and General Services Administration engaged in the Federal Supply Schedule review program, as appropriate, for comment or concurrence. Any questions will be jointly considered before final action is taken. If the Department of Defense and General Services Administration representatives cannot reach agreement on a question raised regarding proposals involving Federal Supply Schedules mandatory upon the Department of Defense, the question will be forwarded to the Assistant Secretary of Defense (Supply and Logistics) for consideration and, if appropriate, for a statement of the Department of Defense position to the Administrator of General Services.

§ 5.104 *Federal Supply Schedules the mandatory use provisions of which do not apply to the Department of Defense.* In addition to the Federal Supply Schedule contracts listed in § 5.103, there are other schedules containing mandatory use provisions which do not apply to the Department of Defense and under which the Federal Supply Schedule contractors are not required to accept orders from the Military Departments. However, such Federal Supply Schedule contracts may be considered as available sources of supply against which military purchasing activities may place orders on an optional basis. Such schedules shall not be used for the procurement of nonmandatory items when (a) changes in specifications are anticipated, (b) technical inspection is required, or (c) special packaging, packing, preservation, or marking is necessary. When an order of $1,000 or more is contemplated from such schedules the purchasing activity shall assure itself prior to ordering that the order is reasonably justifiable, based on considerations such as time of delivery, service, and administrative expense, as being more advantageous to the Government than a purchase from other sources.

§ 5.105 *Completely optional Federal Supply Schedules.* In addition to the Federal Supply Schedule contracts described in §§ 5.103 and 5.104 there are Federal Supply Schedules in the following areas which are completely optional; Government purchasing activities are not required to order under such contracts and the contractors are not required to accept orders:

Class	Title
8–10–60–66...	Motor-Vehicle Parts and Accessories; Gasoline and Diesel Engine Parts, and Construction and Road-Building Machinery Parts.
61.....	Rental, Repair, Maintenance, and Reconditioning of Office Machines.

§ 5.103–3 *List of Federal Supply Schedule contracts which are mandatory upon the Department of Defense*—(a) *Mandatory nationally.*

Class	Title of schedule
7, 14.....	Gasoline and Lubricating Oil—Service Station Deliveries.
8.....	Tires and Tubes (Other Than Aircraft), Part II (Commercial tires and tubes only).
8, 45, 60...	Brake Lining, Clutch Facings, Oil Filter Elements, and Tire Chains, Etc., Part IV. (Selected items only are mandatory upon DOD.)
17.....	Spark Plugs, Part II.
17.....	Electric Lamps, Part VI.
17.....	Household and Quarters Lamps, Part VII.
18.....	Purchase, Maintenance, Repair, and Rental of Micro-Photographic Equipment, and Supplies, Part IV.
26.....	Household and Quarters Furniture, Part I.
26.....	Household and Quarters Furniture, Part II.
26.....	Household and Quarters Furniture, Part III.
26.....	Household and Quarters Furniture, Part IV.
26.....	Office Furniture, Wood and Steel, Including Steel Insulated Filing Cabinets, Part V.
27.....	Floor Coverings, Part I.
35.....	Books, Part I, Sections A and B. (Section A only is mandatory upon DOD.)
35.....	Periodicals and Law Books, Part II. (Law Books Section only is mandatory upon DOD.)
53.....	Drafting-Room and Office Supplies, Part I.
53.....	Envelopes, Printed and Plain, Part V.
54, 104...	Typewriters (Manual and Electric): Purchase, Exchange Allowances, and Repair Parts; Maintenance and Reconditioning of Electric Typewriters, Part I.
54.....	Office Equipment, Part III, Sections A and B.
54.....	Offset Duplicating Blankets and Plates, Direct Image and Photographic (Metal and Paper Type), Part IV.
66.....	Vacuum Cleaners and Repair Parts, Accessories and Attachments, Part II.
83.....	Aircraft Tires (Casings and tubes).
103.....	Recordings and Transcription Service, Part I.

(b) *Mandatory in Washington, D. C., and contiguous area.*

Class	Title of schedule
16, 17.....	Dry Batteries.
18, 51, 53...	Photographic Paper and Film, and Other Sensitized Materials and Photographic Chemicals, Classes 18 and 51, Part II, and Class 53, Part III. (Class 51 and 53 items only are mandatory upon DOD.)
26.....	Executive Type Furniture, Class 26, Part VI. Also Class 25, Smoking Stands, Class 53, Desk Trays, and Class 54, Baskets, Wastepaper.
27.....	Window Coverings, Part III.
42.....	Abrasives, Casters, Door Closers, Padlocks, Steel Strapping, etc.
51.....	Gases, Industrial, Medicinal, and Refrigeration; Part III.
53.....	Rubber Stamps, Part IV.
57.....	Laboratories and Special Apparatus and Supplies, Section C.
58.....	Fire Extinguishers, Repair Parts, and Accessories.
67.....	Feed and Forage, Part I.
67.....	Seed, Part II.
70.....	Agricultural Materials (Fertilizers, peat, and soil conditioners).
89 [1].....	Subsistence Items.
89 [1].....	Ice.
103.....	Correct Time Service.
103.....	Regraining of Offset Duplicating Plates, Part II.
103.....	Wiping Cloth Service, Part IV.

[1] FSC group.

Military purchasing activities may place orders under such schedules subject to the limitations and procedures prescribed in § 5.104.

§ 5.106 *Federal Supply Schedules with multiple award provisions.* There are also multiple award Federal Supply Schedules which list several contractors as possible sources for certain requirements. When orders in excess of $1,000 are placed at other than the lowest price available for the type of services or supplies required, the purchasing activity shall include in the contract file a memorandum for record setting forth the facts and conclusions justifying the order. The justification may be based on considerations such as time of delivery, service, and administrative expense. Where the Federal Supply Schedule indicates that the multiple awards were made in order to make available a selection of services or supplies to meet a specific requirement, the justification may, in addition to the considerations stated above, be based on differences in performance characteristics, and compatibility with existing equipment or systems.

b. Subpart B is revised to read as follows:

SUBPART B—PROCUREMENT FROM GENERAL SERVICES ADMINISTRATION STORES DEPOTS

Sec.
5.201 General.
5.202 Stores Stock Catalog.
5.203 Procedure for procurement from General Services Administration Stores Depots.
5.204 General Services Administration Stores Depots and regional offices.

AUTHORITY: §§ 5.201 to 5.204 issued under R. S. 161; 5. U. S. C. 22. Interpret or apply 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151–162.

§ 5.201 *General.* It is the general policy of the Department of Defense, when consistent with military necessity, to place maximum reliance on producer or commercial distributive systems for supplying requirements of the military departments. However, items and classes of material which have been designated for supply through local purchase and which normally are stocked by General Services Administration Stores Depots will be procured through the appropriate General Services Administration Stores Depot: *Provided,* That—

(a) The delivered price from the General Services Administration Stores Depot is not greater than the delivered price of the item from commercial sources;

(b) The service rendered by the General Services Administration Stores Depot, in terms of availability and procurement lead time, is equal to or better than that of commercial sources; and

(c) Such procurement is consistent with Subparts D and E of this part. The procurement of items stocked by General Services Administration Stores Depots which are under DOD–GSA interagency purchase assignments will be in accordance with the implementing procedures relating to such assignments.

§ 5.202 *Stores Stock Catalog.* The General Services Administration periodically publishes an illustrated "Stores Stock Catalog" which sets forth, among other things (a) all standard supplies carried in stock for issue by the Stores Depots listed in § 5.204, (b) special supplies carried in stock for issue only by certain of the depots, and (c) price information on a portion of the supplies listed. Copies of the "Stores Stock Catalog," and additional price lists may be obtained, upon request, from any of the regional offices or depots listed in § 5.204.

§ 5.203 *Procedure for procurement from General Services Administration Stores Depots.* Procurement from General Services Administration Stores Depots of supplies listed in the "Stores Stock Catalog" shall be made by submitting a delivery order on DD Form 1155 (Order for Supplies or Services), (see § 16.303 of this subchapter) to that General Services Administration Stores Depot which can best serve the procuring activity or installation, taking into consideration transportation costs, shipping time, and the regional boundaries of the Stores Depots. The delivery order shall contain the information required by the ordering instructions in the catalog.

§ 5.204 *General Services Administration Stores Depots and regional offices.* The General Services Administration operates stores depots and regional offices located in or near the cities listed below, serving the areas indicated on the back cover page of the "Stores Stock Catalog." The addresses shown are the mailing addresses to which all orders and correspondence should be forwarded.

GSA Region	Address
1. Boston, Mass.....	620 Post Office and Court House Building, Boston 9, Mass.
2. New York, N. Y.....	250 Hudson Street, New York 13, N. Y.
3. Washington, D. C.....	Room 5450, Seventh and D Streets SW., Washington 25, D. C.
4. Atlanta, Ga.....	Peachtree-Seventh Building, 50 Seventh Street NE., Atlanta 23, Ga.
5. Chicago, Ill.....	7200 South Leamington Avenue, Chicago 38, Ill.
Cleveland, Ohio.....	Room 212, Federal Building, Public Square, Cleveland 14, Ohio.
6. Kansas City, Mo.....	2306 East Bannister Road, Kansas City, Mo.
7. Dallas, Tex.....	P. O. Box 1315, Fort Worth, Tex.
8. Denver, Colo.....	Denver Federal Center, Denver, Colo.
9. San Francisco, Calif...	49 Fourth Street, San Francisco 3, Calif.
Los Angeles, Calif....	Orders for shipment by this depot should be directed to the San Francisco address.
10. Seattle, Wash.....	C/o Naval Air Station, Seattle 15, Wash.

c. In Subpart D—Procurement of Prison-Made Supplies, §§ 5.406 through 5.408 are revised to read as follows:

§ 5.406 *Procurement procedure.*

§ 5.406–1 *Procurement from Federal Prison Industries, Inc.* Procurement directly from Federal Prison Industries, Inc., will be made by placing a delivery order, using DD Form 1155 (Order for Supplies or Services), (see § 16.303 of this subchapter) with Federal Prison Industries, Inc., c/o Department of Justice, Washington 25, D. C.

§ 5.406–2 *Procurement from General Services Administration Stores Depots.* Procurement from General Services Administration Stores Depots of prison-made supplies listed in the Schedule shall be made by submitting a delivery order, using DD Form 1155 (see § 16.303 of this subchapter), to the General Services Administration Regional Office which normally serves the procuring activity or installation.

§ 5.407 *Exceptions.* Supplies listed in the Schedule may be procured through National Industries for the Blind or from commercial sources without securing clearance from Federal Prison Industries, Inc., under any of the following conditions:

(a) immediate delivery or performance is required by public exigency;

(b) suitable used supplies can be obtained;

(c) supplies are both procured and used outside continental United States and Alaska; or

(d) the total cost of the order is $25 or less.

§ 5.408 *Clearances.* In addition to the exceptions provided in § 5.407, the Military Departments may procure through National Industries for the Blind or from commercial sources, supplies of the types listed in the Schedule to the extent only that such procurement is specifically authorized in clearances issued by Federal Prison Industries, Inc., as set forth in paragraphs (a) and (b) of this section:

(a) General clearances are issued by Federal Prison Industries, Inc., when classes of supplies are not available from Federal penal and correctional institutions, or when it is otherwise in the best interest of the Government to allow procurement of those classes of supplies from agencies for the blind or from commercial sources. A copy of each general clearance is forwarded to the Department of Defense for dissemination to the Military Departments. Purchase orders or contracts written pursuant to a general clearance need not be supported by a copy of the clearance, but the clearance number must be cited on the purchase order or contract as well as on the initial voucher.

(b) Formal clearances are issued in response to requests initiated by procuring activities or installations desiring to procure from agencies for the blind or from commercial sources supplies of the type listed in the Schedule when such supplies are not covered by a general clearance. Requests for formal clearances shall be addressed to Federal Prison Industries, Inc., % Department of Justice, Washington 25, D. C. Actual purchase of the required supplies shall not be consummated prior to the issuance

of the formal clearance. A copy of the clearance certificate must be attached to the initial voucher.

d. In Subpart E—Procurement of Blind-Made Supplies, §§ 5.501 to 5.504–1 are revised to read as follows:

§ 5.501 *General.* Supplies listed in the Schedule of Blind-Made Products shall be procured in accordance with the policies and procedures set forth in this subpart.

§ 5.502 *Schedule of supplies which are blind-made.* Supplies manufactured by agencies for the blind are listed in the Schedule of Blind-Made Products (referred to in this Subpart E as the Schedule), now printed in separate loose-leaf form, copies of which may be obtained from any of the General Services Administration Regional Offices or Depots listed in § 5.204. Items available from stocks at General Services Administration Stores Depots are so identified in the Schedule.

§ 5.503 *Mandatory procurement of blind-made supplies.* (a) Except as provided in § 5.402, supplies listed in the Schedule shall be procured from agencies for the blind. Orders for such supplies shall be submitted to the General Services Administration Stores Depot which can best serve the procuring activity or installation, except that when one of the conditions set forth below is present, procurement shall be through the National Industries for the Blind:

(1) Supplies require overseas packaging or packing;

(2) Supplies are required in carload lots, as described in the Consolidated Freight Classification for the commodity concerned;

(3) Supplies are stocked by General Services Administration Stores Depots, but the procuring activity or installation is so located that it is more practical and economical to purchase directly from the agency for the blind which manufactures the supplies, rather than from the stores depot; or

(4) The schedule indicates that the supplies are not stocked by General Services Administration Stores Depots.

(b) Supplies listed in the Schedule may be procured from commercial sources under any of the conditions set forth below without securing clearance:

(1) Military necessity requires delivery within two weeks;

(2) The procurement is less than a single unit as listed in the Schedule or is for $25 or less; or

(3) Supplies are both procured and used outside the continental United States and Alaska.

§ 5.504 *Procurement procedure.*

§ 5.504–1 *From General Services Administration Stores Depots.* When procurement of blind-made supplies is to be effected from a General Services Administration Stores Depot, such procurement shall be made by submitting a delivery order on DD Form 1155 (see § 16.303 of this subchapter) to the General Services Administration Stores Depot which can best serve the procuring activity or installation.

e. Subpart G is revised to read as follows:

SUBPART G—PROCUREMENT UNDER THE ECONOMY ACT FROM OR THROUGH ANOTHER FEDERAL AGENCY

Sec.
5.700 Scope of subpart.
5.701 Authorization and policy relating to placing and filling orders.
5.702 Determination of amount and method of payment.

AUTHORITY: §§ 5.700 to 5.702 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151–162.

§ 5.700 *Scope of subpart.* This subpart deals with orders for supplies or services placed with another Government department or agency pursuant to the authority of the Economy Act of June 30, 1932, as amended (31 U. S. Code 686), except that it does not apply to any procurement covered by Part 4 or the preceding subparts of this part. Orders for supplies and services placed *within* a Military Department shall be in accordance with procedures prescribed by that Department.

§ 5.701 *Authorization and policy relating to placing and filling orders.* Each procuring activity, when it is in the interest of the Government to do so, may place delivery orders, on DD Form 1155 (see 16.303), with any other Government department or agency for supplies or services that any such requisitioned department or agency may be in a position to furnish or perform or to obtain by contract. Generally, an order for supplies or services will not be placed with a department or agency which is not in a position to furnish the supplies or is not equipped to perform the services, except that an order may be filled by means of an outside contract with a commercial source of supply if the order is placed by any one of the following: Department of the Army, Department of the Navy, Department of the Air Force, Department of the Treasury, Civil Aeronautics Administration, or Maritime Commission. An order for services shall not be placed with a department or agency when such services can be performed as conveniently or more cheaply by private contractors.

§ 5.702 *Determination of amount and method of payment.* Upon the written request of the requisitioned department or agency, an advance by check shall be made of all or part of the estimated cost of furnishing the supplies or services as specified by such requisitioned department or agency: *Provided*, That, where an advance is made, proper adjustments of the basis of the actual cost of the supplies or services shall be made as may be agreed upon by the departments or agencies concerned. Subject to approval by the requisitioned department or agency, payment by check may be made after the furnishing of the supplies or services. The amount to be paid shall be based on the actual cost of the supplies or services as may be agreed upon by the departments or agencies concerned.

PART 7—CONTRACT CLAUSES

To assure utmost economy in administrative actions, the following sections have been amended to direct the use of "certified mail", in lieu of "registered" mail in the transmission of the papers referred to therein.

SUBPART A—CLAUSES FOR FIXED-PRICE SUPPLY CONTRACTS

§ 7.103–12 *Disputes.*

DISPUTES

Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. Within 30 days from the date of receipt of such copy, the Contractor may appeal by mailing or otherwise furnishing to the Contracting Officer a written appeal addressed to the Secretary, and the decision of the Secretary or his duly authorized representative for the hearing of such appeals shall, unless determined by a court of competent jurisdiction to have been fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence, be final and conclusive: *Provided*, That, if no such appeal is taken, the decision of the Contracting Officer shall be final and conclusive. In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

In accordance with Department procedures, the foregoing clause may be modified to provide for intermediate appeal to the Head of the Procuring Activity concerned. The decision of the Contracting Officer referred to in the above clause shall, if mailed, be sent by certified mail, return receipt requested.

SUBPART B—CLAUSES FOR COST-REIMBURSEMENT TYPE SUPPLY CONTRACTS

§ 7.203–12 *Disputes.* Insert the contract clause set forth in § 7.103–12. In accordance with Department procedures, the foregoing clause may be modified to provide for (a) decision by the activity within a Department performing audit functions of any dispute concerning a question as to allowability of cost, and (b) intermediate appeal to the Head of the Procuring Activity concerned. The decision of the Contracting Officer or of the Activity performing the audit function shall, if mailed, be sent by certified mail, return receipt requested.

SUBPART E—CLAUSES FOR PERSONAL SERVICES CONTRACTS

§ 7.503–4 *Disputes.* Insert the contract clause set forth in § 7.103–12. In accordance with Department procedures, the foregoing clause may be modified to provide for intermediate appeal to the Head of the Procuring Activity concerned. The decision of the Contracting Officer referred to in the above clause shall, if mailed, be sent by certified mail, return receipt requested.

(R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151–162)

PART 8—TERMINATION OF CONTRACTS

To assure utmost economy in administrative actions, the following sections have been amended to direct the use of "certified mail", in lieu of "registered" mail in the transmission of the pages referred to therein.

SUBPART E—SETTLEMENT OF CONTRACTS TERMINATED FOR CONVENIENCE; GENERAL

§ 8.506 *Fixed-price contracts; settlements by determination; procedure.*

§ 8.506–1 *Notice to contractor.* The contracting officer will give the contractor not less than 15 days' notice by certified mail (with return receipt requested) to produce, on or before a stated date, written evidence bearing on the amount claimed to be due.

§ 8.506–4 *Determinations and findings.* After reviewing the information submitted or otherwise available to him, the contracting officer shall determine the amount due and shall transmit a copy of his determination and findings to the contractor by certified mail (with return receipt requested). The findings shall set forth the amounts due the contractor and shall be supported by detailed schedules conforming generally to the standard forms for settlement proposals set forth in Subpart G of this part, and by such additional information, schedules, and analyses as are necessary or appropriate. An adequate explanation shall be given for each major item of disallowance.

§ 8.511–3 *Notice to General Accounting Office of audit status date.* The Disbursing Officer will, upon receipt of the verified list of vouchers, immediately transmit by certified mail (return receipt requested) to the Zone Senior Chief Cost Auditor of the General Accounting Zone in which the work on the terminated contract was being performed, a notice fixing as the "Audit Status Date" (a) the day 60 days from the date of the receipt of the notice by the General Accounting Office, or (b) the date of the receipt by the procuring activity of the final General Accounting Office Audit Status letter, whichever is earlier. Said notice shall be prepared in the form set forth in Subpart G of this part. The Disbursing Officer shall send a copy of said notice to the contracting officer, and, in the case of the Navy, to the Cost Inspection Service, together with information as to the date on which said notice was received by the General Accounting Office, and shall send such other copies as may be required by procedures prescribed by each respective Department.

(R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151–162)

PART 16—PROCUREMENT FORMS

SUBPART C—PURCHASE AND DELIVERY ORDER FORMS

Sections 16.303 and 16.304 have been revised as follows: DD Forms 738 and 702 referred to therein have been replaced by DD Form 1155, effective January 1, 1957, or when existing stocks of the replaced forms are exhausted. Sections 16.303 and 16.304 have been combined into one section—16.303. Section 16.305 has been renumbered 16.304. These changes are set forth below:

§ 16.303 *Order for supplies or services (DD Form 1155).*

§ 16.303–1 *General.* (a) DD Form 1155 provides in one document:

(1) A purchase order, delivery order under a contract, or delivery order on Government agencies outside of the Department of Defense;

(2) A receiving and inspection report;

(3) A property voucher; and

(4) A public voucher.

(b) If additional space is required, DD Form 1155–1 (Continuation Sheet) shall be used.

(c) DD Form 1155 and 1155–1 may be used as snap-out manifold forms, as single sheets, or as reproducible masters, as prescribed by Departmental procedures.

(d) DD Form 1155 is designed for mailing in window envelopes. The use of such envelopes is encouraged.

§ 16.303–2 *Conditions for use.* DD Form 1155 shall be used as a purchase order or as a delivery order, regardless of the number of deliveries or payments contemplated.

(a) *Use as a purchase order.* (1) DD Form 1155 shall be used as a purchase order for supplies, as defined in 7.102, or for services other than personal services when:

(i) The amount involved is $1,000 or less;

(ii) The procurement is unclassified and is effected by negotiation in accordance with Part 3 of this subchapter;

(iii) Only the contract clauses set forth on the back of the form are necessary; if additional clauses are necessary, the procurement shall be effected by use of some other form authorized by this subchapter or Departmental procedures.

(2) DD Form 1155 shall be numbered in the local numbering series.

(b) *Use as a delivery order.* Except as to specialized procurements for which other instructions are given by this subchapter or Departmental procedures, DD Form 1155 shall be used without monetary limitation as a delivery order for ordering supplies or services:

(1) Under the open-end, indefinite quantity, or call-type contracts, or purchase notice agreements, including such contracts or agreements made by Government agencies outside of the Department of Defense, provided the order is issued in accordance with and subject to the terms and conditions of a basic contract or agreement to which specific reference is made in the form; or

(2) From Government agencies outside of the Department of Defense.

§ 16.303–3 *Forms superseded.* DD Form 702, DD Form 738 and DD Form 738–1 are superseded effective January 1, 1957, or whenever existing stocks are exhausted, whichever is earlier.

§ 16.304 *Blanket purchase order.* See Part 3, Subpart F, of this subchapter, and particularly 3.606.

A new § 16.503–6 prescribes the method by which the DD Form 731 will be brought up to date on an annual basis, as follows:

§ 16.503–6 *Modification of master contracts.* (a) Since Master Contracts prescribe the terms and conditions under which contractors submit bids and competitive quotations for vessel repair work, it is essential that the provisions of all outstanding Master Contracts be kept uniform. It is also necessary that Master Contracts be kept up to date and reflect changes in law and procurement regulations applicable to vessel repair work. The DD Form 731 will be revised annually to incorporate all changes made necessary by revisions to this subchapter. All outstanding Master Contracts shall be replaced using the latest revised form, effective as to all job orders issued on or after 60 days after the promulgation of such revision.

(b) To minimize interim amendments to Master Contracts, revisions to this subchapter changing clauses in the Master Contract form will provide appriate direction with respect to any required amendments to Master Contracts. To the extent possible, amendments will be required only in matters resulting from changes in statutes or executive orders.

(R. S. 161; 5 U. S. C. 22. Interpret or apply secs. 2–12, 62 Stat. 21–26, sec. 638, 66 Stat. 537; 41 U. S. C. 151–161, 162)

PART 30—APPENDIXES TO ARMED SERVICES PROCUREMENT REGULATION

To assure utmost economy in administrative actions, the following paragraphs of Appendixes A and D to Part 30 have been amended to direct the use of "certified mail", in lieu of "registered mail" in the transmission of the papers referred to therein.

§ 30.1 *Appendix A—Armed Services Board of Contract Appeals charter and rules.*

* * * * *

PART II—RULES

* * * * *

Proceedings Preliminary to Hearings

* * * * *

15. *Service of papers.* Service of papers in all proceedings pending before the Board may be made personally, or by mailing the same in a sealed envelope, certified, return receipt requested, with postage prepaid, addressed to the party upon whom service shall be made, and the date of the certified mail receipt shall be the date of service. Waiver of the service of any papers may be noted thereon or on a copy thereof, or on a separate paper, signed by the parties or their attorneys and filed with the Board. When any party has appeared by attorney, service upon the attorney will be deemed proper service upon such party.

§ 30.4 *Appendix D—Rules for Notice and hearing under gratuities clause in Armed Services Procurement Regulation 7.104–16:*

* * * * *

5. *Service of notice.* Service shall be made by mailing or delivering a copy of the notice to the contractor. Delivery of a copy means

handing it to the party to be served, or, if the party is a corporation, partnership, or unincorporated association, handing it to an officer, partner, managing or general agent, or any other agent authorized by appointment or by law to receive service of process, or by leaving the copy at the contractor's office with the person in charge thereof. Service by mail shall be made only by certified mail and service shall be complete upon mailing. The manner of service shall be evidenced by the signed endorsement of the person making the service upon a copy of the notice to be included in the record of the proceeding. Service of notice may be accepted or waived by the contractor by written endorsement on a copy of the notice.

R. C. LANPHIER, Jr.,
Deputy Assistant Secretary of Defense (Supply and Logistics).

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1380]

[Fairbanks 08595]

ALASKA

WITHDRAWING PUBLIC LANDS FOR USE OF BUREAU OF PUBLIC ROADS AS AN ADMINISTRATIVE SITE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and the mineral-leasing laws, and reserved for use of the Bureau of Public Roads, as an administrative site:

CANTWELL AREA

Lot 10, U. S. Survey No. 3229.

The tract described contains 59.048 acres.

HATFIELD CHILSON,
Assistant Secretary of the Interior.

JANUARY 14, 1957.

[F. R. Doc. 57-399; Filed, Jan. 18, 1957; 8:45 a. m.]

[Public Land Order 1381]

[Colorado 013628]

COLORADO

RESERVING PUBLIC LANDS WITHIN ROUTT NATIONAL FOREST FOR USE OF FOREST SERVICE AS RECREATION AREAS, CAMPGROUND, AND AN ADMINISTRATIVE SITE

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands within the Routt National Forest in Colorado are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining but not the mineral-leasing laws, or the act of July 31, 1947 (61 Stat. 681; 30 U. S. C. 601-604) as amended, and reserved for use of the Forest Service, Department of Agriculture, as recreation areas, campgrounds, and an administrative site as indicated:

SIXTH PRINCIPAL MERIDIAN

Gore Pass Campground:
T. 1 N., R. 82 W.,
Sec. 3, S½SE¼SE¼;
Sec. 10, N½NE¼NE¼.
The areas described aggregate 40 acres.

Toponas Creek Campground:
T. 1 N., R. 83 W.,
Sec. 4, SE¼NW¼SE¼, SW¼NE¼SE¼, NE¼SW¼SE¼, and NW¼SE¼SE¼.
The areas described aggregate 40 acres.

Base Campground:
T. 5 N., R. 83 W.,
In approximate sec. 1. Beginning at a point from which the west ¼ corner of section 6, T 5 N., R. 82 W., bears S. 28° E. a distance of 30 chains, thence West 20 chains; North 20 chains; East 20 chains; South 20 chains to point of beginning.
The tract described contains 40 acres.

Walton Creek Campground:
T. 5 N., R. 83 W.,
In approximate secs. 22 and 23. Beginning at a point from which U. S. Bureau of Public Roads Station No. 420 on U. S. Highway No. 40 bears due south 5 chains, thence East 30 chains; South 20 chains; West 30 chains; North 20 chains to point of beginning.
The tract described contains 60 acres.

Walton Mountain Radio Repeater Station Administrative Site:
T. 5 N., R. 83 W.,
In approximate secs. 27 and 34. Beginning at a point from which the northeast corner of the building housing the radio equipment on the top of the peak bears S. 45° W. a distance of 14 chains, thence South 20 chains; West 20 chains; North 20 chains; East 20 chains to point of beginning.
The tract described contains 40 acres.

Lake Dinosaur
Recreation Area:
T. 6 N., R. 83 W.,
In approximate sec. 10. Beginning at a point from which the junction of the stream leaving Lake Dinosaur and Buffalo Creek bears N. 56° W. a distance of 37 chains, thence East 40 chains; South 20 chains; West 40 chains; North 20 chains to point of beginning.
The tract described contains 80 acres.

Fish Creek Recreation Area:
T. 6 N., R. 83 W.,
In approximate secs. 15 and 16. Beginning at a point from which the outlet pipe on Fish Creek Reservoir bears S. 20° E. a distance of 36 chains, thence East 67 chains; South 61 chains; West 67 chains; North 61 chains to point of beginning.
The tract described contains 409 acres.

Long Lake Recreation Area:
T. 6 N., R. 83 W.,
In approximate secs. 22 and 23. Beginning at a point from which the outlet of the Long Lake dam bears S. 45° E. a distance of 10 chains, thence East 50 chains; South 25 chains; West 50 chains; North 25 chains to point of beginning.
The tract described contains 125 acres.

Round Lake—Lake Percy Recreation Area:
T. 6 N., R. 83 W.,
In approximate sec. 24. Beginning at a point which is the west ¼ corner of sec. 19, T. 6 N., R. 82 W., thence South 35 chains; West 50 chains; North 35 chains; East 50 chains to point of beginning.
The tract described contains 175 acres.

Lake Elmo Recreation Area:
T. 6 N., R. 83 W.,
In approximate sec. 25. Beginning at a point from which the southwest corner of sec. 19, T. 6 N., R. 82 W., bears N. 69° E. a distance of 27 chains, thence South 25 chains; West 25 chains; North 25 chains; East 25 chains to point of beginning.
The tract described contains 62.5 acres.

Fishhook Lake Recreation Area:
T. 6 N., R. 83 W.,
In approximate sec. 36. Beginning at a point from which the west ¼ corner of sec. 31, T. 6 N., R. 82 W., bears due east a distance of 20 chains, thence West 20 chains; North 30 chains; East 20 chains; South 30 chains to point of beginning.
The tract described contains 60 acres.

Summit Lake Recreation Area:
T. 7 N., R. 83 W.,
In approximate sec. 26. Beginning at a point from which the southwest corner of sec. 30, T. 7 N., R. 82 W., bears S. 85° E. a distance of 114 chains, thence West 20 chains; North 20 chains; East 20 chains; South 20 chains to point of beginning.
The tract described contains 40 acres.

Big Creek Lakes (Hahns Peak) Recreation Area:
T. 8 N., R. 83 W.,
In approximate secs. 7 and 18. Beginning at a point from which the outlet of lower Big Creek Lake bears S. 56° 30' E. a distance of 396 feet, thence East 1,287 feet; South 1,353 feet; West 1,287 feet; North 1,353 feet to point of beginning.
The tract described contains 40 acres.

Wolverine Lake Recreation Area:
T. 9 N., R. 83 W., partly unsurveyed,
In approximate sec. 27. Beginning at a point from which the outlet of Wolverine Lake bears S. 69° E. a distance of 495 feet, thence East 1,188 feet; South 1,089 feet; West 1,188 feet; North 1,089 feet to point of beginning.
The tract described contains 29 acres.

Beaver Lake Recreation Area:
T. 9 N., R. 83 W., partly unsurveyed,
In approximate sec. 11. Beginning at a point from which the outlet of Beaver Lake bears S. 55° 30' W. a distance of 396 feet, thence West 1,402 feet; South 1,254 feet; East 1,402 feet; North 1,254 feet to point of beginning;
The tract described contains 42 acres.

Pristine Lake Recreation Area:
T. 9 N., R. 83 W., partly unsurveyed,
In approximate sec. 35. Beginning at a point from which the outlet of Pristine Lake bears S. 54° 30' E. a distance of 561 feet, thence East 842 feet; South 1,485 feet; West 842 feet; North 1,485 feet to point of beginning.
The tract described contains 28 acres.

Ptarmigan Lake Recreation Area:
T. 9 N., R. 83 W., partly unsurveyed,
In approximate sec. 35. Beginning at a point from which the outlet of Ptarmigan Lake bears S. 64° W. a distance of 380 feet, thence West 776 feet; South 693 feet; East 776 feet; North 693 feet to point of beginning.
The tract described contains 14 acres.

Dome Lake Recreation Area:
T. 9 N., R. 83 W., partly unsurveyed,
In approximate sec. 33. Beginning at a point from which the outlet of Dome Lake bears S. 69° W., a distance of 627 feet, thence West 1,634 feet; South 1,584 feet; East 1,634 feet; North 1,584 feet to point of beginning.
The area described contains 59.5 acres.

Three Island Lake Recreation Area:
T. 9 N., R. 83 W., partly unsurveyed,
In approximate sec. 10. Beginning at a point from which a rock cairn monument at northeast corner of rock slide area bears N. 27° E. a distance of 1,617 feet, thence South 18° W. 1,304 feet; S. 36° E. 1,864 feet; N. 78° E. 2,426 feet; N. 4° W. 2,128 feet; N. 84° W. 2,615 feet to point of beginning.
The tract described contains 165 acres.

North Lake Recreation Area:
T. 9 N., R. 83 W., partly unsurveyed,
In approximate secs. 22 and 23. Beginning at a point from which the inlet of North Lake bears S. 60° W. a distance of 346 feet, thence West 1,023 feet; South 858 feet; East 1,023 feet; North 858 feet to point of beginning.
The tract described contains 22.5 acres.

Gold Lake Recreation Area:
T. 10 N., R. 83 W., partly unsurveyed,
In approximate sec. 35. Beginning at a point from which the outlet of Gold Lake bears N. 30° E. a distance of 808 feet, thence N. 15° W. 1,188 feet; N. 75° 30' E. 2,311 feet; S. 14° W. 1,303 feet; S. 74° W. 1,551 feet to point of beginning.
The tract described contains 55 acres.

Mica Lake Recreation Area:
T. 10 N., R. 83 W., partly unsurveyed,
In approximate sec. 16. Beginning at a point from which the outlet of Mica Lake bears N. 45° E. a distance of 627 feet, thence North 1,172 feet; East 1,485 feet; South 1,172 feet; West 1,485 feet to point of beginning.
The tract described contains 40.5 acres.

Gilpin Lake Recreation Area:
T. 10 N., R. 83 W., partly unsurveyed,
In approximate sec. 25. Beginning at a point from which a scribed rock adjacent to trail at the top of the grade bears S. 81° 30' E. a distance of 1,172 feet, thence N. 56° E. 1,716 feet; N. 4° E. 2,442 feet; S. 67° W. 2,797 feet; S. 23° E. 2,558 feet to point of beginning.
The tract described contains 115 acres.

Gem Lake Recreation Area:
T. 11 N., R. 83 W., partly unsurveyed,
In approximate sec. 30. Beginning at a point from which the outlet of Gem Lake bears N. 42° W. a distance of 726 feet, thence North 924 feet; West 1,716 feet; South 924 feet; East 1,716 feet to point of beginning.
The tract described contains 37.5 acres.

Lake Diana Recreation Area:
T. 11 N., R. 83 W., partly unsurveyed,
In approximate sec. 32. Beginning at a point from which the outlet of Lake Diana bears S. 61° E. a distance of 1,089 feet, thence East 1,848 feet; South 1,320 feet; West 1,848 feet; North 1,320 feet to point of beginning.
The tract described contains 55 acres.

Manzanares Lake Recreation Area:
T. 11 N., R. 84 W.,
Sec. 9, SE¼SW¼NE¼, SW¼SE¼NE¼, NW¼NE¼SE¼, and NE¼NW¼SE¼.
The areas described aggregate 40 acres.

West Fork Lake Recreation Area:
T. 11 N., R. 84 W.,
Sec. 13, W½SW¼SW¼;
Sec. 14, SE¼SE¼.
The areas described aggregate 60 acres.

Sanchez Lake Recreation Area:
T. 11 N., R. 84 W.,
Sec. 25, S½SW¼NE¼, S½SE¼NW¼, N½NE¼SW¼, and N½NW¼SE¼.
The areas described aggregate 80 acres.

This order shall take precedence over but not otherwise affect the existing reservation of the lands for national forest purposes.

JANUARY 14, 1957.

HATFIELD CHILSON,
Assistant Secretary of the Interior.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

ST. MARYS FALLS CANAL, MICH.

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 207.440 governing the use, administration and navigation of St. Marys Falls Canal, Michigan, is hereby amended redesignating paragraph (v), as paragraph (w), and adding a new paragraph (v), prescribing the overall dimensions of vessels which will be permitted to transit MacArthur Lock and the conditions for the transit of such vessels, as follows:

§ 207.440 *St. Marys Falls Canal and Locks, Mich.; use, administration and navigation.* * * *

(v) The maximum overall dimensions of vessels that will be permitted to transit MacArthur Lock are 730 feet in length and 75 feet in width. Further, any vessel of greater length than 660 feet must be equipped with dock winches adequate to safely control the vessel in the lock under all conditions including that of power failure.

(w) Masters or other persons refusing to comply with the regulations in this section or any orders given in pursuance thereof, or using profane, indecent, or abusive language, may, in the discretion of the District Engineer or his authorized agents, be denied the privileges of the locks and canal grounds.

(Regs., 4 January 1957, 800.211 (St. Mary's River, Mich.)-ENGWO) (Sec. 7, 40 Stat. 266; 33 U. S. C. 1)

[SEAL] HERBERT M. JONES,
Major General, U. S. Army,
The Adjutant General.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Sec.
1.164 Statutory provisions; itemized deductions for individuals and corporations; taxes.
1.164-1 Deduction for taxes.
1.164-2 Deduction denied in case of certain taxes.
1.164-3 Federal duties and excise taxes.
1.164-4 Taxes for local benefits.
1.164-5 Certain retail sales taxes and gasoline taxes.
1.164-6 Apportionment of taxes on real property between seller and purchaser.
1.164-7 Taxes of shareholder paid by corporation.

The following regulations relating to taxes are hereby prescribed under section 164 of the Internal Revenue Code of 1954 and, except as specifically provided otherwise in section 164 (d) (2) (B), are effective for taxable years beginning after December 31, 1953, and ending after August 16, 1954:

§ 1.164 *Statutory provisions; itemized deductions for individuals and corporations; taxes.*

SEC. 164. *Taxes*—(a) *General rule.* Except as otherwise provided in this section, there shall be allowed as a deduction taxes paid or accrued within the taxable year.

(b) *Deduction denied in case of certain taxes.* No deduction shall be allowed for the following taxes:

(1) Federal income taxes, including—

(A) The tax imposed by section 3101 (relating to the tax on employees under the Federal Insurance Contributions Act);

(B) The taxes imposed by sections 3201 and 3211 (relating to the taxes on railroad employees and railroad employee representatives); and

(C) The tax withheld at source on wages under section 3402, and corresponding provisions of prior revenue laws.

(2) Federal war profits and excess profits taxes.

(3) Federal import duties, and Federal excise and stamp taxes (not described in paragraph (1), (2), (4), or (5)); but this paragraph shall not prevent such duties and taxes from being deducted under section 162 (relating to trade or business expenses) or section 212 (relating to expenses for the production of income).

(4) Estate, inheritance, legacy, succession, and gift taxes.

(5) Taxes assessed against local benefits of a kind tending to increase the value of the property assessed; but this paragraph shall not prevent—

(A) The deduction of so much of such taxes as is properly allocable to maintenance or interest charges; or

(B) The deduction of taxes levied by a special taxing district if—

(i) The district covers the whole of at least one county;

(ii) At lease 1,000 persons are subject to the taxes levied by the district; and

(iii) The district levies its assessments annually at a uniform rate on the same assessed value of real property, including improvements, as is used for purposes of the real property tax generally.

(6) Income, war profits, and excess profits taxes imposed by the authority of any foreign country or possession of the United States, if the taxpayer chooses to take to any extent the benefits of section 901 (relating to the foreign tax credit).

(7) Taxes on real property, to the extent that subsection (d) requires such taxes to be treated as imposed on another taxpayer.

(c) *Certain retail sales taxes and gasoline taxes*—(1) *General rule.* In the case of any State or local sales tax, if the amount of the tax is separately stated, then, to the extent that the amount so stated is paid by the consumer (otherwise than in connection with the consumer's trade or business) to his seller, such amount shall be allowed as a deduction to the consumer as if it constituted a tax imposed on, and paid by, such consumer.

(2) *Definition.* For purposes of paragraph (1), the term "State or local sales tax" means a tax imposed by a State, a Territory, a possession of the United States, or a political subdivision of any of the foregoing, or by the District of Columbia, which tax—

(A) Is imposed on persons engaged in selling tangible personal property at retail (or on persons selling gasoline or other motor vehicle fuels at wholesale or retail) and is a stated sum per unit of property sold or is measured either by the gross sales price or by the gross receipts from the sale; or

(B) Is imposed on persons engaged in furnishing services at retail and is measured by the gross receipts for furnishing such services.

(d) *Apportionment of taxes on real property between seller and purchaser*—(1) *General rule.* For purposes of subsection (a), if real property is sold during any real property tax year, then—

(A) So much of the real property tax as is properly allocable to that part of such year which ends on the day before the date of the sale shall be treated as a tax imposed on the seller, and

(B) So much of such tax as is properly allocable to that part of such year which begins on the date of the sale shall be treated as a tax imposed on the purchaser.

(2) *Special rules.* (A) In the case of any sale of real property, if—

(i) A taxpayer may not, by reason of his method of accounting, deduct any amount for taxes unless paid, and

(ii) The other party to the sale is (under the law imposing the real property tax) liable for the real property tax for the real property tax year,

then for purposes of subsection (a) the taxpayer shall be treated as having paid, on the date of the sale, so much of such tax as, under paragraph (1) of this subsection, is treated as imposed on the taxpayer. For purposes of the preceding septence, if neither party is liable for the tax, then the party holding the property at the time the tax becomes a lien on the property shall be considered liable for the real property tax for the real property tax year.

(B) Paragraph (1) shall apply to taxable years ending after December 31, 1953, but only in the case of sales after December 31, 1953.

(C) Paragraph (1) shall not apply to any real property tax, to the extent that such tax was allowable as a deduction under the Internal Revenue Code of 1939 to the seller for a taxable year which ended before January 1, 1954.

(D) In the case of any sale of real property, if the taxpayer's taxable income for the taxable year during which the sale occurs is computed under an accrual method of accounting, and if no election under section 461 (c) (relating to the accrual of real property taxes) applies, then, for purposes of subsection (a), that portion of such tax which—

(i) Is treated, under paragraph (1) of this subsection, as imposed on the taxpayer, and

(ii) May not, by reason of the taxpayer's method of accounting, be deducted by the taxpayer for any taxable year,

shall be treated as having accrued on the date of the sale.

(e) *Taxes of shareholder paid by corporation.* Where a corporation pays a tax imposed on a shareholder on his interest as a shareholder, and where the shareholder does not reimburse the corporation, then—

(1) The deduction allowed by subsection (a) shall be allowed to the corporation; and

(2) No deduction shall be allowed the shareholder for such tax.

(f) *Cross reference.* For provisions disallowing any deduction for the payment of the tax imposed by subchapter B of chapter 3 (relating to tax-free covenant bonds) see section 1451 (f).

§ 1.164–1 *Deduction for taxes.* Except as otherwise provided in this section and in §§ 1.164–2 to 1.164–7, inclusive, taxes imposed by the United States, any State, Territory, possession of the United States, or a political subdivision of any of the foregoing, or by any foreign country, are deductible from gross income for the taxable year in which paid or accrued, according to the method of accounting used in computing taxable income. See section 461 for the general rule for taxable year of deduction. Amounts paid to States or Territories under secured-debts laws in order to render securities tax-exempt are deductible. Automobile license fees are ordinarily taxes. Postage is not a tax. In general, taxes are deductible only by the person upon whom they are imposed. See section 164 (d) and § 1.164–6 for apportionment of taxes on real property between seller and purchaser. For provisions disallowing any deduction for the tax paid at the source on interest from tax-free covenant bonds, see section 1451 (f).

§ 1.164–2 *Deduction denied in case of certain taxes.* This section and §§ 1.164–3 and 1.164–4 describe certain taxes for which no deduction is allowed or with respect to which the allowance of the deduction is subject to certain conditions. No deduction is allowed for:

(a) Federal income taxes, including the taxes imposed by section 3101, relating to the tax on employees under the Federal Insurance Contributions Act; sections 3201 and 3211, relating to the taxes on railroad employees and railroad employee representatives; section 3402, relating to the tax withheld at source on wages; and by corresponding provisions of prior internal revenue laws.

(b) Federal war profits and excess profits taxes including those imposed by Title II of the Revenue Act of 1917, Title III of the Revenue Act of 1918, Title III of the Revenue Act of 1921, section 216 of the National Industrial Recovery Act, section 702 of the Revenue Act of 1934, subchapter D of chapter 1 of the Internal Revenue Code of 1939, and subchapter E of chapter 2 of the Internal Revenue Code of 1939.

(c) Estate, inheritance, legacy, succession, and gift taxes.

(d) Income, war profits, and excess profits taxes imposed by the authority of any foreign country or possession of the United States, if the taxpayer chooses to take to any extent the benefits of section 901, relating to the credit for taxes of foreign countries and of possessions of the United States.

(e) Taxes on real property, to the extent that section 164 (d) and § 1.164–6 require such taxes to be treated as imposed on another taxpayer.

§ 1.164–3 *Federal duties and excise taxes.* No deduction is allowed under section 164 for Federal import or tariff duties, business, license, privilege, excise, and stamp taxes (not described in paragraphs (a), (b), or (c) of § 1.164–2, or § 1.164–4), paid or accrued within the taxable year. The fact that any such tax is not deductible as a tax under section 164 does not prevent (a) its deduction under section 162 or section 212, provided it represents an ordinary and necessary expense paid or incurred during the taxable year by a corporation or an individual in the conduct of any trade or business or, in the case of an individual, for the production or collection of income, for the management, conservation, or maintenance of property held for the production of income, or in connection with the determination, collection, or refund of any tax, or (b) its being taken into account during the taxable year by a corporation or an individual as a part of the cost of acquiring or producing property in the trade or business or, in the case of an individual, as a part of the cost of property held for the production of income with respect to which it relates.

§ 1.164–4 *Taxes for local benefits.* (a) Except as provided in paragraph (b) of this section, so-called taxes, more properly assessments, paid for local benefits, such as street, sidewalk, and other like improvements, imposed because of and measured by some benefit inuring directly to the property against which the assessment is levied do not constitute an allowable deduction from gross income. A tax is considered assessed against local benefits when the property subject to the tax is limited to property benefited. Special assessments are not deductible, even though an incidental benefit may inure to the public welfare. The real property taxes deductible are those levied for the general public welfare by the proper taxing authorities at a like rate against all property in the territory over which such authorities have jurisdiction. Assessments under the statutes of California relating to irrigation, and of Iowa relating to drainage, and under certain statutes of Tennessee relating to levees, are limited to property benefited, and if the assessments are so limited, the amounts paid thereunder are not deductible as taxes.

(b) (1) Insofar as assessments against local benefits are made for the purpose of maintenance or repair or for the purpose of meeting interest charges with respect to such benefits, they are deductible. In such cases the burden is on the taxpayer to show the allocation of the amounts assessed to the different purposes. If the allocation cannot be made, none of the amount so paid is deductible.

(2) Taxes levied by a special taxing district are deductible if the district covers the whole of at least one county, if at least 1,000 persons are subject to the taxes levied by the district, and if the district levies its assessments annually at a uniform rate on the same assessed value of real property, including improvements, as is used for purposes of the real property tax generally.

§ 1.164–5 *Certain retail sales taxes and gasoline taxes.* (a) Any amount representing a State or local sales tax paid by a consumer of services or tangible personal property is deductible by such consumer as a tax, provided it is separately stated and not paid in connection with his trade or business. The fact that, under the law imposing it, the incidence of the State or local sales tax does not fall on the consumer is immaterial. The requirement of section 164 (c) (1) that the amount of the tax must be separately stated will be deemed complied with where it clearly appears that at the time of sale to the consumer, the tax was added to the sales price and collected or charged as a separate item. It is not necessary, for the purpose of this section, that the consumer be furnished with a sales slip, bill, invoice, or other statement on which the tax is separately stated. Where the law imposing the State or local sales tax for which the taxpayer seeks a deduction contains a prohibition against the seller absorbing the tax, or a provision requiring a posted notice stating that the tax will be added to the quoted price, or a requirement that the tax be separately shown in advertisements or separately stated on all bills and invoices, it is presumed that the amount of the State or local sales tax was separately stated at the time paid by the consumer; except that such presumption shall have no application to a gasoline tax imposed upon a wholesaler unless such provisions of law apply with respect to both the sale at wholesale and the sale at retail.

(b) As used in this section the term "State or local sales tax" means a tax imposed by a State, a Territory, a possession of the United States, or a political subdivision of any of the foregoing, or by the District of Columbia upon persons engaged in selling tangible personal property at retail, or on persons selling gasoline or other motor vehicle fuels at wholesale or retail, which is a stated sum per unit of such property sold or which is measured by the gross sales price or the gross receipts from the sale. The term also includes a tax imposed by such authorities upon persons engaged in furnishing services at retail, which is measured by the gross receipts for furnishing such services.

(c) In general, the term "consumer" means the ultimate user or purchaser; it does not include a purchaser, such as a retailer, who acquires the property for resale.

§ 1.164–6 *Apportionment of taxes on real property between seller and purchaser*—(a) *Scope.* When real property is sold, section 164 (d) (1) governs the deduction by the seller and the purchaser of current real property taxes. Section 164 (d) (1) performs two functions: (1) It provides a method by which a portion of the taxes for the real property tax year in which the property is sold may be deducted by the seller and a portion by the purchaser; and (2) it limits the deduction of the seller and the purchaser to the portion of the taxes corresponding to the part of the real property tax year during which each was the owner of the property. These functions are accomplished by treating a portion of the taxes for the real property tax year in which the property is sold as imposed on the seller and a portion as imposed on the purchaser. To the extent that the taxes are treated as imposed on the seller and the purchaser, each shall be allowed a deduction, under section 164 (a), in the taxable year such tax is paid or accrued, or treated as paid or accrued under section 164 (d) (2) (A) or (D) and this section. No deduction is allowed for taxes on real property to the extent that they are imposed on another taxpayer, or are treated as imposed on another taxpayer under section 164 (d). For the election to accrue real property taxes ratably see section 461 (c) and the regulations thereunder.

(b) *Application of rule of apportionment.* (1) For purposes of the deduction provided by section 164 (a), if real property is sold during any real property tax year as defined in paragraph (c) of this section, the portion of the real property tax properly allocable to that part of the real property tax year which ends on the day before the date of the sale shall be treated as a tax imposed on the seller, and the portion of such tax properly allocable to that part of such real property tax year which begins on the date of the sale shall be treated as a tax imposed on the purchaser. For definition of "real property tax year" see paragraph (c) of this section. This rule shall apply whether or not the seller and the purchaser apportion such tax. The rule of apportionment contained in section 164 (d) (1) applies even though the same real property is sold more than once during the real property tax year. (See paragraph (d) (3) of this section for inclusion in gross income of excess deductions.) Where the real property tax becomes a personal liability or a lien before the beginning of the real property tax year to which it relates and the real property is sold subsequent to the time the tax becomes a personal liability or a lien but prior to the beginning of the related real property tax year (i) the seller may not deduct any amount for real property taxes for the related real property tax year, and (ii) the purchaser is allowed a deduction for the full amount of such taxes for the taxable year they (or amounts representing such taxes) are paid or accrued by him according to his method of accounting. (However, if the real property is sold during the related real property tax year the allowable deduction for the real property taxes for such year is apportioned between the parties to such sale.) Similarly, where the real property tax becomes a personal liability or a lien after the end of the real property tax year to which it relates and the real property is sold prior to the time the tax becomes a personal liability or a lien but after the end of the related real property tax year (a) the purchaser may not deduct any amount for real property taxes for the related real property tax year, and (b) the seller is allowed a deduction for the full amount of such taxes for the taxable year they (or amounts representing such taxes) are paid or accrued by him according to his method of accounting. (However, if the real property had been purchased during the related real property tax year the allowable deduction for the real property taxes for such year is apportioned between the parties to such sale.)

(2) Section 164 (d) does not apply to delinquent real property taxes for any real property tax year prior to the real property tax year in which the property is sold.

(3) The provisions of this paragraph may be illustrated by the following examples:

Example (1). The real property tax year in County R is April 1 to March 31. A, the owner on April 1, 1954, of real property located in County R sells the real property to B on June 30, 1954. B owns the real property from June 30, 1954, through March 31, 1955. The real property tax for the real property tax year April 1, 1954–March 31, 1955 is $365. For purposes of section 164 (a), $90 (90/365 × $365, April 1, 1954–June 29, 1954) of the real property tax is treated as imposed on A, the seller, and $275 (275/365 × $365, June 30, 1954–March 31, 1955) of such real property tax is treated as imposed on B, the purchaser.

Example (2). In County S the real property tax year is the calendar year. The real property tax becomes a lien and is payable on July 1 of the current real property tax year, but there is no personal liability for such tax. On April 30, 1955, C, the owner of real property in County S on January 1, 1955, sells the real property to D. On July 1, 1955, D pays the 1955 real property tax. On August 31, 1955, D sells the same real property to E. C, D, and E use the cash

receipts and disbursements method of accounting. Under the provisions of section 164 (d) (1), 119/365 (January 1–April 29, 1955) of the real property tax payable on July 1, 1955, for the 1955 real property tax year is treated as imposed on C, and, under the provisions of section 164 (d) (2) (A), such portion is treated as having been paid by him on the date of sale. Under the provisions of section 164 (d) (1), 123/365 (April 30–August 30, 1955) of the real property tax paid July 1, 1955, for the 1955 real property tax year is treated as imposed on D and is deductible by him. Under the provisions of section 164 (d) (1), 123/365 (August 31–December 31, 1955) of the real property tax due and paid on July 1, 1955, for the 1955 real property tax year is treated as imposed on E and, under the provisions of section 164 (d) (2) (A) such portion is treated as having been paid by him on the date of sale.

Example (3). In State X the real property tax year is the calendar year. The real property tax becomes a lien on November 1 of the preceding calendar year. On November 15, 1955, F sells real property in State X to G. G owns the real property through December 31, 1956. Under section 164 (d) (1), the real property tax (which became a lien on November 1, 1954) for the 1955 real property tax year is apportioned between F and G. No part of the real property tax for the 1956 real property tax year may be deducted by F. The entire real property tax for the 1956 real property tax year is deductible by G when paid or accrued, depending upon the method of accounting used by him. See subparagraph (4) of paragraph (d) and section 461 (c) and the regulations thereunder.

(c) *Real property tax year.* As used in section 164 (d), the term "real property tax year" refers to the period which, under the law imposing the tax, is regarded as the period to which the tax imposed relates. Where the State and one or more local governmental units each impose a tax on real property, the real property tax year for each tax must be determined for purposes of applying the rule of apportionment of section 164 (d) (1) to each tax. The time when the tax rate is determined, the time when the assessment is made, the time when the tax becomes a lien, and the time when the tax becomes due or delinquent do not necessarily determine the real property tax year. The real property tax year may or may not correspond to the fiscal year of the governmental unit imposing the tax. In each case the State or local law determines what constitutes the real property tax year. Although the seller and the purchaser make an allocation of real property taxes, the meaning of "real property tax year" in section 164 (d) and the application of section 164 (d) do not depend upon what real property taxes were allocated nor the method of allocation used by the parties.

(d) *Special rules.* (1) If the taxpayer, by reason of his method of accounting, may not deduct any amount for taxes until paid, and the other party to the sale is liable for the real property tax for the real property tax year, then the portion of the tax treated under section 164 (d) (1) as imposed upon the taxpayer shall be considered as having been paid by him at the time of the sale. Where the tax is not a liability of any person, the person who holds the property at the time the tax becomes a lien on the property shall be considered liable for the tax. As to a particular sale, in determining—

(i) Whether the other party to the sale is liable for the tax or,

(ii) The person who holds the property at the time the tax becomes a lien on the property (where the tax is not a liability of any person),

prior or subsequent sales of the property during the real property tax year shall be disregarded. Section 164 (d) (2) (A) does not apply to any purchaser unless the real property tax for the real property tax year, is payable prior to the date of the sale. Moreover, where the real property tax for the real property tax year is payable on or before the date of sale, but has not been paid, section 164 (d) (2) (A) does not apply to any purchaser who does not pay the tax. The provisions of this subparagraph may be illustrated as follows:

Example (1). In County X the real property tax year is the calendar year. The real property tax is a personal liability of the owner of the real property on June 30 of the current real property tax year, but is not payable until September 30 of the current real property tax year. A, the owner of real property in County X on January 1, 1955, uses the cash receipts and disbursements method of accounting. On May 30, 1955, A sells the real property to B, who also uses the cash receipts and disbursements method of accounting. B retains ownership of the real property for the balance of the 1955 calendar year. Under the provisions of section 164 (d) (1), 149/365 (January 1—May 29, 1955) of the real property tax payable on September 30 for the 1955 real property tax year is treated as imposed on A, the seller, and under the provisions of section 164 (d) (2) (A) such portion is treated as having been paid by him on the date of the sale. Under the provisions of section 164 (d) (1), 216/365 (May 30–December 31, 1955) of the real property tax payable on September 30 for the 1955 real property tax year is treated as imposed on B, the purchaser, and is deductible by him when paid.

Example (2). In County Y, the real property tax year is the calendar year. The real property tax becomes a lien on January 1, 1955, and is payable on April 30, 1955. There is no personal liability for the real property tax imposed by County Y. On April 30, 1955, C, the owner of real property in County Y on January 1, 1955, pays the real property tax for the 1955 real property tax year. On May 1, 1955, C sells the real property to D. On September 1, 1955, D sells the real property to E. C, D and E use the cash receipts and disbursements method of accounting. Under the provisions of section 164 (d) (1), 120/365 (January 1–April 30, 1955) of the real property tax is treated as imposed upon C and is deductible by C when paid. Under section 164 (d) (1), 123/365 (May 1–August 31, 1955) of the real property tax is treated as imposed upon D, and under the provisions of section 164 (d) (2) (A), is treated as having been paid by him on May 1, 1955. Under the provisions of section 164 (d) (1), 122/365 (September 1–December 31, 1955) of the real property tax is treated as imposed on E, and under the provisions of section 164 (d) (2) (A), is treated as having been paid by him on the date of the sale.

(2) If real property is sold during any real property tax year and the seller, by reason of his method of accounting, may not deduct any amount for taxes until paid, then the portion of the tax treated under section 164 (d) (1) as imposed upon the seller shall be considered as having been paid by him at the time of the sale, if (i) the seller (under the law imposing the real property tax) is liable for the real property tax for the real property tax year, or (where such tax is not a liability of any person) the seller holds the property at the time the tax becomes a lien on such property, and (ii) the tax is not payable until after the date of the sale. The provisions of this subparagraph may be illustrated as follows:

Example. In County X the real property tax year is the calendar year and the real property taxes are assessed and become a lien on June 30 of the current real property tax year, but are not payable until September 1 of that year. There is no personal liability for the real property tax imposed by County X. A, the owner on January 1, 1955, of real property in County X, uses the cash receipts and disbursements method of accounting. On July 15, 1955, A sells the real property to B. Under the provisions of section 164 (d) (1), 195/365 (January 1–July 14, 1955) of the real property tax payable on September 1, 1955, for the 1955 real property tax year is treated as imposed on A, and under this subparagraph, such portion is treated as having been paid by him on the date of the sale.

(3) If, for a taxable year prior to the taxable year of sale of real property, a taxpayer has deducted an amount for real property tax in excess of the portion of such real property tax treated as imposed on him under the provisions of section 164 (d), the excess of the amount deducted over the portion treated as imposed on him shall be included in his gross income for the taxable year of the sale, subject to the provisions of section 111, relating to the recovery of bad debts, prior taxes, and delinquency amounts. The provisions of this subparagraph may be illustrated as follows:

Example (1). In Borough Y the real property tax is due and payable on November 30 for the succeeding calendar year, which is also the real property tax year. On November 30, 1954, taxpayer A, who reports his income on a calendar year under the cash receipts and disbursements method of accounting, pays the real property tax on real property owned by him in Borough Y for the 1955 real property tax year. On June 30, 1955, A sells the real property. Under the provisions of section 164 (d), only 180/365 (January 1–June 29, 1955) of the real property tax for the 1955 real property tax year is treated as imposed on A, and the excess of the amount of real property tax for 1955 deducted by A, on his 1954 income tax return, over the 180/365 portion of such tax treated as imposed on him under section 164 (d), must be included in gross income in A's 1955 income tax return, subject to the provisions of section 111.

Example (2). In County Z the real property tax year is the calendar year. The real property tax becomes a personal liability of the owner of real property on January 1 of the current real property tax year, and is payable on July 1 of the current real property tax year. On May 1, 1955, A, the owner of real property in County Z on January 1, 1955, sells the real property to B. On November 1, 1955, B sells the same real property to C. B uses the cash receipts and disbursements method of accounting and reports his income on the basis of a fiscal year ending July 31. B, on July 1, 1955, pays the entire real property tax for the real property tax year ending December 31, 1955. Under the provisions of section 164 (d), only 184/365 (May 1–October 31, 1955) of the real property tax for the 1955 real property tax year is treated as imposed on B, and the excess of the amount of real property tax for 1955 deducted by B on his income tax return for the fiscal year ending July 31, 1955, over the 184/365 portion of such tax treated as imposed on him under section 164 (d), must be included in gross income in B's income tax return for his fiscal year ending July 31, 1956, subject to the provisions of section 111.

(4) Where real property is sold and the seller or the purchaser computes his taxable income (for the taxable year during which the sale occurs) on an accrual method of accounting, then, if the seller or the purchaser has not made the election provided in section 461 (c) (relating to the accrual of real property taxes), the portion of any real property tax which is treated as imposed on him and which may not be deducted by him for any taxable year by reason of his method of accounting shall be treated as having accrued on the date of sale. The provisions of this subparagraph may be illustrated as follows:

Example. In County X the real property tax becomes a lien on property and is assessed on November 30 for the current calendar year, which is also the real property tax year. There is no personal liability for the real property tax imposed by County X. A owns, on January 1, 1955, real property in County X. A uses an accrual method of accounting and has not made any election under section 461 (c) to accrue ratably real property taxes. A sells real property on June 30, 1955. By reason of A's method of accounting, he could not deduct any part of the real property tax for 1955 on the real property since he sold the real property prior to November 30, 1955, the accrual date. Under section 164 (d) (1), 180/365 (January 1–June 29, 1955) of the real property tax for the 1955 real property tax year is treated as imposed on A, and under section 164 (d) (2) (D) that portion is treated as having accrued on June 30, 1955, and is deductible by A.

(5) For determination of amount realized on a sale of real property, see section 1001 (b) and the regulations thereunder. For determination of basis of real property acquired by purchase see section 1012 and the regulations thereunder.

(6) Section 164 (d) applies to taxable years ending after December 31, 1953, but only in the case of sales made after December 31, 1953. However, section 164 (d) does not apply to any real property tax to the extent that such tax was allowable as a deduction under the Internal Revenue Code of 1939 to the seller for any taxable year which ended before January 1, 1954.

§ 1.164–7 *Taxes of shareholder paid by corporation.* Banks and other corporations paying taxes assessed against their shareholders on account of their ownership of the shares of stock issued by such corporations without reimbursement from such shareholders may deduct the amount of taxes so paid. In such cases no deduction shall be allowed to the shareholders for such taxes. The amount so paid should not be included in the gross income of the shareholder.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 905, 906]

[Docket Nos. AO–209–A9 and AO–210–A9]

MILK IN OKLAHOMA METROPOLITAN MARKETING AREA (PRESENTLY OKLAHOMA CITY AND TULSA-MUSKOGEE MARKETING AREAS)

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND TO PROPOSED ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk, of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and a proposed order amending the orders, as amended, regulating the handling of milk in the Oklahoma City and Tulsa-Muskogee marketing areas. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 15th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed marketing agreement and the order amending the order, as amended, were formulated, was conducted at Oklahoma City, Oklahoma, on June 5–8, 1956 (21 F. R. 3319).

The material issues of record related to:

(1) Merging Orders Nos. 5 and 6 regulating the handling of milk in the Oklahoma City and Tulsa-Muskogee marketing areas;

(2) Extending the combined marketing areas to include additional territory in the State of Oklahoma;

(3) Revising the classification and allocation of milk;

(4) Revising class prices;

(5) Revising the location differentials (now included only in the Tulsa-Muskogee order) applicable to both producers and handlers;

(6) Redefining the standards a plant must meet to acquire pool status;

(7) Providing a payment on unpriced milk disposed of in the marketing area;

(8) Making a cooperative association a handler with respect to certain milk of its member producers; and

(9) Making such other changes as may be necessitated by adoption of the above changes or by the merger of the two orders.

Findings and conclusions. The following findings and conclusions are based on the evidence presented at the hearing and the record thereof:

(1) Order No. 5, regulating the handling of milk in the Oklahoma City marketing area, should be consolidated with Order No. 6, regulating the handling of milk in the Tulsa-Muskogee Marketing area and the combined areas should be known as the Oklahoma Metropolitan marketing area.

The character of milk marketing in the two markets has recently changed to such an extent that the markets are no longer isolated from each other. One handler located in Tulsa distributes milk in the Oklahoma City market. This handler maintains a distribution point in Oklahoma City from which milk is distributed under his own brand name. This handler also packages milk for a chain store under the label of the chain store. This chain has several outlets in the Oklahoma City marketing area from which the Tulsa milk is sold. At least two Oklahoma City handlers have permits from the city of Tulsa and are disposing of milk in the Tulsa-Muskogee marketing area. The producer cooperative association supplying the Oklahoma City marketing area in recent months has disposed of several tank loads of milk to a Tulsa handler.

Outside the boundaries of the two marketing areas there are several communities which are served by both Oklahoma City and Tulsa-Muskogee handlers.

There is reciprocity of inspection between the several municipalities in both marketing areas which have Grade A ordinances. The Tulsa handlers who opposed the merger made much of the fact that milk from farms which has been approved by Oklahoma City health authorities may not be received at Tulsa plants directly from the farms of such producers. Milk from any plant which meets the Grade A requirements of any of the municipalities, may be distributed in any other community upon certification from the health authority having jurisdiction over the plant that the milk is of Grade A quality. Likewise milk from another jurisdiction may be received in bulk for bottling when certified by the health authorities at the point of origin.

In the past, there has been very little shifting of producers from one market to the other and although the production areas are in part contiguous there has been little overlapping of procurement routes. The advent of the tank type cooler and the transportation of milk from farm to market in an insulated tank truck, rather than in cans, has increased substantially the distance milk may be hauled, and has facilitated the ability of producers to shift from one market to another.

A further factor which will lead to a greater shifting of milk between the two markets has been the formation by the cooperative associations of the Oklahoma Milk Marketing Federation. This organization at the present time is made up of the two cooperative bargaining associations which furnish the major volume of milk to the Oklahoma City and Tulsa-Muskogee markets and an operating cooperative association at Stillwater, Oklahoma. The two bargaining cooperatives do not maintain manufacturing facilities although each operates a receiving station where milk may be assembled for delivery to handlers in tank trucks, or for diversion to manufacturing plants when it is not needed for the local trade. The cooperative association at Stillwater processes and distributes bottled milk as well as operating a manufacturing plant.

The avowed objective of the Federation is to improve marketing conditions generally and bring about greater stability by making the milk of all three associations available wherever shortages occur in either market and to remove from the market any supplies over and above those required to meet the needs of the handlers. Such a program would be facilitated if the entire area were regulated by a single marketing order.

In opposition to the merger handlers argued that the physical characteristics and the agricultural practices of the two milksheds vary and that the economy of Tulsa is different from that of Oklahoma City. Since a milkshed is an accidental adjunct of a marketing area, and is in no way determined or regulated by a milk marketing order, differences in the production areas of the two markets are of little consequence in determining whether the orders should be merged. Likewise the fact that per capita income in Tulsa is greater than in Oklahoma City, or that the two cities are served by different public utility companies, does not demonstrate that the regulation of both cities under a single milk marketing order would not tend to improve marketing conditions.

There always has existed a close relationship between the Oklahoma City and Tulsa-Muskogee markets. This relationship has been such that it has been necessary to hold hearings in both markets whenever an adjustment appeared necessary in either. Although there have been minor variations in the two orders, these differences have been slight and do not present a barrier to merging the two orders. With the interchange of milk that is developing between the two markets, orderly marketing requires either that the orders be amended reciprocally and made identical, or that they be merged. Administrative feasibility and economy of administration would best be served if the two markets are combined under a single order. Since the Tulsa-Muskogee order is more nearly adaptable to the requirements of the combined areas, the Oklahoma City order should be merged with it.

To accomplish the merger effectively and most equitably the money in the custody of the market administrator in the administrative, marketing service and producer-settlement funds under the Oklahoma City order, other than funds which may be held in escrow or in certain contingent accounts, should be combined with the similar accounts under the Tulsa-Muskogee order. Any other method of liquidating the several funds under the Oklahoma City order would be inequitable since it would unduly burden the handlers and producers now regulated by the Tulsa-Muskogee order.

(2) The marketing area should be expanded to include some additional territory not now regulated by either Order No. 5 or Order No. 6. This additional territory would include the city and township of Guthrie in Logan County; the city and township of Stillwater, and Union township, including the city of Cushing in Payne County; and Ponca City in Kay County.

The notice of hearing contained a proposal by the handlers now regulated by both Orders Nos. 5 and 6 to include virtually the entire State of Oklahoma within the marketing area if the present areas were merged. At the hearing this proposal was abandoned except with respect to the counties in the northeastern corner of Oklahoma, specifically, Ottawa, Delaware, Craig, Rogers, Mayes, Nowata, Pawnee, Washington and Osage, and the city of Ponca City in Kay County.

Other parties of interest proposed the inclusion of the three townships in Oklahoma County not now regulated, the towns of Sumner and Morrison in Noble County, Ponca City in Kay County, and all of Payne and Logan Counties. At the hearing no testimony was presented with respect to Sumner and Morrison or with respect to that part of Logan County lying west of the towns traversed by United States Highway No. 77.

The proponents of the inclusion of the northeastern counties of Oklahoma testified that they were requesting the inclusion of these counties only in the event the two orders were merged. In at least two previous hearings the addition of these counties to what is now the Tulsa-Muskogee marketing area was proposed. Each time the proponents failed to present evidence sufficient to warrant the extension of regulation to this area. The evidence introduced at the latest hearing was virtually the same as that introduced at prior hearings and is no more persuasive that this territory should be added to the combined marketing areas than it was that it be added to the Tulsa-Muskogee marketing area.

These counties lie between the Tulsa-Muskogee, Neosho Valley, and Ozarks marketing areas. Handlers from all three marketing areas distribute milk there. The entire region is predominantly rural, the only sizable communities being Bartlesville and Miami with populations of 19,200 and 11,800, respectively.

Extension of the marketing area to include these counties would have little effect upon marketing conditions in them or upon returns to producers supplying milk to the plants that would be brought under regulation. Additional administrative problems would be created by the inclusion of a number of small milk dealers under regulation and of many communities in which handlers regulated under other marketing orders sell as much milk as or more than is sold by handlers under the Tulsa-Muskogee order. It is concluded, therefore, that these counties should not be added to the marketing area.

It was also proposed that all of Payne County be added to the marketing area. Except for the townships of Stillwater and Union and the cities of Stillwater and Cushing which are encompassed by these townships the county is predominantly rural. The city of Yale with a population of approximately 1,300 is the only other community with a population of as much as 1,000 persons. The record fails to disclose the presence of any handlers in the county whose operations would not be brought under regulation by inclusion of the townships of Stillwater and Union including the cities of Stillwater and Cushing. The remainder of Payne County should not be included in the marketing area.

The largest distributor of milk in Payne County is the Payne County Cooperative. In addition to distributing Grade A milk in bottles this organization operates manufacturing facilities. It is now in the process of expanding these facilities. The cooperative is a member of the Oklahoma Milk Marketing Federation and the only member which operates a manufacturing plant. One of the purposes of enlarging its manufacturing capacity is to handle the seasonal excess of the Oklahoma City and Tulsa-Muskogee markets. It is also in a position to make milk available to these cities when supplies are short. Inclusion of the major communities in Payne County in the marketing area and bringing the Payne County Cooperative under full regulation as a handler will greatly facilitate the movement of milk between Stillwater and Oklahoma City or Tulsa and lend additional stability to the market.

In addition to the Payne County Cooperative, milk is distributed in Payne County by handlers now regulated under the Oklahoma City and Tulsa-Muskogee orders and by plants located in Guthrie and Ponca City, both of which would be regulated by the proposed order.

The city of Guthrie should be included in the marketing area. The only plant now located in Guthrie receives most of its milk from producers who are members of the same cooperative association which supplies milk to the handlers in Oklahoma City. It purchases its milk under a pricing plan virtually identical to that provided in the Oklahoma City order. Its principal competitor in Guthrie is a handler regulated under the Oklahoma City order who recently ceased bottling milk in his Guthrie plant and now uses it as a distribution point. The Guthrie handler proposed that the eastern half of Logan County be annexed to the marketing area. However, there are no communities of any appreciable size located there, other than Guthrie township and the city of Guthrie. Extension of the marketing area to include this rural area would serve no useful purpose. It is concluded, therefore, that in Logan County only the township and city of Guthrie should be added to the marketing area.

Ponca City in Kay County should be added to the marketing area. The major handler in Ponca City would be brought under regulation as a handler by the proposed extension of the marketing area to include Stillwater. Most of the milk distributed in Ponca City is from handlers who either are regulated by the present Oklahoma City and Tulsa-Muskogee orders or who would be regulated by the proposed expansion of the marketing area noted above. Ponca City, therefore, is a natural part of the proposed Oklahoma Metropolitan milk marketing area and should be included in it.

It was also proposed that the townships of Deer Creek, Deep Fork, and Luther in Oklahoma City be added to the marketing area which now includes the remainder of Oklahoma County. The combined population of these three townships is approximately 2600 people. There are no effective health regulations in these townships and there are no handlers located there. Their inclusion would not enhance the effectiveness of the regulation. They should not be added to the marketing area at this time.

3. The classification of milk and the allocation of the utilization of milk between producer milk and other source milk should be continued essentially as it now is in the Tulsa-Muskogee milk order.

Producers proposed that the provision relating to shrinkage be revised so that the 2 percent plant shrinkage presently permitted to be classified in Class II would be prorated in accordance with the total utilization of milk in the plant. Under this plan, a plant whose utilization is entirely in Class I would be permitted no shrinkage in Class II. On the other hand, in a plant which has some milk utilized in Class II, the 2 percent shrinkage would be divided between Class I and Class II in the ratio that total receipts in the plant were divided between Class I and Class II utilization. While there is some merit to this proposal the evidence in the record does not afford a sufficient basis for changing the order in this respect at the present time.

Producers also proposed that, of the 2 percent shrinkage presently permitted under the order, in the case of milk which is transferred from a supply plant or which is delivered to a handler's plant in a tank truck from producers' farms for the account of a cooperative association which is a handler, one-half of 1 percent should be assigned to the transferor plant or to the cooperative association, and the remaining 1 and one-half percent should be assigned to the transferee plant. At the present time, allowable shrinkage is permitted only in the plant where the milk is received directly from the farms of the producers. Thus, a receiving station where milk is merely received and cooled is permitted shrinkage up to 2 percent of its receipts while the bottling plant where the milk is processed and bottled for distribution to consumers is permitted no shrinkage on such milk. In the case of milk delivered to a plant in tank trucks directly from the farms of producers who have bulk tanks, all the allowable shrinkage is assigned to the plant which receives the milk and the cooperative association is not permitted any shrinkage to cover the loss that may occur between the time the milk is picked up on the farm and the time it is weighed at the plant of the receiving handler.

It is an established fact that the plant losses incurred in processing and bottling milk are substantially greater than those incurred in a plant receiving and cooling milk. Likewise, there is undoubtedly some loss in transporting milk to market from producer farms in tank trucks. This loss may be compared with that incurred in a plant engaged only in receiving and cooling milk. Accordingly, the bottling plant should be permitted 1 and one-half percent shrinkage on milk which it receives from a supply plant or on milk which it receives in bulk tanks from a cooperative association which is a handler. The supply plant or the cooperative which operates the tank trucks should be permitted to assign one-half of 1 percent as allowable plant shrinkage.

Handlers proposed that the present provision with respect to milk in inventory be deleted and that only changes in the volume of milk in inventory be classified as Class II. In support of this proposal, there was incorporated in the present record all the testimony with respect to an identical proposal to the Tulsa-Muskogee milk order contained in the record of the hearing conducted at Tulsa, Oklahoma, on November 29–30, 1955. At the time of the present hearing no decision had been issued as a result of that hearing. On July 16, 1956, the Assistant Secretary issued a decision on the record of that hearing denying the proposed changes submitted by handlers. The findings contained in that decision (21 F. R. 5416) with respect to this proposal are equally applicable on the present record. Accordingly, the proposal is denied.

It was also proposed that milk moved to plants more than 350 miles from the pool plant at which it was received from producers should be classified as Class I milk. The present Tulsa-Muskogee order provides that milk shall be Class I if moved to a plant more than 300 miles from Tulsa, while the Oklahoma City order provides that milk shall be Class I if moved to a plant more than 200 miles from the plant at which it was received from producers. There are ample facilities within 300 miles of Tulsa for handling any milk that may be received from producers over and above Class I requirements of the market. Likewise, there are ample facilities within a similar radius of Oklahoma City for handling any excess supplies from that market. There is no likelihood that milk would be moved more than 300 miles from either city for use in manufactured dairy products. It is concluded, therefore, that any milk moved in bulk more than 300 miles, in the form of milk or skim milk from the City Hall in Tulsa or the City Hall in Oklahoma City should be classified as Class I.

Handlers also proposed that the provisions in the order relating to the allocation of utilization between producer milk and other source milk be changed substantially. The proposal of the handlers would have provided that, under specified conditions, a handler might have a monthly obligation computed on the basis of one or more accounting periods within the month and that other source Grade A milk priced as Class I milk under another Federal order should be allocated pro rata with producer milk whenever receipts of producer milk were less than 115 percent of a handler's route sales of Class I milk for the month. As in the case of the proposal with respect to inventory noted above, these proposals are identical to proposals considered at the hearing held in Tulsa, Oklahoma on November 29–30, 1955. As in the case of the proposal with respect to inventory the pertinent testimony contained in the record of that hearing was incorporated in this record. The findings of the Assistant Secretary in this matter (21 F. R. 5416) are applicable to the present record and the proposal is denied.

As noted below it has been found that a cooperative association should be considered a handler with respect to the milk of its producer-members which is picked up in bulk at the farm by the cooperative association and delivered to the distributing plants in tank trucks for the account of the association. It, therefore, is necessary to amend the allocation provisions in the present order to assign classification to such milk. In order to maintain equity between all producers on the market, milk so handled should be prorated over the utilization of all milk received from producers in the plants where the milk actually is utilized.

4. The Class I price should be fixed at the level of the prices received by producers in the Oklahoma City market for Class I milk at the present time.

It was proposed that the Class I differential be fixed at $1.90 per hundredweight for the entire year but that until July 31, 1957, the Class I differential should be $2.30. At the present time, the differentials in the Tulsa-Muskogee order are $1.45 during the months of April, May and June and $1.85 during the remaining months of the year. In the Oklahoma City order the differentials are $1.70 during April, May and June and $1.90 during the remaining months of the year. On an annual average, therefore, the Class I differential for milk received at plants in what is now the Tulsa-Muskogee marketing area has been 10 cents less than the Class I differential provided by the Oklahoma City marketing order. In recent months the normal difference in price between the two markets has been affected by the operation of the supply-demand adjustment factor and for the months of July, August and September the Oklahoma City Class I price has been less than that provided by the Tulsa-Muskogee order. This has been a temporary situation brought about, at least in part, by the

disposition in the Oklahoma City marketing area of a sizeable volume of Class I milk regulated under the Tulsa-Muskogee order.

With the merging of the two orders, a uniform pattern of pricing should be established and a single supply-demand adjustment factor applicable to both segments of the marketing area should be adopted. To maintain prices to all producers at approximately the present annual level, the basing point for producer prices should be fixed at Oklahoma City and the location differential should apply to milk received at plants in the present Tulsa-Muskogee marketing area.

As noted above producers proposed the abandonment of all seasonality in the Class I price on the grounds that the base and excess plan provided sufficient incentive to producers to level out their production. It is necessary, however, to maintain Class I prices in alignment with those in surrounding markets. Regulated handlers compete, both in the procurement of milk and in sales, over a wide area with plants subject to regulation under the Neosho Valley, Ozarks and Fort Smith marketing orders. At some points handlers also encounter competition from plants regulated by the North Texas order. All of these orders have a seasonal variation in the Class I price. To provide a Class I price equivalent to the present price on an annual average but seasonally aligned with prices in nearby markets, the Class I differential is fixed at $1.55 per hundredweight during April, May and June and at $1.95 per hundredweight during the remaining months of the year.

No change should be made in the basic formula. It should continue to be the higher of (1) prices paid by mid-west condenseries, (2) prices resulting from a formula based on butter and nonfat dry milk solids or (3) the Class II price.

The supply-demand adjustment factor provided in the order should be revised. Both the Tulsa-Muskogee and Oklahoma City orders have provided schedules whereby the Class I price is raised or lowered as the relationship of producer receipts to Class I sales varies. The tables of standard utilization percentages in the two orders have not been identical, since historically, there has been some slight variation in the ratios between the two markets. Producers proposed a substantial upward revision of the standard utilization percentages. On an annual average the revisions proposed by the producers would increase the Class I price approximately 18 cents per hundredweight over that provided in the Tulsa-Muskogee order and approximately 10 cents per hundredweight over that provided in the Oklahoma City order. Utilization figures in the record fail to substantiate the upward revision proposed by the producers. In view of the fact, however, that it is proposed to enlarge the Tulsa-Muskogee marketing area to include the Oklahoma City marketing area, it is concluded that the standard utilization percentages of Oklahoma City and Tulsa-Muskogee should be averaged. The amended order, therefore, should contain standard utilization percentages as follows:

Months for which price applies	Months used in computations	Standard utilization percentages	
		Minimum	Maximum
January	November-December	113	117
February	December-January	116	120
March	January-February	118	122
April	February-March	121	125
May	March-April	126	130
June	April-May	135	139
July	May-June	135	139
August	June-July	131	135
September	July-August	126	130
October	August-September	119	123
November	September-October	110	114
December	October-November	111	115

Use of a standard utilization percentage based on the average of those used in the two orders should result in maintaining prices to producers at approximately the levels which prevail at the present time.

The proposal of producers with respect to an emergency increase of 40 cents per hundredweight to be effective through July 1957 should be denied.

In support of their proposal, producers pointed out that drought conditions have prevailed for some time in portions of the milkshed and that feed costs have been increased because of the lack of pasture and the necessity of buying feeds to supplement the shortage of home grown feeds resulting from the drought. Production data for both Tulsa-Muskogee and Oklahoma City indicate that production during 1956 is being maintained at a higher level than in 1955 and that there is little likelihood of a shortage developing. If the drought has an adverse effect upon production this will be reflected in the supply-demand adjustment factor and the Class I price will automatically be increased as the result.

The list of plants whose paying prices to dairy farmers are used in determining the Class II price should be amended by adding to the list the Gilt Edge Dairy of Norman, Oklahoma. The name of the plant which is designated in the present order as Real Test Foods Company, Tulsa, Oklahoma, should be changed to the Eppler Creamery Company, Tulsa, Oklahoma. The Oklahoma City order for purposes of determining a Class II price uses the paying price of the same plants which are used in Tulsa with the exception of the Eppler Creamery Company (Real Test Foods Company) of Tulsa, Oklahoma, and the Muskogee Dairy Products Company of Muskogee, Oklahoma. It also uses the Gilt Edge Dairy of Norman, Oklahoma, which has not previously been used in the Tulsa-Muskogee order. With the merger of the Oklahoma City order with the Tulsa-Muskogee order it is desirable to use as representative a sample as possible of the paying prices of the manufacturing plants located within the milkshed. Accordingly, the Gilt Edge Dairy should be added to the list of plants in the amended order.

5. The location differentials in the present order should be revised.

The Tulsa-Muskogee order provides for location differentials applicable to both producers and handlers with respect to milk received at plants located outside the marketing area and more than 35 miles from either Tulsa or Muskogee. The Oklahoma City order has no provision for location differentials.

At the present time, there are no plants subject to regulation under the Tulsa-Muskogee order at which the location differential is applicable. At none of the plants regulated under the Oklahoma City order would a location differential apply, if location differentials similar to those in the Tulsa-Muskogee order were in effect there. It is necessary, however, that the order for the combined marketing area provide location differentials with respect to milk received at plants located some distance from Oklahoma City.

A location differential applicable to milk received at plants in Tulsa and Muskogee will maintain the normal price relationship between these plants and plants located in the present Oklahoma City marketing area. It is quite possible also that, in view of the merging of the two orders and the expansion of the marketing area, plants located some distance from the marketing area may become subject to regulation. If this should happen, producer milk received at these plants should bear a lower Class I price than that applicable in the marketing area. This reduction in price should be based on the distance from the central market to the plant where the producers deliver their milk. Milk located at a distance from the market has less value to the market than nearby milk. If handlers did not assume the cost of moving the milk, it would be borne by the producers since the producers would be compelled to meet such costs if they were to sell their milk on the market. The value of the producers' milk received at a plant some distance from the marketing area is, therefore, deemed to be less than the marketing area price by the amount that it costs to transport such milk to market.

It is concluded that the price of Class I milk should be reduced 10 cents per hundredweight at plants receiving such milk from producers at points more than 50 miles, but not more than 150 miles, from the City Hall in Oklahoma City. Beyond 150 miles the location differential should be increased 2 cents per hundredweight for every additional 15 miles or fraction thereof up to 240 miles that such plant is distant from Oklahoma City. Beyond 240 miles the differential should be increased 1 cent per hundredweight for each additional 15 miles or fraction thereof in excess of 240 miles.

The above schedule of location differentials would maintain the present price relationship between plants located in the present Oklahoma City marketing area and those located in the Tulsa-Muskogee area. The only exception would be at Tahlequah, Oklahoma. Under the present Tulsa-Muskogee order milk received at Tahlequah is priced the same as milk received at other points in the marketing area. Under the schedule provided herein, the location differential at Tahlequah is 14 cents per hundredweight, 4 cents less than at the remaining points in the present Tulsa-Muskogee marketing area.

With respect to the previously unregulated area proposed to be regulated under the expanded order, the 10-cent location differential would apply at Stillwater, Cushing and Ponca City. There would be no location differential with respect to milk received at Guthrie.

Producers proposed that location differentials begin at a point 115 miles from Bristow which is located midway between Oklahoma City and Tulsa. For the reasons noted above, however, such a plan is not feasible in a marketing area comprising two large metropolitan centers more than 100 miles apart, in view of the necessity of maintaining a difference in price between the two segments of the marketing area.

The rate of location differential adjustment provided herein is based on the approximate cost of hauling milk in bulk tank lots which is the most efficient method generally available for transporting milk. The rates specified are representative of those prescribed in other Federal milk marketing orders.

No adjustment should be made in the Class II price because of differences in the location of the plant to which the milk is delivered. There is little difference in the value of milk for manufactured uses associated with the location of the plant receiving the milk. This is true because of the low cost per hundredweight involved in transporting manufactured dairy products. Prices shown in the record as paid for ungraded milk received at various locations in the milkshed do not reflect any difference in value that could be associated with the location of the plant. Class II milk should not be hauled to Tulsa or Oklahoma City for manufacture when there are more convenient facilities available at the point where the milk is received from producers.

After a handler receives the milk for Class II use, he should be expected to handle and dispose of it to the best advantage. Prices paid producers for such milk should not be dependent upon the method employed by the handler in disposing of such milk. Otherwise, part of the incentive for keeping handling costs at a minimum is removed.

To insure that milk will not be moved unnecessarily at producers' expense, the order should contain a provision to determine whether milk transferred between plants may receive a location differential. This should provide that milk which is transferred should be assigned to the Class II use remaining in the transferee plant after the prior assignment of other source milk. In order to provide a cushion for handlers in the event direct receipts are insufficient to cover Class I sales, it is provided that the location differential may be applied to a volume of milk not in excess of the difference between direct receipts from producers and 105 percent of the Class I disposition from the plant.

Handlers proposed that a location adjustment credit should apply to the entire volume of milk moved from the receiving station in the country to a bottling plant in the marketing area. A proposal to amend the Tulsa-Muskogee order in a similar fashion was considered at the hearing on amendments to that order which was conducted at Tulsa on November 29–30, 1955. In support of this proposal, there was incorporated in the present record all the pertinent testimony with respect to the similar proposal contained in the record of the November hearing. On July 16, the Assistant Secretary, issued a decision (21 F. R. 5416) denying the proposal with respect to the Tulsa-Muskogee order. The evidence is no more persuasive with respect to the merged order than it was with respect to the Tulsa-Muskogee order and the proposal, accordingly, is denied.

6. No change should be made in the standards which a plant must meet to be subject to full regulation under the order.

Producers proposed that a plant, to participate in the marketwide pool, should, if it were a distributing plant operating routes in the area, dispose of at least 20 percent of its receipts of Grade A milk as Class I milk on routes in the area. It would also be required to dispose of not less than 50 percent of its receipts of Grade A milk as Class I milk during February through July and not less than 60 percent of such receipts as Class I milk during other months of the year. They also proposed that a supply plant should be required to dispose of at least 70 percent of its receipts as Class I milk in the marketing area during each of the months of September through December and not less than 30 percent of its receipts as Class I milk in the marketing area during all other months.

The evidence in the record in support of the above standards is rather limited, particularly with respect to the requirements applicable to a supply plant. Moreover, the proposal to define pool plants in terms of percentages of milk shipped to the market was intimately associated with the proposal discussed below that compensatory payments be assessed on milk disposed of in the marketing area from plants which failed to ship sufficient milk to meet the standards applicable to pool plants. It has been concluded below that compensatory payments should not be incorporated in the order on the basis of the present record. This conclusion makes it impracticable to attempt to define pool plant status in terms of the size of shipments to the marketing area. If participation in the pool were limited to plants which disposed of 20 percent of their receipts on routes in the area or to those supply plants which ship 70 percent of their receipts as Class I milk to distributing plants during the months of short production and 30 percent during the remaining months, there is every likelihood that substantial quantities of completely unregulated milk would be disposed of in the marketing area. This could only result in a complete disruption of the orderly marketing process. Accordingly, it is concluded that the standards of the present orders, whereby any plant having approval of the appropriate health authorities and disposing of Class I milk in the marketing area is subject to full regulation, with the exception of plants which may be subject to regulation under another marketing order issued pursuant to the act.

7. The compensatory payment on other source milk should not be assessed.

As noted above, it was proposed that participation in the pool be limited to plants having a fairly sizeable proportion of their receipts disposed of as Class I milk in the marketing area. With respect to other plants not regulated under another marketing order, which might dispose of milk in the area, it was proposed that partial regulation apply and that a compensatory payment be assessed on the Class I milk disposed of within the marketing area from such plants. Specifically the proposal was that, with respect to milk received at a pool plant from a supply plant which failed to qualify as a pool plant, a charge be assessed against the pool plant equal to the difference between the Class I price and the Class II price on all milk received from the supply plant and classified as Class I milk. In the case of distributing plants disposing of Class I milk in the area in insufficient volume to qualify as a pool plant, a charge would be made directly to the plant at a rate equal to the difference between the Class I price and the Class II price or between the actual use value of the milk in the plant and the price paid to its farmers by such plant, whichever was the lesser amount.

The record evidence in support of this proposal is very limited both with respect to the levying of such an assessment and with respect to the rates of the proposed charges. Accordingly, it is concluded that the proposal should be denied.

The order should also be amended to delete the provision (which also appears in the Oklahoma City order) whereby a handler whose milk is classified and priced under another Federal order is required to make a payment into the producer-settlement fund whenever the class price under the order which prices his milk is less than the Class I price provided by this order. With the merging of the two orders much of the justification for such a provision has been removed. The Class I differentials in the Tulsa-Muskogee order, while averaging 10 cents under those in the Oklahoma City order, have a much wider seasonal variation. This, together with the fact that the two orders have separate supply-demand adjustment schedules, permits fairly wide differences in the Class I price at certain seasons of the year. Thus, it would be possible at the present time for handlers in one market to enjoy a competitive advantage over handlers in the other market in the absence of this payment. The issuance of a single order fixing a constant difference of 10 cents between the prices of milk received at Oklahoma City and at Tulsa and Muskogee will eliminate the principal need for such a provision.

The deletion of this provision should not place handlers at a competitive disadvantage with handlers regulated under other orders who might dispose of milk in the marketing area. The prices pro-

posed herein are in line with those fixed by other nearby marketing orders and are such that, when transportation costs are considered, handlers from other areas will not be in a position to gain a competitive advantage over locally regulated handlers in the Oklahoma Metropolitan marketing area.

8. The order should also be amended to provide that under certain circumstances a cooperative association should be the handler for milk of its member producers which is delivered directly to the plants of other handlers from the producers' farms.

The two major cooperative associations which furnish the greater portion of the milk to Tulsa and Oklahoma City, respectively, are primarily bargaining associations. Each association, however, owns a plant where milk may be received and cooled for delivery to the plants of handlers or for transfer to manufacturing plants. These plants are in a position to balance the supply of milk at the distributing plants.

These associations also own and operate insulated tank trucks in which the milk of producers who have bulk cooling tanks on the farm is picked up and transported to the distributing plants of handlers. Recently there has been a very rapid expansion in the number of bulk cooling tanks being installed on the farms and in the number of tank trucks acquired by the two cooperatives to transport such milk. It is extremely likely that the trend in this direction will continue at a very rapid rate.

The transportation of milk from farm to market in insulated tank trucks owned or operated by the cooperative associations has created a problem with respect to the determination of the responsibility to the individual producers. When milk comes to the market in cans, the milk of the individual producers is dumped, weighed, and a sample taken for butterfat testing by an employee of the plant where the milk is utilized. The operator of the plant is fixed with the responsibility for paying either the individual producer or where authorized, to a cooperative, for the pounds of milk received at the determined butterfat test.

When milk moves to market in a tank truck, the weight of the milk is checked and a sample for butterfat testing is taken at the farm. The milk of several producers is intermingled in the tank truck. When the tank trucks are owned or operated by the cooperative association, the weight of each producer's milk is checked by, and a sample of the milk for butterfat testing is taken by, a person who is an employee of or directly responsible to the cooperative association. The handler who receives the milk of several producers intermingled in the tank has no way of knowing the weight or the butterfat test of the milk of the individual producers whose deliveries made up the load, except as such information may be reported to him by the association. In some instances, particularly in the case of supplemental loads, the handler may not even know the identity of the producers whose milk he receives.

Under these circumstances it is not proper to make a handler responsible for the payment to a producer for a given quantity of milk at a particular test when the handler has no means of verifying such weights and tests. Rather the cooperative association should be made the handler for such milk and the person required to account to the pool for it. The handler who utilized the milk should be required to pay the class prices to the cooperative association for such milk. The cooperative association in turn would be required to make the monthly reports with respect to such milk and to settle with the producer-settlement fund for it. With respect to milk received from producers' farms in cans or in tank trucks owned or operated by the distributing plant, the operator of such plant would continue to be the handler for such milk and would be required to account to the market administrator for it. For such milk the handler would make payment to the producer or the cooperative association at the applicable uniform prices.

9. The order should also contain a provision whereby the Secretary could determine an equivalent price in the event that any of the price quotations used in determining class prices or butterfat differentials under the order were not available. A similar provision is contained in a number of marketing orders. Without it there is a possibility that the market administrator would be unable to compute prices in the event that one of the designated prices were not reported or published during a particular month.

Certain other changes in the text of the order have been necessitated by the merger of the orders or by the adoption of the changes discussed above. These revisions, however, have no substantive effect on the operations of the order.

General findings. (a) The proposed marketing agreement and the order amending the order, as amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act,

(b) The parity prices for milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area and the minimum prices specified in the proposed marketing agreement and the order amending the order, as amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest, and

(c) The proposed order amending the order, as amended, will regulate the handling of milk in the same manner as and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Proposed findings and conclusions. Briefs were filed on behalf of most of the handlers who would be regulated by the proposed order and on behalf of the three major cooperative associations whose milk would be regulated by it. The briefs contained proposed findings of fact, conclusions and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that such suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this decision.

Recommended marketing agreement and amendment to the order. The following order, amending the order, as amended, is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The proposed marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended.

DEFINITIONS

§ 906.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 906.2 *Secretary.* "Secretary" means the Secretary of Agriculture or other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 906.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 906.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 906.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have full authority in the sale of milk of its members; and

(c) To be engaged in making collective sales or marketing milk or its products for its members.

§ 906.6 *Oklahoma metropolitan marketing area.* "Oklahoma metropolitan marketing area" hereinafter referred to as the "marketing area" means all the territory within Tulsa County; the city of Sapulpa and the township of Sapulpa in Creek County, that part of Black Dog township in 20 North, Ranges 10, 11 and 12 East in Osage County; the cities of Muskogee, McAlester and Tahlequah; Oklahoma County, except Deer Creek, Deep Fork and Luther townships; Moore, Taylor, Case, Liberty, Norman and Noble townships in Cleveland County; Bales, Davis, Dent Brinton, Rock Creek, Forest and Earlsboro townships in Pottawatomie County; the city and township of Guthrie in Logan County; Ponca City; and the city and township of Stillwater and Union township including the city of Cushing in Payne County.

§ 906.7 *Pool plant.* "Pool plant" means any milk processing plant, other than one which is exempt pursuant to § 906.61, which is approved by any health authority having jurisdiction in the marketing area (a) from which Class I milk is disposed of on routes in the marketing area, (b) at which there is received, weighed and commingled, milk of dairy farmers holding permits or authorizations issued by a municipal health authority having jurisdiction in the marketing area and from which part or all of the receipts of such milk during the month are transferred to a plant described in paragraph (a) of this section or from which more than one-half of the receipts of such milk or of the butterfat contained therein were so transferred in each of the immediately preceding months of September through December and the operator thereof has not requested that such plant be considered a nonpool plant, or (c) at which milk is received directly from the farms of dairy farmers holding permits or authorizations issued by a municipal health authority having jurisdiction in the marketing area and which is operated by a cooperative association having member producers whose milk is received at the pool plants of other handlers.

§ 906.8 *Nonpool plant.* "Nonpool plant" means any milk plant which is not a pool plant.

§ 906.9 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants,

(b) A cooperative association which owns or operates a plant described in § 906.7 (c) with respect to the milk of its member producers which is delivered to the pool plant of another handler in a tank truck owned or operated by such cooperative association for the account of such cooperative association (such milk shall be considered as having been received by such cooperative association at the plant to which it is delivered), or

(c) Any cooperative association with respect to the milk of its member producers which is caused by it to be diverted to a nonpool plant for the account of such cooperative association.

§ 906.10 *Producer.* "Producer" means any person, other than a producer-handler, who, under a dairy farm permit, authorization or rating for the production of milk to be disposed of as Grade A milk issued by a duly constituted health authority, produces milk which is received at a pool plant directly from the farm of such person. This definition shall include any person meeting the above requirements whose milk is caused by a handler to be diverted from a pool plant to a nonpool plant for the account of such handler, and milk so diverted shall be deemed to have been received at the pool plant from which it was diverted for the purpose of determining location differentials pursuant to § 906.81. This definition shall not include a person with respect to milk produced by him which is received at a plant which is regulated by another order issued pursuant to the act.

§ 906.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer which is received by a handler either directly from producers or from other handlers.

§ 906.12 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month of milk or milk products which are specified in § 906.41 (a) except producer milk and receipts from other pool plants; and

(b) Products other than those specified in § 906.41 (a) from any source (including those produced at the plant) which are reprocessed or converted to other product in the plant during the month.

§ 906.13 *Producer-handler.* "Producer-handler" means any person who produces milk and operates a pool plant, but who receives no milk from producers.

§ 906.14 *Base milk.* "Base milk" means milk received by a handler from a producer during any of the months of February through July which is not in excess of such producer's daily average base computed pursuant to § 906.65 multiplied by the number of days in such month for which such producer delivered milk to such handler.

§ 906.15 *Excess milk.* "Excess milk" means milk received by a handler from a producer during any of the months of February through July which is in excess of the base milk received from such producer during such month, and shall include all milk received from producers for whom no daily average base can be computed pursuant to § 906.65.

§ 906.16 *Route.* "Route" means any delivery (including any delivery by a vendor) or disposition at a plant store of milk, skim milk, buttermilk, flavored milk drinks or cream other than a delivery in bulk to a milk plant.

MARKET ADMINISTRATOR

§ 906.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 906.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 906.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 906.88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 906.87), necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the day upon which he is required to perform such acts, has not:

(1) Made reports pursuant to §§ 906.30 to 906.32, inclusive,

(2) Maintained adequate records and facilities pursuant to § 906.33, or

(3) Made payments pursuant to §§ 906.80 to 906.88, inclusive;

(i) On or before the 12th day after the end of each month, report to each cooperative association which so requests the amount and class utilization of milk caused to be delivered by such cooperative association either directly or from producers who are members of such cooperative association, to each handler to whom the cooperative association sells milk. For the purposes of this report, the milk caused to be so delivered by a cooperative association shall be prorated to each class in the proportion that the total receipts of producer milk by such handler were used in each class;

(j) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 12th day of each month the minimum price for Class I milk computed pursuant to § 906.51 (a), and the Class I butterfat differential

computed pursuant to § 906.52 (a) both for the current month; and on or before the 5th day of each month, the minimum price for Class II milk pursuant to § 906.51 (b) and the Class II butterfat differential computed pursuant to § 906.52 (b), both for the previous month, and

(2) On or before the 12th day of each month the uniform price(s) computed pursuant to § 906.72 or § 906.73, as applicable, and the butterfat differential computed pursuant to § 906.82, both for the previous month; and

(k) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS AND FACILITIES

§ 906.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers, and, for the months of February through July, the aggregate quantities of base milk and excess milk;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(e) The disposition of Class I products on routes wholly outside the marketing area; and

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 906.31 *Reports of payments to producers.* On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month which shall show:

(a) The total pounds of milk received from each producer and cooperative association, the total pounds of butterfat contained in such milk and the number of days on which milk was received from such producers, including for the months of February through July such producer's deliveries of base and excess milk;

(b) The amount of payment to each producer or cooperative association; and

(c) The nature and amount of any deductions or charges involved in such payments.

§ 906.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes milk to be diverted to a nonpool plant, shall prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member, of his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which such milk is to be diverted.

§ 906.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all receipts of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month.

§ 906.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 906.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received during the month by a handler which is required to be reported pursuant to § 906.30 shall be classified by the market administrator pursuant to the provisions of §§ 906.41 to 906.46, inclusive.

§ 906.41 *Classes of utilization.* Subject to the conditions set forth in §§ 906.43 and 906.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat disposed of in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream, cultured sour cream, any mixture (except bulk ice cream mix) of cream and milk or skim milk, and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section; and

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraph (a) of this section,

(2) In cream stored and frozen,

(3) Disposed of for livestock feed,

(4) In skim milk dumped, after prior notification to, and opportunity for verification by the market administrator,

(5) In actual shrinkage of producer milk in an amount not to exceed one-half percent of the total pounds of skim milk and butterfat received directly from producers' farms, except that caused to be delivered to such plant by a cooperative association in its capacity as a handler, plus 1 and one-half percent of the total pounds of skim milk and butterfat in milk, skim milk and cream in fluid form received at a pool plant from both producers and other pool plants and which were not disposed of in bulk to the pool plant of another handler,

(6) In shrinkage of other source milk, and

(7) In inventory at the end of the month as milk, skim milk, cream (except stored or frozen cream) or any product specified in paragraph (a) of this section.

§ 906.42 *Shrinkage.* The market administrator shall determine the assignment of shrinkage to Class II milk as follows:

(a) Determine the total shrinkage of butterfat and skim milk in each pool plant; and

(b) Assign the shrinkage of skim milk and butterfat pro rata between producer milk and other source milk.

§ 906.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified as Class II milk shall be reclassified if such skim milk or butterfat is later disposed of by such handler or another handler (whether in original or other form) as Class I milk. Any skim milk or butterfat which was classified as Class II in the previous month pursuant to § 906.41 (b) (7) shall be reclassified as Class I milk if it is subtracted in the current month from Class I pursuant to § 906.46 (a) (4).

§ 906.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

(a) Except as noted in paragraph (b) of this section, as Class I milk if diverted or transferred in bulk in the form of milk, skim milk or cream, to the pool plant of another handler (except a producer-handler) unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the month within which such transaction occurred: *Provided*, That the skim milk or butterfat so assigned to Class II shall be limited to the amount thereof remaining in Class II in the plant of the transferee-handler after the subtraction of other source milk pursuant to

§ 906.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I: *And provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk;

(b) Pro rata over the receiving handler's net utilization of producer milk, if caused to be delivered to such handler's pool plant(s) from producers' farms by a cooperative association in its capacity as a handler pursuant to § 906.9 (b);

(c) As Class I milk if transferred to a producer-handler in the form of milk, skim milk or cream;

(d) As Class I milk if diverted or transferred in bulk in the form of milk or skim milk to a nonpool plant located more than 300 miles from either Oklahoma City or Tulsa, Oklahoma, by the shortest hard-surfaced highway distance as determined by the market administrator;

(e) As Class I milk if transferred in the form of cream under Grade A certification to a nonpool plant, unless the handler claims classification as Class II milk, establishes the fact that such cream was transferred without Grade A certification, each container was labeled or tagged to indicate that the contents are for manufacturing use only, and the shipment was so invoiced;

(f) (1) As Class I milk, if diverted or transferred in bulk in the form of milk or skim milk to a nonpool plant located not more than 300 miles by shortest hard-surfaced highway distance from either Oklahoma City or Tulsa, Oklahoma, from which fluid milk is disposed of on wholesale or retail routes or to other milk plants, unless all the following conditions are met;

(i) The market administrator is permitted to audit the records of such nonpool plant; and

(ii) Such nonpool plant received milk from dairy farmers who the market administrator determines constitute its regular sources of supply for Class I milk;

(2) If these conditions are met the market administrator shall classify such milk as reported by the handler subject to verification as follows: (i) Determine the use of all skim milk and butterfat at such nonpool plant, and (ii) allocate the skim milk and butterfat so transferred or diverted to the highest use classification remaining after subtracting in series beginning with the highest use classification, the skim milk and butterfat in milk received at the nonpool plant directly from dairy farmers which the market administrator determines constitute its regular sources of supply for Class I milk:

(g) As Class II milk if diverted or transferred in bulk in the form of milk or skim milk to a nonpool plant located not more than 300 miles by shortest hard-surfaced highway distance from either Oklahoma City or Tulsa, Oklahoma, and from which fluid milk is not disposed of on wholesale or retail routes, except that:

(1) If such nonpool plant transfers milk or skim milk to a pool plant, an equal amount of skim milk and butterfat transferred to such nonpool plant from the pool plants of other handlers shall be deemed to have been transferred directly to the second pool plant and shall be classified pursuant to the provisions of paragraph (a) of this section; and

(2) If such nonpool plant transfers milk or skim milk to a second nonpool plant which distributes fluid milk on wholesale or retail routes, skim milk or butterfat transferred from the pool plant to the first nonpool plant shall be Class I milk to the extent of the amount so transferred to such second nonpool plant unless it is established that the milk or skim milk was transferred to the second nonpool plant without Grade A certification and with each container labeled or tagged to indicate that the contents are for manufacturing use only, and that the shipment was so invoiced.

§ 906.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the monthly report submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk for such handler.

§ 906.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 906.45 the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 906.41 (b) (5);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk received from other handlers in a form other than milk, skim milk or cream according to its classification pursuant to § 906.41;

(3) Subtract from the remaining pounds of skim milk, in series beginning with Class II, the pounds of skim milk in receipts of other source milk;

(4) Subtract from the remaining pounds of skim milk, in series beginning with Class II, the pounds of skim milk in inventory at the beginning of the month in the form of milk, skim milk, cream (except frozen cream) or any product specified in § 906.41 (a);

(5) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers, except cooperative associations in their capacity as handlers pursuant to § 906.9 (b), in the form of milk, skim milk or cream according to its classification as determined pursuant to § 906.44 (a);

(6) Subtract pro rata from the remaining pounds of skim milk in each class the pounds of skim milk received from a cooperative association in its capacity as a handler pursuant to § 906.9 (b);

(7) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(8) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be called "overage;"

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section; and

(c) Determine the weighted average butterfat content of the Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 906.50 *Basic formula price to be used in determining Class I prices.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed pursuant to paragraphs (a) and (b) of this section and § 906.51 (b) for the preceding month.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department, divided by 3.5 and multiplied by 4.0;

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month, subtract 3 cents, add 20 percent thereof and multiply by 4.0, and

(2) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray, and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, multiply by 8.5 and then multiply by 0.96.

§ 906.51 *Class prices.* Subject to the provisions of §§ 906.52 and 906.53, the minimum prices per hundredweight to be paid by each handler for milk received

at his plant from producers during the month shall be as follows:

(a) *Class I milk.* The basic formula price plus $1.55 during the months of April, May and June and plus $1.95 during all other months: *Provided,* That for each of the months of September, October, November and December, such price shall not be less than that for the preceding month, and that for each of the months of April, May and June such price shall be not more than that for the preceding month. To this price add or subtract a "supply-demand adjustment" of not more than 50 cents, computed as follows:

(1) Divide the total receipts of producer milk in the first and second months preceding by the total gross volume of Class I milk (excluding interhandler transfers, and sales by producer-handlers and handlers partially exempt from this order pursuant to § 906.61) for the same months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the Class I utilization percentage;

(2) Compute a "net deviation percentage" as follows:

(i) If the Class I utilization percentage is neither less than the minimum standard utilization percentage specified below nor in excess of the maximum standard utilization percentage specified below, the net deviation percentage is zero,

(ii) Any amount by which the Class I utilization percentage is less than the minimum standard utilization percentage specified below is a "minus net deviation percentage", and

(iii) Any amount by which the Class I utilization percentage exceeds the maximum standard utilization percentage specified below is the "plus net deviation percentage":

Month for which price applies	Months used in computation	Standard utilization percentage	
		Minimum	Maximum
January	November–December	113	117
February	December–January	116	120
March	January–February	118	122
April	February–March	121	125
May	March–April	126	130
June	April–May	135	139
July	May–June	135	139
August	June–July	131	135
September	July–August	126	130
October	August–September	119	123
November	September–October	110	114
December	October–November	111	115

(3) For a minus "net deviation percentage" the Class I price shall be increased and for a plus "net deviation percentage" the Class I price shall be decreased as follows:

(i) One cent for each such percentage point of net deviation;

(ii) One cent for the lesser of:

(*a*) Each such percentage point of net deviation, or

(*b*) Each percentage point of net deviation of like direction (plus or minus, with any net deviation percentage of opposite direction considered to be zero for purposes of computations of this subparagraph) computed pursuant to subparagraph (2) of this paragraph for the month immediately preceding; plus

(iii) One cent for the lesser of:

(*a*) Each such percentage point of net deviation;

(*b*) Each percentage point of net deviation of like direction computed pursuant to subparagraph (2) of this paragraph for the month immediately preceding, or

(*c*) Each percentage point of net deviation of like direction computed pursuant to subparagraph (2) of this paragraph for the second preceding month.

(b) *Class II milk.* The average of the basic or field prices reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department.

Present Operator and Location

American Foods Co., Miami, Okla.
Eppler Creamery Company, Tulsa, Okla.
Glit Edge Dairy, Norman, Okla.
Muskogee Dairy Products Co., Muskogee, Okla.
Page Milk Co., Coffeyville, Kans.
Pet Milk Co., Siloam Springs, Ark.

§ 906.52 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to any class pursuant to § 906.46 is more or less than 4.0 percent, there shall be added to the respective class price, computed pursuant to § 906.51, for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent or subtracted for each one-tenth of 1 percent that such average butterfat content is below 4.0 percent an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month specified below by the applicable factor listed and dividing the result by 10:

(a) *Class I milk.* Multiply such price for the preceding month by 1.25; and

(b) *Class II milk.* Multiply such price for the current month by 1.15.

§ 906.53 *Location adjustment credit to handlers.* For that portion of milk which is (a) received directly from producers at a pool plant located 50 or more miles from the City Hall in Oklahoma City by the shortest hard-surfaced highway distance as determined by the market administrator, and (b) is classified as Class I milk, the prices specified in § 906.51 shall be subject to a location adjustment credit to the handler computed as follows:

Distance from the City Hall in Oklahoma City:	*Cents per hundredweight*
50 to 150 miles	10
150.1 to 165 miles	12
165.1 to 180 miles	14
180.1 to 195 miles	16
195.1 to 210 miles	18
210.1 to 225 miles	20
225.1 to 240 miles	22

Plus 1 cent for each additional 15 miles or fraction thereof in excess of 240 miles.

Provided, That for the purpose of calculating such adjustment, transfers to a pool plant at which no location adjustment credit is applicable or at which the location adjustment credit is less than at the transferor plant, shall be assigned to Class I milk in a volume not in excess of that by which 105 percent of Class I disposition at the transferee plant exceeds the receipts from producers at such plant. Such assignment to transferor plants to be made first to plants at which no adjustment credit is applicable and then in the sequence at which the lowest location adjustment credit would apply.

§ 906.54 *Equivalent prices.* If, for any reason, a price quotation required by this order for computing class prices or for any other purpose is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 906.60 *Producer-handlers.* Sections 906.40 through 906.46, 906.50 through 906.53, 906.65, 906.66, 906.70 through 906.73, and 906.80 through 906.89, shall not apply to a producer-handler.

§ 906.61 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act and whose milk is classified and priced under such other order, the provisions of this subpart shall not apply except that the handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

DETERMINATION OF BASE

§ 906.65 *Computation of daily average base for each producer.* For the months of February through July of each year, the market administrator shall compute a daily average base for each producer as follows, subject to the rules set forth in § 906.66:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of September through December immediately preceding by the number of days, not to be less than ninety, of such producer's delivery in such period.

§ 906.66 *Base rules.* (a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base-forming period;

(b) Bases may be transferred only during the period of February through July by notifying the market administrator in writing before the last day of any month that such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

(c) A producer who ceases to deliver milk to a handler for more than 45 consecutive days shall forfeit his base.

DETERMINATION OF UNIFORM PRICES

§ 906.70 *Computation of value of milk.* The value of milk received during each month by each handler from producers shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of such milk in each class by the applicable respective class prices (adjusted pursuant to §§ 906.52 and 906.53) and add together the resulting amounts;

(b) Add an amount computed by multiplying the pounds of any overage deducted from each class pursuant to § 906.46 (a) (8) by the applicable class price(s); and

(c) Add any charges computed as follows:

(1) For any skim milk or butterfat in inventory reclassified pursuant to § 906.43 (b) which is not in excess of the quantity in producer milk classified as Class II milk (other than as shrinkage) in the handler's plant(s) for the preceding month, a charge shall be computed at the difference between its value at the Class I price for the current month and its value at the Class II price of the preceding month;

(2) For any other skim milk or butterfat reclassified pursuant to § 906.43 (b) a charge shall be computed at the difference between its value at the Class I price for the current month and its value at the Class II price for the month in which previously classified as Class II milk.

§ 906.71 *Computation of aggregate value used to determine price(s).* For each month, the market administrator shall compute an aggregate value from which to determine the uniform price(s) per hundredweight for milk of 4.0 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 906.70 for all handlers who made the reports prescribed in § 906.30 and who made the payments pursuant to §§ 906.80 and 906.84 for the preceding month.

(b) Add the aggregate of the values of all allowable location adjustments to producers pursuant to § 906.81.

(c) Add not less than one-half of the cash balance on hand in the producer-settlement fund less the total amount of the contingent obligations to handlers pursuant to § 906.85.

(d) Subtract if the average butterfat content of the milk included in these computations is greater than 4.0 percent, or add if such average butterfat content is less than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 906.82 and multiplying the resulting figure by the total hundredweight of such milk.

§ 906.72 *Computation of uniform price.* For each of the months of August through January the market administrator shall compute the uniform price per hundredweight for all milk of 4.0 percent butterfat content received from producers as follows:

(a) Divide the aggregate value computed pursuant to § 906.71 by the total hundredweight of milk included in such computation; and

(b) Subtract not less than 4 cents nor more than 5 cents.

§ 906.73 *Computation of uniform prices for base milk and excess milk.* For each of the months of February through July the market adminstrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, as follows:

(a) Compute the total value on a 4.0 percent butterfat basis of excess milk included in these computations by multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk included in these computations by the price for Class II milk of 4.0 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 4.0 percent butterfat content, and adding together the resulting amounts;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat received from producers;

(c) Subtract the value of excess milk obtained in paragraph (a) of this section from the aggregate value of milk computed pursuant to § 906.71 and adjust by any amount involved in adjusting the uniform price of excess milk to the nearest cent;

(d) Divide the amount obtained in paragraph (c) of this section by the total hundredweight of base milk included in these computations;

(e) Subtract no less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content received from producers.

PAYMENTS

§ 906.80 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of the month during which the milk was received, to each producer to whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform price(s) for such month computed pursuant to §§ 906.72 and 906.73, adjusted by the butterfat differential computed pursuant to § 906.82, subject to location adjustments to producers pursuant to § 906.81, and less the amount of the payment made pursuant to paragraph (b) of this section: *Provided,* That if by such date such handler has not received full payment pursuant to § 906.85, he may reduce his total payments to all producers uniformly by not less than the amount of reduction in payment from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator.

(b) On or before the last day of each month, to each producer for whom payment is not made pursuant to paragraph (d) of this section for milk received from him during the first 15 days of the month at not less than the Class II price for the preceding month.

(c) To a cooperative association with respect to milk for which the cooperative association is a handler on or before the 10th day of each month for milk which is caused to be delivered to such handler during the preceding month at not less than the value of such milk at the applicable class prices.

(d) (1) Upon receipt of written request from a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler for the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association, each handler shall,

(i) Pay to the cooperative association on or before the 13th and 27th days of each month, in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section, an amount equal to the gross sum due for all milk received from certified members, less amounts owed by each member producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer,

(ii) Submit to the cooperative association on or before the 10th day of each month written information which shows for each member producer,

(*a*) The total pounds of milk received during the preceding month,

(*b*) The total pounds of butterfat contained in such milk,

(*c*) The number of days on which milk was received,

(*d*) For the months of February through July the amount of base and excess milk received, and

(*e*) The amounts withheld by the handler in payment for supplies sold, and

(iii) Submit to the cooperative association on or before the 25th day of each month, written information which shows for each such member producer the total pounds of milk received during the first 15 days of the current month. The foregoing payment and submission of information shall be made with respect to milk of each producer, who the cooperative association certifies is a member, which is received on and after the first day of the calendar month next following the receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative

association of a termination of membership or until the original request is rescinded in writing by the association; and

(2) A copy of each such request, promise to reimburse, and certified list of members shall be filed simultaneously with the market administrator by the cooperative and shall be subject to verification at his discretion through audits of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member or by a handler shall be made by written notice to the market administrator and shall be subject to his determination.

§ 906.81 *Location adjustment to producers.* In making payments to producers pursuant to § 906.80 each handler may deduct per hundredweight of milk received from producers at a pool plant which is located 50 or more miles from the City Hall in Oklahoma City by shortest hard-surfaced highway distance, as determined by the market administrator, the applicable amounts set forth below:

Distance from the City Hall in Oklahoma City:	*Cents per hundredweight*
50 to 150 miles	10
150.1 to 165 miles	12
165.1 to 180 miles	14
180.1 to 195 miles	16
195.1 to 210 miles	18
210.1 to 225 miles	20
225.1 to 240 miles	22

Plus 1 cent for each additional 15 miles or fraction thereof in excess of 240 miles.

§ 906.82 *Producer butterfat differential.* In making payments pursuant to § 906.80 there shall be added to or subtracted from the uniform price for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, an amount computed by multiplying by 1.2 the simple average, as computed by the market administrator, of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month, dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 906.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund", into which he shall deposit all payments made by handlers pursuant to §§ 906.84 and 906.86, and out of which he shall make all payments to handlers pursuant to §§ 906.85 and 906.86.

§ 906.84 *Payments to the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers as determined pursuant to § 906.70 is greater than the amount required to be paid producers by such handler pursuant to § 906.80.

§ 906.85 *Payment out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 906.70 is less than the amount required to be paid producers by such handler pursuant to § 906.80: *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 906.86 *Adjustments of accounts.* Whenever audit by the market administrator of any handler's reports, books, records or accounts discloses errors resulting on moneys due (a) the market administrator from such handler (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 906.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 906.80 shall deduct 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to sample, test, and check the weights of milk received from producers and to provide producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers and on or before the 15th day after the end of each month pay such deduction to the cooperative association rendering such services, identified by a statement showing for each such producer the information required to be reported to the market administrator pursuant to § 906.31. In lieu of such statement a handler may authorize the market administrator to furnish such cooperative association the information with respect to such producers reported pursuant to § 906.31.

§ 906.88 *Expense of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator on or before the 15th day after the end of the month, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of (a) other source milk which is classified as Class I milk, and (b) milk from producers including such handler's own production.

§ 906.89 *Termination of obligation.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8 (c) (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 906.90 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 906.91.

§ 906.91 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 906.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 906.93 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 906.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 906.101 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this subpart, to other persons or circumstances shall not be effected thereby.

Issued at Washington, D. C., this 16th day of January 1957.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

[7 CFR Part 987]

[Docket No. AO-252-A4]

MILK IN THE CENTRAL MISSISSIPPI MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO THE TENTATIVE MARKETING AGREEMENT AND TO THE ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Silver Room, Heidelberg Hotel, Jackson, Mississippi, beginning at 10:00 a. m., local time, Friday, January 25, 1957, for the purpose of receiving evidence with respect to the proposed amendments hereinafter set forth, or appropriate modification thereof, to the tentative marking agreements heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Central Mississippi marketing area (7 CFR 987 et seq.). The proposed amendments have not received the approval of the Secretary of Agriculture.

Proposed by Mississippi Milk Producers' Association, Jackson, Mississippi:

1. Delete § 987.16 and substitute the following:

§ 987.16 *Producer-handler.* A producer-handler is any handler who produces milk and operates an approved plant, and who receives no milk from other producers or other approved plants or from a cooperative association and who disposes of less than a daily average of 3,300 pounds of Class I milk through routes in the marketing area during the month.

2. As an alternative to Proposal No. 1, amplify the present "producer-handler" provision to further limit the sources from which a producer-handler may receive milk.

Proposed by the Dairy Division, Agricultural Marketing Service:

3. Make such changes as may be required to make the entire marketing agreement and order, as amended, conform with any amendments thereto which may result from this hearing.

Copies of this notice of hearing and of the order, as amended, now in effect may be procured from the Market Administrator, Fondren Bank Branch Building, Rooms 204-6, 603 Duling Street, Jackson, Mississippi, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: January 17, 1957.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board

STONE FORWARDING CO. INC. AND PUERTO RICAN EXPRESS CO.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8191 between Stone Forwarding Co., Inc., Houston, Texas, and Puerto Rican Express Company, New York, New York, is a cooperative working arrangement under which the parties perform freight forwarding services for each other.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement, and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

By order of the Federal Maritime Board.

Dated: January 16, 1957.

[SEAL] JAMES L. PIMPER, *Secretary.*

[F. R. Doc. 57-402; Filed, Jan. 18, 1957; 8:46 a. m.]

UNITED STATES LINES CO.

NOTICE OF APPLICATION TO CARRY OUTBOUND PART CARGOES OF COAL AND GRAIN

Notice is hereby given that United States Lines Company seeks permission to carry outbound, for a period of six months, part cargoes of coal and/or grain on its subsidized vessels on Line B Service, Trade Route Nos. 5, 7 and 9, to ports on Line F Service, Trade Route No. 8, to satisfy the demands of shippers for optional ports of discharge.

Any person, firm or corporation having any interest in such application and desiring a hearing on issues pertinent to section 605 of the Merchant Marine Act, 1936, as amended, 46 U. S. C. 1175, should within fifteen (15) days from the date of publication of this notice in the FED-

ERAL REGISTER notify the Secretary, Federal Maritime Board, and file petition for leave to interyene in accordance with the rules of practice and procedure of the Federal Maritime Board.

If no request for hearing and petition for leave to intervene is received within the specified time, the application will be processed without a hearing.

By order of the Federal Maritime Board.

Dated: January 16, 1957.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALABAMA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LAND

JANUARY 15, 1957.

The Federal Power Commission has filed application BLM 043309, for the withdrawal of the land mentioned below, from all form of appropriation, subject to valid existing rights.

The applicant desires the lands to be withdrawn until such time as the conditions of title may be ascertained.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Eastern States Land Office, Washington 25, D. C.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The land involved in the application is:

STATE OF ALABAMA

All unsurveyed and unappropriated Islands in the Coosa River.

H. K. SCHOLL, *Acting Manager.*

CIVIL AERONAUTICS BOARD

[Docket No. 8394]

BARNETT INTERNATIONAL FORWARDERS, INC., ET AL.

NOTICE OF HEARING

In the matter of the application of Barnett International Forwarders, Inc., Barnett Packers, Inc., Barnett Aircargo, Inc. and Barnett International Airfreight Corp. for approval of certain control and interlocking relationships pursuant to the provisions of sections 408 and 409 of the Civil Aeronautics Act of 1938 as Amended.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, that public hearing in the above-entitled proceeding is assigned to be held on February 14, 1957, at 10:00 a. m., e. s. t., in Room E-210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Richard A. Walsh.

Dated at Washington, D. C., January 14, 1957.

[SEAL] FRANCIS W. BROWN, *Chief Examiner.*

[F. R. Doc. 57-420; Filed, Jan. 18, 1957; 8:49 a. m.]

[Docket No. 7762]

COMPLAINT OF ANITA HERMAN

NOTICE OF HEARING

In the matter of an investigation to determine whether General Rule 5 of the tariff rules of Northwest Airlines, Inc. and Capital Airlines, Inc. contained in Local and Joint Passenger Rules Tariff No. PR-1, C. A. B. No. 4, issued by M. F. Redfern, Agent, in effect on May 4, 1947, was unlawful.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 2, 403, 404 and 1002 thereof, that a hearing in the above-entitled proceeding will be held on February 25, 1957, at 10:00 a. m., e. s. t., in Room E-224, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Barron Fredericks.

Without limiting the scope of the issues to be considered, particular attention will be directed to the following matters:

(a) Did the Civil Aeronautics Act of 1938 or the regulations of the Civil Aeronautics Board require the filing of Rule 5 of the tariff rules of Northwest Airlines, Inc. and Capital Airlines, Inc. contained in Local and Joint Passenger Rules Tariff No. PR-1, C. A. B. No. 4, issued by M. F. Redfern, Agent, as effective on May 4, 1947?

(b) Was said tariff rule unjust, unreasonable, unduly preferential, unduly prejudicial, unjustly discriminatory, or otherwise unlawful?

For further details of the issues involved in this proceeding interested persons are referred to the complaint, the order of investigation (No. E-10250), the prehearing conference report and the supplemental prehearing conference report, all of which are on file with the Civil Aeronautics Board.

Notice is further given that any person, other than a party of record, desiring to be heard in this proceeding must file with the Board, on or before February 25, 1957, a statement setting forth the issues of fact or law upon which he desires to be heard. Such person may then appear and participate in the proceeding in accordance with Rule 14 of the Board's rules of practice.

Dated at Washington, D. C., January 14, 1957.

[SEAL] FRANCIS W. BROWN, *Chief Examiner.*

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 46—REGULATIONS (OTHER THAN RULES OF PRACTICE) UNDER PERISHABLE AGRICULTURAL COMMODITIES ACT, 1930, AS AMENDED

LICENSES

On December 27, 1956, a notice of proposed rule making was published in the FEDERAL REGISTER (21 F. R. 10338) regarding a proposed revision of regulations, other than rules of practice, of the Perishable Agricultural Commodities Act, 1930, as amended.

After consideration of all relevant matters presented by the fruit and vegetable industry concerning these proposed regulations, set forth in the aforesaid notice, the following regulations are hereby promulgated pursuant to the authority contained in the Perishable Agricultural Commodities Act, 1930 (46 Stat. 537, as amended; 7 U. S. C. 499o):

1. Revise § 46.6 *License fee* to read:

§ 46.6 *License fee.* Each application for license shall be accompanied by the required license fee. Effective February 1, 1957, and thereafter, the annual license fee shall be twenty five dollars

($25). An application submitted by mail shall be accompanied by the license fee in the form of a money order, bank draft, cashier's check, or certified check made payable to the Agricultural Marketing Service. Thereafter, fees submitted by mail shall be in one of those forms. Field representatives of the Department may also accept applications for licenses, and may accept payment of fees in cash and issue receipts therefor.

2. Revise § 46.8 *Copies of licenses* to read:

§ 46.8 *Copies of licenses.* Copies of licenses may be issued upon request and upon the payment of a fee of $2 for each copy. Each copy shall bear the word "Copy" in conspicuous letters on its face and shall be certified by the Director as a true copy of the original.

3. Revise § 46.9 *Termination of license; notice; renewal* to read:

§ 46.9 *Termination of license; notice; renewal.* Thirty days or more prior to the anniversary date of a valid and effective license, the Director shall mail a notice to the licensee at the latest address known to the Director, advising that the license will automatically terminate on its anniversary date unless the annual fee is paid on or before such date. If the annual fee is not paid by the anniversary date the licensee may obtain a renewal of that license at any time within thirty days by paying the annual fee, plus five dollars ($5). Within sixty days after the termination date of a valid and effective license, the licensee shall be notified that its license has been terminated. No termination notice shall be mailed to a licensee whose license is at that time under suspension due to failure to pay one or more reparation orders on which appeals have not been perfected, or whose license has been suspended because of refusal to make its records available for examination, or whose license has been revoked.

It is hereby found and determined that good cause exists for not postponing the effective date of these amendments later than February 1, 1957, in that; (1) additional revenue is needed to effectively administer the act; (2) it will simplify the computation, by the applicant for license, of fees due for the period business was conducted subject to the act prior to filing an application for license if the effective date of the amendment is on the first day of a month; (3) prior notice was given the public of the proposed amendments of the regulations as well as notice that it was proposed to make the amendments effective February 1, 1957, by having been published in the FEDERAL REGISTER over thirty (30) days prior to the effective date; and (4) the persons affected should require no additional advance time for compliance with these amendments (60 Stat. 238; 5 U. S. C. 1003c).

(Sec. 15, 46 Stat. 537, as amended; 7 U. S. C. 499o)

Dated: January 17, 1957, to become effective February 1, 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator, Marketing Services.

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 811, Amdt. 1]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

REQUIREMENTS AND QUOTAS FOR 1957

Correction

In Federal Register Document 57-377, published on page 369 of the issue for Friday, January 18, 1957, the tables in amendatory paragraphs 2 and 3 were inadvertently transposed. As corrected, amendatory paragraphs 2 and 3 read as follows:

2. Section 811.91 (a) is amended to read:

§ 811.91 *Quotas for domestic areas.* (a) For the calendar year 1957 quotas for sugar to be brought into or marketed for consumption in the continental United States from domestic areas are established in column (1) and the amounts of such quotas for offshore areas that may be filled by direct-consumption sugar are established in column (2) as follows:

(Short tons, raw value)

Area	(1) Quota	(2) Direct-consumption limits
Domestic beet sugar	1,953,952	no limit
Mainland cane sugar	601,250	no limit
Hawaii	1,090,496	30,700
Puerto Rico	1,140,253	133,064
Virgin Islands	15,549	000

3. Section 811.92 is amended to read:

§ 811.92 *Quotas for foreign countries.* For the calendar year 1957, quotas for sugar to be imported into the continental United States for consumption therein from foreign countries are established in column (1) and the amount of each such quota that may be filled by direct-consumption sugar is established in column (2), as follows:

(Short tons, raw value)

Country	(1) Quotas	(2) Direct-consumption limits
Republic of the Philippines	980,000	59,920
Cuba	3,001,295	375,000
Peru	78,207	9,560
Dominican Republic	61,657	8,523
Mexico	44,409	15,481
Nicaragua	11,731	10,208

All other countries	0	0

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regulation No. SR-419]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

SPECIAL CIVIL AIR REGULATION; AUTHORITY TO DEVIATE FROM CERTAIN PROVISIONS OF CIVIL AIR REGULATIONS IN CONDUCT OF MILITARY CONTRACT OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 17th day of January 1957.

By petition dated October 8, 1956, AAXICO Airlines, Inc., Capitol Airways, Inc., and Riddle Airlines, Inc., requested the Board to permit them to carry certain passengers in aircraft in the performance of certain military contract operations without compliance with the passenger-carrying rules prescribed in Part 42 of the Civil Air Regulations and Special Civil Air Regulation No. SR-406C. The petitioners informed the Board that they have entered into contracts with the United States Air Force to provide scheduled cargo service for the Air Force among numerous domestic military installations utilizing a fleet of over forty Curtiss C-46 aircraft. This contract operation is commonly known at the Air Force Logistical Airlift, or "LOGAIR" Service. They state further that the continued efficient operation of LOGAIR is in the interest of national defense and essential for the domestic airlift requirements of the Air Force. The petitioners have advised the Board that it is essential in the performance of these contracts that government couriers traveling with classified information or for the purpose of maintaining security requirements with respect to certain classified cargo be carried. They have also advised that the occasional transportation (deadheading) by one LOGAIR contractor of crew members of another LOGAIR contractor is essential for the efficient operation of LOGAIR.

Petitioners advise that the LOGAIR operation is under the complete operational control of the Air Force; that flight operations are conducted only between Air Force bases; and that all load-

ing, servicing, and scheduling matters are handled by the Air Force.

By letter dated October 12, 1956, the Department of the Air Force officially confirmed the essential information submitted by the petitioners and requested that the Board give favorable consideration to the petitioners' request. In justification of petitioners' request, the Air Force stated in part that LOGAIR is necessary to execute successfully the Air Force mission. In addition the Air Force stated that part of LOGAIR's value to the Air Force is due to the fact that it can carry classified cargo with a maximum of speed and with a minimum of special handling. As the various missile programs develop and other new weapons come into the Air Force inventory, the requirement for this type of transportation will continue to increase. Couriers must be carried on LOGAIR aircraft to effect the safe handling and expeditious delivery of this classified cargo. The Air Force also stated that is was necessary to provide deadhead transportation of LOGAIR flight crew members on aircraft of other LOGAIR contractors because restricting their movement to their own company's aircraft or to commercial carriers that neither originate nor terminate at military installations often results in lengthy delays in LOGAIR schedules that reduce the value of this service as a means of fast and economical transportation.

In addition to the couriers and the deadheading crew members which were the subject of the petitioners' request, the Air Force has requested that authority also be provided to permit the carriage of Air Force route supervisors. The mission of these supervisors is to work out liaison with contractor crews and Air Force personnel from the Air Materiel Command, the Air Defense Command, and the Strategic Air Command. Their areas of responsibility, in addition to normal air terminal operation inspections, include checking weight and balance procedures and adequacy of tiedown techniques, as well as observing the adequacy of the temperature control provided for the cargo compartment during actual flight operations. The route supervisors also evaluate the control tower communications furnished at Air Force bases by Air Force personnel, the adequacy of follow-me vehicles, fire guards, and ramp alert personnel. Most of these activities either directly or indirectly affect the safety of the operation of LOGAIR. These checks on LOGAIR, both on the ground and in the air, are considered by the Air Force to be necessary in assuring a safe, efficient, and dependable airline operation. The Air Force has also stated that the cost resulting from placing passenger-carrying weight limitations on the C–46 aircraft in the LOGAIR operations would be prohibitive.

Section 42.2 (Deviation authority) of Part 42 authorizes the Administrator to permit air carriers conducting operations pursuant to contracts with the military service to deviate from the applicable provisions of Part 42 only, subject to any terms and conditions that the Administrator finds are necessary in the interest of safety. This authority is limited to those operations which the Department of Defense has certified to the Administrator are essential to the national defense and require the requested deviation. It was anticipated by the Board that petitions similar to the one herein discussed would normally have been handled by the Administrator under this deviation authority. However, this authority is not broad enough to permit the Administrator to grant the relief requested in this instance since the petitioners request relief from the provisions of Special Civil Air Regulation No. SR–406C in addition to certain provisions of Part 42. SR–406C contains no deviation authority comparable to that contained in Part 42.

The Board has considered the information submitted by the petitioners and the Air Force in support of the relief requested and finds that a sufficient showing has been made to justify granting such relief through the promulgation of a Special Civil Air Regulation. The Board considers that the carriage of the various categories of personnel as requested would not affect the public interest adversely. The carriage of these persons would, on the contrary, constitute a contribution to the efficiency and safety of essential national defense operations, and, therefore, would be in the public interest.

The provisions of this Special Civil Air Regulation authorize the carriage of military couriers, LOGAIR crew members, and LOGAIR route supervisors in aircraft without compliance with the passenger-carrying rules prescribed in Part 42 and SR–406C.

Prior to engaging in operations pursuant to this Special Civil Air Regulation each operator will be required to give notice to the Administrator of the type and registration number of the aircraft to be used and satisfactory evidence that it is a bona fide contractor acting pursuant to a LOGAIR contract.

Since this Special Civil Air Regulation will neither affect adversely the safety of the public nor impose any additional burden on any person, and because the Board has been advised by the Department of the Air Force that the authority granted by this regulation with respect to LOGAIR operations is necessary to the successful execution of the Air Force mission, the Board finds that omission of notice and public procedure is not contrary to the public interest and that good cause exists for making this regulation effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation effective January 17, 1957.

Subject to conditions hereinafter set forth, the operators listed in Appendix A, and any other operator authorized by the Administrator to be added to such list pursuant to this regulation, may, while conducting operations under an Air Force contract known as LOGAIR, carry the persons listed in subparagraph 1 in aircraft without complying with the passenger-carrying rules prescribed in Part 42 of the Civil Air Regulations and Special Civil Air Regulation No. SR–406C, subject to such terms and conditions as the Administrator may find are necessary in the interest of safety.

1. Military couriers, route supervisors, and LOGAIR flight crew members of other LOGAIR contractors.

2. Each operator shall furnish the Administrator, prior to the carriage of such persons, with a list showing the type aircraft, registration number, and an authorization from the Air Force for the transportation of such persons.

3. The operator shall be responsible for the issuance of appropriate instructions to insure that the persons authorized to be carried will not create any interference with the control of the aircraft.

4. Upon notification by any other bona fide contractors acting pursuant to the above specified LOGAIR contracts, the Administrator of Civil Aeronautics is authorized to add to the list in Appendix A any such operator who he determines meets the requirements of this Special Civil Air Regulation.

This Special Air Regulation shall remain in effect until superseded or rescinded by the Board.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 604, 52 Stat. 1007, 1009, 1010, as amended; 49 U. S. C. 551, 553, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 12]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of Section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 610 is amended as follows: (Listed items to be placed in appropriate sequence in the sections indicated).

Section 610.12 *Green civil airway 2* is amended to read in part:

From Grand Rapids, Mich., LFR; to *Lansing, Mich., LFR; MEA 2,000. *2,400—MCA Lansing LFR, eastbound.

Section 610.102 *Amber civil airway 2* is amended to read in part:

From Delta, Utah, LFR; to *Salt Lake City, Utah, LFR; MEA 12,000. *10,000—MCA Salt Lake City, LFR, southbound.

From Riverton, Utah, FM; to Salt Lake City, Utah, LFR, northbound only; MEA 11,000.

Section 610.106 *Amber civil airway 6* is amended to read in part:

From Columbus, Ohio, LFR; to A beam Mansfield, Ohio, LF/RBN; MEA 2,600.

Section 610.208 *Red civil airway 8* is amended to read in part:

From Rushville, INT, Ind.; to *Liberty INT, Ohio; MEA 2,500. *3,000—MCA Liberty INT, eastbound.

Section 610.211 *Red civil airway 11* is amended to read in part:

From Enid (Vance), Okla.; LF/RBN; to Mulhall INT, Okla.; MEA 2500.

Section 610.217 *Red civil Airway 17* is amended to read in part:

From Findlay, Ohio, LF/RBN; to Mansfield, Ohio, LF/RBN; MEA 2,700.

Section 610.237 *Red civil airway 37* is amended to read in part:

From Tyler, Tex., LF/RBN; to Hainsville INT, Tex.; MEA 1,700.

Section 610.268 *Red civil airway 68* is amended to read in part:

From Duncanville, Tex., LF/RBN; to Tyler, Tex., LF/RBN; MEA 2,000.

From Tyler, Tex., LF/RBN; to Shreveport, La., LFR; MEA 2,100.

Section 610.603 *Blue civil airway 3* is amended to read in part:

From Muscle Shoals, Ala., LFR; to Int. NE crs Muscle Shoals LFR and SW crs Nashville LFR; MEA 2,500.

Section 610.605 *Blue civil airway 5* is amended to read in part:

From Crescent INT, Okla.; to Mulhall INT, Okla.; MEA 2,500.

From Mulhall INT, Okla.; to Oxford INT, Okla.; MEA 2,400.

Section 610.634 *Blue civil airway 34* is amended to read:

From Terre Haute, Ind. LFR; to Chanute, Ill., LF/RBN; MEA 2,000.

From Chanute, Ill., LF/RBN; to Pontiac INT, Ill.; MEA 2,000.

Section 610.1001 *Direct routes, U. S.* is amended by adding:

From Birmingham, Ala., VOR; to Greenwood, Miss., VOR; MEA *5,000. *1,700—MOCA.

From Greenword, Miss., VOR; to El Dorado, Ark., VOR; MEA *3,000. *1,600—MOCA.

From Baton Rouge, La., VOR; to Jackson, Miss., VOR; MEA *3,000. *2,000—MOCA.

From Baton Rouge, La., VOR; to Monroe, La., VOR; MEA *3,500. *1,500—MOCA.

From Mobile, Ala., VOR; to Jackson, Miss., VOR; MEA *3,500. *2,000—MOCA.

From Marathon, Fla., LF/RBN; to Tamiami, Fla., LF/RBN; MEA 1,100.

Section 610.1001 *Direct routes—U. S.* is amended to read in part:

From Watertown, S. Dak., VOR; to Fargo, N. Dak., VOR; MEA 3,100.

Section 610.6003 *VOR civil airway 3* is amended to read in part:

From Daytona Beach, Fla., VOR; to *Bunnell, INT, Fla.; MEA 1,400. *2,500—MRA.

From Bunnell INT, Fla.; to Jacksonville, Fla., VOR; MEA 1,400.

From Millbury INT, Mass.; to Natick INT, Mass.; MEA *3,000. *2,200—MOCA.

From Natick INT, Mass., to Boston, Mass., VOR; MEA *3,000. *2,300—MOCA.

Section 610.6006 *VOR civil airway 6* is amended to delete:

From Battle Mountain, Nev., VOR; to Wells, Nev., VOR; MEA 120.

From Battle Mountain, Nev., VOR via S alter.; to Elko, Nev., VOR via S alter.; MEA 110.

From Elko, Nev., VOR via S alter.; to Wells, Nev., VOR via S alter., MEA 130.

Section 610.6006 *VOR civil airway 6* is amended by adding:

From Battle Mountain, Nev., VOR; to Elko, Nev., VOR; MEA 11,000.

From Elko, Nev., VOR; to Wells, Nev., VOR; MEA 13,000.

Section 610.6006 *VOR civil airway 6* is amended to read in part:

From *Ogden, Utah, VOR; to **Lost Creek INT, Utah; MEA 12,000. *11,000—MCA Ogden VOR, eastbound. **14,000—MRA.

From Lost Creek INT, Utah; to Ft. Bridger, Wyo., VOR; MEA 12,000.

Section 610.6008 *VOR civil airway 8* is amended to read in part:

From Denver, Colo., VOR via S alter.; to *Bennett INT, Colo., via S alter.; MEA 6,600. *7,000—MRA.

From Bennett INT, Colo., via S. alter.; to Akron, Colo., VOR via S alter; MEA *7,000. *6,600—MOCA.

From Findlay, Ohio, VOR; to Upper Sandusky INT, Ohio; MEA 2,500.

From Upper Sandusky INT, Ohio; to Mansfield, Ohio, VOR; MEA 2,700.

Section 610.6010 *VOR civil airway 10* is amended to read in part:

From Carleton, Mich., VOR; to Detroit River INT, Mich.; MEA 2,000.

From Detroit River INT, Mich.; to Pelee INT, Ontario, Canada; MEA *2,500. *For that airspace over U. S. territory.

From Pelee INT, Ontario, Canada; to Gill INT, Ohio; MEA *7,000. *For that airspace over U. S. territory.

From *Gill INT, Ohio; to N. Perry INT, Ohio; MEA 3,000. *7,000—MCA Gill INT, westbound.

Section 610.6014 *VOR civil airway 14* is amended to read in part:

From Roswell, N. Mex., VOR; to *Caprock INT, N. Mex.; MEA **7,000. *7,500—MRA. **6,600—MOCA.

Section 610.6015 *VOR civil airway 15* is amended to read in part:

From Dallas, Tex., VOR; to *Prosper INT, Tex.; MEA **2,100. *2,900—MRA. **1,900—MOCA.

Section 610.6016 *VOR civil airway 16* is amended to read in part:

From Goldsmith INT, Tex. via N alter; to Midland, Tex., VOR via N alter; MEA 4,300.

From Big Spring, Tex., VOR via S alter.; to Lazy X INT, Tex., via S alter.; MEA 4,000.

From Lazy X INT, Tex., via S alter.; to Abilene, Tex., VOR via S alter.; MEA *4,000. *3,600—MOCA.

Section 610.6017 *VOR civil airway 17* is amended to read in part:

From Spring Branch INT, Tex., via W alter.; to Austin, Tex., VOR via W alter.; MEA 2,800.

Section 610.6022 *VOR civil airway 22* is amended to read in part:

From Greenville INT, Fla., via N alter.; to Lee INT, Fla., via N alter.; MEA *2,500. *1,500—MOCA.

From Lee INT, Fla., via N. alter.; to *Taylor INT Fla., via N. Alter.; MEA **3,000. *3,000—MRA. **1,200—MOCA.

From Taylor INT, Fla., via N alter.; to Bryceville INT, Fla., via N alter.; MEA *2,500. *1,200—MOCA.

Section 610.6026 *VOR civil airway 26* is amended by adding:

From Redwood Falls, Minn., VOR; to Minneapolis, Minn., VOR; MEA 2,200.

Section 610.6032 *VOR civil airway 32* is amended to read in part:

From Bonneville, Utah, VOR; to *Timple INT, Utah, westbound, MEA 10,000; eastbound, MEA 11,000. *15,000—MRA.

From Timple INT, Utah; to *Stansbury INT, Utah, westbound, MEA 10,000; eastbound, MEA 11,000. *12,000—MRA.

Section 610.6038 *VOR civil airway 38* is amended to read in part:

From Parkersburg, W. Va., VOR; to Benson INT, W. Va., westbound, MEA 3,500; eastbound, MEA 5,000.

From Benson INT, W. Va.; to Elkins, W. Va., VOR; MEA 5,000.

Section 610.6051 *VOR civil airway 51* is amended to read in part:

From Daytona Beach, Fla., VOR; to *Bunnell INT, Fla.; MEA 1,400. *2,500—MRA.

From Bunnell INT, Fla.; to Jacksonville, Fla., VOR; MEA 1,400.

Section 610.6060 *VOR civil airway 60* is amended to read in part:

From *Pleasant Hill INT, N. Mex.; to Farwell INT, Tex.; MEA **13,000. *15,500—MRA. **5,300—MOCA.

From Farwell INT, Tex.; to Lubbock, Tex., VOR; MEA *10,000. *5,100— MOCA.

Section 610.6066 *VOR civil airway 66* is amended to read in part:

From Midland, Tex., VOR; to *Jack INT, Tex.; MEA **6,200. *6,200—MRA. **4,400—MOCA.

From Jack INT, Tex.; to Lazy X INT, Tex.; MEA *7,200. *3,600—MOCA.

From Lazy X INT, Tex.; to Abilene, Tex., VOR; MEA *4,000. *3,600—MOCA.

From Fort Worth, Tex., VOR; to Denton INT, Tex.; MEA 2,100.

From Denton INT, Tex.; to *Prosper INT, Tex.; MEA **2,900. *2,900—MRA. **2,100—MOCA.

Section 610.6068 *VOR civil airway 68* is amended to read in part:

From Kingsville INT, Tex.; to Brownsville, Tex., VOR; MEA *4,700. *1,300—MOCA.

Section 610.6077 *VOR civil airway 77* is amended to read in part:

From Fort Sill INT, Okla.; to *Chickasha INT, Okla.; MEA **2,800. *4,000—MRA. **2,500—MOCA.

Section 610.6092 *VOR civil airway 92* is amended to read in part:

From Bergholz INT, Ohio; to Wheeling, W. Va., VOR; MEA 3,000.

Section 610.6097 *VOR civil airway 97* is amended to read in part:

From *Hudson INT, Fla., via E alter.; to Cross City, Fla., VOR via E alter.; MEA **2,000. *2,000—MRA. **1,200—MOCA.

Section 610.6144 *VOR civil airway 144* is amended to read in part:

From Findlay, Ohio, VOR; to Upper Sandusky INT, Ohio; MEA 2,500.
From Upper Sandusky INT, Ohio; to Mansfield, Ohio, VOR; MEA 2,700.

Section 610.6163 *VOR civil airway 163* is amended to read in part:

From Brownsville, Tex., VOR; to Kingsville INT, Tex.; MEA *4,700. *1,300—MOCA.
From Kingsville INT, Tex.; to Alice, Tex., VOR; MEA 1,400.

Section 610.6188 *VOR civil airway 188* is amended to read in part:

From Carleton, Mich., VOR; to Detroit River INT, Mich.; MEA 2,000.
From Detroit River INT, Mich.; to Pelee INT, Ontario, Canada; MEA *2,500. *For that airspace over U. S. territory.
From Pelee INT, Ontario, Canada; to Gill INT, Ohio; MEA *7,000. *For that airspace over U. S. territory.
From *Gill INT, Ohio; to N. Perry INT, Ohio; MEA 3,000. *7,000—MCA Gill INT, westbound.
From N. Perry INT, Ohio; to Jefferson, Ohio, VOR; MEA 2,500.

Section 610.6201 *VOR civil airway 201* is amended to read in part:

From Carp INT, Calif.; to *Los Angeles, Calif., VOR; MEA 3,500. *6,000—MCA Los Angeles VOR, northeastbound.

Section 610.6209 *VOR civil airway 209* is amended to read in part:

From *Fillmore, Calif., VOR; to Reyes INT, Calif., northwest bound, MEA 12,500; southeast bound, MEA 9,500. *9,500—MCA Fillmore VOR, northwest bound.
From Reyes INT, Calif.; to Paso Robles, Calif., VOR; MEA *12,500. *9,500—MOCA.

Section 610.6246 *VOR civil airway 246* is amended to read:

From Dayton, Ohio, VOR; to Claiborne INT, Ohio; MEA 2,500.
From Claiborne INT, Ohio; to Mansfield, Ohio, VOR; MEA 2,700.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules shall become effective February 12, 1957.

[SEAL] JAMES T. PYLE,
Administrator of Civil Aeronautics.

[F. R. Doc. 57-412; Filed, Jan. 22, 1957; 8:45 a. m.]

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 270—GENERAL RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

APPLICATIONS REGARDING JOINT ENTERPRISES OR ARRANGEMENTS

On September 12, 1955, the Securities and Exchange Commission published notice that it had under consideration an amendment of § 270.17d-1 (Rule N-17D-1) under the Investment Company Act of 1940 and invited all interested persons to comment upon the proposal. The Commission has considered all comments and suggestions received and has determined to adopt § 270.17d-1 in the form set forth below. The purpose of the amendment is to have the scope of the rule coincide, in general, with the scope of section 17 (d).

The rule would require an application to, and an order issued by the Commission in respect of transactions of affiliated persons of or the principal underwriter for an investment company, on the one hand, and such investment company or a company controlled by such investment company, on the other, involving joint enterprises or other joint arrangements or profit-sharing plans in which such investment company is a joint or a joint and several participant.

This action is taken pursuant to section 17 (d) and section 38 (a) of the Investment Company Act of 1940.

§ 270.17d-1 *Applications regarding joint enterprises or arrangements and certain profit-sharing plans.* (a) No affiliated person of or principal underwriter for any registered investment company (other than a company of the character described in section 12 (d) (3) (A) and (B) of the act) and no affiliated person of such a person or principal underwriter, acting as principal, shall participate in, or effect any transaction in connection with, any joint enterprise or other joint arrangement or profit-sharing plan in which any such registered company, or a company controlled by such registered company, is a participant, and which is entered into, adopted or modified subsequent to the effective date of this rule, unless an application regarding such joint enterprise, arrangement or profit-sharing plan has been filed with the Commission and has been granted by an order entered prior to the submission of such plan or modification to security holders for approval, or prior to such adoption or modification if not so submitted, except that the provisions of this rule shall not preclude any affiliated person from acting as manager of any underwriting syndicate or other group in which such registered or controlled company is a participant and receiving compensation therefor.

(b) In passing upon such applications, the Commission will consider whether the participation of such registered or controlled company in such joint enterprise, joint arrangement or profit-sharing plan on the basis proposed is consistent with the provisions, policies and purposes of the act and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

(c) "Joint enterprise or other joint arrangement or profit-sharing plan" as used in this section shall mean any written or oral plan, contract, authorization or arrangement, or any practice or understanding concerning an enterprise or undertaking whereby a registered investment company or a controlled company thereof and any affiliated person of or a principal underwriter for such registered investment company, or any affiliated person of such a person or principal underwriter, have a joint or a joint and several participation, or share in the profits of such enterprise or undertaking, but shall not include an investment advisory contract subject to section 15 of the act.

(d) Notwithstanding the requirements of paragraph (a) of this section, no application need be filed pursuant to this section with respect to any of the following:

(1) Any profit-sharing plan provided by any controlled company which is not an investment company for its officers or employees, provided no affiliated person of any investment company which is an affiliated person of such controlled company participates therein.

(2) Any plan provided by any registered investment company or any controlled company for its officers or employees if such plan has been qualified under section 401 of the Internal Revenue Code of 1954 and all contributions paid under said plan by the employer qualify as deductible under section 404 of said Code.

Effective: January 10, 1957.

(Sec. 38, 54 Stat. 841; 15 U. S. C. 80a-37)

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

JANUARY 10, 1957.

TITLE 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

Subchapter C—Military Personnel

PART 59—ORDERING THE READY RESERVE TO ACTIVE DUTY IN A NATIONAL EMERGENCY DECLARED BY THE PRESIDENT

Sec.
59.1 Purpose.
59.2 Applicability.
59.3 Statutory provisions.
59.4 Policy.

AUTHORITY: §§ 59.1 to 59.4 issued under sec. 208, 66 Stat. 484, as amended, sec. 673, 70A Stat. 28; 50 U. S. C. 928, 10 U. S. C. 673.

§ 59.1 *Purpose.* The purpose of this part is to prescribe uniform policy governing the ordering to active duty of units and individuals in the Ready Reserve in a national emergency declared by the President.

§ 59.2 *Applicability.* This part is applicable to all military departments in the employment of authority, contained in subsection 673 (a), 70A Stat. as amended by subsection 2 (f), 69 Stat. 598, to order to active duty in a national emergency declared by the President, units and individuals in the Ready Reserve.

§ 59.3 *Statutory provisions.* (a) In time of national emergency declared by the President subsequent to January 1, 1953, or when otherwise authorized by law, subsection 673 (a), 70A Stat. as amended by subsection 2 (f), 69 Stat. 598, provides that any unit or any member not assigned to a unit organized to serve as such in the Ready Reserve may, by authority designated by the Secretary concerned, be ordered to active duty for a period not to exceed 24 consecutive months, without the consent of the persons affected, except that numbers in excess of 1,000,000 may not be required to perform active duty involuntarily at any time unless authorized by the Congress.

(b) When the authority cited in paragraph (a) of this section is employed, subsection 673 (b), 70A Stat. requires that in the interest of fair treatment as between members in the Ready Reserve being considered for involuntary recall to duty, attention shall be given to the duration and nature of previous service with the objective of assuring such sharing of hazardous exposure as the national security and the military requirement will reasonably permit, to family responsibilities, and to employment found to be necessary to the maintenance of the national health, safety, or interest. At such time as the screening of the Ready Reserve under provisions of Part 53 of this chapter, 21 F. R. 3250, becomes current, the requirements of cited subsection 673 (b), 70A Stat. will be considered as having been satisfied. Meanwhile, the provisions of Department of Defense Directive Number 1235.5, subject: Involuntary Recall of Ready Reservists, subsection 233 (b) (2), Armed Forces Reserve Act of 1952 (Public Law 476, 82d Congress), dated September 1, 1953, will apply.

(c) In any expansion of the active Armed Forces of the United States which requires that units and members of the reserve components be ordered into the active military service of the United States, subsection 672 (c), 70A Stat. provides that, insofar as practicable, members of units organized and trained for the purpose of serving as such shall be ordered involuntarily to active duty only with their units, but does not prohibit the reassignment of personnel of such units after being ordered into the active military service of the United States. Policy governing application of this provision is contained in Department of Defense Directive Number 1235.6, subject: Integrity of Units, dated September 22, 1953.

§ 59.4 *Policy.* (a) The authority contained in subsection 673 (a), 70A Stat. to order units or members of the Ready Reserve involuntarily to active duty shall be exercised only on direction of the President.

(b) Where the nature of the emergency permits, the Secretary of Defense, with the advice of the Joint Chiefs of Staff, will determine the numbers and composition of forces to be ordered involuntarily to active duty from the Ready Reserve by each Service, subject to the conditions of paragraph (a) of this section within the 1,000,000 authorized by law or within whatever larger number may have been authorized by the Congress.

(c) Where the nature of the emergency precludes procedures contemplated in paragraph (b) of this section, the 1,000,000 members of the Ready Reserve authorized by law to be ordered involuntarily to active duty may be so ordered by authorities designated by the Secretaries concerned, subject to the conditions of paragraph (a) of this section, in numbers previously allocated to the military services by the Secretary of Defense.

(1) The Joint Chiefs of Staff shall be responsible for providing to the Secretary of Defense on a current basis the recommended numbers which each Service will be authorized to order involuntarily to active duty under such circumstances, based on appropriate war or mobilization plans.

(2) The Joint Chiefs of Staff shall periodically review the allocation made by the Secretary of Defense, for the purpose of recommending such changes as new conditions may dictate.

(d) Where the nature of the emergency indicates imminent attack upon the continental United States, those authorities having been designated by the Secretaries concerned may order to active duty, subject to the conditions of paragraph (a) of this section, those Ready Reserve forces previously determined by the Secretary of Defense, on the recommendation of the Joint Chiefs of Staff, as required for the immediate defense of the continental United States.

(e) The designation of individuals and units of the Ready Reserve to comprise the forces to be ordered involuntarily to active duty by each Service, within numbers determined by the Secretary of Defense in accordance with paragraphs (b), (c), or (d) of this section, shall be the responsibility of the Secretary of the military department concerned.

C. E. WILSON,
Secretary of Defense.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1382]

[1825382]

NEVADA

PARTIALLY REVOKING EXECUTIVE ORDER NO. 8578 OF OCTOBER 29, 1940, AS MODIFIED BY EXECUTIVE ORDER NO. 9019 OF JANUARY 12, 1942, WHICH WITHDREW LANDS FOR USE OF THE WAR DEPARTMENT AS AN AERIAL BOMBING AND GUNNERY RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Executive Order No. 8578 of October 29, 1940, as modified by Executive Order No. 9019 of January 12, 1942, reserving public lands in Nevada for use of the War Department as an aerial bombing and gunnery range, is hereby revoked so far as it affects the following-described lands:

a. Beginning at the Northwest corner of T. 1 S., R. 51 E., Mount Diablo Base and Meridian;
Thence East along the Mount Diablo Base line approximately 8.5 miles to the Southeast corner of T. 1 N., R. 51½ E.;
Thence North approximately 1 mile to the Southwest corner of T. 1 N., R. 52 E.;
Thence East along the Mount Diablo Base line approximately 15 miles to the Northeast corner of Section 4, T. 1 S., R. 54 E.;
Thence South along section lines approximately 12 miles to the Southeast corner of Section 33, T. 2 S., R. 54 E.;
Thence West along Township lines approximately 17½ miles to the Southeast corner of T. 2 S., R. 51 E.;
Thence North along the range line approximately 6 miles to the Northeast corner of T. 2 S., R. 51 E.;
Thence West along the Township line approximately 6 miles to the Southwest corner of T. 1 S., R. 51 E.;
Thence North along the range line approximately 5½ miles to the point of beginning.

The area described contains 155,645 acres.

b. Beginning at a point that has coordinates Northing, 911,554.32; Easting, 714,867.37; Latitude 37°15'07.268" N.; Longitude 115°55'42.268" W.; which is the northeast corner of the present Atomic Energy Commission Proving Ground as withdrawn by Public Land Order No. 805, thence
N. 0°32'47" W., 2 miles to the intersection of a line bearing west of the point for a corner of Tps. 7 and 8 S., Rgs. 55 and 56 E.
East, 10 miles along line for Tps. 7 and 8 S.
South, 6 miles to intersection of the 2nd Standard Parallel South and Rgs. 55 and 56 E.
West, 10 miles along said Parallel to east boundary of Public Land Order No. 805.
N. 0°32'47" W., 4 miles along said boundary to point of beginning.

The above described tract will embrace the following lands if and when surveyed:

MOUNT DIABLO MERIDIAN

T. 8 S., R. 54 E.,
Secs. 1 to 4, 9 to 16, 21 to 28, and 33 to 36 inclusive.
T. 8 S., R. 55 E.

The area described contains approximately 38,400 acres.

2. The lands described in paragraph 1 (b) of this order are included in an application for withdrawal (Nev. 043795) filed by the Atomic Energy Commission. With respect to such lands, applications under the public land laws will be suspended in accordance with 43 C. F. R. 295.10 until final action on the application for withdrawal has been taken.

3. The lands are grazing lands in Nye County, Nevada. Vegetation in a typical desert type with some scrub pinon and juniper at the higher elevations which changes to yucca, white burr sage, and annuals as the elevation decreases.

4. No application for the restored lands may be allowed under the homestead, desert-land, small tract or any other non-mineral public-land law unless the lands have already been classified as valuable or suitable for such type of application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

5. Subject to any valid existing rights and the requirements of applicable law, the public lands released from withdrawal by this order, are hereby opened to filing of applications, selections, and locations in accordance with the following; the unsurveyed lands being opened to such applications, selections, and loca-

tions as are allowable on unsurveyed lands.

a. Applications and selections under the non-mineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications for surveyed lands under the Homestead, Desert Land, and Small Tract Laws and for unsurveyed lands under the Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, presented prior to 10:00 a. m. on February 21, 1957, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on May 23, 1957, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs 5 (a) (1) and 5 (a) (2) above, and applications and offers under the Mineral Leasing Laws presented prior to 10:00 a. m. on May 23, 1957, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands described in paragraph 1 (a) will be open to location under the United States mining laws beginning at 10:00 a. m. on May 23, 1957.

6. Persons claiming veterans preference rights under paragraph 5 (a) (2) above, must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Reno, Nevada.

HATFIELD CHILSON,
Assistant Secretary of the Interior.

JANUARY 16, 1957.

[F. R. Doc. 57-448; Filed, Jan. 22, 1957; 8:48 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART B—VETERANS' READJUSTMENT ASSISTANCE ACT OF 1952

COMMENCEMENT; TIME LIMITATIONS

In § 21.2012, a new paragraph (d) is added as follows:

§ 21.2012 *Commencement; time limitations.* • • •

(d) *Special administrative consideration.* (1) Where a fully eligible veteran has timely filed a perfected application with the Veterans Administration and is shown to have been prevented from initiating the program applied for on or before the applicable delimiting date and it is clearly established that his failure to do so was the direct result of one of the following enumerated conditions—and of no other condition—it will be deemed that the provisions of paragraph (a) of this section as to timely initiation have been constructively met:

(i) There is of record a showing that his application was denied through clear and unmistakable error upon the part of the Veterans Administration and the veteran protested the denial within 60 days following the date of notice of denial.

(ii) The applicant relied upon the terms of an erroneous certificate for education and training issued on or prior to the applicable delimiting date which on its face clearly authorized commencement of training at a time following the applicable delimiting date and it is established that the veteran did commence his course within the period provided by the erroneous certificate.

(iii) There is of record a showing—as of the time of the asserted misinformation—that the veteran was erroneously informed by a responsible Veterans Administration employee that he could commence such program after the applicable delimiting date and the veteran did in fact commence his course within the period provided by the misinformation.

(iv) The veteran's application, proper in all respects; having been received in the Veterans Administration not later than the 10th workday immediately preceding the applicable delimiting date, and the veteran establishes by competent evidence that he was in fact prevented from commencing the program of education and training applied for on or before the applicable delimiting date solely because of failure upon the part of the Veterans Administration to issue a proper certificate for education and training on or before the third workday immediately preceding the applicable delimiting date and the veteran protested within 60 days following his delimiting date.

(2) Relief, as provided for in subparagraph (1) of this paragraph, will not be extended in any case where the veteran is unable to establish by competent and acceptable evidence—the burden of proof being upon the veteran—that, but for one of the conditions therein set out, his actual initiation of the program applied for would have been possible on or prior to his delimiting date. In no event will relief be extended as provided in subparagraph (1) (i) and (ii) of this paragraph unless the veteran has commenced or does commence active pursuit of the program applied for not later than the first date as of which students are admitted or 30 days after the date of the notification by the Veterans Administration of his eligibility, whichever is later.

(Sec. 261, 66 Stat. 663; 38 U. S. C. 971)

This regulation is effective January 23, 1957.

[SEAL] JOHN S. PATTERSON,
Deputy Administrator.

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 19]

CHEESES; PROCESSED CHEESES; CHEESE FOODS; CHEESE SPREADS; AND RELATED FOODS; DEFINITIONS AND STANDARDS OF IDENTITY

NOTICE OF PROPOSALS TO ADOPT DEFINITIONS AND STANDARDS OF IDENTITY FOR MOZZARELLA CHEESE, SCAMORZA CHEESE; PART-SKIM MOZZARELLA CHEESE, PART-SKIM SCAMORZA CHEESE

Notice is hereby given that a petition has been filed by the National Cheese Institute, Inc., 110 North Franklin Street, Chicago 6, Illinois, whose members include manufacturers and distributors of various cheeses, setting forth proposals to adopt definitions and standards of identity for mozzarella cheese, scamorza cheese; part-skim mozzarella cheese, part-skim scamorza cheese.

Pursuant to the authority of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919; 21 U. S. C. 341, 371) and delegated to him by the Secretary of Health, Education, and Welfare (20 F. R. 1996, 21 F. R. 6581), the Commissioner of Food and Drugs invites all interested persons to present their views in writing regarding the proposals published below. Such views and comments should be submitted in quintuplicate, addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, Health, Education, and Welfare Building, 330 Independence Avenue SW., Washington 25, D. C., prior to the thirtieth day following the date of publication of this notice in the FEDERAL REGISTER.

It is proposed that the following new sections be added to Part 19:

§ 19.—. *Mozzarella cheese, scamorza cheese: identity.* (a) Mozzarella cheese, scamorza cheese, is the food prepared from milk and other ingredients specified in this section, by the procedure set forth in paragraph (b) of this section, or by another procedure which produces a finished cheese having the same physical and chemical properties as the cheese produced when the procedure set forth in paragraph (b) of this section is used. It may be made in several shapes. It contains not more than 52 percent of moisture, and its solids contain not less than 45 percent of milk fat, as determined by the methods prescribed in § 19.500 (c).

(b) Milk, which is pasteurized and which may be clarified or homogenized or both, and which may be warmed, may be subjected to the action of harmless lactic-acid-producing bacteria present in such milk or added thereto, or the milk may be acidified with vinegar. Sufficient rennet, rennet paste, or extract of rennet paste (with or without purified calcium chloride in a quantity not more than 0.02 percent, calculated as anhydrous calcium chloride, of the weight of the milk) is added to set the milk to a semisolid mass. The mass is cut, stirred, and allowed to stand, and it may be agitated again and heated. The whey is drained and the curd is cut and piled to promote the separation of the whey from the curd. The curd may be washed with cold water and the water drained off. The curd is placed in bundles for drainage and for ripening. It may be stored under refrigeration or ice or kept at room temperature for further ripening. The curd is cut and is immersed in hot water or heated with steam and is kneaded and stretched until it is smooth and free from lumps. Then it is cut and molded. During the molding the curd is kept sufficiently warm to cause proper sealing of the surface. The molded curd is then firmed by immersion in cold water, may be salted in brine, and dried. A harmless preparation of enzymes capable of aiding in the curing or development of flavor of mozzarella cheese, scamorza cheese may be added during the procedure, in such quantities that the weight of the solids of such preparation is not more than 0.1 percent of the weight of the milk used.

(c) For the purposes of this section:

(1) The word "milk" means cow's milk, which may be adjusted by separating part of the fat therefrom or by adding thereto one or more of the following: Cream, skim milk, concentrated skim milk, nonfat dry milk, water in a quantity sufficient to reconstitute any concentrated skim milk or nonfat dry milk used.

(2) Milk shall be deemed to have been pasteurized if it has been held at a temperature of not less than 143° F. for a period of not less than 30 minutes, or for a time and at a temperature equivalent thereto in phosphatase destruction. Mozzarella cheese shall be deemed not to have been made from pasteurized milk if 0.25 gram shows a phenol equivalent of more than 3 micrograms when tested by the method prescribed in § 19.500 (f), provolone modification.

§ 19.—. *Part-skim mozzarella cheese, part-skim scamorza cheese: identity.* Part-skim mozzarella cheese, part-skim scamorza cheese, conforms to the definition and standard of identity prescribed by § 19.— for mozzarella cheese, scamorza cheese, except that its solids contain less than 45 percent of milk fat, but not less than 30 percent.

Dated: January 17, 1957.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F. R. Doc. 57-440; Filed, Jan. 22, 1957; 8:46 a. m.]

[21 CFR Parts 146a, 146b, 146c, 146d, 146e]

ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS USED FOR MASTITIS IN DAIRY ANIMALS

NOTICE OF PROPASAL RE WARNING STATEMENT TO BE REQUIRED ON ANTIBIOTIC DRUGS INTENDED FOR INTRAMAMMARY INFUSION

Notice is given that the Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 507, 701, 52 Stat. 1055, as amended, 59 Stat. 463 as amended; 21 U. S. C. 357, 371) and under authority delegated to him by the Secretary of Health, Education, and Welfare (20 F. R. 1996) hereby offers an opportunity to all interested persons to submit their views in writing to the Hearing Clerk, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington 25, D. C., on the proposal set forth below. All views and comments should be submitted in quintuplicate.

It is proposed that all sections of the regulations dealing with antibiotic drugs intended for intramammary infusion in the treatment or prevention of mastitis in dairy animals be amended by adding thereto the following subparagraph:

On the immediate container, if it is intended for use in the prevention or treatment of mastitis in dairy animals by intramammary infusion, the statement "Warning—Milk taken from dairy animals within ___ hours after the latest treatment for mastitis must not be used for human consumption," the blank being filled in with the number 72, unless the person who requests certification has submitted to the Commissioner information adequate to prove that milk from dairy animals treated with the drug as prepared by him contains no antibiotics after a time period that is shorter than 72 hours after the latest treatment. In such cases, the blank shall be filled in with the number 60, or 48, or 36, or 24, as authorized by the Commissioner.

Dated: January 16, 1957.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

NEW DRUGS; PROCEDURAL AND INTERPRETATIVE REGULATIONS

NOTICE OF PROPOSAL TO AMEND REQUIREMENTS GOVERNING NEW DRUGS FOR INVESTIGATIONAL USE

Correction

In Federal Register Document 57-378, published on page 386 of the issue for Friday, January 18, 1957, the word "paragraph", in the last sentence of subparagraph (3) of § 130.3 (a), should read "subparagraph".

Public Health Service

[42 CFR Part 71]

FOREIGN QUARANTINE

YELLOW FEVER; DISINSECTING VESSELS AND AIRCRAFT; IMPORTATION OF DOGS, CATS, AND MONKEYS

Notice is hereby given that the Surgeon General of the Public Health Service, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend the Public Health Service Regulations as indicated below, to protect the public health of the United States in accord with amendments to the International Sanitary Regulations adopted by the Eighth World Health Assembly on May 26, 1955, which came into force on October 1, 1956, and to clarify, modify, and strengthen the provisions regarding disinsecting of vessels and aircraft and importation of dogs, cats, and monkeys. Interested persons may submit written data, views, or arguments (in duplicate) in regard to the proposed amendments to the Surgeon General of the Public Health Service, Washington 25, D. C. All relevant material received not later than 30 days after the publication of this notice in the FEDERAL REGISTER will be considered.

1. Section 71.1 (l) would be amended to read as follows:

(l) *Infected local area.* A local area (as defined in the International Sanitary Regulations) where:

(1) There is a nonimported case of cholera or smallpox; or

(2) There is a nonimported case of plague, or there is plague infection among rodents; or

(3) There is a nonimported case of yellow fever, or there is activity of yellow fever virus in vertebrates other than man; or

(4) There is an epidemic of typhus or relapsing fever.

2. Section 71.1 (gg) would be deleted.

3. Section 71.1 (hh) would be amended to read as follows:

(hh) *Yellow fever receptive area.* An area where the yellow fever virus does not exist but where Aedes aegypti or any other domiciliary or peri-domiciliary vector of yellow fever is present and development of the disease, if introduced, would thus be possible.

4. Section 71.9 would be amended to read as follows:

§ 71.9 *Listing of infected and receptive areas.* Each medical officer in charge shall maintain an accurate listing of (a) ports and other areas infected with quarantinable or other communicable diseases, and (b) yellow fever receptive areas.

5. Section 71.90 would be amended to read as follows:

§ 71.90 *Yellow fever; vessels and aircraft; classification.* For the purpose of applying sanitary and quarantine measures against the spread of yellow fever:

(a) An infected vessel means a vessel which has on board on arrival or which during its voyage had on board a case of yellow fever.

(b) An infected aircraft means an aircraft which has on board on arrival a case of yellow fever.

(c) A suspected vessel means a vessel which has left a yellow fever infected local area within 6 days prior to arrival or which arriving within 30 days after leaving such area has Aedes aegypti on board.

(d) A suspected aircraft means an aircraft which has left an airport situated in a yellow fever infected local area bound for a yellow fever receptive area in the United States if on arrival the quarantine officer is not satisfied that it was adequately disinsected before departure from such area or in flight and finds live mosquitoes on board.

(For disinsecting requirements for aircraft and vessels see §§ 71.102 and 71.102a.)

6. The Subpart G heading would be amended to read as follows:

SUBPART G—SANITARY INSPECTION: CONTROL OF RODENTS, INSECTS, AND OTHER VERMIN; DISINFECTION

7. Section 71.101 would be amended to read as follows:

§ 71.101 *General provisions.* Vessels or aircraft arriving at a port under the control of the United States from a foreign port shall be subject to sanitary inspection to ascertain whether there exists rodent, insect, or other vermin infestation, contaminated food or water, or other insanitary condition requiring measures for the prevention of the introduction, transmission, or spread of communicable disease. (For sanitary measures with respect to border traffic see § 71.140.)

8. Section 71.102 would be amended to read as follows:

§ 71.102 *Disinsecting of aircraft.*[1] (a) The following aircraft shall be disinsected:

(1) An infected aircraft as defined in § 71.90.

(2) An aircraft that has left a local area that is infected with yellow fever or an area that is infected with other insect-borne communicable disease, if it has not been adequately disinsected before arrival.

(3) An aircraft that has left any foreign airport where Aedes aegypti exists and arrives at an airport under the control of the United States that has been freed of Aedes aegypti, if it has not been adequately disinsected before arrival.

(b) The medical officer in charge shall accept prearrival disinsecting as adequate if after inspection he determines that such disinsecting has been effective, and the insecticide and disinsecting methods meet the following requirements:

(1) The insecticide shall be either Insecticidal Aerosol G–382, G–651, G–1152, or G–1029, the formulas of which are given below, or an insecticide found by the Surgeon General of the Public Health Service, upon application by an interested person, to be substantially as effective as these aerosols:

FORMULAS FOR INSECTICIDAL AEROSOLS: G–382, G–651, G–1152, AND G–1029

Component	Percent by weight			
	High pressure aerosols		Medium pressure aerosols	
	G–382	G–651	G–1152	G–1029
Pyrethrum extract (20 percent pyrethrins)	5.0	6.0	5.0	6.0
DDT	3.0	2.0	3.0	2.0
Cyclohexanone	5.0	------	5.0	------
Lubricating oil (SAE 30)	2.0	------	2.0	------
Aromatic petroleum derivative solvents: (Velsicol AR60 or Socony Vacuum 5446)	------	8.0	------	6.0
(Velsicol AR50 or Socony Vacuum 544C)	------	------	------	2.0
Trichlorofluoromethane (Freon-11 or Genetron-11)	------	------	25.5	25.2
Dichlorodifluoromethane (Freon-12 or Genetron-12)	85.0	84.0	59.5	58.8

(2) The insecticide shall be dispensed in the amount of not less than 5 grams for each 1,000 cu. ft. of enclosed space in the aircraft, and shall be released or sprayed throughout all accessible compartments.

(3) Disinsecting may be accomplished either while the aircraft is on the ground before take-off from the last airport before arrival in the United States, or after departure from such airport (for compartments accessible in flight). In no case shall disinsecting be accomplished later than 30 minutes before the first landing at a United States port.

(4) The ventilation system shall be stopped and all openings to the exterior kept closed while the insecticide is being released or sprayed, and for a period of at least 3 minutes thereafter. If disinsecting is accomplished on the ground before take-off, the ventilation system may be opened at the end of such period, provided the system is equipped with filters or other means for preventing entry of insects into the aircraft; but doors, windows, or other such openings to the exterior shall be kept closed until after the take-off, except to permit persons applying the insecticide to debark.

(c) An infected or suspected aircraft as defined in § 71.90, or any other aircraft subject to disinsecting under this section which the medical officer in charge deems to present a special hazard of introduction of insect vectors, shall be kept tightly closed on arrival; disinsecting shall be accomplished before discharge of passengers, crew, mail, baggage, cargo, or other material; and no person except quarantine officials shall be allowed on board until disinsecting is completed.

9. Section 71.102a would be added to read as follows:

§ 71.102a *Disinsecting and disinfesting vessels*—(a) *Disinsecting (yellow fever).* (1) The following vessels shall be disinsected:

(i) An infected vessel as defined in § 71.90.

(ii) A vessel arriving from a yellow fever infected local area, if it has not been adequately disinsected before arrival.

(iii) A vessel that has left a port where Aedes aegypti exists and arrives at a port under the control of the United States that has been freed of Aedes aegypti, if it has not been adequately disinsected before arrival.

(2) In a yellow fever receptive area infected vessels shall be moored at least 400 meters from the land until disinsecting required by this paragraph is completed. Other vessels that are required to be disinsected under this paragraph shall be so moored when deemed necessary by the medical officer in charge to prevent the introduction of vectors of yellow fever.

(3) The medical officer in charge shall accept prearrival disinsecting as adequate if after inspection he determines that such disinsecting has been effective, and the insecticide and disinsecting methods meet the requirements specified for aircraft in § 71.102 (b), except that the ventilation system shall be stopped and all openings to the exterior kept closed for a period of at least 15 minutes after the insecticide is released or sprayed.

(b) *Disinfesting (general).* A vessel may be disinfested on arrival if the medical officer in charge considers disinfestation necessary to prevent the spread of infection or for the destruction of insects and other vermin capable of transmitting communicable disease.

10. Section 71.102b would be added to read as follows:

[1] At airports where the hazard of introducing disease-carrying insects exists, it is the policy of the United States Public Health Service to conduct "entomological surveillance" of the airport area. This surveillance consists of periodic entomological surveys carried on by entomologists or trained representatives for the purpose of the early detection and prompt eradication of any insect of public health importance which may unknowingly have been introduced by aircraft.

§ 71.102b *Disinsecting and disinfection of persons and things; Vessels and aircraft.* The person, effects, and baggage of any vermin infested person arriving aboard a vessel or aircraft shall be disinsected and, if necessary in the judgment of the medical officer in charge, disinfected.

11. Section 71.154 would be amended to read as follows:

§ 71.154 *Dogs, cats, and monkeys*—(a) *Definitions.* As used in this section and § 71.155, the term:

(1) "Dog" includes all domestic and wild members of the dog family (Canidae).

(2) "Cat" includes all domestic and wild members of the cat family (Felidae).

(3) "Monkey" includes all monkeys and such other Primates as lemurs, baboons, and chimpanzees.

(4) "United States" means the continental United States, its territories, and possessions (other than the Canal Zone).

(5) "Zoological park" means a place, premises, or an establishment maintained for the exhibition of live animals for recreational or educational purposes.

(b) *General requirements*—(1) *Inspection by quarantine officer.* All dogs, cats, and monkeys brought into the United States from any foreign country shall be inspected by the quarantine officer at the port of arrival. Only animals in which no evidence of communicable disease (see § 71.1 (b)) is revealed shall be admitted.

(2) *Examination by veterinarian at port of arrival; detention of animals.* When a dog, cat, or monkey does not appear to be in good health on arrival (i. e., it has such symptoms as emaciation, lesions of the skin, nervous system disturbances, jaundice, or diarrhea), the medical officer in charge may give the owner or his agent an opportunity to call in a licensed veterinarian to examine the animal and give or arrange for any tests or treatment indicated. The medical officer in charge will consider the findings of any such examination and tests in determining whether the animal may have a communicable disease. The owner shall bear the expense of such examination, tests, and treatment. When it is necessary to detain an animal pending determination of its admissibility, the owner or his agent shall provide satisfactory detention facilities which in the judgment of the medical officer in charge will afford protection against the existence of a health hazard. The owner or his agent shall bear the expense of such detention.

(3) *Report of sickness or death; exposed animals.* (i) A record of sickness or death of dogs, cats, or monkeys en route to the United States shall be made by the person responsible for care of the animals, and shall be submitted to the quarantine officer at the port of arrival. Animals sick or dead while en route or on arrival shall be separated from other animals as soon as discovered.

(ii) When a dog, cat, or monkey appears healthy but, during shipment, has been exposed to a sick or dead animal suspected of having a communicable disease, the exposed animal shall be admitted only if tests or other examination, made at a time when infection with communicable disease could be determined, reveals no evidence that the animal may be infected with such disease. The provisions of subparagraph (2) of this paragraph shall be applicable to such tests or other examination.

(4) *Sanitation.* When the quarantine officer finds that the cages or other containers of dogs, cats, or monkeys arriving in the United States are in an insanitary condition that may constitute a health hazard:

(i) The animals shall not be admitted in such containers unless the owner or his agent has the containers cleaned; and

(ii) The quarantine officer shall report the matter to the customs officer for investigation pursuant to customs regulations regarding importation of animals under inhumane or unhealthful conditions (19 CFR 12.26 (k)).

(c) *Dogs only; rabies vaccination.* (1) Rabies vaccination is required for a dog that is brought into the United States, unless:

(i) For the six months before arrival the dog has been only in a country determined by the Public Health Service to be rabies-free [2]; or

(ii) The owner submits evidence satisfactory to the quarantine officer that the dog is destined for a zoological park, or that it is destined for a research establishment and vaccination would seriously interfere with its use for scientific investigation; or

(iii) The dog on arrival is less than three months of age, in which case it shall be released under surveillance (kept on a leash when outdoors, or otherwise restrained by the owner) and the owner shall certify that the dog will be vaccinated at three months of age and remain under surveillance for one month following vaccination.

(2) Vaccination shall be accomplished with nervous-tissue vaccine more than one month but not more than 12 months before the dog's arrival, or with chicken-embryo vaccine more than one month but not more than 36 months before arrival.

(3) Where vaccination is required, the dog shall be accompanied by a valid certificate of rabies vaccination. This certificate shall: (i) Identify the dog, (ii) be signed by a licensed veterinarian, and (iii) specify that such veterinarian vaccinated the dog with "nervous-tissue" vaccine or with "chicken-embryo" vaccine, on a stated date within the respective time limit provided in subparagraph (2) of this paragraph.

(4) If a dog that is subject to vaccination arrives without a valid certificate of rabies vaccination, it shall not be admitted until it has been vaccinated (except as provided in subparagraph (5) of this paragraph). The owner shall arrange for and bear the expense of this vaccination. Upon admission the dog shall be placed under surveillance (kept on a leash when outdoors, or otherwise restrained by the owner) for at least 30 days.

(5) If a dog arrives with a certificate which is valid except that vaccination was received less than one month before arrival, the dog may be admitted but placed under surveillance until at least 30 days have elapsed since vaccination.

(6) In no case will vaccination be recognized if performed on a dog less than three months of age.

(d) *Dogs and cats; special provisions.* Notwithstanding other provisions of this section, if a dog or cat comes from a locality having a high incidence of rabies and under conditions otherwise indicating that a special hazard of rabies introduction is present, it shall be subject to such additional requirements, or to exclusion, as may be found necessary by the medical officer in charge, and approved by the Chief of the Division of Foreign Quarantine of the Public Health Service, to prevent the introduction of rabies. However, any such dog that has been vaccinated after the age of 3 months as provided in paragraph (c) of this section shall be admitted after 30 days have elapsed since vaccination, if inspection of the animal following this period has revealed no evidence of communicable disease.

(e) *Monkeys only; measures regarding yellow fever.* (1) Monkeys arriving from or having passed through a yellow fever infected local area, or an area in which there is reason to suspect the existence of yellow fever virus, shall be admitted only if inspection of the animals reveals no signs of yellow fever, and there is evidence satisfactory to the medical officer in charge that:

(i) At least nine days have elapsed following their departure from the last such area contacted, or

(ii) They arrive in a mosquito-proof structure, and have been kept in such a structure for at least nine days immediately before arrival, or

(iii) They have an effective immunization against yellow fever.

(2) The structure referred to in subparagraph (1) of this paragraph shall have coverings of mosquito-proof material in at least two layers sufficiently separated to prevent mosquitos from biting the monkeys.

(f) *Dogs, cats, and monkeys in transit.* The provisions of this section shall apply to dogs, cats, and monkeys shipped through the United States from one foreign country to another, except as indicated below:

(1) Animals that appear healthy, but have been exposed to a sick or dead animal suspected of having a communicable disease, need not undergo tests or other examination as provided in paragraph (b) (3) of this section if conditions of their transportation will afford adequate protection to the United States against introduction of communicable disease.

(2) Rabies vaccination is not required for dogs that are shipped by airplane or

[2] A current list of rabies-free countries may be obtained from the Surgeon General, Public Health Service, Department of Health, Education, and Welfare, Washington 25, D. C., Attention: Chief, Division of Foreign Quarantine, or from Public Health Service Quarantine Stations at United States ports.

ship and are retained in custody of the carrier under conditions preventing introduction of rabies.

12. Section 71.155 would be amended to read as follows:

§ 71.155 *Dogs, cats, and monkeys; disposal of excluded animals.* A dog, cat, or monkey excluded from the United States under the regulations in this part shall be exported or destroyed. Pending exportation it shall be detained under customs' custody at the port of arrival at the owner's expense. In an area where Aedes aegypti is present, monkeys not meeting requirements of paragraph (e) of § 71.154 shall be detained in a mosquito-proof structure as described in that paragraph, pending disposal.

13. Section 71.605 (a) would be amended to read as follows:

(a) Every port, and the area within the perimeter of every airport, shall be kept free from Aedes aegypti in its larval and adult stages.

(Sec. 215, 58 Stat. 690, 42 U. S. C. 216. Interpret or apply secs. 361–369, 58 Stat. 703–706; 42 U. S. C. 264–272)

Dated: January 10, 1957.

[SEAL] L. E. BURNEY,
Surgeon General.

Approved: January 16, 1957.

M. B. FOLSOM,
Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 545]

HOMEWORKERS IN NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

NOTICE OF PROPOSED RULE MAKING

In accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003), and pursuant to authority under the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), Reorganization Plan No. 6 of 1950 (5 U. S. C. 611) and General Order No. 45–A (15 F. R. 3290), notice is hereby given that I propose to amend Part 545 (29 CFR Part 545) as hereinafter set forth.

Prior to any final action on this proposal, consideration will be given to any data, views or arguments pertaining thereto which are submitted in writing to the Administrator, Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington 25, D. C., within thirty days from publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 15th day of January 1957.

NEWELL BROWN,
Administrator, Wage and Hour and Public Contracts Divisions.

1. The caption of Part 545 is amended to read: "Part 545—Homeworkers in the Fabric and Leather Glove Industry; the Handkerchief, Square Scarf, and Art Linen Industry; the Children's Dress and Related Products Industry; the Women's and Children's Underwear Industry; and the Needlework and Fabricated Textile Products Industry in Puerto Rico."

2. Section 545.1 is amended to read:

§ 545.1 *Applicability.* The provisions of this part shall apply to persons in activities relating to homeworkers engaged in commerce or in the production of goods for commerce in the fabric and leather glove industry; the handkerchief, square scarf, and art linen industry; the children's dress and related products industry; the women's and children's underwear industry; and the needlework and fabricated textile products industry in Puerto Rico as defined in Parts 715, 716, 717, 718, and 719 of this chapter.[1]

3. Footnote 2 to § 545.3 (a) is amended to read:

[2] See § 545.13 for the schedule of piece rates prescribed in accordance with § 545.9. As an example of how to state the piece rate schedule designation, if "plain scallops" are to be made on articles in the "children's dress and related products industry," the full piece rate schedule designation would be "Operation 74, Col. 3."

4. Footnote 4 to § 545.7 (c) is redesignated footnote 5 and amended to read:

[5] See footnote 4.

5. Section 545.9 is amended to read:

§ 545.9 *Minimum piece rates prescribed by the Administrator.* Pursuant to the provisions of section 6 (a) (2) of the act, each homeworker shall be paid in lieu of the applicable hourly rate established by the wage orders for the fabric and leather glove industry; the handkerchief, square scarf, and art linen industry; the children's dress and related products industry; the women's and children's underwear industry; and the needlework and fabricated textile products industry, not less than the piece rates prescribed in § 545.13 for the operations described therein.

6. Delete footnote 5 to § 545.10 (a).

7. Section 545.13 is amended to read:

§ 545.13 *Piece rates established in accordance with § 545.9.*

SCHEDULE A—PIECE RATES SCHEDULE FOR THE WOMEN'S AND CHILDREN'S UNDERWEAR INDUSTRY, THE CHILDREN'S DRESS AND RELATED PRODUCTS INDUSTRY, AND THE BLOUSE AND NECKWEAR CLASSIFICATION OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO[1]

No.	Operation	Women's and children's underwear industry		Children's dress and related products industry	Blouse and neckwear classification, needlework and fabricated textile products industry	Unit of payment
		Silk and synthetic underwear (1)	Cotton underwear (2)	(3)	(4)	
		Cents	*Cents*	*Cents*	*Cents*	
1	Arenilla (seed stitch), close, 1/2" squares	42.00	37.80	42.00	48.00	Per dozen squares.
2	Arenilla (seed stitch), scattered, 1/2" squares	21.00	18.90	21.00	24.00	Do.
3	Arrows, filled in, 1/4"	10.50	9.45	10.50	12.00	Per dozen.
4	Back stitch on yokes, armholes, etc	[2] 23.33	[2] 21.00	33.33	40.00	Per yard.
5	Basting bias with cord	11.55	10.41	11.55	13.20	Do.
6	Basting darts before sewing	[2] 12.18	[2] 10.97	17.50	20.88	Do.
7	Basting for fagoting	3.16	2.85	3.16	3.61	Do.
8	Basting hems, 1" to 6" wide	[2] 7.00	[2] 6.30	10.00	12.00	Do.
9	Basting lace incidental to sewing on lace with solid cord stitch	6.05	5.44	6.05	6.91	Do.
10	Basting waist lines, plackets, and facings, 2 to 3 stitches per inch	[2] 4.38	[2] 3.95	6.26	7.50	Do.
11	Bias piping, joined, double, over 10 stitches per inch	14.00	12.60	14.00	16.00	Do.
12	Bias piping, joined, single, over 10 stitches per inch	17.50	15.75	17.50	20.00	Do.
13	Bias piping, second seam joined double, set flat on garment with running stitch	21.09	18.97	21.09	24.10	Do.
14	Blanket stitch, folding included, 18 stitches per inch	39.67	35.70	39.67	45.34	Do.
15	Buttons sewed on with double thread, 2 to 3 stitches	[2] 4.57	[2] 4.11	6.51	7.82	Per dozen.
16	Buttonhole, stamped, 3/4" long	[2] 15.10	[2] 13.58	21.54	25.85	Do.
17	Buttonholes, stamped, 1/2" long	[2] 20.07	[2] 18.06	28.69	34.42	Do.
18	Buttonhole stitch, close	31.50	28.35	31.50	36.00	Per yard.
19	Buttonhole stitch for joining seams	31.50	28.35	31.50	36.00	Do[3]
20	Cord, twisted, over basting	3.50	3.15	3.50	4.00	Per dozen inches.
21	Cutting material applied over lace with solid cord stitch	4.80	4.32	4.80	5.49	Per yard.
22	Cutting material under lace or at seams, straight outline, following handsewing operation	1.97	1.77	1.97	2.25	Do.
22.1	Cutting material under lace or at seams, straight outline following machine operations (formerly operation No. 93)	3.15	3.15	2.81	3.38	Do.
23	Dots, baby, not finished off, 2 to 3 stitches	2.92	2.64	2.92	3.34	Per dozen.
24	Dots, medium, not filled in, finished off, 8 to 9 stitches	4.62	4.18	4.62	5.28	Do.
25	Eyelets, up to 1/8" diameter	7.80	7.03	7.80	8.91	Do.
26	Eyelets, 3/16" diameter	14.00	12.60	14.00	16.00	Do.
27	Fagoting, straight lines	48.75	43.87	48.75	55.71	Per yard.
28	Fagoting, twisted lines	23.33	21.00	23.33	26.66	Do.
29	Feather stitch, 12 stitches per inch	23.33	21.00	23.33	26.66	Do.
30	Feather stitch cord	12.28	11.06	12.28	14.03	Do.
31	Flat fell seams, first seam by machine	[2] 13.67	[2] 12.30	19.51	23.42	Do.
32	Flat roll	[2] 10.62	[2] 9.55	15.14	18.17	Do.
33	French knots, not finished off	[2] 7.44	[2] 6.70	10.64	12.77	Do.
34	French seams, over 12 stitches per inch	3.27	3.27	3.27	[4] 3.27	Per dozen pasadas.
35	French seams, first seam by machine, 9 to 12 stitches per inch	58.78	52.90	69.72	78.68	Per yard.
36	Fuzzy, rectangular, sewed on with blind stitch, up to 1/2"	52.50	47.25	62.74	5.03	Per dozen inches.
37	Fuzzy, rectangular, sewed on with solid cord, cut-to-size, without tape	4.40	3.96	4.40	78.40	Per yard.
38	Guiriquenas	42.00	37.80	68.60	96.00	Per dozen squares.
39	Half roll (with colored or emb. thread)	3.50	3.15	84.00	31.82	Per yard.
40	Hemming stitch for felling, 2 to 3 stitches per inch	11.48	10.34	10.50	20.42	Do.
41	Hemming stitch for felling cuffs, collars, etc., not over 2 inches, 8 to 10 stitches per inch	26.12	[2] 15.66	8.74	8.75	Do.
42	Hemstitch double (tru-tru), 4 threads in a bundle, thread drawing not included	43.40	39.06	22.37	26.85	Do.
43	Hemstitch, single, 4 threads in a bundle, thread drawing not included	22.78	20.53	43.40	40.60	Do.
44	Lace, joined with hemming stitch	36.46	33.81	22.78	26.03	Do.
45	Lace, sewed on with hemming stitch or mind roll	17.50	15.75	36.46	41.67	Do.
46	Leaves, open, 1/2" long	14.00	12.60	17.50	20.00	Per dozen.
47	Leaves, open 3/8" to 1/2" long	21.00	18.90	14.00	16.00	Do.
48	Leaves, solid, not finished off, 1/2" long	3.31	3.31	21.00	24.00	Do.
49	Leaves, solid, not finished off, 3/4" to 1" long	4.65	4.20	3.31	4.20	Do.
50	Leaves, solid, not finished off, 3/4" to 1 1/2" long	7.00	6.30	4.20	5.34	Do.
51	Leaves, solid, finished off, 3/4" to 3/4" long	14.00	12.60	7.00	8.00	Do.
52	Loops, knitted, 14 inch	4.38	4.38	14.00	16.00	Do.
53	Loops, knitted, 1 inch	6.82	6.82	4.38	5.00	Do.
54	Lovers knots with buttonhole stitch	10.50	9.45	6.82	8.41	Do.
55	Mounting fagoting appliques, including pinning and basting to garment, first seam with running stitch, felled seam	41.82	37.66	10.50	12.00	Do.
56	Overcasting seam, 6 inch to 8 inches	[2] 7.44	[2] 6.70	41.82	47.79	Per yard.
57	Pasadas, 1 inch to 3 inches	3.27	3.27	10.64	12.77	Do.
58	Patches, sewed on with single point de ture	69.72	62.74	69.72	78.68	Per yard.
58.1	Patches, rectangular, sewed on with blind stitch, up to 1/2"	4.40	3.96	4.40	5.03	Per dozen inches.
58.2	Patches, sewed on with solid cord, cut-to-size, without tape included	68.60	61.74	68.60	78.40	Per yard.
59	Pin stitch, thread drawing not included, 1" squares	84.00	75.60	84.00	96.00	Per dozen squares.
60	Point de turc, double, with embroidery thread	31.82	31.36	31.82	39.80	Per yard.
61	Point de turc, plain, with embroidery thread	20.42	18.36	20.42	23.34	Do.
62	Raised bundles twisted but not tied, thread drawing not included	8.75	7.87	8.75	10.00	Do.
63	Randa, Don Gonzalez, thread drawing not included	36.75	33.06	36.75	42.00	Do.
64	Randa, Mexican, tied at center only, thread drawing not included	10.50	9.45	10.50	12.00	Do.
65	Ribbon work, setting ends of	[2] 4.80	4.32	4.80	5.48	Per dozen.
66	Rolling armholes and reboques	[2] 17.88	[2] 16.10	25.54	30.65	Per yard.
67	Rose buts, worm stitch, 4 worms, 1 or 2 colors or tones	10.40	9.36	10.40	11.88	Per dozen.
68	Running stitch on darts, 8 to 10 stitches per inch	[2] 8.75	[2] 7.89	8.75	15.00	Per yard.
69	Running stitch for felling, very close stitch	[2] 8.75	[2] 7.80	12.50	15.00	Do.
70	Running stitch on hems up to 1" wide, 12 stitches per inch	[2] 10.40	[2] 8.45	12.50	13.46	Do.
71	Running stitch on hems up to 1" wide, 8 to 10 stitches per inch	[2] 10.40	[2] 8.45	13.46	16.15	Do.

See footnotes at end of table.

[1] Persons engaged in activities relating to homeworkers in other industries in Puerto Rico are subject to Part 681 of this chapter.

SCHEDULE A—PIECE RATES SCHEDULE FOR THE WOMEN'S AND CHILDREN'S UNDERWEAR INDUSTRY, THE CHILDREN'S DRESS AND RELATED PRODUCTS INDUSTRY, AND THE BLOUSE AND NECKWEAR CLASSIFICATION OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO—Continued

No.	Operation	Women's and children's underwear industry		Children's dress and related products industry	Blouse and neckwear classification, needlework and fabricated textile products industry	Unit of payment
		Silk and synthetic underwear (1)	Cotton underwear (2)	(3)	(4)	
		Cents	*Cents*	*Cents*	*Cents*	
72	Running stitch on lace	8.29	8.35	10.64	10.64	Per yard.
73	Running stitch for plain sewing	14.89	14.89	12.50	15.00	Do.
74	Shadow stitch, up to 3/4" wide	35.38	31.69	35.21	40.26	Do.
75	Shell, 4 to 5 stitches per inch	67.67	60.90	67.67	77.34	Do.
76	Shirring, material to be measured before shirring	12.00	10.82	12.00	13.71	Do.
77	Shirring and basting lace edging, material to be measured after shirring	7.05	6.35	7.05	8.06	Do.
78	Shirring and basting lace edging with hemming stitch on straight outline, material to be measured after shirring	8.47	7.64	8.47	9.68	Do.
79	Shoulder straps, set with buttonhole stitch, 1 1/2" x 1/4", measured after turning, sewing up to 3/4" at each end at time	15.22	13.70	15.22	17.39	Do.
80	Size tickets set with hemming stitch, cutting tickets included	41.57	37.22			Per dozen straps.
81	Smocking	[2] 7.00	[2] 6.30	10.00	12.00	Per dozen inches.
82	Snaps, sewing on, both sides	[2] 7.00	[2] 6.30	.29	.33	Per dozen stitches.
83	Solid cord stitch on gores and embroidery	32.90	29.63	10.00	12.00	Per dozen.

SCHEDULE B—PIECE RATE SCHEDULE FOR THE HANDKERCHIEF, SQUARE SCARF, AND ART LINEN INDUSTRY IN PUERTO RICO[1]

No.	Operation	Piece rate (cents)	Unit of payment
	SCALLOP CUTTING		
187.4	Hand-cutting machine-embroidered, shallow, curved scallops on handkerchiefs or square scarves: Small, measuring from 5/16" up to, but not including 1/2", along outside edge.	0.26	Per dozen scallops.
187.5	Medium, measuring from 1/2" up to, but not including 3/4", along outside edge.	.33	Do.
187.6	Large, measuring from 7/8" to, and inclusive of, 1 1/4", along outside edge.	.49	Do.
	NEEDLEPOINT OPERATIONS [2]		
200	Compact florals, figures and landscapes	26.00	Per 1,000 stitches.
201	Scattered florals	28.00	Do.
202	Scattered florals consisting of borders or garlands only	30.00	Do.
203	Combinations of compact center and scattered borders in which the compact portion totals 45 percent or more of the total design.	28.00	Do.
204	Combinations of compact center and scattered borders in which the compact portion totals less than 45 percent of the entire design.	30.00	Do.
205	Two cents (2.0¢) must be added to the above piece rates to cover thumbtack mounting on frame for each piece of canvas. Employers using other methods must set individual rates for mounting and removing canvas in accordance with § 545.10.		

[1] For definitions of "hand embroidery" and "other operations" and current minimum wage rates, see applicable section of wage order.

[2] *Exceptions.* These piece rates do not apply to the following types of needlepoint. For these, and all other varieties of needlepoint not covered by the schedule and definitions, piece rates must be set by employers in accordance with Regulations 545.10.

1. Florals having more than 10,000 stitches.
2. Florals having more than 36 color tones.
3. Figures and landscapes having more than 3,000 stitches.
4. Figures and landscapes having more than 25 color tones.
5. Petit point.
6. Stamped grospoint.

Definitions. 1. A scattered design is one in which 50 percent or more of the component parts, when finished, are separated by spaces of unsewn canvas.

2. A compact design is one in which 50 percent or more of the finished piece contains no spaces of unsewn canvas.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 46]

REGULATIONS (OTHER THAN RULES OF PRACTICE) UNDER THE PERISHABLE AGRICULTURAL COMMODITIES ACT, 1930

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision of existing regulations, other than Rules of Practice (7 CFR, §§ 46.1–46.28) issued pursuant to the authority contained in the Perishable Agricultural Commodities Act, 1930 (46 Stat. 531 et seq., as amended; 7 U. S. C. 499 et seq.).

The proposed revision is intended to clarify the regulations and make various changes therein found advisable on the basis of experience in administering the Act.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed regulations should file the same with the Chief, Regulatory Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 60 days after publication hereof in the FEDERAL REGISTER.

The proposed regulations are as follows:

DEFINITIONS

Sec.
46.1 Words in singular form.
46.2 Definitions.

ADMINISTRATION

46.3 Director.

LICENSES

46.4 License required.
46.5 Application for license.
46.6 License fee.
46.7 Issuance of license.
46.8 Copies of licenses.
46.9 Termination of license; notice; renewal.
46.10 Nonlicensed person; penalty; settlement.
46.11 What constitutes valid license, form and use.
46.12 Forms of inscriptions.
46.13 Address, ownership, or membership changes.

ACCOUNTS AND RECORDS

46.14 General.
46.15 Record of produce received.
46.16 Lot numbers.
46.17 Sales tickets.
46.18 Returns, rejections, or credit memorandums on sales.
46.19 Accounting for produce sold for or on behalf of another.
46.20 Brokers.
46.21 Commission merchants.
46.22 Shippers or agents.
46.23 Conversion of funds.

46.28 Inspection of records.
46.29 No disclosure of business of licensee.

SUSPENSION AND REVOCATION OF LICENSES

46.30 Suspension or revocation order.

PUBLICATION OF FACTS

46.31 Publicity.

TRADE TERMS AND DEFINITIONS

46.32 Terms construed.

SUNDAYS AND HOLIDAYS

46.33 Sundays and holidays excluded.
46.34 Sundays and holidays included.

INSPECTION OF COMMODITIES

46.35 Inspection of commodities.

INSPECTION SERVICE

46.36 Inspection service.

LICENSEE'S RESPONSIBILITY FOR ACTS OF EMPLOYEES AND AGENTS

46.37 Licensee's responsibility for acts of employees and agents.

COPIES OF RECORDS

46.38 Copies of records; how obtained.

AUTHORITY: §§ 46.1 to 46.38 issued under sec. 15, 46 Stat. 537, as amended; 7 U. S. C. 499o.

DEFINITIONS

§ 46.1 *Words in singular form.* Words in this part in the singular form shall be deemed to import the plural, and vice versa, as the case may demand.

§ 46.2 *Definitions.* The terms defined in section 1 of the act shall have the same meaning as stated therein. Unless otherwise defined, the following terms whether used in the regulations, in the act, or in the trade shall be construed as follows:

(a) "Act" means the Perishable Agricultural Commodities Act, 1930, approved June 10, 1930, and legislation supplementary thereto and amendatory thereof (46 Stat. 531; 7 U. S. C. 499a–499r);

CROSS REFERENCE: For Rules of Practice under the act, see Part 47 of this chapter.

(b) "Department" means the United States Department of Agriculture.

(c) "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(d) "Service" means the Agricultural Marketing Service, United States Department of Agriculture.

(e) "Deputy Administrator" means the Deputy Administrator for Marketing Services, or any officer or employee of the Service, to whom authority has heretofore lawfully been delegated, or to whom authority may hereafter lawfully be delegated, to act in his stead.

(f) "Division" means the Fruit and Vegetable Division of the Service.

(g) "Director" means the Director of the Division or any officer or employee of the Division to whom authority has heretofore lawfully been delegated, or to whom authority may hereafter lawfully be delegated by the Director to act in his stead.

(h) "In commerce" means interstate or foreign commerce as defined in section 1 (3) and (8) of the act.

(i) "Licensee" means any person who holds an unrevoked and valid unsuspended license issued under the act.

(j) "Inspector" means any person authorized or licensed by the Secretary to inspect any perishable agricultural commodity.

(k) "Produce" means any perishable agricultural commodity, as defined in section 1 (4) of the act.

(l) "Fresh fruits and fresh vegetables" include all products generally considered by the trade as perishable fruits and vegetables, whether or not frozen or packed in ice and whether or not held in common or cold storage, but does not include those perishable fruits and vegetables which have been dried or manufactured into articles of food of a different kind or character. Blanching, chopping, color adding, curing, cutting, dicing, drying for the removal of surface moisture, fumigating, gassing, heating for insect control, ripening and coloring, husking, icing, peeling, polishing, precooling, refrigerating, shredding, slicing, trimming, washing with or without chemicals, waxing, adding of sugar or other sweetening agents, and ascorbic acid or other agents used to retard oxidation, or the mixing of several kinds of sliced, chopped, or diced fruit or vegetables for packaging in any type of containers, or comparable methods of preparation, where the product is not processed by heat to assure preservation shall not be considered a change into a food of a different kind or character.

(m) "Cherries in brine" means cherries packed in an aqueous solution containing sulphur dioxide or other bleaching agent of sufficient strength to preserve the product, with or without the addition of hardening agents.

(n) "Wholesale or jobbing quantities" as used in section 1 (6) of the act means aggregate quantities of all produce totaling one ton (2,000 pounds) or more in weight per day shipped or received or contracted to be shipped or received.

(o) "Truly and correctly to account" means, in connection with (1) consignments, to account promptly by rendering a true and correct itemized statement showing separately the receipts from the sale or other disposition of the produce, and the proper, usual or specifically agreed selling charges and expenses necessarily and actually incurred or agreed to in the handling thereof; (2) joint account transactions, to account promptly by rendering a true and correct itemized statement showing separately the receipts from the sale or other disposition of produce, the cost of the produce, and the expenses necessarily and actually incurred or other charges specifically agreed to in the handling thereof; and (3) buying brokerage transactions, to account promptly by rendering a true and correct itemized statement showing separately the cost of the produce and expenses necessarily and actually incurred and the amount of brokerage charged.

(p) "Account promptly" means rendering a true and correct accounting (1) within 10 days after the date of final sale in connection with consignment or joint account transactions; (2) within 24 hours after the date of shipment in connection with buying brokerage transactions where the broker pays for the produce; or (3) within such other period as may have been specifically agreed upon by the parties.

(q) "Full payment promptly" means (1) Payment of the net proceeds for produce received on consignment or the pro rata share of the net profits for produce received on joint account within 10 days after the day on which the final sale is made; (2) payment of deficits on consignment or joint account transactions within 10 days after the day on which the accounting is received; (3) payment of the purchase price, including brokerage and other expenses, to buying brokers who pay for the produce, within 10 days after the day on which the invoice is received by the buyer; (4) payment of brokerage charges earned in connection with produce purchased or sold within 10 days after the day on which the invoice is received by the principal; (5) payment for produce purchased by a buyer, within 10 days after the day on which the produce is accepted without complaint by the buyer; (6) in the case of selling agents or brokers selling in carlot quantities for the account of a shipper, payment will be due the shipper within 10 days after the buyer or receiver pays the agent or broker; *Provided*, That if there is a dispute concerning the transaction, the foregoing time periods apply only to the undisputed amount, if any; or such other period as may have been specifically agreed upon by the parties. Payment in connection with any transaction or situation not specifically covered herein shall be made within a reasonable time.

(r) "Reject without reasonable cause" means in connection with purchases, consignments, or joint account transactions (1) refusing or failing without legal justification to accept produce within a reasonable time, (2) advising the seller or shipper or his agent that produce will not be accepted in accordance with the contract, or (3) indicating an intention not to accept produce through an act or failure to act inconsistent with the contract.

(s) "Reasonable time," as used in paragraph (r) of this section, means (1) for frozen produce with respect to rail shipments, 48 hours after the receiver is given notice of arrival and the produce is made accessible for inspection, and with respect to truck shipments, not to exceed 12 hours after the receiver is given notice of arrival and the produce is made accessible for inspection; (2) for fresh produce, with respect to rail shipments, not to exceed 24 hours after the receiver is given notice of arrival and the produce is made accessible for inspection; and with respect to truck shipments, not to exceed 8 hours after the receiver is given notice of arrival and the produce is made accessible for inspection; and, with respect to boat shipments, not to exceed 24 hours after the produce is unloaded and made accessible for inspection. These time periods may be extended if the receiver requests Federal inspection of the produce within the applicable period for the purpose of ascertaining whether the shipment complies with the contract specifications and notifies the shipper of his potential complaint and his request for inspection within 2 hours after such request has been made. If the receiver cannot obtain Federal inspection or make personal inspection within 24 hours following notice of arrival, due to the unavailability of inspectors, adverse weather conditions, or other causes, he shall notify the seller of the situation within 2 hours after such fact is known. Inspection shall be made or caused to be made by the receiver as soon as possible after the receipt of such notice of arrival. In no event shall the time be extended beyond 48 hours after the receiver is given notice of arrival. In computing the time periods specified above, (i) for shipments arriving on nonworkdays or after the close of business on workdays, nonworking hours preceding the start of business on the next working day shall not be included; and (ii) for shipments arriving during working hours, the period shall run without interruption from the time of arrival except that, for shipments arriving less than 2 hours before the close of business, the unexpired balance of the time period shall be extended and run from the start of business on the next working day.

(t) "Acceptance" means (1) any act by the purchaser signifying his acceptance to the seller; (2) any act by the purchaser which is inconsistent with the seller's ownership, but if such act is wrongful against the seller it is acceptance only if ratified by him; (3) failure of the purchaser to reject the produce and give notice of rejection to the seller within a reasonable time as defined in paragraph (s) of this section; (4) failure of the purchaser to apply for Federal inspection of the produce within a reasonable time, as defined in paragraph (s) of this section, and to take action to notify the seller of his rejection of the produce within 2 hours after he has received either an oral or a written report of the results of such inspection; and (5) in case inspection cannot be made, as referred to in paragraph (s) of this section failure of the purchaser to notify the seller, within 24 hours after receipt of notice of arrival of the produce, as to the conditions which prevent inspection and to notify the seller of his rejection immediately after inspection can be made, shall constitute acceptance of the produce: *Provided, however*, That such acceptance shall not affect any claim for damages because of failure of the produce to meet the terms of the contract.

(u) "Responsible position" means (1) a position in which the person is authorized to negotiate contracts of purchases, sales, consignments or joint account transactions of produce (excluding floor salesmen or other local salesmen making sales at predetermined prices who operate under direct supervision and handle only local sales in less than carlot quantities and other comparable positions in relation to operations of the licensee); or (2) a position of general supervisory nature, including one having responsibility for office management or supervision of the preparation of account sales and/or the maintenance of records required by the act; or (3) any other position in which the person, through exercise of his own judgment or initiative, has authority to bind or commit his employer by his acts.

(v) "Responsibly connected" means the owner, any general partner, officer, director, holder of more than 10 percent of the stock, or any other person who, through the exercise of his own judgment or initiative, was responsible for violations of the act resulting in the suspension or revocation of a license.

ADMINISTRATION

§ 46.3 *Director.* The Director shall perform for and under the supervision of the Secretary and the Deputy Administrator, such duties as the Secretary or the Deputy Administrator may require in enforcing the provisions of the act and the regulations issued thereunder.

LICENSES

§ 46.4 *License required.* No person shall at any time carry on the business of a commission merchant, dealer, or broker without a license which is valid and effective at such time.

§ 46.5 *Application for license.* Any person who desires to secure a license to carry on such business shall make application therefor on the currently approved form to be obtained from the Director or his representatives. The ap-

plication shall be signed by the owner, all partners, or, in the case of a corporation, an official duly authorized to do so. An application which does not contain all of the required information shall not be considered as a valid application for license. A license obtained through a false or misleading statement or through misrepresentation, concealment, or withholding of facts is subject to revocation. The application and fee shall be forwarded to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C. The date of any application shall be the date it is received by the above office.

§ 46.6 *License fee.* Effective February 1, 1957, and thereafter, the annual license fee shall be twenty-five dollars ($25). The fee submitted by mail shall be in the form of a money order, bank draft, cashier's check, or certified check made payable to the Agricultural Marketing Service. Thereafter the annual fee shall be remitted in the same manner. In addition to the forms specified above, field representatives of the Department may accept payment in cash and issue a receipt therefor.

§ 46.7 *Issuance of license.* Upon receipt of a properly prepared application accompanied by the proper fee for a license, the Secretary shall, if the applicant is found to be eligible, issue a license certifying that the licensee is authorized to engage in the business of a commission merchant, dealer, or broker. The fee so tendered, together with any accrued fees and any penalty assessed by the Secretary in accordance with the provisions of the act, shall be deposited as soon as practicable in a special fund designated as the "Perishable Agricultural Commodities Act fund." If the license is denied, the sum paid shall be refunded to the applicant. Fees received for either renewal of or reinstatement of a license shall be handled in the same manner as other fees mentioned in this section.

§ 46.8 *Copies of licenses.* Copies of licenses may be issued upon request and upon the payment of a fee of $2 for each copy. Each copy shall bear the word "Copy" in conspicuous letters on its face and shall be certified by the Director as a true copy of the original.

§ 46.9 *Termination of license; notice; renewal.* Thirty days or more prior to the anniversary date of a valid and effective license, the Director shall mail a notice to the licensee at the latest address known to the Director, advising that the license will automatically terminate on its anniversary date unless the annual fee is paid on or before such date. If the annual fee is not paid by the anniversary date the licensee may obtain a renewal of that license at any time within thirty days by paying the annual fee, plus five dollars ($5.00). Within sixty days after termination date of a valid and effective license, the licensee shall be notified that its license has been terminated. No termination notice shall be mailed to a licensee whose license is at that time under suspension due to failure to pay one or more reparation orders on which appeals have not been perfected, or whose license has been suspended because of refusal to make its records available for examination, or whose license has been revoked.

§ 46.10 *Nonlicensed person; penalty; settlement.* Any commission merchant, dealer, or broker who violates the act by engaging in business subject to the act, without a valid and effective license, may settle his liability for the penalty prescribed in 3 (a) of the act by submitting an explanation satisfactory to the Secretary showing that the violation was not willful but was due to inadvertance and by paying the amount of fees due for the period covered by such violation, plus such additional amount not in excess of $25.00 as may be determined by the Director. The fees accrued shall be computed on the basis of 1/12 of the annual license fee in effect at the time of the violation for each month or fraction thereof the applicant engaged in business without a license. In the absence of an explanation satisfactory to the Secretary, any person who engages in business subject to the act shall be liable to a penalty of not more than $500 for each such offense and not more than $25 for each day it continues.

§ 46.11 *What constitutes valid license, form and use.* Each license shall bear a serial number, the facsimile signature of the Secretary, the seal of the Department and shall be countersigned by a duly authorized representative of the Secretary. The licensee may place upon his stationery, trucks, or business sign an inscription indicating that he is licensed under the act, but such inscription shall not be of such form or arrangement as to be deceptive or misleading to the public, nor shall any such inscription be displayed or used unless the person using the inscription has a license valid and effective at the time. Such inscription on vehicles or other equipment shall be removed by the licensee prior to sale or transfer.

§ 46.12 *Forms of inscriptions.* The following inscriptions, for use with or without the license number, meet the foregoing requirements and may be used by licensees: "Licensed by the U. S. Department of Agriculture under the Perishable Agricultural Commodities Act", or "Licensed under the PACA."

§ 46.13 *Address, ownership, or membership changes.* The licensee shall promptly inform the Director of any change of address and of any change in the officers, holders of more than 10% of the stock of a corporation, partners, ownership, or name in which the business is conducted. In case of a change in the ownership of a business; a change in the name of a corporation; a change in the members of a partnership, a new license is required. Separate licenses are required for each subsidiary, branch, or affiliated firm that is a separate legal entity, whether or not business is conducted in one or more names different from the licensed parent company. Where such subsidiary or affiliated firm, which is not a separate legal entity, is wholly owned by the parent company but is operated under a different name than the parent company, a separate license shall not be required, providing, in the case of corporations, a resolution of the Board of Directors of the parent company shall be submitted to the Secretary, assuming responsibility for any violation of the Act committed by the subsidiaries, branches, or affiliated firms. Where the parent firm is individually owned or is a partnership, a notarized statement shall be signed by the owner or all partners and submitted to the Secretary, assuming responsibility for any violation of the Act committed by its subsidiaries, branches, or affiliated firms. All business forms of each subsidiary, branch or affiliated firm shall clearly show its affiliation with the parent firm.

ACCOUNTS AND RECORDS

§ 46.14 *General.* Every commission merchant, dealer, and broker shall prepare and preserve for a period of two years from the closing date of the transaction the accounts, records, and memoranda required by the act, which shall fully and correctly disclose all transactions involved in his business, including the true ownership of such business by stockholding or otherwise. Licensees shall keep records which are adapted to the particular business that the licensee is conducting and in each case such records shall fully disclose all transactions in the business in sufficient detail as to be readily understood and audited. So many different types of business are conducted in the produce industry and so many different types of contracts are made performing such a wide range of services by agents and others, it is impracticable to specify in detail every class of records which may be found essential. The responsibility is placed on every licensee to determine carefully what must be properly recorded in order to disclose every essential fact regarding the transactions in the business. The specific records set out below are illustrations of some of the essential records required in certain types of business and are not to be considered as a complete listing of the records required by the act.

§ 46.15 *Record of produce received.* Each licensee shall keep in the order of receipt a record of all produce received and this record shall be in the form of a book with numbered pages or comparable business machine record. This record shall clearly show for each lot the date of arrival and unloading; whether received by freight, express, truck, or otherwise; the car initials and number; the truck license number and the driver's name or the name of the trucking firm; the number of packages or the quantity received; the kind of produce; the name and address of the consignor or seller; whether the produce was purchased, consigned, or received on joint account; and the disposition of the produce, whether jobbed or sold in carlots or trucklots, and the lot number assigned to the shipment by the receiver (as required by § 46.16).

§ 46.16 *Lot numbers.* Every licensee shall assign a lot number to each shipment of produce to be sold on consignment or joint account or for the account of another person or firm, including shipments in dispute between the parties. A lot number shall also be assigned to each purchased shipment of similar produce on hand at that time or received later while the consigned or joint account or disputed lot is being sold. A lot number shall be assigned to each purchased shipment which is reconditioned if the seller is to be charged with the shrinkage or loss. The lot number shall be entered on the receiving record in connection with each shipment and entered on all sales tickets identifying and segregating the sales from the various shipments on hand. The lot number shall be entered on the sales tickets by the salesmen at the time of sale or by the produce dispatcher, and not by bookkeepers or others in the licensee's firm after the sales have been made. No lot number shall be repeated within a period of 30 days after the last sale from the preceding lot to which such number was assigned.

§ 46.17 *Sales tickets.* Sales tickets shall bear printed serial numbers running consecutively and shall be used in numerical order insofar as practicable. No serial number shall be repeated within a 90-day period. The sales tickets shall be prepared and all the details of the sales shall be entered on the tickets in a legible manner in order that an audit can be readily made. Erasures, strike-outs, changes, etc., shall be held to the minimum. When errors are made in preparing sales tickets, the tickets should be voided. Each sales ticket shall show the date of sale, the purchaser's name (so far as practicable), the kind, quantity, the unit price, and the total selling price of the produce. In addition, each sales ticket shall show the lot number of the shipment if the produce is being handled on consignment or on joint account or is similar to such a lot on hand at the same time. The original or a legible carbon copy of each sales ticket, including those voided or unused, shall be accounted for and shall be filed or stored either by dates of sales or in the order of the serial numbers for a period of two years.

§ 46.18 *Returns, rejections, or credit memorandums on sales.* In the event of the rejection and return of any produce sold for or on behalf of another on consignment or joint account, or of any necessary allowance or adjustment being made to the buyers thereof, a credit memorandum showing the buyer's name, sales ticket number, lot number, date of the granting of the allowance, and amount of the credit or adjustment, with reasons therefor, shall be made and filed with the original sales ticket, or a notation shall be made on the original sales ticket referring to the adjustment and showing where the credit memorandum is filed. The credit memorandum shall be on a regular form or on a sales ticket or invoice properly completed to show the facts and shall be approved by a duly authorized person or a member of the firm. The credit memorandum shall be entered in the same records as the original sales ticket, otherwise it cannot serve to alter or affect the original sales ticket.

§ 46.19 *Accounting for produce sold for or on behalf of another.* All licensees who accept produce for sale on consignment or on joint account are required to exercise the care and diligence of a reasonable and prudent businessman in disposing of the produce promptly and in a fair and reasonable manner. Accurate and detailed accountings showing dates of sale shall be rendered to the consignor or joint partner not later than 10 days from the date of the last sale together with payment of the net proceeds, unless a longer time is specifically agreed to by the consignor or joint partner. Since the discarding or dumping of produce received on joint account, on consignment, or handled for or on behalf of another person, without reasonable cause, is one of the unfair practices prohibited by the act, a clear and complete record shall be maintained on dumping if a substantial portion of such produce cannot be sold due to poor condition or is lost through re-sorting or reconditioning. An official dumping certificate, or other adequate evidence, shall be obtained to prove the produce was actually lost, and the original certificate or other adequate evidence of dumping shall be forwarded to the consignor or joint account partner with the accounting and a copy shall be retained by the receiver, unless there is a specific agreement to the contrary between the parties. Averaging of sales or the pooling of such produce is not permitted in accounting to the consignor or joint account partner unless a specific written agreement to this effect prior to the accounting is arranged between the parties involved. The receiver of consigned or joint account produce shall not take title to any portion of such produce without the consent of the consignor or joint account partner. Furthermore, his records and the accounting shall clearly show this fact and no commission or brokerage can be charged for this portion of the produce. If a licensee sells or otherwise disposes of any produce, the handling or sale of which is entrusted to him, to any person in whose business such licensee or any stockholder, owner, officer, or salesman thereof, has a financial interest, such licensee shall disclose such fact in accounting to the owner or consignor of the produce, and is not entitled to a commission on such sales, unless a specific agreement to the contrary is made with the parties involved. Double commissions are not permitted and a receiver of consigned produce shall not employ another firm to dispose of all or part of such produce without specific prior authority of the consignor. Commission charges should be discussed and specifically agreed upon before accepting consigned produce, otherwise, the receiver is entitled to charge not more than the usual or customary commission charges for that market or area. All handling, reconditioning, dumping, unloading, delivering, freight charges, etc., deducted by the receiver shall be supported by proper evidence of payment, otherwise, such charges are not deductible.

§ 46.20 *Brokers.* The function of a broker is to negotiate, for and on behalf of others, valid and binding contracts. It shall be the duty of the broker to fully inform all parties concerning the terms and conditions of the proposed contract, and to make certain that the parties agree to the same terms and conditions. When a contract has been effected, the broker shall immediately prepare and deliver to all parties a properly executed confirmation or memorandum of sale setting forth all essential details of the agreement between the parties. The broker shall retain a copy of such confirmations or memoranda as part of his accounts and records. If the broker does not issue and deliver these documents to the proper parties, and his records do not fully support his contentions that a binding contract was made with proper notice to the parties, the broker may be held liable for any loss or damage resulting from such negligence or failure to perform his express or implied duty. Brokers shall take into consideration the method of confirmation which properly should be used in view of all of the circumstances of the transaction. If shipment is to be made before mail could be delivered to all of the parties involved in the contract, confirmation shall be made by telegram to the parties located in another city and confirmation shall be promptly delivered either personally or by messenger to the local parties. Brokerage fees may be charged to only one of the parties to the contract (unless by mutual agreement the parties agree to split the brokerage fee) and if a brokerage fee is charged to both parties (each assuming the other has not paid the brokerage fee) such action by the broker will be considered a violation of the act. Brokers employed to negotiate the sale of produce may not employ another broker or selling agent when additional brokerages are involved without specific prior authority from their principal. When a shipment is handled by more than one broker, the final accounting to the owner of the produce by the broker or selling agent must show the actual gross sale and all brokerages deducted as well as all other charges incurred in connection with the shipment. Brokers who operate in a dual capacity, both as brokers and as dealers, shall clearly disclose their status in each transaction to all of the parties with whom they are dealing. When such a broker purchases produce as a dealer, he is not entitled to request or receive a brokerage fee from the seller or to charge a brokerage fee to his customer when reselling the produce. A broker is not considered to be entitled to a brokerage fee unless he effects a sale or makes a valid and binding contract, fully performing his duties as a broker. Statements by a broker indicating that a sale has been made, when in fact no enforceable contract has been entered into, may subject the broker to a complaint alleging false or misleading statements in violation of the act. However, failure on the part of the seller or the buyer to fulfill their contractual obligations after a valid and binding contract has been effected by the broker, does not excuse failure to pay the brokerage fee due the broker. Brokers who collect funds for or on behalf

of another shall promptly remit such funds and undue delay in this respect is a violation of the act. Brokers shall at all times exercise care to protect any claim rights against the carriers due the owners of the produce. If a broker agrees to file and handle such a claim for the benefit of the owner of the produce, the claim shall be filed promptly, supported by adequate evidence, and the broker shall follow up with the carrier on the claim. When settlement of the claim is effected, the broker shall promptly remit the net amount due the owner, after deducting the agreed or customary charges for handling the claim. Adequate information shall be furnished the owner regarding the claim while the matter is being handled with the carrier. If the owner files the claim, the broker shall promptly furnish any necessary information requested by the owner that is available in the records of the broker. When a broker or dealer acts as agent for a shipper in the sale of produce at auction, the broker shall report to the auction company for listing in its catalogue the beneficial or true owner, with the option of showing that he is acting in the capacity of agent. If a broker instructs the auction company to catalogue a shipment in his name without disclosing its true ownership, he shall be deemed to have made a false or misleading statement under the act.

§ 46.21 *Commission merchants.* A licensee handling produce for or on behalf of another shall not employ another commission merchant or dealer to sell the produce or divert the shipment to another market without the specific consent of the consignor or owner. Any additional expenses, such as extra commission or freight or handling charges, resulting from such action, will not be permitted in the absence of proof of such consent. If such charges are incurred and deducted without clearly showing these items of expense on the accounting rendered the owner or consignor of the produce, such accounting shall be deemed fraudulent. Before accepting produce on consignment, the parties should reach a specific agreement on the amount of commission and other charges which will be assessed by the commission merchant. In the absence of such an agreement, only the usual and customary commission and other charges will be permitted. A commission merchant may not purchase produce consigned to him, or sell such produce to any person or firm in whose business he has a financial interest, without the full knowledge and consent of the consignor of the shipment and with a specific agreement as to the price to be paid by the commission merchant. However, produce may be purchased by the commission merchant to clean up remnants of shipments so accountings will not be unduly delayed, provided the owner or consignor is fully informed when the accounting is rendered. "Remnants", as used here, means small quantities remaining after the bulk of the shipment has been sold but shall not exceed 5 percent of the shipment. When consigned produce is purchased or is sold to any person or firm in whose business the commission merchant has a financial interest, he shall not charge a commission for this portion of the sales. When rendering account sales for produce handled for or on behalf of another an accurate and itemized report of sales must be made and averaging or pooling of sales is not permissible without the specific written consent of the owner of the produce prior to the accounting. Complete and detailed records shall be prepared and maintained by all commission merchants covering sales, quantities lost, dates and cost of repacking or reconditioning, unloading, handling, freight or demurrage charges, or any other expenses which are deducted on the accounting. All charges which cannot be supported by proper evidence in the records of the commission merchant shall not be deducted. In respect to the handling of claims with carriers on consigned produce, before any action is taken by the commission merchant a specific agreement must be reached with the consignor. If the commission merchant is authorized to file the claim, he shall exercise all the care of a reasonable and prudent businessman to protect the interest of the consignor by filing the claim promptly in the proper amount with adequate evidence, and diligently follow up with the carrier on the matter. When settlement of the claim is effected, he shall promptly remit the net amount due the consignor, after deducting the agreed handling charges. Full and complete information shall be furnished the consignor while the claim is being handled. If the consignor is to file the claim, the commission merchant must take all necessary steps to protect the claim rights of the consignor and shall promptly furnish all necessary information and evidence from his records to enable the consignor to file a proper claim. The commission merchant may be held liable for any financial loss resulting to the consignor due to his careless or negligent handling or failure to perform any specific or implied duty in such matters.

§ 46.22 *Shippers or agents.* Licensees who act as agents or whose operations as joint partners include harvesting, grading, packing or processing, or the furnishing of packages or other supplies, or the selling, storing or distributing of such produce shall prepare and maintain a number of special records not required of other licensees. It may be necessary for these records to show clearly the character and quantity of the produce received from each owner, consignor, or patron, and the result of all grading and packing operations on each lot of produce, including the cost of materials, disposition of culls, selling prices, allowances or adjustments granted buyers, results of claims filed with carriers, rejections, detailed accounting rendered any financially-interested party and other essential details depending on the contract between the parties.

§ 46.23 *Conversion of funds.* Any licensee who collects or receives funds for or on behalf of another person or firm in connection with produce shall not make any use or disposition of such funds in his possession or control that will endanger or impair faithful and prompt payment to the owner or consignor of the produce or to any other person having a financial interest therein.

§ 46.24 *Dumping of produce.* Reasonable cause for destroying any produce exists when the commodity has no commercial value or when it is dumped by order of a local health officer or other authorized official or when the shipper has specifically consented to such disposition. The term "commercial value" means any value that a commodity may have for any purpose that can be ascertained by the exercise of due diligence without unreasonable expense or loss of time. When produce is being handled for or on behalf of another person, proof as to the quantities of produce destroyed or dumped shall be provided by procuring a dumping certificate from (a) any person authorized by the United States Department of Agriculture to inspect fruits and vegetables; (b) any health officer or food inspector of any State, county, parish, city, or municipality or of the District of Columbia; (c) any established commercial agency or service making inspections for the fruit and vegetable industry; or (d) when, and only when, no inspector or health officer, designated in (a), (b) or (c) of this section, is available, the inspection and certification provided in this section may be made by any two persons having no financial interest in the produce involved or in the business of any person financially interested therein, and who are unrelated by blood or marriage to any such financially interested person, and who, at the time of the inspection and certification, and for a period of at least one year immediately prior thereto, have been engaged in the handling of the same general kind or class of produce with respect to which the inspections and certification are to be made. Any certificate issued by any persons designated in paragraph (d) of this section shall include a statement that each of them possesses the requisite qualifications. Any such certificate shall properly indentify the produce by showing the commodity, lot number, brand or principal identifying marks on the containers, quantity dumped, name and address of shipper, name and address of applicant, condition of the produce, and a statement that the produce possesses no commercial value.

§ 46.25 *Documents to be preserved.* Bills of lading, diversion orders, paid freight and other bills, car manifests, express receipts, confirmations and memorandums of sales, letter and wire correspondence, inspection certificates, invoices on purchases, receiving records, sales tickets, copies of statements (bills) of sales to customers, accounts of sales, papers relating to loss and damage claims against carriers, records as to reconditioning, shrinkage and dumping, daily inventories by lots, a consolidated record of all rebates and allowances made or received in connection with shipments handled for the account of another, an itemized daily record of cash receipts, ledger records in which sales as shown by sales tickets can be verified, and all other pertinent papers relating to the shipment, handling, delivery and sale of each lot of produce shall be preserved and filed for a period of 2 years.

§ 46.26 *Records of retailers.* Notwithstanding the specific records and documents prescribed in the foregoing sections, licensees who purchase produce solely for sale at retail shall establish and maintain accounts and records, adapted to their type of operations, which will fully and correctly disclose all transactions relating to the purchase of produce. Such accounts and records should include the date of receipt of each lot, kind of produce, number of packages and quantity, price paid, evidence of agreement or contract of purchase, bills of lading, paid bills, and any other documents relating to the purchase of produce.

§ 46.27 *Method of preservation or storage of records.* All records required to be preserved under the act shall be stored in an orderly manner and in keeping with sound business practices. The records being currently used shall be filed in order of dates, by serial numbers, alphabetically or by any other proper method which will enable the licensee to promptly locate and produce the records. Records in dead storage should be carefully arranged in an orderly fashion, be packaged or wrapped to insure proper preservation, be marked or identified to insure easy access, and stored in a clean, safe, dry location on the licensee's premises for a minimum period of 2 years. When part of the records are forwarded to others (such as accountants, traffic agencies, attorneys, etc.), proper notations should be filed in appropriate places in the records clearly identifying the missing records and stating where they can be located.

§ 46.28 *Inspection of records.* Each licensee shall, during ordinary business hours, permit any duly authorized representative of the Department to enter his place of business and inspect such accounts, records, and memoranda as may be material (a) in the investigation of complaints under the act, or (b) to the determination of ownership, control, packer, or state, country or region of origin in connection with commodity inspections, or (c) to ascertain whether there is compliance with section 9 of the act. If any licensee refuses to permit such inspection, the Secretary may publish the facts and circumstances and/or by order, suspend the license of the licensee until permission to make such inspection is given. Each licensee shall have present on his premises during ordinary business hours at least one person duly authorized to permit such inspection. Failure to make the records available upon demand will be considered as refusal by the licensee. Any necessary facilities for such inspection shall be extended to such representatives by the licensee, his agents, and employees.

§ 46.29 *No disclosure of business of licensee.* No representative of the Department shall, without the consent of the licensee, divulge or make known, except to financially interested parties, or to other representatives of the Department who may be required to have such knowledge in the regular course of their official duties, or except insofar as he may be directed by the Secretary, the Judicial Officer, the Deputy Administrator, the Director, or by a court of competent jurisdiction, any facts or information regarding the business of such licensee which may come to the knowledge of such representative through an examination or inspection of the business or the accounts of the licensee, unless such facts or information should be testified to at a hearing authorized by the act because they are relevant and material to the issue in the case being heard.

SUSPENSION AND REVOCATION OF LICENSES

§ 46.30 *Suspension or revocation order.* (a) Whenever the Secretary shall order the suspension or revocation of a license, the person against whom such order is directed shall be served by the Hearing Clerk with a copy of the order, and be notified of the effective date thereof.

(b) Except in the case of any license automatically suspended by the act, a reasonable time, which shall not be less than 10 days between the date of service of the order of suspension or revocation and the date upon which such order becomes effective, shall be allowed, during which period the licensee may make all necessary arrangements with some other person, who has a valid and effective license to safeguard the interests of consignors or other innocent parties whose property or business may be affected by such suspension or revocation and during which the licensee may terminate his affairs and business relating to the handling of produce.

(c) After the revocation of his license or during the effective period of any suspension thereof, no person shall, either directly or indirectly, through any agent, employee, or otherwise, carry on the business of a commission merchant, dealer, or broker until his status as a licensee has been restored.

(d) The suspension or revocation of a license shall not prevent the licensee from collecting amounts due on his contracts or in connection with transactions occurring prior to the date of suspension or revocation in which he acted as an agent or from remitting the same promptly to his principals and obligees.

PUBLICATION OF FACTS

§ 46.31 *Publicity.* Upon the issuance by the Secretary of an order awarding reparation or revoking or suspending a license, or in case of automatic suspension of a license for failure to pay a reparation award, the Director shall cause general publicity to be given to such fact, in order that those doing business with the licensee against whom reparation has been awarded or whose license has been revoked or suspended may take due notice thereof.

TRADE TERMS AND DEFINITIONS

§ 46.32 *Terms construed.* Unless otherwise defined, the following terms when included in a contract or communication involved in any investigation made or hearing held pursuant to the act shall be construed, respectively, as follows:

(a) "Today's shipment," or shipment on a specified date (such as "shipment September 12"), means in connection with shipments by rail, that the goods referred to shall be under billing by the transportation company on the date the order is given or on the date specified in time to be picked up by a train scheduled to move that day's loadings from the shipping point: *Provided,* That such train shall leave the first pick-up point on its schedule before midnight of the day the order is given. When used in connection with shipments by boat, this term shall mean that the goods shall be placed alongside the boat and be under billing in time to be loaded and shipped on a boat scheduled to leave before midnight of the date specified. When used in connection with shipments by truck, this term shall mean that the goods shall be loaded and shall actually start from loading point to destination before midnight of the date specified.

(b) "Tomorrow's shipment" or "Immediate shipment" means that the shipment referred to shall be under billing by the transportation company in time to move on a transportation facility scheduled to leave not more than 24 hours later than allowed under "Today's shipment."

(c) "Quick shipment" means that the conditions of the offer, order, or confirmation will be met if the shipment is under billing by the transportation company in time to move on a transportation facility scheduled to leave not more than 48 hours later than allowed under "Today's shipment."

(d) "Prompt shipment" means that the conditions of the offer, order, or confirmation will be met if the shipment is under billing by the transportation company in time to move on a transportation facility scheduled to leave not more than 72 hours later than allowed under "Today's shipment."

(e) "Shipment first part of week" or "Shipment early part of week" means that the produce referred to shall be under billing by the transportation company in time to move on a transportation facility scheduled to leave Monday or Tuesday of the week specified, subject to the same provisions with reference to shipments picked up after midnight of the day specified as apply to "Today's shipment."

(f) "Shipment middle of week" means that the produce referred to shall be under billing by the transportation company in time to move on a transportation facility scheduled to leave Wednesday or Thursday of the week specified, subject to the same provisions with reference to shipments picked up after midnight of the day specified as apply to "Today's shipment."

(g) "Shipment last of week" or "Shipment latter part of week" means that the produce referred to shall be under billing by the transportation company in time to move on a transportation facility scheduled to leave on Friday or Saturday of the week specified, subject to the same provisions with reference to cars picked up after midnight of the day

specified as apply to "Today's shipment."

(h) "Shipment as soon as possible" or "Shipment as soon as cars can be secured" means that the shipper is uncertain as to when the shipment can be made, but expects to make it within a reasonable time and will make it soon as possible. But in any case where these words are used the buyer shall, at any time after 12 days from the date the order is given, have the right to cancel the order or contract of sale, if notice of his decision so to cancel shall have been received by the shipper before shipment has been made.

(i) "F. o. b." (for example, "f. o. b. Laredo, Tex.", or even "f. o. b. California") means that the produce quoted or sold is to be placed free on board the boat, car, or other agency of the through land transportation at shipping point, in suitable shipping condition (see definitions of "suitable shipping condition", paragraphs (j) and (k) of this section), and that the buyer assumes all risk of damage and delay in transit not caused by the shipper, irrespective of how the shipment is billed. The buyer shall have the right of inspection at destination before the goods are paid for, but only for the purpose of determining that the produce shipped complied with the terms of the contract or order at time of shipment, subject to the provisions covering suitable shipping condition. Such right of inspection shall not convey or imply any right of rejection by the buyer because of any loss, damage, deterioration, or change which has occurred in transit.

(j) "Suitable shipping condition", in relation to direct shipments, means that the commodity, at time of billing, is in a condition which, if the shipment is handled under normal transportation service and conditions, will assure delivery without abnormal deterioration at the destination specified in the contract of sale.

(k) "Suitable shipping condition", in connection with reconsigned rolling or tramp cars, means that the commodity, at time of sale, meets the requirements of this phrase as defined in paragraph (j) of this section, relating to direct shipments.

(l) "F. o. b. acceptance" means the same as "f. o. b.", except that the buyer assumes full responsibility for the goods at shipping point and has no right of rejection on arrival, nor has he any recourse against the shipper because of any change in condition of the produce in transit, unless the produce when shipped was not in suitable shipping condition (see definitions, paragraphs (j) and (k) of this section). The buyer's remedy under this method of purchase is by recovery of damages from the shipper and not by rejection of the shipment.

(m) "F. o. b. acceptance final" means that the buyer accepts the produce f. o. b. cars at shipping point without recourse.

(n) "F. o. b. steamer" means that the produce is to be placed free on board steamer at shipping point, in suitable shipping condition (see definitions of "suitable shipping condition", paragraphs (j) and (k) of this section), in accordance with the terms of the contract, and that the buyer assumes all responsibility and risk of damage thereafter.

(o) "F. a. s. steamer" means that the produce is to be delivered free alongside the steamer, in suitable shipping condition (see definitions of "suitable shipping condition", paragraphs (j) and (k) of this section), in accordance with the terms of the contract, and that the buyer assumes all responsibility and risk of damage thereafter.

(p) "Delivered" or "Delivered sale" means that the produce is to be delivered by the seller on board car, or truck or on dock if delivered by boat, at the market in which the buyer is located, or at such other market as is agreed upon, free of any and all charges for transportation or protective service. The seller assumes all risks of loss and damage in transit not caused by the buyer. For example, a sale of "U. S. No. 1 potatoes delivered Chicago" means that the potatoes, when tendered for delivery at Chicago, shall meet all the requirements of the U. S. No. 1 grade as to quality and condition.

(q) (1) "In transit", "Roller", or "Rolling car" means that the produce referred to is in possession of the transportation company and under movement from shipping point when the quotation is made, and that the car is moving over a route in line of haul between the point of origin and the market in which delivery is to be made, and has been so moving since date of shipment, without any delay attributable to the shipper or his agent. If a roller, rolling car, or car in transit is sold f. o. b. shipping point, the buyer shall be deemed to assume only the lowest authorized all-rail freight charges applicable between the point of origin and the destination stated in the contract of purchase, together with car rental and refrigeration and heater charges, if any: *Provided*, That the kind and extent of the protective service required by the shipper's instructions to the carriers are specified in the contract; but the buyer shall not be deemed to have assumed any demurrage, storage, detention, icing, or heater charges, or diversion or reconsignment charges, that would not have accrued had the car been originally shipped direct to the destination named in the contract of purchase.

(2) If the carrier fails to accomplish diversion when properly notified, and such notification has been duly acknowledged by the carrier, the contract of sale shall be deemed to have become null and void, unless otherwise specifically provided.

(r) (1) "Tramp car" or "Tramp car sale" means that the produce has left the shipping point under a bill of lading issued prior to the day on which the quotation is made and has moved or is moving over a route out of line of haul with the market in which it is to be delivered or in which it is being offered or quoted, or has been moving over a route in line of haul between the point of origin and the market in which it is to be delivered or in which it is being offered or quoted, but has been delayed in transit by the shipper, or has been held by the transportation company at diversion or other points en route awaiting instructions from the shipper and by such holding or delay has missed scheduled movement between points of shipment and the market in which it is to be delivered as the result of the transaction in question. If a "tramp car" is sold f. o. b. shipping point or a "tramp car sale" is made f. o. b. shipping point, the buyer shall be deemed to assume only the lowest authorized all-rail freight charges applicable between the point of origin and the destination stated in the contract of purchase, together with car rental and refrigeration and heater charges, if any: *Provided*, That the kind and extent of the protective service required by shipper's instructions to the carriers are specified in the contract. But the buyer shall not be deemed to have assumed any demurrage, storage, detention, icing, or heater charges, or diversion or reconsignment charges that would not have occurred had the car been originally shipped direct to the destination provided in the contract of purchase.

(2) If the carrier fails to accomplish diversion when properly notified, and such notification has been duly acknowledged by the carrier, the contract of sale shall be deemed to have become null and void, unless otherwise specifically provided.

(s) "Rolling acceptance" means that the buyer accepts at time of purchase produce which is in the possession of the transportation company and under movement from shipping point, under the terms and conditions described in paragraphs (q) and (r) of this section, except that the buyer assumes full responsibility for transportation of the goods from time of purchase, has no recourse against the seller because of any change in condition after time of purchase unless the goods when shipped were not in suitable shipping condition, and has no right of rejection on arrival. The buyer's remedy under this method of purchase is by recovery of damages from the shipper and not by rejection of the shipment. By agreement between the parties, however, the purchase may be made subject to inspection at any specified point while the car is rolling or in transit and the point at which the buyer will assume transportation charges may be specified without affecting the time of acceptance of the commodity.

(t) (1) "Track sale" or "Sale on track" means a sale of produce on track after arrival at destination and after inspection or opportunity for inspection by the buyer who shall be considered to have waived any right to reject the commodity, so purchased upon receipt by him or his duly authorized representative from the seller or his duly authorized representative of the bill of lading, delivery order, or other document enabling him to obtain the goods from the carrier.

(2) The above definition shall not be construed as depriving the buyer of a right to reparation when the unloading of the car demonstrates that a part of the lading which was not accessible to inspection was of a quality or condition much inferior to that portion which was accessible to inspection; but notice of intention to file a claim for reparation must be given the seller within 24 hours after receipt by the buyer of the delivery order or bill of lading.

(3) If the seller gives the date of arrival when quoting price, the buyer shall, in the absence of any written memorandum of sale to the contrary, assume all charges that accrue on the shipment from the date of its arrival. If the seller fails to furnish the date of arrival when quoting price the buyer may, in the absence o fany written memorandum of sale which includes the date of arrival or specific written statement as to who shall assume such charges as have accrued after arrival, assume that the shipment arrived at point of sale on the day and date upon which the purchase was made, and shall be liable only for such changes as would properly attach to a shipment arriving on the date the purchase was made.

(u) "C. a. f.," "c. a. c.," and "c. i. f." mean "cost and freight," "cost and charges," and "cost, insurance, and freight," respectively. C. a. f. sales shall be deemed to be the same as f. o. b. sales, except that the selling price shall include the correct freight charges to destination. C. a. c. sales shall be deemed to be the same as f. o. b. sales, except that the selling price includes the correct freight and refrigeration or heater charges to destination. C. i. f. sales shall be deemed to be the same as f. o. b. sales, except that the selling price includes insurance and the correct freight and refrigeration or heater charges to desination.

(v) "Carload," "carlot," or "car" when used in offers, quotations, or contracts in which the quantity is not more definitely specified, and in the absence of well-established trade custom or standard as to size of a "carload," "carlot," or "car" of the produce in question, means not less than the minimum quantity required by the carrier's tariff applicable to the movement, and not more than 10 percent in excess of such minimum tariff requirements, except that, where the carrier's tariffs provide alternative rates and minimum, the buyer shall state which tariff minimum must be observed, and, in event of failure so to do, the shipper may exercise his discretion, in no case, however, exceeding the higher alternative minimum quantity provided by the tariff, with only such variations therefrom as are permitted by this paragraph.

(w) "Shipping-point inspection" means that the seller is required to obtain Federal or Federal-State inspection, or such private inspection as has been mutually agreed upon, to show the compliance of the lot sold with the quality, condition, and grade specifications of the contract, and that the seller assumes the risk incident to incorrect certification.

(x) "Shipping-point inspection final," or "Inspection final" following the name of the State or point, as "California inspection final," means that the seller is required to obtain Federal or Federal-State inspection, or such private inspection as has been mutually agreed upon, to show the compliance of the lot sold with the quality, condition, and grade specifications of the contract, and that the buyer assumes the risk incident to incorrect certification and is without recourse against the seller on account of quality, condition, and grade.

(y) "Subject approval wired Government inspection" means that the seller is required to obtain Federal or Federal-State inspection, or such private inspection as has been mutually agreed upon, and to correctly communicate, by wire or other agreed means, the statements on the certificate as to quality, condition and grade, and other essential information, whereupon the buyer, upon approval thereof, will be deemed to have accepted the produce without recourse against the seller on account of quality, condition, and grade.

(z) "Guaranteed advance" used in connection with an advance payment on consigned produce means that the person making the advance guarantees that the net proceeds to the consignor shall at least equal the amount so advanced, and that the consignor cannot be held liable for any deficit resulting from the sale of the produce, if such deficit is not occasioned by or contributed to by an act of the consignor.

(aa) "Accommodation advance" or "Regular advance", used in connection with an advance of money or credit against anticipated net proceeds to be realized from the sale of consigned produce, means that the shipper has received an advance of money or credit and that, if the consigned produce does not sell for enough to cover the cost of transportation and handling, including customary or agreed commission and the advance made to him, the shipper must return to the person making the advance a sum equal to the deficit sustained.

(bb) "Price arrival", in the absence of a contrary specific understanding, means that the produce is shipped either direct to the customer or to an agent of the shipper, for the benefit of the customer, the price to be subject to agreement between the customer and the shipper upon the arrival of the produce at the customer's destination, with sufficient time being permitted for inspection.

(cc) "F. o. b. inspection and acceptance arrival" means that the produce quoted or sold is to be placed by the seller free on board car or other agency of through transportation at shipping point, the cost of transportation to be borne by the buyer, but the seller to assume all risks of loss and damage in transit not caused by the buyer, who has the right to inspect the goods upon arrival and to reject them if, upon such inspection, they are found not to meet the specifications of the contract of sale at destination. The buyer may not reject without reasonable cause. Such a sale is f. o. b. only as to price and is on a delivered basis as to grade, quality, and condition.

(dd) "F. o. b. sale at delivered price" means the same as f. o. b., except that transportation charges from shipping point to destination shall be borne by the seller; that is, the sale is f. o. b. as to grade, quality, and condition, and delivered as to price.

SUNDAYS AND HOLIDAYS

§ 46.33 *Sundays and holidays excluded.* Sundays and holidays shall not be included in the computation of the 5 day period provided by section 7 (d) of the act, nor in connection with the periods defined in § 46.32 with exception of paragraph (a) thereof, and where specifically provided for in paragraph (s) of § 46.2.

§ 46.34 *Sundays and holidays included.* Sundays and holidays shall be included in the computation of all other periods mentioned in the act or in the regulations in this part.

INSPECTION OF COMMODITIES

§ 46.35 *Inspection of commodities.* Each licensee shall, during ordinary business hours, permit any duly authorized representative of the Department to enter his place of business and inspect any lot of produce under his ownership or control covered by this act. If any licensee fails or refuses to authorize or permit such inspection promptly upon request, the Secretary may, after 30 days' notice and an opportunity for a hearing, publish the facts and circumstances and/or, by order, suspend the license of the offender for a period not to exceed 90 days. Each licensee shall have present on his premises during ordinary business hours at least one person duly authorized to permit such inspection. Failure to permit inspection of such produce promptly upon request will be considered as a refusal by the licensee. Any necessary facilities for such inspection shall be extended to such representative by the licensee, his agents, and employees. The licensee shall be furnished a copy of any certificate or memorandum of inspection which is issued for any lot of his produce which is inspected in accordance with this section.

INSPECTION SERVICE

§ 46.36 *Inspection service.* The rules and regulations of the Secretary governing inspection and certification of fresh fruits and vegetables as outlined in Part 51, of frozen fruits and vegetables as outlined in Part 52 of Title 7, Code of Federal Regulations, and amendments thereto, and such additional amendments as may from time to time be promulgated shall govern the inspection of such products under the act and are hereby made a part of the regulations in this part.

LICENSEE'S RESPONSIBILITY FOR ACTS OF EMPLOYEES AND AGENTS

§ 46.37 *Licensee's responsibility for acts of employees and agents.* In construing and enforcing the provisions of the act and the regulations in this part, the act, omission, or failure of any agent, officer, or other person acting for or employed by a licensee, within the scope of his employment or office, shall in every case be deemed the act, omission, or failure of the licensee.

COPIES OF RECORDS

§ 46.38 *Copies of records; how obtained.* Copies of the application and other records pertaining to licensees

under the act may be furnished under the conditions prescribed in the regulations of the Department, and, except where requested by Government officials, upon the payment of the following fees, which shall be deposited in the Treasury of the United States in the PACA fund.

(a) For each typewritten copy, $1.00 per page.

(b) For each photographic or photostatic copy, 25 cents per page.

(c) For each separate authentication, 25 cents.

Dated: January 17, 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Marketing Service.

[F. R. Doc. 57-453; Filed, Jan. 22, 1957; 8:49 a. m.]

[7 CFR Part 972]

[Docket No. AO-177-A17]

MILK IN TRI-STATE MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Gallipolis, Ohio, on August 15–16, 1956, pursuant to notice thereof issued July 25, 1956, which was published in the FEDERAL REGISTER (21 F. R. 5695), upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Tri-State marketing area.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Agricultural Marketing Service, on December 7, 1956, issued his recommended decision and notice of opportunity to file written exceptions thereto. Said recommended decision was published in the FEDERAL REGISTER on December 12, 1956 (21 F. R. 9908).

The material issues of record related to:

1. Class I prices, including intra-area differentials, and the supply-demand price adjustment.
2. Allocation of Class I milk to shipping plants.
3. Location differentials.

Proposals with respect to other matters appeared in the notice of hearing, but were not supported at the hearing. These included extension of the marketing area, market-wide pooling, and a method of accounting for solids not fat.

Findings and conclusions. The following findings and conclusions with respect to the material issues are based upon the evidence contained in the record of the hearing:

1. *Class I price.* The Class I price differentials should be increased, and the seasonal pattern of the differentials should be modified. The prices in the several districts in the marketing area should be changed in a manner consistent with changes in plant location differentials. The supply-demand adjustor should be modified for some months to avoid contra-seasonal price changes.

Two proposals were made by producer groups to increase Class I price differentials. One of these would increase the Class I price differential 35 cents per hundredweight in the Huntington and Gallipolis-Scioto districts, and 40 cents in the Athens district, with some modification of the present schedule of seasonal price changes. The other proposal would establish a Class I differential in the Huntington district of $1.75 for March through August, and $2.25 for September through February, with the same seasonal changes in the Gallipolis-Scioto and Athens districts. A proposal made by certain handlers would provide the same price for the Athens and Gallipolis-Scioto districts, and a price 10 cents higher than that for the Huntington district. The same handler group recommended that the supply-demand adjustment be eliminated, and be replaced by a 25-cent increase in the stated Class I differentials.

The problem of the appropriate level of Class I prices in this market was reviewed in a hearing held in January 1955, and a decision thereon of the Secretary issued August 8, 1955. Official notice is here taken of that decision (20 F. R. 5815). It was concluded therein that a general price increase was not justified at that time, but the Class I differentials were modified in a manner that resulted in a 2-cent per hundredweight market-wide increase, and an additional 5 cents per hundredweight in the Athens district. Also, certain products, principally buttermilk and fluid cream disposition, were added to the Class I category. This amendment became effective September 1, 1955.

Some changes in milk utilization have occurred since the January 1955 hearing. Handler representatives contended, however, that the increase in Class I sales during the twelve months preceding this hearing was largely accounted for by the items added to the Class I definition by the September 1, 1955 amendment.

An estimate of the changes insofar as they were not caused by the amendment may be made by combining the Class I and Class II volumes in months prior to the amendment. The sum of the Class I and Class II items in these prior periods represents product utilization closely comparable with that under the present definition of Class I milk. On this basis, the gross utilization by handlers increased about 20 percent in such product uses from 1954 to 1955, and increased about 8 percent for the first seven months of 1956 as compared to the same period of 1955. Such estimated product utilization, on an average annual basis, was equivalent to about 86 percent of producer milk at fluid milk plants in 1954, and about 90 percent in 1955.

Receipts of producer milk at fluid milk plants have not increased as fast as the indicated product utilization. In 1955, receipts were 15 percent over receipts in 1954, and in the first seven months of 1956, 2.3 percent less than in the same period of 1955.

The market is short of an adequate supply of producer milk in the low production months. For the period October through December 1955, Class I sales in the market exceeded producer milk in all plants by 2 to 7 percent in each month. In January 1956, Class I sales about equalled producer milk, and in February 1956, were about 95 percent of producer receipts. During such October–February period, the amount of other source milk used by fluid milk plants for Class I averaged about 1,360,000 pounds per month, or about 8 percent of Class I sales. This was considerably more than the amount of other source milk used in Class I a year previous.

Although conditions vary in the several districts of the marketing area, the situation of shortage of producer milk in some months of the year is general throughout the entire area.

Considerable attention was given in testimony to the price relationships of surrounding Federal order markets. (For purposes of evaluation of these relationships, official notice is taken of the Federal orders in effect for the Cleveland, Columbus, Stark County, Greater Wheeling, Clarksburg, Cincinnati, and Bluefield marketing areas.) It was pointed out that the average annual level of Class I differentials in markets to the east and southeast are higher than the average level in the Tri-State market, and that producers in the intervening areas are attracted by the higher prices. It was also testified that a number of the largest producers formerly supplying the Huntington district had transferred to Charleston, West Virginia, which is not a Federally regulated market.

There is some overlapping of the production area of the Tri-State market with the production areas for the Greater Wheeling, Clarksburg and Bluefield orders. The average annual Class I differentials in these neighboring markets are: For Wheeling, $1.72; for Clarksburg, $1.97; and for Bluefield, $1.87. The average annual Class I differential in the Huntington district of the Tri-State market is approximately $1.48, and in the Athens district approximately $1.23. The Class I prices under these other orders are subject to location differential credits as follows: Under the Greater Wheeling order, 16.5 cents per hundredweight at Marietta, Ohio, 18 cents at Parkersburg, West Virginia, and 21 cents at Athens, Ohio. Under the Clarksburg order, 22 cents at Marietta, 24 cents at Parkersburg, and 28 cents at Athens; and under the Bluefield order, 26½ cents at Ashland, Kentucky. The Class I prices under the Greater Wheeling and Clarksburg orders are affected by the supply-demand adjustment in the Cleveland order.

There is an overlapping of sales areas of Tri-State handlers and of handlers under the Greater Wheeling and Bluefield orders in areas between the markets. One handler in the Bluefield market complained that the difference between the proposed prices under the Bluefield order and the existing prices under the Tri-State order would give an unfair advantage to Tri-State distributors in Mingo and Logan Counties, West Virginia, and Pike County, Kentucky, where a considerable part of his milk is sold.

To a slight extent there is overlapping of the supply area of the Tri-State market with supply areas of the Cincinnati and Columbus markets, where somewhat lower Class I differentials apply. Price differences with markets to the east and southeast are much wider, however, even after allowing for location differential credits to points in the Tri-State marketing area. In view of the existing price differences, and the relatively short supply in the Greater Wheeling, Clarksburg, and Bluefield markets, as well as shortages experienced in this market for a considerable part of the year, some narrowing of these price differences is desirable. The amount of change which should be made in the differentials at this time would depend, as well, on other factors discussed herein.

In addition to the handler proposal, previously described, to eliminate the supply-demand adjustment, a proposal was made by a producer association to generally increase the rate of adjustment obtainable from this pricing mechanism. The latter proposal would provide a lesser rate of price adjustment on decreases for oversupply than the rate of adjustment for price increases when a relatively short supply is in prospect.

The order amendment of September 1, 1955 made comprehensive changes in the supply-demand adjustment designed to eliminate contra-seasonal adjustments and generally to improve its operation. The new supply-demand formula has generally reflected changing conditions with greater accuracy than the previous formula. It has resulted in additions to the Class I price ranging from 3 to 27 cents, or an average increase slightly less than 15 cents.

A supply-demand adjustment is considered to be a desirable part of the price mechanism for this market to reflect local changes in supply and demand conditions. If it were eliminated and replaced by a fixed addition to the Class I differentials, considerable flexibility and responsiveness of the price to changing market conditions would be lost. The proposal to eliminate the supply-demand adjustment is denied.

The proposal to apply a lesser rate of price adjustment when supply is excessive than when supply is short has decided disadvantages. It could result in criticism in that it would tend to maintain a higher level of prices than needed to assure an adequate supply. It could not be expected to result in price changes designed to correct a condition of oversupply. As a consequence, such a mechanism could result in serious misalignment of prices with conditions in this and other markets.

In the period in which the new supply-demand formula has been in effect, it has provided an increasing price adjustment in response to the higher level of Class I utilization in the market. Inasmuch as the fairly substantial price increases resulting from the supply-demand adjustment have occurred to large extent in recent months, it is too early to judge whether the rate of adjustment should be changed. Conditions in the market, particularly the steady increase in fluid sales which has persisted for some time, make an increase in the level of the Class I differentials a more appropriate method of providing additional incentive to supply milk for this market.

Although no change is recommended in the rate of price adjustment, which now is 3 cents for each percentage of deviation from the base utilization percentages, some changes should be made in the base utilization percentages of individual months to avoid erratic or contra-seasonal price changes. The minimum and maximum percentages which apply in the November Class I price calculation should be reduced by subtracting 4 from each. This change should be made to avoid a drop in the price adjustment, such as occurred from October to November 1955 and again in 1956. (Official notice is taken of market administrator's report.) The base utilization percentages for the March price computation should be increased by adding 2, so as to avoid a contra-seasonal price increase.

Class I price differentials in the Tri-State order are established at separate levels for the three districts of the marketing area. The differentials for the Athens district are lowest, and those for the Gallipolis-Scioto and Huntington districts are 15 and 25 cents higher, respectively. These price differences are for the purpose of improving the distribution of the total producer milk supply among the various parts of the marketing area.

Considerable concern was shown by handlers and producers in the Huntington district over the possible competitive advantage to handlers in the Athens district resulting from the present intra-market differential. It was pointed out that two plants in the Athens district are sending distribution routes into the Huntington district. Various proposals were made to reduce the difference between these two districts to 20 cents, or even to 10 cents.

Two handlers with plants in the Athens district gave testimony in opposition to reducing the intra-area differentials. One handler cited a cost figure of 38.7 cents per hundredweight for moving packaged milk from Marietta to Huntington, and the other a cost of 29 cents for moving packaged milk from Athens to Huntington. Inasmuch as these costs exceed the price differences, apparently there are factors other than producer price differences which provide incentive for distribution by Athens handlers in the Huntington district.

In view of the decrease in location allowances to handlers, recommended elsewhere herein, a comparable reduction should be made in the price differential between the Athens district and the other districts of the marketing area. Otherwise, producers supplying the Athens district plants would receive a lower price on milk moved from such plants to the Huntington market than do producers at out-of-area supply plants which ship milk from comparable distances directly to Huntington handlers. The difference between the Athens and Huntington district prices should be reduced from 25 cents to 20 cents. This would make the price difference between adjoining districts 10 cents in each case.

In the attached proposed amending order language, the annual average of the Class I differentials for the Athens district would be about 16 cents higher than the differentials now in the order. Differentials for the Gallipolis-Scioto and Huntington districts would be 10 and 20 cents higher, respectively, than those for the Athens district. In view of general supply and demand conditions affecting this market, such increases in the Class I price differentials appear warranted. These increases, along with price increments which will result from the supply-demand adjustor as long as the market remains short, will make the market more attractive to producers. The annual average of the Class I price differentials for the Athens district would be about $1.39 per hundredweight. So long as the supply-demand adjustor continues to add about the same amount as shown for the last twelve months in the record, or about 15 cents per hundredweight, the resulting price should average about the same as the Wheeling order price adjusted for location to points in the Athens district. The annual average of Class I price differentials for the Huntington district, with the changes recommended herein, would be about $1.59 without the effect of the supply-demand adjustor. This is slightly less than the average of the Bluefield order Class I differentials adjusted for location to Ashland.

Various proposals were made which would change the seasonal pattern of Class I price differentials. The proposal of a producer association which would provide for two seasonal changes per year has been mentioned previously. Another producer association proposed that the month of July be changed from a low differential month to a medium differential month, and the month of August be changed from a medium differential month to a high differential month. A group of handlers recommended that the low differential period be May through August, that the medium differentials apply in March, April, and September, and that the highest differentials apply in October through February. Testimony given in support of these proposals generally supported the desirability of evening out seasonal variations in production to more nearly approach the relatively more stable needs of the fluid market.

Presently, the amount of seasonal change in the Class I differentials, from the lowest to the highest, is 85 cents. The lowest seasonal differential for the Athens district is 80 cents per hundredweight, which applies in April, May, June, and July. An intermediate level of $1.10 applies in the months of February, March, and August, and the highest differential, $1.65, applies for the months of September through January. This pattern of differential changes was established by the amendment made effective September 1, 1955.

In view of the continued pronounced seasonal variation in production, it is concluded that about the same range in price differential changes should be maintained. The changes in the seasonal pattern set forth in the attached amending language are designed to provide incentive for improving the seasonal production-sales relationship, as well as to give some consideration to the existing price differences in individual months compared with neighboring markets. Exceptions to the recommended decision complained that the change in the March Class I differential from the intermediate level to the lowest seasonal level did not comport with the level of utilization in that month relative to other months and the amount of other source milk used in March 1956 for meeting Class I needs. It was pointed out that the recommended decision also provided a decrease in the supply-demand price adjustment for March.

The change in the base utilization percentage for March, as explained elsewhere in this decision, is for the purpose of avoiding a contra-seasonal price movement from action of the supply-demand adjustment.

With respect to the changes in the seasonal schedule of Class I price differentials, it is possible to retain March in the intermediate differential months, as is the case under present order provisions, and yet arrive at nearly the same average annual price level as provided in the recommended decision, if small changes are made in the differentials for the months of February, and April through August. It is concluded that this should be done. In the attached order provisions, the differentials for the months of September through January, for the Athens district, would be $1.80, for February, March, and August, $1.35, and for April through July, 90 cents. This schedule of differentials would be 15 cents per hundredweight higher than the present differentials in the months of September through January, 25 cents higher in February, March, and August, and 10 cents higher in the months of April through July. Class I price differentials for the Gallipolis-Scioto and Huntington districts would be 10 and 20 cents higher, respectively, in each month than the Athens differentials. The greater increase in August is appropriate, since this month is just prior to the short production season and because of the wide difference between the Athens district and the Wheeling order Class I differentials. The changes for February and March represent, besides the general increase mentioned, also a seasonally different distribution of returns, which is in accord with the producer request for a seasonally higher level in these months in view of production conditions and Class I requirements of the market. Changes made in February and August also serve to lessen the widest seasonal differences between the Huntington district and Bluefield order prices.

2. *Allocation of Class I milk to shipping plants.* The amount of milk which a fluid milk plant may allocate to a supply plant during the months of February through September pursuant to § 972.34 (c) of the order should be limited by the monthly average amount of milk received from producers at the supply plant in the preceding months of October through January. No allocation of Class I milk should be made between fluid milk plants, except with respect to actual transfers of milk.

Under the provisions of § 972.34 (c), a fluid milk plant may, during the months of February through September, allocate some of its Class I utilization to any supply plant which transferred milk to such fluid milk plant in at least three of the months of October through January immediately preceding. Such allocation does not depend on actual physical transfer of the milk in the February-September period, but the total allocation in each such month, including allocation with respect to actual transfers in the current month, is limited by the smaller of (1) the monthly average allocation on transfers in the preceding October-January period, or (2) a percentage of the total Class I milk in the fluid milk plant in the current month which is the same as the percentage the amount described in (1) above is of the Class I milk in the fluid milk plant in the preceding October-January period.

A producer representative operating a supply plant proposed that an additional limit be placed on such allocation to prevent any allocation greater than the amount of producer milk received at the supply plant in the preceding October-January period. It was pointed out that such an allocation could occur if in the October-January period the supply plant handled other source milk, part or all of which was transferred to a fluid milk plant. In this way the supply plant might build up a credit for "pass-back" allocation in the following February-September period exceeding the volume of producer milk at the supply plant in the prior months of October through January.

The proposed limitation on pass-back allocation would not limit the amount of allocation in relation to the amount of producer milk in the supply plant in the current month of the February-September period. There could be instances in which a supply plant would be handling little, or considerably less, producer milk in these months than it handled in prior fall and winter months, and at the same time might be handling considerable volumes of other source milk representing surplus of unregulated plants. In such an instance, pass-back allocation of Class I utilization could result in giving other source milk in the supply plant a preference over producer milk in the fluid milk plant. It is concluded that the amount of the Class I use in the fluid milk plant in the February-September period, which may be allocated to a supply plant, should, in addition to the other limitations, be limited to the amount of producer milk in the supply plant in the current month.

The provisions of § 972.34 (c) should not be extended to provide for similar allocation of Class I milk to fluid milk plants where no actual transfer of milk in the current month occurs. It was not indicated on the record how a workable provision with this purpose resulting in equitable allocation of utilization could be constructed. In this connection, reference is made to the findings and conclusions on the same matter in the Secretary's decision issued August 8, 1955.

3. *Location differentials.* The rate of location adjustment allowed to plants more than 45 miles and less than 100 miles from designated reference points should be reduced from 2½ cents for each ten miles to 2 cents for each ten miles. No location allowance should be given to plants at distances less than 45 miles.

A producer group proposed that location credits to handlers on Class I milk be reduced to 2 cents, instead of 2.5 cents, for each ten miles up to 100 miles from the nearest reference point stated in the order, and be reduced to 1 cent, instead of 1½ cents, for each ten miles over 100 miles. The producer group also proposed that the smallest mileage to which the location credits apply should be increased from 25 miles to 65 miles. With respect to producer location differentials, it was proposed that these apply only to Class I milk rather than to all milk.

Evidence was submitted by the operator of a milk shipping plant that the cost of moving milk in a 22,000 pound tank truck is about 18 cents per hundredweight for 100 miles. It was also pointed out that it is common for handlers to move milk within the same pricing district of the marketing area for distances in excess of 50 miles. On such milk movements, no location credit is allowed by the order. Proponent asserted such evidence shows that the allowances in the order are generally in excess of current costs of transporting milk.

Two handlers gave evidence, previously mentioned herein, of higher costs for moving milk from plants in Athens and Marietta to Huntington. These costs, however, were for packaged milk, and are not considered to be an appropriate basis for establishing location allowances when a less costly method of moving milk is available.

Official notice is taken of price announcements of the market administrator which show location allowances of 12½ cents per hundredweight to a plant at Circleville, Ohio, and 31 cents to a plant at Welch, West Virginia. Since the time of the hearing, the plant at Welch has become regulated under Order No. 112, regulating the handling of milk in the Bluefield marketing area. The plant at Circleville, Ohio, is about 50 miles from the nearest reference point (Jackson) from which the mileage distance to such plant is computed.

It is concluded that the proposed reduction in the rate of location allowances to handlers should be adopted with respect to distances not exceeding 100 miles. There was no direct evidence as to changes in the cost of movements of milk exceeding 100 miles. It is also concluded that location differentials should not apply for distances less than 45 miles. There are not now any plants to which location differentials apply within such distance, and there is no economic need for a supply plant so near to the plant from which the milk is distributed. Within such a distance milk may be ordinarily moved direct from the farm to the plant.

With respect to proposal to apply producer location differentials only to Class I milk, it is concluded that this proposal should be denied. The differential applied to producer uniform prices of each handler should continue to be at the same rate as allowed handlers with respect to Class I milk. These differentials, as applied to producer prices, represent the difference in value for whole milk as received at plants in various locations.

The provisions with respect to producer location differentials do not need to be modified to take account of the changes in the location credits to handlers, inasmuch as § 972.72 of the order applies the same rate to producer payments as is allowed to handlers on Class I.

Ruling on exceptions. Within the period reserved therefor, interested parties filed exceptions to certain of the findings, conclusions and actions recommended by the Acting Deputy Administrator. In arriving at the findings, conclusions, and regulatory provisions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that findings, conclusions and actions decided upon herein are at variance with any of the exceptions, such exceptions are overruled.

Determination of representative period. The month of October 1956 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, as amended, regulating the handling of milk in the Tri-State marketing area, in the manner set forth in the attached amending order, is approved or favored by producers, as defined in the order, as amended, and as proposed hereby to be further amended, who, during such representative period, were engaged in the production of milk for sale in the marketing area as defined in the order, as amended, and as proposed hereby to be further amended.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Marketing agreement and order, amending the order, as amended. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Tri-State Marketing Area", and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Tri-State Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and proposed to be hereby further amended.

This decision filed at Washington, D. C., this 17th day of January 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Tri-State Marketing Area

§ 972.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Tri-State marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Tri-State marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. In § 972.34 (c), add subparagraph (3) as follows:

(3) The quantity of milk received from producers at such supply plant during the current month.

2. Delete § 792.41 (a), and substitute the following:

(a) Add the following amounts for the months indicated:

	February, March, and August	April, May, June, and July	September, October, November, December, and January
Huntington district plants	$1.55	$1.10	$2.00
Gallipolis-Scioto district plants	1.45	1.00	1.90
Athens district plants	1.35	.90	1.80

3. Delete the table in § 972.41 (b) (2), and substitute the following:

Month for which price is being computed	Base utilization percentages	
	Minimum	Maximum
January	103	107
February	103	107
March	99	103
April	95	99
May	93	97
June	87	91
July	77	81
August	68	72
September	64	68
October	68	72
November	79	83
December	94	98

4. Delete § 972.48 and substitute the following:

§ 972.48 *Location adjustment credits to handlers.* The price for Class I milk at a fluid milk plant or supply plant located outside the marketing area and more than 45 miles from the nearest of the following listed places, shall be, regardless of point of sale within or out-

side the marketing area, the same as the price for Class I milk (§ 972.41) for the district of the marketing area in which such nearest listed place is located, less a location adjustment computed as follows: 2 cents per hundredweight for each 10 miles, or major fraction thereof, up to 100 miles, and 1.5 cents per hundredweight for each 10 miles, or major fraction thereof, in excess of 100 miles, by the shortest hard-surfaced highway distance as determined by the market administrator, from such fluid milk plant to such nearest listed place:

City Hall, Huntington, W. Va.
City Hall, Ashland, Ky.
City Hall, Portsmouth, Ohio.
City Hall, Jackson, Ohio.
City Hall, Athens, Ohio.
City Hall, Marietta, Ohio.
City Hall, Gallipolis, Ohio.

[F. R. Doc. 57-451; Filed, Jan. 22, 1957; 8:48 a. m.]

[7 CFR Part 975]

[Docket No. AO-179-A15]

MILK IN CLEVELAND, OHIO, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Cleveland, Ohio, on October 10–12, 1956, pursuant to notice thereof which was issued on October 3, 1956 (21 F. R. 7686).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on January 2, 1957, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on January 5, 1957 (22 F. R. 146).

1. Revision of the Class I price as to:
(a) Level.
(b) Seasonality.
(c) Supply demand adjustment.
2. Level of the Class III milk price.
3. Changes in the eligible milk quota plan concerning:
(a) Quota rules.
(b) Quotas for new producers.
(c) Number of operating months.
4. Classification of milk moved to, or allocation of milk from plants regulated under other Federal orders.
5. Revision of location adjustments.
6. Review of other provisions affecting:
(a) Classification of cream moved to distant plants.
(b) Exemption of handlers doing business in the marketing area.
(c) Allocation of shrinkage on producer milk transferred in bulk between pool plants.

(d) Certain administrative procedures.

1. The level, seasonally and supply-demand adjustment of the price for Class I milk.

The price for Class I milk under the Cleveland order is determined by adding to a basic formula price $1.40 for the months of February through July and $1.85 for other months. The price is subject to adjustment of not more than 25 cents on the basis of supply-sales relationship in the immediately preceding two-month period. The supply-demand adjustment has been suspended for the months of October, November and December 1956, pending this hearing and action on the record thereof.

Producer groups proposed that the Class I differential be $2.25 for all months of the year and that supply-demand adjustment be based upon the ratio of combined receipts to Class I utilization for the Cleveland, Akron and Stark County markets as compared with revised standard utilization percentages. These proposals raise three separate issues which will be considered separately: the level of the Class I differential, seasonal changes in the Class I differential, and the supply-demand adjustment of the Class I price.

(a) *The level of the Class I price differential.* In support of the proposal to increase the Class I price differential to $2.25 producers cite increased production costs, feed shortages, premiums over minimum order prices currently being paid by Cleveland handlers, and competitive prices paid by nearby markets, regulated and otherwise, with which Cleveland competes for supplies.

It is difficult to evaluate, at this time, the effect that these factors have had on the Cleveland milk supply. As of May 1, 1955, an increase in the marketing area added substantial volumes of receipts and sales to the Cleveland pool. As of August 1955, a plant with substantial receipts and sales which, up to that time, were included in the Cleveland pool became subject to the Akron order. For the year 1954, producer receipts were 154 percent of milk and cream sales whereas for 1955 this ratio had declined to 143 percent. For the first eight months of 1956, monthly ratios of receipts to sales averaged 133 percent as compared to 152 percent for the same months of 1955. Supplies during January through April of this year were only slightly higher than a year ago, while sales were substantially higher. Supplies in May, June and July were substantially less than a year earlier with sales only slightly higher. The change in the seasonal pattern of producer deliveries noted elsewhere in this decision was most marked during this period. Adverse weather conditions also had some probable effect on milk supplies in the early summer months of 1956. It is significant, however, that for August supplies and sales were about identical with those of a year earlier, and that a ratio of receipts to sales at approximately the 1955 level has continued through October. It must be concluded that the level of milk supply in what is normally the short season of production has been maintained, and that no increase in the level of the fixed Class I price differential is required to encourage additional production.

(b) *Seasonal changes in the Class I differential.* Seasonal changes in the Class I differential should be retained at this time.

Producers and handlers are united in the support of a uniform Class I differential throughout the months of the year. Producers supported a uniform differential at a higher annual level than that now prevailing while handlers' support was for a uniform differential applicable in all months of the year at approximately the present annual average level.

The support for elimination of seasonality in the Class I price differential is based largely on the claim that (1) Class I sales are lost as resale prices change with seasonal changes in producer prices, and (2) the eligible milk quota plan eliminates need for seasonal pricing.

The record indicates, however, that seasonal pricing is used in the nearby unregulated Youngstown market, and in the unregulated (Federally) Pittsburgh market which competes for supplies in the Cleveland supply area. Cleveland also competes for supplies with the Detroit and Toledo markets, the orders for which include seasonal pricing. Consideration is now being given to regulation of an area between Cleveland and Toledo for which price alignment would be particularly difficult if the discrepancy in price patterns of these two markets were widened.

It is concluded that changes in the seasonal patterns of pricing in the Cleveland market should be deferred until such time as its adoption could promote greater uniformity in pricing patterns between markets rather than have the contrary effect.

(c) *Supply-demand adjustment.* The supply-sales relationship used as a basis for adjustment of the Class I price should be that of the combined receipts and sales of the Cleveland-Akron-Stark County markets. The standard utilization percentages, deviations from which result in price adjustment, should be revised to reflect the changed seasonal patterns of utilization to be expected in the markets and the level of reserve supply required by present marketing practices.

The Class I prices of the Akron and Stark County orders are maintained in fixed alignment with that of the Cleveland order and it is proposed that such alignment be maintained in a merged order to regulate the handling of milk in the combined Akron-Stark County marketing area. Cleveland handlers make substantial sales of milk in the Akron-Stark County area. An Akron handler operates more than 30 dairy stores in the Cleveland marketing area. The Akron-Stark County supply area lies wholly within the Cleveland milkshed. Presently supplies of milk associated with the Cleveland pool and sales by handlers regulated under the Cleveland order determine the supply-demand adjustment of the Class I price affecting the three markets. Intermarket competition for supplies or sales may readily affect the Class I price of all markets without any change in the overall supply or sales volumes merely by transfer of supply or

sales from one plant to another. Since the competitive situation is such as to require fixed alignment of Class I prices, it is appropriate that the ratio of total supplies to total sales should be the basis for adjustment of Class I prices to supply-demand conditions.

A very substantial change in the seasonal pattern of production has taken place in the Cleveland market in the past two years. Seasonal variations in deliveries per producer and for the market as a whole are not nearly as great as in former years. Daily deliveries per producer in May 1956 were 123 percent of those in November 1955. May 1954 daily deliveries per producer were 160 percent of those for November 1953. Total market deliveries for May 1956 were only 117 percent of those for the preceding November. Somewhat similar changes in the seasonal pattern of deliveries appear to have taken place in the Akron-Stark County market.

The eligible milk quota plan under which payments were first made in the Cleveland market in April–June 1956 on quotas established by deliveries in the last three months of 1955 undoubtedly has had considerable effect in leveling the seasonality of deliveries the past year. Adverse weather conditions in the months of normally flush production may also have contributed.

The standard utilization percentages presently included in the order were based upon experience prior to 1955 with some adjustment for the expected effect of the eligible milk quota plan then being included in the order. It is now evident that these percentages do not reflect the seasonal pattern of utilization that can now be expected in the market. The seasonal pattern of utilization in the three markets has likewise changed and follows rather closely that now to be expected in the Cleveland market.

With lower seasonal variations in supplies more reserve supplies can be carried in the short season without burdensome spring surpluses. Producers in the Cleveland market have leveled production in part by decreasing spring production and in part by increasing fall production. Standard utilization percentages can reflect a somewhat higher short season supply without reflecting any increase in the annual average level of supply since correspondingly lower percentages will apply for the spring season.

It is concluded that the standard utilization percentages with which the combined Cleveland-Akron-Stark County ratio of receipts to sales will be compared should be as follows:

Month priced	2-month period used	Standard utilization percentage
January	November–December	123
February	December–January	126
March	January–February	129
April	February–March	132
May	March–April	135
June	April–May	144
July	May–June	149
August	June–July	144
September	July–August	131
October	August–September	125
November	September–October	123
December	October–November	122

The simple average of these percentages is about four points less than that of those presently included in the order. The higher utilization for the combined markets as compared with the Cleveland market will approximately offset the results of this change in the standard.

2. The Class III milk price should not be revised.

The Class III milk price is now determined by using the basic formula price which is the higher of a group of midwest condenseries or a butter-powder formula.

Wayne Cooperative Milk Producers proposed the Class III milk price should be the basic formula price less 20 cents. Reasons given by this cooperative for the reduction in price were as follows:

(1) The price it pays for surplus milk must be comparable to the prices paid by its competitors and from January 1956, through August 1956, the Class III price has been 17 cents per hundredweight higher than the support price for manufacturing milk as announced by the Department, (2) that there are difficulties involved in marketing manufactured dairy products made from surplus milk due to variations in volume, (3) that their costs in the manufacture of butter and powder exceed by 25 cents per hundredweight their returns for such products, (4) that the Class III price for the first 8 months of 1956 has averaged 9.6 cents above the price for milk for similar use in the Federally regulated markets of Fort Wayne, Detroit, Dayton-Springfield, Cincinnati, Chicago, Toledo and Lima, and (5) that the make allowance of 55.6 cents as provided in the butter-powder formula is 19.4 cents below their cost of operation.

Other handlers did not offer direct testimony concerning the level of the Class III price but in their briefs stated that such milk should be priced in relation to its recovery value.

In opposing, three other producer groups testified that a reduction in the Class III milk price would decrease returns to all producers for their milk deliveries. It was claimed that a Class III price too low serves to encourage plants with manufacturing facilities to carry more than an adequate reserve supply to insure Class I or fluid milk market requirements.

The amount of milk classified as Class III milk in 1954 averaged 26 percent of all producer receipts, in 1955 it averaged 25 percent, and for the first nine months of 1956, 21.1 percent. Milk utilized as nonfat dry milk represented 19.6 percent of producer receipts in 1954, 13.4 percent in 1955 and 8.2 percent for the first nine months of 1956. Amounts used to produce butter represented 1.5 percent of producer receipts in 1954, 0.8 percent in 1955 and in the first nine months of 1956 seven-tenths of one percent.

The proponent cooperative operates two pool plants under this order, one of which is located at Fort Wayne, Indiana; the other at Coldwater, Michigan. There is direct competition for supply at these two Cleveland pool plants with the Fort Wayne and Detroit market supplies. Consequently, a comparison of price for milk in these markets is more appropriate than with more distant ones. The Federal order prices in Fort Wayne and Detroit markets for milk used to produce products similar to Cleveland order Class III products are in close alignment with the Cleveland Class III price.

Present indications are that the quantities of milk which need to be utilized as Class III are being reduced. In 1954 this order was amended to include a plan to achieve more level seasonal production. This plan has tended to alleviate the problem of excessive amounts of producer milk for use as Class III both annually and seasonally.

The Federal order markets of Akron and Stark County use the basic formula to price milk of corresponding use to the Cleveland Class III milk. The fact that several handlers have plants in two or more of these markets, the ease with which they can shift manufacturing operations by transferring or diverting producers, and the close competition between them makes it highly desirable that prices for milk used to produce manufactured products in all three markets be held in close alignment.

A level of prices for Class III milk should be provided so as to encourage the transfer of milk from manufacturing to higher-valued uses. The Class III milk price as now determined in this order reflects an appropriate value for milk used to produce manufactured dairy products. The request to decrease the Class III milk price by 20 cents is denied.

3. The provisions concerning quota rules should be revised. The number of operating months should not be changed and no additional provisions should be added for establishment of quotas by new producers.

The order presently provides for transfer of a producer quota from one producer to another.

Producers proposed that transfer of quotas be limited to those cases in which (a) a member of the immediate family carries on the dairy operation on the same farm in the event of a producer's death or (b) there is a division between joint holders of a quota.

Considerable administrative detail is involved in the provisions for unlimited transfers of quotas. Since the quota plan is effective in determining producer payments in only three months of each year and since all producers must establish new quotas each year, there is little need to provide for widespread transfers of quotas involving such administrative detail. The proposed rules will provide an administratively feasible plan for the necessary transfers of quotas in cases of death in a family or where partnerships are dissolved. They should be adopted.

Certain handlers proposed that the quota operating period be extended to include February through July with provision for quotas to new producers entering the market. Handlers believe the quota plan has been highly effective during the relatively short time it has been a part of this order. It was their contention that an extension of the quota operating periods from three to six months would further the effectiveness of the quota plan in obtaining more even

production. It was further contended that, (a) the even producer should receive a greater share of the Class I price for a longer period of time than now provided and (b) more encouragement to level production should be provided to those producers who have been less responsive to the plan. Handlers also contended new producers should be provided a quota so they would be encouraged to enter the market any time available and needed.

Three producer groups in opposing the extension of the quota operating period and provision for making quotas other than in the three quota forming months stated: (a) The market has adequate reserve supplies without the necessity of providing quotas for new producers and (b) the division of returns among producers is of primary concern to producers, who in this incidence, oppose any change in the order effecting their returns.

Significant changes in the pattern of production did occur during the first year the quota plan was operative in this order. During the April through June quota operating period, approximately one-third of all producers were within quota and 61 percent produced within 125 percent of quota. It is notable that 20 percent of all producers averaged over 500 pounds of milk per day. About half of this group were within quota and 85 percent were within 125 percent of quota. Of those producers averaging under 500 pounds of milk per day, 30 percent were within quota and 56 percent within 125 percent of quota.

Producers may enter the market at any time. Present order provisions provide payment to producers who have no quota at the uniform price, except April through June, when such producers would receive payment at the ineligible milk price.

In view of the above facts additional time should be provided for the operation of the present order provisions dealing with the quota operating period before any substantial change is made. The proposals to extend the quota operating period from three to six months and provision of quotas for new producers should not be adopted at this time.

4. No change in the Cleveland order should be made on the basis of this record to change the classification of milk moved to, or the allocation of milk received from plants regulated under other Federal orders.

Two separate sets of proposals affecting movements of milk between Cleveland pool plants and plants regulated by other Federal orders were presented by handlers. One such set of proposals related specifically to movements involving Akron-Stark County plants, while the other set of proposals would have more general application.

In general it was proposed to (a) permit shipments to Akron-Stark County plants to count toward qualification of a supply plant for pool plant status under the Cleveland order, (b) permit classification of milk transferred from Cleveland pool plants to plants subject to other orders to be as agreed upon by the handlers involved, as classification of milk transferred between Cleveland pool plants is now determined, and (c) to exempt receipts of milk transferred to Cleveland plants from plants subject to other orders from yielding prior claim for Class I use to receipts of Cleveland pool milk.

This record indicates that nearby markets under Federal regulation depend to some extent on the supply of Cleveland pool milk for reserve supplies in seasons of short supply. The availability of Cleveland reserve supplies relieves such markets of the necessity of carrying fully adequate reserve supplies, and provides opportunity for maintenance of high Class I utilization in such markets. The changes proposed in the Cleveland order would not serve to meet this situation. This fact was recognized by the proponents who indicated that identical amendments in other orders would be required.

The principle of assigning producer milk under each order to the highest priced available use should be waived in favor of milk from another regulated market only on the basis of specific evidence that the exporting market performs services for the receiving market which merit special consideration. Such consideration could only be given to intermarket movements in a single direction. Under such circumstances classification and allocation should be based on specific rules designed to fit the circumstances rather than upon agreement of handlers. There is nothing in this record to indicate that Cleveland depends upon other markets for services that would warrant the changes proposed in the Cleveland order.

5. Provisions for location adjustments on milk received at plants less than 60 miles from Cleveland should be revised to conform with those applicable elsewhere and the minimum distance at which adjustments apply should be increased from 30 to 40 miles.

Under the present provisions of the Cleveland order, the value of milk received from producers at a pool plant located more than 30 miles but not more than 60 miles from the Public Square in Cleveland is computed at the class prices applicable to plants located in Cleveland, and the handler operating such plant is credited with paying the f. o. b. Cleveland producer prices in determining his pool debit or credit. He is permitted, however, to deduct 13 cents per hundredweight (except with respect to ineligible milk) in making settlement to producers. At plants located more than 60 miles from Cleveland, handler location adjustments are used in computing the value of milk classified as Class I or Class II milk. Location adjustments at the same rate apply to the producer price for all except ineligible milk.

Within the 30–60 mile zone there are presently three supply plants and nine bottling plants. A group of producers delivering milk to one of the supply plants proposed that the permissive deduction of 13 cents from producer prices in this zone be deleted. This particular plant has not taken the full 13-cent deduction any of the last 20 months and in 7 of these months has paid full f. o. b. Cleveland price or more. At the other two supply plants the 13-cent deduction is taken with much greater regularity.

These supply plants are located in areas from which many farmers now deliver their milk directly to bottling plants in Cleveland. The 13-cent differential represents fairly well the average amount that producers supplying these plants save in farm to plant hauling costs as compared to delivernig their milk to Cleveland. Premium payments at these locations have resulted more from competition from other markets, principally Akron, than from competition with direct delivery to Cleveland. Cleveland handlers procuring direct shipped supplies from the competitive area have also paid premiums.

Location adjustments should be retained within the 60-mile zone but should be consistent with those prevailing at more distant plants. The handler credit should be restricted to Class I and II milk. Present provisions encourage Class III use of milk located nearest the marketing area.

The bottling plants in the present 30–60 mile zone became subject to the order May 1955 when the marketing area was expanded. Those located within 40 miles of Cleveland are in no position to take advantage of the 13-cent deduction provision. At Painesville, Ohio, one plant is 28.3 miles from Cleveland and three others are between 33 and 34 miles. Eliminating provision for location adjustments within the 30–40 mile zone will eliminate difference in treatment of nearby plants serving essentially the same segment of the marketing area.

The decision to make 40–60 mile location adjustment provisions consistent with those applicable beyond 60 miles renders unnecessary certain technical correction of the present provisions proposed at the hearing.

6. *Review of other provisions.*

Cream transfers to distant nonpool plants. The order presently classifies as Class I milk transfers to nonpool plants located more than 265 miles from Cleveland in forms specified as Class I milk when disposed of for fluid consumption. A handler proposed that this rule of automatic classification on the basis of mileage not apply to transfers in the form of cream. He proposed that instead the provisions applicable to movements within 265 miles, certification of use by the receiver and privilege of audit by the market administrator, apply. Determination of use of cream shipped to distant plants would involve considerable administrative expense. The record shows no lack of facilities for disposition of Class III milk within the 265 mile zone. It is concluded that no change in the transfer provisions should be made on the basis of this record.

Exemption of handlers doing little business in the marketing area. The order presently exempts from regulation plants from which routes entering the marketing area dispose of less than an average of 300 units (quarts of milk or equivalent) daily. A handler proposed deletion of this exemption. Only one handler is presently selling milk in the area under this exemption, continuing minor sales in a portion of the marketing area added by the amendment effective May 1955.

The provision provides a feasible means of avoiding full regulation of plants whose association with the marketing area is of such a minor and incidental nature that such regulation would accomplish nothing. It should be retained.

Allocation of shrinkage on producer milk transferred in bulk between pool plants. It was proposed that provisions be made for handlers to agree upon an equal division of the two percent shrinkage allowance on producer milk transferred in bulk between pool plants. The order presently reserves the entire allowance to the plant receiving the milk from producers. Optional agreement between the handlers was proposed because some supply arrangements in the Cleveland market entail considerably more opportunity for plant loss to the plant receiving milk from producers than is normally the case.

Processing plants which receive bulk shipments from supply plants encounter losses in processing and packaging such milk. The present provisions limit the application of the shrinkage allowance on milk so handled to the operations carried out by the supply plant. Within the overall two percent limit plant losses incurred in later operations should be allowed the same as if all processing were done in the plant at which milk is received from producers. The proposal represents a practical means for accomplishing this and should be adopted.

Certain administrative procedures. Certain changes of an administrative nature should be made. The present provision requiring a pool plant operator to notify the market administrator on or before January 31 of his desire for his operation to continue as a pool plant will be changed so that such plant will continue to be a pool plant, if so qualified, unless written advice to the contrary is furnished the market administrator. This change in order language should be made.

A typographical error in § 975.75 (a) should be corrected so that the order will correctly describe the procedure for calculation of the eligible milk price.

General findings. (a) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings. Within the period reserved for filing exceptions to the recommended decision, exceptions were submitted on behalf of interested parties. These exceptions have been fully considered and to the extent to which the findings and conclusions of this decision are at variance with the exceptions, such exceptions are hereby overruled.

Order of the Secretary directing conduct of a referendum: determination of representative period: and designation of referendum agent. Pursuant to provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted to determine whether the issuance of the attached order amending the order, as amended, regulating the handling of milk in the Cleveland, Ohio, marketing area, is approved or favored by the producers, as defined under the terms of the order, as amended, and as hereby proposed to be further amended, and who, during the following determined representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of October 1956 is hereby determined to be the representative period for the conduct of such referendum.

Howard G. Eisaman is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders, as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 10th day from the date this decision is issued.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Cleveland, Ohio, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Cleveland, Ohio, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 17th day of January 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Cleveland, Ohio, Marketing Area

§ 975.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Cleveland, Ohio, during October 10–12, 1956, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cleveland, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act:

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Cleveland, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 975.30 (b) following the phrase "such plant shall" delete the words "upon written application to the market administrator on or before January 31

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

of any year" and substitute therefor "unless written advice to the contrary is furnished the market administrator on or before January 31".

2. Add the following as § 975.52 (c).

(c) Where producer milk is transferred in bulk from a pool plant to the pool plant of another handler, and the operators of such plants have so requested the market administrator in writing prior to the delivery period within which the transfer occurred, the maximum allowance for shrinkage pursuant to § 975.51 (c) (3) with respect to such milk shall be divided equally between the transferor and transferee plants.

3. Delete § 975.61 and substitute therefor the following:

§ 975.61 *Class I milk prices.* The respective minimum prices per hundredweight to be paid by each handler, f. o. b. his plant for milk received from producers or from a pool plant of a cooperative association, during the delivery period which is classified as Class I milk, shall be as follows as computed by the market administrator:

(a) Add to the basic formula price the following amount for the period indicated:

Delivery period:	*Amount*
February through July	$1.40
All others	1.85

(b) Add or subtract a "supply-demand adjustment" computed as follows:

(1) With respect to receipts and utilization of the Cleveland and Akron-Stark County, Ohio, marketing areas during the first and second months preceding the delivery period, combine into separate totals:

(i) The total quantity of milk received from producers defined in § 975.8 and in § 960.7 of the order regulating the handling of milk in the Akron-Stark County, Ohio, marketing area; and

(ii) The gross quantity of milk utilized as Class I at pool plants pursuant to § 975.30 and to § 960.5 of the order regulating the handling of milk in the Akron-Stark County, Ohio, marketing area, exclusive of interhandler and intermarket transfers between such plants.

(2) Divide the result obtained in subparagraph (1) (i) of this paragraph by that obtained in subparapragh (1) (ii) of this paragraph, multiply by 100, and round to the nearest whole number. This result shall be known as the "current utilization percentage,"

(3) Compute a "deviation percentage" by subtracting from the current utilization percentage computed in subparagraph (2) of this paragraph the "standard utilization percentage" shown below:

Month for which the price is being computed:	*Standard utilization percentage*
January	123
February	126
March	129
April	132
May	135
June	144
July	149
August	144
September	131
October	125
November	123
December	122

(4) Determine the amount of the supply-demand adjustment from the following schedule:

Deviation percentage:	*Amount of supply-demand adjustment (cents)*
+13 or over	−25
+10 or +11	−19
+7 or +8	−13
+4 or +5	−7
+2 or −2	0
−4 or −5	+7
−7 or −8	+13
−10 or −11	+19
−13 or below	+25

When the deviation percentage does not fall within the tabulated brackets, the adjustment shall be determined by the adjacent bracket which is the same as or nearest to the bracket used in the previous month.

4. Effective July 1, 1957, delete § 975.66 and substitute therefor the following:

§ 975.66 *Quota rules.* (a) Except as provided in paragraph (b) of this section, an eligible milk quota shall apply to deliveries of milk by the producer for whose account that milk was delivered to a handler(s) during the quota forming period;

(b) A daily quota may be transferred during the period of April through June by notifying the market administrator in writing before the first day of any delivery period that such quota is to be transferred to the person named in such notice, but under the following conditions only:

(1) In the event of the death of a producer, the entire daily quota may be transferred to a member of such producer's immediate family who carries on the dairy operation on the same farm;

(2) If a quota is held jointly and such joint holding is terminated on the basis of written notice to the market administrator from the joint holders, the entire daily quota may be transferred to one of the joint holders, or divided in accordance with such notice between the former joint holders if they continue dairy farm operations.

5. Delete § 975.71 and substitute therefor the following:

§ 975.71 *Location adjustment to handlers.* In computing the value of such quantities of milk as are received at a pool plant located 40 miles or more, by the shortest highway distance from the Public Square in Cleveland, Ohio, as determined by the market administrator, and classified as Class I or Class II milk, there shall be deducted:

(a) 13 cents per hundredweight, if such distance is more than 40 miles but not more than 60 miles; and

(b) 20 cents per hundredweight, if such distance is more than 60 miles but not more than 74 miles, and 2 cents per hundredweight additional for each 14 miles or fraction thereof in excess of 74 miles.

(c) For the purpose of determining the respective quantities of Class I and Class II milk subject to the location adjustment, each pool handler's utilization of Class I and Class II milk during the month at pool plants as defined in § 975.30 (a) shall be allocated first to receipts of milk from producers' farms at such plants and then to the receipts of producer milk from pool plants as defined in § 975.30 (b) in the order of their nearness to the Public Square in Cleveland, Ohio, by shortest highway distance as determined by the market administrator.

6. In § 975.73 (c) delete "§ 975.81 (b)" and substitute therefor "§ 975.81".

7. In § 975.75 (a) delete "§ 975.73 (a) through (c)" and substitute therefor "§ 975.73 (a) through (e)".

8. In § 975.81 (a) delete "30 miles" and substitute therefor "40 miles".

TOMATOES GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT NO. 124 AND ORDER NO. 114

Correction

In Federal Register Document 57-284, published at page 301 in the issue for Wednesday, January 16, 1957, paragraph (c) of § 1014.60 was inadvertently omitted. This paragraph reads as follows:

§ 1014.60 *Inspection and certification.* • • •

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

UTAH

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JANUARY 14, 1957.

An application, Serial No. Utah 019139, for the withdrawal from location, sale, and entry, under the General Mining Laws of the lands described below, subject to existing valid claims, was filed August 9, 1956, by the United States Department of Agriculture.

The purposes of the proposed withdrawals are for the establishment and maintenance of the Hub Ranger Station within the Wasatch National Forest, and for a roadside zone along the Alpine Loop Highway and a recreation area in the Uinta National Forest.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the State Supervisor for Utah, Bureau of Land Management, Box 777, Salt Lake City 10, Utah. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

SALT LAKE MERIDIAN, UTAH

WASATCH NATIONAL FOREST

Hub Ranger Station Administrative Site

T. 2 S., R. 12 W.,
Sec. 28: SE¼NE¼NE¼, E½SW¼NE¼NE¼, N½SE¼NE¼, N½NE¼SW¼NE¼, NW¼NW¼SW¼NE¼.
Total area 42.5 acres.

UINTA NATIONAL FOREST

Alpine Loop Highway (Utah #80) Roadside Zone

A strip of land 200 feet wide on each side of the center line of Alpine Loop Highway (Utah #80) through the following legal subdivisions:

T. 4 S., R. 2 E.,
Sec. 24: SE¼SW¼, SE¼;
Sec. 25: N½NW¼;
Sec. 26: NW¼, N½NE¼;
Sec. 27: S½NE¼;
Sec. 28: Lots 7, 8, SE¼SW¼, SE¼;
Sec. 33: Lots 1, 2, NE¼NW¼.
T. 4 S., R. 3 E.,
Sec. 19: Lot 4, S½SE¼;
Sec. 20: SW¼SW¼;
Sec. 28: SW¼NW¼, SW¼;
Sec. 29: NW¼, E½SW¼, SE¼;
Sec. 32: NE¼NW¼;
Sec. 33: E½NW¼, W½NE¼, SE¼NE¼, NW¼SE¼, E½SE¼;
Sec. 34: Lot 1.
T. 5 S., R. 3 E.,
Sec. 4: Lots 1, 2, SW¼NE¼, Lots 5, 6, 7, SW¼SE¼;
Sec. 9: NW¼NE¼, Lot 1.
Containing 698.2 acres, more or less.

Cascade Springs Recreation Area

T. 4 S., R. 3 E.,
Sec. 24: S½N½NE¼, S½NE¼, N½SE¼.
Total area, 200 acres.

VAL B. RICHMAN,
State Supervisor.

[F. R. Doc. 57-438; Filed, Jan. 22, 1957; 8:46 a. m.]

BROWNWOOD CATTLE AUCTION ET AL

POSTING OF STOCKYARDS

The Director of the Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of the act.

Brownwood Cattle Auction, Brownwood, Texas.
Eads & Cole Commission Company, Brownwood, Texas.
Calvert Commission Company, Calvert, Texas.
Cameron Livestock Auction, Cameron, Texas.
McDougal's Livestock Auction Barn, Comanche, Texas.
Evant Commission Company, Evant, Texas.
Hamilton Commission Company, Hamilton, Texas.
Lometa Commission Company, Lometa, Texas.
Falls County Livestock Auction, Marlin, Texas.
Taylor Commission Company, Taylor, Texas.
Temple Livestock Auction, Temple, Texas.
Leggott Livestock Auction, Waco, Texas.

Notice is hereby given, therefore, that the said Director, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), proposes to issue a rule designating the stockyards named above as posted

stockyards subject to the provisions of the act, as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule may do so by filing them with the Director, Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., within 15 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D. C., this 17th day of January, 1957.

[SEAL] H. E. REED,
Director, Livestock Division, Agricultural Marketing Service.

[F. R. Doc. 57-439; Filed, Jan. 22, 1957; 8:46 a. m.]

Office of the Secretary

NEBRASKA, UTAH, AND WYOMING

DISASTER ASSISTANCE; DELINEATION OF DROUGHT AREAS

Pursuant to Public Law 875, 81st Congress, the President determined on July 19, 1956, that a major disaster occasioned by drought existed in the State of Nebraska; the President determined on June 15, 1956, that a major disaster occasioned by drought existed in the State of Utah, and the President also determined on October 30, 1956, that a major disaster occasioned by drought existed in the State of Wyoming.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148, 5364), and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress, the following counties were determined on January 11, 1957, to be affected by the abovementioned major disasters:

Nebraska: Phelps, Fillmore.

Utah: That portion of Utah County lying in Cedar Valley.

Wyoming: That area in Natrona County which is bounded on the south by the CB & Q Railroad from Casper west to county line, and on the east by Highway 87 and north to county line.

That area in Converse County lying north of Highway 26 and south of an east to west line across the county intersecting the source of Box Creek; also the small area of Converse County south and east of Highway 20.

Done at Washington, D. C., this 17th day of January 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 57-455; Filed, Jan. 22, 1957; 8:49 a. m.]

KANSAS AND WYOMING

DISASTER ASSISTANCE; DELINEATION OF DROUGHT AREAS

Pursuant to Public Law 875, 81st Congress, the President determined on August 26, 1954, that a major disaster occasioned by drought existed in the State of Kansas; and the President determined on October 30, 1956, that a major disaster occasioned by drought existed in the State of Wyoming.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148, 5364), and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress, the following areas were determined on January 7, 1957, to be affected by the abovementioned major disasters:

Kansas: Six townships in Riley County: Bale, Madison, Seven Mile, Sherman, Grant, and Wild Cat

Wyoming: That part of Converse County lying south of Highway 87 from the Platte County line to Douglas and then south of the North Platte River from Douglas west to the Converse County line

Done at Washington, D. C., this 17th day of January 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary.

TRANS-PACIFIC PASSENGER CONFERENCE

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shiping Act, 1916, 39 Stat. 733, 46 U. S. C. 814:

(1) Agreement No. 131–224, between the member lines of the Trans-Pacific Passenger Conference, modifies the basic conference agreement (No. 131, as amended) to provide (1) for a change in the designation of sub-agencies to agencies, and (2) that any agency which violates any rule adopted by the member companies governing agency arrangements shall be subject to a fine in the form of liquidated damages;

(2) Agreement No. 131–225, between the member lines of the Trans-Pacific Passenger Conference, modifies By-Law E–1 of the basic conference agreement (No. 131, as amended) to change the designations of sub-agent and subagency to agent and agency, respectively, and

(3) Agreement No. 131–226, between the member lines of the Trans-Pacific Passenger Conference, modifies By-Law H–1 of the basic conference agreement (No. 131, as amended) to change the designations of sub-agent and subagency to agent and agency, respectively.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: January 17, 1957.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

[F. R. Doc. 57–447; Filed, Jan. 22, 1957; 8:47 a. m.]

ALASKA FREIGHT LINES, INC.

NOTICE OF INVESTIGATION AND OF HEARING REGARDING PROPOSED REVISED TARIFF, F. M. B. F–NO. 4 AND ITEM 40 AND SOUTHBOUND RATES ON VEHICLES, ITEM 700

At a session of the Federal Maritime Board held at its Office in Washington, D. C., on the 25th day of April 1956 and December 21st 1956, A. D., respectively, the Board entered the following orders:

[Docket No. 793]

It appearing that there has been filed with the Federal Maritime Board a tariff naming local class and commodity rates between Seattle and Tacoma, Washington, on the one hand, and Anchorage, Fairbanks, Palmer, Seward, Valdez, Big Delta, Eielson A. F. B., Elmendorf A. F. B., Fort Richardson, and Ladd A. F. B., Alaska, on the other. The tariff applies in connection with through service, including one pickup and one delivery of each shipment within the corporate limits of the named points and was published to become effective April 26, 1956, and later, designated as follows:

Alaska Freight Lines, Inc.
Local Freight Tariff No. 4
F. M. B. F–No. 4
Cancelling U. S. M. C. F–No. 3

It appearing that a protest dated April 16, 1956, has been received from Coastwise Line, an established common carrier by water, operating a regular berth service directly competitive with the operation covered by Alaska Freight Lines Tariff F. M. B. F–No. 4, petitioning the Board to suspend and investigate the lawfulness and reasonableness of said schedule;

It further appearing that the respondent by sworn affidavit contends that in no instance are any of the rates set forth in the Alaska Freight Lines' tariff lower than the rates of competing carriers and no convincing evidence to the contrary has been adduced;

It further appearing that because of the seasonal nature of the trade suspension would result in virtual cancellation of the proposed tariff for the current season to the possible deteriment of Alaska Freight Lines, Inc., and shippers who may require the service provided by said carrier;

It further appearing that protestant has alleged that the provision of Item 40 of Tariff F. M. B. F–No. 4, granting certain allowances at origin stations to the shipping public who perform their own pickup service, car unloading and terminal handling in lieu of carrier service, applicable only in connection with volume shipments moving under carload ratings and certain commodity rates at specified minimum weights, will result in undue discrimination against certain classes of shippers and against certain classes of commodities in violation of Sections 16 and 18 of the Shipping Act of 1916, as amended, and of the Intercoastal Shipping Act of 1933, as amended;

It further appearing that protestant has alleged that the rates set forth in said tariff are unreasonable in violation of Section 18 of the Shipping Act, 1916, as amended, and of the Intercoastal Shipping Act, 1933, as amended;

It further appearing that the lawfulness of said tariff has been put in issue;

It is ordered, That the petition dated April 16, 1956, on behalf of Coastwise Line, requesting suspension of Alaska Freight Lines, Inc., Tariff F. M. B. F–No. 4, be denied;

It is further ordered, That the Board enter upon an investigation and hearing as to the lawfulness of the provision of Item 40 and of the rates named in tariff designated as Alaska Freight Lines, Inc., Tariff No. 4, F. M. B. F–No. 4;

It is further ordered, That a copy of this order shall be forthwith served upon Alaska Freight Lines, Inc., and that said carrier be duly notified of the time and place of hearing herein ordered; and that notice of such hearing be published in the FEDERAL REGISTER."

[Docket No. 793 (Sub. 1)]

It appearing that there have been filed with the Federal Maritime Board the following tariff schedules to become effective as shown:

Alaska Freight Lines, Inc.

4th Rev. Page 10; Item 40, to F. M. B. F–No. 4.

3d Rev. Page 36; Item 700, to F. M. B. F–No. 4.

Effective December 24, 1956.

It further appearing that a protest against these amendments and a petition for suspension has been received from Coastwise Line;

It further appearing that said 4th Revised Page 10, Item 40 specifies allowances for services not performed by the carrier which are in apparent conflict with other provisions in this item and the tariff to which they are to be added;

It further appearing that the reduced rates on used or surplus trucks, or contractors' trucks are ambiguous and cause undue or unreasonable preference or advantage and unreasonable rates in violation of sections 16 and 18 of the Shipping Act, 1916, as amended;

It further appearing that investigation should be made to determine the lawfulness of such rates, charges, regulations and practices and the Board being of the opinion that the effective date of said schedules should be suspended, pending investigation into their lawfulness;

It is ordered, That the Board enter upon a hearing concerning the lawfulness of the rates, charges, regulations and practices stated in said schedules;

It is further ordered, That the operation of said schedules be, and they are hereby suspended and that the use of the rates, charges, regulations, and practices therein stated be, and they are hereby deferred until April 24, 1957, unless otherwise ordered by the Board;

It is further ordered, That no change shall be made in the rates, charges, regulations, and practices hereby deferred until this investigation and suspension proceeding has been disposed of, or until the period of suspension or any extension thereof has expired, unless otherwise authorized by special permission of the Board.

It is further ordered, That there shall be filed immediately with the Board by Alaska Freight Lines, Inc., consecutively numbered revised pages to the afore-listed schedules, which revised pages shall bear no effective date; shall reproduce the portion of this order wherein the suspended schedules are described; shall state that said schedules are suspended and that the rates, charges, regulations and practices therein stated may not be used until the 24th day of April 1957, unless otherwise authorized by special permission of the Board; and that the rates, charges, regulations and practices hereby deferred may not be changed during the period of suspension or any extension thereof, unless otherwise authorized by special permission of the Board; and that this proceeding be consolidated with the order in Docket No. 793; and

It is further ordered, That copies of this order shall be filed with said tariff in the Office of the Federal Maritime Board; that a copy hereof shall be forthwith served upon Alaska Freight Lines, Inc., and said carrier be, and is hereby, made respondent in this proceeding; that said carrier be duly notified of the time and place of the hearing herein ordered and that notice of such hearing be published in the FEDERAL REGISTER.

Pursuant to the above orders, notice is hereby given that a public hearing in these consolidated proceedings will be held before an examiner of the Board's Hearing Examiners' Office at a time and place to be hereafter determined and announced by the Chief Examiner. The hearing will be conducted in accordance with the Board's Rules of Practice and Procedure, and a recommended decision will be issued by the examiner.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies), having an interest in these proceedings and desiring to intervene therein, should notify the Secretary of the Board on or before February 25, 1957, and should file petitions for leave to intervene in accordance with Rule 5 (n) of said rules of practice and procedure.

Dated: January 17, 1957.

By Order of the Federal Maritime Board.

GEO. A. VIEHMANN,
Assistant Secretary.

[Project No. 1925]

FRESNO IRRIGATION DISTRICT

NOTICE OF APPLICATION FOR LICENSE

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a–825r) by the Fresno Irrigation District, of Fresno, California, for license for proposed water power Project No. 1925 to be located on Kings River in Fresno County, California, at Pine Flat Dam and Reservoir, owned by the United States and operated by the Corps of Engineers for flood control, irrigation, and supplemental upstream water power storage, and affecting lands of the United States. The proposed project would consist of a powerhouse immediately below the Dam with an installed capacity of three 50,000 kilowatt generating units direct-connected to three hydraulic turbines. Penstocks would be extended downstream from the Dam to the powerhouse and trash racks, gates, and appurtenant facilities, including a switchyard, would be installed at the Dam.

A preliminary permit for the proposed project was issued December 8, 1953 to Fresno Irrigation District for a period of two years from the date of issuance. Two six-month extensions of the period of the permit were granted.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is February 25, 1957. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

NOTICE SETTING DATE OF CONSOLIDATED HEARING

Chas. T. McCord, Jr., et al., Docket No. G–11475; Texas Eastern Transmission Corporation, Docket No. G–11500.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 5, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the respective applications filed on November 13, 1956 and November 19, 1956, respectively in the above-entitled matters: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Due notice of the applications filed herein has been published in the FEDERAL REGISTER on November 30, 1956 (21 F. R. 9390–1). No protests or petitions to intervene have been received.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24SF-2030]

POPULAR DRUG STORES, INC.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JANUARY 16, 1957.

I. Popular Drug Stores, Inc., 139 North Virginia Street, Reno, Nevada, filed with the Commission on February 23, 1955, a Notification on Form 1-A and an Offering Circular relative to a proposed offering of 200,000 shares at $1 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that the terms and conditions of Regulation A have not been complied with by the subject corporation in that it has failed to file 2-A reports of sales as required by Rule 224 under Regulation A and has ignored requests by the Commission's staff for such reports.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given, that any persons having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

SHARRON OIL & GAS COMPANY, INC.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JANUARY 16, 1957.

I. Sharron Oil & Gas Company, Inc., a Colorado corporation, filed with the Commission on October 29, 1956, a notification on Form 1-A and an Offering Circular relating to an offering of 8,750,000 shares of its 1 cent par common stock at 1 cent per share for an aggregate offering price of $87,500, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable grounds to believe that:

A. The terms and conditions of Regulation A have not been complied with in respect of such notification in that:

1. Item 9 (a) fails to disclose the required information relating to the issuer's prior sales of unregistered stock particularly the consideration received from such sales; and

2. Item 9 (c) fails to specify and assert any exemption from registration for the offering and sale of such prior unregistered stock; and

3. Four copies of the provisions of the governing instruments defining the rights of holders of the equity securities proposed to be offered under the notification were not filed as an exhibit as required by Item 11 (a); and

4. Restrictions in the form of escrow agreements or otherwise were not imposed upon shares issued to directors, officers, and promoters of the issuer.

5. A promoter, affiliate and predecessor of the issuer was not identified as required by Item 2; and

6. There is a conflict between Item 8 (b) and Item 7 with respect to the sale of the issuer's stock through the underwriters.

B. The Offering Circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in light of the circumstances under which they are made, not misleading particularly with respect to the following:

1. The financial information contained in the Offering Circular does not comply with the form specified by paragraphs 11 (a) (1) and (2) or 11 (b) of Schedule I under Rule 256 of Regulation A;

2. The issuer's financial statement is misleading in showing its unissued stock as an asset;

3. It is stated in the text of the Offering Circular that certain dry holes are located at various distances from the issuer's properties whereas a plat attached to the Offering Circular shows such dry holes to be closer to the issuer's properties;

4. No disclosure is made as to the depths to which proposed wells on the issuer's properties will be drilled;

5. No reasonable basis exists for the statement that the maximum ultimate oil recoverable per well from wells to be drilled on the issuer's properties will amount to approximately 250,000 barrels; and

6. Information relating to a number of wells on properties adjacent to the issuer's leases is not given.

III. *It is ordered,* Pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given to Sharron Oil & Gas Company, Inc. and to any person having any interest in the matter that this order has been entered, that the Commission upon receipt of a written request within thirty days after the entry of this order will, within twenty days after the receipt of such request, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether to vacate the order or to enter an order permanently suspending the exemption without prejudice, however, to the consideration and presentation of additional matters at the hearing, that if no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission, and that notice of the time and place for any hearing will promptly be given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 24FW-1063]

OUACHITA MINING CO., INC.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JANUARY 11, 1957.

I. Ouachita Mining Company, Inc. ("Issuer"), an Arkansas corporation of Mena, Arkansas, having filed with the Commission on November 13, 1956 a notification on Form 1-A and an Offering Circular, and subsequently having filed an amendment thereto on November 29, 1956, relating to a proposed offering of 20,000 shares, $1.00 par value, at $2.50 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable grounds to believe:

A. That the terms and conditions of Regulation A have not been complied with in that:

1. Four copies of the provisions of the governing instruments defining the rights of holders of the equity securities proposed to be offered were not filed as an exhibit as required by Item 11 (a);

2. The response to Item 9 (a) (iii) does not give the respective considerations paid by various persons for 702,025 shares of unregistered stock issued to them;

3. No facts are presented to justify the statement in the notification that the net assets of the issuer amount to $755,500;

4. No information was related to support the statement that the issuer received $702,025 for the 702,025 shares which it issued to officers, directors, and other persons.

B. The Offering Circular contains untrue statements of material facts, and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to the following:

1. The financial information contained in the Offering Circular does not comply with the form specified in paragraphs 11 (a) (1) and (2) and paragraph 11 (b) of Schedule I under Rule 256 of Regulation A in that assets acquired in exchange for capital stock are carried at dollar amounts in the issuer's balance sheet in excess of identifiable cash costs to promoters, predecessor companies and other transferors;

2. Real and personal properties of the issuer which it acquired largely from its promoters, officers and directors are valued at $780,000.00 but no information is given respecting the considerations paid by the promoters, officers and directors for such properties prior to their transfer to the issuer;

3. The issuer represents that 23,000 lbs. of high grade free manganese ore which it obtained from its properties were sold for $628.00 but no disclosure is made concerning the cost of producing such ore and the number of tons required to be mined to produce the 23,000 lbs. of ore was not revealed;

4. The issuer represents that the officers and directors believe that "one continuous body of ore extends * * * over an area averaging eight miles wide and fifty-two miles long," whereas available geological evidence indicates that no such belief is factually justified.

C. The use of the Offering Circular in connection with the offering of the shares to which the notification relates would operate as a fraud and deceit upon the purchasers thereof.

III. *It is ordered,* Pursuant to Rule 261 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given to Ouachita Mining Company, Inc., and to any person having any interest in the matter that this order has been entered, that the Commission upon receipt of a written request within thirty days after the entry of this order will, within twenty days after the receipt of such request, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether to vacate the order or to enter an order permanently suspending the exemption without prejudice, however, to the consideration and presentation of additional matters at the hearing, that if no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission, and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 17, 1957.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 33169: *Ingot lead from Herculaneum, Mo., to Baton Rouge and North Baton Rouge, La.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on lead, ingot or pig, carload from Herculaneum, Mo., to Baton Rouge and North Baton Rouge, La.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 29 to Agent Spaninger's tariff I. C. C. 1548.

FSA No. 33170: *Fertilizer compounds from southwest to Mt. Vernon, Ind.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on fertilizer and fertilizer materials, carloads from points in Arkansas, Louisiana, Missouri, Oklahoma and Texas to Mt. Vernon, Ind.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 186 to Agent Kratzmeir's I. C. C. 4112.

FSA No. 33171: *Sand from Berkeley Springs and Hancock, W. Va., to points in Alabama and Mississippi.* Filed by St. Louis-San Francisco Railway Company, Agent, for itself and other interested rail carriers. Rates on sand, ground or pulverized, carload from Berkeley Springs and Hancock, W. Va., to points in Alabama and Mississippi.

Grounds for relief: Short-line distance formula and circuity.

FSA No. 33172: *Substituted service, rail for motor, Erie and N. Y., N. H. & H. R. R.* Filed by The Eastern Central Motor Carrier's Association, Agent, for interested rail and motor carriers. Rates on freight loaded in highway truck trailers and transported on railroad flat cars between Hammond, Ind., and Boston, Mass.

Grounds for relief: Truck competition.

Tariff: Supplement 1 to The Eastern Central Motor Carriers Association, Inc., tariff MF-I. C. C. A-133.

FSA No. 33173: *Phosphatic fertilizer solution from Idaho and Utah to Montana.* Filed by The Union Pacific Railroad Company, for itself and other interested rail carriers. Rates on phosphatic fertilizer solution, tank-car load from Don, Idaho and Garfield, Utah to points in Montana.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 40 to Union Pacific Railroad Company's I. C. C. 5415.

By the Commission.

Subchapter B—Farm Ownership Loans

[FHA Instruction 428.1]

PART 331—POLICIES AND AUTHORITIES

AVERAGE VALUES OF FARMS; HAWAII AND OKLAHOMA

On December 20, 1956, for the purposes of Title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm-management units for the counties identified below were determined to be as herein set forth. The average values heretofore established for said counties, which appear in the tabulations of average values under § 331.17, Chapter III, Title 6 of the Code of Federal Regulations, are hereby superseded by the average values set forth below for said counties.

HAWAII

County:	Average value	County:	Average value
Hawaii	$30,000	Kauai	$30,000
Honolulu	30,000	Maui	30,000

OKLAHOMA

County:	Average value	County:	Average value
Adair	$25,000	Kingfisher	$35,000
Alfalfa	40,000	Kiowa	40,000
Atoka	23,000	Latimer	23,000
Blaine	35,000	Le Flore	23,000
Bryan	28,000	Lincoln	25,000
Caddo	35,000	Logan	30,000
Canadian	35,000	Love	26,000
Carter	28,000	McClain	25,000
Cherokee	25,000	McCurtain	25,000
Choctaw	25,000	McIntosh	23,000
Cleveland	25,000	Marshall	26,000
Coal	20,000	Mayes	30,000
Comanche	30,000	Murray	25,000
Cotton	28,000	Muskogee	27,000
Craig	30,000	Noble	35,000
Creek	30,000	Nowata	30,000
Delaware	25,000	Okfuskee	22,000
Garfield	40,000	Oklahoma	30,000
Garvin	30,000	Okmulgee	25,000
Grady	35,000	Osage	35,000
Grant	40,000	Ottawa	35,000
Haskell	23,000	Pawnee	30,000
Hughes	26,000	Payne	30,000
Jackson	40,000	Pittsburg	25,000
Jefferson	28,000	Pontotoc	26,000
Johnston	26,000	Pottawatomie	25,000
Kay	40,000	Pushmataha	20,000
Rogers	30,000	Seminole	20,000
Sequoyah	25,000	Stephens	30,000

PART 333—PROCESSING SUBSEQUENT LOANS

MISCELLANEOUS AMENDMENTS

In § 333.1 of Title 6, Code of Federal Regulations (21 F. R. 10447), paragraph (b) (2) is amended, paragraphs (d) to (i) are redesignated as paragraphs (e) to (j), respectively, and a new paragraph (d) is added, as follows:

§ 333.1 *General.* • • •

(b) The subsequent credit needs of a borrower with a direct Farm Ownership loan may be met in one of the following ways, provided the loan is otherwise sound and proper:

• • • • •

(2) A subsequent direct Farm Ownership loan may be made in accordance with § 333.2 to a borrower with a direct Farm Ownership loan whose subsequent credit needs cannot be met by a Farm Housing loan or by a subsequent insured Farm Ownership loan where a lender is available. In case a subsequent insured Farm Ownership loan is made, the initial direct Farm Ownership loan will be refinanced in accordance with § 333.3.

• • • • •

(d) A direct Farm Ownership loan will not be made to an insured loan borrower

Subchapter E—Account Servicing

[FHA Instruction 456.1]

PART 364—DEBT SETTLEMENT

Part 364 "Settlement," Title 6, Code of Federal Regulations, is revised to eliminate Subpart A and to read as follows:

Sec.
364.1 Purpose and scope.
364.2 General policies.
364.3 Compromise and adjustment.
364.4 Cancellation upon application.
364.5 Cancellation without application and without regard to amount.
364.6 Cancellation of small claims with principal of $150 or less.
364.7 Charge-off of judgment debts without application.
364.8 Joint debtors.
364.9 Cases referred to the Department of Justice.
364.10 Regional Agricultural Credit Corporation and State Rural Rehabilitation Corporation judgments obtained in State Courts by private attorneys.
364.11 Authority of State Director to approve a settlement.
364.12 Preparation and processing of Form FHA–858.
364.13 Preparation and processing of Form FHA–859.
364.14 Disposition of promissory notes.
364.15 Delinquent adjustment agreements.
364.16 Finance Office handling.

AUTHORITY: §§ 364.1 to 364.16 issued under R. S. 161, sec. 41 (1), 60 Stat. 1066, sec. 4 (c), 64 Stat. 100; 5 U. S. C. 22, 7 U. S. C. 1015 (l), 40 U. S. C. 442 (c). Interpret or apply sec. 41 (g), 60 Stat. 1065, as amended, sec. 2 (f), 64 Stat. 99; 7 U. S. C. 1015 (g), 40 U. S. C. 440 (f).

§ 364.1 *Purpose and scope.* This part contains the policies and procedures for settlement under section 41 (g) of the Bankhead-Jones Farm Tenant Act, as amended, of debts owed the United States and administered by the Farmers Home Administration under any of its programs; including State Rural Rehabilitation Corporation accounts being administered under agreements entered into under section 2 (f) of Public Law 499, 81st Congress, provided that:

(a) Arkansas, North Carolina, and Wisconsin State Rural Rehabilitation Corporation accounts cannot be settled without the prior written approval of the respective Corporations.

(b) Texas Rural Communities accounts cannot be cancelled.

§ 364.2 *General policies*—(a) *Definitions.* For the purpose of this part, the following definitions are applicable:

(1) "Compromise" is the satisfaction of a debt by the acceptance of a lumpsum payment of an amount less than the total amount due on the debt on which settlement is requested.

(2) "Adjustment" is the reduction in a debt conditioned on completion of payment of the adjusted amount at some specified future time or times, with or without the payment of any consideration when the adjustment offer is approved. An adjustment is not a final settlement until all payments under the adjustment agreement have been made.

(3) "Cancellation" is the final discharge of a debt without any payment thereon.

(4) "Charge-off" is the writing off of a debt as an asset, without release of liability.

(5) "Settlement" is the compromise, adjustment, cancellation, or charge-off of a debt. The term "settlement" is used for convenience in referring to compromise, adjustment, cancellation, or charge-off actions, individually or collectively.

(b) *Collection efforts.* The authorities contained in this part for the settlement of debts will neither serve as justification for, nor permit prior to initiation of any debt settlement action, any relaxation of the efforts of officials to collect in full the debts owed the Farmers Home Administration in accordance with applicable policies and procedures.

(c) *Settlement of debts created recently.* It will not be the policy, generally, to compromise or adjust debts within a period of five years following the date on which they were created. Ordinarily, exceptions to this policy will be made only when it is obvious from the facts submitted in support of the debtor's application for settlement that conditions of a very unusual nature, which were beyond his control, developed after the debt was created and resulted directly in his inability to repay his indebtedness.

(d) *Review by County Committee.* The County Committee will review all applications for settlement of debts and will recommend approval or rejection. No application for settlement which is more favorable to the debtor than that recommended by the County Committee may be approved.

(e) *Determination that debtor has acted in good faith.* (1) When a debtor applies for the settlement of his indebtedness, before the application is approved consideration will be given as to whether he has acted in good faith in an effort to pay his debts to the Government. Some of the factors to consider in making this determination are.

(i) Whether the debtor has made any material misrepresentation or concealed any material facts in obtaining the loans.

(ii) Whether the debtor used substantial amounts of loan funds for unauthorized purposes which were detrimental to his operations.

(iii) Whether the debtor has attempted through the transfer or sale of security property or other assets, or by other means, to defeat efforts to collect the debt.

(2) A determination that a debtor has not acted in good faith will be based on the conditions, reasons, and intent which caused the debtor to fail to pay his debt. If such a determination is made, settlement will not be approved unless or until the debtor has made appropriate compensation therefor.

(3) Debts will not be settled if the debtor has committed any acts which may still subject him to criminal prosecution in connection with the debts involved in the offer.

(f) *Negotiating the settlement.* In negotiating a settlement the repayment ability and other circumstances of debtors will be discussed with them in order to assist in determining the proper type and terms of settlement offers. The present and future repayment ability of a debtor, considering the factors mentioned in this part, and any other pertinent factors will be the basis for determining whether the debts should be compromised, adjusted, or cancelled. It is impossible in cases eligible for debt settlement to forecast accurately the debtor's future repayment ability over a long period of time; consequently, the period of time during which payments on adjustment offers are to be made should not, except in unusual cases, exceed three years. Compromise and adjustment offers will not be negotiated with debtors who have no present or prospective future repayment ability under the policies stated in this part. An adjustment offer will not be approved in any case unless there is reasonable assurance that the debtor will be able to make payments as they become due.

(g) *Proceeds from the sale of security property.* Proceeds derived from the sale of security property, including crop security, will not be used in making a compromise or adjustment offer. Such proceeds are subject to application on the debtor's account, irrespective of an application for debt settlement. After such funds are received for credit to the debtor's account, he then may apply for settlement of his remaining indebtedness.

(h) *Settlement where debtor owes more than one type of loan.* As a general rule, it will not be the policy to settle the Operating or Emergency loan indebtedness of a debtor who is also indebted on a Real Estate loan, and who will continue as an active borrower.

(i) *Settlement of claims against estates.* Settlement of a claim against an estate under the provisions of this part will be based on the recovery that may reasonably be expected, taking into consideration such items as the cost of administration, dower rights, widow's allowances, funeral expenses, State taxes levied on the estate as such, and specific encumbrances on the property having priority over claims of the Government.

§ 364.3 *Compromise and adjustment.* Debts of less than $15,000 may be compromised or adjusted, on the application of the debtor(s), or if a debtor is unable to act for himself, on the application of his guardian, executor, administrator, or other person directly interested in his estate, subject to the policies and procedures contained in this part and subject to the following:

(a) The debt or any extension thereof on which compromise or adjustment is requested is due and payable, or the debt has been accelerated by written notice prior to the date of application.

(b) The debtor has offered an amount at least equal to the fair market value of the existing security for the debt, including crop security.

(c) The debtor is unable to pay his indebtedness in full and has offered an amount, in addition to the value of the security, which represents a reasonable determination of his ability to pay. The debtor's total assets, present and prospective income, living and operating expenses, age and health when he is dependent largely on income from an occupation in which his manual labor is required, and total liabilities and priority of payment rights are critical factors in determining whether he is eligible for any settlement and, if so, the type of settlement and the amount which he can reasonably be expected to offer.

§ 364.4 *Cancellation upon application.* Debts of less than $15,000 may be cancelled on application of the debtor(s), or if a debtor is unable to act for himself, on the application of his guardian, executor, administrator, or any other person directly interested in his estate, subject to the policies and procedures contained in this part and subject to the following:

(a) The employee of the Farmers Home Administration having charge of the account furnishes a report and favorable recommendation concerning the cancellation.

(b) The debt or any extension thereof, on which cancellation is requested, has been due and payable, or the debt has been accelerated by written notice, five years or more prior to the date of application.

(c) The debtor is unable to pay any part of his debt and has no reasonable prospect of being able to do so. The factors mentioned in § 364.3 (c) will be considered in determining the debtor's ability to pay.

§ 364.5 *Cancellation without application and without regard to amount.* Debts, without regard to amount, may be cancelled by use of Form FHA–859, "Cancellation or Charge-Off of FHA Indebtedness," upon a report and the favorable recommendation of the employee having charge of the account in the following instances.

(a) *Deceased debtors.* The debtor is deceased and the following conditions exist:

(1) There is no known security for the debt.

(2) If an administrator or executor has not been appointed to settle the estate of the borrower, the financial condition of the estate has been investigated and it has been established that there is no reasonable prospect of recovery.

(3) If an administrator or executor has been appointed to settle the estate of a debtor and a final settlement has been made and confirmed by the probate court and the Government's claim was recognized properly and the Government has received all funds it was entitled to, or a final settlement has not been made and confirmed by the probate court but there are no assets in the estate from which there is any reasonable prospect of recovery, or regardless of whether a final settlement has been made, there were assets in the estate from which recovery might have been effected but such assets have been disposed of or lost in a manner which precludes any reasonable prospect of recovery by the Government.

(b) *Disappeared debtors.* The debtor has been absent from his last known address for a period of at least five years, he has no known assets, his whereabouts cannot be ascertained without undue expense, and there is no existing security for the debt.

(c) *Cancellation of debts that have been discharged in bankruptcy.* Debts discharged in bankruptcy, except judgments obtained by United States Attorneys, may be canceled on the records of the Farmers Home Administration by the use of Form FHA–859, when the debt settlement form reflects that an opinion has been obtained from the Attorney in Charge showing that the discharge will bar legal action by the Government against the debtor to enforce collection of the debt.

§ 364.6 *Cancellation of small claims with principal of $150 or less.* Debts with a principal balance of $150 or less may be canceled without application by use of Form FHA–859 (or upon application by use of Form FHA–858), upon a report and the favorable recommendation of the employee having charge of the account when the indebtedness has all been due and paybale for five years or more, efforts to collect the account have been unsuccessful, and it is apparent that further collection efforts would be ineffectual or likely to prove uneconomical.

§ 364.7 *Charge-off of judgment debts without application.* Judgments obtained by United States Attorneys may be charged-off by use of Form FHA–859 upon a report and favorable recommendation of the employee having charge of the account, provided:

(a) The United States Attorney has closed his file in the case, and

(1) The debtor is deceased and all of the requirements of § 364.5 (a) has been met, or

(2) The debtor has been absent from his last known address for a period of at least five years and all of the requirements of § 364.5 (b) have been met, or

(3) The judgment has been discharged in bankruptcy and all of the requirements of § 364.5 (c) have been met, or

(4) A period of two years has elapsed since any collections were made on the judgment. The judgment debtor (all debtors, if more than one) has no property on which the judgment is a lien or on which it can presently be made a lien. The judgment is uncollectible in whole or in part.

§ 364.8 *Joint debtors.* Settlements may not be approved as to one joint debtor unless approved as to all debtors. The term "joint debtors" includes all persons who are legally liable for payment of the debt.

(a) Separate and individual adjustment offers from joint debtors should be accepted and processed only as a joint adjustment offer. Form FHA–858 should contain a statement that neither debtor will be released from liability for the full amount of the debt until all payments due under the joint offer have been made.

(b) A separate application will be completed by each debtor, unless the debtors are members of the same family, such as husband and wife, or mother and son, and their situation is such that all necessary information can be shown clearly in a single application. In the latter cases, the application will contain the required financial information for each debtor and will be signed by each.

(c) If one debtor applies for compromise, adjustment, or cancellation, and the other debtor does not join in the application or execute a separate application or is deceased, or has received a discharge of the debt in bankruptcy, or his whereabouts is unknown;

(1) Form FHA–858 will be prepared by showing at the top of the form the name of the debtor requesting settlement, followed by the name of the other debtor. In addition to the facts concerning the repayment ability of the debtor making the application, the income, expenses, assets, liabilities, and any other pertinent information concerning the other debtor will be shown. Form FHA–859 may be used if the total indebtedness is not in excess of $150 (principal) and the proposed action is cancellation. The names of the debtors will be shown at the top of the form in the same manner as on Form FHA–858. Sufficient information will be shown on Form FHA–859 to justify cancellation of the debt against each debtor.

(2) If all debtors are either deceased or have received a discharge of a debt in bankruptcy or their whereabouts are unknown, or if a combination of these situations exists, Form FHA–859 will be used and will be completed in the manner required in subparagraph (1) of this paragraph.

§ 364.9 *Cases referred to the Department of Justice—(a) Claims and judgments on which United States Attorney's file has not been closed.* When a claim is pending before, or a judgment has been obtained by, the United States Attorney, and the debtor requests settlement of his indebtedness, the County Supervisor will explain to him that the United States Attorney has exclusive jurisdiction over the claim or judgment and that, therefore, the Farmers Home Administration has no authority to consider a settlement offer, and that if he wishes to make a compromise or adjustment offer, he may submit it with any related payment direct to the United States Attorney. The County Supervisor, upon request by the debtor, may assist him in preparing the offer for submission to the United States Attorney, but the offer will be under the signature of the debtor. The offer may be made on Form FHA–858, if acceptable to the United States Attorney, or in such other manner as the debtor desires. The County Supervisor will not make any recommendations to the United States Attorney, or any statement or commitment to the debtor which might in any way prejudice the United States Attorney's handling of the case. The County Supervisor will advise the debtor that any payment submitted in connection with the offer should be in the form of a money order or cashier's check payable to the Treasurer of the United States. The County Supervisor will not issue a receipt for the payment.

(b) *Claims and judgments on which United States Attorney's file has been closed—(1) Claims.* When a claim has been referred to the United States Attorney and his file has been closed without taking judgment, the debt may be compromised, adjusted, or cancelled under this part.

(2) *Judgments.* When a judgment has been obtained by the United States Attorney and he has closed his file on the case, the judgment account may be charged off on the Farmers Home Administration records by the use of Form FHA–859, under the conditions set forth in § 364.7.

§ 364.10 *Regional Agricultural Credit Corporation and State Rural Rehabilitation Corporation judgments obtained in State courts by private attorneys.* Regional Agricultural Credit Corporation judgments obtained in State courts by private attorneys may be compromised, adjusted, or cancelled under this part. State Rural Rehabilitation Corporation judgments obtained in State courts by private attorneys may also be compromised, adjusted, or cancelled under this part.

§ 364.11 *Authority of State Director to approve a settlement.* (a) Subject to the policies, procedures, and limitations set forth in this part or as otherwise authorized by the Administrator of the Farmers Home Administration or his delegate in the National Office in individual cases, State Directors are authorized hereby to approve the compromise, adjustment, or cancellation upon application of debts in those cases where the indebtedness involved in the settlement is less than $15,000 (including principal, interest, and other charges), and the cancellation without application and the charge-off of debts without regard to amounts; provided, however, the following types of proposed settlements will be submitted to the National Office for consideration by the Administrator or his delegate before approval or rejection:

(1) Proposed debt settlement actions involving debts in excess of $10,000. Except as provided in paragraph (d) of this section, the settlement of debts upon application of $15,000 or more is not authorized.

(2) Compromise or adjustment offers where the indebtedness is not two years past due.

(3) The debts on which settlement is proposed include rent accounts, D–1 and other leases, Lease and Purchase Contracts that have been cancelled, or any other debts which have been reported to the General Accounting Office as uncollectible, if the file contains no evidence that the General Accounting Office has closed its file and agreed that the Farmers Home Administration may resume collection efforts, or that the account is known to be in the hands of the Department of Justice or the United States Attorney.

(4) A debt settlement is proposed and a further loan is contemplated.

(5) The proposed debt settlement is for an active borrower.

(6) It is impossible or impracticable for legal or other reasons to obtain the application as provided in §§ 364.3 and 364.4 of a living debtor whose whereabouts are known (or of all debtors if more than one) and all of the other applicable requirements of this part have been met. Such settlements will be documented on Form FHA–858 and submitted to the County Committee for consideration prior to submission to the National Office.

(7) The debtor's account is involved in a fiscal irregularity investigation case upon which final action has not been taken, or shows evidence that a shortage may exist and that an investigation should be made into the matter.

(8) The State Director wishes to obtain the views of the National Office on any proposed settlements not included in this paragraph.

(b) The authorities delegated to the State Director may be redelegated to State Office officials upon authorization from the Administrator.

(c) Offers of compromise of debts for $15,000 or more may be submitted to the National Office for referral to the Secretary of the Treasury or to the Attorney General. Such offers will be submitted in the form of a cashier's check, certified check, postal or bank money order, or bank draft payable to the Treasurer of the United States.

§ 364.12 *Preparation and processing of Form FHA–858.* Form FHA–858 will be used by debtors in making application for compromise adjustment, or cancellation of their debts.

(a) *Settlement payments and receipts.* An application with which the debtor offers a lump-sum payment in compromise, or with which he offers an initial payment on an adjustment offer, should be supported by the payments required therein at the time such application is filed in the County Office. Payments made in connection with offers will be refunded in the form of Treasury checks, if the offers are rejected. Payments may be in any form that is acceptable to the Farmers Home Administration as payments on accounts and will be receipted for, by officials of the Farmers Home Administration who are authorized to accept collections, on Form FHA–37, "Receipt for Payment." Payments offered by debtors in compromise or adjustment of debts will be transmitted to the Finance Office, as required in Part 362 of this chapter, with the exception that checks bearing restrictive notations such as "Settlement in full" or "Payment in full" always will be transmitted to the Finance Office without being exchanged for a bank draft. The same procedure will be followed if such restrictions are contained in a letter transmitting an offer, and the transmittal letter will be forwarded to the Finance Office with the offer.

(b) *Approval or rejection of offer.* The final action taken on an application for settlement will be indicated by the approving official who will sign and date the original Form FHA–858. When the debtor's application is approved, the original of Form FHA–858 will be forwarded to the Finance Office for processing. When a compromise offer or payments under an adjustment offer are involved and the debtor's offer is rejected, the State Director will request the Finance Office, by memorandum, to refund to the debtor, in care of the appropriate County Supervisor, any payments made on the offer. State Directors will notify debtors by letter of the final action taken on their applications for settlement. For rejected applications, the letter will set forth the reasons therefor.

§ 364.13 *Preparation and processing of Form FHA–859.* Form FHA–859 will be used to cancel or charge-off debts without application of the debtor. The form will be prepared in an original and two copies. The final action taken with respect to the cancellation or charge-off of debts without application will be indicated by the approving official who will sign and date the original of Form FHA–859.

§ 364.14 *Disposition of promissory notes.* All notes evidencing debts settled under this part, except those evidencing charged-off judgment debts, will be attached to Form FHA–869, "Journal Voucher for Write-Off or Judgment," and returned by the Finance Office to the appropriate County Office. Notes evidencing charged-off judgment debts will be retained in the Finance Office. Notes returned to the County Office will be disposed of in the following manner:

(a) Notes evidencing debts settled upon application will be returned to the debtor.

(b) Notes evidencing debts canceled without application will be placed in the debtor's County Office case folder or, upon request, delivered to him. If the debtor is deceased, the notes may, upon request, be delivered to his legal representative or to some other person directly interested in the estate, preferably the surviving spouse. Undelivered notes will be disposed of three years after the settlement is completed.

§ 364.15 *Delinquent adjustment agreements.* When a debtor defaults under his adjustment agreement, the State Director may void the agreement. When an adjustment agreement is voided, the State Director will notify the debtor giving the reasons therefor. Any payments made under the voided agreement will be retained as payments on the debt owed at the time of the application. Such payments may not be used as any part of a subsequent compromise or adjustment offer.

§ 364.16 *Finance Office handling.* (a) All payments evidenced by Form FHA–37, except payments in restrictive notation cases described in § 364.12 (a) will be held in Special Deposits by the Finance Office until notification is received from the State Office of the approval or rejection of the offer. Upon notification of the rejection of a debtor's offer and receipt of a request from the State Director for a refund, the Finance Office will refund to the debtor, in care of the appropriate County Supervisor, the amount held in Special Deposits representing a rejected compromise or adjustment offer. In restrictive notation cases the check or other payment media will be returned through the same channels.

(b) When a debtor's adjustment offer is approved, the accounts involved will not be adjusted in the records of the Finance Office until all payments have been made. In such cases, Form FHA–858 will be held in a suspense file pending payment of the full amount of the approved offer.

(c) When an approved compromise or cancellation settlement is processed, or when an approved adjustment offer is satisfied and processed, the Finance Office will stamp the notes satisfied which evidence the debts covered in the offer, provided all the amounts due under such notes are satisfied by the approved settle-

ment. Such promissory notes will then be handled as provided in § 364.14.

Dated: January 17, 1957.

[SEAL] H. C. SMITH,
Acting Administrator,
Farmers Home Administration.

[F. R. Doc. 57-548; Filed, Jan. 23, 1957; 8:51 a. m.]

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 727—MARYLAND TOBACCO

ANNOUNCEMENT AND APPORTIONMENT OF NATIONAL MARKETING QUOTA FOR 1957-58 MARKETING YEAR

§ 727.801 *Basis and purpose.* (a) Sections 727.801 and 727.802 are issued to announce the reserve supply level and the total supply of Maryland tobacco for the marketing year beginning October 1, 1956; to establish the amount of the national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1957; and to apportion such quota among the several States. The findings and determinations by the Secretary contained in § 727.802 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views, and recommendations received from Maryland tobacco producers and others as provided in a notice (21 F. R. 7493) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since Maryland tobacco growers are making plans for their 1957 farming operations and will soon be preparing plant beds and purchasing fertilizer and other materials, it is hereby found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the announcement and apportionment of the national marketing quota for Maryland tobacco for the 1957-58 marketing year contained herein shall become effective upon the date of filing with the Director, Division of the Federal Register.

§ 727.802 *Findings and determinations with respect to the amount of the national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1957*[1]—(a) *Reserve supply level.* The reserve supply level for Maryland tobacco is 102,200,000 pounds, calculated as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 30,000,000 pounds and a normal year's exports of 9,000,000 pounds.

(b) *Total supply.* The total supply of Maryland tobacco for the marketing year beginning October 1, 1956, is 108,500,000 pounds, consisting of estimated carryover of 70,000,000 pounds and estimated 1956 production of 38,500,000 pounds.

(c) *Carryover.* The estimated carryover of Maryland tobacco on January 1, 1958 is 68,800,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1956 of 39,700,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of Maryland tobacco which will make available during the marketing year beginning October 1, 1957, a supply of Maryland tobacco equal to the reserve supply level of such tobacco is 33,400,000 pounds, and a national marketing quota of such amount is hereby announced. It is determined, however, that a national marketing quota in the amount of 33,400,000 pounds would cause undue restriction of marketings during the 1957-58 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for Maryland tobacco in terms of the total quantity of tobacco which may be marketed during the marketing year beginning October 1, 1957, is 40,100,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Maryland	48,042
Virginia	34
Delaware	1
Reserve[2]	120

[2] Acreage reserved for establishing allotments for new farms.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply Secs. 301, 312, 313, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1312, 1313)

Done at Washington, D. C., this 18th day of January 1957. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 57-525; Filed, Jan 23, 1957; 8:46 a. m.]

[1] Rounded to the nearest tenth of a million pounds.

[Amdt. 2]

PART 730—RICE

SUBPART—RICE MARKETING QUOTAS FOR 1956 CROP

IDENTIFICATION OF RICE OBTAINED THROUGH REDEMPTION OF SOIL BANK CERTIFICATES

Basis and purpose. The amendments herein are issued under the rice marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, for the purpose of identifying rice obtained through redemption of Soil Bank Certificates, Form CCC 379, as being eligible for sale without being subject to penalty.

Since the only purpose of this amendment is to provide identification of penalty free rice, and since farmers are already eligible for Soil Bank Certificates, it is hereby found that compliance with the notice, procedure, and 30-day effective date provisions of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the amendments herein shall become effective upon filing of this document with the Director, Division of the Federal Register.

Section 730.769 is amended (a) by changing the title to read *"Lost, destroyed, or stolen marketing cards, marketing certificates, or soil bank delivery orders"*; (b) by adding at the end of paragraph (a) a new sentence as follows: "The same provisions for reporting the loss, destruction, or theft of a marketing card or certificate shall apply in reporting the loss, destruction, or theft of producers' copies of soil bank delivery orders (Form CCC-382 or CCC-103)."; and (c) by adding at the end of paragraph (b) a new sentence as follows: "The provisions of this paragraph for replacing lost, stolen, or destroyed marketing cards or marketing certificates shall apply in replacing lost, stolen, or destroyed producers' copies of soil bank delivery orders (Form CCC-382 or CCC-103)."

Section 730.775 is amended by adding the following sentence to the end thereof: "The quantity of rice obtained by a producer by redemption of Soil Bank Certificates (Form CCC-379) if offered for sale shall be taken by the buyer as penalty free if identified by a copy of the soil bank delivery order (Form CCC-382 or Form CCC-103) completely filled in by the county committee."

Section 730.788 is amended (a) by inserting in paragraph (b) (1), immediately following the word "rice" the language "or the name of the person who acquired the rice through redemption of a soil bank certificate,"; (b) by inserting in paragraph (b) (4), immediately after the language "or intermediate buyer's record and report (MQ-95-Rice (1956))" a comma and the language "or soil bank delivery order (Form CCC-382 or CCC-103)"; (c) by striking out in paragraph (c) the language "and 730.774" and inserting in lieu thereof the language "730.774, and 730.775"; (d) by changing the last sentence of paragraph (c) to read as follows: "It shall be presumed that rice was not identified by MQ-76-Rice (1956) as provided in § 730.772, or MQ-94-Rice as provided in § 730.773, or MQ-95-Rice (1956) as provided in § 730.774, or CCC-382 or CCC-103 as provided in § 730.775, if the serial number of the marketing card, marketing certificate, intermediate buyer's record and report, or soil bank delivery order does not appear on the records required to be kept pursuant to paragraph (b) of this section"; and (e) by adding at the end of paragraph (d) the following sentence: "The provisions of this paragraph for endorsing the intermediate buyer's record and report (MQ-95-Rice (1956)) when only a portion of the rice covered by the report is purchased shall also be followed when only a portion of the rice covered by a soil bank delivery order (Form CCC-382 or CCC-103), is purchased."

Issued at Washington, D. C., this 18th day of January 1957. Witness my hand and the seal of the Department of Agriculture.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375)

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 57-545; Filed, Jan. 23, 1957; 8:50 a. m.]

PART 730—RICE

SUBPART—1957-58 MARKETING YEAR

PROCLAMATION OF RESULTS OF MARKETING QUOTA REFERENDUM

Section 730.809 is issued to announce the results of the rice marketing quota referendum for the marketing year August 1, 1957, through July 31, 1958, under the provisions of the Agricultural Adjustment Act of 1938, as amended. The Secretary proclaimed a marketing quota for rice for the 1957-58 marketing year (21 F. R. 9161). The Secretary announced (21 F. R. 9197) that a referendum would be held on December 11, 1956, to determine whether rice producers were in favor of or opposed to marketing quotas for the marketing year August 1, 1957, through July 31, 1958. Since the only purpose of this proclamation is to announce results of the referendum, it is found and determined that with respect to this proclamation application of the notice and procedure provisions of the Administrative Procedure Act is unnecessary.

§ 730.809 *Proclamation of the results of the rice marketing quota referendum for the marketing year 1957-58.* In a referendum of farmers engaged in the production of rice for the 1956 crop held on December 11, 1956, 6,984 farmers voted. Of those voting 6,384 or 91.4 percent favored quotas for the marketing year beginning August 1, 1957. Therefore, rice marketing quotas will be in effect for the 1957-58 marketing year.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375)

Issued this 18th day of January 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 57-547; Filed, Jan. 23, 1957; 8:51 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 945—TOMATOES GROWN IN FLORIDA

APPROVAL OF EXPENSES AND RATE OF ASSESSMENT

Notice of rule making regarding proposed expenses and rate of assessment, to be made effective under Marketing Agreement No. 125 and Order No. 45 (7 CFR Part 945), regulating the handling of tomatoes grown in Florida, was published in the FEDERAL REGISTER January 5, 1957 (22 F. R. 146). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, which proposals were adopted and submitted for approval by the Florida Tomato Committee, established pursuant to said marketing agreement and order, it is hereby found and determined that:

§ 945.202 *Expenses and rate of assessment.* (a) The reasonable expenses that are likely to be incurred by the Florida Tomato Committee, established pursuant to Marketing Agreement No. 125 and Order No. 45, to enable such committee to perform its functions pursuant to the provisions of aforesaid marketing agreement and order during the fiscal period ending July 31, 1957, will amount to $97,000.00.

(b) The rate of assessment to be paid by each handler, pursuant to Marketing Agreement No. 125 and Order No. 45, shall be one cent ($0.01) per 60-pound crate of tomatoes, or respective equivalent quantities thereof, handled by him as the first handler thereof during said fiscal period.

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 125 and Order No. 45.

(49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated, January 18, 1957, to become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Marketing Services.

[F. R. Doc. 57-543; Filed, Jan. 23, 1957; 8:50 a. m.]

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 522—EMPLOYMENT OF LEARNERS

LUGGAGE, SMALL LEATHER GOODS AND LADIES' HANDBAG INDUSTRIES

Pursuant to notice published in the FEDERAL REGISTER (21 F. R. 5421), interested persons were given opportunity to submit oral and written data, views, and arguments before Verl E. Roberts, my authorized representative, on August 2, 1956, in the Department of Labor Building, Washington, D. C., on the question of what provision, if any, for the employment of learners at wages lower than $1.00 per hour in the luggage, small leather goods and ladies' handbag industries is necessary in order to prevent curtailment of opportunities for employment. Mr. Roberts has reported his findings to me and recommended that in the absence of extraordinary circumstances applications for the employment of learners at wages less than $1.00 per hour from plants in the above named industries henceforth be denied, and that in those cases which present such exceptional circumstances as might warrant the issuance of a certificate in order to prevent curtailment of opportunities for employment, full opportunity be afforded all interested parties to present their views before action is taken upon the application.

Having fully considered all pertinent data available to me I accept these findings and recommendations, and intend to amend the learner regulations as contained in Title 29, Part 522 of the Code of Federal Regulations in order to show what standards will govern the issuance of learner certificates at wages lower than $1.00 per hour to plants in the luggage, small leather goods and ladies' handbag industries.

Now, pursuant to authority under section 14 of the Fair Labor Standards Act of 1938 (Section 14, 52 Stat. 1068, as amended; 29 U. S. C. 214), and General Order No. 45-A (15 F. R. 3290) and in accordance with § 522.11 (29 CFR Part 522), Part 522 of the Code of Federal Regulations (29 CFR Part 522) is amended by the addition of §§ 522.90 to 522.93 to read as follows:

LUGGAGE, SMALL LEATHER GOODS AND LADIES' HANDBAG INDUSTRIES

§ 522.90 *Applicability of general learner regulations.* The employment of learners pursuant to the provisions of §§ 522.90 to 522.93 shall be subject to all provisions of the general regulations governing the employment of learners (§§ 522.1 to 522.12), except to the extent to which any provision of such general regulations is inconsistent with any provision of §§ 522.90 to 522.93.

§ 522.91 *Applicability of §§ 522.90 to 522.93.* For purposes of §§ 522.90 to 522.93, the luggage, small leather goods and ladies' handbag industries are defined as those industries manufacturing luggage, small leather goods and ladies' handbags.

§ 522.92 *Insurance of learner certificates.* In the absence of extraordinary circumstances applications for the employment of learners at wages lower than $1.00 per hour in these industries shall be denied.

§ 522.93 *Learner certificates in extraordinary circumstances.* In those cases where extraordinary circumstances are shown to exist, learner certificates for the employment of learners at wages lower than $1.00 per hour shall be issued in accordance with the provisions of the general learner regulations (§§ 522.1 to 522.12) only after all interested parties have been given opportunity to present their views on the application pursuant to § 522.4.

(Sec. 14, 52 Stat. 1068, as amended; 29 U. S. C. 214)

Because these amendments merely provide the policy which will guide the Administrator in issuing certificates in the future, they shall take effect upon publication in the FEDERAL REGISTER.

A copy of the findings and recommendations will be sent to any interested person upon request. All requests should be addressed to the Administrator of the Wage and Hour Division, United States Department of Labor Building, Fourteenth and Constitution Avenue, NW., Washington 25, D. C.

Signed at Washington, D. C., this 17th day of January 1957.

NEWELL BROWN,
Administrator.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 232]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, RADAR, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The terminal very high frequency omnirange (TVOR) procedures prescribed in § 609.9 are amended to read in part:

TVOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. NOTE: Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a TVOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for an en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility: class and identification; procedure No. (TVOR); effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance from int. runway center line extended and final course to approach end of runway	Ceiling and visibility minimums: Condition	2 engines or less: 65 knots or less	2 engines or less: More than 65 knots	More than 2 engines; more than 65 knots	If visual contact not established at TVOR, or if landing not accomplished
1	2	3	4	5	6	7	8	9	10	11	12
CEDAR RAPIDS, IOWA Municipal, 863'. VOR-CID. TVOR 8. Amendment: Original. Effective date: January 16, 1957. No tower. NOTE: If Walford Intersection* not received, descent below 1,500' not authorized and landing minimums of 600' applicable to straight-in and circling approaches.
CEDAR RAPIDS, IOWA Municipal, 863'. VOR-CID. TVOR 26. Amendment: Original. Effective date: January 16, 1957.	Iowa City VOR	Direct	2,000	S side of course: 079° outbound. 259° inbound. 2,200' within 10 miles. Procedure turn nonstandard to avoid obstructions.	Ely Intersection* 1,500	265—0.3 From Ely Intersection* to CID-VOR 079-4.8.	T-dn C-d C-n S-dn 26 A-dn	300–1 500–1 500–2 400–1 800–2	300–1 500–1 500–2 400–1 800–2	200–½ 500–1½ 500–2 400–1 800–2	Within 4.8 miles, climb to 2,000' on R-272 CID within 20 miles. *Ely Intersection: Intersection R-355 IOW and R-079 CID. No tower. NOTE: If Ely Intersection* not received, descent below 1,500' not authorized and landing minimums of 600' applicable to straight-in and circling approaches.

2. The instrument landing system procedures prescribed in § 609.11 are amended to read in part:

ILS STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an ILS instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below:

City and State; airport name, elevation; facility: class and identification; procedure No.; effective date.	Transition to ILS: From—	To—	Course and distance	Minimum altitudes (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude at glide slope interception inbound (ft.)	Altitude of glide slope and distance to approach end of runway at—: Outer marker	Middle marker	Ceiling and visibility minimums: Condition	2 engines or less: 65 knots or less	2 engines or less: More than 65 knots	More than 2 engines (more than 65 knots)	If visual contact not established upon descent to authorized landing minimums or if landing not accomplished—
1	2	3	4	5	6	7	8	9	10	11	12	13	14
New York, N. Y. International, 12'. ILS–IWY. Procedure No. 3. Amendment: Original. Effective date: January 16, 1957. TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

[T. D. 6223]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

INTEREST

On July 6, 1955, notice of proposed rule making regarding the regulations under section 163 relating to interest for taxable years beginning after December 31, 1953, and ending after August 16, 1954, of the Internal Revenue Code of 1954 was published in the FEDERAL REGISTER (20 F. R. 4775). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the following regulations are hereby adopted:

§ 1.163 *Statutory provisions; itemized deductions for individuals and corporations; interest.*

SEC. 163. *Interest*—(a) *General rule.* There shall be allowed as a deduction all interest paid or accrued within the taxable year on indebtedness.

(b) *Installment purchases where interest charge is not separately stated*—(1) *General rule.* If personal property is purchased under a contract—

(A) Which provides that payment of part or all of the purchase price is to be made in installments, and

(B) In which carrying charges are separately stated but the interest charge cannot be ascertained,

then the payments made during the taxable year under the contract shall be treated for purposes of this section as if they included interest equal to 6 percent of the average unpaid balance under the contract during the taxable year. For purposes of the preceding sentence, the average unpaid balance is the sum of the unpaid balance outstanding on the first day of each month beginning during the taxable year, divided by 12.

(2) *Limitation.* In the case of any contract to which paragraph (1) applies, the amount treated as interest for any taxable year shall not exceed the aggregate carrying charges which are properly attributable to such taxable year.

(c) *Cross references.* (1) For disallowance of certain amounts paid in connection with insurance, endowment, or annuity contracts, see section 264.

(2) For disallowance of deduction for interest relating to tax-exempt income, see section 265 (2).

(3) For disallowance of deduction for carrying charges chargeable to capital account, see section 266.

(4) For disallowance of interest with respect to transactions between related taxpayers, see section 267.

§ 1.163–1 *Interest deduction in general.* (a) Except as otherwise provided in sections 264–267, inclusive, interest paid or accrued within the taxable year on indebtedness shall be allowed as a deduction in computing taxable income.

(b) Interest paid by the taxpayer on a mortgage upon real estate of which he is the legal or equitable owner, even though the taxpayer is not directly liable upon the bond or note secured by such mortgage, may be deducted as interest on his indebtedness. Payments of Maryland or Pennsylvania ground rents are deductible as interest if the ground rent is redeemable, but are treated as rent if the ground rent is irredeemable and in such case are deductible only to the extent they constitute a proper business expense.

(c) Interest calculated for costkeeping or other purposes on account of capital or surplus invested in the business which does not represent a charge arising under an interest-bearing obligation, is not an allowable deduction from gross income. Interest paid by a corporation

on scrip dividends is an allowable deduction. So-called interest on preferred stock, which is in reality a dividend thereon, cannot be deducted in computing taxable income. (See, however, section 583.) In the case of banks and loan or trust companies, interest paid within the year on deposits, such as interest paid on moneys received for investment and secured by interest-bearing certificates of indebtedness issued by such bank or loan or trust company, may be deducted from gross income.

§ 1.163–2 *Installment purchases where interest charge is not separately stated*—(a) *In general.* Whenever there is a contract for the purchase of personal property providing for payment of part or all of the purchase price in installments and there is a separately stated carrying charge (including a finance charge, service charge, and the like) but the actual interest charge cannot be ascertained, a portion of the payments made during the taxable year under the contract shall be treated as interest and is deductible under section 163 and this section. Section 163 (b) contains a formula, described in paragraph (b) of this section, in accordance with which the amount of interest deductible in the taxable year must be computed. This formula is designed to operate automatically in the case of any installment purchase, without regard to whether payments under the contract are made when due or are in default. For applicable limitations when an obligation to pay is terminated, see paragraph (c) of this section.

(b) *Computation.* The portion of any such payments to be treated as interest shall be equal to 6 percent of the average unpaid balance under the contract during the taxable year. For purposes of this computation, the average unpaid balance under the contract is the sum of the unpaid balance outstanding on the first day of each month beginning during the taxable year, divided by 12.

(c) *Limitations.* The amount treated as interest under section 163 (b) and this section for any taxable year shall not exceed the amount of the payments made under the contract during the taxable year nor the aggregate carrying charges properly attributable to each contract for such taxable year. In computing the amount to be treated as interest if the obligation to pay is terminated as, for example, in the case of a repossession of the property, the unpaid balance on the first day of the month during which the obligation is terminated shall be zero.

(d) *Illustrations.* The provisions of this section may be illustrated by the following examples:

Example (1). On January 20, 1955, A purchased a television set for $400, including a stated carrying charge of $25. The down payment was $50, and the balance was paid in 14 monthly installments of $25 each, on the 20th day of each month commencing with February. Assuming that A is a cash method, calendar year taxpayer and that no other installment purchases were made, the amount to be treated as interest in 1955 is $12.38, computed as follows:

YEAR 1955

First day of:	Unpaid balance outstanding
January	$0
February	350
March	325
April	300
May	275
June	250
July	225
August	200
September	175
October	150
November	125
December	100
	2,475

Sum of unpaid balances $2,475÷12=$206.25; 6 percent thereof=$12.38

Example (2). On November 20, 1955, B purchased a furniture set for $1250, including a stated carrying charge of $48. The down payment was $50 and the balance was payable in 12 monthly installments of $100 each, on the first day of each month commencing with December 1955. Assume that B is a cash method, calendar year taxpayer and that no other installment purchases were made. Assume further that B made the first payment when due, but made only one other payment on June 1, 1956. The amount to be treated as interest in 1955 is $4, and the amount to be treated as interest in 1956 is $33, computed as follows:

YEAR 1955

First day of:	Unpaid balance outstanding
December	$1,200

Sum of unpaid balances $1,200÷12=$100 6 percent thereof=$6.

Carrying charges attributable to 1955=$4.

YEAR 1956

First day of:	Unpaid balance outstanding
January	$1,100
February	1,000
March	900
April	800
May	700
June	600
July	500
August	400
September	300
October	200
November	100
	6,600

Sum of unpaid balances $6,600÷12=$550 6 percent thereof=$33.

Carrying charges attributable to 1956=$44 ($4×11).

Example (3). Assume the same facts as in example (2), except that the furniture was repossessed and B's obligation to pay terminated as of July 15, 1956. The amount to be treated as interest in 1955 is $4, computed as in example (2) above. The amount to be treated as interest in 1956 is $25.50, computed as follows:

YEAR 1956

First day of:	Unpaid balance outstanding
January	$1,100
February	1,000
March	900
April	800
May	700
June	600
July–November	0
	5,100

Sum of unpaid balances $5,100÷12=$425 six percent thereof=$25.50.

Carrying charges attributable to 1956=$44 ($4×11).

(e) *Effective date.* The provisions of section 163 are effective for taxable years beginning after December 31, 1953, and ending after August 16, 1954. The rule provided in section 163 (b) and this section applies to payments made during such taxable years regardless of when the contract of sale was made.

(Sec. 7805, 68A Stat. 917; 26 U. S. C. 7805)

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: January 17, 1957.

DAN THROOP SMITH,
Deputy to the Secretary of the Treasury.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter VI—Business and Defense Services Administration, Department of Commerce

[BDSA Reg. 2 (formerly NPA Reg. 2), Direction 8 of January 18, 1957]

BDSA REG. 2—BASIC RULES OF THE PRIORITIES SYSTEM

DIR. 8—NOTICE OF ACCEPTANCE OR REJECTION OF DX RATED ORDERS AND OF DELAYED SHIPMENT OF CERTAIN DO RATED ORDERS

This direction under BDSA Reg. 2 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

Sec.
1. What this direction does.
2. Notification of acceptance or rejection of certain rated orders.
3. Notification of delayed shipment of certain accepted rated orders.
4. Applicability of other regulations and orders.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, as amended, sec. 1, Pub. Law 632, 84th Cong., 70 Stat. 408; 50 U. S. C. App. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended, sec. 705, 64 Stat. 816, as amended; 50 U. S. C. App. 2071, 2155. E. O. 10480, 18 F. R. 4939; 3 CFR, 1953 Supp.

SECTION 1. *What this direction does.* This direction prescribes a time limit within which a supplier must accept or reject DX rated orders. It also requires notification of displacement of DO rated orders by DX rated orders.

SEC. 2. *Notification of acceptance or rejection of certain rated orders.* Each person who receives a DX rated order shall transmit written notification to the person who tendered such order of its acceptance or rejection within 5 consecutive calendar days after its receipt. If such notification is a rejection it shall set forth the reason or reasons for the rejection.

SEC. 3. *Notification of delayed shipment of certain accepted rated orders.* If a person who has accepted a DO rated order finds that he cannot fill it approximately on time because of subsequent acceptance by him of a DX rated order, he shall transmit written notification to the person who placed such DO rated order within 5 consecutive calendar days after acceptance of such DX rated order. Such notification shall indicate when the supplier expects to fill the DO rated order.

SEC. 4. *Applicability of other regulations and orders.* The provisions of all DMS regulations and all other BDSA regulations and orders, including the directions and amendments thereto, as heretofore issued, are superseded to the extent to which they are inconsistent with the provisions of this direction. In all other respects the provisions of such regulations, orders, directions, and amendments shall remain in full force and effect.

This direction shall take effect January 18, 1957.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
H. B. MCCOY,
Administrator.

[F. R. Doc. 57–539; Filed, Jan. 23, 1957; 8:49 a. m.]

[DMS Regulation No. 1, Direction 10 of January 18, 1957]

DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

DIR. 10—HOW TO IDENTIFY CERTAIN AUTHORIZED CONTROLLED MATERIAL ORDERS

This direction under DMS Regulation No. 1 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

Sec.
1. What this direction does.
2. Special identification of certain authorized controlled material orders.
3. Special identification not to accord special priority.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, as amended, sec. 1, Pub. Law 632, 84th Cong., 70 Stat. 408; 50 U. S. C. App. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended, sec. 705, 64 Stat. 816, as amended; 50 U. S. C. App. 2071, 2155. E. O. 10480, 18 F. R. 4939; 3 CFR, 1953 Supp.

SECTION 1. *What this direction does.* This direction provides a means for special identification of authorized controlled material orders placed to fulfill DX rated orders.

SEC. 2. *Special identification of certain authorized controlled material orders.* Each person who has accepted a DX rated order shall use the letters "DX" to identify authorized controlled material orders placed by him to fulfill such DX rated order. The letters "DX" shall appear after the allotment number and quarterly identification on the authorized controlled material order, for example, A–2–2Q57–DX. Except as provided in this section or as otherwise specifically provided by BDSA, no person shall use the letters "DX" to identify authorized controlled material orders.

This direction shall take effect January 18, 1957.

[DMS Regulation No. 2, Direction 4 of January 18, 1957]

DMS REG. 2—CONSTRUCTION UNDER THE DEFENSE MATERIALS SYSTEM

DIR. 4—HOW TO IDENTIFY CERTAIN AUTHORIZED CONTROLLED MATERIAL ORDERS

This direction under DMS Regulation No. 2 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

Sec.
1. What this direction does.
2. Special identification of certain authorized controlled material orders.
3. Special identification not to accord special priority.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, as amended, sec. 1, Pub. Law 632, 84th Cong., 70 Stat. 408; 50 U. S. C. App. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended, sec. 705, 64 Stat. 816, as amended; 50 U. S. C. App. 2071, 2155. E. O. 10480, 18 F. R. 4939; 3 CFR, 1953 Supp.

SECTION 1. *What this direction does.* This direction provides a means for special identification of authorized controlled material orders placed to fulfill authorized construction schedules bearing DX ratings and to fulfill DX rated orders.

SEC. 2. *Special identification of certain authorized controlled material orders.* Each person who has received an authorized construction schedule bearing a DX rating or who has accepted a DX rated order shall use the letters "DX" to identify authorized controlled material orders placed by him to fulfill such authorized construction schedule or DX rated order. The letters "DX" shall appear after the allotment number and quarterly identification on the authorized controlled material order, for example, A–2–2Q57–DX. Except as provided in this section or as otherwise specifically provided by BDSA, no person shall use the letters "DX" to identify authorized controlled material orders.

SEC. 3. *Special identification not to accord special priority.* The letters "DX" appearing on an authorized controlled material order shall be solely for purposes of identification, and shall not entitle such order to priority in acceptance or delivery over any other authorized controlled material order.

This direction shall take effect January 18, 1957.

TITLE 45—PUBLIC WELFARE

Chapter V—Foreign Claims Settlement Commission of the United States

Subchapter A—Rules of Practice

PART 501—SUBPOENAS, DEPOSITIONS AND OATHS

Subchapter B—Receipt, Administration and Payment of Claims Under the War Claims Act of 1948, as Amended

PART 525—HEARINGS

Subchapter C—Receipt, Administration and Payment of Claims Under the International Claims Settlement Act of 1949, as Amended

PART 531—FILING OF CLAIMS AND PROCEDURES THEREFOR

MISCELLANEOUS AMENDMENTS

1. After § 531.5 (e) a new paragraph is added as follows:

(f) Public notice shall be promptly posted on said bulletin board of the filing of any objections to, or request for a hearing on any proposed decision.

2. Former paragraphs (f), (g), and (h) of § 531.5 are redesignated paragraphs (g), (h), and (i), respectively.

3. Paragraph (g), as redesignated by the above, of § 531.5 is amended to read as follows:

(g) Upon the expiration of twenty days after such service or receipt of notice, if no objection under this section has in the meantime been filed, such proposed decision may by further order of the Commission become the Commission's final determination and decision upon the claim.

(Sec. 3, 64 Stat. 13, as amended; 22 U. S. C. 1622)

4. Paragraph (b) of § 501.7 is amended to read as follows:

(b) *Enlargement.* When by the regulations in this chapter or by a notice given thereunder or by order of the Commission an act is required or allowed to be done at or within a specific time, the Commission for good cause shown may, at any time in its discretion (1)

with or without motion or notice, previous order or (2) upon motion permit the act to be done after the expiration of the specified period.

(Sec. 2, 62 Stat. 1240; 50 U. S. C. App. 2001)

5. Section 525.1 is amended to read as follows:

§ 525.1 *Basis for hearing.* Any claimant whose claim is denied or is approved for less than the full allowable amount under sections 5, 6, 7 (h), 15, 16 and 17 of the War Claims Act of 1948, as amended, shall be entitled to a hearing from such determination.

(Sec. 2, 62 Stat. 1240; 50 U. S. C. App. 2001)

These additions and amendments shall become effective as of the date of filing with the Federal Register.

WHITNEY GILLILLAND,
Chairman, Foreign Claims Settlement Commission of the United States.

[7 CFR Part 933]

[Docket No. AO-85-A3]

ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO AMENDED MARKETING AGREEMENT AND ORDER

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Auditorium, Florida Citrus Mutual Building, Massachusetts Avenue and Orange Street, Lakeland Florida, beginning at 10:00 a. m., e. s. t., February 25, 1957, with respect to proposed amendments to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), hereinafter referred to as the "marketing agreement" and "order," respectively, regulating the handling of oranges, grapefruit and tangerines grown in Florida. The proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions relating to the proposed amendments, which are hereinafter set forth, and to any appropriate modifications thereof.

The following amendments to the marketing agreement and order have been proposed by the Growers Administrative and Shippers Advisory Committees, established pursuant to the provisions of the marketing agreement and order:

1. Amend § 933.4 *Fruit* and § 933.5 *Variety* to include the fruit classified as Tangelos.

2. Delete from § 933.4 *Fruit* and § 933.13 *Regulation Area I* the words "State of Florida" and substitute therefor the words "Production area."

3. Amend § 933.7 *Handler* to include as a handler any person who ships fruit.

4. Revise § 939.9 *Ship* to read as follows:

§ 933.9 *Ship.* "Ship" is synonomous with "handle" and means (a) to sell, consign, deliver, or transport fruit from any point within the production area to any point outside thereof in the continental United States or Canada, and (b) the exportation, other than to Canada, of fruit from any United States port.

5. Delete from paragraph (c) of § 933.12 *District* the following counties: "Dixie, Lafayette, Hamilton, Madison, Taylor, Jefferson, Leon, Wakulla, Gadsden, Liberty, Franklin, Gulf, Calhoun, Jackson, Bay, Washington, Holmes, Walton, Okaloosa, Santa Rosa, and Escambia."

6. Insert immediately after § 933.14 the following new section:

§ 933.15 *Production area.* "Production area" means that portion of the State of Florida, which is bounded by the Suwannee River, the Georgia border, the Atlantic Ocean, and the Gulf of Mexico.

7. Amend paragraph (a) of § 933.41 *Assessments* by inserting, after the second word of the first sentence, the words "who first handles fruit" and changing the period at the end of the last sentence to a semicolon and adding the following: "and the payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative."

8. Delete from § 933.31 (j) and from § 933.32 (c) the reference to "§§ 933.51 or 933.60" and insert in lieu thereof "§ 933.51."

9. Delete the main heading entitled: "Regulation by grades and sizes" which precedes § 933.50 and insert in lieu thereof the main heading: "Regulations."

10. Delete §§ 933.51, 933.52, and 933.53 and insert in lieu thereof the following:

§ 933.51 *Recommendations for regulation.* (a) Whenever the Shippers Advisory Committee deems it advisable to regulate any variety or varieties in the manner provided in § 933.52 it shall promptly submit such recommendation, with supporting information, to the Growers Administrative Committee. In making such determination, the said committee shall give due consideration to the following factors relating to the citrus fruit produced in Florida and in other States: (1) Market prices, including prices by grades and sizes of the fruit for which regulation is recommended; (2) amount on hand at the principal markets, as evidenced by supplies on track; (3) maturity, condition, and available supply, including the grade and size thereof in the producing areas; (4) other pertinent market information; and (5) the level and trend in consumer income. The Growers Administrative Committee shall submit to the Secretary the recommendation of the Shippers Advisory Committee, together with its own recommendations and supporting information respecting factors enumerated in this section.

(b) The failure of the Shippers Advisory Committee to make a recommendation, after having received notice of the intention of the Growers Administrative Committee to meet for the purpose of receiving such recommendations with respect to regulations authorized by § 933.52, shall not preclude the Growers Administrative Committee from submitting recommendations and supporting information to the Secretary.

(c) The Growers Administrative Committee shall give at least 24 hours notice of any meeting to consider the recommendation of regulations pursuant to § 933.52, by publication in daily newspapers, selected by the said committee, of general circulation in the citrus-producing districts of the production area, and shall mail a copy of such notice to each handler who has filed his address with said committee for this purpose. The said committee shall give the same notice of any such recommendation at least 48 hours before the time it is recommended that such regulation become effective.

§ 933.52 *Regulation by the Secretary.* (a) Whenever the Secretary shall find from the recommendations and reports of the Shippers Advisory Committee and the Growers Administrative Committee, or from other available information, that to limit the shipment of any variety would tend to effectuate the declared policy of the act, he shall so limit the shipment of such variety during a specified period or periods. Such regulations may:

(1) Provide that shipments of any variety or varieties grown in Regulation Area I, Regulation Area II, or both areas, shall be limited to such grades, sizes, or both grades and sizes, as shall be prescribed, and any such limitation may provide that shipments of any variety grown in Regulation Area II shall be limited to grades and sizes different from the grade and size limitations applicable to shipments of the same variety grown in Regulation Area I;

(2) Limit the shipment of any variety or varieties by establishing and maintaining, only in terms of grades, sizes, or both, minimum standards of quality and maturity;

(3) Limit the shipment of the total quantity of any variety or varieties, by prohibiting the shipment thereof: *Provided*, That no such prohibition shall be effective during any fiscal period with respect to any variety, (i) for more than two periods, (ii) for more than a total of fourteen days, and (iii) during any period other than December 20 to January 20, both dates inclusive;

(4) Provide that shipments of any variety for export, other than to Canada, shall be limited to grades and sizes different from the grade and size limitation applicable to shipments of such variety in the United States and to Canada, and specify condition requirements for such variety; and

(5) Fix the size, capacity, weight, dimensions, or pack of the container or containers which may be used in the shipment of fruit for export, other than to Canada: *Provided*, That such regulation shall not authorize the use of any container which is prohibited for use for fruit under the provisions of the Florida Citrus Code.

(b) Prior to the beginning of any such regulation the Secretary shall notify the Growers Administrative Committee of the regulation issued by him, which committee shall notify all handlers by publication in daily newspapers, selected by the said committee, of general circulation in the citrus producing districts of Florida: *Provided*, That when the regulation as issued is different from the recommendation of the committee, notice thereof shall be given also by mailing a copy thereof to each handler who has filed his address with said committee for this purpose.

(c) Whenever the Secretary finds from the recommendations and reports of the Shippers Advisory Committee and the Growers Administrative Committee, or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of fruit in order to effectuate the declared policy of the act, he shall so modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis, and in like manner, the Secretary may terminate any such modification or suspension.

(d) Whenever any variety is regulated pursuant to paragraph (a) (3) of this section no such regulation shall be deemed to limit the right of any person to sell or contract to sell such variety, but no handler shall ship any fruit of such variety which was packed during the effective period of such regulation.

§ 933.53 *Inspection and certification.* (a) Whenever the handling of any variety of a type of fruit is regulated pursuant to § 933.52, each handler who handles any variety of such type of fruit shall, prior thereto, cause each lot of shall be required when the fruit previously has been so inspected and certified by it as meeting all applicable requirements of such regulation: *Provided*, That such inspection and certification shall be required when the fruit previously has been so inspected and certified only if (1) such fruit has been regraded, resorted, or repackaged after such prior inspection and certification, or (2) such prior inspection was not performed within such time limitations as may be prescribed pursuant to paragraph (b) of this section. Each handler shall promptly submit, or cause to be submitted, to the Growers Administrative Committee a copy of each certificate of inspection issued to him covering varieties so handled.

(b) With respect to any variety or varieties regulated pursuant to § 933.52 (a) (4), the Growers Administrative Committee may prescribe, with the approval of the Secretary, such requirements with respect to time of inspection as it may deem necessary to insure satisfactory condition of the fruit at destination.

11. Delete §§ 933.60, 933.61, and 933.62 and the immediately preceding main heading entitled "Regulation of shipments."

12. Amend § 933.80 *Fruit not subject to regulation* to read as follows:

§ 933.80 *Fruit not subject to regulation.* (a) Except as otherwise provided in this section, any person may, without regard to the provisions of § § 933.51, 933.52, and 933.53, and the regulations issued thereunder, ship any variety (1) to a charitable institution for consumption by such institution; (2) to a relief agency for distribution by such agency; (3) to a commercial processor for canning or freezing by such processor; (4) by parcel post; or (5) in such minimum quantities, or for such specified purposes, as the committee with the approval of the Secretary may prescribe. No assessment shall be levied on fruit so shipped. The Growers Administrative Committee shall, with the approval of the Secretary, prescribe such rules, regulations, or safeguards as it may deem necessary to prevent varieties handled under the provisions of this section from entering channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications with the committee for authorization to handle a variety pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the variety will not be used for any purpose not authorized by this section.

(b) As used in this section, the term "canning or freezing" means the conversion of fruit into canned products, frozen juice, frozen segments, or processed into beverage base. Fruit shipped for conversion into fruit juices or products other than by canning or freezing shall be subject to all regulations contained in this subpart.

The Fruit and Vegetable Division, Agricultural Marketing Service, has proposed that consideration be given to:

13. Making such other changes in the marketing agreement and order as may be necessary to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing may be obtained from the office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., or the Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, P. O. Box 19, Lakeland, Florida.

Dated: January 18, 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator, Marketing Services.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 9]

COLOR CERTIFICATION

NOTICE OF PROPOSALS TO AMEND DEFINITION FOR TERM "COAL-TAR COLOR"

Notice is hereby given that pursuant to the authority delegated to him by the Secretary of Health, Education, and Welfare the Commissioner of Food and Drugs, on his own initiative, proposes that the definition of the term "coal-tar color" as it appears in § 9.1 (a) of the regulations for color certification (21 CFR 9.1 (a)) be amended as hereinafter indicated.

Notice is also given that a petition has been filed by Hoffmann-LaRoche Inc., Nutley, New Jersey, seekng amendment of this same paragraph in the color-certification regulations (supra) by a proposal worded differently from the one initiated by the Commissioner, as may be seen by comparing the two proposals as hereinafter set forth.

Pursuant to the authority of the Federal Food, Drug, and Cosmetic Act (secs. 406, 504, 604, 701; 52 Stat. 1049, 1052, 1055, as amended 70 Stat. 919; 21 U. S. C. 346, 354, 364, 371) and delegated to him by the Secretary of Health, Education, and Welfare (20 F. R. 1996), the Commissioner of Food and Drugs invites all interested persons to present their views in writing regarding the two proposals published herein. Views and comments should be submitted in quintuplicate, addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, Health, Education, and Welfare Building, 330 Independence Avenue SW., Washington 25, D. C., prior to the thirtieth day following publication of this notice in the FEDERAL REGISTER.

As currently worded, the definition of the term "coal-tar color" in the color-certification regulations is as follows:

§ 9.1 *Definitions.* For the purposes of this part:

(a) The term "coal-tar color" means articles which (1) are composed of or contain any substance derived from coal tar, or any substance so related in its chemical structure to a constituent of coal tar as to be capable of derivation from such constituent; and (2) when added or applied to a food, drug, cosmetic, or the human body or any part

thereof, are capable (alone or through reaction with other substance) of imparting color thereto.

The proposal of the Commissioner of Food and Drugs is to replace the period after the word "thereto" at the end of paragraph (a) of § 9.1 with a semicolon and to add the following: "except that the following substances are not regarded as coal-tar colors: Carotenoids isolated from vegetable sources without intermediate or final change of identity; cochineal or carmine from Coccus cacti; alkanet from Alkanna tinctoria; chlorophyll from vegetable sources; chlorophyllins and salts thereof prepared from chlorophyll from vegetable sources; phaeophytin and metal compounds or salts thereof prepared from chlorophyll from vegetable sources; carbon black; charcoal black; caramel obtained from carbohydrates from heating; turmeric or curcumin (rhizomes of Curcuma longa) and coloring matter extracted therefrom; saffron (stigmata of Crocus sativus) and coloring matter extracted therefrom."

The proposal of Hoffmann-LaRoche Inc., is to replace the period with a semicolon after the word "thereto" at the end of § 9.1 (a) and to add the following: "except that the following compounds are not regarded as coal-tar colors: Carotenoids, anthocyanins, flavones, and other chemically identified pigments isolated from edible vegetation source or the identical compounds produced by chemical synthesis, without change of chemical structure; cochineal and cochineal extract from Coccus cacti; chlorophyll, chlorophyllins, and salts of chlorophyll produced by chemical synthesis or extracted from edible food sources; turmeric or curcumin and colored compounds thereof isolated from the rhizomes of Curcuma longa, or the identical compounds produced by chemical synthesis, without change of chemical structure; saffron and colored compounds thereof isolated from the stigmata of Crocus sativus or the identical compounds produced by chemical synthesis, without change of chemical structure; carbon black; charcoal black; and caramel obtained from carbohydrates by heating."

Dated: January 17, 1957.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[21 CFR Part 9]

COLOR CERTIFICATION

NOTICE OF PROPOSAL TO AMEND COLOR-CERTIFICATION REGULATIONS WITH RESPECT TO FD&C YELLOW NOS. 1, 2, 3, AND 4

In the matter of amending the color-certification regulations with respect to FD&C Yellow No. 1, FD&C Yellow No. 2, FD&C Yellow No. 3, and FD&C Yellow No. 4:

Notice is hereby given that, pursuant to the authority of the Federal Food, Drug, and Cosmetic Act (sec. 701 (e), 52 Stat. 1055, as amended 70 Stat. 919; 21 U. S. C. 371 (e)) and delegated to him by the Secretary of Health, Education, ad Welfare (20 F R. 1996; 21 F. R. 6581), the Commissioner of Food and Drugs, on his own initiative, proposes to amend the color-certification regulations (21 CFR Part 9) in the following respect:

1. It is proposed to amend § 9.3 *List of straight colors and specifications for their certification for use in foods, drugs, and cosmetics* by deleting from paragraph (a) the names of the following straight colors and the respective specifications therefor:

FD&C Yellow No. 1.
FD&C Yellow No. 2
FD&C Yellow No. 3.
FD&C Yellow No. 4.

2. It is proposed to amend § 9.5 *List of straight colors and specifications for their certification for use in externally applied drugs and cosmetics* by adding to paragraph (a) the following:

EXT. D&C YELLOW No. 7

SPECIFICATIONS

Disodium salt of 2,4-dinitro-1-naphthol-7-sulfonic acid.
Volatile matter (at 135° C.), not more than 10.0 percent.
Water-insoluble matter, not more than 0.2 percent.
Ether extracts, not more than 0.1 percent.
Chlorides and sulfates of sodium, not more than 5.0 percent.
Mixed oxides, not more than 1.0 percent.
Martius yellow, not more than 0.03 percent.
Pure dye (as determined by titration with titanium trichloride), not less than 85.0 percent.

EXT. D&C YELLOW No. 8

SPECIFICATIONS

Dipotassium salt of 2,4-dinitro-1-naphthol-7-sulfonic acid.
Volatile matter (at 135° C.), not more than 10.0 percent.
Ether extracts, not more than 0.1 percent.
Chlorides and sulfates of potassium, not more than 5.0 percent.
Mixed oxides, not more than 1.0 percent.
Martius yellow, not more than 0.03 percent.
Pure dye (as determined by titration with titanium trichloride), not less than 85.0 percent.

EXT. I&C YELLOW No. 9

SPECIFICATIONS

1-Phenylazo-2-naphthylamine.
Volatile matter (at 80° C.), not more than 0.2 percent.
Sulfated ash, not more than 0.3 percent.
Water-soluble matter, not more than 0.3 percent.
Matter, insoluble in carbon tetrachloride, not more than 0.5 percent.
Intermediates, not more than 0.05 percent.
Pure dye (as determined by titration with titanium trichloride), not less than 99.0 percent.
Melting point, not less than 99° C.

EXT I&C YELLOW No. 10

SPECIFICATIONS

1-o-Tolylazo-2-naphthylamine.
Volatile matter (at 80° C.), not more than 0.2 percent.
Sulfated ash, not more than 0.3 percent.
Water-soluble matter, not more than 0.3 percent.
Matter, insoluble in carbon tetrachloride, not more than 0.5 percent.
Intermediates, not more than 0.05 percent.
Pure dye (as determined by titration with titanium trichloride), not less than 99.0 percent.
Melting point, not less than 120° C.

All interested persons are invited to submit their views in writing regarding the proposal and to submit such comments in quintuplicate prior to the thirtieth day following publication of this notice in the FEDERAL REGISTER. Written comments should be addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, Health, Education, and Welfare Building, 330 Independence Avenue SW., Washington 25, D. C.

Dated: January 17, 1957.

ALASKA GAME COMMISSION

[50 CFR Parts 46, 161-164]

ALASKA WILDLIFE PROTECTION

NOTICE OF PROPOSED RULE MAKING

Pursuant to section 4 (a) of the Administrative Procedure Act of June 11, 1946 (60 Stat. 237), notice is hereby given:

(a) That under authority contained in section 9 of the Alaska Game Law of January 13, 1925, as amended (48 U. S. C. 198), the Alaska Game Commission proposes to recommend the adoption by the Secretary of the Interior of amendments to Part 46, Title 50, Code of Federal Regulations, which will specify open seasons, certain closed seasons, means of taking, and bag limits for game and fur animals, birds and game fishes in Alaska during the year beginning July 1, 1957, and ending June 30, 1958. On the basis of currently available data, only minor changes are contemplated in season dates, bag limits, means of taking, and in designations of the boundaries of wildlife management units. The results of field studies, however, now in progress may warrant recommendations for amendments in Part 46 to afford greater protection to brown and grizzly bear on the Alaska Peninsula; to provide a later opening date for the spring bear hunting season in Central Alaska; to provide an open season of short duration on mountain sheep on the Kenai Peninsula (Wildlife Management Unit 15); to reduce the bag limit on mountain goat to one animal per year on all wildlife management units for which open seasons are to be prescribed; and to provide a longer season for taking deer in all coastal areas of the Territory.

(b) That under authority contained in section 8 and subdivisions D and M of the Alaska Game Law of January 13, 1925, as amended (48 U. S. C. 197, 199, subdivisions D and M), the Alaska Game Commission proposes to amend Parts 161-164, Title 50, Code of Federal Regulations, to prescribe a more effective method for licensing and supervising the activities of registered guides and to redefine the boundaries of existing fur management areas to conform, so far as practicable, to the boundaries of the wildlife management units defined by § 46.1 (aa), Title 50, CFR.

The proposed amendments referred to in paragraphs (a) and (b) are to become effective not later than July 1, 1957.

Interested persons are hereby afforded an opportunity to participate in the preparation of the amended regulations to be adopted as set forth above by submitting their views, data or arguments in writing to the Executive Officer, Alaska Game Commission, P. O. Box 2021, Juneau, Alaska, on or before February 18, 1957. In addition, such persons may supplement their written views by presenting oral argument at a public hearing to be held by the Alaska Game Commission in the Federal Building, Juneau, Alaska, beginning at 9:00 a. m., February 20, 1957.

Dated: January 18, 1957.

CLARENCE J. RHODE,
Executive Officer, Alaska Game Commission.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

ALASKA PUBLIC SALE ACT CLASSIFICATION NO. 26

JANUARY 16, 1957.

Pursuant to the authority delegated to me under section 2.5 of Order No. 541 of April 21, 1954, Bureau of Land Management, the following described land is classified for disposal under the Alaska Public Sale Act of August 30, 1949 (63 Stat. 679; 48 U. S. C. 364a-364e) for commercial, and/or industrial purposes:

Beginning on the NE shore of Lake Hammersly, as shown on USGS Map Mt. Katmai, 1951 Edition, said point lying in approx. Lat. 58° 52' N.,; Long. 155° 05' W., and being approx. 330 feet northerly from the mouth of the main stream emptying into Lake Hammersly from the east; thence running 90° easterly 330 feet; thence running 90° southerly 660 feet; thence running 90° westerly 330 feet to lake shore; thence northerly along the easterly shore of the lake to the point of beginning.

Containing approximately 5 acres.

The above land will be offered for sale in accordance with regulations contained in Title 43 CFR 75.23 to 75.40. If no bid at the minimum acceptable price or above is made, the land may be held for future offering or the classification may be rescinded.

L. T. MAIN,
Acting Operations Supervisor.

[Groups 309 and 310]

ARIZONA

NOTICE OF FILING OF PLATS OF SURVEY

JANUARY 15, 1957.

Notice is given that the plats of survey accepted August 14, 1956 of T. 17 N., R. 2 E., and T. 17 N., R. 3 E., G. & S. R. B. & M., Arizona, including lands hereinafter described, will be officially filed in the Land Office at Phoenix, Arizona, effective at 10:00 a. m. on the 35th day after the date of this notice:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 17 N., R. 2 E.,
All Secs. 33, 34, 35 and 36.
T. 17 N., R. 3 E.,
Sec. 31, Lots 1, 2, 3, 4, E½W½, E½, (All);
Sec. 32, All.

Available data indicates that the above sections in T. 17, N., R. 2 E. are rolling, with sandy loam and decomposed limestone soil; and the sections in T. 17 N., R. 3 E. are rolling, with rocky, sandy soil.

All Secs. 33, 34, 35 and 36, T. 17 N., R. 2 E. are within the Prescott National Forest. December 21, 1956 the Director stated that Water Power Designation No. 5 has been conformed, insofar as it affects these sections, to the NE¼, E½SE¼, Sec. 35, and All Sec. 36.

The land in Lots 1, 2, 3, 4, E½W½, E½, (All), Sec. 31, and All Sec. 32, T. 17 N., R. 3 E. north of the Verde River and Sycamore Creek are in the Tusayan National Forest, Executive Order of June 28, 1910; all parts of the sections east of the Verde River and south of Sycamore Creek are within the Coconino National Forest, Executive Order of June 28, 1910; and all portions south and west of the Verde River are in the Prescott National Forest, Executive Order of October 7, 1910. December 21, 1956 the Director conformed Water Power Designation No. 5 to include all of Secs. 31 and 32, T. 17 N., R. 3 E.

In view of the above, the lands described will not be subject to disposition under the general public land laws by reason of the official filing of the plats.

THOS. F. BRITT,
Manager.

[F. R. Doc. 57-516; Filed, Jan. 23, 1957; 8:45 a. m.]

UTAH

RESTORATION ORDER UNDER FEDERAL POWER ACT

JANUARY 15, 1957.

Pursuant to Determination DA-109 Utah, of the Federal Power Commission and in accordance with the authority delegated to me by the Director, Bureau of Land Management, in Order No. 541, dated April 21, 1954 (19 F. R. 2473), it is ordered as follows:

The lands hereinafter described, so far as they are reserved for power purposes, are hereby restored to disposition under the public land laws, subject to provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended:

SALT LAKE BASE MERIDIAN, UTAH

T. 40 S., R. 22 E.,
Sec. 25: Lots 1, 2, 3, 4, 5, NE¼, N½NW¼, SE¼NW¼.
T. 40 S., R. 23 E.,
Sec. 29: Lots 1, 2, 3, 4, 5, 6, N½, NW¼SE¼, NE¼SW¼;
Sec. 30: Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, N½NE¼, SE¼NE¼, NE¼NW¼.

The area described totals 1,332.95 acres of public lands.

The subject lands lie about 7 miles upstream from the town of Bluff, Utah and adjacent to the right bank of the San Juan River. The lands are primarily valuable for grazing, and it is unlikely that they will be classified for any other purpose.

No application for these lands will be allowed under the homestead, desert-land, small tract, or any other nonmineral public land law, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Any disposition of the lands described herein shall be subject to the stipulation that if and when the land is required in whole or in part for power development purposes, any structures or improvements placed thereon which may be found to obstruct or interfere with such development, shall without cost, expense, or delay to the United States, its licensees or permittees, be removed or relocated insofar as may be necessary to eliminate interference with such power development.

The land described shall be subject to application by the State of Utah for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of material for construction and maintenance of such highways, in accordance with and subject to the provisions of section 24 of the Federal Power Act, as amended, and the special stipulation provided in the preceding paragraph.

This order shall not otherwise become effective to change the status of such land until 10:00 a. m. on February 20, 1957. At that time the said land shall become subject to application, petition, location, and selection under the applicable public sale law, subject to valid existing rights, the provisions of existing

withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended. All applications filed pursuant to the Veterans' Preference Act of 1944, on or before 10:00 a. m. of February 20, 1957, shall be treated as though simultaneously filed at that time. All other applications under the public land laws filed on or before 10:00 a. m. of May 22, 1957, shall be treated as though simultaneously filed at that time.

Inquiries concerning these lands shall be addressed to the State Supervisor, Bureau of Land Management, Post Office Box No. 777, Salt Lake City 10, Utah.

VAL B. RICHMAN,
State Supervisor.

PACIFIC COAST—PUERTO RICAN CONFERENCE

NOTICE OF AGREEMENT FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 6130–1, between the member lines of the Pacific Coast-Puerto Rican Conference, modifies the basic conference agreement (No. 6130) to provide that upon admission of Pan-Atlantic Steamship Corporation to membership in the conference that company and Waterman Steamship Company together will have a single vote in conference matters, and that these companies shall be regarded as one carrier for the purpose of apportioning conference expenses.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: January 17, 1957.

By order of the Federal Maritime Board.

GEO. A. VIEHMANN,
Assistant Secretary.

[F. R. Doc. 57-514; Filed, Jan. 23, 1957; 8:45 a. m.]

Maritime Administration

BLOOMFIELD STEAMSHIP CO.

NOTICE OF APPLICATION

Notice is hereby given of the application of Bloomfield Steamship Company for written permission of the Maritime Administrator under section 805 (a) of the Merchant Marine Act, 1936, 46 U. S. C. 1223, to permit operation of its owned vessel S. S. "Alice Brown" formerly S. S. "Genevieve Peterkin") by the charterer of said vessel, States Marine Corporation, on a voyage commencing on or about January 27, 1957, carrying paper and paper products from United States Gulf ports to a port or ports in California.

Any person, firm, or corporation having an interest in such application and desiring a hearing on issues pertinent to section 805 (a) should notify the Secretary, Maritime Administration, on or before January 25, 1957, and file petition for leave to intervene in accordance with the rules of practice and procedure of the Maritime Administration.

If no request for hearing and petition for leave to intervene is received within the specified time the application will be processed without a hearing.

By order of the Maritime Administrator.

Dated: January 22, 1957.

GEO. A. VIEHMANN,
Assistant Secretary.

CORN

PROCLAMATION OF RESULTS OF REFERENDUM

In the "Notice of Referendum" published in 21 F. R. 8834 it was announced that a referendum would be held on December 11, 1956, pursuant to section 308 (b) of the Agricultural Act of 1956 (70 Stat. 206), to determine whether corn producers voting in the referendum were in favor of (a) Soil Bank Base Acreages in accordance with section 103 (b) of the Soil Bank Act and price support for the 1957 and subsequent crops of corn at such level as the Secretary of Agriculture determines will assist producers in marketing corn in the normal channels of trade but not encourage the uneconomic production of corn, in lieu of (b) corn acreage allotments as provided in the Agricultural Adjustment Act of 1938, as amended, and price support as provided in the Agricultural Act of 1949, as amended.

Of the 437,480 votes cast, 269,185 voted in favor of the program as provided in (a) above, and 168,295 voted in favor of the program as provided for in (b) above. Since only 61.5 percent of the producers voting, voted in favor of the program provided in (a) above, which is less than the two-thirds vote required for such program to be put into effect, corn acreage allotments as provided in the Agricultural Act of 1938, as amended, and price support as provided in section 101 of the Agricultural Act of 1949, as amended, will be in effect for 1957 and subsequent years.

The following is a tabulation of the votes cast by producers of the respective States of the 1957 Commercial Corn-Producing Area:

CORN REFERENDUM RESULTS

State	For corn base acreage program	For corn acreage allotment program	Total votes cast
Alabama	3,223	633	3,856
Arkansas	1,123	761	1,884
Delaware	336	44	380
Georgia	3,808	625	4,433
Illinois	58,592	13,949	72,541
Indiana	29,147	9,917	39,064
Iowa	51,724	35,177	86,901
Kansas	3,793	3,545	7,338
Kentucky	11,014	1,620	12,634
Maryland	817	399	1,216
Michigan	8,032	2,678	10,710
Minnesota	10,939	35,495	46,434
Missouri	10,987	12,488	23,475
Nebraska	16,656	16,655	33,311
New Jersey	364	87	451
North Carolina	16,042	4,317	20,359
North Dakota	235	591	826
Ohio	17,236	6,943	24,179
Pennsylvania	2,555	904	3,459
South Dakota	4,851	13,126	17,977
Tennessee	9,158	1,377	10,535
Virginia	1,069	972	1,981
West Virginia	229	13	242
Wisconsin	7,315	5,979	13,294
Total	269,185	168,295	437,480

Done at Washington, D. C., this 18th day of January 1957.

SOIL BANK; ACREAGE RESERVE PROGRAM

GRAZING

Section 103 (a) of the Soil Bank Act (70 Stat. 188, 189) and § 485.214 (c) of the regulations governing the 1957 acreage reserve part of the Soil Bank Program, 21 F. R. 10449, provide that land designated as acreage reserve shall not be grazed unless the Secretary of Agriculture, after certification by the Governor of the State in which the farm is located of the need for grazing on the acreage reserve, determines that it is necessary to permit grazing thereon in order to alleviate damage, hardship, or suffering because of severe drought, flood, or other natural disaster, and gives written consent to such grazing.

Notice is hereby given that the Secretary, in accordance with the aforementioned statute and regulations, consents to the grazing for the period specified of land designated as acreage reserve on farms in the counties listed below. Such consent is limited to grazing of the producer's own livestock. The producer is prohibited from leasing the acreage reserve to others for grazing purposes.

IOWA

Counties and Period

Appanoose, Boone, Calhoun, Cherokee, Dallas, Davis, Decatur, Fremont, Harrison, Ida, Jasper, Marion, Monona, Plymouth, Polk, Pottawattamie, Poweshiek, Sac, Van Buren, Wayne, Woodbury; Pleasant Valley, Richland, and Union townships in Carroll County; Charter Oak, Hanover, Morgan, Otter Creek, Soldier, and Stockholm townships in Crawford County; Cedar, Highland, and Lincoln townships in Greene County; the northwest one-quarter of Keokuk County;

the West one-third of Lyon County; the northeast one-quarter of Madison County; all of Mahaska County except the southeast one-quarter; the south eight townships in Marshall County; Anderson and Ingraham townships in Mills County; Lincoln, Pilot Grove, Sherman, and Washington townships in Montgomery County; Liberty and Union townships in O'Brien County; south one-third of, and Washington township in Shelby County; west one-third of, and Nassau and Sherman townships in Sioux County; the south three-quarters of Story County; Columbia, Highland and Richland townships in Tama County; and the north three-quarters of Warren County. January 1, 1957–January 31, 1957, inclusive.

KANSAS

Barber, Barton, Brown, Butler, Chase, Chautauqua, Cheyenne, Clark, Clay, Cloud, Comanche, Cowley, Decatur, Dickinson, Doniphan, Edwards, Elk, Ellis, Ellsworth, Finney, Ford, Geary, Gove, Graham, Grant, Gray, Greeley, Greenwood, Hamilton, Harper, Harvey, Haskell, Hodgeman, Jewell, Kearny, Kingman, Kiowa, Lane, Lincoln, Logan, Lyon, McPherson, Marion, Marshall, Meade, Mitchell, Montgomery, Morris, Morton, Neosho, Ness, Norton, Osborne, Ottawa, Pawnee, Phillips, Pratt, Rawlins, Reno, Republic, Rice, Rooks, Rush, Russell, Saline, Scott, Sedgwick, Seward, Sheridan, Sherman, Smith, Stafford, Stanton, Stevens, Sumner, Thomas, Trego, Wallace, Washington, Wichita, Wilson, Woodson; Blue Valley, Clear Creek, Grant, Lincoln, Lone Tree, Mill Creek, Rock Creek, Shannon, Sherman, Spring Creek and Vienna townships, in Pottawatomie County; and Center, Fancy Creek, Jackson, Mayday, and Swede Creek townships in Riley County. January 1, 1957–January 31, 1957, inclusive.

MISSOURI

Adair, Andrew, Atchison, Barry, Bates, Benton, Boone, Buchanan, Caldwell, Callaway, Camden, Carroll, Carter, Cass, Cedar, Charlton, Christian, Clark, Clay, Clinton, Cole, Cooper, Crawford, Dade, Dallas, Daviess, De Kalb, Dent, Douglas, Dunklin, Gentry, Greene, Grundy, Harrison, Henry, Hickory, Holt, Howard, Howell, Iron, Jackson, Jasper, Jefferson, Johnson, Knox, Laclede, Lafayette, Lawrence, Lewis, Linn, Livingston, McDonald, Madison, Maries, Marion, Mercer, Miller, Moniteau, Monroe, Montgomery, Morgan, Newton, Nodaway, Oregon, Osage, Ozark, Pettis, Phelps, Pike, Platte, Polk, Pulaski, Putnam, Ralls, Randolph, Ray, Reynolds, Ripley, St. Clair, Saline, Schuyler, Scotland, Shelby, Stone, Sullivan, Taney, Texas, Vernon, Washington, Wayne, Webster, Worth, and Wright. January 1, 1957–January 31, 1957, inclusive.

MONTANA

Carter, Custer, Dawson, Fallon, McCone, Powder River, Prairie, Richland, Roosevelt, and Wibaux Counties. January 1, 1957–January 31, 1957, inclusive.

NEBRASKA

FEDERAL POWER COMMISSION

[Docket No. G-11232]

WESTERN KENTUCKY GAS CO.

NOTICE OF APPLICATION FOR ORDER TO OBTAIN NATURAL GAS FOR RESALE AND DISTRIBUTION

JANUARY 17, 1957.

Take notice that Western Kentucky Gas Company (Applicant), a Delaware corporation with its principal place of business located at Owensboro, Kentucky, filed on October 12, 1956, an application pursuant to section 7 (a) of the Natural Gas Act for an order directing Texas Gas Transmission Corporation (Texas Gas) to sell natural gas to Applicant for resale and distribution in the City of Lawrenceburg, Kentucky, all as more fully represented in the application on file with the Commission and open for public inspection.

Applicant states that it is a natural gas distribution company operating entirely within the Commonwealth of Kentucky, serving numerous towns and cities and is enfranchised by the City of Lawrenceburg to serve its inhabitants; that it has been exempted from regulation under the Natural Gas Act by the Hinshaw Amendment. Applicant further states that it proposes to lay 5.5 miles of 4½ inch pipeline running south from a pressure-reducing tap on the east-to-west Louisville Gas and Electric Company's (Louisville) 12 inch "East Kentucky Line" to the City of Lawrenceburg. At the town border it would build a further regulator for its distribution system. Texas Gas is selling natural gas to Louisville near the City of Louisville, Kentucky, through existing system connections and through these connecting facilities Texas Gas is ready, able, and willing to deliver the volumes of gas which Louisville will deliver to Applicant.

The estimated peak day and annual requirements of natural gas by Applicant are for the first 3 years as follows when expressed in terms of volume in Mcf:

Year	Peak day	Annual
1	341	79,243
2	713	162,887
3	896	179,787

Texas Gas has agreed to supply the volume of natural gas from its system to enable Louisville to furnish to Applicant its requirements for Lawrenceburg and Louisville has also agreed to furnish the service of gas and permit the interconnection of its facilities with those of the Applicant. By virtue of the Answer, as amended, filed by Texas Gas on November 8, 1956, and amended on November 16, 1956, together with the Letter of Agreement from Louisville which is made a part of the application herein the said arrangement first above mentioned is indicated.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 7, 1957.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 57-518; Filed, Jan. 23, 1957; 8:45 a. m.]

[Docket No. G-11298]

MANUFACTURERS LIGHT AND HEAT CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JANUARY 17, 1957.

Take notice that The Manufacturers Light and Heat Company, a Pennsylvania corporation and a subsidiary of The Columbia Gas System Inc., having its principal place of business at 800 Union Trust Building, Pittsburgh, Pennsylvania, filed on October 25, 1956, an application, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing it to construct and operate certain natural gas facilities and for permission and approval to abandon certain existing facilities, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate approximately 2.6 miles of 16-inch transmission pipeline and a regulating station in Hopewell Township and Aliquippa Borough, Beaver County, Pennsylvania, and in connection therewith to abandon, pursuant to section 7 (b) of the Natural Gas Act, 2.6 miles of 10-inch transmission line (Line 271) which said construction will replace. The purpose of the application is to improve retail and wholesale service in these areas and render increased interruptible service to an existing industrial customer, Jones & Laughlin Steel Corporation.

The actual and estimated gas requirements of the Aliquippa-Ambridge area embracing all classes of users, residential, commercial, industrial, and municipal are as follows: (Figures in Mcf.)

	1955	1956	1957	1958
Peak day:				
Jones & Laughlin	4,200	10,700	15,000	15,000
All users	28,819	36,695	41,923	42,632
Annual:				
Jones & Laughlin	891,039	1,193,880	3,467,000	3,805,000
All users	5,953,380	6,561,351	8,816,400	9,272,800

The proposed facilities are estimated to cost $241,000. Jones & Laughlin will advance $145,000 toward the cost, which will be refunded to Jones & Laughlin over a four to seven year period. The rest of the cost will be financed by the Applicant.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Thursday February 14, 1957 at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 4, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

MOTOR CARRIER APPLICATIONS

JANUARY 18, 1957.

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers and by brokers under sections 206, 209, and 211 of the Interstate Commerce Act and certain other procedural matters with respect thereto. (FEDERAL REGISTER, Volume 21, pages 7339, 7340, § 1.241 September 26, 1956.)

All hearings will be called at 9:30 o'clock a. m., United States Standard Time, unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 1872 (Sub No. 40), filed December 26, 1956, ASHWORTH TRANSFER, INC., 1526 S. Sixth West, Salt Lake City, Utah. Applicant's representative: Harry D. Pugsley, 721 Continental Bank Bldg., Salt Lake City 1, Utah. For authority to operate as a *common carrier*, over irregular routes, transporting: *Ammonium nitrate* and *ammonium nitrate fertilizers*, in bags, between Bacchus, Utah and Geneva, Utah, on the one hand, and, on the other, points in Wyoming, Colorado, New Mexico, Arizona, California, Oregon, Nevada, Idaho, and Montana.

HEARING: March 6, 1957, at the Utah Public Service Commission Salt Lake City, Utah, before Examiner James I. Carr.

No. MC 2754, NEUENDORF TRANSPORTATION CO., 3244 Atwood Avenue, Madison, Wis. Applicant's representative: Philip H. Porter, 708 First National Bank Bldg., Madison 3, Wis. *RE-OPENED* for sole purpose of holding hearing limited to the question whether NEUENDORF TRANSPORTATION CO. and its predecessors-in-interest had been, and have been, transporting general commodities, with certain exceptions, over irregular routes, between Wausau, Wis., and Chicago, Ill., prior to, on, and continuously since June 1, 1935.

HEARING: March 11, 1957, at Wisconsin Public Service Commission, Madison, Wis., before Examiner Alfred B. Hurley.

No. MC 9895 (Sub No. 90), filed November 26, 1956, R. B. "DICK" WILSON, INC., P. O. Box 838, E. 59th Ave. & Highway 6, Denver, Colo. Applicant's representative: Marion F. Jones, 526 Denham Bldg., Denver 2, Colo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Crude shale oil, its products and by-products*, in bulk, and *oil shale products and by-products*, in bulk, between points in Arizona, Colorado, Wyoming, New Mexico, Utah, Nebraska, Kansas, Oklahoma, and those in South Dakota, in and west of Perkins, Meade, Pennington, Washabaugh, and Shannon Counties.

HEARING: March 1, 1957, at the New Customs House, Denver, Colo., before Examiner James I. Carr.

No. MC 52458 (Sub No. 139), filed October 10, 1956, T. I. McCORMACK TRUCKING COMPANY, INC., U. S. Route 9 at Green St., Woodbridge, N. J. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquids*, in bulk, in tank vehicles, except gasoline, fuel oil, benzene, kerosene, and raw milk, between New York, N. Y., Newark, N. J., and Baltimore, Md., on the one hand, and, on the other, points in Delaware, Virginia, West Virginia, Kentucky, Tennessee, North Carolina, South Carolina, and the District of Columbia. Applicant is authorized to conduct similar operations in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia. Issues originally published in FEDERAL REGISTER of November 15, 1956, as above.

HEARING: February 5, 1957, and a *continued hearing* February 18, 1957, at the offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Bertram E. Stillwell.

No. MC 52458 (Sub No. 140), filed October 10, 1956, T. I. McCORMACK TRUCKING COMPANY, INC., U. S. Route 9 at Green St., Woodbridge, N. J. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquids*, in bulk, in tank vehicles, except gasoline, fuel oil, benzene, kerosene, and raw milk, between points in Connecticut and New Jersey, on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, and New York. Issues originally published in FEDERAL REGISTER of November 15, 1956, as above.

HEARING: February 5, 1957, and a *continued hearing* February 18, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Bertram E. Stillwell.

No. MC 88380 (Sub No. 9), filed October 3, 1955, published in the FEDERAL REGISTER of October 19, 1955, (RE-OPENED, ON THE COMMISSION'S OWN MOTION, FOR FURTHER HEARING) O. L. HARVEY TRUCK SERVICE, P. O. Box 192, Seminole, Okla. Applicant's representative: George L. Ruddle, 1518 Hunt Bldg., Tulsa 3, Okla. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Bakery products, household merchandise*, and *notions*, (as more fully defined in application) from Winston Salem, N. C., and Richmond, Va., to points in Wise, Scott, Lee and Dickenson Counties, Va. and Johnson City, Tenn., and Harlan, Ky., and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application, on return.

HEARING: February 27, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner William T. Croft.

MOTOR CARRIERS OF PASSENGERS

No. MC 29957 (Sub No. 64), filed September 4, 1956, CONTINENTAL SOUTHERN LINES, INC., 425 Bolton Avenue, P. O. Box 4407, Alexandria, La. Applicant's representative: Grove Stafford, P. O. Box 1711, Alexandria, La. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and baggage of passengers*, in the same vehicle with passengers or in a separate vehicle, and in the same vehicle with passengers, *express* and *newspapers*, between New Orleans, La., and Bush, La., from New Orleans over U. S. Highway 51 (also designated as U. S. Highway 61) to junction Harlem Avenue (or new access road) in Jefferson Parish, La., thence over Harlem Avenue (or new access road) to Lake Pontchartrain, La., thence over the new Lake Pontchartrain Bridge now under construction and its northern approach and access road to junction U. S. Highway 190 near Mandeville, La., thence over U. S. Highway 190 to Covington, La., thence over Louisiana Highway 21 to a point about two (2) miles from Bush, thence over local unnumbered highway to Bush, and return over the same route, serving Covington, La., as an intermediate point. Applicant is authorized to conduct operations in Alabama, Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri, Tennessee and Texas. Issues originally published in FEDERAL REGISTER of October 24, 1956, as above.

HEARING: March 11, 1957, at the Jung Hotel, New Orleans, La., before Joint Board No. 164.

REOPENED FOR CONSOLIDATED ORAL HEARING

Nos. MC 9895, MC 9895 (Sub No. 1), MC 9895 (Sub No. 7), MC 9895 (Sub No. 8), MC 9895 (Sub No. 53), MC 9895 (Sub No. 65), MC 9895 (Sub No. 68), and MC 89058. In these proceedings certificates of public convenience and necessity have been issued to R. B. "DICK" WILSON, INC., East 59th Avenue and Highway 6, Denver, Colo., to transport petroleum products, in bulk, in tank trucks, between certain areas in Colorado, Kansas, Nebraska, South Dakota, Utah, and Wyoming. The proceedings were reopened for a consolidated oral hearing with No. MC-C-1685, COLLETT TANK LINES v. R. B. "DICK" WILSON, INC.

HEARING: February 27, 1957, at the New Customs House, Denver, Colo., before Examiner James I. Carr.

PETITIONS FOR BROADENING AFTER DECISION

No. MC 115967 (Sub No. 2), Willie T. Hires, Contract Carrier Application.

No. MC 115972 (Sub No. 2), Calument Disposal Company, Inc., Contract Carrier Application.

No. MC 115985 (Sub No. 2), Mitchell Malinowski, Contract Carrier Application.

No. MC 115984 (Sub No. 2), Milton T. Selman, Contract Carrier Application.

Applicants' representative: George S. Mullins, 4707 West Irving Park Road, Chicago, Ill.

By recommended orders which became effective December 28, 1956, the issuance of permits was authorized to the applicants in these proceedings to transport dairy products, as described in Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M. C. C. 209, and of yogurt and fruit juices, in vehicles equipped with mechanical refrigeration:

In No. MC 115967 (Sub No. 2), from the plant site of The Borden Company at or near Hammond, Ind., to points in Illinois, on and north of U. S. Highway 50; and

In Nos. MC 115972 (Sub No. 2), MC 115985 (Sub No. 2), and MC 115984 (Sub No. 2), from the plant site of The Borden Company at or near Hammond, Ind., to Lake Side and Niles, Mich.

In the four applications, the transportation of empty containers used in transporting the commodities specified, on return hauls, was authorized.

By petition, dated December 26, 1956, the four applicants ask that the applications be broadened to change the commodity description to dairy products, yogurt, and fruit juices.

Any person desiring to protest the broadening of the applications may file such protest within 30 days from the date of publication of this notice.

APPLICATIONS UNDER SECTIONS 5 AND 210a (b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under section 5 (2) and 210a (b) of the Interstate Commerce Act and certain other procedural matters with respect thereto. (FEDERAL REGISTER, Volume 21, page 7339, § 1.240, September 26, 1956.)

MOTOR CARRIERS OF PROPERTY

No. MC–F 6492 (correction), published in the January 16, 1957, issue of the FEDERAL REGISTER on page 339. In addition to the states mentioned, vendee also operates in Nebraska, Iowa, Wyoming, Colorado, and North Dakota.

No. MC–F 6493. Authority sought for purchase by NAVAJO FREIGHT LINES, INC., 381 South Broadway, Denver 9, Colo., of the operating rights and certain property of THOMAS M. FOWLER, JR., doing business as QUICK WAY TRUCK LINES, 419 North Virginia Avenue, Roswell, N. Mex., and for acquisition by LAURENCE COHEN, also of Denver, of control of such rights and property through the purchase. Applicant's representative: O. Russell Jones, P. O. Box 1437, Santa Fe, N. Mex. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and excluding commodities in bulk, as a *common carrier* over a regular route between Roswell, N. Mex., and Artesia, N. Mex., serving certain intermediate points. Vendee is authorized to operate as a *common carrier* in California, New Mexico, Arizona, Texas, Colorado, Illinois, Nebraska, Missouri, Iowa, Nevada, and Indiana. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6495. Authority sought for purchase by PROVAN PETROLEUM TRANSPORTATION COMPANY, INC., 210 Mill Street, Newburgh, N. Y., of a portion of the operating rights of KRAMER TRUCKING & CONTRACTING COMPANY, INC., 524 South 12th Street, Newark, N. J., and for acquisition by FREDERICK J. PROVAN, also of Newburgh, of control of such rights through the purchase. Applicants' representative: Bert Collins, 140 Cedar Street, New York 6, N. Y. Operating rights sought to be transferred: *Chemicals and coal tar products*, in bulk, in tank vehicles, as a *common carrier* over irregular routes between New York, N. Y., and points in Essex, Hudson, Union, Passaic, and Somerset Counties, N. J., on the one hand, and, on the other, points in New Jersey, Connecticut, and that part of New York east of U. S. Highway 11 and south of U. S. Highway 20. Vendee is authorized to operate as a *common carrier* in Connecticut, New York, Massachusetts, Pennsylvania, New Jersey and Rhode Island. Application has not been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F. R. Doc. 57–529; Filed, Jan. 23, 1957; 8:47 a. m.]

[Ex Parte No. 206]

INCREASED FREIGHT RATES, EASTERN AND WESTERN TERRITORIES, 1956

At a general session of the Interstate Commerce Commission held at its office in Washington, D. C., on the 16th day of January, A. D., 1957

It appearing that on October 1, 1956, the Commission, acting on a petition filed September 27, 1956, by substantially all of the eastern and western railroads, and certain southern railroads, instituted an investigation into and concerning the adequacy of all freight rates and charges of all common carriers by railroad in the United States and into the reasonableness and lawfulness thereof;

It further appearing that on January 11, 1957, the railroads parties to the petition of September 27, 1956 (as subsequently amended) filed a further petition requesting permission to amend and supplement the petition of September 27, 1956, substantially as follows:

1. Petitioners request that the Commission authorize and permit an increase of 22 percent in all freight rates and charges over the rates and charges in effect on December 27, 1956, within, from, to, and via Eastern Territory, and within, from, to, and via Western Territory, subject to certain provisions, limitations and exceptions set forth in Appendix III of the petition of January 11, 1957.

2. Petitioners request permission to file certain supplemental and additional verified statements in support of the amended petition on or before February 1, 1957.

And it further appearing that the petitions and the motion enumerated in Appendix B attached have been filed with the Commission, in which modification of the Commission's order of October 1, 1956, (as amended) is requested; and that the petitioning railroads have filed a reply.

Upon consideration of the said petitions and reply and of the record in the above-entitled proceeding; and good cause appearing therefor:

It is ordered, That the paragraphs numbered 1 and 3 of the Commission's order of October 1, 1956, be amended to read as follows:

1. That an investigation under the above caption be and it is hereby instituted into and concerning the adequacy of all freight rates and charges of all common carriers by railroad in the United States and into the reasonableness and lawfulness thereof; said investigation to include the proposal of the petitioning Railroads to increase all freight rates and charges by 22 percent with certain exceptions within, from, to, and via Eastern and Western Territories; and including proposed general increases in freight rates and charges which may be subsequently filed in the proceeding.

3. That the special rules of practice and procedure hereinafter set forth will apply:

(a) All evidence except oral cross-examination hereinafter provided for will be submitted in the form of verified statements (affidavits) with exhibits attached; and accompanied by a certificate of service. The parties will be heard in oral argument, and upon brief in lieu of oral argument or in addition to oral argument.

(b) Interventions: Petitions of intervention or separate petitions of other carriers will be received within a reasonable time, but the Commission will not undertake to serve such petitions. Such petitions together with justification in the form of verified statements (affidavits) shall be filed and served upon the parties to Ex Parte No. 206 and such petitions shall contain a certificate that such service has been made. Additional copies of the petition and supporting verified statements shall be furnished to any other interested party upon request therefor.

Persons other than carriers, appearing in support of or opposition to the carriers, may become parties to the proceeding by the filing of verified statements.

(c) Use of Commission's records and other documents. The Commission will take official notice of, and consider as part of the record in this proceeding, the following documents, except that objection to consideration of the particular matter contained in such documents may be made as specified herein:

Annual and quarterly reports of individual railroads, water carriers, and freight forwarders filed with the Commission for the years 1951 to 1956, inclusive; Freight Commodity Statistics, Class I steam railways, for the years 1951 to 1956, inclusive; Annual Report on the Statistics of Railways in the United States for the years 1951 to 1953, inclusive; Annual Report on Transport Statistics in the United States for the years 1954 and 1955; and annual returns of railroads to Valuation Order No. 3.

Quarterly reports. Series No. Q–500, 600, 650, 750, 800, 900, and 950 for the years 1951 to 1956, inclusive;

Monthly reports. Series No. M–100, 125, 150, 200, 211, 213, 215, 220, 230, 240, 250 and 300 for the years 1951 to 1956, inclusive;

Special studies. Analyses of the 1-percent sample of waybills, by the Commission's Bureau of Transport Economics and Statistics, for the years 1951 to 1956, inclusive; Statement No. 4–56, Distribution of the Rail Revenue Contribution by Commodity Groups—1953; and Statement No. 8–56, Distribution of the Rail Revenue Contrib. by Com. Gps—1954.

This will extend to such documents on file or to be filed or issued during the pendency of the proceeding, and is for the benefit of all parties as well as the Commission.

Parties desiring to enter objection to the consideration of such documents or to any particular matter contained therein must orally enter such objection at the opening of the hearing in Washington, D. C., provided for in paragraph (h) hereof. The objection should specify the matter objected to and the reasons therefor.

Official notice may be extended to other such documents on file when specified with particularity at the hearings provided for in paragraph (h) hereof. The record in this proceeding taken at Kansas City, Mo., beginning on November 26, 1956, and at Washington, D. C., beginning on January 7, 1957, shall insofar as material and relevant constitute a part of the record in this proceeding.

(d) Evidence of petitioners and other carriers seeking similar relief must be submitted in the form of verified statements (affidavits) with or without exhibits attached. An original and 24 copies shall be furnished to the Commission and a copy served upon each party to Ex Parte No. 206. One copy of such verified statements shall be sent by first-class mail to each of the Regional Offices of the Commission where it will be open to public inspection. A list of the addresses of Regional Offices and Regional Managers is attached hereto as Appendix A. These verified statements must be filed on or before February 1, 1957. A copy shall be furnished to any interested party upon request addressed to Mr. Edward A. Kaier, 804 Transportation Bldg., Washington, D. C.

(e) Evidence of persons in support of petitioners other than carriers seeking affirmative relief, must be submitted in the form of verified statements (affidavits) with or without exhibits attached, and filed and served as provided in the preceding paragraph. These verified statements must be filed on or before February 5, 1957.

(f) Evidence in opposition to the petitioners or evidence neither in support of nor in opposition to petitioners, must be submitted in the form of verified statements (affidavits) with or without exhibits attached. An original and 24 copies shall be furnished to the Commission and 25 copies shall be furnished to Mr. Edward A. Kaier, 804 Transportation Building, Washington, D. C., for the railroads. One copy of such verified statements shall be sent by first-class mail to each of the Regional Offices of the Commission where it will be open to public inspection. These verified statements must be filed by March 16, 1957. A copy shall be furnished to any interested party upon request.

(g) Verified statements in reply must be filed by March 30, 1957, furnishing an original and 24 copies to the Commission. The party whose verified statement is being replied to should be served with a copy of the reply by first-class mail, and a copy of each verified reply statement should be sent to each of the Regional Offices of the Commission where it will be open to public inspection. A copy shall be furnished to any interested party upon request.

(h) Hearings for the purpose of cross-examining witnesses who have filed verified statements will be held at the office of the Commission in Washington, D. C., beginning at 10:00 o'clock a. m., April 8, 1957, before Division 2, and at San Francisco, Calif., beginning at 10:00 o'clock a. m., April 17, 1957, before Division 2.

If cross-examination of a witness is desired by any party, request therefor must be given to the Commission and to the witness or his attorney as promptly as circumstances will permit in time to enable the witness to reach the hearing for which he is requested.

(i) Oral argument before the entire Commission will be held in Washington, D. C., beginning at 10:00 o'clock a. m., May 1, 1957.

(j) Memorandum briefs will be due May 1, 1957, and may be filed in lieu of oral argument or in addition to oral argument. Original and 24 copies shall be furnished to the Commission and 25 copies shall be sent to Mr. Edward A. Kaier, 804 Transportation Building, Washington, D. C., and a copy sent to each of the Commission's Regional Offices where it will be open to public inspection. Upon reasonable request parties shall furnish copies of their brief to other parties.

(k) Rule 21 (c) of the Commission's general rules of practice allowing 5 days' additional time for parties located at or west of the El Paso, Texas-Helena, Montana line will not apply in this proceeding.

It is further ordered, That the railroads' petition for permission to amend their petition of September 27, 1956, be and it is hereby granted.

It is further ordered, That the said petitions and motion, to the extent indicated above be, and they are hereby granted; in all other respects they are denied.

And it is further ordered, That a copy of this order be filed with the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested parties, and a copy served upon all parties of record.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 31–638]

POWER REACTOR DEVELOPMENT CO.

ORDER DECLARING COMPANY NOT TO BE AN ELECTRIC UTILITY COMPANY

JANUARY 17, 1957.

Power Reactor Development Company ("PRDC"), a non-profit corporation

organized under the laws of the State of Michigan, having filed an application requesting an order pursuant to section 2 (a) (3) of the Public Utility Holding Company Act of 1935 ("act") declaring it not to be an electric utility company; and

After appropriate notice, a public hearing having been duly held on said application, and the Commission having this day entered its Findings and Opinion herein, on the basis thereof:

It is ordered, That PRDC be, and hereby is, declared not to be an electric utility company within the meaning of section 2 (a) (3) of the act, subject to the following conditions:

(1) That PRDC file on or before May 1 of each year a statement with this Commission indicating whether or not there have been any changes in its business in the following respects:

(a) That its only connection with the generation, transmission or distribution of electric energy is the ownership or operation of facilities used for the production of steam from special nuclear materials, which steam is used by another in the generation of electric energy,

(b) That is not organized for profit, and

(c) That it is engaged primarily in research and development activities.

(2) That the company attach to such statements as exhibits:

(a) Any changes in its charter, by-laws, and license issued by the Atomic Energy Commission,

(b) Any change in its members or in the relative voting powers of its members, and

(c) A statement of its receipts and disbursements for the preceding calendar year and of its financial status at the end of such year.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3551]

SOUTHERN CO.

NOTICE OF FILING OF DECLARATION REGARDING PARTIAL GUARANTEE OF CERTAIN LOANS

JANUARY 17, 1957.

Notice is hereby given that The Southern Company ("Southern"), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") and has designated sections 6 (a) and 7 thereof as applicable to the proposed transaction.

All interested persons are referred to the declaration, which is on file in the offices of the Commission, for a statement of the transaction which is summarized as follows:

Southern, subject to obtaining the necessary regulatory approval, has undertaken to execute an agreement to guarantee 8 percent of a proposed borrowing of $15,000,000 by Power Reactor Development Company ("PRDC"). The remaining 92 percent of the borrowing is to be guaranteed by 12 other companies.

PRDC is a non-profit company which is presently engaged in constructing a fast breeder atomic reactor at Lagoona Beach, Michigan, in order to determine the soundness and economy of producing, by means of such a reactor, steam to be used in generating electric energy for public utility service. Southern and its public utility subsidiaries, which are interested in the research and developmental activities of PRDC, have a direct representation in this project through Southern Services, Inc., the mutual service company of the Southern system, which is one of the 21 member companies of PRDC.

In order to make provisions for the financing of its project, PRDC has obtained commitments for contributions totaling $23,540,000 from interested companies including the four public utility subsidiaries of Southern. To secure additional funds PRDC has also made arrangements, as indicated above, for the borrowing of $15,000,000 from five New York banks acting as trustees for various pension trusts. The Loan Agreement under which these borrowings are to be effected, conditions the granting of any loans upon their being guaranteed as to principal and interest. Southern and 12 other companies which are members of PRDC have accordingly entered into a separate Guaranty Agreement with the aforementioned banks which agreement provides for the guarantee by these companies, in specified percentages, of any borrowings by PRDC under the Loan Agreement. Southern desires authority to enter into said Guaranty Agreement and to make the guarantees therein provided for.

The Loan Agreement provides, among other things, that notes shall be issued representing the borrowings and that each note shall be dated as of the date of the borrowing, shall mature on July 1, 1970, and shall bear interest at the rate of 4.35 percent per annum until maturity. PRDC will effect the borrowings at quarterly intervals during 1957 and 1958. Repayments of the loans are to be made by semi-annual payments of $1,000,000 each in the years 1964 to 1969, inclusive, and by two payments of $1,500,000 each in 1970.

It is currently expected that PRDC will be able to meet its liabilities for repayment of principal and interest under the Loan Agreement from its operating revenues or from other resources and without recourse against the guarantors. However, should any payment be required of Southern on account of such guarantee, such payment will not constitute a loan or advance by Southern to PRDC but will be accounted for by Southern as an expense.

The declaration states that no State commission and no Federal commission other than this Commission has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than February 1, 1957, at 5:30 p. m., e. s. t., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3552]

DELAWARE POWER & LIGHT CO.

NOTICE OF FILING OF DECLARATION REGARDING PARTIAL GUARANTEE OF CERTAIN LOANS

JANUARY 17, 1957.

Notice is hereby given that Delaware Power & Light Company ("Delaware"), a public utility company and a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") and has designated sections 6 (a) and 7 thereof as applicable to the proposed transaction.

All interested persons are referred to the declaration, which is on file in the offices of the Commission, for a statement of the transaction which is summarized as follows:

Delaware, subject to obtaining the necessary regulatory approvals, has undertaken to enter into an agreement to guarantee 1.20 percent of a proposed borrowing of $15,000,000 by Power Reactor Development Company ("PRDC"). Similar commitments have been made by 12 other companies for the guarantee of the remaining 98.8 percent of the borrowings. PRDC is a non-profit company which is presently engaged in constructing a fast breeder atomic reactor at Lagoona Beach, Michigan, in order to determine the soundness and economy of producing, by means of such a reactor, steam to be used in generating electric energy for public utility service. Delaware, which is interested in the research and development activities of PRDC, is one of the 21 member companies of PRDC.

In order to make provisions for the financing of its project, PRDC has obtained commitments for contributions totaling $23,540,000 from interested companies including a commitment from Delaware to contribute $300,000 over a five-year period. To secure additional funds, PRDC has also made arrangements, as indicated above, for the borrowing of $15,000,000 from five New York banks acting as trustees for various pension trusts. The Loan Agreement under which these borrowings are to be effected conditions the granting of any loans upon their being guaranteed as to principal and interest. Delaware, 11 other member companies of PRDC and The Southern Company, a registered holding company, have accordingly entered into a separate Guaranty Agreement with the aforementioned banks which agreement provides for the guarantee by these companies, in specified percentages, of any borrowings made by PRDC under the Loan Agreement. Delaware desires authority to enter into said Guaranty Agreement and to make the guarantees therein provided for.

The Loan Agreement provides, among other things, that notes shall be issued representing the borrowings and that each note shall be dated as of the date of the borrowing, shall mature on July 1, 1970 and shall bear interest at the rate of 4.35 percent per annum until maturity. PRDC will effect the borrowings at quarterly intervals during 1957 and 1958. Repayments of the loans are to be made by semi-annual payments of $1,000,000 each in the years 1964 to 1969, inclusive, and by two payments of $1,500,000 each in 1970.

It is currently expected that PRDC will be able to meet its liabilities for repayment of principal and interest under the Loan Agreement from its operating revenues or from other resources and without recourse against the guarantors. However, should any payment be required of Delaware on account of such guarantee, such payment will not constitute a loan or advance by Delaware to PRDC but will be accounted for by Delaware as an expense.

The declaration states that the guarantee is subject to the approval of the Public Service Commission of Delaware and that an application for approval of the guarantee has been filed with that Commission.

Notice is further given that any interested person may, not later than February 1, 1957, at 5:30 p. m., e. s. t. request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and exchange Commission, Washington 25, D. C. At any time after said date said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

UNIVERSITY OF MICHIGAN
JAN 29 1957
MAIN READING ROOM

THE NATIONAL ARCHIVES

FEDERAL REGISTER

VOLUME 22 NUMBER 17

Washington, Friday, January 25, 1957

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED SWEET CHERRIES[1]

MISCELLANEOUS AMENDMENTS

On June 22, 1956, a notice of proposed rule making was published in the FEDERAL REGISTER (21 F. R. 4413) regarding proposed amendments to the United States Standards for Grades of Canned Sweet Cherries (7 CFR, § 52.821 to § 52.836).

After consideration of all relevant matters presented, including the proposed amendments set forth in the aforesaid notice, the following amendments to the United States Standards for Grades of Canned Sweet Cherries are hereby promulgated pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., as amended, 7 U. S. C. 1621 et seq.):

The amendments to § 52.833 are as follows:

1. Change paragraph (a) to read:

§ 52.833 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from harmless extraneous material; from portions of stems; from pits or portions thereof in pitted style; from slightly damaged, damaged, seriously damaged, slightly misshapen, misshapen, blemished, and seriously blemished cherries; and from any other defects which detract from the appearance or edibility of the product. Processing cracks are not considered as defects but are considered under the factor of character. (§ 52.834).

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

2. Change paragraphs (a) (5) and (6) to read:

(5) "Slightly damaged" means any injury other than blemishes which affects the appearance of the cherry, and includes:

(i) Circular cracks with slight discoloration, such as "rain checks," confined entirely within the stem basin and more than ¼ inch, but not more than ½ inch, in length;

(ii) Cracks with slight discoloration, such as "rain checks" outside the stem basin and more than 3/16 inch, but not more than ⅜ inch in length;

(iii) Mutilated cherries in unpitted style whereby the cherry is seriously torn at the stem and that such torn area exceeds that of a circle ¼ inch in diameter; and mutilated cherries in pitted style whereby the cherry is so pitter-torn or so damaged by other similar means that the entire pit cavity is exposed and the appearance of the cherry is seriously affected.

(6) "Damaged" means any injury other than blemishes which materially affects the appearance of the cherry and includes:

(i) Circular cracks with discoloration, such as "rain checks," confined entirely within the stem basin and more than ½ inch in length;

(ii) Cracks with discoloration, such as "rain checks," outside the stem basin and more than ⅜ inch in length;

3. Insert new paragraph (a) (7) to read:

(7) "Seriously damaged" means damaged to the extent that the appearance or edibility of the cherry is seriously affected.

4. In paragraph (a), renumber subparagraphs as follows: Change (7) to (8), (8) to (9), (9) to (10), and (10) to (11).

5. Change paragraph (b) (4) to read:

(4) A total of 10 percent, by count, of the cherries may be slightly damaged, damaged, seriously damaged, slightly misshapen, misshapen, blemished, seriously blemished, or any combination

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 2]

PART 722—COTTON

SUBPART — REGULATIONS PERTAINING TO ACREAGE ALLOTMENTS FOR 1957 CROP OF EXTRA LONG STAPLE COTTON

Basis and purpose. The amendment contained herein is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U. S. C. 1281 et seq.) by the addition of a new paragraph (h) to § 722.1416 which establishes the allocations to counties from the State reserve for small farms and for inequity and hardship cases, the remaining State reserve which is available for allocation to counties for new farms and for allocation to counties under § 722.1417 (h), and county reserves. Notice of the proposed establishment of county acreage allotments was published in the FEDERAL REGISTER of September 6, 1956 (21 F. R. 6716) pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) and the data, views and recommendations which were submitted have been duly considered. It is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice and public procedure thereon and the 30-day effective date requirements of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) is impracticable, unnecessary and contrary to the public interest and this amendment shall be effective upon filing of this document with the Director, Division of the Federal Register.

The regulations pertaining to acreage allotments for the 1957 crop of extra long staple cotton (21 F. R. 8275, 9627) are amended as follows:

1. Section 722.1416 is amended by addition of a new paragraph (h) which establishes the allocations to counties from the State reserve for small farms and for inequity and hardship cases, the remaining State reserve which is available to counties for new farms and for allocations to counties under § 722.1417 (h) and county reserves:

(h) *Allocations to counties from State reserve for small farms, inequity and hardship cases; county reserves; and State reserve available for allocation to counties for new farms, late and reconstituted farms, and correction of errors.*

Issued this 18th day of January 1957.

[SEAL] CLARENCE L. MILLER,
Acting Executive Vice President, Commodity Credit Corporation.

[F. R. Doc. 57-600; Filed, Jan. 24, 1957; 8:51 a. m.]

[1] The Cooperative Association through which price support is made available is authorized to deduct from the amount paid to growers not to exceed $1.50 per hundred pounds to apply against receiving and overhead costs to the Association of the loan operation. Only the original producer is eligible to receive advances. A producer may obtain advances on sorted Broadleaf only if all eligible grades of tobacco produced in the sorting process are included in the consignment. No advance is authorized for tobacco graded W (unsafe keeping order), U (unsound), or N (nondescript). Tobacco graded Y1 DAM or Y2 DAM will be accepted at an advance rate of two cents per pound below the regular grade advance rate.

PART 464—TOBACCO

SUBPART—1956 TOBACCO LOAN PROGRAM

ADVANCE SCHEDULE

Set forth below is the schedule of advance rates, by grades, for the 1956 crop of type 46 tobacco under the 1956 tobacco loan program formulated by Commodity Credit Corporation and Commodity Stabilization Service, published June 6, 1956 (21 F. R. 3863).

§ 464.841 *1956 Crop—Puerto Rican Tobacco, Type 46, Advance Schedule.*[1]

[Dollars per hundred pounds, farm sales weight]

X4, Y1	Price Block IV: 19
	Price Block V: 16
	Price Block VI: 11

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, as amended, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421)

Issued this 18th day of January 1957.

[SEAL] CLARENCE L. MILLER,
Acting Executive Vice President, Commodity Credit Corporation.

[F. R. Doc. 57-601; Filed, Jan. 24, 1957; 8:52 a. m.]

[1] The cooperative associations through which price support is made available to growers are authorized to deduct $1.00 per hundred pounds from the advances to growers to apply against overhead and handling costs. Tobacco is eligible for advances only if consigned by the original producer. No advance is authorized for tobacco found to be in unsafe keeping order, unsound, or damaged.

Subchapter D—Regulations Under Soil Bank Act

PART 485—SOIL BANK

SUBPART—ACREAGE RESERVE PROGRAM

MISCELLANEOUS AMENDMENTS

The regulations governing the 1957 acreage reserve part of the Soil Bank Program, 21 F. R. 10449, are hereby amended as follows:

1. Paragraph (a) (2) of § 485.211 is amended by adding the following sentence at the end thereof: "If the county allocation of funds is exhausted at the time the producers on a farm wish to file an agreement, the operator's name and the acreage which the operator desires to place in the acreage reserve shall be entered on a register in the county office; if the county thereafter receives an additional allocation of funds sufficient to cover such an agreement the producers will be given an opportunity to file an agreement."

2. (a) The references in paragraph (b) (1) and (2) of § 485.212 to "subparagraphs (3) and (5)" are amended to read "subparagraphs (3), (4) and (5)".

(b) Paragraph (b) (4) of § 485.212 is amended by inserting the following sentence at the beginning thereof: "Producers who wish to file an agreement at a time when the county allocation of funds was exhausted (see § 485.211 (a) (2)) shall have until 10 days after the date of written notification to the operator that funds are available to file an agreement."

3. Paragraph (b) (1) (i) of § 485.212 is corrected to read as follows:

(i) If a farm is one on which wheat is normally planted in the fall and on which no wheat was planted in the spring of 1954, 1955, or 1956, and the producers wish to participate in the 1957 acreage reserve program for wheat, the agreement (Form CSS-800-1) must be filed with the county committee not later than October 5, 1956.

4. Paragraph (b) (4) of § 485.213 is amended by inserting a colon in place of the period at the end thereof and adding the following: "*Provided*, That, in the case of tobacco, acreage physically harvested and disposed of other than by marketing shall be included in determining the acreage for tobacco under the acreage reserve program."

5. (a) Paragraph (a) (3) of § 485.214 is amended by deleting the first sentence and inserting in lieu thereof the following:

(3) In the case of agreements entered into on either Form CSS-800-1 or Form CSS-800, except where the county committee makes such an inspection prior to the signing of the agreement by one of its members, the county committee shall have the right at any time after the agreement is so signed to inspect the farm for the purpose of determining (i) suitability of the land, (ii) per cent of productivity of the tract(s) of land designated as the acreage reserve, and (iii) the accuracy of the designation and identification of the acreage reserve.

(b) Paragraph (a) (3) of § 485.214 is also amended by deleting in the second sentence the words "applicable to agreements entered into on such Form CSS-800 (crops other than Winter Wheat)".

6. The second sentences of paragraphs (b) and (c) of § 485.214 are amended to read as follows: "Such restriction shall not apply to a crop which matured and normally would be harvested in 1956, unless harvesting of the crop in 1956 would have been in violation of a 1956 acreage reserve agreement."

7. The first sentence of § 485.227 (a) is amended by inserting after the word "reapportionment" the words "or reconstitution".

8. Section 485.229 is amended to read as follows:

§ 485.229 *Reconstitution of farms.* An agreement shall be deemed terminated if after the execution thereof the farm allotment for the commodity covered thereby is revised as a result of reconstitution due to a division of the farm by sale, lease, or other means, or as a result of the combination of two or more farms, or parts of farms, as a single farm. In case of such termination, the producers involved shall have until 10 days after the date of the revised allotment notice to file a new agreement or agreements, subject to all of the provisions of these regulations. The maximum compensation payable under any such new agreement or agreements filed after the final date for filing such an agreement specified in § 485.212 (b) may not total more than the maximum compensation payable under the original agreement or agreements. The county committee may allocate the maximum compensation payable under the original agreement among the farms as reconstituted on the basis of the respective shares of the farm allotment received by each reconstituted farm or on such other basis as may be agreed upon by the producers involved.

9. Paragraph (a) (2) of § 485.217 is amended by adding the following sentence at the end thereof: "With respect to tobacco, the maximum rate of compensation per acre in all cases shall be: flue-cured, $293; burley, $340; Maryland, $169; dark air-cured, $201; Virginia sun-cured, $160; fire-cured, $198; cigar binder type 51, $366; cigar binder type 52, $346; cigar binder type 54, $154; cigar binder type 55, $211; Ohio cigar filler types 42-44, $173."

(Sec. 124, 70 Stat. 188)

Issued at Washington, D. C. this 18th day of January 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6252]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

TRAVELERS HEALTH ASSN.

Subpart—*Advertising falsely or misleadingly:* § 13.260 *Terms and conditions:* Insurance coverage.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Travelers Health Association, Omaha, Nebr., Docket 6252, December 20, 1956]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging an insurance company doing business in various States by mail from its home office in Omaha, Nebraska, with misrepresenting in pamphlets and form letters the terms and conditions of its health insurance policies, including length of the effective period, amount of indemnification against disability or loss caused by sickness, and medical examination or proof of health required at issuance of the policy.

Following hearings in due course, the hearing examiner made his initial decision including findings and order to cease and desist as to certain issues of the complaint, and dismissed others. Cross-appeals were filed by counsel for both parties, upon consideration of which the Commission denied that of respondent, granted the appeal of counsel supporting the complaint, vacated the initial decision and, in lieu thereof, on December 20 issued its own findings as to the facts, conclusions, and order to cease and desist.

The order to cease and desist, including order requiring report of compliance therewith, is as follows:

It is ordered, That respondent Travelers Health Association, a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of any health insurance policy or policies, do forthwith cease and desist from representing, directly or by implication:

1. That any such policy may be continued in effect by the insured upon payment of stipulated premiums, indefinitely or for any stated time, unless full disclosure of any other provision or condition of termination contained in the policy is made conspicuously, prominently, and in sufficiently close conjunction with the representation as will fully relieve it of all capacity to deceive.

2. That any policy provides for indemnification against disability or loss due to sickness or disease, unless a statement of all the conditions, exceptions, restrictions and limitations affecting the indemnification actually provided is set forth conspicuously, prominently, and in sufficiently close conjunction with the representation as will fully relieve it of all capacity to deceive.

3. That no medical examination is required unless the respondent actually insures the policyholder without regard to his physical condition before or after issuance of the policy; or otherwise representing that the condition of the insured's health at the time of issuance of the policy will not be considered by the respondent in determining its liability thereunder, or that the respondent will not, as a claims practice, require proof of the health of the insured at the time of issuance of the policy.

It is further ordered, That respondent Travelers Health Association shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied therewith.

Issued: December 20, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2-5, 54 Stat. 1128-1130; 15 U. S. C. 45, 68-68 (c)) [Cease and desist order, Anglo Fabrics Company, Inc. (New York, N. Y.), et al., Docket 6603, January 1, 1957]

In the Matter of Anglo Fabrics Company, Inc., a Corporation, Leo Honig and John H. Honig, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a corporate manufacturer and its officers, with mill at Webster, Mass., and offices in New York City, with violating the Wool Products Labeling Act through mislabeling fabrics containing little or no Guanaco as "54 percent Guanaco, 6 percent Rabbit Hair, 40 percent Wool", through failing to stamp or label certain other wool products as required, and through furnishing false guarantees that certain wool products were not misbranded; and with violating the Federal Trade Commission Act by aforesaid practices and by misrepresenting the fiber content of wool products in sales invoices, shipping memoranda, correspondence and orally, and by furnishing labels bearing such misrepresentations to customers to be attached to garments manufactured from certain of their products.

Following entry of an agreement for a consent order to cease and desist, the hearing examiner made his initial decision and order to cease and desist which by order of December 31, 1956, became on January 1, 1957, the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondent, Anglo Fabrics Company, Inc., a corporation; its officers; the respondents, Leo Honig and John H. Honig, individually and as officers of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or

[1] New.

distribution in commerce (as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act) of piece goods or other "wool products" (as "wool products" are defined in the Wool Products Labeling Act), do forthwith cease and desist from:

A. Misbranding such products by:

1. Attaching or using stamps, tags, labels, or other means of identification which represent that such products contain a certain percentage of hair or fiber which is contrary to fact;

2. Otherwise falsely or deceptively stamping, tagging, labeling, or identifying such products as to the character or amount of their constituent fibers;

3. Failing to affix securely on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner;

(a) The percentage of the total fiber weight of such wool product (exclusive of ornamentation not exceeding five percentum of the total fiber weight) of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where the percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool product, of any nonfibrous loading, filling, or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution, or delivery for shipment of such wool product in commerce (as "commerce" is defined in the Wool Products Labeling Act of 1939).

B. Furnishing false guaranties that piece goods, or other wool products (as "wool products" are defined in the Wool Products Labeling Act) are not misbranded under the provisions of the Wool Products Labeling Act, when there is reason to believe that the wool products so guaranteed may be introduced, sold, transported, or distributed in commerce.

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and

Provided further, That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

It is further ordered, That the respondent, Anglo Fabrics Company, Inc., a corporation; its officers; the respondents Leo Honig and John H. Honig, individually and as officers of said corporation; and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce (as "commerce" is defined in the Federal Trade Commission Act) of piece goods, or other wool products, do forthwith cease and desist from:

A. Misrepresenting by statements or representations, orally or in writing in contracts, orders, confirmations, correspondence, or other documents or by any other means the character or amount of the constituent fibers contained in such products.

B. Furnishing to or placing in the hands of others stamps, tags, or labels by means of which the respondents' products, or garments made from them, may be falsely or deceptively stamped, tagged, labeled, or otherwise identified, either as to the character or amount of their constituent fibers or in any other respect.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 31, 1956.

By the Commission.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Kenneth R. Ogle et al. trading as Approved Photographers Association, Cincinnati, Ohio, Docket 6611, December 27, 1956]

In the Matter of Kenneth R. Ogle and Bruno G. Jaeger, Individuals Trading as Approved Photographers Association

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a Cincinnati, Ohio, firm, engaged in the sale of photograph albums and certificates for photographs to be taken at independent affiliated studios, with representing falsely through statements of sales agents that persons solicited were specially selected, that the albums were free, that prices at which the photographs were offered were promotional and reduced, and that photographers would take the pictures at the homes of customers; with using the fictitious name "Second National Credit Bureau" in collection of delinquent accounts; and with representing by their trade name that their private business was an association of photographers.

Following an agreement providing for entry of a consent order, the hearing examiner made his initial decision and order to cease and desist which became on December 27 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Kenneth R. Ogle and Bruno G. Jaeger, individually and doing business as Approved Photographers Association, or doing business under any other name or names jointly or severally, their representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of photograph albums or certificates for photographs, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing directly or by implication:

(a) That they sell only to selected persons;

(b) That their albums are given free or without cost;

(c) That their albums are worth or of a certain value, which is in excess of the prices at which they are regularly and customarily sold in the normal course of business;

(d) That the prices at which they regularly or customarily sell their products are reduced or promotional prices; and

(e) That photographs will be taken in purchasers' homes without additional charge.

2. Collecting or attempting to collect their delinquent accounts by what is represented, directly or by implication, to be an independent collection agency when such agency is in fact operated by respondents.

3. Using the name "Approved Photographers Association", or any other name of similar import, to designate, describe, or refer to respondents' business, or otherwise representing that their business is an association of photographers.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 27, 1956.

By the Commission.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Supp. 25]

PART 3—AIRPLANE AIRWORTHINESS; NORMAL, UTILITY, AND ACROBATIC CATEGORIES

MISCELLANEOUS AMENDMENTS

Correction

In Federal Register Document 57-3, appearing at page 135 of the issue for Saturday, January 5, 1957, the following changes should be made in § 3.721-2:

1. In paragraph (i) (1), "¼ wave length" should read "½ wave length", and in paragraph (i) (2), "½ wave length" should read "¼ wave length".

2. In paragraph (j) (1) the formula should read as follows: $\frac{11,218}{4\times f(mc)}$.

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

[T. D. 6217]

Subchapter A—Income Tax

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Correction

The following changes should be made in Federal Register Document 56-10203, published at page 10207, December 20, 1956:

1. At the end of § 1.665 (c)-1 (b) and § 1.666 (c)-1 (a), the word "section" should read "paragraph".

2. In paragraph (2) of the example under § 1.668 (a)-4 (b), the word "determine" should read "determined".

3. In the example under § 1.668 (b)-2; the third column headnote in the table in paragraph (h) (1) (ii) should read "Rents"; in paragraph (h) (2) (iii) the word "attributed" should read "distributed"; and in paragraph (j) (2) (ii) the reference "§ 1668 (a)-4 (a)-1" should read "§ 1.668 (a)-4 (a) (1)".

4. The last two sentences of paragraph (c) of § 1.673 (a)-1 should read as follows: "If the reversionary interest in any portion is to take effect on or after the death of the grantor (or any person other than the person to whom the income is payable) or upon the expiration of a specific term of years, whichever is earlier, the grantor is treated as the owner of the portion if on the date of transfer of the portion either the life expectancy of the grantor (or other person) or the specific term is less than 10 years; however, if both the life expectancy and the specific term are 10 years or longer the grantor is not treated as the owner of the portion under section 673. Similarly, if the grantor has a reversionary interest in any portion which will take effect at the death of the income beneficiary or the grantor, whichever is earlier, the grantor is not treated as an owner of the portion unless his life expectancy is less than 10 years."

5. In example (2) under § 1.683-2 (c), the word "trusts' " in the fifth line of paragraph (ii) should read "trust's".

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 15—MATTER MAILABLE UNDER SPECIAL RULES

PART 61—MONEY ORDERS

MISCELLANEOUS AMENDMENTS

In § 15.5 *Concealable firearms*, make the following changes:

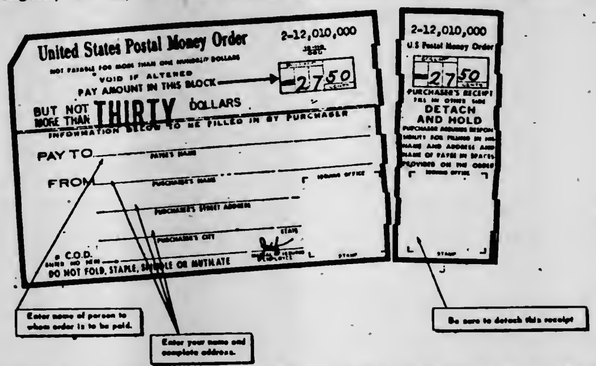
1. Amend paragraph (b) (4) to read as follows:

(4) For the purchasing agent or other designated member of enforcement agencies, a certificate signed by the head of such agency, that the firearms are to be used by officers and employees included in paragraph (a) (3) and (4) of this section.

A qualified manufacturer or bona fide dealer need not file an affidavit but must file with the postmaster a statement signed by the sender that he is a manufacturer of firearms or that he is a bona fide dealer therein and that the parcels are customary trade shipments or contain other articles for repair or replacement of parts and that to the best of his knowledge or belief the addressees are manufacturers of firearms or bona fide dealers therein. If satisfied that the sender is as stated by him the postmaster shall accept the parcel for mailing. No affidavit or certificate need be filed by the sender when the parcel is addressed to the Federal Bureau of Investigation, Washington, D. C., or the Director thereof; or to the scientific laboratory or crime detection bureau of any enforcement agency covered by paragraph (f) of this section.

2. Amend paragraph (f) to read as follows:

(f) *Federal Bureau of Investigation; crime detection bureaus.* Firearms addressed to the Federal Bureau of Investigation, or its Director or to the scientific laboratory or crime detection bureau of any agency whose members are officers of a State, territory, or district authorized to serve warrants of arrest or commitment, may be accepted for mailing without regard to the provisions of paragraphs (b) and (d) of this section.



(R. S. 161, 396, as amended; sec. 1, 62 Stat. 781, as amended; 5 U. S. C. 22, 369, 18 U. S. C. 1716)

In § 61.1 *How to buy a domestic money order*, make the following changes:

1. Amend the caption of paragraph (c) and subparagraph (1) to read as follows:

(c) *How to buy*—(1) *Issuance and completion of order.* Ask the clerk to issue you a money order for the desired amount. After he has handed it to you be sure to fill in your name and address as purchaser and the name of the person to whom it is to be paid. Do this promptly to protect your rights in the event the order is lost.

2. Delete the illustrations depicting a money order and application therefor, and insert in lieu thereof the following:

In § 61.2 *How to buy an international money order*, make the following changes:

1. In paragraph (b) (1) change Form 6701 to POD Form 6701.

2. Amend paragraph (b) (4) to read as follows:

(4) You must use POD Form 6083, Supplemental International Money Order Advice, written in the foreign language, when you send money orders payable in Greece, Lebanon, Syria, Yugoslavia, and Japan.

3. In paragraph (d), amend the listing of countries by inserting, in proper order, the following:

Vatican City.

In § 61.3 *How to cash a money order*, amend paragraph (e) (3) to read as follows:

(3) *On death of payee.* A money order belonging to a deceased owner may be paid to the executor or administrator of the estate appointed by the court. A certified copy of the appointment as executor or administrator must be filed with the local postmaster. Payments will be made in accordance with the laws of the State of which the deceased was a resident.

(R. S. 161, 396, as amended, 4027; sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 246f, 711)

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11860; FCC 57-61]

[Rules Amdt. 3-52]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606, table of assignments, rules governing television broadcast stations (Johnstown and Altoona, Pennsylvania).

1. The Commission has before it for consideration its Notice of Proposed Rule Making issued in this proceeding on November 2, 1956 (FCC 56-1063) and published in the FEDERAL REGISTER on November 7, 1956 (21 F. R. 8542) proposing to shift Channel 19 from Altoona to Johnstown, Pennsylvania in response to a petition filed by Rivoli Realty Company.

2. No comments in opposition to the proposal have been filed. Rivoli Realty Company filed comments in support of the proposal.

3. The Commission believes that the public interest, convenience and necessity would be served by shifting Channel 19 from Altoona to Johnstown and that the proposed amendment will provide a more effective utilization of frequencies. The Commission has recognized that difficulties are presented in the operation of higher UHF channels at this time in light of temporary equipment problems. It has therefore, in a number of cases, shifted lower UHF channels to communities which propose to make immediate use of the frequency where the lower channel could be obtained from a community which did not appear ready to proceed with the use of the lower UHF channel.

4. Petitioner renews its request that it be directed in this proceeding to show cause why its authorization for Station WARD-TV should not be modified to specify operation on Channel 19 instead of Channel 56. In our Notice of Proposed Rule Making issued in this matter we stated that since it was not proposed to disturb the allocation of Channel 56 in Johnstown, there was no necessity for modifying the outstanding authorization of Rivoli in order to accomplish the proposed change in allocation. We do not believe that it would be appropriate to modify the authorization of Rivoli Realty Company in this proceeding. Under the rules as recently amended (§ 3.607 (a)) Rivoli will have the opportunity of immediately filing an application for the new frequency in Johnstown. Accordingly, Rivoli's request for a show cause order is denied.

5. Authority for the adoption of the amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

6. In view of the foregoing, *It is ordered*, That, effective February 21, 1957, the Table of assignments contained in § 3.606 of the Commission's rules and regulations is amended, insofar as the communities named are concerned, as follows:

City:	Channel No.
Altoona, Pa.	10—, 25—
Johnstown, Pa.	6, 19+, 56—

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1083; 47 U. S. C. 301, 303, 307)

Adopted: January 17, 1957.

Released: January 18, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Rules Amdts. 7-17 and 8-22]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

In the matter of amendment of Parts 7 and 8 of the Commission's rules and to delete the frequencies 6240 kc and 6455 kc and to make the frequency 4372.4 kc available on a full-time basis for ship and coast stations using radiotelephony on the Mississippi River and connecting inland waterways (except the Great Lakes).

The Commission having under consideration its Report and Order in the above-entitled proceeding, adopted July 6, 1956, and the petitions in objection thereto filed by American Waterways Operators, Inc., Warner and Tamble Radio Service, Inc., The Central Committee on Radio Facilities of the American Petroleum Institute, G. W. Gladders Towing Co., Inc., Union Barge Line Corporation, Ashland Oil and Refining Co., American Barge Line Company and Southland Towing Company, The Ohio River Company, Ohio Barge Line, Inc., and Radio Marine Corporation of America, which petitions include requests for a public hearing, a rehearing and/or reconsideration of the action ordered, and which petitions also request a stay of the order in the interim;

It appearing that additional information with respect to the interference which may be caused to other services by the continued use of the 6 Mc frequencies for ship-shore public telephony on the Mississippi River system, and with respect to the justification for permitting such use of these frequencies in derogation of the Table of Allocations in the Radio Regulations adopted at Atlantic City in 1947 (63 Stat. 1401 at 1621-1713), would aid the Commission in reaching a decision as to whether the public interest would be best served by a grant or a denial of the above-mentioned petitions; and

It further appearing that these petitions raise questions which warrant a further consideration by the Commission;

It is ordered, That these petitions are designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

(a) Whether the continued use of 6240 kc and 6455 kc for ship-shore public telephony on the Mississippi River system is capable of causing, or does in fact cause, harmful interference and if so, to what extent, to stations of other services of the United States or other countries, operating in accordance with said Atlantic City Table of Allocations. Evidence adduced in response to this issue shall include, but not be limited to, data based upon (1) computed delivered median field strength vs. distance data for coast radiotelephony stations of the Rivers system for authorized hours of operation (for all seasons and sunspot conditions), (2) the range of usable field strengths from ship radiotelegraph stations, normally encountered under actual operating conditions at coast radiotelegraph stations, and (3) the minimum acceptable desired-to-undesired signal ratios for telegraphy-vs.-telephony; and

(b) What facts, if any, indicate that the Commission would be warranted in issuing an order to permit use of frequencies in derogation of said Atlantic City Table of Allocations; and

(c) What facts, if any, indicate that such continued use of these frequencies is distinctively justified, in comparison with other services or systems which have been required to operate on frequencies which are in accordance with the said Table of Frequency Allocations; and

(d) Whether the utility of a maritime mobile band would be seriously impaired by the continued use of these frequencies by these petitioners; and

(e) Whether the utility of a maritime mobile band would be seriously impaired by the continued use of these frequencies by an accumulation of this and other multiple low power out of band operations, both domestic and international; and

(f) Whether in the light of the evidence adduced pursuant to the foregoing issues it would best serve the public interest, convenience and necessity to authorize the continued use of the presently assigned 6 megacycle frequencies for ship-shore public telephony on the Mississippi River system in derogation of the said Atlantic City Table of Allocations.

It is further ordered, That parties desiring to participate in the hearing should file a statement with the Commission on or before February 15, 1957, setting forth a list of their witnesses who will testify at the hearing together with the subjects with respect to which testimony will be adduced and evidence offered; and

It is further ordered, That that part of the final order of July 6, 1956, in the above-entitled docket which went into effect on August 14, 1956, shall remain in force; and

It is further ordered, That that part of the final order of July 6, 1956, which would have become effective on February 1, 1957, shall be stayed pending the final determination by the Commission on the petitions listed above, further action on which petitions is hereby deferred.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: January 18, 1957.

PART 11—INDUSTRIAL RADIO SERVICES

AVAILABILITY OF CERTAIN FREQUENCIES

Correction

The following changes should be made in Federal Register Document 57-362, published at page 351 in the issue for Thursday, January 17, 1957:

1. Subparagraph (2) of § 11.302 (e) should read as follows:

(2) The following frequencies may be assigned to Base and Mobile Stations at many locations within the continental limits of the United States and, in some cases, in territories and possessions, in accordance with the provisions of subparagraph (1) of this paragraph:

Frequencies	*Frequencies*
1614 kc	1700 kc
1628 kc	2292 kc
1652 kc	2398 kc
1676 kc	4637.5 kc

2. In paragraph (d) (1) of § 11.352 the third frequency band, now reading "2194-2595 kc", should read "2194-2495 kc".

[Rules Amdt. 15-7; FCC 57-67]

PART 15—INCIDENTAL AND RESTRICTED RADIATION DEVICES

RADIATION INTERFERENCE LIMITS AND CERTIFICATION REQUIREMENTS APPLICABLE TO UHF TELEVISION BROADCAST RECEIVERS; EFFECTIVE DATE

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of January 1957;

The Commission having under consideration a request from the Radio-Electronics-Television Manufacturers Association to extend the time within which UHF television broadcast receivers must comply with the radiation interference limits and certification requirements of Part 15 of the rules governing incidental and restricted radiation devices; and

It appearing that § 15.68 (b) provides that the radiation interference limits above 260 Mc and the certification requirements with respect thereto shall be met by all new models of UHF television broadcast receiver chassis placed in production after December 31, 1956, and by all UHF television broadcast receivers manufactured after June 30, 1957; and

It further appearing that a series of tests conducted by the Institute of Radio Engineers and the Radio-Electronics-Television Manufacturers Association on sample receivers under various conditions and in various locations disclosed a lack of correlation in test sites as high as 14 db using present measurement techniques; and

It further appearing that these large variations do not allow the determination of compliance with the Commission's radiation interference limits with sufficient accuracy; and

It further appearing that a developmental program is currently being conducted for the purpose of providing a suitable solution to the measurement problem and six months' additional time is needed for its completion; and

It further appearing that the granting of such additional time would be in the public interest; and

It further appearing that in view of the time element involved, compliance with the notice provisions of section 4 of the Administrative Procedures Act would be impracticable, and that because the amendment relieves a restriction, it may be effective immediately;

It is ordered, That pursuant to the authority of section 4 (i), 301 and 303 (f) of the Communications Act, § 15.68 (b) of the Commission's rules is amended as set forth below effective December 31, 1956.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1083; 47 U. S. C. 301, 303, 307)

Released: January 18, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

The provisions of § 15.68 (b) of the Commission's rules are amended to revise the effective date of the rules with respect to the radiation interference limits and certification requirements applicable to UHF television broadcast receivers.

As amended § 15.68 (b) reads as follows:

(b) The radiation interference limits above 260 Mc and the certification requirements with respect thereto shall be met by all new models of UHF television broadcast receiver chassis placed in production after June 30, 1957, and by all UHF television broadcast receivers manufactured after December 31, 1957.

[Rules Amdt. 16-11]

PART 16—LAND TRANSPORTATION RADIO SERVICES

FREQUENCIES AVAILABLE AND LIMITATION OF INSTALLATION AND USE

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of January 1957;

The Commission having under consideration amendment of its Motor Carrier Radio Service Rules (Subpart F of Part 16) to permit a carrier which provides property transportation service between urban areas, and thus qualifies in the Motor Carrier Radio Service for assignment of the frequencies in the 43-45 Mc range, to use its radio system for communication not only with those of its vehicles actually employed in transporting property between urban areas but also for communications with those of its vehicles which are engaged in the local pickup and delivery of property which has been shipped or is destined for shipment between urban areas; and

It appearing that the Commission on November 8, 1956, adopted a Notice of Proposed Rule Making in this matter which was published in the FEDERAL REGISTER on November 16, 1956 (21 F. R. 8951), in accordance with section 4 (a) of the Administrative Procedure Act; and

It further appearing that the period in which interested persons were afforded an opportunity to submit comments with respect thereto has expired; and

It further appearing that comments in support of the Commission's proposal have been filed by the Atlantic Transfer Company, Motorola, Inc., and the American Trucking Associations, and that no objection or adverse comments with respect to the above-mentioned proposal have been received; and

It further appearing that the public interest and necessity will be served by the amendment herein ordered, that authority therefor is contained in sections 4 (i) and 303 of the Communications Act of 1934, as amended, and that these amendments will relieve an existing restriction and may, therefore, under the provisions of section 4 (c) of the Administrative Procedure Act be made effective immediately;

It is ordered, That effective January 22, 1957, §§ 16.252 (d) and 16.255 of Part 16 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: January 18, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
MARY JANE MORRIS,
Secretary.

AMENDMENTS TO PART 16, SUBPART F, MOTOR CARRIER RADIO SERVICE

1. Amend § 16.252 (d) to read as follows:

(d) The following frequencies are available to the Motor Carrier Radio Service for assignment to Base and Mobile stations of common or contract carriers of property operating between urban areas: *Provided*, That each application for assignment of the following frequencies shall be accompanied by a statement signed by the applicant in which it is agreed (1) that any authorization for the use of such frequencies will be accepted with the express understanding of the applicant that such frequencies are shared with other licensees and may be subject to interference, both local and long range, and

(2) that no more than the minimum power or antenna height required for the satisfactory technical operation of the system will be employed, commensurate with the area to be served and the local conditions affecting radio transmission and reception:

Mc.	*Mc.*	*Mc.*
[1] 43.96	44.14	44.30
[1] 44.02	44.18	44.34
[1] 44.06	44.22	44.38
44.10	44.26	44.42

[1] The frequencies 43.98, 44.02 and 44.06 are available on a shared basis with stations of common or contract carriers of passengers.

2. Amend § 16.255 to read as follows:

§ 16.255 *Limitations on installation and use.* Mobile units authorized in this service may be installed only in vehicles used for the carriage of passengers or property for compensation; or in vehicles used to supervise, tow, repair or maintain such vehicles or, in the case of a streetcar system, vehicles used in connection with the maintenance of associated trackage, right-of-way or electric power facilities.

[F. R. Doc. 57-583; Filed, Jan. 24, 1957; 8:49 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

PART 1—GENERAL RULES OF PRACTICE

WITNESS EXAMINATION; ORDER OF PROCEDURE

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 8th day of January A. D. 1957.

There being under consideration § 1.74 of the Commission's General Rules of Practice, and good cause appearing therefor:

It is ordered, That § 1.74 be amended to read as follows:

§ 1.74 *Witness examination; order of procedure.* Witnesses will be orally examined under oath before the officer unless their testimony is taken by deposition or the facts are presented to the Commission in the manner provided under modified or shortened procedure. In formal-complaint, application, and investigation proceedings complainant, applicant, and respondent, respectively, shall open and close at the hearing, except at further hearings granted on petition the petitioner requesting further hearing shall open and close. Intervenors shall follow the party in whose behalf the intervention is made. The foregoing order of presentation may be varied by the officer, who also shall designate the order of presentation in any other type of proceeding, of any other party to any proceeding, or of parties to several proceedings being heard upon a consolidated record.

It is further ordered, That this order shall become effective on March 1, 1957.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

(Secs. 12, 17, 24 Stat. 383, as amended, 385, as amended, 49 Stat. 546, as amended, 548, as amended, sec. 201, 54 Stat. 933, sec. 1, 56 Stat. 285; 49 U. S. C. 12, 17, 304, 305, 904, 1003)

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[F. R. Doc. 57-577; Filed, Jan. 24, 1957; 8:48 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 914]

NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

ORDER DIRECTING THAT REFERENDUM BE CONDUCTED; DESIGNATION OF REFERENDUM AGENTS TO CONDUCT SUCH REFERENDUM; AND DETERMINATION OF REPRESENTATIVE PERIOD

Pursuant to the applicable provisions of Marketing Agreement No. 117, as amended, and Order No. 14, as amended (7 CFR Part 914; 21 F. R. 4707) and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat., as amended, 7 U. S. C. 601 et seq.), it is hereby directed that a referendum be conducted among the growers who, during the period November 1, 1955, through October 31, 1956 (which period is hereby determined to be a representative period for the purposes of such referendum), were engaged, in the State of Arizona and that part of the State of California, south of the 37th Parallel, in the production of Navel oranges for market to determine whether such growers favor continuation of the said amended marketing agreement and order. Warren C. Noland and Edward H. Bixby of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture to perform, jointly, or severally, the following functions in connection with the referendum:

(a) Conduct said referendum in the manner herein prescribed:

(1) By giving opportunity for each of the aforesaid growers to cast his ballot, in the manner herein authorized, relative to the aforesaid continuance of the amended marketing agreement and order, on a copy of the appropriate ballot form. A cooperative association of such growers, bona fide engaged in marketing Navel oranges grown in the aforesaid production area or in rendering services for or advancing the interests of the growers of such Navel oranges, may vote for the growers who are members of, stockholders in, or under contract with, such cooperative association (such vote to be cast on a copy of the appropriate ballot form), and the vote of such cooperative association shall be considered as the vote of such growers.

(2) By determining the time of commencement and termination of the period of the referendum and by giving public notice, as prescribed in (a) (3) hereof, (i) of the time during which the referendum will be conducted, (ii) that any ballot may be cast by mail, and (iii) that all ballots so cast must be addressed to Warren C. Noland, Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, 1031 South Broadway, Room 1005, Los Angeles 15, California, and the time prior to which such ballots must be postmarked.

(3) By giving public notice (i) by utilizing available agencies of public information (without advertising expense), including both press and radio facilities in the State of Arizona and designated part of California; (ii) by mailing a notice thereof (including a copy of the appropriate ballot form) to each such cooperative association and to each grower whose name and address are known; and (iii) by such other means as said referendum agents or either of them may deem advisable.

(b) Upon receipt by Warren C. Noland of all ballots cast in accordance with the provisions hereof, he shall canvass the ballots and prepare and submit to the Secretary a detailed report covering the results of the referendum, the manner in which the referendum was conducted, the extent and kind of public notice given, and all other information pertinent to the full analysis of the referendum and its results; and shall forward such report, together with the ballots and other information and data, to the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C.

(c) Each referendum agent shall not refuse to accept a ballot submitted or cast; but should they, or either of them, deem that a ballot should be challenged for any reason, or if such ballot is challenged by any other person, said agent shall endorse above his signature, on the back of said ballot, a statement that such ballot was challenged, by whom challenged, and the reasons therefor; and the number of such challenged ballots shall be stated when they are forwarded as provided herein.

(d) All ballots shall be treated as confidential.

The Director of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, is hereby authorized to prescribe additional instructions, not inconsistent with the provisions hereof, to govern the procedure to be followed by the said referendum agents in conducting said referendum.

Copies of the text of the aforesaid amended marketing agreement and order may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Washington, D. C., and at the Western Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, 1031 South Broadway, Room 1005, Los Angeles 15, California.

Ballots to be cast in the referendum may be obtained from either referendum agent hereunder.

Dated: January 22, 1957.

[SEAL] EARL L. BUTZ, *Assistant Secretary.*

[F. R. Doc. 57-599; Filed, Jan. 24, 1957; 8:51 a. m.]

[7 CFR Part 936]

FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO INCREASE IN EXPENSES FOR EARLY AND LATE VARIETIES OF PLUMS FOR 1956-57 SEASON

Consideration is being given to the following proposals submited by the Control Committee, established under the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), as the agency to administer the provisions thereof:

(a) That the Secretary of Agriculture find that the provisions pertaining to Early varieties of plums and Late varieties of plums in paragraph (a) (2) and (3) of § 936.210 *Expenses and rates of assessment for the 1956-57 season* (21 F. R. 4073) be amended to read as follows:

(2) Early varieties of plums, $20,000.00.

(3) Late varieties of plums, $21,000.00.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposals may do so by submitting the same to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than the 10th day following publication of this notice in the FEDERAL REGISTER.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: January 18, 1957.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11752; FCC 57-62]

NEW ORLEANS, LA.—MOBILE, ALA.

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606, Table of Assignments, Television Broadcast Stations (New Orleans, Louisiana—Mobile, Alabama).

1. On June 26, 1956, the Commission issued a Notice of Proposed Rule Making in the above-entitled matter inviting comments from interested parties on a proposal to delete Channel 4 from New Orleans, Louisiana, and assign this channel to Mobile, Alabama. The date for filing comments was specified as September 10, 1956, and for replies 15 days thereafter. The date for filing reply comments was subsequently extended to December 28, 1956.

2. In a reply comment filed on December 28, 1956, WKRG-TV, Inc., Laurel Television Company, and KTAG Associates jointly advanced a counter-proposal designed to add a third VHF commercial channel to New Orleans and additional VHF channels to other communities as follows:

City:	*Add channel*
New Orleans, La.	12—
Beaumont-Port Arthur, Tex.	12—
Lake Charles, La.	3
Houma, La.	11

The proponents point out that transmitter sites would have to be selected so as to meet the minimum assignment and station separation requirements of the Rules, and urge that such sites are available. This Further Notice is being adopted in order to provide parties with time in which to file comments with respect to this counterproposal.

3. The Commission also has before it for consideration two other petitions relating to assignments in this area. One petition, filed by KTAG Associates on August 7, 1956, requests the assignment of Channel 3 to Lake Charles in lieu of Channel 25 as follows:

City	Channel No.	
	Present	Proposed
Lake Charles, La.	7—, *19, 25, 60+	3, 7—, *19, 60+

KTAG also requests the Commission to order it to Show Cause why its outstanding authorization for KTAG-TV should not be modified to specify operation on Channel 3 in lieu of Channel 25.

4. In another petition filed September 2, 1956, Evangeline Broadcasting Company requests the assignment of Channel 3 to Lafayette, La., and Channel 12 to Lake Charles, La., as follows:

City	Channel No.	
	Present	Proposed
Lafayette, La.	10, 38—, 67—	3, 10, 38—, 67—
Lake Charles, La.	7—, *19, 25, 60+	7, 12—, *19, 25, 60+

The proponents in Lake Charles and Lafayette submit that transmitter sites would have to be selected which would meet the requirements of the Rules and that such sites are available.

5. The Commission is of the view that interested parties should be invited to file comments on these proposals before any action is taken in the subject proceeding.

6. Authority for the adoption of the amendments proposed herein is contained in sections 1, 4 (i) and (j), 301, 303 (a), (b), (c), (d), (e), (f), (g), (h), and (r), and 307 (b) of the Communications Act of 1934, as amended, and section 4 of the Administrative Procedure Act.

7. Any interested party who is of the view that the proposed amendments should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before February 8, 1957, a written statement setting forth his comments. Comments supporting any of the proposed amendments may also be filed on or before the same date. Comments in reply to original comments may be filed within 10 days from the last date for filing said original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established.

8. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: January 17, 1957.

Released: January 18, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 57-584; Filed, Jan. 24, 1957; 8:49 a. m.]

[47 CFR Part 9]

[Docket No. 11914; FCC 57-70]

AVIATION SERVICES

FREQUENCIES AVAILABLE

In the matter of amendment of § 9.611, Part 9, Rules Governing Aviation Services, to provide for 100 kc and 50 kc channel spacing in the VHF flight test band.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. In response to a request received by the Commission from the Aeronautical

Flight Test Radio Coordinating Council, it is proposed to amend § 9.611 of Part 9, rules governing aviation services, to provide for 100 kc and 50 kc channel spacing in the VHF flight test band.

3. The three VHF frequencies presently used by licensees of flight test facilities (123.1, 123.3, 123.5 megacycles) have been available for assignment under Part 9 of the Commission's rules since 1946. Since that time, flight test operations conducted by manufacturers of aircraft have been greatly expanded to meet requirements for the testing of both civil and military aircraft. This proposal is designed to alleviate the heavy loading of flight test channels, now being experienced in some parts of the country, by making additional channels available through the reduction of channel spacing in the VHF flight test band.

4. At such time as final action is taken on the proposal outlined herein for amendment of rules Part 9, appropriate companion amendments will be included for the Table of Frequency Allocations, § 2.104 (a) (5) of Part 2, Frequency Allocations and Radio Treaty Matters; general rules and regulations.

5. The proposed amendment is issued under authority contained in sections 303 (c), and 303 (r) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before February 28, 1957, written data, views, or arguments setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Rebuttal comments may be filed within 10 days from the last day for filing of original comments. No additional comments may be filed unless (1) specifically requested by the Commission, or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

7. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: January 17, 1957.

Released: January 18, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Amend Part 9, Rules Governing Aviation Services, as follows: Delete paragraph (a) of § 9.611, and substitute the following:

§ 9.611 *Frequencies available.* (a) The frequencies 3281 kilocycles, 123.1, 123.2, 123.3, 123.4, and 123.5 megacycles are available for assignment to ground and aircraft flight test stations. (The frequencies 123.1, 123.3, and 123.5 megacycles are shared with flying school stations on a non-interference basis.) The frequencies 123.15, 123.25, 123.35, and 123.45 megacycles are available for assignment only to aircraft manufacturers: *Provided, however,* That until January 1, 1960, these frequencies will be assigned only upon an adequate showing that harmful interference will not be caused to flight test and flying school stations operating on the other very high frequencies listed in this section.

[F. R. Doc. 57-585; Filed, Jan. 24, 1957; 8:49 a. m.]

[47 CFR Parts 31, 33, 34, and 35]

[Docket No. 11913; FCC 57-63]

INCOME TAX DIFFERENTIALS ARISING OUT OF THE USE OF ACCELERATED DEPRECIATION FOR INCOME TAX PURPOSES

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. This Notice of Proposed Rule Making is issued pursuant to a petition dated September 25, 1956, filed by General Telephone Corporation, 260 Madison Avenue, New York, New York, which requests the Commission to amend §§ 31.305 and 31.174 of Part 31 of the Commission's rules, Uniform System of Accounts, Class A and Class B Telephone Companies, to read as follows:

In § 31.174, paragraph (a), after the words, "Accidents and Damages"; insert the words, "deferrals of Federal and State Income Taxes resulting from election to use accelerated depreciation in the computation of tax liability"; § 31.174, paragraph (a) as amended will read as follows:

§ 31.174 Other deferred credits. (a) This account shall include the amount of all deferred credits not includible in accounts 168 to 173, inclusive, such as credit balances in clearing accounts; estimated uninsured casualty liabilities charged to account 669, "Accidents and Damages"; deferrals of Federal and State Income Taxes resulting from election to use accelerated depreciation in the computation of tax liability; amounts awaiting adjustments between accounts; amounts accrued for depreciation of miscellaneous physical property; and revenue, expense and income items in suspense. (Note also § 31.01–6.)

In § 31.305 *Operating taxes,* add paragraph (b) below and renumber existing paragraph (b) to (c):

(b) When election is made under the provisions of the Internal Revenue Code to use accelerated depreciation (See Note G) in the computation of the Federal and State Income Tax liability, the net charge to this account should be the amount which would result from the use of straight line depreciation for tax purposes. The portion of the charge representing deferrals of Federal and State Income Tax, resulting from the use of accelerated depreciation shall be credited to Account 174, Other Deferred Credits. This account shall be credited and Account 174, Other Deferred Credits shall be debited with amounts representing current Federal and State Income Taxes deferred in prior years, resulting from the use of accelerated depreciation for tax purposes.

NOTE G: Accelerated depreciation as used in the computation of Federal and State Income Taxes shall be the employment of one of the methods authorized for use by the Internal Revenue Code, which has the effect of reducing the amount of income taxes payable during the early years of the service life of any depreciable property to which it is applied and to increase the amount of such taxes payable thereafter during the remaining service life of the property with respect to which accelerated depreciation is taken.

3. The Commission's uniform systems of accounts (Part 31—Uniform System of Accounts, Class A and Class B Telephone Companies; Part 33—Uniform System of Accounts for Class C Telephone Companies; Part 34—Uniform System of Accounts for Radiotelegraph Carriers; and Part 35—Uniform System of Accounts for Wiretelegraph and Ocean-cable Carriers), as presently worded, permit charges to the tax expense accounts for the taxes actually payable and, with minor exceptions, arising out of operations during the current accounting period. Petitioner's request, if granted, would mark a departure from this fundamental theory underlying the present systems of accounts.

4. Petitioner states in support of its requests, in pertinent part, that the use of accelerated depreciation for Federal income tax purposes, as permitted by section 167 of the Internal Revenue Code of 1954, results

> • • • in deferrals of a portion of Federal Income Taxes during approximately the first half of the service life of property to which it is applied, and payments of additional Federal Income Taxes during the remaining life of such property. However, assuming no change in tax rates, the total tax liability over the life of the property is at least as great under these methods as under the straight life method heretofore employed by petitioner, but a smaller amount of taxes would be paid during the early part of the life of such property, and a larger amount during the latter part. Consequently, the end result is not to reduce taxes permanently, or to create additional income, but simply to shift a part of the tax burden to a subsequent period.

5. It is the understanding of the Commission that accelerated depreciation results in depreciation expense in the early years of the life of particular units or generations of depreciable property which is substantially higher than depreciation expense resulting from straight line depreciation during the same period. Thus, the effect of the use of accelerated depreciation for income tax purposes, instead of straight line depreciation (which is required to be used in the accounts) is an immediate reduction in income taxes payable. Confining our consideration to a particular unit or generation of property, accelerated depreciation results in depreciation expense in the later years of the life of such depreciable property which is lower than straight line depreciation during the same period. Accordingly, with respect to any given unit or generation of property, income taxes payable are reduced early in the life of such property by the use of accelerated depreciation (as compared with straight line depreciation) and increased later in its life by exactly the same amount, assuming that the taxpayer always has taxable income and that the tax rates remain unchanged. On the other hand, if we broaden our view to consider a carrier's over-all plant experience in which additions to plant are constantly occurring, either to replace retired plant or to add more plant, the above-described reduction in tax liability resulting from the use, for income tax purposes, of accelerated depreciation, as compared with straight line depreciation, on new plant may never be offset by the increase in tax liability in the later life of older plant that has been depreciated similarly for tax purposes. Thus, the use of accelerated depreciation for tax purposes may result in an indefinite tax reduction, especially in the case of the usual communications carrier whose plant is growing, or even in the case of a utility whose plant is static. (See illustrative tables in Report of the Committee on Depreciation and appendices thereto, Proceedings, National Association of Railroad and Utilities Commissioners, 67th Annual Convention, 1955, Asheville, North Carolina, pp. 429–521.)

6. Comments of communications carriers and other interested parties are especially solicited concerning the appropriateness of petitioner's basic accounting proposals in the light of the above-described factual situations. Comments and briefs regarding the purposes of the Congress in enacting the accelerated depreciation provisions of the Internal Revenue Code of 1954 also are solicited, particularly with respect to the question of whether the Congress intended that any reduction in a communication carrier's tax liability under accelerated depreciation used for income tax purposes, as compared with such liability under straight line depreciation required to be used in the accounts, should be a source of additional funds for the carrier and, if so, what changes, if any, should this Commission make in its accounting rules in furtherance of such intent. Any other comments, germane to the subject, which could be helpful in determining what changes, if any, would be appropriate and in the public interest, are invited.

7. The Commission takes no position at this time regarding the merits of petitioners' requests. It has reviewed the changes suggested by petitioner, however, and is presenting for comment alternative changes in the Rules which might better accomplish the objective of the petitioner, if it is determined that the type of accounting requested by petitioner should be adopted. These alternative changes contemplate the establishment of a new expense account and a new reserve account instead of supplementing the language of accounts 305 and 174, and would make such accounting mandatory if accelerated depreciation is used for income tax purposes. The alternative changes follow:

(A) Insert a new account numbered 306 to read as follows:

§ 31.306 *Income tax differentials from accelerated depreciation.* (a) This account shall be charged with the net amount by which current liability for income taxes is reduced (or credited with the net amount by which such liability is increased) by the application to telephone plant, for tax purposes but not for accounting purposes, of accelerated depreciation of the types provided for in section 167 of the Internal Revenue Code of 1954. The contra entries shall be to account 176, "Accelerated depreciation income tax differentials reserve." There shall be no credits made to this account which would create a debit balance in account 176.

(b) If the tax collection authority disallows any amount with respect to accelerated depreciation of telephone plant claimed as a deduction from taxable income an appropriate pro rata credit shall be made to this account, or to account 402, "Miscellaneous credits to earned surplus," if the amount disallowed is large enough to make the provisions of § 31.01–5 applicable, with concurrent charge to account 176, "Accelerated depreciation income tax differentials reserve."

(B) Insert a new account numbered 176 to read as follows:

§ 31.176 *Accelerated depreciation income tax differentials reserve.* (a) This account shall be credited or charged with any amounts concurrently charged or credited to account 306, "Income tax differentials from accelerated depreciation." This account shall also be charged with any amounts concurrently credited to account 402, "Miscellaneous credits to earned surplus," because of accelerated depreciation disallowed by the tax collection authority.

(b) Charges to this account for purposes other than those stated in account 306 may not be made unless prior permission of this Commission has been obtained.

8. It will be noted from the preceding paragraphs that this Notice of Proposed Rule Making contains specific language proposals as to accounting revisions for accelerated depreciation only for Part 31 of the Commission's rules. It is contemplated, however, that if as a result of this rule making proceeding amendments are adopted to Part 31 the same amendments in principle may also be incorporated in Parts 33, 34 and 35 of the rules which are the uniform systems of accounts for Class C telephone companies, radio-telegraph carriers, and wire-telegraph and oceancable carriers, respectively. Comments are invited with respect to the necessity or desirability of such uniformity of treatment in the field of income tax differentials arising out of the use of accelerated depreciation methods for income tax purposes.

9. In the event that the Commission should conclude that no changes in its accounting systems should be effected, comments are solicited regarding the desirability of amending the Commission's monthly and annual report forms prescribed for common carriers so as to require annotations stating whether accelerated depreciation is being used for income tax purposes and, if so, the amounts of tax differentials involved. Of course, if the accounting systems are amended, corresponding changes in the monthly and annual report forms will be in order.

10. This Notice of Proposed Rule Making is issued under authority of sections 4 (i) and 220 of the Communications Act of 1934, as amended.

11. Any interested party who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form proposed herein, may file with the Commission on or before March 15, 1957 a statement or brief setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments or briefs in reply to the original comments or briefs may be filed within 20 days of the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission, or (2) good cause for filing such additional comments is established. The Commission will consider all such comments that are presented before taking action in the matter and, if any comments are submitted which appear to warrant the holding of oral argument, notice of the time and place of such oral argument will be given.

12. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and fourteen copies of all statements or briefs filed shall be furnished to the Commission.

Adopted: January 17, 1957.

Released: January 22, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Area 4]

ALASKA

AMENDMENT OF NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LAND FOR THE DEPARTMENT OF AIR FORCE

Notice of the proposed withdrawal and reservation of lands for the Department of Air Force in the Iliamna, Alaska area, was published in the FEDERAL REGISTER, September 13, 1956, Volume 21, No. 178, Page 6940. The area embraced by this application, which is identified by the serial number Anchorage 032838, has been amended to read as follows:

PARCEL 1

Commencing at USC&GS Station "Big Mountain," Latitude 59°23'27.316" N., Longitude 155°13'29.204" W. (North American 1927 datum); thence East 160 feet to the point of beginning for this description; thence South 200 feet; thence West 1,100 feet; thence North 450 feet; thence West 530 feet; thence North 100 feet; thence East 630

feet; thence South 50 feet; thence East 1,000 feet; thence South 300 feet to the point of beginning for this description, containing 13.97 acres, more or less.

PARCEL 2

Commencing at USC&GS Station "Big Mountain" situated at Latitude 59°23'27.316" N. and Longitude 155°13'29.204" W. (1927 N. Amer. datum); thence due West approximately 1,700 feet; thence due South approximately 9,650 feet to point of beginning at air strip site; thence S. 4°45' W., 1,750 feet; thence N. 85°15' W., 8,000 feet; thence N. 4°45' E., 1,750 feet; thence S. 85°15' E., 8,000 feet to point of beginning, being 321.4 acres, more or less.

L. T. MAIN,
Acting Operations Supervisor.

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Territorial Department of Lands has filed an application, Serial No. Anchorgae 033372, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the mining laws, but excluding the mineral leasing laws and disposal of materials under the Materials Act. The applicant desires the land for public recreation purposes.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SEWARD MERIDIAN

U. S. Survey 3519,
Lots 4A and 21A.

Containing approximately 20.6 acres.

L. T. MAIN,
Acting Operations Supervisor.

[F. R. Doc. 57-554; Filed, Jan. 24, 1957; 8:45 a. m.]

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JANUARY 16, 1957.

The Territorial Department of Lands has filed an application, Serial No. Anchorage 033093, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the mining laws but excluding the mineral leasing laws and the provisions of the Materials Act. The applicant desires the land for public recreation purposes.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

THUMB COVE

Beginning at a point at mean high water on the north shore of Thumb Cove, Resurrection Bay, on the east side of Kenai Peninsula, Alaska, approximate Latitude 60°4'45" North, Longitude 149°18'30" West; thence due north 12.00 chains; thence due east 42.00 chains; thence due south 42.00 chains; thence S. 45° W. 64 chains; thence N. 45° W. 8.00 chains to a point at mean high tide on the south shore of Thumb Cove whence Thumb Cove Light bears approximately N. 70° W.; thence by meander along the mean high tide line of Thumb Cove in northeasterly, northerly and westerly direction to the point of beginning.

Containing an area of approximately 140 acres.

L. T. MAIN,
Acting Operations Supervisor.

[F. R. Doc. 57-555; Filed, Jan. 24, 1957; 8:45 a. m.]

UTAH

RESTORATION ORDER UNDER FEDERAL POWER ACT

JANUARY 16, 1957.

Pursuant to Determination DA-113-Utah, of the Federal Power Commission and in accordance with the authority delegated to me by the Director, Bureau of Land Management, in order No. 541, dated April 21, 1954 (19 F. R. 2473), it is ordered as follows:

The lands hereinafter described have been open to location and entry under the United States mining laws pursuant to the act of August 11, 1955 (69 Stat. 683; U. S. C. 621), and to applications and offers under the mineral-leasing laws, and, so far as they are reserved for power purposes, are hereby restored to disposition under the public land laws, subject to provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended:

SALT LAKE BASE MERIDIAN, UTAH

T. 25 S., R. 21 E.,
Sec. 26, Lot 10.

The area described totals 11.09 acres of public lands.

The land is located about two miles northwest of Moab, Utah, and lies adjacent to the right bank of the Colorado River.

The lands are primarily valuable for grazing.

No application for these lands will be allowed under the homestead, desert-land, small tract, or any other non-mineral public land law, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Any disposition of the lands described herein shall be subject to the stipulation that if and when the land is required in whole or in part for power development purposes, any structures or improvements placed thereon which may be found to obstruct or interfere with such development, shall without cost, expense, or delay to the United States, its licensees or permittees, be removed or relocated insofar as may be necessary to eliminate interference with such power development.

The land described shall be subject to application by the State of Utah for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of material for construction and maintenance of such highways, in accordance with and subject to the provisions of section 24 of the Federal Power Act, as amended, and the special stipulation provided in the preceding paragraph.

This order shall not otherwise become effective to change the status of such land until 10:00 a. m. on February 21, 1957. At that time the said land shall become subject to application, petition, location and selection under the applicable public land law, subject to valid existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944, (58 Stat. 747; 43 U. S. C. 279-284), as amended. All applications filed pursuant to the Veterans' Preference Act of 1944, on or before 10:00 a. m. of February 21, 1957, shall be treated as though simultaneously filed at that time. All other applications under the public land laws filed on or before 10:00 a. m. of May 23, 1957, shall be treated as though simultaneously filed at that time.

Inquiries concerning these lands shall be addressed to the State Supervisor, Bureau of Land Management, Post Office Box No. 777, Salt Lake City 10, Utah.

VAL B. RICHMAN,
State Supervisor.

[F. R. Doc. 57-556; Filed, Jan. 24, 1957; 8:45 a. m.]

CALIFORNIA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JANUARY 17, 1957.

The Fish and Wildlife Service, U. S. Department of the Interior, has filed an application, Serial No. Los Angeles 0140244, for the withdrawal of the lands described below, from all forms of appropriation except the mineral leasing laws; provided further, that the grazing and timber resources will continue to be managed by the Bureau of Land Management pursuant to applicable laws.

The applicant desires the land for the purpose of establishing a unit to be operated and administered as a wildlife refuge, public shooting grounds, or game management area, and to be known as the Otay Mountain Wildlife Management Area.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, California Fruit Building, Room 801, 4th and J Streets, Sacramento 14, California.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SAN BERNARDINO MERIDIAN

T. 18 S., R. 1 E.,
Sec. 1, Lots 3, 4, S½NW¼, SW¼, SW¼ SE¼;
Sec. 2, S½;
Sec. 3, SE¼NW¼, S½SW¼, NE¼SW¼, SE¼;
Sec. 9, SE¼NE¼, E½SE¼;
Sec. 10, N½NE¼, W½, W½SE¼, SE¼SE¼;
Sec. 11, N½, NE¼SW¼, S½SW¼, SE¼;

Secs. 22-27, inclusive;
Sec. 28, S½NE¼, S½NW¼, N½SW¼, SE¼;
Sec. 29, NW¼;
Sec. 33, N½NE¼;
Sec. 34;
Sec. 35, Lot 1, NE¼, N½NW¼, SW¼NW¼.
T. 18 S., R. 2 E.,
Sec. 17, NE¼NE¼, S½NE¼, S½NW¼, S½;
Sec. 18, Lots 2, 3, 4, S½NE¼, SE¼NW¼, E½SW¼, SE¼;
Sec. 19, Lots 1, 2, 3, 4, W½NE¼, E½NW¼, E½SW¼, W½SE¼;
Sec. 20, NE¼, E½NW¼, E½SW¼, SE¼;
Sec. 21, N½, SW¼, NW¼SE¼;
Sec. 27, N½NW¼;
Sec. 28, N½NE¼, N½NW¼, SW¼NW¼, W½SW¼;
Sec. 29, NE¼, E½NW¼, E½SW¼, SE¼;
Sec. 30, Lots 1, 2, 3, 4, W½NE¼, E½NW¼, E½SW¼, W½SE¼;
Sec. 31;
Sec. 32, Lot 1, N½NW¼.

The area described totals 15,436.85 acres of public land in San Diego County, California.

R. R. BEST,
State Supervisor.

[F. R. Doc. 57-557; Filed, Jan. 24, 1957; 8:45 a. m.]

[Document 145]

ARIZONA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Bureau of Indian Affairs has filed an application, Serial No. AR-012770, for the withdrawal of the lands described below, from all forms of appropriation including the mining and mineral leasing laws.

The applicant desires the land for a construction site for use by the Navajo Tribe or industrial operators who contract with the tribe for participation in the tribal industrial program.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P. O. Box 148, Phoenix, Arizona.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

GILA AND SALT RIVER MERIDIAN

T. 21 N., R. 7 E.,
Sec. 23: SW¼NE¼, SE¼NW¼.

The area described totals 80 acres in the Coconino National Forest.

E. I. ROWLAND,
State Supervisor.

[F. R. Doc. 57-558; Filed, Jan. 24, 1957; 8:45 a. m.]

[Serial No. Idaho 07538]

IDAHO

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JANUARY 16, 1957.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976; 43 U. S. C. 315g). The following described lands have been reconveyed to the United States:

BOISE MERIDIAN, IDAHO

T. 6 N., R. 5 E.,
Sec. 15, SW¼.

These lands total 160 acres.

The described lands are located about two and one-half miles northwesterly of Idaho City on the old stage road to Centerville, which traverses section 15. The lands are rough and hilly in character, beset with numerous minor ridges and intervening draws.

These lands are located within the exterior boundaries of the Boise National Forest, in accordance with the act of May 17, 1934 (48 Stat. 779).

The above-described lands shall be opened subject to valid existing right and the requirements of applicable law, to such application, selections, and locations as are permitted on national forest lands, effective at 10:00 a. m. on February 21, 1957.

Persons claiming preference rights based upon valid settlement, statutory preference or equitable claims, must enclose properly corroborated statements in support of their applications, setting forth all facts relative to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice, can be found in Title 43 in the Code of Federal Regulations.

These lands are not subject to the provisions of the Act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279 through 284), as amended, granting a preference right of application to veterans of World War II and others.

Inquiries and applications concerning the above lands shall be addressed to the Manager, Land Office, Bureau of Land Management, P. O. Box 2237, Boise, Idaho.

J. R. PENNY,
State Supervisor.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

MISSOURI

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2 (a)), as amended, it has been determined that in the following counties in the State of Missouri, a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

MISSOURI

Andrew.	Jasper.
Barry.	Laclede.
Barton.	Lawrence.
Buchanan.	McDonald.
Camden.	Miller.
Cedar.	Newton.
Christian.	Ozark.
Dade.	Platte.
Dallas.	Polk.
Douglas.	St. Clair.
Greene.	Stone.
Harrison.	Taney.
Hickory.	Webster.
Holt.	Wright.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after December 31, 1957, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 18th day of January 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 57-571; Filed, Jan. 24, 1957; 8:47 a. m.]

NORTH CAROLINA

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2 (a)), as amended, it has been determined that in the following counties in the State of North Carolina,

a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

North Carolina: Beaufort, Hyde, Pamlico, Tyrrell, Washington.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after December 31, 1957, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 18th day of January, 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary.

DEPARTMENT OF COMMERCE

Federal Maritime Board

[Docket No. S-71]

UNITED STATES LINES CO.

NOTICE OF HEARING AND PREHEARING CONFERENCE

A public hearing will be held under section 605 (c) of the Merchant Marine Act, 1936, as amended (46 U. S. C. 1175) upon an application of United States Lines Company for increase in the number of subsidized sailings under its Operating-Differential Subsidy Agreement from a maximum of 24 subsidized sailings per year to a maximum of 36 subsidized sailings per year, in the Line D—American Pioneer Line—Far East Service—Trade Route No. 12.

The purpose of the hearing is to receive evidence relevant to the following: (1) whether the application is one with respect to a vessel or vessels to be operated on a service, route, or line served by citizens of the United States which would be in addition to the existing service, or services and, if so, whether the service already provided by vessels of United States registry in such service, route, or line is inadequate, and in the accomplishment of the purposes and policy of the act additional vessels should be operated thereon; (2) whether the application is one with respect to a vessel operated or to be operated in a service, route or line served by two or more citizens of the United States with vessels of United States registry, and, if so, whether the effect of the subsidy contract would be to give undue advantage or be unduly prejudicial, as between citizens of the United States, in the operation of vessels in competitive services, routes, or lines; and (3) whether it is necessary to enter into such contract in order to provide adequate service by vessels of United States registry.

The hearing will be conducted before an Examiner at a time and place to be announced in accordance with the Board's rules of practice and procedure, and a recommended decision will be issued; a prehearing conference herein will be held on February 1, 1957, at 2:00 p. m., in Room 4519, New General Accounting Office Building, Washington, D. C., in accordance with said rules.

All persons (including individuals, corporations, associations, firms, partnerships and public bodies) desiring to intervene in this proceeding should promptly file petitions for leave to intervene in accordance with said rules of practice and procedure, and appear at the prehearing conference.

By order of the Federal Maritime Board.

Dated: January 23, 1957.

[SEAL] JAMES L. PIMPER,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11786 etc.; FCC 57M-53]

WEST SHORE BROADCASTING CO. ET AL.

ORDER CONTINUING HEARING

In re application of Samuel Babbit, Saul Dresner, Leonard Wechsler, Alfred Dresner, Fred Schottland and Robert Gessner, d/b as West Shore Broadcasting Company, Beacon, New York, Docket No. 11786, File No. BP-9821; The Westport Broadcasting Company, Westport, Connecticut, Docket No. 11787, File No. BP-9972; James W. Miller, Milford, Connecticut, Docket No. 11788, File No. BP-10500; for construction permits.

The Hearing Examiner having under consideration a "motion for continuance" filed by counsel for The Westport Broadcasting Company on January 16, 1957;

It appearing that counsel for the other two applicants and the Broadcast Bureau have no objection to the relief requested in the motion;

It is ordered, This 18th day of January 1957, that the motion is granted, and that:

1. The date for the exchange of data among the engineers (Tr. 17) is extended from January 14, 1957, to February 5, 1957.

2. The date for the informal engineering conference (Tr. 17) is continued from January 31 to February 20, 1957.

3. The date for the exchange of affirmative written cases is extended from February 7 to March 1, 1957.

4. The date for the further conference is continued from February 19 to March 13, 1957.

5. The date for the beginning of the evidentiary hearing is continued from March 13 to April 1, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11866]

ALLOCATION OF FREQUENCIES IN BANDS ABOVE 890 MC

DATE FOR SUBMISSION OF WRITTEN COMMENTS

From inquiries directed to the Commission, there appears to be some confusion concerning the date by which written comments in the above-entitled proceeding are to be submitted. The February 4, 1957, date was designed for those persons who are not going to present evidence in person. Those people who have filed appearances and who are going to assist the Commission at the hearing with oral testimony need not, at this time, file any further documentation. Such persons, however, may be required to submit more complete written statements by a date to be announced after a series of conferences with the prospective witnesses have been held.

Dated: January 18, 1957.

Released: January 18, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11904; FCC 57-52]

WNAB, INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of WNAB, Incorporated (WNAB), Bridgeport, Connecticut, Docket No. 11904, File No. BP-10659; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of January 1957;

The Commission having under consideration the above-captioned application of WNAB, Incorporated, for a construction permit to change the facilities of Station WNAB, Bridgeport, Connecticut, (1450 kc, 250 w, U) by moving the transmitter-antenna location approximately three and one-half miles and increasing the overall tower height to 344 feet with a resultant estimated antenna efficiency of 119 mv/m;

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that the proposed operation would cause interference to Station WKIP, Poughkeepsie, New York (1450 kc, 250 w, U); and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated August 30, 1956, of the aforementioned deficiency and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that the applicant filed a timely reply to the Commission's letter submitting an engineering report containing field intensity measurements which indicate that the interference from its proposed operation to Station WKIP is less than originally estimated; and

It further appearing that by letter of November 5, 1956, a copy of which was sent to the applicant, Station WKIP was apprised of the fact that the proposed operation of Station WNAB would cause less interference to it than originally estimated; and

It further appearing that Station WKIP by letter dated December 3, 1956, again opposed a grant of the subject application; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WNAB as proposed, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation would cause interference to Station WKIP, Poughkeepsie, New York, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether, in the light of the evidence adduced pursuant to the foregoing issues, a grant of the above-captioned application would be in the public interest.

It is further ordered, That Dutchess County Broadcasting Corporation, licensee of Station WKIP, Poughkeepsie, New York, is made a party to the proceeding.

It is further ordered, That, to avail itself of the opportunity to be heard, WNAB, Incorporated and the Dutchess County Broadcasting Corporation, pursuant to § 1.387 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

Released: January 22, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-590; Filed, Jan. 24, 1957; 8:50 a. m.]

[Docket Nos. 11905, 11906; FCC 57-53]

CICERO P. YOW AND EAST COAST RADIO CO. (WKLM)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Cicero P. Yow, Wilmington, North Carolina, Docket No. 11905, File No. BP-10507; Harold H. Thoms, Meredith S. Thoms and Matilann S. Thoms d/b as East Coast Radio Co. (WKLM), Wilmington, North Carolina, Docket No. 11906, File No. BMP-7252; for construction permit and for modification of construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of January 1957;

The Commission having under consideration the above-captioned applications of Cicero P. Yow for a construction permit for a new standard broadcast station to operate on 980 kilocycles with a power of one kilowatt, daytime only, at Wilmington, North Carolina; and Harold H. Thoms, Meredith S. Thoms and Matilann S. Thoms d/b as East Coast Radio Co. to change the facilities of Station WKLM, Wilmington, North Carolina, from operation on 790 kilocycles with a power of 500 watts, daytime only, to operation on 980 kilocycles with a power of 5 kilowatts, daytime only; and

It appearing that both applicants are legally, technically, financially and otherwise qualified, except as may appear from the issues specified below to operate their proposed stations, but that the operation of both proposals would result in mutually destructive interference; that the proposed operation of the East Coast Radio Co. would cause interference to Station WDVH, Gainesville, Florida (980 kc, 5 kw, Day); and that it has not yet been determined whether the antenna proposed by Cicero P. Yow would constitute a hazard to air navigation; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated November 2, 1956, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that a timely reply was received from each subject applicant; and

It further appearing that Station WDVH advised by letter of November 21, 1956, that it would appear and participate at a hearing on the application of the East Coast Radio Co.; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309(b) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operation of Cicero P. Yow, and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WKLM as proposed, and the availability of other primary service to such areas and populations.

3. To determine whether the operation proposed by Station WKLM would cause interference to Station WDVH, Gainesville, Florida, or any other standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine whether the antenna proposed by Cicero P. Yow would constitute a hazard to air navigation.

5. To determine which of the operations proposed in the above-captioned applications would better serve the public interest in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed stations.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

6. To determine, in the light of the evidence adduced pursuant to the fore-

going issues, which, if either, of the applications should be granted.

It is further ordered, That WDVH, Incorporated, licensee of Station WDVH, is made a party to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, Cicero P. Yow, the East Coast Radio Co. and WDVH, Incorporated, pursuant to § 1.387 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

Released: January 22, 1957.

[Docket Nos. 11907, 11908; FCC 57-54]

CLARK COUNTY BROADCASTING CO., AND NORTHSIDE BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Horace E. Tabb, Holly Skidmore, Stokley Bowling, C. A. Diecks, J. W. Hodges and W. Dee Huddleston d/b as Clark County Broadcasting Company, Jeffersonville, Indiana, Docket No. 11907, File No. BP-10588; Thomas E. Jones and Keith L. Reising d/b as Northside Boardcasting Company, Jeffersonville, Indiana, Docket No. 11908, File No. BP-10824; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of January 1957;

The Commission having under consideration the above-captioned applications of Horace E. Tabb, Holly Skidmore, Stokley Bowling, C. A. Diecks, J. W. Hodges and W. Dee Huddleston d/b as Clark County Broadcasting Company and Thomas E. Jones and Keith L. Reising d/b as Northside Broadcasting Company, each for a construction permit for a new standard broadcast station to operate on 1450 kilocycles, with a power of 250 watts, unlimited time, at Jeffersonville, Indiana;

It appearing that both applicants are legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate their proposed stations, but that the operation of both stations as proposed would result in mutually destructive interference and that both proposed operations would cause objectionable interference to Stations WTCO, Campbellsville, Kentucky (1450 kc, 250 w. U), WMOH, Hamilton, Ohio (1450 kc, 250 w, U) and WOCH, North Vernon, Indiana (1460 kc, 500 w, Day); and

It further appearing That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated November 8, 1956, of the aforementioned interference and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that a timely reply was received from each subject applicant; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operations would cause objectionable interference to Stations WTCO, Campbellsville, Kentucky, WMOH, Hamilton, Ohio, and WOCH, North Vernon, Indiana, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine which of the operations proposed in the above-captioned applications would better serve the public interest in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed stations.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

4. To determine in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That the Taylor County Broadcasting Company, Incorporated, The Fort Hamilton Broadcasting Company and Dorrell Ochs, licensees of Stations WTCO, WMOH and WOCH, respectively, are made parties to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, the Clark County Broadcasting Company, the Northside Broadcasting Company, the Taylor County Broadcasting Company, the Fort Hamilton Broadcasting Company and Dorrell Ochs, pursuant to section 1.387 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That, in the event of favorable action on the application of the Northside Broadcasting Company, the construction permit shall contain the following condition:

Program tests will not be authorized until the permittee has submitted proof to show that Keith L. Reising has severed all connections with Station WLRP, New Albany, Indiana, in accordance with the representations contained in the Northside Broadcasting Company's application.

Released: January 22, 1957.

[Docket Nos. 11909, 11910; FCC 57-55]

BASTROP BROADCASTING CO. AND RICHLAND BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of George H. Goodwin and Willis G. Newcomer, a partnership d/b as Bastrop Broadcasting Company, Bastrop, Louisiana, Docket No. 11909, File No. BP-10611; Charles L. Planchard & H. E. Ratcliff d/b as Richland Broadcasting Company, Rayville, Louisiana, Docket No. 11910, File No. BP-10860; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of January 1957;

The Commission having under consideration the above-captioned applications of George H. Goodwin and Willis G. Newcomer, a partnership d/b as Bastrop Broadcasting Company, and Charles H. Planchard & H. E. Ratcliff d/b as Richland Broadcasting Company, each for a construction permit for a new standard broadcast station to operate on 990 kilocycles with a power of 250 watts, daytime only, at Bastrop and Rayville, Louisiana, respectively;

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that the operation of both stations as proposed would result in mutually destructive interference; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated November 30, 1956, of the aforementioned interference and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that a timely reply was filed by each of the applicants; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine, in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-captioned applications would better provide a fair, efficient and equitable distribution of radio service.

3. To determine in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That, to avail themselves of the opportunity to be heard, the Bastrop Broadcasting Company and the Richland Broadcasting Company, pursuant to § 1.387 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

Released: January 22, 1957.

[Docket No. 11911; FCC 57-56]

SHEPHERD OF THE HILLS BROADCASTING CO. (KBHM)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Robert F. Neathery & L. C. McKenney d/b as Shepherd of the Hills Broadcasting Company (KBHM), Branson, Missouri, Docket No. 11911, File No. BMP-7231; for modification of construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of January 1957;

The Commission having under consideration the above-captioned application of Robert F. Neathery & L. C. McKenney d/b as Shepherd of the Hills Broadcasting Company, BMP-7231, for a construction permit to increase the power of Station KBHM, Branson, Missouri, from 250 watts to one kilowatt, and to operate on 1220 kilocycles, daytime only;

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate Station KBHM as proposed, but that the proposed operation would cause interference to Station KOFO, Ottawa, Kansas (1220kc, 250w, Day); and

It further appearing that, pursuant to the provisions of section 309 (c) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated October 23, 1956, of the aforementioned interference and that the Commission was unable to determine that a grant of the application would be in the public interest; and

It further appearing that Station KOFO expressed an intention of participating at a hearing on the application by letter dated November 20, 1956; and

It further appearing that applicant's engineering counsel, by letter of November 20, 1956, contended that the conductivity between Stations KBHM and KOFO is lower than indicated on Figure M-3 of the Commission's Technical Standards but that measurements as required by the Commission's Standards have not been submitted to prove the absence of interference to Station KOFO; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station KBHM as proposed, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation of Station KBHM would cause interference to Station KOFO, Ottawa, Kansas, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, whether, in the light of the evidence adduced pursuant to the foregoing issues, a grant of the above-captioned application would serve the public interest.

It is further ordered, That Roderick B. Cupp and Edwina Cupp, a partnership d/b as Ottawa Broadcasting Company, licensee of Station KOFO, are made parties to the proceeding.

It is further ordered, That in the event of a grant of the instant application, the construction permit shall contain the following condition:

Program tests will not be authorized until Station KHOZ has begun program tests on a frequency other than 1240 kilocycles, and a license will not be issued until Station KHOZ has been licensed on a frequency other than 1240 kilocycles.

It is further ordered, That to avail themselves of the opportunity to be heard, the Shepherd of the Hills Broadcasting Company and the Ottawa Broadcasting Company, pursuant to § 1.387 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

Released: January 22, 1957.

[Docket No. 11912; FCC 57-57]

CRAIG SIEGFRIED

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Craig Siegfried, Falls City, Nebraska, Docket No. 11912, File No. BP-10265; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of January 1957;

The Commission having under consideration the above-captioned application of Craig Siegfried for a construction permit for a new standard broadcast station to operate on 1230 kilocycles with a power of 100 watts, unlimited time, at Falls City, Nebraska;

It appearing that the applicant is legally, technically and otherwise qualified, except as may appear from the issues specified below, to operate the proposed station, but that the proposed operation would cause objectionable interference to Stations KFOR, Lincoln, Nebraska (1240 kc, 250 w, U) and WREN, Topeka, Kansas (1250 kc, 5 kw, DA-N, U) and that insufficient information has been submitted upon which to determine that the applicant is financially qualified; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that timely replies were received from the applicant who submitted a revised financial plan but that insufficient information was furnished upon which to base a finding that the applicant is financially qualified; and

It further appearing that Stations KFOR and WREN opposed a grant of the application by letters dated April 10 and July 2, 1956, respectively; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine whether the applicant is financially qualified to construct and operate the proposed station.

2. To determine the areas and populations which would receive primary service from the proposed operation, and the availability of other primary service to such areas and populations.

3. To determine whether the proposed operation would cause objectionable interference to Stations KFOR, Lincoln, Nebraska, and WREN, Topeka, Kansas, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine whether, in the light of the evidence adduced pursuant to the foregoing issues, a grant of the above-captioned application would be in the public interest.

It is further ordered, That the Cornbelt Broadcasting Corporation and the WREN Broadcasting Company, licensees of Station KFOR and WREN, respective, are made parties to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, Craig Siegfried, the Cornbelt Broadcasting Corporation and the WREN Broadcasting Company, pursuant to § 1.387 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

Released: January 22, 1957.

[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-595; Filed, Jan. 24, 1957; 8:51 a. m.]

FEDERAL POWER COMMISSION

[Docket No. E-6725]

MAINE CONSOLIDATED POWER CO.

ORDER TO SHOW CAUSE AND FIXING DATE FOR HEARING

Maine Consolidated Power Company (Maine Consolidated), incorporated in Maine with its principal place of business at Farmington, Maine, has failed to file its Annual Report to the Federal Power Commission on F. P. C. Form No. 1 for the year 1955 in compliance with the Commission's general rules and regulations, particularly § 141.1 (18 CFR 141.1) prescribing Form No. 1.

From information available in the files of the Commission, it appears that Maine Consolidated owns and operates a system for the generation, transmission and distribution of electric energy located in the Counties of Franklin and Somerset in Maine in and about the Town of Farmington. It appears further that the Company is a Class B Company, as defined in the General Instructions to Form No. 1, since its Annual Report for the year 1954, filed by it June 28, 1955, states its electric operating revenues as more than $250,000 and less than $750,000 and the original cost of its electric plant as less than $4,000,000. The General Instructions provide that Class B companies shall file with this Commission an original and two conformed copies of the Annual Report on F. P. C. Form No. 1 on or before March 31, for the preceding calendar year when the company is on a calendar year basis, as is the case here.

The requirement for filing the Annual Report for 1955 on the prescribed form was brought to the attention of Maine Consolidated by telegrams of May 18, 1956, and June 4, 1956, respectively, but no response has been received from the Company. The requirement of filing the report by electric companies, whether or not engaged in interstate commerce and otherwise subject to the jurisdiction of the Commission, was explained to Maine Consolidated in connection with the filing of its 1953 annual report.

The Commission orders:

(A) A public hearing be held commencing February 18, 1957, at 10:00 a. m., e. s. t., in the Federal Power Commission hearing room, 441 G Street NW., Washington 25, D. C., at which hearing Maine Consolidated shall show cause, if any there be, why the Commission should not—

(I) Find and determine that Maine Consolidated has failed to comply with the provisions of the Federal Power Act and of rules and regulations promulgated thereunder requiring the filing of the Annual Report referred to above;

(II) Find and determine that it is necessary or appropriate, to enable the Commission to carry out the provisions of the act, to require Maine Consolidated to file the Annual Report referred to above within a reasonable time to be fixed by the Commission;

(III) Find and determine that Maine Consolidated, in failing to file the Annual Report referred to above, has wilfully and knowingly violated the Federal Power Act;

(IV) Issue such other orders as may be necessary or appropriate to carry out the provisions of the act, initiate proceedings to bring about compliance with the act and the rules and regulations issued thereunder, transmit evidence of violation of the act, and regulations promulgated under the act, to the Attorney General for institution of appropriate proceedings, and take such other steps as may be appropriate under the act.

(B) Interested State commissions may participate in the hearing ordered herein, as provided by Rules 1.8 and 1.37 (f) of the Commission's general rules and regulations, including rules of practice and procedure, dated January 1, 1948 (18 CFR 1.8 and 1.37 (f)).

Issued: January 17, 1957.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 57-561; Filed, Jan. 24, 1957; 8:46 a. m.]

CHARLES NEUMAN DE VEGVAR ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

Take notice that each of the applicants listed below has filed an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing such Applicant to continue to sell natural gas subject to the jurisdiction of the Commission, all as more fully represented in the respective applications which are on file with the Commission and open for public inspection. These matters should be consolidated and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on the date and at the place hereinafter stated, concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) not less than ten days before the date of hearing. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request for waiver is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

The dockets, Applicants and material averments in applications to which reference is made above are as follows:

Docket No.; Name; Gas Field; and Purchaser

G-2579; Charles Neuman de Vegvar, Edith Neuman de Vegvar, Edward A. Neuman de Vegvar; Longwood Field, Harrison County, Texas; Arkansas Louisiana Gas Company.

[Docket No. G–11751]

COLUMBIAN CARBON CO.

ORDER SUSPENDING PROPOSED CHANGE IN RATES

Columbian Carbon Company (Columbian), on December 21, 1956, tendered for filing proposed changes in its presently effective rate schedule for a sale of gas subject to the jurisdiction of the Commission. The proposed changes, which constitute an increased rate and charge, are contained in the following designated filings:

Description: Letter of October 5, 1956, and notice of change, dated December 18, 1956.
Purchaser: Hope Natural Gas Company.
Rate schedule designation: Supplements Nos. 2 and 3 to Columbian's FPC Gas Rate Schedule No. 1.
Effective date: [1] January 21, 1957.

In support of the increase Columbian states generally that the proposed increased price is less than the market value of the gas and other fuels sold in the area and is no higher than necessary to encourage exploration for new gas reserves. Columbian also states that the increase results from an arm's-length contract, and is necessary in connection with the construction of new gathering and compression facilities to maintain production from the field.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed increased rate and charge, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed increased rate and charge; and, pending such hearing and decision thereon, the above-designated supplements hereby are suspended and the use thereof deferred until June 21, 1957, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of, or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: January 18, 1957.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 57–563; Filed, Jan. 24, 1957; 8:46 a. m.]

[1] The stated effective date is the first day after expiration of the required thirty days notice, or the effective date proposed by Columbian, if later.

[Docket No. G–11752]

CARTER OIL CO.

ORDER SUSPENDING PROPOSED CHANGE IN RATES

Carter Oil Company (Carter) on December 21, 1956, submitted for filing a proposed change in rate schedule for a sale of natural gas subject to the jurisdiction of the Commission. The proposed change is contained in the following filing which is proposed to become effective on the date shown.

Description: Notice of change, dated December 18, 1956.
Purchaser: Natural Gas Pipeline Company of America.
Rate schedule designation: Supplement No. 2 to Carter's FPC Gas Rate Schedule No. 34.
Effective date: [1] January 24, 1957.

By order issued January 9, 1957 in Docket No. G–11710, a prior increase submitted by the Texas Company (Operator) covering gas sales from the same unit to the same buyer was suspended and its use deferred until June 23, 1957, and until made effective in the manner prescribed by the Natural Gas Act.

The proposed increased rate and charge designated above has not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 2 to Carter's FPC Gas Rate Schedule No. 34; and, pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until June 24, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: January 17, 1957.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 57–564; Filed, Jan. 24, 1957; 8:46 a. m.]

[2] The stated effective date is the first day after expiration of the required thirty days notice, or the effective date proposed by Carter, if later.

OFFICE OF DEFENSE MOBILIZATION

SAM M. EWING

REPORT OF APPOINTMENT AND STATEMENT OF FINANCIAL INTERESTS

Employment Without Compensation under section 710 (b) of the Defense Production Act.

Pursuant to section 710 (b) of the Defense Production Act of 1950 as amended, notice is hereby given of the appointment of Mr. Sam W. Ewing, President, Youngstown Steel and Alloy Company, Canfield, Ohio, as an Advisor, with the Stabilization Area in the Office of Defense Mobilization. Mr. Ewing's statement of his business interests is attached.

Dated: January 9, 1957.

ARTHUR S. FLEMMING,
Director,
Office of Defense Mobilization.

Appointee's Statement of Business Interests

The following statement lists the names of concerns required by subsection 710 (b) (6) of the Defense Production Act of 1950, as amended.

Youngstown Steel & Alloy Company, Canfield, Ohio.
Farmers National Bank, Canfield, Ohio.
Superior Steelcraft Company, Youngstown, Ohio.

Dated: January 9, 1957.

SAM M. EWING.

[Project No. 2112]

PACIFIC POWER & LIGHT CO.

NOTICE OF APPLICATION FOR LICENSE

JANUARY 18, 1957.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a–825r) by Pacific Power & Light Company, of Portland, Oregon, for license for proposed water power Project No. 2112 to be located on Lewis River in Skamania County, Washington, and in the region of Woodland, Washington, affecting lands of the United States within Gifford Pinchot National Forest and other lands of the United States under control of the Bureau of Land Management. The proposed project, known as Muddy Hydroelectric Project, would be located immediately upstream from the applicant's Swift No. 1 Project and would consist of an earth fill dam approximately 280 feet high located immediately downstream from the confluence of the Muddy and Lewis Rivers; a diversion dam and canal to divert the flow of Pine Creek into the reservoir; a saddle spillway; a reservoir extending approximately eight miles upstream from damsite and having total capacity of 343,000 acre-feet; a powerhouse located about 700 feet downstream from the dam with installed capacity of 110,000 kilowatts; and a 230-kv transmission line to the applicant's primary transmission system and facilities of the Northwest Power Pool.

A preliminary permit for the proposed project was issued to Pacific Power & Light Company, effective December 1, 1953, and expired November 30, 1956.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is March 1, 1957. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 57–566; Filed, Jan. 24, 1957; 8:46 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[File No. 812–1058]

NATIONAL AVIATION CORP.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION OF PURCHASE OF SECURITIES DURING EXISTENCE OF UNDERWRITING SYNDICATE

JANUARY 18, 1957.

Notice is hereby given that National Aviation Corporation ("National"), a registered closed-end, non-diversified investment company, has filed an application pursuant to section 10 (f) of the Investment Company Act of 1940 ("act"), for an order of the Commission exempting from the provisions of section 10 (f) of the act, the proposed purchase by the applicant of not to exceed $500,000 principal amount of the -- percent Convertible Subordinated Debentures, due ---------- of Douglas Aircraft Company, Inc. ("Douglas") at the public offering price.

National states that Douglas is preparing to issue for public sale $25,000,000 principal amount of the aforementioned Debentures. The proposed debentures are to be underwritten by a group of underwriters, including the firms of Paine, Webber, Jackson & Curtis and Hornblower & Weeks.

The application recites that Stuart R. Reed, a director of the applicant, is a special partner in the firm of Paine, Webber, Jackson & Curtis, and that Charles S. Sargent, also a director of applicant, is a partner of Hornblower & Weeks.

The applicant states that it proposes to purchase the Debentures from any of the underwriters other than Paine, Webber, Jackson & Curtis and Hornblower & Weeks. The amount of Debentures proposed to be purchased by the applicant would constitute 2 percent of the total offering by Douglas and would represent approximately 2 percent of the total assets of the applicant, which together with its present investment in the common stock of the issuer would result in an aggregate investment of approximately 7.48 percent of its total assets in securities of Douglas.

Section 10 (f) of the act provides, among other things, that no registered investment company shall knowingly purchase or otherwise acquire, during the existence of any underwriting or selling syndicate, any security (except a security of which such company is the issuer) a principal underwriter of which

is a person of which a director of such registered investment company is an affiliated person. The Commission may exempt a transaction from this prohibition if and to the extent that such exemption is consistent with the protection of investors. Since Reed and Sargent are affiliated persons of investment banking firms which will be part of the underwriting group of the Debenture offering referred to above, the purchase of such Debentures by the applicant from such underwriters is subject to the provisions of section 10 (f) of the act.

It is represented that the proposed purchase of Debentures of Douglas is consistent with the protection of investors and the investment policies of the applicant as recited in its registration statement filed with the Commission.

Notice is further given that any interested person may, not later than February 1, 1957, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57-566; Filed, Jan. 24, 1957; 8:46 a. m.]

[File No. 24SF-2193]

BETHLEHEM MINING AND EXPLORATION CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFORE, AND NOTICE OF OPPORTUNITY FOR HEARING

JANUARY 18, 1957.

I. The Bethlehem Mining and Exploration Corporation, 504 Granger Building, San Diego, California, filed with the Commission on November 4, 1955, a Notification on Form 1-A and an Offering Circular, and on December 27, 1955, filed an amended Notification on Form 1-A and Offering Circular relating to a proposed offering of 250,000 shares of its $1 par common stock at $1 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that:

A. The making or continuance of this offering would act as a fraud or deceit upon prospective purchasers in that the amended Offering Circular contains false and misleading statements in regard to material facts and omits to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading, in respect to:

(1) The disposition of the 5 percent of the proceeds of the issue which the corporation is not to receive.

(2) The intention of the corporation in regard to the return of funds to stock purchasers if sufficient funds to commence operations were not realized.

(3) The risks inherent to the corporation's unpatented mining claims.

(4) The existence on its land of a mineral body which could be worked profitably.

B. The terms and conditions of Regulation A have not been complied with in that:

(1) The Offering Circular failed to list the proposed order of priority of expenditure of the proceeds of its issue as required by Rule 219 (c) (5).

(2) The Offering Circular does not include appropriate financial statements as required by Rule 219 (c) (6).

III. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given, that any persons having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, the Commission will, or at any time upon its own motion may, set the matter down for hearing within 20 days after receipt of such request, at a place designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57-567; Filed, Jan. 24, 1957; 8:46 a. m.]

[File No. 70-3547]

GEORGIA POWER CO.

NOTICE OF PROPOSED ACQUISITION OF UTILITY ASSETS, ASSUMPTION OF FIRST MORTGAGE BONDS, ISSUE AND SALE OF PROMISSORY NOTES, AND ORDER FOR HEARING WITH RESPECT THERETO

JANUARY 18, 1957.

Notice is hereby given that Georgia Power Company ("Georgia"), a public utility subsidiary of The Southern Company ("Southern"), a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (b) and 10 of the act as applicable to the proposed transactions. All interested persons are referred to the application on file in the offices of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Acquisition of assets of Georgia Power and Light Company. Pursuant to an agreement dated November 28, 1956, Georgia proposes to acquire all of the assets, properties and business of Georgia Power and Light Company ("Light"), a non-affiliated electric utility company which is a subsidiary of Florida Power Corporation ("Florida"), a holding company and a public-utility company claiming exemption as a holding company pursuant to Rule U-2 promulgated under the act.

Light is engaged in the purchase, generation, transmission, distribution and sale of electric energy in twenty counties in southern Georgia, and all of its fixed properties and assets are located in such counties. Light's service area is immediately south of and adjacent to that of Georgia. The transmission facilities of the two companies are interconnected at several points, and Georgia has supplied a substantial part of the energy requirements of Light for many years.

The purchase price for the properties of Light will consist of (1) a cash payment of $8,650,000 as at April 30, 1956, plus any increase thereafter to the date of closing in the amounts of Light's common capital and surplus and its indebtedness to its parent Florida—which increase at September 30, 1956, aggregated $930,372 and which, it is estimated, will continue at the rate of approximately $200,000 per month; and (2) the assumption by Georgia of substantially all of the liabilities of Light (other than for income taxes and indebtedness to Florida), including the principal amount of its outstanding First Mortgage Bonds which at November 28, 1956, amounted to $7,705,000.

The aggregate amount of the consideration to be paid by Georgia will be approximately $1,485,000 less than the book cost (recorded at original cost) of Light's assets, after deduction of qualifying reserves. Georgia proposes to record the acquired assets and assumed liabilities as the same are recorded on the books of Light, and to include the difference between the cost to Georgia and the cost to Light in account 250, reserve for depreciation of electric plant.

Acquisition of transmission line from Florida. Pursuant to an agreement dated December 13, 1956, Georgia proposes to acquire from Light's parent company, Florida, a 110 kv. transmission line located in the area served by Light and running from a point on the Florida-Georgia state line near Jasper, Florida, for a distance of 47.46 miles to a point approximately 19 miles south of Tifton, Georgia, where said line interconnects with a similar line of Georgia.

In connection with the purchase of the transmission line, Georgia proposes to enter into a three-year contract with Florida (subject to authorization by the Federal Power Commission) for the purchase of energy, to be supplemented by energy from Georgia's own power resources, to supply the requirements of Light's service area. During this three-year period the rates now being charged by Light to its consumers will continue in force. Georgia proposes to enlarge its generating facilities so as to replace the energy now being supplied to Light by Florida with power generated within Georgia's system, and thereupon to extend to the present service area of Light the rate schedules of Georgia which are uniformly applicable throughout its present system.

The purchase price of the transmission line, to be paid in cash, will be its net book cost at the closing date, as determined by independent auditors. It is estimated that such price will approximate $181,000.

Short-term bank borrowings. To provide the funds required to make the cash payments above described, estimated to aggregate by the closing date between $10,500,000 and $11,000,000, Georgia proposes to borrow from certain banks, pursuant to a letter agreement, up to $11,000,000 in amounts proportional to the amounts set after their respective names in the following table:

Names and addresses of banks	*Maximum amount to be borrowed*
The Chase Manhattan Bank, New York, N. Y.	$1,000,000
Chemical Corn Exchange Bank, New York, N. Y.	1,000,000
The Citizens & Southern National Bank, Atlanta, Ga.	1,750,000
The First National Bank of Atlanta, Atlanta, Ga.	1,750,000
The First National City Bank of New York, New York, N. Y.	1,000,000
The Fulton National Bank, Atlanta, Ga.	500,000
Guaranty Trust Co. of New York, New York, N. Y.	1,500,000
The New York Trust Co., New York, N. Y.	1,500,000
Trust Company of Georgia, Atlanta, Ga.	1,000,000
Total	11,000,000

Georgia will give to each bank a promissory note payable two years after issuance, bearing interest at the prime rate for commercial loans in the City of New York at the date of issue, and payable without penalty at any time prior to maturity at the option of Georgia.

Georgia contemplates that it will repay the proposed bank borrowings before the middle of 1957 out of cash to be provided from the sale of additional shares of its common stock to its parent, Southern; and, in any event, that it will, from time to time as may be appropriate in 1957 and 1958, repay the bank borrowings from funds obtained from the issue and sale of additional bonds, preferred stock or common stock (in amounts not yet finally determined) to be issued in connection with its forthcoming financing program to obtain cash for construction purposes.

The assumption by Georgia of Light's mortgage indebtness and its issuance and sale of the promissory notes have been expressly authorized by the Public Service Commission of Georgia, in which State Georgia is organized and doing business.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the application and that it should not be granted except pursuant to further order of the Commission:

It is ordered, Pursuant to the applicable provisions of the act and the rules and regulations promulgated thereunder, that a hearing with respect to the application shall be held on February 5, 1957, at 10:00 a. m., at the offices of the Commission, 425 Second Street NW., Washington, D. C. On said date the hearing room clerk in Room 193 will advise as to the room in which such hearing will be held.

Any person desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary, Securities and Exchange Commission, Washington 25, D. C., on or before February 4, 1957, a request relative thereto as provided in Rule XVII of the Commission's rules of practice and shall state the reasons for wishing to participate, the nature and extent of his interest in the proceeding, and the issues of fact or law which he desires to controvert.

It is further ordered, That James G. Ewell, or any other officer of the Commission designated by it for that purpose, shall preside at such hearing, and that the officer so designated is hereby authorized to exercise all of the powers granted to this Commission under section 18 (c) of the act, and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation of the Commission having advised the Commission that it has made a preliminary examination of the application and that, upon the basis thereof, the following matters and questions are presented for consideration, without prejudice to the designation of additional matters and questions upon further examination:

1. Whether the sums to be paid by Georgia for the utility assets of Light and of Florida are not reasonable or do not bear a fair relationship to the earning capacity of the utility assets to be acquired.

2. Whether the proposed acquisitions by Georgia of the utility assets of Light and of Florida will serve the public interest by tending towards the economical and efficient development of an integrated public-utility system.

3. Whether, in connection with (a) the assumption by Georgia of the first mortgage bond indebtedness of Light and (b) the issuance and sale by Georgia of its promissory notes, any terms or conditions should be imposed in the public interest or for the protection of investors or consumers.

4. Whether the accounting treatment proposed by Georgia is proper.

5. Whether the fees, commissions and other expenses to be incurred by Georgia are for necessary services and not unreasonable in amount.

6. What terms or conditions, if any, the Commission's order should contain.

7. Generally, whether the proposed transactions are in all respects compatible with the provisions and standards of the applicable sections of the act and of the rules and regulations promulgated thereunder.

It is further ordered, That particular attention be directed at the hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission serve copies of this order by registered mail on the applicant herein, The Southern Company, Georgia Power and Light Company, Florida Power Corporation, the Georgia Public Service Commission, and the Railroad and Public Utilities Commission of Florida, and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of this order in the FEDERAL REGISTER.

By the Commission.

MANILA ELECTRIC CO. AND GENERAL PUBLIC UTILITIES CORP.

NOTICE OF FILING OF AND ORDER FOR HEARING ON APPLICATION-DECLARATION REGARDING PROPOSAL BY PARENT TO MAKE ADVANCES TO SUBSIDIARY AND SUBSEQUENTLY TO ACQUIRE BONDS OR NOTES TO EVIDENCE SUCH ADVANCES

JANUARY 18, 1957.

Notice is hereby given that General Public Utilities Corporation ("GPU"), a registered holding company, and its partially exempt foreign public utility subsidiary, Manila Electric Company, ("Manila"), have filed with this Commission a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"). Applicants-declarants have designated sections 9 (a), 10, 12 (b) and 12 (f) of the act and rules U-43 and U-45 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to the joint application-declaration on file at the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

GPU proposes to enter into an agreement with Manila under which GPU agrees to advance to Manila on open account, from time to time, not later than December 31, 1958, not to exceed an aggregate of $3,750,000. Such advances are to be made upon the written request of Manila, and are to bear interest at the rate of 6 percent per annum on the unpaid balance from the date made.

The proceeds received from the advances will be used by Manila to pay in part the costs of construction of a 25,000 kw addition to its Rockwell generating station.

At September 30, 1956, Manila had outstanding $4,000,000 principal amount of 5¾ percent debentures due in 1960,

$4,000,000 principal amount of 6½ percent debentures due in 1965, $4,000,000 principal amount of 6 percent debentures due 1969, 350,000 shares of cumulative, 20 pesos par value, 6¼ percent preferred stock, and 1,000,000 shares of 40 pesos par value common stock. All of the common stock, all of the preferred stock, and $4,000,000 principal amount of the debentures are owned by GPU.

The application-declaration states that Manila is in the process of developing a program for exchanging or redeeming its outstanding debentures (including those held by GPU) through the issue of first mortgage bonds; but that it is not anticipated that the preparation of the bond indenture, and the effectuation of the other necessary steps, can be completed prior to the time Manila will need the funds from GPU. If and to the extent that such program is carried out, the advances to be made by GPU to Manila are to be evidenced by such bonds, maturing in ten equal semi-annual installments commencing five years from the date the 25,000 kw generating unit is placed in regular service. The other terms of the bonds are to be satisfactory to GPU, and in conformity with the indenture pursuant to which Manila's other bonds are issued. In the event it is not feasible for Manila to issue bonds to evidence the advances to be made by GPU, or, if GPU requests it, the advances are to be evidenced by Manila's serial notes maturing in the same manner as would the bonds if issued.

It is further stated that the Philippine Public Service Commission has jurisdiction over the proposed borrowing by Manila and the issue of securities by it to evidence such borrowing, and that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

A letter of approval dated November 2, 1956, from the Central Bank of the Philippines in connection with the proposed construction states, among other things, that the $3,750,000 to be advanced by GPU "shall be treated by the Central Bank as new additional foreign capital and shall be subject to the rules and regulations of the Central Bank governing the repatriation of capital and remittances of profits existing at the time such repatriation or remittance is made."

It appearing to the Commission that it is appropriate in the public interest and in the interest of the investors in GPU that a public hearing be held in respect of the proposed transactions and that such application not be granted or such declaration not be permitted to become effective except pursuant to the further order of the Commission:

It is ordered, That a hearing be held in respect of said matters on February 13, 1957, at 10:00 a. m., at the office of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk will advise as to the room in which the hearing will be held. Any person desiring to be heard in connection with this proceeding shall file with the Secretary of the Commission, Washington 25, D. C., on or before February 12, 1957, a written request in respect thereof, as provided in Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift, or any other officer or officers of the Commission designated by it for that purpose shall preside at said hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act, and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation having advised the Commission that it has made a preliminary examination of the application-declaration and that, upon the basis thereof, the following matters and questions are presented for consideration, without prejudice, however, to the presentation of additional matters and questions upon further examinations:

(1) Whether it is appropriate in the public interest and the interest of the investors in GPU for GPU to make the proposed open account advances, and, in this connection, whether the proposed terms and conditions upon which such advances are to be made are not detrimental to the interest of investors in GPU.

(2) Whether the proposed subsequent acquisition by GPU of the bonds or notes of Manila to evidence the open account advances to be made is appropriate in the public interest and the interest of the investors in GPU.

(3) Whether the proposed open account advances by GPU or the subsequent acquisition by GPU of the bonds or notes of Manila will unduly complicate the capital structure or the proper functioning of the holding company system of GPU.

(4) Generally, whether the proposed transactions are in all respects compatible with the provisions and standards of the applicable provisions of the act, and of the rules and regulations and orders thereunder.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing copies of this notice and order by registered mail to GPU, Manila, the Philippine Public Service Commission, and the Central Bank of the Philippines; that notice to all other persons shall be given by publication of this notice and order in the FEDERAL REGISTER; and that a general release of this Commission in respect of this notice and order be distributed to the press and mailed to the persons appearing on the mailing list of the Commission for releases under the Public Utility Holding Company Act of 1935.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 22, 1957.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 33179: *Grain—Oklahoma to Arkansas.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on grain, grain products and related articles, also seeds, carloads from specified points in Oklahoma to specified points in Arkansas.

Grounds for relief: Circuitous route.

Tariff: Supplement 14 to Agent Kratzmeir's tariff I. C. C. 4156.

FSA No. 33180: *Bituminous coal—Western Kentucky to Springfield, Mo.* Filed by R. G. Raasch, Agent, for interested rail carriers. Rates on bituminous coal, carloads from specified mines in western Kentucky on the Illinois Central Railroad Company to Springfield, Mo., on Missouri Pacific Railroad Company.

Grounds for relief: Circuitous route.

Tariff: Supplement 105 to Illinois Central Railroad Company's tariff I. C. C. E-1869.

FSA No. 33181: *Newsprint—Alabama and Tennessee to Carrollton, Ga.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on newsprint paper, carloads, also cores, newsprint paper winding, old or used, carloads, in reverse direction from Childersburg, Coosa Pines and Mobile, Ala., and Calhoun, Tenn., to Carrollton, Ga.

Grounds for relief: Short-line distance formula and circuitous routes.

Tariff: Supplement 65 to Agent Spaninger's tariff I. C. C. 1466.

FSA No. 33182: *Benzol—Alabama City, Ala., to Baton Rouge, and North Baton Rouge, La.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on benzol (benzine), tank-car loads from Alabama City, Ala., to Baton Rouge and North Baton Rouge, La.

Grounds for relief: Market competition and circuitous routes.

Tariff: Supplement 13 to Agent Spaninger's tariff I. C. C. 1561.

FSA No. 33183: *Grains—Louisiana to New Mexico and Texas.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on coarse grains, and articles taking same rates, carloads, from specified points in Louisiana to specified points in New Mexico and Texas.

Grounds for relief: Truck competition and circuitous routes.

Tariff: Supplement 147 to Agent Kratzmeir's tariff I. C. C. 3941.

FSA No. 33184: *Returned chemicals, from, to, and between the southwest.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on chemicals, as described in the application, tank-car loads from, to, and between points in southwestern territory, on shipments returned from original destination to original point of origin.

Grounds for relief: Carrier competition and circuitous routes.

Tariff: Supplement 225 to Agent Kratzmeir's tariff I. C. C. 4020.

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

PART 319—FOREIGN QUARANTINE NOTICES

SUBPART—FRUITS AND VEGETABLES

ADMINISTRATIVE INSTRUCTIONS PRESCRIBING METHOD OF TREATMENT OF OKRA FROM CERTAIN PARTS OF MEXICO; INTERPRETATION

On November 16, 1956, there was published in the FEDERAL REGISTER (21 F. R. 8948) under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), a notice of rule making relating to the proposed issuance of a document containing administrative instructions and an interpretation to appear as § 319.56–2k in Title 7, Code of Federal Regulations. After due consideration of all relevant matters presented, and pursuant to § 319.56–2 of the regulations supplemental to the Fruit and Vegetable Quarantine (Notice of Quarantine No. 56, 7 CFR 319.56–2) under sections 5 and 9 of the Plant Quarantine Act of 1912 (7 U. S. C. 159, 162), and other delegations of authority (19 F. R. 515, as amended), administrative instructions and an interpretation are hereby issued as follows:

§ 319.56–2k *Okra from Mexico*—(a) *Administrative instructions prescribing method of treatment of okra from certain parts of Mexico.* Fumigation with methyl bromide at normal atmospheric pressure, in accordance with the following procedure is hereby prescribed as an alternate condition of importation under permit under § 319.56–2 for all shipments of okra from Mexico, except okra produced in the Imperial Valley of Baja California, Mexico;

(1) *Approval of fumigation room.* The fumigation shall consist of fumigation with methyl bromide at normal atmospheric pressure, in a fumigation room which has been approved for that purpose by the Plant Quarantine Branch. The Plant Quarantine Branch will approve only those fumigation rooms that are properly constructed and adequately equipped to handle and treat okra, and are located, either within the United States or Mexico, within the practicable supervisory range of a port of entry where inspectors are stationed and where the required supervision can be accomplished without encroaching upon normal port inspection assignments.

(2) *Fumigation schedule.* Such fumigation shall be in accordance with the following fumigation schedule:

Temperature (° F.)	Dosage (pounds of methyl bromide per 1,000 cubic feet)	Exposure period (hours)
90	1.0	2
80	1.5	2
70	2.0	2
60	2.5	2
50	3.0	2
40	3.5	2

(3) *Fumigation procedure.* Okra to be fumigated may be packed in slatted crates or other gas-permeable containers. The fumigation room shall not be loaded to more than two-thirds of its capacity. The containers may be stacked one on top of another, but a 3- to 4-inch space must be provided between each container throughout the load. Good air circulation above and below the load shall be provided as soon as the okra is loaded and must be continued during the full period of fumigation and until the okra has been removed to a well-ventilated location. Strong blasts of air should not be directed against the okra. Fumigation at temperatures in excess of 90° F. may result in injury to okra and should be avoided if possible.

(4) *Supervision of fumigation.* (i) Inspectors of the Plant Quarantine Branch will supervise the fumigation of okra and will specify such safeguards as may be necessary for the handling and transportation of the okra before and subsequent to fumigation, if, in the opinion of the inspector this is necessary to assure that there will be no pest risk associated with the importation and

treatment. The final release of the okra for entry into the United States will be conditioned upon compliance with the specified safeguards.

(ii) Supervision of approved fumigation rooms will, if practicable, be carried on as a part of normal port inspection activities and when so available will be furnished without cost to the owner of the okra or his representative.

(5) *Costs.* All costs of constructing, maintaining, and operating fumigation plants and facilities, and carrying out the specified pre-treatment and post-treatment safeguards shall be borne by the owner of the okra or his representative. Where normal inspection activities preclude the furnishing of supervision during regularly assigned hours of duty, supervision will be furnished on a reimbursable overtime basis and the owner of the okra or his representative will be charged in accordance with §§ 354.1 and 354.2 of this chapter.

(6) *Department not responsible for damage.* While the prescribed treatment is judged from experimental tests to be safe for use with okra, the Department assumes no responsibility for any damage sustained through or in the course of treatment or because of pre-treatment or post-treatment safeguards. There has not been an opportunity to test these treatments under all conditions or on all okra varieties or on okra from all areas involved.

(b) *Interpretation re importation of okra from Imperial Valley of Baja California.* Okra produced in the Imperial Valley of Baja California, Mexico, may enter under permit and subject to inspection at the ports of Calexico and San Ysidro, California.

This order authorizes the importation, under permit subject to approved fumigation, of okra produced in any part of Mexico, except okra produced in the Imperial Valley of Baja California, Mexico, which is enterable under permit subject only to inspection. This fumigation treatment provides for the entry of okra for marketing in the fresh state.

Since these administrative instructions and interpretation relieve restrictions, they are within the exception in section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)) and may properly be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 9, 37 Stat. 318, 7 U. S. C. 162. Interprets or applies sec. 5, 37 Stat. 316, 7 U. S. C. 159)

These administrative instructions and interpretation shall become effective January 26, 1957.

Done at Washington, D. C., this 23d day of January 1957.

[SEAL] E. P. REAGAN,
Chief,
Plant Quarantine Branch.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 102, Amdt. 1]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 21 F. R. 4707), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of navel oranges grown in Arizona and designated part of California.

Order, as amended. The provisions in paragraph (b) (1) (i) of § 914.402 (Navel Orange Regulation 102, 22 F. R. 389) are hereby amended to read as follows:

(i) District 1: 600,600 cartons.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: January 23, 1957.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 57–622; Filed, Jan. 25, 1957; 8:48 a. m.]

[Navel Orange Reg. 103]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.403 *Navel Orange Regulation 103*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 21 F. R. 4707), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on January 24, 1957, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., January 27, 1957, and ending at 12:01 a. m., P. s. t., February 3, 1957, is hereby fixed as follows:

(i) District 1: 531,300 cartons;

(ii) District 2: 254,100 cartons;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) All navel oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: January 25, 1957.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1383]

[70389]

NEW MEXICO

REVOKING DEPARTMENTAL ORDERS OF MARCH 6 AND OCTOBER 6, 1908, WHICH RESERVED LANDS FOR USE OF THE FOREST SERVICE AS THE RED ROCK ADMINISTRATIVE SITE

By virtue of the authority vested in the President and pursuant to Executive

Order No. 10355 of May 26, 1952, it is ordered as follows:

The departmental orders of March 6 and October 6, 1908, reserving the following-described public lands within the Cibola National Forest in New Mexico, for use by the Forest Service, Department of Agriculture, as the Red Rock Administrative Site, are hereby revoked:

NEW MEXICO PRINCIPAL MERIDIAN

T. 10 S., R. 6 W.,
Sec. 13, SW¼NW¼, SW¼, and W½SE¼.

The areas described aggregate 280 acres.

This revocation is made in furtherance of an exchange under the act of March 20, 1922 (42 Stat. 465) as amended by the act of February 28, 1925 (43 Stat. 1090; 16 U. S. C. 486), by which the offered lands will benefit a Federal land program. They will not, therefore, be open to other forms of application or disposal under the public land laws.

HATFIELD CHILSON,
Assistant Secretary of the Interior.

JANUARY 22, 1957.

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 15]

CEREAL FLOURS AND RELATED PRODUCTS

NOTICE EXTENDING TIME FOR FILING VIEWS AND COMMENTS ON PROPOSAL TO ESTABLISH DEFINITION AND STANDARD OF IDENTITY FOR ENRICHED RICE

A request has been received for extension of the date for filing views and comments upon the proposal to establish a definition and standard of identity for enriched rice which was published in the FEDERAL REGISTER of December 28, 1956 (21 F. R. 1042).

In exercise of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919; 21 U. S. C. 341, 371) and in accordance with the authority delegated to him by the Secretary of Health, Education, and Welfare (20 F. R. 1996; 21 F. R. 6581), the Commissioner of Food and Drugs hereby extends until April 1, 1957, the time for filing views and comments upon the proposal to adopt a definition and standard of identity for enriched rice.

Dated: January 22, 1957.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41]

[Draft Release No. 57-2]

ELIMINATION OF REQUIREMENT FOR ACTUAL OR SIMULATED GROSS TAKE-OFF WEIGHT IN RECURRING PROFICIENCY CHECK WITH ONE ENGINE INOPERATIVE

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board amendments to Parts 40 and 41 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by March 25, 1957. Copies of such communications will be available after March 27, 1957, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

The Bureau of Safety Regulation has been requested to amend current regulations in §§ 40.302 (b) (2) (i) and 41.53 to eliminate the requirement for actual or simulated maximum gross take-off weight in the present recurring proficiency check with one engine inoperative. This proficiency check is presently required at regular intervals for each pilot in command to determine his ability to pilot and navigate airplanes flown by him. Among the maneuvers required in the current regulations (in Part 40 by reference to § 40.282 (b) (1) (i)) is the demonstration of skill on take-off with simulated engine failure. This is required to be accomplished at maximum take-off weight and power.

However, it has been found that the large spread between the maximum certificated take-off weight and the maximum certificated landing weight of present transport aircraft has virtually ruled out the possibility of an air carrier giving pilot training with the aircraft at the maximum certificated weight. It is agreed generally that the use of such weights is not practical since it necessitates loading and unloading large quantities of ballast to replace weights of passengers and cargo. Furthermore, a large amount of fuel must be consumed (or ballast dumped) so as not to exceed the maximum landing weight due to the aforementioned spread between take-off and landing weights. For example, some airplanes have an authorized maximum take-off weight of 122,200 pounds and a maximum landing weight of 97,000 pounds. Therefore, 25,200 pounds of fuel would have to be consumed after take-off and before landing if a maximum weight take-off is accomplished; this would require approximately 8 hours of flight. The alternatives of dumping fuel or ballast to reduce weight are also obviously impractical on short training flights. The Civil Aeronautics Board was aware of this problem and worded § 40.282 (b) (1) (iv) to permit simulating the take-off performance capability of the airplanes by using suitable combinations of weight and power less than the maximum authorized. An alternative procedure which would permit the carriers to limit the take-off distance to the minimum required for the weight of the airplane at maximum allowable take-off power (foreshortened runway concept) was proposed for inclusion in the Civil Aeronautics Manual. However, the Civil Aeronautics Administration now considers that a change in the Civil Air Regulations would be a more desirable means of clarifying the situation. It is the understanding of the Bureau of Safety Regulation that the procedures discussed above have been utilized to some extent by the air carriers in their flight checks and training.

The air carriers have opposed the use of maximum weights in the requirements, and are generally opposed to simulation of weight either by reduced power or by the foreshortened runway concept for the following reasons presented by them:

(1) Use of reduced power settings necessitates new computations which are time-consuming and entail engineering problems.

(2) Use of reduced power settings is opposed by maintenance personnel and aircraft manufacturers on the grounds of possible detrimental effects to the engines.

(3) The use of reduced power settings does not fully simulate a take-off at maximum operating weights in aircraft taking off with full power.

(4) Use of reduced power during training might encourage the use of throttle and propeller settings which are not proper for normal operation.

(5) On some aircraft the landing gear will not retract at reduced power settings.

(6) Use of reduced power settings during take-off involves a built-in-emergency hazard.

(7) Use of the foreshortened runway concept involves complicated calculations and special marking of runways.

Accordingly, it is proposed herein to eliminate from the provisions for recurring proficiency check with one engine inoperative, the requirement that the check be accomplished at actual or simulated maximum gross take-off weight. It should be understood that the amendment proposed would not affect the present requirements in initial pilot flight training for simulation of engine failure at actual or simulated maximum weights in take-off, landing, and approach configurations.

In view of the foregoing, notice is hereby given that it is proposed to recommend to the Board the adoption of amendments to Parts 40 and 41 of the Civil Air Regulations (14 CFR Parts 40 and 41, as amended) as follows:

1. By amending § 40.302 (b) (2) (i) of Part 40 by adding at the end thereof the phrase "nor at actual or simulated maximum authorized weight".

2. By amending § 41.53 of Part 41 by adding at the end of the fourth sentence: "*Provided*, That actual or simulated maximum authorized weight on take-off shall not be required in the periodic checks and instruction".

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

The proposal may be changed in the light of comment received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601-610, 52 Stat. 1007-1012; 49 U. S. C. 551-560)

Dated at Washington, D. C., January 23, 1957.

By the Bureau of Safety Regulation.

[SEAL] OSCAR BAKKE,
Director.

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Treasury Dept. Order 170-3]

DEPUTY TO THE SECRETARY

ESTABLISHMENT OF POSITION

JANUARY 9, 1957.

There is hereby established in the Office of the Secretary the position of Deputy to the Secretary. By virtue of the authority vested in me by Reorganization Plan No. 26 of 1950, the functions and responsibilities of the position, Special Assistant to the Secretary in Charge of Tax Policy, are hereby transferred to the position of Deputy to the Secretary.

This order amends Treasury Department Orders No. 148 (Revision No. 2), dated August 3, 1955, and No. 150-41, dated February 13, 1956.

[SEAL] G. M. HUMPHREY,
Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

NEWLANDS PROJECT, NEVADA

ORDER OF REVOCATION

FEBRUARY 27, 1952.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental Orders of July 2, 1902; August 26, 1902; August 4, 1904; February 7, 1905; December 2, 1907; August 13, 1908; and November 4, 1909; in so far as said orders affect the following described lands: *Provided, however*, That such revocation shall not affect the withdrawal of any other lands by said orders or affect any other orders withdrawing or reserving the lands hereinafter described:

MOUNT DIABLO MERIDIAN, NEVADA

T. 18 N., R. 26 E.,
Sec. 6: All.
T. 20 N., R. 26 E.,
Sec. 24: All.
T. 17 N., R. 27 E. (unsurveyed),
Secs. 1, 2, 3, and 10 to 14 inclusive: All;

Secs. 28 to 33, inclusive.
T. 23 N., R. 33 E.,
Secs. 1 to 29, inclusive, and
Secs. 32 to 36, inclusive: All.

The above area aggregates approximately 68,425.62 acres.

G. W. LINEWEAVER,
Acting Commissioner.

[63041]

JANUARY 17, 1957.

1. I concur.

2. The lands are located in Churchill County near Fallon, Nevada. The topography varies from level flats to low foothills with generally clay heavy alkali soils. The lands are located within Nevada Grazing District No. 3. They are unsuitable for farming.

3. The following-described lands are withdrawn by Public Land Order No. 898 of June 12, 1953, for use of the Department of the Navy as aerial bombing ranges in connection with the Naval Auxiliary Air Station at Fallon, Nevada:

MOUNT DIABLO MERIDIAN

T. 17 N., R. 27 E. (unsurveyed),
Secs. 1, 2, and 3;
Sec. 11, E½;
Secs. 12 and 13;
Sec. 14, E½;
Secs. 23 to 26, inclusive;
Secs. 35 and 36.
T. 17 N., R. 28 E.,
Secs. 4 to 9, inclusive;
Secs. 16 to 20, inclusive;
Secs. 29 to 32, inclusive.

The areas described aggregate 17,280 acres.

4. The following-described lands are patented without a reservation of minerals to the United States:

MOUNT DIABLO MERIDIAN

T. 23 N., R. 33 E.,
Secs. 3, 5, 7, and 9;
Sec. 17, N½ and SW¼;
Sec. 19, N½.

The areas described aggregate approximately 3,345 acres.

5. Subject to any valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the public lands released from withdrawal by this order are hereby opened to filing of applications, selections, and locations in accordance with paragraphs 6 and 7 of this order, the unsurveyed lands being opened to such applications, selections, and locations as are allowable on unsurveyed lands.

6. No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other non-mineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

7. Applications and selections under the non-mineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

a. Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

b. All valid applications for surveyed lands under the Homestead, and Desert-Land Laws and all valid applications for surveyed and unsurveyed lands under the Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended, presented prior to 10:00 a. m. on February 22, 1957, will be considered as simultaneously filed at that hour. Rights under such preference-

right applications filed after that hour and before 10:00 a. m. on May 24, 1957, will be governed by the time of filing.

c. All valid applications and selections under the non-mineral public-land laws, other than those coming under paragraphs 7a and 7b above, presented prior to 10:00 a. m. on May 24, 1957, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

d. The restored lands in the following townships have been open to applications and offers under the mineral-leasing laws and will be open to location under the U. S. mining laws beginning at 10:00 a. m. on May 24, 1957.

T. 18 N., R. 26 E.,
T. 18 N., R. 27 E.,
Tps. 17 and 18 N., R. 28 E.,
T. 16 N., R. 29 E.,
T. 19 N., R. 31 E.,
T. 21 N., R. 32 E.,
Tps. 21, and 22N, R. 33 E.

e. The restored lands in T. 20 N., R. 26 E., T. 17 N., R. 27 E., T. 16 N., R. 28 E., and T. 18 N., R. 30 E., have been open to location under the United States mining laws, and to applications and offers under the mineral-leasing laws.

8. Persons claiming veterans preference rights under paragraph 7b above, must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

9. The public lands in T. 23 N., R. 33 E., aggregating approximately 18,400 acres, are included in an application for withdrawal filed by the Department of the Navy, Nevada 013285. With respect to these lands, applications under the public-land laws will be suspended in accordance with 43 CFR 295.10 until final action on the application for withdrawal has been taken.

Inquiries concerning the restored lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Reno, Nevada.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

[F. R. Doc. 57-560; Filed, Jan. 25, 1957; 8:45 a. m.]

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended March 1, 1956, 21 F. R. 1349).

The following learner certificates were issued for normal labor turnover purposes and, except as otherwise indicated below, not more than 10 percent of the total number of factory production workers were authorized for employment.

Angus Manufacturing Co., 364 North Thomas Street, Athens, Ga.; effective 1-7-57 to 1-6-58 (work shirts and pants).

Big-Dad Manufacturing Co., Inc., Starke, Fla.; effective 1-14-57 to 1-13-58 (shirts, dungarees and pants).

Cherryvale Manufacturing Co., Cherryvale, Kans.; effective 1-4-57 to 1-3-58 (men's work pants).

Glendale Manufacturing Co., Biltmore, N. C.; effective 12-31-56 to 12-30-57 (ladies' rayon, nylon and cotton night gowns, etc.).

Myles Manufacturing Co., Pennsboro, W. Va.; effective 1-12-57 to 1-11-58 (cotton blouses).

Reidbord Bros. Co., Blairton, Washington Township, Westmoreland County, Pa.; effective 1-3-57 to 1-2-58 (men's work trousers).

Salisbury Co., Salisbury, Mo.; effective 1-12-57 to 1-11-58 (dress trousers and slacks).

Smith Bros. Manufacturing Co., 524 Howard Street, Carthage, Mo.; effective 1-11-57 to 1-10-58 (overalls, jeans and jackets).

Smith Bros. Manufacturing Co., Lamar, Mo., effective 1-11-57 to 1-10-58; 10 learners (dungarees and cossack coats).

Smith Bros. Manufacturing Co., Neosho, Mo.; effective 1-11-57 to 1-10-58 (ladies' jeans).

Smith Bros. Manufacturing Co., Fourth and Francis Streets, St. Joseph, Mo.; effective 1-10-57 to 1-9-58 (overalls, pants, one piece suits, etc.).

Smith Bros. Manufacturing Co., Webb City, Mo.; effective 1-11-57 to 1-10-58 (shirts).

Soperton Manufacturing Co., Soperton, Ga.; effective 1-11-57 to 1-10-58 (shirts).

T & T Pants Manufacturing Co., Inc., 1101 Wyoming Avenue, Scranton, Pa.; effective 1-7-57 to 1-6-58; 10 learners (men's and boys' trousers).

The following learner certificates were issued for expansion purposes. The number of learners authorized for employment is indicated:

Bay Slacks, Inc., Bay Minette, Ala.; effective 1-2-57 to 7-1-57; 30 learners (men's dress slacks).

Salem Garment Co., Inc., Salem, S. C.; effective 1-2-57 to 7-1-57; 35 learners (wash dresses).

Glove Industry Learner Regulations (29 CFR 522.60 to 522.65, as amended March 1, 1956, 21 F. R. 581).

The Boss Manufacturing Co., Palm, Pa.; effective 1-4-57 to 1-3-58; 10 learners for normal labor turnover purposes (work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended March 1, 1956, 21 F. R. 629).

Grenada Industries, Inc., Grenada, Miss.; effective 1-25-57 to 1-24-58; 5 percent of factory production workers for normal labor turnover purposes (full-fashioned).

Whisnant Hosiery Mills, Inc., 74 8th Street SE., Hickory, N. C.; effective 1-8-57 to 1-7-58; 5 percent of factory production workers for normal labor turnover purposes (seamless).

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended March 1, 1956, 21 F. R. 581).

Wolverine Knitting Mills, 120 North Jackson Street, Bay City, Mich.; effective 1-7-57 to 7-6-57; 15 learners for expansion purposes (underwear).

Each learner certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn in the manner provided in regulations, Part 528 and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 16th day of January 1957.

MILTON BROOKE,
Authorized Representative of the Administrator.

ATOMIC ENERGY COMMISSION

[Docket No. PRM-1]

STRAUCH, NOLAN AND NEALE

NOTICE OF PETITION FOR AMENDING RULES OF PRACTICE, PROCEDURES ON DECLARING PATENTS AFFECTED WITH PUBLIC INTEREST AND LICENSING OF PATENTS

Please take notice that the Atomic Energy Commission on January 3, 1957, received a petition from Strauch, Nolan and Neale, 1111 E Street NW., Washington 4, D. C., requesting amendment of the Commission's Procedural Regulations which appear at 21 F. R. 9764. The amendment would revise § 2.301 to read as follows:

§ 2.301 *Definition.* As used in this subpart, "patent owner" means the owner of record and all licensees identifiable from any license agreements recorded in the United States Patent Office, and any party of which the Commission has actual knowledge offering a license to others under such patent.

A copy of this petition, which has been assigned Docket No. PRM-1, is available for public inspection in the AEC Public Document Room, located at 1717 H Street NW., Washington, D. C.

Dated at Washington, D. C., this 18th day of January 1957.

WOODFORD B. MCCOOL,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-8443, etc.]

TRANSCONTINENTAL GAS PIPE LINE CORP. AND SEABOARD OIL CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

JANUARY 22, 1957.

In the matters of Transcontinental Gas Pipe Line Corp., Docket Nos. G-8443 and G-9588; Seaboard Oil Co., Docket No. G-8438.

Take notice that on February 4, 1955, as amended on May 24, 1955, Transcontinental Gas Pipe Line Corporation (Transco), a Delaware corporation with its principal place of business located at Houston, Texas, filed at Docket No. G-8443 an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing it to construct and operate certain gas facilities as hereinafter described:

To construct and operate a meter station and 6.25 miles of 8-inch pipeline to enable it to transport gas from the Live Oak Field, Vermilion Parish, Louisiana, at a point on its Tigre Lagoon 14-inch lateral for transportation in interstate commerce. The estimated cost of Transco's facilities is $165,010, which will be financed from corporate funds.

The revised cost of the 8-inch pipeline as stated in the amendment will be $65,420 against $58,410 previously estimated in the original application for a 6⅝-inch pipeline. The increased cost of the 8-inch pipeline as requested in the amendment, instead of the 6⅝-inch pipeline, will not actually materialize because of utilization of the contingency item in the amount of $7,387 included in the original estimate of $158,000 for the total project.

Minimum take in the area above will be 5,000 Mcf per day and the maximum, if available, is 7,000 Mcf per day. Reserves are estimated to be 67,948,000 Mcf.

Take further notice that on November 1, 1955, Transco filed at Docket No. G-9588 an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, covering the construction, installation and operation of approximately 10 miles of 16-inch pipeline, 1.48 miles of 12-inch pipeline, and 0.80 mile of 10-inch pipeline, together with two meter stations and appurtenant equipment.

Transco alleges that the 10-inch pipeline proposed in this docket will extend northwesterly from a point of connection with the 8-inch Live Oak lateral to a point of connection with the proposed 12-inch and 16-inch pipelines. The 12-inch line will extend from a proposed meter station in the Live Oak Field, Vermilion Parish, Louisiana, northward to a junction with the proposed 10-inch and 16-inch pipelines. The proposed 16-inch pipeline, to be known as the Cow Island lateral, will extend in a northwesterly direction from its junction with the proposed 10-inch and 12-inch pipelines to a point of connection with Transco's existing 18-inch pipeline at Cow Island junction. The estimated overall capital cost of the proposed facilities is $707,000, which will be financed initially by short term bank loans. No new service is proposed.

Take further notice that on February 4, 1955, Seaboard Oil Company (Seaboard), a Delaware corporation with its principal place of business at Dallas, Texas, filed at Docket No. G-8438 its application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing it to sell natural gas from the Live Oak Field, Vermilion Parish, Louisiana, to Transco for transportation in interstate commerce for resale.

All of the above applications are on file with the Commission and open to public inspection.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 25, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 11, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 57-619; Filed, Jan. 25, 1957; 8:47 a. m.]

[Docket Nos. G-9803, G-9804]

SUPERIOR OIL CO. AND TRANSCONTINENTAL GAS PIPE LINE CORP.

NOTICE OF APPLICATIONS AND DATE OF HEARING

JANUARY 22, 1957.

Take notice that on December 22, 1955, Transcontinental Gas Pipe Line Corporation (Transco) filed at Docket No. G-9804 an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of 0.49 miles of 6-inch pipeline, together with a meter station and appurtenant facilities, extending from the Live Oak Field, Vermilion Parish, Louisiana, to Transco's proposed 16-inch Cow Island lateral.

Transco states that the proposed facilities at Docket No. G-9804 will receive natural gas produced by The Superior Oil Company (Superior) from its acreage in the Live Oak Field. The estimated total cost of the proposed facilities is

$33,000 of which $17,579 is for the pipeline. The cost is to be financed from company funds.

On December 22, 1955, Superior filed at Docket No. G-9803 an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, covering the sale of gas to Transco from the Live Oak Field, Vermilion Parish, Louisiana, under a 20-year contract dated December 1, 1955, executed between Transco and Superior.

Superior states that it will construct field lines and transport subject gas to a common point on its lease for delivery and sale to Transco. Proposed deliveries will commence upon receipt of authorization and completion of facilities.

Transco shows in its deliverability study average deliveries of 3,634 Mcf per day by Superior for 1956, and 2,928 Mcf per day for the duration of the contract term. Maximum contract deliveries are stated as 4,208 Mcf per day and a minimum of 3,060 Mcf per day. Open flow on Superior's only well in the field totaled 73,600 Mcf per day. This well was completed in the 12,900-foot reservoir. The above volumes are at 14.73 psia.

Transco will transport gas received from Superior commingled with its other gas supplies for sale in other states.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 25, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 11, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 57-615; Filed, Jan. 25, 1957; 8:47 a. m.]

[Docket No. G-11234, etc.]

SOUTHERN NATURAL GAS CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

JANUARY 22, 1957.

In the matters of Southern Natural Gas Company, Docket No. G-11234; J. M. Flaitz, et al., Docket No. G-11243; Francis A. Callery, Docket No. G-11254.

Take notice that on October 15, 1956, Southern Natural Gas Company (Southern) filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of the following facilities by which additional natural gas reserves will be made available to its system from the Napoleonville Field, Assumption Parish, Louisiana, and in the Fort Jackson Field, Plaquemines Parish, Louisiana.

Southern lists the proposed facilities as:

1. Napoleonville Field:	
(a) 4.5 miles of 8⅝-inch O. D. pipeline extending to 20-inch main supply line	$252,120
(b) Measuring station	22,000
2. Fort Jackson Field:	
(a) 5.25 miles of 8⅝-inch O. D. pipeline extending to Olga Junction near Olga, Louisiana	346,840
(b) Submarine crossing of Mississippi River, consisting of ¾ miles of 8⅝-inch O. D. pipeline	121,040
(c) Measuring station	22,000
3. Facilities to enable transportation of the additional gas through existing lines:	
(a) Two 660-horsepower portable compressor units to be installed at the Toca Compressor Station	363,800
(b) One 550-horsepower portable compressor unit to be installed at White Castle Compressor Station now under construction as per authority granted in Docket No. G-10375	139,500
(c) One 1,350-horsepower compressor unit to be installed at the Gwinville Compressor Station	270,700
Total	1,588,000

Southern states that the estimated total cost of the above described facilities will be defrayed from current funds and that construction of the proposed facilities is estimated to be completed within four months after issuance of a certificate herein.

Take further notice that on October 16, 1956, J. M. Flaitz, et al. (Flaitz) filed in Docket No. G-11243 an application as operator and for other nonoperating working interest owners,[1] for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, to sell gas in interstate commerce to Southern from the Napoleonville Field, Assumption Parish, Louisiana. This sale is to be made pursuant to a 20-year sale agreement between Southern and Flaitz dated September 4, 1956.

Also, on October 18, 1956, Francis A. Callery (Callery) filed in Docket No. G-11254 an application on behalf of himself as operator and nonoperating working interest owners listed in the application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, to sell gas in interstate commerce to Southern from Fort Jackson Field, Plaquemines Parish, Louisiana. This sale is to be made pursuant to a 20-year gas sales agreement between Southern and Callery dated September 24, 1956.

The gas received from the Napoleonville Field and the Fort Jackson Field by Southern will be transported in interstate commerce for resale.

The above applications are on file with the Commission and open to public inspection.

Southern also states that the gas to be supplied by Flaitz will come from three wells in Napoleonville Field. There are five productive zones in this field occurring at depths ranging from 10,300 feet to 11,200 feet. The two main zones, which together contain more than 85 percent of the presently claimed reserves, have open flow potentials of 14,250 and 24,000 Mcf per day. The dedicated total recoverable reserve of this field as of this date is 71,852,000 Mcf. The daily delivery to Southern from this source is 8,450 Mcf (minimum) to 12,680 Mcf (maximum).

Southern further states that the gas to be supplied by Callery will come from one well in Fort Jackson Field which has penetrated two producing zones at depths of 10,800 feet and 11,200 feet. These two zones have the calculated open flow potentials of 26,500 and 99,000 Mcf per day. The dedicated total recoverable reserve of this field as of this date is 48,973,000 Mcf. The daily delivery to Southern from this source is 5,760 Mcf (minimum) to 8,640 Mcf (maximum).

Southern alleges that the acquisition of the new gas reserves and the construction of facilities to receive and transfer the gas will assure Southern's ability to meet its peak day input requirements of present markets for the winter of 1957-58.

Southern also alleges that no new sales or services are contemplated as a result of installation of the proposed facilities.

These related matters should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 21, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 4, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-11,285]

HOPE NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JANUARY 22, 1957.

Take notice that Hope Natural Gas Company, a West Virginia corporation, having its principal place of business at 445 West Main Street, Clarksburg, West Virginia, filed on October 24, 1956 an application for permission and approval to abandon service, pursuant to section 7 (b) of the Natural Gas Act, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant requests permission to discontinue the sale of gas to United Fuel Gas Company (United) from a single well, No. 8813, on the Benny R. Reynolds tract situate in Curtis District, Roane County, West Virginia, which was authorized by certificate issued in Docket No. G-4454. Applicant alleges that there has been no gas produced from this well since December 1955 and no further production is expected.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Thursday February 14, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 4, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

Secretary.

[F. R. Doc. 57-616; Filed, Jan. 25, 1957; 8:47 a. m.]

[Docket No. G-11433]

TEXAS ILLINOIS NATURAL GAS PIPELINE CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JANUARY 22, 1957.

Take notice that Texas Illinois Natural Gas Pipeline Company (Applicant), a Delaware corporation having its principal place of business at 122 South Michigan Avenue, Chicago 3, Illinois, filed on November 7, 1956, an application, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing construction and operation of certain loop pipeline facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application, which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate approximately 9.55 miles of 36-inch transmission pipeline, looping its existing single 30-inch pipeline from a point on the north bank of the Illinois River to Applicant's Joliet Regulator Station, serving the Chicago area. Applicant alleges that such proposed looping is necessary for the maintenance of adequate pressure on Applicant's pipeline system north of the Illinois River to enable Applicant to deliver the quantities of gas required to be delivered at the Joliet Meter Station delivery point and at delivery points on its Volo Lateral in the Chicago area during the 1957-1958 winter season.

The estimated cost of the proposed facilities is $1,700,000, which will be financed from funds on hand.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 25, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 14, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

FEDERAL RESERVE SYSTEM

TRANSAMERICA CORP.

NOTICE OF REQUEST FOR DETERMINATION AND ORDER FOR HEARING THEREON

Notice is hereby given that request has been made to the Board of Governors of the Federal Reserve System, pursuant to section 4 (c) (6) of the Bank Holding Company Act of 1956 (12 U. S. C. 1843), and section 5 (b) of the Board's Regulation Y (12 CFR 222.5 (b)), by Transamerica Corporation, San Francisco, California, a bank holding company, for a determination by said Board that Occidental Life Insurance Company of California and its activities are of the kind described in those provisions of the act and the regulation so as to make it unnecessary for the prohibitions of section 4 of the act with respect to retention of shares in nonbanking organizations to apply in order to carry out the purposes of the act.

Inasmuch as section 4 (c) (6) of the Bank Holding Company Act of 1956 requires that any determination pursuant thereto be made by the Board after due notice and hearing and on the basis of the record made at such hearing,

It is hereby ordered, That pursuant to section 4 (c) (6) of the Bank Holding Company Act of 1956 and in accordance with sections 5 (b) and 7 (a) of the Board's Regulation Y (12 CFR 222.5 (b), 222.7 (a)), promulgated under the Bank Holding Company Act of 1956, a hearing with respect to this request be held commencing on March 4, 1957, at 10 o'clock a. m., in the hearing room at the office of the Federal Reserve Bank of San Francisco, 400 Sansome Street, in the city and county of San Francisco, State of California, before a hearing examiner selected by the Civil Service Commission pursuant to section 11 of the Administrative Procedure Act, such hearing to be conducted in accordance with the rules of practice for formal hearings of the Board of Governors of the Federal Re-

serve System (12 CFR Part 263). The Board's rules of practice for formal hearings provide, in part, that "all such hearings shall be private and shall be attended only by respondents and their representatives or counsel, representatives of the Board, witnesses, and other persons having an official interest in the proceedings: *Provided, however,* That on the written request of one or more respondents or counsel for the Board, or on its own motion, the Board, when not prohibited by law, may permit other persons to attend or may order the hearing to be public."

Any person desiring to give testimony in this proceeding should file with the Secretary of the Board, directly or through the Federal Reserve Bank of San Francisco, on or before February 21, 1957, a written request relative thereto, said request to contain a statement of the reasons for wishing to appear, the nature of the petitioner's interest in the proceeding, and a summary of the matters concerning which said petitioner wishes to give testimony. Such request will be presented to the designated hearing examiner for his determination in the matter at the appropriate time. Persons submitting timely requests will be notified of the hearing examiner's decision in due course.

By order of the Board of Governors.

[SEAL] S. R. CARPENTER, *Secretary.*

GENERAL CONTRACT CORP.

NOTICE OF REQUEST FOR DETERMINATION AND ORDER FOR HEARING THEREON

Notice is hereby given that request has been made to the Board of Governors of the Federal Reserve Sysetem, pursuant to section 4 (c) (6) of the Bank Holding Company Act of 1956 (12 U. S. C. 1843) and section 5 (b) of the Board's Regulation Y (12 CFR 222.5 (b)), by General Contract Corporation, St. Louis, Missouri, a bank holding company, for a determination by said Board that each of the companies listed below and the activities thereof are of the kind described in those provisions of the act and the regulation so as to make it unnecessary for the prohibitions of section 4 of the act with respect to retention of shares in nonbanking organizations to apply in order to carry out the purposes of the act:

1. Washington Fire and Marine Insurance Company.
2. Insurance Company of St. Louis.
3. Midwestern Fire and Marine Insurance Company.
4. Securities Investment Company of St. Louis and its subsidiaries:
   - Securities Credit Company (Missouri).
   - Securities Loan Company.
   - Securities Credit Company (Florida).
   - Broadway Insurance Agency, Inc.
   - Securities Insurance Agency, Inc.
   - Davidson Insurance Agency, Inc.
   - Investment Insurance Agency, Inc.
   - Craighead Insurance Agency, Inc.
   - Palafox Insurance Agency, Inc.
5. Industrial Loan Company.
6. Industrial Finance Company of Wellston.
7. Springfield Union Finance Company.
8. Quincy Union Finance Company.
9. Baden Loan Company.
10. General Contract Loan Company.
11. SIC Loan Company.
12. General Loan Company.
13. General Contract Loan Company, Inc.
14. General Contract Loan Brokers, Inc.
15. Investment Company of St. Louis.
16. Apex Insurance Agency, Inc.
17. Jefferson-Gravois Insurance Agency, Inc.
18. Reid-Kruse, Inc.
19. St. Louis-Washington Insurance Agency, Inc.
20. Northwestern Insurance Agency, Inc.
21. Springfield Insurance Agency, Inc.
22. Quincy Insurance Agency, Inc.
23. Sterick Insurance Agency, Inc.
24. Texarkana Agency, Inc.

Inasmuch as section 4 (c) (6) of the Bank Holding Company Act of 1956 requires that any determination pursuant thereto be made by the Board after due notice and hearing and on the basis of the record made at such hearing,

It is hereby ordered, That pursuant to section 4 (c) (6) of the Bank Holding Company Act of 1956 and in accordance with sections 5 (b) and 7 (a) of the Board's Regulation Y (12 CFR 222.5 (b), 222.7 (a)), promulgated under the Bank Holding Company Act of 1956, a hearing with respect to this matter be held commencing on February 18, 1957, at 10 o'clock a. m., in Room 4 at the office of the Federal Reserve Bank of St. Louis, 411 Locust Street, in the City of St. Louis, State of Missouri, before a hearing examiner selected by the Civil Service Commission pursuant to section 11 of the Administrative Procedure Act, such hearing to be conducted in accordance with the rules of practice for formal hearings of the Board of Governors of the Federal Reserve System (12 CFR Part 263). The Board's rules of practice for formal hearings provide, in part, that "all such hearings shall be private and shall be attended only by respondents and their representatives or counsel, representatives of the Board, witnesses, and other persons having an official interest in the proceedings: *Provided, however,* That on the written request of one or more respondents or counsel for the Board, or on its own motion, the Board, when not prohibited by law, may permit other persons to attend or may order the hearing to be made public."

Any person desiring to give testimony in this proceeding should file with the Secretary of the Board, directly or through the Federal Reserve Bank of St. Louis, on or before February 8, 1957, a written request relative thereto, said request to contain a statement of the reasons for wishing to appear, the nature of the petitioner's interest in the proceeding, and a summary of the matters concerning which said petitioner wishes to give testimony. Such request will be presented to the designated hearing examiner for his determination in the matter at the appropriate time. Persons submitting timely requests will be notified of the hearing examiner's decision in due course.

By order of the Board of Governors.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3548]

OHIO EDISON CO.

ORDER AUTHORIZING ISSUANCE AND SALE OF COMMON STOCK PURSUANT TO RIGHTS OFFERING

JANUARY 22, 1957.

Ohio Edison Company ("Company"), a registered holding company and a public utility company, has filed a declaration and amendments thereto pursuant to sections 7 and 12 (c) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-42 and U-50 thereunder with respect to the following proposed transaction:

The Company proposes to issue and sell 580,613 shares of its authorized but unissued Common Stock and to offer such shares to its common stockholders of record at the close of business on January 31, 1957, such offer to give to each common stockholder of record, until February 15, 1957, the right to subscribe for shares of the additional Common Stock on the basis of one share for each ten shares of Common Stock held ("Right") and the privilege to subscribe, subject to allotment, at the same subscription price for shares of the additional Common Stock not subscribed for pursuant to the Rights referred to above ("Additional Subscription Privilege"). Rights and Additional Subscription Privileges will be evidenced by a single form of transferable registered Warrant. No fractional shares will be issued. Through its subscription agents the Company will provide facilities for the purchase of such Rights (not exceeding 9 in any one case) as may be necessary for a subscription to one full share of Common Stock, or the sale of Rights (not exceeding 9 in any one case) in excess of those necessary for the purchase of full shares.

The Company proposes on or about January 24, 1957, publicly to invite bids from prospective underwriters for the underwriting of said offering, such underwriters to name the amount of compensation, if any, to be paid by the Company to them for their services and agreement to purchase, at the subscription price, any shares not subscribed for as a result of the offering to the stockholders and also the shares, if any, purchased by the Company in connection with its stabilizing activities referred to below. It is proposed that the bids will be submitted on or about January 30, 1957.

The price per share at which the Company proposes to offer the additional Common Stock to its common stockholders and the unsubscribed stock to the underwriters will be determined by the Company. Prospective underwriters will be notified of the price per share as so determined by the Company at least 42 hours prior to the time for the submission of bids. Such price will be not more than the last reported sale price on the New York Stock Exchange and not less than such last reported sale price less 15 percent.

The Company proposes, if it considers the same necessary or desirable, to effect transactions to stabilize or maintain the price of its Common Stock for the purpose of facilitating the offering and distribution of the additional Common Stock. In connection therewith the Company may, during the period commencing with the second full business day prior to the time for submission of bids and continuing until the acceptance of a bid, purchase not in excess of 58,061 shares of its Common Stock through regular brokerage channels.

The Company will use the net proceeds from its proposed sale of Common Stock, together with cash on hand and to be derived from operations, for its 1957 construction program (estimated at $54,944,000) and for an additional investment of $2,100,000 in the common stock of its subsidiary, Pennsylvania Power Company.

The fees and expenses to be paid by the Company in connection with said transaction are estimated as follows:

Federal original issue tax	$10,000
Filing fee, this Commission	3,233
Printing and engraving	41,700
Listing and registration on New York and Midwest Stock Exchanges	1,975
Services of transfer agents and registrars	10,500
Service of co-warrant agent	44,000
Legal services, Winthrop, Stimson, Putnam & Roberts	12,500
Accounting services, Arthur Andersen & Co	6,880
Services of Commonwealth Services Inc	10,000
Miscellaneous	8,000
Total	148,788

The fee of Simpson Thacher & Bartlett, independent counsel to the underwriters, which will be paid by the successful bidders, is estimated at $7,500.

The Public Utilities Commission of Ohio has authorized the issuance and sale of the securities as proposed, subject to its further approval of the subscription price and the compensation to be paid to the underwriters.

Due notice having been given of the filing of said declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the Act and the rules thereunder are satisfied and that no reservations are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the declaration as amended be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, that said declaration as amended be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57-608; Filed, Jan. 25, 1957; 8:46 a. m.]

[File No. 24SF-2090]

GRIFF MINES, INC.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JANUARY 22, 1957.

I. Griff Mines, Inc., 151 Sonoma Street, Winnemucca, Nevada, filed with the Commission on May 26, 1955, a Notification on Form 1-A, a Statement under Rule 219 (b) and a sales letter relative to a proposed offering of 220,000 common shares at 10 cents per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that the offering, if continued, would act as a fraud or deceit upon prospective purchasers in that material changes have occurred in the affairs of the corporation which are not reflected in its Statement under Rule 219 (b) or in its sales literature, to wit: the rights in mineral lands which constitute the principal asset of the corporation have become lost to the corporation.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given, that any persons having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[Ex Parte No. 206]

EASTERN AND WESTERN TERRITORIES INCREASED FREIGHT RATES, 1956

In the matter of the Petition dated January 17, 1957, for leave to amend and supplement petition dated October 15, 1956, filed by freight forwarders parties to the above-entitled proceeding.

Present: Howard G. Freas, Chairman, Division 2, to whom the matters which are the subject of this order have been assigned for action thereon.

Upon consideration of a petition for leave to amend and supplement petition of October 15, 1956, substantially as follows:

1. Petitioners ask that if the railroads should, as a result of this proceeding be authorized to increase their rates and charges by 22 percent (including the emergency increases granted on an interim basis on December 17, 1956) or by any other amount over and above the interim increases, petitioning freight forwarders request authority to increase their own rates and charges by the same amount and at the same time.

2. Petitioners request permission to file certain supplemental and additional verified statements in support of amended petition on or before February 1, 1957.

3. Petitioners request that additional freight forwarders be included as petitioners.

It is ordered, That the petitions for leave to amend and for filing supplemental and additional verified statements on or before February 1, 1957, be granted.

It is further ordered, That the filing of statements and briefs, the holding of hearings, and other procedures will be governed by the special rules of practice and procedure set forth in paragraph 3 of the Commission's order of January 16, 1957.

Dated at Washington, D. C., this 18th day of January A. D. 1957.

By the Commission, Commissioner Freas.

[SEAL] HAROLD D. McCOY, *Secretary.*

TITLE 3—THE PRESIDENT

PROCLAMATION 3168

NATIONAL JUNIOR ACHIEVEMENT WEEK, 1957

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS many of the young people of our country, under the auspices of a nation-wide organization, are learning actual business methods by setting up and operating their own small-scale enterprises; and

WHEREAS the sponsors of these energetic juniors—businessmen of many local communities—are voluntarily giving of their time, their counsel, and their experience for the benefit of these junior achievers; and

WHEREAS the experience gained by these young people in conducting their own enterprises will heighten their understanding of the privileges and duties of citizenship and better prepare them for future leadership in industry and in their communities; and

WHEREAS initiative, a sense of individual dignity, and the determination to mold one's own future are basic elements of the character of the people of our nation; and

WHEREAS the Congress, by House Concurrent Resolution 73, agreed to January 17, 1957, has requested the President to issue a proclamation designating the week beginning January 27, 1957, as National Junior Achievement Week:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby designate the week of January 27 through February 2, 1957, as National Junior Achievement Week; and I urge all our citizens to observe the week by honoring Junior Achievers and their volunteer adult advisers through appropriate ceremonies.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this twenty-fifth day of January in the year of our Lord nineteen hundred and fifty-seven, and of the Independence of the United States of America the one hundred and eighty-first.

[SEAL] DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

EXECUTIVE ORDER 10696

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN THE RAILWAY EXPRESS AGENCY, INCORPORATED, AND CERTAIN OF ITS EMPLOYEES REPRESENTED BY THE INTERNATIONAL BROTHERHOOD OF TEAMSTERS, CHAUFFEURS, WAREHOUSEMEN AND HELPERS OF AMERICA

WHEREAS a dispute exists between the Railway Express Agency, Incorporated, a carrier, and certain of its employees represented by the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate the said dispute. No member of the said Board shall be pecuniarily or otherwise interested in any organization of railway employees or any carrier.

RULES AND REGULATIONS

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 3]

PART 722—COTTON

SUBPART—REGULATIONS PERTAINING TO ACREAGE ALLOTMENTS FOR 1957 CROP OF UPLAND COTTON

Basis and purpose. The amendments contained herein are issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U. S. C. 1281 et seq.) for the purposes stated in connection with each of the following amendments. Notice of the proposed establishment of county acreage allotments was published in the FEDERAL REGISTER of July 7, 1956 (21 F. R. 5063), pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) and the data, views and recommendations which were submitted have been duly considered. It is essential that these amendments be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice and public procedure thereon and the 30-day effective date requirements of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) is impracticable, unnecessary and contrary to the public interest and these amendments shall be effective upon filing of this document with the Director, Division of the Federal Register.

The regulations pertaining to acreage allotments for the 1957 crop of upland cotton (21 F. R. 7817, 9630) are amended as follows:

1. Section 722.816 (a) (1) is amended to set forth exceptions to the two percent limitation on State reserves approved by the Secretary and is revised to read as follows:

§ 722.816 *Apportionment of State acreage allotment among counties*—(a) • • •

(1) *State reserve for trends, abnormal conditions, new farms and inequities and hardship cases.* The State committee shall determine what portion of the State acreage allotment, if any, is to be reserved for use in (i) adjusting computed county acreage allotments for trends in acreage, (ii) adjusting computed county acreage allotments for abnormal conditions affecting plantings, (iii) establishing allotments for new cotton farms, and (iv) adjusting farm allotments to correct inequities and to prevent hardship. The total allocation to the State reserve for all such uses shall not exceed two percent of the State acreage allotment unless the Secretary, on the basis of a recommendation by the State committee, approves a larger percent. Based on the respective State committee recommendations, the exceptions to such two percent limitation on the State reserves for trends, abnormal conditions, new farms and inequities and hardship cases approved by the Secretary are as follows:

State:	*Percent of State acreage allotment*
Kansas	10
Louisiana	4.438
Nevada	10
Oklahoma	4.062
Texas	2.778

2. Section 722.816 *Apportionment of State acreage allotment among counties* is amended by addition of a new paragraph (i) which establishes the allocations to counties from the State reserve for small farms and for inequity and hardship cases, the remaining State reserve which is available for allocation to counties for new farms and for allocation to counties under § 722.817 (h), and county reserves:

(i) *Allocations to counties from State reserve for small farms, inequity and hardship cases; county reserve; and State reserve available for allocation to counties for new farms, late and reconstituted farms, and correction of errors.*

3. Section 722.816 (e), as amended (21 F. R. 9630), is further amended to correct item (c) of each State tabulation of acreage by deleting the words "State allotment" and substituting therefor "Total allotment available for distribution in State".

(Sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interprets or applies secs. 301, 342–347, 361–368, 373, 374, 388, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1342–1347, 1361–1368, 1373, 1374, 1388)

Done at Washington, D. C., this 16th day of January, 1957. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 57–522; Filed, Jan. 26, 1957; 8:45 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 960—MILK IN AKRON-STARK COUNTY, OHIO, MARKETING AREA

ORDER AMENDING ORDER REGULATING HANDLING

Sec.

960.0 Findings and determinations.

DEFINITIONS

960.1 Act.
960.2 Secretary.
960.3 Marketing area.
960.4 Handler.
960.5 Pool plant.
960.6 Nonpool plant.

Sec.
960.7 Producer.
960.8 Producer milk.
960.9 Other source milk.
960.10 Producer-handler.
960.11 Route.
960.12 Person.
960.13 Department of Agriculture.
960.14 Cooperative association.
960.15 Eligible milk.
960.16 Ineligible milk.

MARKET ADMINISTRATOR

960.20 Designation.
960.21 Powers.
960.22 Duties.

REPORTS, RECORDS AND FACILITIES

960.30 Monthly reports of receipts and utilization.
960.31 Other reports.
960.32 Records and facilities.
960.33 Retention of records.

CLASSIFICATION

960.40 Skim milk and butterfat to be classified.
960.41 Classes of utilization.
960.42 Shrinkage.
960.43 Responsibility of handlers and reclassification of milk.
960.44 Transfers.
906.45 Computation of skim milk and butterfat in each class.
906.46 Allocation of butterfat.
906.47 Allocation of skim milk.

MINIMUM PRICES

960.50 Class I milk prices.
960.51 Class II milk prices.
960.52 Handler butterfat differentials.

DETERMINATION OF ELIGIBLE MILK QUOTA

960.55 Determination of eligible milk quota for each producer.
960.56 Quota rules.

DETERMINATION OF UNIFORM PRICE

960.60 Value of producer milk for each handler.
960.61 Computation of uniform price.
960.62 Computation of ineligible milk price.
960.63 Computation of eligible milk price.
960.64 Notification.

PAYMENTS FOR MILK

960.70 Time and method of payment.
960.71 Producer-settlement fund.
960.72 Payments to the producer-settlement fund.
960.73 Payments out of the producer-settlement fund.
960.74 Producer butterfat differential.
960.75 Expense of administration.
960.76 Marketing services.
960.77 Errors in payments.
960.78 Termination of obligation.

APPLICATION OF PROVISIONS

960.80 Handler exemption.
960.81 Producer-handler.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

960.90 Effective time.
960.91 Suspension or termination.
960.92 Continuing obligations.
960.93 Liquidation.

MISCELLANEOUS PROVISIONS

960.100 Agent.
960.101 Separability of provisions.

AUTHORITY: §§ 960.0 to 960.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 960.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Akron, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies and demand for such, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order as hereby amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 3 cents per hundredweight or such amount not exceeding 3 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of milk from producers and other source milk which is classified as Class I milk and which is not subject to administrative assessment under another Federal order.

(b) *Additional findings.* It is necessary in the public interest to make this order, amending the order, effective not later than February 1, 1957. Any delay beyond that date in making this order, amending the order, effective will tend to disrupt the orderly marketing of milk in the Akron-Stark County, Ohio, marketing area. The Class I pricing provisions of the orders now in effect expire as of January 31, 1957. The changes affected by this order, amending the order, do not require persons affected to make substantial or extensive preparation prior to the effective date. The provisions of this amendatory order are well known, the public hearing having been held August 22, 1956, the recommended decision having been issued December 27, 1956, and the final decision having been issued January 14, 1957. Therefore reasonable time has been afforded persons affected to prepare for the effective date. Therefore good cause exists for making this order, amending the order, effective February 1, 1957, and it would be contrary to the public interest to delay the effective date of said order for 30 days after its publication in the FEDERAL REGISTER. (Sec. 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, which is marketed within the Akron-Stark County, Ohio, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means, pursuant to the declared policy of the Act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order, amending the order, is approved or favored by at least two-thirds of the producers who participated in a referendum and who, during the determined representative period (October 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Akron-Stark County, Ohio, marketing area shall be in conformity to and in compliance with the following terms and conditions as set forth below:

DEFINITIONS

§ 960.1 *Act.* "Act" means Public Act No. 10 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 960.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 960.3 *Marketing area.* "Akron-Stark County, Ohio, marketing area", hereinafter referred to as the "marketing area" means all territory, including but not limited to all municipal corporations within the boundaries of: Summit County; Stark County, except Paris and Sugar Creek Townships; Franklin, Ravenna, Brimfield, and Suffield Townships and Lots 5 to 10, 15 to 20, 25 to 30, and 35 to 40, inclusive, of Randolph Township in Portage County; Smith Township in Mahoning County, except Great Lot 35 thereof; Knox Township in Columbiana County; and Sections 1, 2, 3, 10, 11, and 12 of Sugar Creek Township in Wayne County; all in the State of Ohio.

§ 960.4 *Handler.* "Handler" means any person (a) in his capacity as the operator of a plant or plants where milk is processed and packaged for distribution on a route(s) in the marketing area, and (b) any cooperative association with respect to the milk of any producer which such cooperative association causes to be diverted from producers' farms to a plant for the account of such cooperative association.

§ 960.5 *Pool plant.* "Pool plant" means any plant at which milk received from dairy farmers is packaged and distributed as Class I milk on a route(s) wholly or partially within the marketing area, except plants exempted pursuant to § 960.80.

§ 960.6 *Nonpool plant.* "Nonpool plant" means a plant other than a plant operated by a producer-handler, during such months as it is not a pool plant.

§ 960.7 *Producer.* "Producer" means any person other than a producer-handler who produces milk which has approval of the health authorities of any community in the marketing area for consumption as fluid milk in such community and is received at a pool plant. This definition shall include any such person who is regularly designated as a producer but whose milk is caused to be diverted to a plant, other than a pool plant, by a handler for his account. Milk so diverted shall be deemed to have been received at a pool plant by the handler or cooperative association which caused it to be diverted.

§ 960.8 *Producer milk.* "Producer milk" means skim milk and butterfat contained in milk received from producers.

§ 960.9 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in milk, skim milk, or cream, used to produce all other milk products, received from all sources other than producers and pool plants.

§ 960.10 *Producer-handler.* "Producer-handler" means any person who (a) produces milk; (b) receives no milk from producers or from other sources; and (c) operates a plant from which a route(s) is operated wholly or partially within the marketing area.

§ 960.11 *Route.* "Route" means a sale or delivery (including a sale from a plant or store) of Class I milk to a wholesale or retail stop(s).

§ 960.12 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 960.13 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture.

§ 960.14 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines after application by the association; (a) to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; (b) to have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and (c) to have all of its activities under the control of its members.

§ 960.15 *Eligible milk.* "Eligible milk" means the amount of milk received by a handler from a producer during each of the months specified in § 960.63 which is not in excess of such producer's daily average quota computed pursuant to § 960.55 multiplied by the number of days in such month on which such producer delivered milk to such handler: *Provided*, That with respect to any producer on "every-other-day" delivery to a pool plant, the days of non-delivery shall be considered as days of delivery for purposes of this section and of § 960.55.

§ 960.16 *Ineligible milk.* "Ineligible milk" means the amount of milk received by a handler from a producer during each of the months specified in § 960.63 which is in excess of eligible milk received from such producer during such month, and shall include all milk received from a producer for whom no daily average quota can be computed pursuant to § 960.55.

MARKET ADMINISTRATOR

§ 960.20 *Designation.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 960.21 *Powers.* The market administrator shall have the power to:

(a) Administer all of the terms and provisions of this subpart;

(b) Make rules and regulations to effectuate the terms and provisions of this subpart;

(c) Receive, investigate, and report to the Secretary complaints of violations of this subpart; and

(d) Recommend to the Secretary amendments to this subpart.

§ 960.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties as market administrator and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this subpart;

(c) Obtain a bond in reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 960.75, (1) the costs of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, (2) his own compensation, and (3) all other expenses (except those incurred under § 960.76) necessarily incurred by him in the maintenance and functioning of his office in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart and upon request by the Secretary surrender the same to his successor or to such other person as the Secretary may designate.

(f) Publicly announce unless otherwise directed by the Secretary by posting in a conspicuous place in his office and by such other means as he deems appropriate the name of any person who, within 8 days after the day upon which he is required to perform such acts, has not made reports pursuant to § 960.30 or § 960.31 or payments pursuant to §§ 960.70, 960.72, 960.75, 960.76, or 960.77;

(g) Submit his books and records to examination and furnish such information and verified reports as may be requested by the Secretary;

(h) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate;

(1) On or before the 5th day of each month the minimum class prices for the preceding month for milk of 3.5 percent butterfat content, as computed pursuant to §§ 960.50 and 960.51, and the butterfat differentials, computed pursuant to § 960.52.

(2) On or before the 13th day of each month the uniform price(s) for the preceding month, computed pursuant to § 960.61, or §§ 960.62 and 960.63 as applicable, and the butterfat differential for the preceding month computed pursuant to § 960.74.

(j) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such information concerning the operation of this subpart as does not reveal confidential information.

(k) On or before the 13th day of each month, report to each cooperative association that so requests the class utilization of milk received during the preceding month by each handler from producers who are members of such association, prorating to such receipts the class utilization of all producer receipts of such handler.

(l) Provide notice, for each producer for whom a daily average quota is computed pursuant to § 960.55, on or before the first day of the month first stated in § 960.63 to: (1) Such producers, (2) cooperative associations for such producers who are its members, and (3) handlers for such producers from whom they received milk.

REPORTS, RECORDS AND FACILITIES

§ 960.30 *Monthly reports of receipts and utilization.* On or before the 8th day of each month, each handler who operates a pool plant(s), and any cooperative association with respect to milk for which it is a handler pursuant to § 960.4 (b), shall, with respect to milk or milk products which were received at a pool plant by such handler during the preceding month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The quantities of butterfat and skim milk contained in milk received from producers, and, for the months specified in § 960.63 the aggregate quantities of eligible milk;

(b) The quantities of butterfat and skim milk contained in or used to produce receipts of milk and milk products from other pool plants;

(c) The quantities of butterfat and skim milk contained in or used to produce receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all butterfat and skim milk the receipt of which is required to be reported pursuant to this section;

(e) The pounds of butterfat and skim milk contained in all milk, skim milk, and cream and other Class I products on hand at the beginning and at the end of the month;

(f) Such other information with respect to the use of milk as the market administrator may request.

§ 960.31 *Other reports.* Other reports shall be submitted to the market administrator as follows:

(a) Each producer-handler, and each handler who does not operate a pool plant, shall make reports at such time and in such manner as the market administrator may request.

(b) On or before the 20th day of each month each handler who operated a pool plant(s) at which producer milk was received in the preceding month shall submit such handler's producer payroll for the preceding month which shall show (1) the total pounds and the butterfat content of milk received from each producer, and for the months specified in § 960.63, the pounds of eligible milk and of ineligible milk received from each producer, (2) the amount and date of payment to each producer or cooperative association pursuant to § 960.70, (3) the nature and amount of each deduction or charge made by the handler, and (4) the number of days, if less than the entire month, for which milk was received from such producers.

§ 960.32 *Records and facilities. Each* handler and producer-handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of any of his operations and such facilities as in the opinion of the market administrator are necessary to verify or to establish the correct data with respect to: (a) The receipts and utilization or disposition of all skim milk and butterfat received, including all milk products received and disposed of in the same form; (b) the weights and tests for butterfat, skim milk and other contents of all milk and milk products handled; and (c) all payments required to be made by such handler pursuant to §§ 960.70, 960.72, 960.75, 960.76, and 960.77.

§ 960.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler or producer-handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if within such three-year period the market administrator notifies the handler or producer-handler in writing that the retention of such books and records or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler or producer-handler shall retain such books and records or specified books and records until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler or producer-handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 960.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received by a handler which is required to be reported pursuant to § 960.30 shall be classified pursuant to §§ 960.41 through 960.44.

§ 960.41 *Classes of utilization.* Subject to the conditions set forth in §§ 960.43 and 960.44, the classes of utilization shall be:

(a) Class I milk shall be all skim milk (including the skim milk equivalent of concentrated products) and butterfat (1) disposed of for consumption in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, concentrated milk not in hermetically sealed cans, cream, including sour cream or any mixture of cream and milk or skim milk, or (2) not accounted for as Class II milk.

(b) Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those specified in paragraph (a) of this section; (2) disposed of for livestock feed or skim milk dumped subject to prior notification to and inspection (at his discretion) by the market administrator; (3) in shrinkage of producer milk up to 2 percent of receipts from producers; and (4) in shrinkage of other source milk.

§ 960.42 *Shrinkage.* (a) If producer milk is utilized in conjunction with other source milk, the shrinkage shall be allocated pro rata between the receipts of skim milk and butterfat in producer milk and other source milk.

(b) Producer milk transferred or diverted by a handler from his pool plant to another pool plant without first having been received for purposes of weighing in the transferring or diverting handler's pool plant shall be included in the receipts at the pool plant to which such milk was transferred or diverted for the purpose of computing shrinkage and shall be excluded from the receipts at the transferring or diverting handler's pool plant for such purpose.

§ 960.43 *Responsibility of handlers and reclassification of milk.* All skim milk and butterfat contained in producer milk and in other source milk received by a handler shall be classified as Class I milk unless the handler proves to the market administrator that such skim milk and butterfat or a portion thereof should be classified as Class II milk. Any skim milk or butterfat which is classified in Class II shall be reclassified to Class I if subsequent to the original classification such skim milk or butterfat is handled in such a manner as to justify its reclassification.

§ 960.44 *Transfers.* (a) Skim milk and butterfat disposed of from a pool plant to the pool plant of another handler in the form of milk, skim milk or cream shall be Class I milk unless Class II milk is indicated by the operators of both plants in their reports submitted pursuant to § 960.30: *Provided,* That in no event shall the amount so classified as Class II be greater than the amount of producer milk used in such class in the pool plant(s) of the transferee handler after allocating other source milk in such plant(s) in series beginning with the lowest priced utilization.

(b) Skim milk and butterfat moved in the form of milk, skim milk or cream from a pool plant to a handler described in § 960.80 or to a nonpool plant shall be Class I milk unless all of the following conditions are met:

(1) Class II milk is indicated by the operator of the pool plant in his report submitted pursuant to § 960.30.

(2) The operator of the nonpool plant maintains books and records which are made available for examination upon request by the market administrator and which are adequate for the verification of such Class II utilization.

(3) If the above conditions are met, the market administrator shall classify all skim milk and butterfat received at the nonpool plant and the skim milk and butterfat so transferred shall be allocated in series beginning with any skim milk and butterfat, respectively, remaining in Class I milk after allocating skim milk and butterfat in milk received from dairy farmers whom the market administrator determines constitute the regular source of milk for Class I uses at such plant, in series beginning with Class I milk.

(c) Skim milk and butterfat transferred in the form of milk, skim milk, or cream to a producer-handler shall be classified as Class I milk.

§ 960.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the report submitted by each handler pursuant to § 960.30 and shall compute separately the pounds of skim milk and butterfat in each class.

§ 960.46 *Allocation of butterfat.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in Class II milk the pounds of butterfat shrinkage allowed pursuant to § 960.41 (b) (3);

(b) Subtract from the total pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk other than that received from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk received in a form other than that specified in paragraph (d) of this section from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

(d) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat contained in milk or milk products received in packaged form which were classified and priced under another Federal order and disposed of in the same form as received;

(e) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat received from other handlers in such classes pursuant to § 960.44 (a); and

(f) Add to the remaining pounds of butterfat in Class II milk the pounds subtracted pursuant to paragraph (a) of this section.

(g) If the remaining pounds of butterfat in both classes exceed the pounds of butterfat in milk received from producers, subtract such excess from the remaining pounds of butterfat in each class in series, beginning with the lowest-priced utilization.

§ 960.47 *Allocation of skim milk.* Allocate the pounds of skim milk in each class to milk received from producers in a manner similar to that prescribed for butterfat in § 960.46.

MINIMUM PRICES

§ 960.50 *Class I milk prices.* The minimum price per hundredweight to be paid by each handler, f. o. b. a pool plant, for milk of 3.5 percent butterfat content received from producers or from cooperative associations during the month, which is classified as Class I milk shall be 5 cents less than the Class I price as determined pursuant to § 975.61 of this chapter.

§ 960.51 *Class II milk price.* The minimum price per hundredweight to be paid by each handler, f. o. b. a pool plant, for milk of 3.5 percent butterfat content received from producers or from cooperative associations during the month which is classified as Class II milk shall be the higher of the prices computed by the market administrator pursuant to paragraph (a) or (b) of this section, except that for such Class II milk used to produce cottage cheese such minimum price shall be increased 30 cents.

(a) The average of the basis (or field) prices ascertained to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture by the companies indicated below:

Present Operator and Location
Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price computed by adding together the plus amounts pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month, subtract 3 cents, add 20 percent of the resulting amount, and then multiply by 3.5.

(2) From the simple average, as computed by the market administrator of the weighted averages of the carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the month for which prices are being computed by the Department of Agriculture, deduct 5.5 cents, and multiply by 8.2.

§ 960.52 *Handler butterfat differentials.* If the average butterfat content of the milk of any handler allocated to any class is more or less than 3.5 percent, there shall be added to the prices of milk for each class as computed pursuant to §§ 960.50 and 960.51 for each one-tenth of one percent that the average butterfat content of such milk is above 3.5 percent, or subtracted for one-tenth of one percent that such average butterfat content is below 3.5 percent, an amount equal to the average daily wholesale price per pound of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month, multiplied by the following factors:

(a) *Class I milk.* Multiply by 1.3, and divide the result by 10.

(b) *Class II milk.* Multiply by 1.15, and divide the result by 10.

DETERMINATION OF ELIGIBLE MILK QUOTA

§ 960.55 *Determination of eligible milk quota for each producer.* Subject to the rules set forth in § 960.56 the market administrator shall determine quotas for producers as follows: During each of the months specified in § 960.63 of each year beginning with 1958, the daily quota of each producer whose milk was received by a handler(s) on not less than thirty (30) days during the immediately preceding months of October through December, inclusive, shall be a quantity computed by dividing such producer's total pounds of milk delivered in the 3-month period by the number of days from the date of the first delivery to the end of such 3-month period.

§ 960.56 *Quota rules.* (a) Except as provided in paragraph (b) of this section, an eligible milk quota shall apply to deliveries of milk by the producer for whose account that milk was delivered to a handler(s) during the quota forming period.

(b) A daily quota may be transferred during the period of April through June by notifying the market administrator in writing before the first day of any delivery period that such quota is to be transferred to the person named in such notice, but under the following conditions only:

(1) In the event of the death of a producer, the entire daily quota may be transferred to a member of such producer's immediate family who carries on the dairy operation on the same farm;

(2) If a quota is held jointly and such joint holding is terminated on the basis of written notice to the market administrator from the joint holders, the entire daily quota may be transferred to one of the joint holders, or divided in accordance with such notice between the former joint holders if they continue dairy farm operations.

DETERMINATION OF UNIFORM PRICE

§ 960.60 *Value of producer milk for each handler.* The value of producer milk received during the month by each handler who operates a pool plant(s), and by any cooperative association with respect to milk for which it is a handler pursuant to § 960.4 (b), shall be a sum of money computed by the market administrator by multiplying by the applicable class price, adjusted pursuant to § 960.52, the total combined hundredweight of skim milk and butterfat received from producers and allocated to each class pursuant to §§ 960.46 and 960.47, adding together the resulting amounts, and adding an amount computed by multiplying any excess utilization classified pursuant to § 960.46 (g) and § 960.47 by the applicable class prices.

§ 960.61 *Computation of uniform price.* For each month (except those specified in § 960.63) the market administrator shall compute a uniform price per hundredweight of milk containing 3.5 percent of butterfat to be paid to producers delivering milk to any pool plant as follows:

(a) Combine into one total the value of producer milk for each handler as computed pursuant to § 960.60 for all handlers who reported pursuant to § 960.30 for such month, except those in default in payments required pursuant to § 960.72 for the preceding month;

(b) Add the total amount of all payments made pursuant to § 960.72 (b);

(c) Add any amounts paid into the producer-settlement fund and subtract any amounts paid out of the producer-settlement fund pursuant to § 960.77;

(d) Add an amount representing not less than one-half of the unobligated balance in the producer-settlement fund exclusive of the amounts added or subtracted pursuant to paragraphs (b) and (c) of this section;

(e) Subtract, if the weighted average butterfat test of all producer milk represented by the amounts included under paragraph (a) of this section is greater than 3.5 percent, or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the difference of such weighted average butterfat test from 3.5 percent by the butterfat differential computed pursuant to § 960.74 multiplied by 10;

(f) Divide the resulting amount by the total hundredweight of producer milk received by all handlers during the month for which uniform prices are being computed;

(g) Subtract not less than 4 cents nor more than 5 cents, and the result shall be the uniform price to be paid per hundredweight of milk containing 3.5 percent of butterfat to producers who delivered milk during the month for which uniform prices are being computed.

§ 960.62 *Computation of ineligible milk price.* Effective April 1958, for the months specified in § 960.63, the market administrator shall compute the uniform price per hundredweight for ineligible milk of 3.5 percent butterfat content by:

(a) Multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk by the price for Class II milk of 3.5 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 3.5 percent butterfat content, and adding together the resulting amounts; and

(b) Dividing the total value of ineligible milk obtained in paragraph (a) of this section by the total hundredweight of such milk and adjusting to the nearest cent.

§ 960.63 *Computation of eligible milk price.* Effective April 1958, for each of the months of April through June the market administrator shall compute the uniform price per hundredweight for eligible milk of 3.5 percent butterfat content received from producers at a pool plant by:

(a) Subtracting the value of ineligible milk obtained in § 960.62 (a) from the aggregate value of milk computed pursuant to § 960.61 (a) through (e) and adjusting by an amount involved in adjusting the uniform price of ineligible milk to the nearest cent;

(b) Dividing the amount obtained in paragraph (a) of this section by the total hundredweight of eligible milk included in these computations; and

(c) Subtracting not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (b) of this section.

§ 960.64 *Notification.* On or before the 13th day of each month the market administrator shall notify each handler who submitted a report for the preceding month pursuant to § 960.30 of:

(a) The classification pursuant to §§ 960.46 and 960.47 of skim milk and butterfat contained in producer milk received by such handler during the preceding month and the value of such milk computed pursuant to § 960.60;

(b) The uniform prices for the month computed pursuant to § 960.61 or §§ 960.62 and 960.63, as applicable; and

(c) The amount due such handler pursuant to § 960.73 and the amount to be paid by such handler pursuant to §§ 960.72, 960.75, and 960.76.

PAYMENTS

§ 960.70 *Time and method of payment.* (a) Except as provided by paragraph (b) of this section, on or before the 18th day of each month, each handler (except a cooperative association) shall pay each producer for milk received from him during the preceding month, not less than an amount of money computed by multiplying the total pounds of such milk by the applicable uniform price(s) pursuant to § 960.61 or §§ 960.62 and 960.63, adjusted by the butterfat differential pursuant to § 960.74, and less any proper deductions authorized by the producer: *Provided*, That if by such date such handler has not received full payment for such month pursuant to § 960.73 he may reduce such payments uniformly per hundredweight for all producers, by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(b) (1) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the association, each handler shall (i) pay to the cooperative association on or before the 16th day of each month, in lieu of payments pursuant to paragraph (a) of this section an amount equal to the gross sum due for all milk received from certified members, less amounts owing by each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer and submit to the cooperative association written information which shows for each such member-producer (a) the total pounds of milk received from him during the preceding month, (b) the total pounds of butterfat contained in such milk, (c) the number of days on which milk was received, and (d) the amounts withheld by the handler in payment for supplies sold. The foregoing payment and submission of information shall be made with respect to milk of each producer whom the cooperative association certifies is a member, which is received on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association.

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler shall be made by written notice to the market administrator, and shall be subject to his determination.

§ 960.71 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made pursuant to §§ 960.72 and 960.77 and out of which he shall make all payments pursuant to §§ 960.73 and 960.77.

§ 960.72 *Payments to the producer-settlement fund.* On or before the 14th day of each month handlers shall make payments to the market administrator as follows:

(a) If the value of producer milk received by a handler in the preceding month as computed pursuant to § 960.60 exceeds the amount which such handler is required to pay all producers pursuant to § 960.70 such handler shall pay the difference between the two amounts.

(b) If, during the preceding month, the total receipts from all producers was 110 percent or more of the total Class I milk at pool plants, any handler who received other source milk during the preceding month which was allocated to Class I pursuant to § 960.46 (b) or § 960.47 shall pay an amount equal to the value of such milk at the Class I price less the value of such milk at the Class II price.

§ 960.73 *Payments out of the producer-settlement fund.* On or before the 16th day of each month, the market administrator shall pay to each handler any amount by which the sum required to be paid by such handler for the preceding month pursuant to § 960.70 is greater than the total value of the milk of such handler computed pursuant to § 960.60 for such preceding month less any unpaid obligations of the handler to the market administrator pursuant to §§ 960.72, 960.75, 960.76 (a), and 960.77 (a): *Provided*, That if the balance in the producer-settlement fund is insufficient to make payments to all handlers pursuant to this paragraph, the market administrator shall reduce such payments by a uniform amount per hundredweight of milk and shall complete such payments as soon as the necessary funds become available.

§ 960.74 *Producer butterfat differential.* In making payments pursuant to § 960.70, the uniform prices shall be adjusted for each one-tenth of one percent of butterfat content in the milk of each producer above or below 3.5 percent, as the case may be, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 960.52, weighted by the pounds of butterfat in producer milk in each class and rounded to the nearest tenth of a cent.

§ 960.75 *Expense of administration.* As his pro rata share of the expense incurred pursuant to § 960.22 (d), each handler shall pay the market administrator on or before the 16th day of each month 3 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe with respect to (a) all receipts within the preceding month of producer milk (including such handler's own production) and (b) all other source milk allocated to Class I pursuant to § 960.46 (b) and the corresponding portion of § 960.47.

§ 960.76 *Marketing services.* In making payments to producers or cooperative associations pursuant to § 960.70 a handler shall make deductions and dispose of amounts so deducted as follows:

(a) Except as set forth in paragraph (b) of this section a handler shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, with respect to all producer milk for which payment is being made pursuant to § 960.70 and shall pay the total amount of such deductions to the market administrator on or before the 16th day after the end of the month in which such producer milk was received. Such amount shall be expended by the market administrator to verify weights and tests of milk of producers and to provide producers with market information, such service to be performed by the market administrator or by an agent engaged by and responsible to him.

(b) Each association of producers which is actually performing the services described in paragraph (a) of this section, as determined by the Secretary, may file with a handler a claim for authorized deductions from the payments otherwise due to its producer members for milk delivered to such handler. Such claim shall contain a list of the producers for which such deductions apply, an agreement to indemnify the handler for the amount of any loss sustained by him because of any improper claim on the part of the association, and a certification that the association, and an unterminated membership contract with each producer, which contract authorizes the claim deduction. In making payments to producers for milk received during the month, each handler shall make deductions in accordance with the association's claim and shall pay the amount deducted within 16 days after the end of the month.

§ 960.77 *Errors in payments.* Whenever audit by the market administrator of any handler's reports, books, records or accounts discloses errors or whenever skim milk or butterfat is reclassified pursuant to § 960.43 resulting in monies due (a) the market administrator from such handler or such handler from the market administrator or (b) any producer or cooperative association from such handler pursuant to § 960.70 the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice. In computing amounts due pursuant to this section the class prices, the appropriate uniform price, the butterfat differential, the rate of administrative assessment pursuant to § 960.75, and the rate of marketing service deduction pursuant to § 960.76 which were applicable in the month for which the original calculation of amounts due were made shall be used.

§ 960.78 *Termination of obligation.* (a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator received the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notified the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association the name of such producers or association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books or records required by this subpart to be made available, the market administrator may, within the two-year period provided in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which milk involved in the claim was received if any underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within that applicable period of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 960.80 *Handler exemption.* A handler operating any plant specified below shall be exempted with respect to the milk received of such plant during the month from all provisions of this subpart except §§ 960.31, 960.32 and 960.33:

(a) A plant located outside the marketing area from which an average of less than 300 points (one point being defined as one-half pint of cream or one quart of any other Class I product) of Class I milk per day is disposed of during the month on a route(s) operated wholly or partly within the marketing area;

(b) A plant at which the Secretary finds is subject during the month to another Federal order; or

(c) A plant at which no milk approved by the health authorities of any community of the marketing area for consumption as fluid milk is received from dairy farmers and from which disposition of Class I milk in the marketing area is permitted only in portions of the marketing area for which no health authority exercises jurisdiction with respect to approval of milk for fluid consumption.

§ 960.81 *Producer-handler.* A producer-handler shall be exempt from all provisions of this subpart except that he shall make reports to the market administrator at such time and in such manner as the market administrator may request.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 960.90 *Effective time.* The provisions of this subpart, or any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated. The provisions of this section shall apply to any obligation under this subpart for the payment of money.

§ 960.91 *Suspension or termination.* Whenever the Secretary finds the subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act, he shall

terminate or suspend the operation of this order or any such provision of this subpart.

§ 960.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 960.93 *Liquidation.* Upon the suspension of the provisions of the subpart, except this section, the market administrator, or such other liquidation agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable and execute and deliver all assignments or other instrument necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidation agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 960.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 960.101 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid the application of such provisions, and the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 24th day of January 1957 to be effective on and after the 1st day of February 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[970.303, Amdt. 2]

PART 970—IRISH POTATOES GROWN IN MAINE

LIMITATION OF SHIPMENTS

Findings. (a) Pursuant to Marketing Agreement No. 122 and Order No. 70 (7 CFR Part 970), regulating the handling of Irish potatoes grown in Maine, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Maine Potato Marketing Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (1) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (2) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this amendment, (3) compliance with this amendment will not require any special preparation on the part of handlers which cannot be completed by the effective date, (4) reasonable time is permitted, under the circumstances, for such preparation, (5) information regarding the committee's recommendations has been made available to producers and handlers in the production area, and (6) this amendment relieves restrictions on the handling of potatoes grown in the production area.

Order, as amended. The provisions of § 970.303 (b), as amended (FEDERAL REGISTER, September 13, 1956, 21 F. R. 6911, 8232), are hereby amended to read as follows:

(b) *Order.* During the period from January 28, 1957, through July 13, 1957:

(1) No handler shall ship: (i) Potatoes of the round white or red skin varieties unless at least 90 percent of such potatoes are "Fairly clean" and such potatoes meet the requirements of the U. S. No. 1, or better, grade, 2¼ inches minimum diameter and 4 inches maximum diameter; or (ii) potatoes of the long varieties (including, but not being limited to, the Russet Burbank variety) unless such potatoes are "generally fairly clean to clean, mostly clean," which means that not less than 55 percent of such potatoes are clean and not more than 10 percent are slightly dirty, and such potatoes meet the requirements of (*a*) the U. S. No. 1, or better, grade, Size A, 2 inches minimum diameter or 4 ounces minimum weight, or (*b*) the U. S. No. 2 or U. S. Commercial grade, 5 ounces minimum weight.

(2) No handler shall ship potatoes for chipping unless the potatoes meet the requirements of the U. S. No. 1, or better, grade, 2 inches minimum diameter and 4 inches maximum diameter, except that U. S. No. 1, Size B, potatoes may also be shipped. All such shipments are subject to the additional requirements of subparagraph (7) of this paragraph.

(3) No handler shall ship potatoes for processing into potato salad, fish cakes, or hash unless such potatoes grade 85 percent U. S. No. 1, or better, 1½ inches minimum diameter and 2¼ inches maximum diameter. All such shipments are subject to the additional requirements of subparagraph (7) of this paragraph.

(4) No handler shall ship potatoes for export unless such potatoes meet the requirements of the U. S. No. 1 grade. All such shipments are subject to the additional requirements of subparagraph (7) of this paragraph.

(5) Pursuant to § 970.54, each handler may ship not in excess of thirty (30) hundredweight of potatoes per week free from regulations effective pursuant to §§ 970.45 and 970.65: *Provided,* That handlers making such shipments report such shipments to the administrative committee on the 16th and last day of each month.

(6) The limitations set forth in subparagraph (1) of this paragraph shall not be applicable to shipments of certified seed potatoes or to shipments of potatoes for the following purposes: (i) for grading or storing in the production area; (ii) for planting within the production area; (iii) for dehydration; (iv) for manufacture or conversion into starch, flour, or alcohol; (v) for canning or freezing; (vi) for livestock feed; (vii) for distribution by the Federal Government; and (viii) for charitable purposes.

(7) Each handler making shipments of potatoes for export, dehydration, potato chipping, potato salad, fish cakes, hash, livestock feed, canning or freezing, or charitable purposes shall: (i) File an application pursuant to §§ 970.56 and 970.130 with the administrative committee for a Certificate of Privilege for such shipments; (ii) pay assessments pursuant to § 970.45 with respect to the shipments of certified seed potatoes; and (iii) pay assessments pursuant to § 970.45 and have inspection pursuant to § 970.65 with respect to each shipment for export, potato chipping, potato salad, fish cakes, hash, distribution by the Federal Government, and for charitable purposes. Further, each handler who ships potatoes for export, potato chipping, potato salad, fish cakes, hash, dehydration, canning or freezing, livestock feed, distribution by the Federal Government, or charitable purposes shall furnish a record of such shipments to the administrative committee. In addition, each application for a Certificate of Privilege to ship potatoes for export, potato chipping, potato salad, fish cakes, hash, dehydration, canning or freezing, or charitable purposes shall be accompanied by the applicant handler's certification and the buyer's or receiver's certification that the potatoes to be shipped for the purpose stated in the application are to be used for such purpose. The buyer's or receiver's certification may, however, be furnished to the administrative committee within ten days from the date of shipment by said applicant handler. Handlers making shipments of potatoes for export to Canada may furnish the administrative committee with a copy of the Freight Delivery Receipt issued by Canadian customs officials upon entry of such shipment into Canada in lieu of the buyer's or receiver's certification required in this subparagraph. Each handler who applies for a Certificate of Privilege to ship potatoes for chipping shall at the same time or at such time subsequent thereto as the Maine Potato Administrative Committee may require, provide the administrative committee with appropriate evidence that such potatoes were, or are being, treated and conditioned for use for potato chipping and that such potatoes, except for damage resulting from shriveling or sprouting, meet the applicable grade and size requirements set forth in subparagraph (2) of this paragraph. The limitations set forth in this subparagraph shall not apply to shipments of potatoes of less than 15,000 pounds for canning or freezing, for dehydration, or for livestock feed when shipped in barrels, in bulk, or in unsewn 100-pound burlap bags within the production area.

(8) No handler shall ship potatoes under a Certificate of Exemption issued pursuant to §§ 970.70 through 970.75 and which are exempted from the grade and size limitations set forth in subparagraph (1) of this paragraph, unless such potatoes are packed in 50-pound or larger packs.

(9) No handler shall ship any potatoes for which inspection is required unless an appropriate inspection certificate had been issued with respect thereto and the certificate is valid at the time of shipment. For purposes of operation under this part, each inspection certificate is hereby determined, pursuant to paragraph (c) of § 970.65, to be valid for a period not to exceed 48 hours following completion of inspection as shown in the certificate.

(10) The term "fairly clean" and the grades and sizes used in this section shall have the same meanings assigned these terms in the United States Standards for Potatoes (§§ 51.1540 to 51.1559 of this title), including the tolerances set forth therein; and all other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 122 and Order No. 70 (§§ 970.1 to 970.92).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: January 24, 1957, to become effective January 28, 1957.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

[Docket No. AO-177-A17]

PART 972—MILK IN TRI-STATE MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 972.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR, Part 900), a public hearing was held upon a proposed marketing agreement and certain proposed amendments to the order, as amended, regulating the handling of milk in the Tri-State marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which hearings have been held;

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this order amending the order, as amended, effective February 1, 1957. Such action is necessary in the public interest in order to reflect current marketing conditions and to insure the production of an adequate supply of milk for the Tri-State marketing area. Any delay beyond February 1, 1957, in the effective date of this order will tend to affect adversely the production of an adequate supply of milk for the Tri-State marketing area.

The changes effected by this order amending the order, as amended, do not require of persons affected substantial or extensive changes prior to the effective date. The provisions of the said order are well known to handlers, the public hearing having been held on August 15-16, 1956, the recommended decision having been issued on December 7, 1956 (21 F. R. 9908), and the final decision having been issued on January 17, 1957. Therefore, reasonable time, under the circumstances, has been afforded persons affected to prepare for its effective date and it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER.

In view of the foregoing, it is hereby found that good cause exists for making this order amending the order, as amended, effective February 1, 1957 (section 4 (c), Administrative Procedure Act, 5 U. S. C. 1003 (c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended) of more than 50 percent of the volume of milk covered by this order amending the order, as amended, which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

1. The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

2. This issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

3. The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the representative period (October 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Tri-State marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order as amended, and as hereby further amended, and the aforesaid order as amended, is hereby further amended as follows:

1. In § 972.34 (c), add subparagraph (3) as follows:

(3) The quantity of milk received from producers at such supply plant during the current month.

2. Delete § 972.41 (a), and substitute the following:

(a) Add the following amounts for the months indicated:

	February, March, and August	April, May, June, and July	September, October, November, December, and January
Huntington district plants	$1.55	$1.10	$2.00
Gallipolis-Scioto district plants	1.45	1.00	1.90
Athens district plants	1.35	.90	1.80

3. Delete the table in § 972.41 (b) (2), and substitute the following:

Month for which price is being computed	Base utilization percentages	
	Minimum	Maximum
January	103	107
February	103	107
March	99	103
April	95	99
May	93	97
June	87	91
July	77	81
August	68	72
September	64	68
October	68	72
November	79	83
December	94	98

4. Delete § 972.48 and substitute the following:

§ 972.48 *Location adjustment credits to handlers.* The price for Class I milk at a fluid milk plant or supply plant located outside the marketing area and more than 45 miles from the nearest of the following listed places, shall be, regardless of point of sale within or outside the marketing area, the same as the price for Class I milk (§ 972.41) for the district of the marketing area in which such nearest listed place is located, less a location adjustment computed as follows: 2 cents per hundredweight for each 10 miles, or major fraction thereof, up to 100 miles, and 1.5 cents per hundredweight for each 10 miles, or major fraction thereof, in excess of 100 miles, by the shortest hard-surfaced highway distance as determined by the market administrator, from such fluid milk plant to such nearest listed place:

City Hall, Huntington, W. Va.
City Hall, Ashland, Ky.
City Hall, Portsmouth, Ohio.
City Hall, Jackson, Ohio.
City Hall, Athens, Ohio.
City Hall, Marietta, Ohio.
City Hall, Gallipolis, Ohio.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of January 1957, to be effective on and after the 1st day of February 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[Docket No. AO-183-A5]

PART 977—MILK IN PADUCAH, KENTUCKY, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 977.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order, and of the previously issued amendments thereto; and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Paducah, Kentucky, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act:

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expense, 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as the Secretary may prescribe with respect to all skim milk and butterfat contained in (a) producer milk, (b) other source milk (except other source milk which was subject to the Class I pricing provisions of another order issued pursuant to the act) which is allocated to Class I, or (c) Class I milk distributed in the marketing area from a nonpool plant not partially exempt from the provisions of this order pursuant to § 977.61.

(b) *Additional findings.* It is necessary, in the public interest, to make this order amending the order, as amended, effective not later than February 1, 1957, so as to reflect current marketing conditions. Any delay beyond February 1, 1957, in the effective date of this order amending the order, as amended, will impair the orderly marketing of milk in the Paducah, Kentucky, marketing area. The changes effected by this order amending the order, as amended, do not require of persons affected, substantial or extensive preparation prior to the effective date. The provisions of said order are well known to handlers.

In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective February 1, 1957, and that it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order 30 days after its publication in the FEDERAL REGISTER (section 4 (c), Administrative Procedure Act 5, U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Paducah, Kentucky, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum and who, during the determined representative period (October 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Paducah, Kentucky, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as set forth below:

1. Delete § 977.5 and substitute therefor the following:

§ 977.5 *Paducah, Kentucky, marketing area.* "Paducah, Kentucky, marketing area," hereinafter called the "marketing area" means all the territory within the boundaries of the Kentucky Counties of McCracken, Ballard, Marshall, Graves, and Calloway.

2. Delete § 977.11 and substitute therefor the following:

§ 977.11 *Producer.* "Producer" means any person, except a producer-handler, who produces milk under a Grade A dairy farm permit or rating issued by a duly constituted health authority, which milk is delivered from the farm to a pool plant or diverted from a pool plant to a nonpool plant for the account of a handler: *Provided*, That for any of the delivery periods of September through January no milk so diverted shall be deemed to have been so received at a pool plant from a producer if production of more than 10 days is diverted to a nonpool plant during such delivery period.

3. Delete § 977.45 (c) and substitute therefor the following:

§ 977.46 *Determination of producer milk in each class.* For each class, add the pounds of skim milk and the pounds of butterfat allocated to producer milk, pursuant to § 977.45, and determine the percentage of butterfat in the producer milk allocated to each class.

4. Delete that part of § 977.53 previous to "Provided" and substitute therefor the following:

§ 977.53 *Location differentials to handlers.* For that milk which is received from producers at a plant located 40 miles or more from the nearest County Courthouse in either Graves or McCracken County, by shortest hard-surfaced highway distance, as determined by the market administrator, and which is classified as Class I milk, the price specified in § 977.51 (a) shall be reduced according to the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from nearest County Courthouse (miles):	Rate (cents)
40 but less than 50	7.5
For each additional 10 miles or fraction thereof an additional	1.5

5. Delete § 977.62 and substitute therefor the following:

§ 977.62 *Handlers operating nonpool plants.* Each handler who operates a nonpool plant during a month shall, in lieu of the payments required pursuant to § 977.80 through § 977.86, pay to the market administrator, for the producer-settlement fund, on or before the 25th day after the end of such month, the amount resulting from the computation of either paragraph (a) or paragraph (b) of this section, whichever is less:

(a) The product of the quantity of milk received by such handler which was disposed of in the marketing area on routes as Class I milk during the month multiplied by the difference between the price for Class I milk pursuant to § 977.51 (a) and the price for Class II milk pursuant to § 977.51 (b) during the months of April through July, and the difference between the price for Class I milk pursuant to § 977.51 (a) and the uniform price pursuant to § 977.71 during the months of August through March.

(b) Any plus amount resulting from the following computation: Divide an amount equal to the net pool obligation which would be computed pursuant to § 977.70 for such handler for such month if such handler operated a pool plant by the hundredweight of milk received from approved dairy farmers; deduct the payments per hundredweight of milk made by such handler to approved dairy farmers for milk received during such month: *Provided*, That if such handler has paid dairy farmers by more than one rate, the payments to approved dairy farmers shall be computed at the lowest rates paid for a volume of milk equal to the volume disposed of in the marketing area.

6. Amend § 977.70 (b) (1) by deleting "March" and substituting therefor "April"; and § 977.70 (b) (2) by deleting "February" and substituting therefor "March".

7. In § 977.80 change the period at the close of paragraph (b) to a colon and add the following: "*Provided*, That the proper deductions referred to in paragraphs (a) (1) and (2) (iv) of this section shall be valid in the case of cooperative members only if authorized in writing by such cooperative."

8. Delete § 977.86 and substitute therefor the following:

§ 977.86 *Location differentials to producers.* In making payments for milk received from producers pursuant to § 977.80, the uniform price per hundredweight shall be reduced by the rate set forth in the following schedule according to the shortest hard surfaced highway distance, as determined by the market administrator, from the plant where the milk is received from producers or from which the milk is diverted, to the nearest County Courthouse in either Graves or McCracken County:

Distance from nearest County Courthouse (miles):	Rate (cents)
40 but less than 50	7.5
For each additional 10 miles or fraction thereof an additional	1.5

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of January 1957, to be effective on and after February 1, 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 57-664; Filed, Jan. 28, 1957; 8:51 a. m.]

[Docket No. AO-179-A15]

PART 975—MILK IN CLEVELAND, OHIO, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 975.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Cleveland, Ohio, during October 10-12, 1956, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cleveland, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest, to make this order amending the order, effective not later than February 1, 1957. Any delay beyond that date in making this order amending the order effective will tend to disrupt the orderly marketing of milk in the Cleveland, Ohio, marketing area. The changes effected by this order amending the order do not require persons affected to make substantial or extensive preparation prior to the effective date. Proposed amendments which would result in changes similar to those effected by this order amending the order were considered at a public hearing held during October 10-12, 1956; a recommended decision in this proceeding, to which interested parties were given an opportunity to file written exceptions, was issued on January 2, 1957, and a final decision was issued on January 17, 1957. Under these circumstances persons affected by this order amending the order have been afforded a reasonable time within which to prepare for its effective date. Therefore, good cause exists, pursuant to section 4 (c) of the Administrative Procedures Act (5 U. S. C. 1001 et seq.), for making this order amending the order effective February 1, 1957.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, which is marketed within the Cleveland, Ohio, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of

milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two thirds of the producers who participated in a referendum and who, during the determined representative period (October 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Cleveland, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 975.30 (b) following the phrase "such plant shall" delete the words "upon written application to the market administrator on or before January 31 of any year" and substitute therefor "unless written advice to the contrary is furnished the market administrator on or before January 31".

2. Add the following as § 975.52 (c):

(c) Where producer milk is transferred in bulk from a pool plant to the pool plant of another handler, and the operators of such plants have so requested the market administrator in writing prior to the delivery period within which the transfer occurred, the maximum allowance for shrinkage pursuant to § 975.51 (c) (3) with respect to such milk shall be divided equally between the transferor and transferee plants.

3. Delete § 975.61 and substitute therefor the following:

§ 975.61 *Class I milk prices.* The respective minimum prices per hundredweight to be paid by each handler, f. o. b. his plant for milk received from producers or from a pool plant of a cooperative association, during the delivery period which is classified as Class I milk, shall be as follows as computed by the market administrator:

(a) Add to the basic formula price the following amount for the period indicated:

Delivery period:	*Amount*
February through July	$1.40
All others	1.85

(b) Add or subtract a "supply-demand adjustment" computed as follows:

(1) With respect to receipts and utilization of the Cleveland and Akron-Stark County, Ohio, marketing areas during the first and second months preceding the delivery period, combine into separate totals:

(i) The total quantity of milk received from producers defined in § 975.8 and § 960.7 of the order regulating the handling of milk in the Akron-Stark County, Ohio, marketing area; and

(ii) The gross quantity of milk utilized as Class I at pool plants pursuant to § 975.30 and to § 960.5 of this chapter, exclusive of interhandler and intermarket transfers between such plants.

(2) Divide the result obtained in subparagraph (1) (i) of this paragraph by that obtained in subparagraph (1) (ii) of this paragraph, multiply by 100, and round to the nearest whole number. This result shall be known as the "current utilization percentage."

(3) Compute a "deviation percentage" by subtracting from the current utilization percentage computed in subparagraph (2) of this paragraph the "standard utilization percentage" shown below:

Month for which the price is being computed:	*Standard utilization percentage*
January	123
February	126
March	129
April	132
May	135
June	144
July	149
August	144
September	131
October	125
November	123
December	122

(4) Determine the amount of the supply-demand adjustment from the following schedule:

Deviation percentage:	*Amount of supply-demand adjustment (cents)*
+13 or over	−25
+10 or +11	−19
+7 or +8	−13
+4 or +5	−7
+2 or −2	0
−4 or −5	+7
−7 or −8	+13
−10 or −11	+19
−13 or below	+25

When the deviation percentage does not fall within the tabulated brackets, the adjustment shall be determined by the adjacent bracket which is the same as or nearest to the bracket used in the previous month.

4. Effective July 1, 1957, delete § 975.66 and substitute therefor the following:

§ 975.66 *Quota rules.* (a) Except as provided in paragraph (b) of this section, an eligible milk quota shall apply to deliveries of milk by the producer for whose account that milk was delivered to a handler(s) during the quota forming period;

(b) A daily quota may be transferred during the period of April through June by notifying the market administrator in writing before the first day of any delivery period that such quota is to be transferred to the person named in such notice, but under the following conditions only:

(1) In the event of the death of a producer, the entire daily quota may be transferred to a member of such producer's immediate family who carries on the dairy operation on the same farm;

(2) If a quota is held jointly and such joint holding is terminated on the basis of written notice to the market administrator from the joint holders, the entire daily quota may be transferred to one of the joint holders, or divided in accordance with such notice between the former joint holders if they continue dairy farm operations.

5. Delete § 975.71 and substitute therefor the following:

§ 975.71 *Location adjustment to handlers.* In computing the value of such quantities of milk as are received at a pool plant located 40 miles or more, by the shortest highway distance from the Public Square in Cleveland, Ohio, as determined by the market administrator, and classified as Class I or Class II milk, there shall be deducted:

(a) 13 cents per hundredweight, if such distance is more than 40 miles but not more than 60 miles; and

(b) 20 cents per hundredweight, if such distance is more than 60 miles but not more than 74 miles, and 2 cents per hundredweight additional for each 14 miles or fraction thereof in excess of 74 miles.

(c) For the purpose of determining the respective quantities of Class I and Class II milk subject to the location adjustment, each pool handler's utilization of Class I and Class II milk during the month at pool plants as defined in § 975.30 (a) shall be allocated first to receipts of milk from producers' farms at such plants and then to the receipts of producer milk from pool plants as defined in § 975.30 (b) in the order of their nearness to the Public Square in Cleveland, Ohio, by shortest highway distance as determined by the market administrator.

6. In § 975.73 (c) delete "§ 975.81 (b)" and substitute therefor "§ 975.81".

7. In § 975.75 (a) delete "§ 975.73 (a) through (c)" and substitute therefor "§ 975.73 (a) through (e)".

8. In § 975.81 (a) delete "30 miles" and substitute therefor "40 miles".

(Sec. 5, 49 Stat. 753 as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of January 1957, to be effective on and after February 1, 1957, with respect to all amendments other than that to § 975.66 (numbered 4 herein) which shall be effective on and after July 1, 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 57-663; Filed, Jan. 28, 1957; 8:51 a. m.]

TITLE 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 20—STANDARDS FOR PROTECTION AGAINST RADIATION

In July 1955 the Commission issued for public comment a proposed regulation to establish general standards for protection of licensees, their employees, and the public against radiation hazards arising out of the possession or use of special nuclear, source, or byproduct material under license issued by AEC. In preparing the effective regulation published below, the Commission has had

the benefit of numerous comments and suggestions received since publication of the proposed rules. A number of changes suggested by those comments have been incorporated in the following regulation.

The regulation establishes standards which must be followed in handling radioactive materials which are subject to the licensing authority of the Commission and provides procedures whereby deviations from such standards may be authorized on a case-to-case basis. The regulation prescribes limits which govern exposure of personnel to radiation and concentrations of radioactive material, concentrations of radioactive material which may be discharged into air and water, and disposal of radioactive wastes. It also establishes certain precautionary procedures and administrative controls.

The standards established by this regulation will be found to agree substantially with those published by the National Committee on Radiation Protection in N. B. S. Handbook 52 "Maximum Permissible Amounts of Radioisotopes in the Human Body and Maximum Permissible Concentrations in Air and Water," and N. B. S. Handbook 59 "Permissible Dose from External Sources of Ionizing Radiation." The National Committee on Radiation Protection has under review recommendations to limit cumulative exposures over periods of years. The Commission is giving consideration to appropriate amendments to its regulations to deal with this cumulative exposure problem.

Limitations upon levels of radiation and concentrations of radioactive material in areas affected by but not controlled by the licensee are contained principally in § 20.102 ("Permissible Levels of Radiation in Unrestricted Areas"), § 20.103 ("Concentrations in Effluents to Unrestricted Areas"), and the sections on waste disposal. The sections are designed to assure that individuals in "unrestricted areas" do not receive exposure in excess of 10 percent of the limits established for persons exposed in restricted areas. For this purpose, the sections limit levels of radiation and concentrations of radioactive material which may be created in unrestricted areas by licensees, without special authorization from the AEC, to extremely low levels. These levels are believed to be sufficiently low to assure that there is no reasonable probability of individuals in unrestricted areas receiving exposures in excess of 10 percent of the permissible levels for restricted areas. Procedures are incorporated in those sections, however, under which the Commission may authorize licensees in specific cases to create higher levels in unrestricted areas where the circumstances of the particular case are such as to provide reasonable assurance that individuals in the unrestricted areas will not receive exposures in excess of 10 percent of the limitation established for restricted areas.

It is believed that the standards incorporated in these regulations provide, in accordance with present knowledge, a very substantial margin of safety for exposed individuals. It is believed also that the standards are practical from the standpoint of licensees. It should be emphasized that the standards are subject to change with the development of new knowledge, with significant increase in the average exposure of the whole population to radiation, and with further experience in the administration of the Commission's regulatory program.

Pursuant to the Administrative Procedures Act, Public Law 404, 79th Congress, 2d Session, the following rules are published as a document subject to codification to be effective 30 days after publication in the FEDERAL REGISTER.

GENERAL PROVISIONS

Sec.
20.1 Purpose.
20.2 Scope.
20.3 Definitions.
20.4 Units of radiation dose.
20.5 Units of radioactivity.
20.6 Interpretations.
20.7 Communications.

PERMISSIBLE DOSES, LEVELS, AND CONCENTRATIONS

20.101 Exposure of individuals in restricted areas.
20.102 Permissible levels of radiation in unrestricted areas.
20.103 Concentrations in effluents to unrestricted areas.
20.104 Medical diagnosis, therapy, and research.
20.105 Measures to be taken after excessive exposures.

PRECAUTIONARY PROCEDURES

20.201 Surveys.
20.202 Personnel monitoring.
20.203 Caution signs, labels, and signals.
20.204 Exceptions from posting requirements.
20.205 Exemptions for radioactive materials packaged for shipment.
20.206 Instruction of personnel.
20.207 Storage of licensed material.

WASTE DISPOSAL

20.301 General requirement.
20.302 Method for obtaining approval of proposed disposal procedures.
20.303 Disposal by release into sanitary sewerage systems.
20.304 Disposal by burial in soil.

RECORDS, REPORTS, AND NOTIFICATION

20.401 Records of surveys, radiation monitoring, and disposal.
20.402 Reports of theft or loss of licensed material.

EXCEPTIONS AND ADDITIONAL REQUIREMENTS

20.501 Applications for exemptions.
20.502 Additional requirements.

ENFORCEMENT

20.601 Violations.

AUTHORITY: §§ 20.1 to 20.601 issued under sec. 161 (b), 68 Stat 948, 42 U. S. C. 2201.

GENERAL PROVISIONS

§ 20.1 *Purpose.* (a) The regulations in this part establish standards for protection against radiation hazards arising out of activities under licenses issued by the Atomic Energy Commission and are issued pursuant to the Atomic Energy Act of 1954 (68 Stat. 919).

(b) The use of radioactive material or other sources of radiation not licensed by the Commission is not subject to the regulations in this part. However, it is the purpose of the regulations in this part to control the possession, use, and transfer of licensed material by any licensee in such a manner that exposure to such material and to radiation from such material, when added to exposures to unlicensed radioactive material and to other unlicensed sources of radiation in the possession of the licensee, and to radiation therefrom, does not exceed the standards of radiation protection prescribed in the regulations in this part.

§ 20.2 *Scope.* The regulations in this part apply to all persons who receive, possess, use or transfer byproduct material, source material, or special nuclear material under a general or specific license issued by the Commission pursuant to the regulations in Part 30, 40, or 70 of this chapter.

§ 20.3 *Definitions.* (a) As used in this part:

(1) "Act" means the Atomic Energy Act of 1954 (68 Stat. 919) including any amendments thereto;

(2) "Airborne radioactive material" means any radioactive material dispersed in the air in the form of dusts, fumes, mists, vapors, or gases;

(3) "Byproduct material" means any radioactive material (except special nuclear material) yielded in or made radioactive by exposure to the radiation incident to the process of producing or utilizing special nuclear material;

(4) "Commission" means the Atomic Energy Commission or its duly authorized representatives;

(5) "Government agency" means any executive department, commission, independent establishment, corporation, wholly or partly owned by the United States of America which is an instrumentality of the United States, or any board, bureau, division, service, office, officer, authority, administration, or other establishment in the executive branch of the Government;

(6) "Individual" means any human being;

(7) "Licensed material" means source material, special nuclear material, or byproduct material received, possessed, used, or transferred under a general or specific license issued by the Commission pursuant to the regulations in this chapter;

(8) "License" means a license issued under the regulations in Part 30, 40, or 70 of this chapter. "Licensee" means the holder of such license;

(9) "Person" means (i) any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, Government agency other than the Commission, any State, any foreign government or nation or any political subdivision of any such government or nations, or other entity; and (ii) any legal successor, representative, agent, or agency of the foregoing;

(10) "Radiation" means any or all of the following: alpha rays, beta rays, gamma rays, X-rays, neutrons, high-speed electrons, high-speed protons, and other atomic particles; but not sound or radio waves, or visible, infrared, or ultraviolet light;

(11) "Radioactive material" includes any such material whether or not subject to licensing control by the Commission;

(12) "Restricted area" means any area access to which is controlled by the licensee. "Restricted area" shall not include any areas used as residential quarters, although a separate room or rooms in a residential building may be set apart as a restricted area;

(13) "Source material" means any material except special nuclear material, which contains by weight one-twentieth of one percent (0.05 percent or more of (i) uranium, (ii) thorium, or (iii) any combination thereof;

(14) "Special nuclear material" means (i) plutonium, uranium 233, uranium enriched in the isotope 233 or in the isotope 235, and any other material which the Commission, pursuant to the provisions of section 51 of the act, determines to be special nuclear material, but does not include source material; or (ii) any material artificially enriched by any of the foregoing but does not include source material;

(15) "Unrestricted area" means any area entry into which is not controlled by the licensee, and any area used for residential quarters.

(b) Definitions of certain other words and phrases as used in this part are set forth in other sections, including:

(1) "Airborne radioactivity area" defined in § 20.203;

(2) "Radiation area" and "high radiation area" defined in § 20.202;

(3) "Personnel monitoring equipment" defined in § 20.202;

(4) "Survey" defined in § 20.201;

(5) Units of measurement of dose (rad, rem) defined in § 20.4;

(6) Units of measurement of radioactivity defined in § 20.5.

§ 20.4 *Units of radiation dose.* (a) "Dose," as used in this part, is the quantity of radiation absorbed, per unit of mass, by the body or by any portion of the body. When the regulations in this part specify a dose during a period of time, the dose means the total quantity of radiation absorbed, per unit of mass, by the body or by any portion of the body during such period of time. Several different units of dose are in current use. Definitions of units as used in this part are set forth in paragraphs (b) and (c) of this section.

(b) The rad, as used in this part, is a measure of the dose of any ionizing radiation to body tissues in terms of the energy absorbed per unit mass of the tissue. One rad is the dose corresponding to the absorption of 100 ergs per gram of tissue. (One millirad (mrad) = 0.001 rad.)

(c) The rem, as used in this part, is a measure of the dose of any ionizing radiation to body tissue in terms of its estimated biological effect relative to a dose of one roentgen (r) of X-rays. (One millirem (mrem) = 0.001 rem.) The relation of the rem to other dose units depends upon the biological effect under consideration and upon the conditions of irradiation. For the purpose of the regulations in this part, any of the following is considered to be equivalent to a dose of one rem:

(1) A dose of 1 r due to X— or gamma radiation;

(2) A dose of 1 rad due to X—, gamma, or beta radiation;

(3) A dose of 0.1 rad due to neutrons or high energy protons;

(4) A dose of 0.05 rad due to particles heavier than protons and with sufficient energy to reach the lens of the eye;

If it is more convenient to measure the neutron flux, or equivalent, than to determine the neutron dose in rads, as provided in subparagraph (3) of this paragraph, one rem of neutron radiation may, for purposes of the regulations in this part, be assumed to be equivalent to 14 million neutrons per square centimeter incident upon the body; or, if there exists sufficient information to estimate with reasonable accuracy the approximate distribution in energy of the neutrons, the incident number of neutrons per square centimeter equivalent to one rem may be estimated from the following table:

Neutron energy	Number of neutrons per square centimeter equivalent to a dose of 1 rem
Thermal	960×10^6
0.0001 mev	480×10^6
0.01 mev	480×10^6
0.1 mev	96×10^6
0.5 mev	38×10^6
1 mev	29×10^6
2 mev	19×10^6
3 mev. and higher	14×10^6

§ 20.5 *Units of radioactivity.* (a) Radioactivity is commonly, and for purposes of the regulations in this part shall be, measured in terms of disintegrations per unit time or in curies. One curie (c) = 3.7×10^{10} disintegrations per second (dps) = 2.2×10^{12} disintegrations per minute (dpm). A commonly used submultiple of the curie is the microcurie (μc). One μc = 0.000001 c = 3.7×10^4 dps = 2.2×10^6 dpm.

NOTE: Many radioisotopes disintegrate into isotopes which are also radioactive. In expressing maximum permissible concentrations in air and water of these materials, as in Appendix B of this part, the activity stated is that of the parent isotope. In some cases, the fact that daughter products may contribute to the total dose has been taken into account in the determination of the maximum permissible concentration of the parent isotopes. In the tables of Appendix B of this part this is indicated by writing $Ba^{140}+La^{140}$, $Sr^{90}+Y^{90}$, $Rn^{222}+dr$, $Ra^{226}+\frac{1}{2}$ dr, etc.

EXAMPLE. In Column 1, Table I, Appendix B the maximum permissible concentration of Ba^{140} in air for occupational use is $2+10^{-7}\mu c/ml$. This is the maximum permissible concentration regardless of whether or not any of the La^{140} which may have resulted from the decay of the Ba^{140} is present or not. However, the value given for BA^{140} is less than it would be if La^{140} were a stable isotope, not only because of the possibility of La^{140} in the air but principally because, if the Ba^{140} is inhaled, its radioactive decay in the body will result in the production of La^{140} in the body.

(b) *Radon.* Airborne radioactivity of radon and its decay products may be determined by measurement of the activity of one or more decay products on dust filtered from the air. For purposes of the regulations in this part, the limit prescribed here will be considered to be met if the measured radioactivity of one or more decay products (for example, RaC') does not exceed that which would result from the occurrence, at the time of sampling, of 1×10^{-7} microcuries, per milliliter of air, of Rn^{222} and each of its short-lived decay products, RaA, RaB, RaC, and RaC'. For this purpose, due allowance shall be made for changes in the radioactivity of the measured decay products from time of sampling through the period of measurement.

(c) *Natural uranium and natural thorium.* Natural uranium and natural thorium occur as mixtures of isotopes of the respective elements. In the case of uranium or of thorium, the number of microcuries shall be determined by dividing the total rate, in dpm, of alpha emissions from the mixture by 2.2×10^6 dpm per μ c.

§ 20.6 *Interpretations.* Except as specifically authorized by the Commission in writing, no interpretation of the meaning of the regulations in this part by any officer or employee of the Commission other than a written interpretation by the General Counsel will be recognized to be binding upon the Commission.

§ 20.7 *Communications.* All communications and reports concerning the regulations in this part, and applications filed under them, should be addressed to the Atomic Energy Commission, 1901 Constitution Avenue NW., Washington 25, D. C., Attention: Division of Civilian Application.

PERMISSIBLE DOSES, LEVELS, AND CONCENTRATIONS

§ 20.101 *Exposure of individuals in restricted areas*—(a) *Exposure to radiation.* (1) Except as provided in subparagraph (2) of this paragraph, no licensee shall possess, use, or transfer licensed material in such a manner as to cause any individual in a restricted area to receive in any period of seven consecutive days from radioactive material and other sources of radiation in the licensee's possession a dose in excess of the limits specified in Appendix A of this part.

(2) A licensee may permit an individual in a restricted area to receive a dose in excess of the limits established in subparagraph (1) of this paragraph: *Provided,* (i) That the dose during any period of 7 consecutive days does not exceed three times the limits specified in Appendix A of this part, and (ii) that the dose during any period of 13 consecutive weeks does not exceed 10 times the limits specified in Appendix A of this part.

(b) No licensee shall possess, use or transfer licensed material in such a manner as to cause any individual in a restricted area to be exposed to airborne radioactive material possessed by the licensee in an average concentration in excess of the limits specified in Appendix B, Table I, of this part.

The limits given in Appendix B, Table I of this part, are based upon exposure to the concentrations specified for forty hours in any period of seven consecutive days. In any such period where the number of hours of exposure is less than forty, the limits specified in the table may be increased proportionately. In any such period, where the number of hours of exposure is greater than forty, the limits specified in the table shall be decreased proportionately.

(c) *Exposure of minors.* No licensee shall possess, use, or transfer licensed material in such a manner as to cause any individual under 18 years of age within a restricted area to receive in any period of seven consecutive days from radioactive material and other sources of radiation in the licensee's possession a dose in excess of 10 percent of the limits specified in Appendix A of this part, or to be exposed to airborne radioactive material possessed by the licensee in a concentration in excess of the limits specified in Appendix B, Table II, of this part. For purposes of this paragraph, concentrations may be averaged over periods not greater than a week.

§ 20.102 *Permissible levels of radiation in unrestricted areas.* (a) There may be included in any application for a license or for amendment of a license proposed limits upon levels of radiation in unrestricted areas resulting from the applicant's possession or use of radioactive material and other sources of radiation. Such applications should include information as to anticipated average radiation levels and anticipated occupancy times for each unrestricted area involved. The Commission will approve the proposed limits if the applicant demonstrates that the proposed limits are not likely to cause any individual to receive a dose in any period of seven consecutive days in excess of 10 percent of the limits specified in Appendix A of this part.

(b) Except as authorized by the Commission pursuant to paragraph (a) of this section, no licensee shall possess, use, or transfer licensed material in such a manner as to create in any unrestricted area from radioactive material and other sources of radiation in his possession:

(1) Radiation levels which, if an individual were continuously present in the area, could result in his receiving a dose in excess of two millirems in any one hour, or

(2) Radiation levels which, if an individual were continuously present in the area, could result in his receiving a dose in excess of 100 millirems in any seven consecutive days.

§ 20.103 *Concentrations in effluents to unrestricted areas.* (a) There may be included in any application for a license or for amendment of a license proposed limits upon concentrations of licensed and other radioactive material released into air or water in unrestricted areas as a result of the applicant's proposed activities. Such applications should include information as to anticipated average concentrations and anticipated occupancy times for each unrestricted area involved. The Commission will approve the proposed limits if the applicant demonstrates that it is not likely that any individual will be exposed to concentrations in excess of the limits specified in Appendix B, Table II, of this part. For purposes of this paragraph, concentrations may be averaged over periods not greater than one year.

(b) Except as authorized by the Commission pursuant to § 20.302 or paragraph (a) of this section, no licensee shall possess, use, or transfer licensed material in such a manner as to release into air or water in any unrestricted area any concentration of radioactive material in excess of the limits specified in Appendix B, Table II of this part. For purposes of this paragraph, concentrations may be averaged over periods not greater than one year.

(c) For purposes of this section, determinations as to the concentration of radioactive material shall be made with respect to the point where such material leaves the restricted area. Where the radioactive material leaves the restricted area in a stack, tube, pipe, or similar conduit, the determination may be made with respect to the point where the material leaves such conduit.

(d) The provisions of this section do not apply to disposal of radioactive material into sanitary sewerage systems (see § 20.303).

§ 20.104 *Medical diagnosis, therapy, and research.* Nothing in the regulations in this part shall be interpreted as limiting the intentional exposure of patients to radiation for the purpose of medical diagnosis or medical therapy.

§ 20.105 *Measures to be taken after excessive exposures.* In the event that any individual in a restricted area receives a dose or is exposed to concentrations of radioactive material in excess of the permissible limits established in § 20.101, the licensee shall limit the weekly dose or exposure of the individual to 10 percent of such permissible limit until such time as the average weekly dose or exposure to the individual for the period beginning with the week in which the excessive dose or exposure occurred is less than the permissible limit established in § 20.101.

PRECAUTIONARY PROCEDURES

§ 20.201 *Surveys.* (a) As used in the regulations in this part, "survey" means an evaluation of the radiation hazards incident to the production, use, release, disposal, or presence of radioactive materials or other sources of radiation under a specific set of conditions. When appropriate, such evaluation includes a physical survey of the location of materials and equipment, and measurements of levels of radiation or concentrations of radioactive material present.

(b) Each licensee shall make or cause to be made such surveys as may be necessary for him to comply with the regulations in this part.

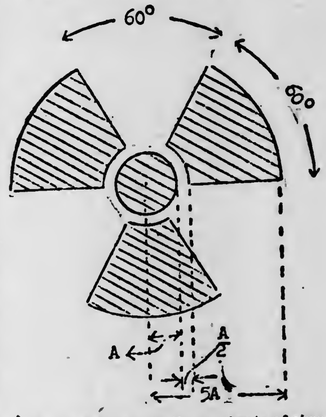
§ 20.202 *Personnel monitoring.* (a) Each licensee shall supply appropriate personnel monitoring equipment to, and shall require the use of such equipment by:

(1) Each individual who enters a restricted area under such circumstances that he receives, or is likely to receive, a dose in excess of 25 percent of the limits specified in Appendix A of this part;

(2) Each individual who enters a high radiation area.

(b) As used in this part,

(1) "Personnel monitoring equipment" means devices designed to be worn or carried by an individual for the purpose of measuring the dose received (e. g., film badges, pocket chambers, pocket dosimeters, film rings, etc.);



(2) "Radiation area" means any area, accessible to personnel, in which there exists radiation, originating in whole or in part within licensed material, at such levels that a major portion of the body could receive in any one hour a dose in excess of 5 millirem, or in any 5 consecutive days a dose in excess of 150 millirem;

(3) "High radiation area" means any area, accessible to personnel, in which there exists radiation originating in whole or in part within licensed material at such levels that a major portion of the body could receive in any one hour a dose in excess of 100 millirem.

§ 20.203 *Caution signs, labels, and signals.* (a) (1) Except as otherwise authorized by the Commission, symbols prescribed by this section shall use the conventional radiation caution colors (magenta or purple on yellow background). The symbol prescribed by this section is the conventional three-bladed design:

RADIATION SYMBOL

1. Cross-hatched area is to be magenta or purple.
2. Background is to be yellow.

(2) In addition to the contents of signs and labels prescribed in this section, licensees may provide on or near such signs and labels any additional information which may be appropriate in aiding individuals to minimize exposure to radiation or to radioactive material.

(b) *Radiation areas.* Each radiation area shall be conspicuously posted with a sign or signs bearing the radiation caution symbol and the words:

CAUTION [1]
RADIATION AREA

(c) *High radiation areas.* (1) Each high radiation area shall be conspicuously posted with a sign or signs bearing

[1] Or "Danger".

the radiation caution symbol and the words:

CAUTION [1]
HIGH RADIATION AREA

(2) Each high radiation area shall be equipped with a control device which shall either cause the level of radiation to be reduced below that at which an individual might receive a dose of 100 millirem in one hour upon entry into the area or shall energize a conspicuous visible or audible alarm signal in such a manner that the individual entering and the licensee or a supervisor of the activity are made aware of the entry. In the case of a high radiation area established for a period of 30 days or less, such control device is not required.

(d) *Airborne radioactivity areas.* (1) As used in the regulations in this part, "airborne radioactivity area" means (i) any room, enclosure, or operating area in which airborne radioactive materials, composed wholly or partly of licensed material, exist in concentrations in excess of the amounts specified in Appendix B, Table I, Column 1 of this part; or (ii) any room, enclosure, or operating area in which airborne radioactive material composed wholly or partly of licensed material exists in concentrations which, averaged over the number of hours in any week during which individuals are in the area, exceed 25 percent of the amounts specified in Appendix B, Table I, Column 1 of this part.

(2) Each airborne radioactivity area shall be conspicuously posted with a sign or signs bearing the radiation caution symbol and the words:

CAUTION [1]
AIRBORNE RADIOACTIVITY AREA

(e) *Additional requirements.* (1) Each area or room in which licensed material is used or stored and which contains any radioactive material (other than natural uranium or thorium) in an amount exceeding 10 times the quantity of such material specified in Appendix C of this part shall be conspicuously posted with a sign or signs bearing the radiation caution symbol and the words:

CAUTION [1]
RADIOACTIVE MATERIAL(S)

(2) Each area or room in which natural uranium or thorium is used or stored in an amount exceeding one-hundred times the quantity specified in Appendix C of this part shall be conspicuously posted with a sign or signs bearing the radiation caution symbol and the words:

CAUTION [1]
RADIOACTIVE MATERIAL(S)

(f) *Containers.* (1) Each container in which is transported, stored, or used a quantity of any licensed material (other than natural uranium or thorium) greater than the quantity of such material specified in Appendix C of this part shall bear a durable, clearly visible label bearing the radiation caution symbol and the words:

[1] Or "Danger."

CAUTION [1]
RADIOACTIVE MATERIAL

(2) Each container in which natural uranium or thorium is transported, stored, or used in a quantity greater than ten times the quantity specified in Appendix C of this part shall bear a durable, clearly visible label bearing the radiation caution symbol and the words:

CAUTION [1]
RADIOACTIVE MATERIAL

(3) Notwithstanding the provisions of subparagraphs (1) and (2) a label shall not be required:

(i) If the concentration of the material in the container does not exceed that specified in Appendix B, Table I, Column 2 of this part, or

(ii) For laboratory containers, such as beakers, flasks, and test tubes, used transiently in laboratory procedures, when the user is present.

(4) Where containers are used for storage, the labels required in this paragraph shall state also the quantities and kinds of radioactive materials in the containers and the date of measurement of the quantities.

§ 20.204 *Exceptions from posting requirements.* Notwithstanding the provisions of § 20.203,

(a) A room or area is not required to be posted with a caution sign because of the presence of a sealed source provided the radiation level twelve inches from the surface of the source container or housing does not exceed five millirem per hour.

(b) Rooms or other areas in hospitals are not required to be posted with caution signs because of the presence of patients containing byproduct material provided that there are personnel in attendance who shall take the precautions necessary to prevent the exposure of any individual to radiation or radioactive material in excess of the limits established in the regulations in this part.

(c) Caution signs are not required to be posted at areas or rooms containing radioactive materials for periods of less than eight hours provided that (1) the materials are constantly attended during such periods by an individual who shall take the precautions necessary to prevent the exposure of any individual to radiation or radioactive materials in excess of the limits established in the regulations in this part and; (2) such area or room is subject to the licensee's control.

§ 20.205 *Exemptions for radioactive materials packaged for shipment.* Radioactive materials packaged and labeled in accordance with regulations of the Interstate Commerce Commission shall be exempt from the labeling and posting requirements of § 20.203 during shipment, provided that the inside containers are labeled in accordance with the provisions of § 20.203 (f).

§ 20.206 *Instruction of personnel.* All individuals working in or frequenting any portion of a restricted area shall be informed of the occurrence of radioactive materials or of radiation in such portion, and shall be instructed in the hazards of excessive exposure to such materials or radiation and in precautions or procedures to minimize exposure.

§ 20.207 *Storage of licensed material.* Licensed materials stored in an unrestricted area shall be secured against unauthorized removal from the place of storage.

WASTE DISPOSAL

§ 20.301 *General requirement.* No licensee shall dispose of licensed material except:

(1) By transfer to an authorized recipient as provided in the regulations in Part 30, 40, or 70 of this chapter, whichever may be applicable; or

(2) As authorized pursuant to § 20.302; or

(3) As provided in § 20.303 or § 20.304, applicable respectively to the disposal of licensed material by release into sanitary sewerage systems or burial in soil, or in § 20.103 (Concentrations in Effluents to Unrestricted Areas).

§ 20.302 *Method for obtaining approval of proposed disposal procedures.* Any licensee or applicant for a license may apply to the Commission for approval of proposed procedures to dispose of licensed material in a manner not otherwise authorized in the regulations in this chapter. Each application should include a description of the licensed material and any other radioactive material involved, including the quantities and kinds of such material and the levels of radioactivity involved, and the proposed manner and conditions of disposal. The application should also include an analysis and evaluation of pertinent information as to the nature of the environment, including topographical, geological, meteorological, and hydrological characteristics; usage of ground and surface waters in the general area; the nature and location of other potentially affected facilities; and procedures to be observed to minimize the risk of unexpected or hazardous exposures.

§ 20.303 *Disposal by release into sanitary sewerage systems.* No licensee shall discharge licensed material into a sanitary sewerage system unless:

(a) It is readily soluble or dispersible in water; and

(b) The quantity of any licensed or other radioactive material released into the system by the licensee in any one day does not exceed the larger of subparagraphs (1) or (2) of this paragraph:

(1) The quantity which, if diluted by the average daily quantity of sewage released into the sewer by the licensee, will result in an average concentration equal to the limits specified in Appendix B, Table I, Column 2 of this part; or

(2) Ten times the quantity of such material specified in Appendix C of this part; and

(c) The quantity of any licensed or other radioactive material released in any one month, if diluted by the average monthly quantity of water released by the licensee, will not result in an average concentration exceeding the limits specified in Appendix B, Table I, Column 2 of this part; and

(d) The gross quantity of licensed and other radioactive material released into the sewerage system by the licensee does not exceed one curie per year.

Excreta from individuals undergoing medical diagnosis or therapy with radioactive material shall be exempt from any limitations contained in this section.

§ 20.304 *Disposal by burial in soil.* No licensee shall dispose of licensed material by burial in soil unless:

(a) The total quantity of licensed and other radioactive materials buried at any one location and time does not exceed, at the time of burial, 1,000 times the amount specified in Appendix C of this part; and

(b) Burial is at a minimum depth of four feet; and

(c) Successive burials are separated by distances of at least six feet and not more than 12 burials are made in any year.

RECORDS, REPORTS, AND NOTIFICATION

§ 20.401 *Records of surveys, radiation monitoring, and disposal.* (a) Each licensee shall maintain records showing the radiation exposures of all individuals subject to personnel monitoring control under § 20.202 of the regulations in this part.

(b) Each licensee shall maintain records showing the name of each individual exposed to radiation pursuant to § 20.101 (a) (2) and the weekly dose of each such individual for the 13 consecutive weeks of highest cumulative weekly dose.

(c) Each licensee shall maintain records in the same units used in the appendices to this part, showing the results of surveys required by § 20.201 (b), and disposals made under §§ 20.302, 20.303, and 20.304.

§ 20.402 *Reports of theft or loss of licensed material.* Each licensee shall report promptly to the Commission, after its occurrence becomes known to the licensee, any loss or theft of licensed material in such quantities and under such circumstances that it appears to the licensee that a substantial hazard may result to persons in unrestricted areas.

EXCEPTIONS AND ADDITIONAL REQUIREMENTS

§ 20.501 *Applications for exemptions.* The Commission may, upon application by any licensee or upon its own initiative, grant such exemptions from the requirements of the regulations in this part as it determines are authorized by law and will not result in undue hazard to life or property.

§ 20.502 *Additional requirements.* The Commission may, by rule, regulation, or order, impose upon any licensee such requirements, in addition to those established in the regulations in this part, as it deems appropriate or necessary to protect health or to minimize danger to life or property.

ENFORCEMENT

§ 20.601 *Violations.* An injunction or other court order may be obtained prohibiting any violation of any provision of the act or any regulation or order issued thereunder. Any person who willfully violates any provision of the act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

APPENDIX A

PERMISSIBLE WEEKLY DOSE

Conditions of exposure		Dose in critical organs (mrem)			
Parts of body	Radiation	Skin, at basal layer of epidermis	Blood forming organs	Gonads	Lens of eye
Whole body	Any radiation with half-value-layer greater than 1 mm of soft tissue.	[1] 600	[1] 300	[1] 300	[1] 300
Whole body	Any radiation with half-value-layer less than 1 mm of soft tissue.	1,500	300	300	300
Hands and forearms or feet and ankles or head and neck.	Any radiation	[2] 1,500			

[1] For exposures of the whole body to X or gamma rays up to 3 mev, this condition may be assumed to be met if the "air dose" does not exceed 300 mr, provided the dose to the gonads does not exceed 300 mrem. "Air dose" means that the dose is measured by an appropriate instrument in air in the region of highest dosage rate to be occupied by an individual, without the presence of the human body or other absorbing and scattering material.

[2] Exposure of these limited portions of the body under these conditions does not alter the total weekly dose of 300 mrem permitted to the bloodforming organs in the main portion of the body, to the gonads, or to the lens of the eye.

APPENDIX B

PERMISSIBLE CONCENTRATIONS IN AIR AND WATER ABOVE NATURAL BACKGROUND

Material	Table I		Table II	
	Column 1 [1] Air (2)	Column 2 [2] Water (3)	Column 1 [1] Air (2)	Column 2 [2] Water (3)

Unidentified radioactive materials or any of the above in unknown mixtures	0.1

NOTE: For purposes of §§ 20.203 and 20.304, where there is involved a combination of isotopes in known amounts the limit for the combination should be derived as follows: Determine, for each isotope in the combination, the ratio between the quantity present in the combination and the limit otherwise established for the specific isotope when not in combination. The sum of such ratios for all the isotopes in the combination may not exceed "1" (i. e., "unity").

EXAMPLE: For purposes of § 20.304, if a particular batch contains 2,000 μc of Au^{198} and 25,000 μc of C^{14}, it may also include not more than 3,000 μc of I^{131}. This limit was determined as follows:

$$\frac{2{,}000\ \mu c\ Au^{198}}{10{,}000\ \mu c}+\frac{25{,}000\ \mu c\ C^{14}}{50{,}000\ \mu c}+\frac{3{,}000\ \mu c\ I^{131}}{10{,}000\ \mu c}=1$$

The denominator in each of the above ratios was obtained by multiplying the figure in the table by 1000 as provided in § 20.304.

NOTE: The record keeping and reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Dated at Washington, D. C., this 16th day of January 1957.

For the Atomic Energy Commission.

K. E. FIELDS,
General Manager.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 522—EMPLOYMENT OF LEARNERS

EXPERIENCED WORKERS UNAVAILABLE

On November 22, 1956, notice was published in the FEDERAL REGISTER (21 F. R. 9144, 9145) of the proposed amendment of §§ 522.5, 522.6 and 522.7 of the regulations governing the employment of learners (29 CFR Part 522). Interested parties were given ten days within which to submit written data, views or arguments relative to the proposed amendment.

The purpose of the amendment is to provide assurance that employers holding or applying for learner certificates have placed orders for experienced workers with public employment service offices. It is based upon the desirability of extending the present procedure to safeguard more effectively the basic concept that learners may not be hired at subminimum wage rates when experienced workers are available.

Two of the responses to the notice of the proposed amendment have suggested, for purposes of clarification, the addition of a comma following the word "correspondence" in § 522.7 (c). This suggestion has been adopted and will be made effective in this amendment. Three additional responses have been received which, among other contentions, allege that the amendment as proposed would constitute an unwarranted intrusion into the private employment rights of individual employers by compelling them to employ unsatisfactory and unacceptable employees. I consider the present regulations as adequately protecting employers from the necessity of accepting unqualified workers and in my experience, the relatively few questions of this nature which have arisen in the past have been resolved administratively with minimal difficulty.

Accordingly, after consideration of all relevant matters presented, each objection other than those intended to clarify § 522.7 (c) is overruled.

Pursuant to authority under section 14 of the Fair Labor Standards Act of 1938 (section 14, 52 Stat. 1068, as amended; 29 U. S. C. 214), and General Order No. 45-A (15 F. R. 3290), and in accordance with § 522.11 (29 CFR Part 522), §§ 522.5, 522.6, and 522.7 of Title 29, Code of Federal Regulations (29 CFR Part 522) are hereby amended as follows:

1. Section 522.5 (b), (c), (d), (e) and (f) are redesignated § 522.5 (c), (d), (e), (f) and (g), respectively.

2. Add a new paragraph (b) to § 522.5 to read as follows:

(b) Reasonable efforts have been made to recruit experienced workers, including the placement of an order with the local State or Territorial Public Employment Service Office (except in possessions where there is no such office) not more than fifteen days prior to the date of application. Written evidence from such office that the order has been placed shall be submitted by the employer with the application.

3. Paragraph (f) of § 522.6 is amended to read as follows:

(f) No learners shall be hired under a learner certificate if, at the time the employment begins, experienced workers capable of equalling the performance of a worker of minimum acceptable skill are available for employment. Each time before hiring learners during the

effective period of the certificate an order for experienced workers must be placed or be on active file with the local State or Territorial Public Employment Service Office (except in possessions where there is no such office). Written evidence that an order has been placed or is on active file shall be maintained in the employer's records.

4. Paragraph (c) of § 522.7 is redesignated paragraph (d).

5. Add a new paragraph (c) to § 522.7 to read as follows:

(c) The employer shall maintain a file of all evidence and records, including any correspondence, pertaining to the filing or cancellation of job orders placed with the local State or Territorial Public Employment Service Office under 29 CFR 522.5 (b) and 522.6 (f).

(Sec. 14, 52 Stat. 1068, as amended; 20 U. S. C. 214)

The above amendment shall become effective on March 1, 1957.

Signed at Washington, D. C. this 23d day of January, 1957.

NEWELL BROWN,
Administrator.

[F. R. Doc. 57-636; Filed, Jan. 28, 1957; 8:46 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1384]

ALASKA

WITHDRAWING PUBLIC LANDS FOR RECREATIONAL PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining but not the mineral-leasing laws nor the act of July 31, 1947 (61 Stat. 681 30 U. S. C. 601-604), and reserved as indicated:

(a) Under the jurisdiction of the Secretary of the Interior for the protection and preservation of scenic and recreational areas:

Anchorage 026349

SEWARD MERIDIAN

T. 17 N., R. 3 W.,
Sec. 28, lots 6 and 7.

The tracts described contain 12.28 acres.

(b) For use of the Bureau of Land Managment, Department of the Interior, as recreational sites:

Anchorage 025793

BERNICE LAKE RECREATION SITE

SEWARD MERIDIAN

T. 7 N., R. 12 W.,
Sec. 15, Lot 6.

The tract described contains 7.35 acres.

Anchorage 026249

KNIK RIVER RECREATION SITE

U. S. Survey No. 3243.

The area described contains 31.52 acres.

JANUARY 23, 1957.

HATFIELD CHILSON,
Assistant Secretary of the Interior.

[F. R. Doc. 57-627; Filed, Jan. 28, 1957; 8:45 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11853; FCC 57-87]

[Rules Amdt. 11-8]

PART 11—INDUSTRIAL RADIO SERVICES

MISCELLANEOUS AMENDMENTS

1. By Notice of Proposed Rule Making of October 18, 1956 (FCC 56-1018—released October 22, 1956) in the above-entitled matter, the Commission offered amendments to §§ 11.504 (b) and (c), 11.506 (b) and (c) of Subpart K: Special Industrial Radio Service of Part 11—rules governing the Industrial Radio Services.

2. In substance, the proposed amendments provide for the issuance of regular authorizations to heavy construction concerns and manufacturing concerns whose proposed radio systems will be exclusively located and operated in areas of low population density removed from the urbanized sections of Standard Metropolitan Areas of 500,000 or more population (SMA'S). Prompting the Commission in offering the amendments was evidence that additional users can be accommodated in such low-population areas without serious impairment to the ends sought to be served by the over-all SMA concept. It was observed in the above Notice that the amendments would not only promote a more efficient use of the frequencies allocated for use in the Special Industrial Radio Service, but would also make for increased uniformity among the various rules governing that Service.[1]

3. Individual comments have been received from the Special Industrial Radio Service Association (SIRSA), the Committee on Manufacturers Radio Use of the National Association of Manufacturers, and Allen B. Du Mont Laboratories, Inc. (Du Mont). A joint comment was filed on behalf of Cold Spring Construction Co. of Akron, New York; Earl T. Howell & Sons of Newfane, New York; and Robert E. L. Parker Co. of Alberhill, California. In none of the foregoing comments is opposition to the Commission's proposal stated; on the contrary, each comment supports the proposal in its entirety.

4. Upon consideration of the foregoing comments and of all other relevant matter in this proceeding, the Commission concludes that the proposed amendments would materially serve the public interest, convenience and necessity. Accordingly, the Commission is this day adopting the amendments as they were originally proposed. Authority for the amendments is contained in sections 4 (i) and 303 (d), (g) and (r) of the Communications Act of 1934, as amended.

5. Du Mont and SIRSA have difficulty with the term "area of low population density removed from the urbanized sections of the Standard Metropolitan Area involved," DuMont requesting "a reasonable definition" thereof, and SIRSA requesting a "rule of thumb" which may be considered by applicants in determining for themselves whether they are in such an area. In connection with its request SIRSA explains that it "does not advocate that the Commission establish such a hard and fast rule that no allowance will be made for case-by-case determinations which might result in grants to applicants having a particularly meritorious cause merely because of the rigidity of a rule."

6. Volume I (Number of Inhabitants) of the 1950 Census of Population [2] sets forth, in map form, the "urbanized" areas of each of the thirty-three Standard Metropolitan Areas of 500,000 or more population. Incorporated parts of such "urbanized" areas are shaded with slanting lines, and unincorporated parts are shaded with dots; "non-urbanized" areas are unshaded, and they appear white on the maps. For its purposes, the Commission considers only these "white" areas as being "areas of low population density removed from the urbanized sections of the Standard Metropolitan Area involved". In allayance of SIRSA's fear of a "hard and fast rule", the Commission calls attention to the fact that the waiver provisions of its rules will permit it to grant such applications as appear to it to be "particularly meritorious."

7. On the basis of all of the foregoing: *It is ordered*, This 23rd day of January 1957:

(a) That §§ 11.504 (b) and (c), 11.506 (b) and (c) (1) of Subpart K: Special Industrial Radio Service of Part 11—rules governing the Industrial Radio Services, are hereby amended to read as they are set forth below; and

(b) That the amendments adopted herein are hereby made effective on March 4, 1957.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: January 24, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Sections 11.504 (b) and (c), and 11.506 (b) and (c) (1) are amended to read as follows:

§ 11.504 *Heavy construction activities.* * * *

(b) *Eligibility.* Persons engaged in heavy construction activities, as that

[1] See §§ 11.503, 11.507, 11.508 and 11.509.

[2] Printed by the Government Printing Office for the Bureau of the Census, Department of Commerce.

term is defined in this section, are eligible in this service when it is shown that the use of the Low Power Industrial Radio Service does not meet their operational requirements and that the use of radio will be exclusively in connection with the conduct of the heavy construction activities involved and either (1) that all such activities take place exclusively (i) in areas other than Standard Metropolitan Areas of 500,000 or more population and/or (ii) in areas of low population density removed from the urbanized sections of such Standard Metropolitan Areas, or (2) that, in areas other than those described in subparagraph (1) of this paragraph, the use of radio will be exclusively for on-the-job communications at the site of a particular heavy construction project.

(c) *Limitation on station locations.* Each station authorized in accordance with the provisions of this section shall be located and operated at all times in areas other than Standard Metropolitan Areas of 500,000 or more population, or in areas of low population density removed from the urbanized sections of such Standard Metropolitan Areas. Exceptions to the above may be made by the Commission in specific cases and for limited periods of time when it is shown that one or more Base Stations, to be associated with a specified heavy construction project and to be located within one-quarter mile thereof, will be used exclusively in the conduct of that project; however, each authorization issued pursuant to this exception will be limited in term to one year, renewable on the same showing in the event the particular project continues beyond that period.

§ 11.506 *Manufacturing activities.* • • •

(b) *Eligibility.* Persons engaged in manufacturing activities, as that term is defined in this section, are eligible in this service when it is shown that the use of radio will be exclusively in connection with the conduct of the manufacturing activities involved and either (1) that those activities take place exclusively (i) in areas other than Standard Metropolitan Areas of 500,000 or more population and/or (ii) in areas of low population density removed from the urbanized sections of such Standard Metropolitan Areas, or (2) that the use of radio will be within the yard area for mobile service communications within areas other than those described in (1), and that the use of the Low Power Industrial Radio Service does not meet the operational requirements of the manufacturing activity otherwise found eligible under this paragraph.

(c) *Limitation on station location.* (1) Each station authorized in accordance with the provisions of paragraph (b) (1) of this section shall be located and operated at all times in areas other than Standard Metropolitan Areas of 500,000 or more population, or in areas of low population density removed from the urbanized sections of such Standard Metropolitan Areas.

[F. R. Doc. 57-645; Filed, Jan. 28, 1957; 8:48 a. m.]

[Docket No. 11872; FCC 57-86]

[Rules Amdt. 19-2]

PART 19—CITIZENS RADIO SERVICE

MISCELLANEOUS AMENDMENTS

1. On November 16, 1956, the Commission released a Notice of Proposed Rule Making in the above-entitled matter which was published in the FEDERAL REGISTER on November 22, 1956 (21 F. R. 9145) in accordance with section 4 (a) of the Administrative Procedure Act. The purpose of the amendment under consideration is to permit the use of Class C Citizens Radio Stations to actuate devices which are used solely as a means of attracting attention.

2. The period in which interested persons were afforded an opportunity to submit comments thereto has expired. Comments in support of the Commission's proposal have been filed by the Stromberg-Carlson Company. While no comments in opposition to the above-mentioned proposal have been received, the Radio Corporation of America and Ruth Burr, d/b as Air Way Radio System, filed comments seeking to modify the proposal.

3. The Radio Corporation of America supports the general intent of the proposed amendment, but believes it is desirable that the limitation that Class C stations use only on-off unmodulated or amplitude tone modulated carrier be changed to permit the use of phase or frequency modulation. Inasmuch as the purpose of the proposed amendment was merely to broaden the permitted use of Class C stations and was not to expand the permissible types of emission, the Commission believes that such change is not appropriate at this time without further study.

4. Ruth Burr d/b as Air Way Radio System, permittee of Station KQD303 in Detroit, Michigan, which will render one-way paging service on a common carrier basis, states in her comment that in order to avoid the degradation in service that would be caused for all users if a multitude of licensees seek to cover large areas, the actuation of devices which are used solely as a means of attracting attention should be limited to use inside of buildings and should not be permitted on public streets, highways or any open area. However, the Commission believes that the present restriction limiting the plate input power of Class C stations to five watts will serve to prevent any serious degradation of service and that additional restrictions on use are unnecessary.

5. In view of the foregoing considerations, and pursuant to authority contained in sections 4 (i) and 303 of the Communications Act of 1934, as amended: *It is ordered*, That effective March 4, 1957 §§ 19.35 (b) and 19.59 (d) of Part 19 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066, a amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: January 23, 1957.

Released: January 24, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

1. Amend § 19.35 (b) of the Commission's rules governing the Citizens Radio Service to read as follows:

(b) Except as provided in paragraph (c) of this section, Class C stations in this service may use only on-off unmodulated or amplitude tone modulated carrier for remote control of objects or devices, and the actuation of devices which are used solely as a means of attracting attention.

2. Amend § 19.59 (d) to read as follows:

(d) A station in this service used for radio control of objects or devices, or for the actuation of devices which are used solely as a means of attracting attention, shall not be used where its operation involves the continuous radiation of energy except for brief tests or when adjustments are being made to the transmitter, or as otherwise provided in § 19.35 (c).

[F. R. Doc. 57-646; Filed, Jan. 28, 1957; 8:48 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 930]

[Docket No. AO-72-A21]

MILK IN TOLEDO, OHIO, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING ARGEEMENT AND ORDER AMENDING ORDER AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order amending the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than on the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the findings and conclusions and the proposed marketing agreement and order hereinafter set forth were formulated, was conducted at Toledo, Ohio, on July 31–August 2, 1956, pursuant to notice thereof issued on July 10, 1956, and published in the FEDERAL REGISTER on July 14, 1956 (21 F. R. 5293).

The material issues relate to:

(1) An expansion in the marketing area;

(2) Changes in the Class I price differential and a revision of the supply-demand price adjustment factor;

(3) The establishment of a separate class for cottage cheese and the application of the basic formula price to Class II milk;

(4) A provision for premiums for bulk farm tank milk deliveries;

(5) A provision for location adjustments on milk received at country plants;

(6) Provisions for separate pricing of Class I milk disposed of outside the marketing area; and

(7) The revision of a number of definitions and clarification of the order language with respect to the reporting and accounting for milk.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence in the record of hearing:

1. The marketing area should be expanded.

Producers proposed that the present marketing area be extended to cover all of the territory of Monroe County, except the townships of Ash and Berlin; the townships of Riga, Deerfield, Blissfield, Palmyra and Ogden in Lenawee County; all in the State of Michigan; the counties of fulton, Wood and Lucas; the town of Elmore and the townships of Allen and Clay in Ottawa County; the town of Gibsonburg, and the townships of Madison and Woodville in Sandusky County; all in the State of Ohio.

Producers stated that the bulk of the Class I sales in the proposed expanded area are made by regulated handlers and that expansion of the marketing area is necessary (1) to protect the present fluid milk market outlets for producer milk; and (2) to assure that all distributors who compete for sales in this area buy milk on an equal basis.

Certain handlers opposed the extension of the marketing area into Lenawee County, Michigan, in their brief. No testimony was presented by these handlers, including the operator of the principal plant which might be directly affected. Other parties opposed the inclusion in the expanded marketing area of the townships of Exeter, London, Milan, and Dundee in Monroe County, Michigan.

The present marketing area includes the territory within the city limits of Toledo, Ohio, and Monroe, Michigan and fifteen adjoining townships. Seven of these townships are in Lucas County, Ohio, two in Wood County, Ohio, and six in Monroe County, Michigan. These townships comprise only a small portion of the total sales area serviced by handlers subject to regulation under the Toledo order. It is not necessary or feasible to extend the regulation to all areas where handlers may sell some milk.

It is concluded that the marketing area should be expanded to include: all of the territory in Lucas County and in Fulton County; the territory north of the northern boundaries of the townships of Montgomery, Portage, Liberty, Milton (including all of the town of Weston) in Wood County; all of the territory within the townships of Woodville and Madison in Sandusky County; all in the State of Ohio; all of the territory within the boundaries of the townships of Riga, Ogden, Palmyra, Blissfield, and Deerfield in Lenawee County; and all of the territory in Monroe County except the territory within the township of Ash, Berlin, Exeter, London, Milan, and Dundee; all in the State of Michigan.

The area recommended to be added to the marketing area is contiguous to the present marketing area. Recent expansion in industry and housing of the Toledo metropolitan area has extended into many of the townships recommended to be included and has been accompanied by a substantial increase in population. Toledo regulated handlers have extended their routes to supply the milk requirements of these areas. In each of the townships more than seventy-five percent of the fluid milk sales are supplied by handlers regulated by the Toledo order. Thus, the handling of milk to supply this area is closely identified with that in the present marketing area.

The health requirements for milk produced for fluid consumption in each of the townships recommended to be added to the present marketing area are substantially the same and similar to those in the present marketing area. "Grade A" milk, or the equivalent thereof, is required for milk for fluid consumption by the health departments in all areas.

A substantial portion of the fluid milk sales in Fulton County are made by handlers now regulated under the Toledo order. Some milk is supplied in this area from a plant located at Napoleon, Ohio, and another at New Bremen, Ohio. Neither of these plants is presently subject to regulation. A plant located at Wauseon, the county seat of Fulton County, distributes milk in this area, but is regulated by virtue of sales made within the present marketing area.

The fluid milk requirements for Wood County, Ohio, are supplied primarily by handlers regulated under the Toledo, Cleveland, and Lima orders. Sales by Toledo handlers are more predominant in the territory north of Milton, Liberty, Portage and Montgomery townships while distributors regulated by the Lima order are principal suppliers of the southern portion of the county. The territory south of the northern boundary of these townships should not be included in the marketing area.

More than 85 percent of the fluid milk requirements for the proposed Madison and Woodville townships of Sandusky County, Ohio, are supplied from Toledo plants and a plant located near Woodville which is also subject to the Toledo order. Sales by an unregulated plant, located in Tiffin, Ohio, in Madison and Woodville townships represent approximately eight percent of the total fluid milk sales of this last plant. The milk supply at this plant is procured from local producers at from 15 to 20 cents per hundredweight less than the Toledo marketwide average blend price. No objection was expressed to the extension of the marketing area to include these townships.

The townships of Allen and Clay (including the town of Elmore) in Ottawa County should not be added to the marketing area because there is no health ordinance applying to milk sold for fluid consumption in these townships.

The present marketing area includes that portion of Monroe County, Michigan, within the boundaries of Whiteford, Bedford, Erie, LaSalle, Monroe and Frenchtown townships. The proposal also would include Rasinville, Ida, Summerfield, Milan, London, Exeter and Dundee townships. The major portion of the milk supply for the first three townships is supplied by Toledo handlers while the last four townships are supplied primarily by Detroit regulated handlers. There is no need to extend the Toledo marketing area to include these last four townships.

Recent developments in the procurement and sale of milk centered in Lenawee County, Michigan, is of much concern to producers and threatens to disrupt the orderly marketing of producer milk. A distributing plant located in Palmyra township, Lenawee County, is operated by a handler who operates a pool plant in Toledo. The Palmyra plant is approximately 30 miles from Toledo. Milk is distributed from this plant outside of the present marketing area throughout a considerable portion, if not all of the proposed extended area in Michigan. This milk is sold primarily in competition with milk fully regulated under the Toledo and Detroit orders. Some milk also is disposed of outside of this area.

The Palmyra plant has been operated for a number of years, but it was remodeled and its facilities were expanded in 1954. A portion of the raw milk requirements at this plant is received from a herd maintained by the operator of the plant. Starting in 1956, milk also has been received directly from dairy farmers who deliver their milk in bulk farm pick-up tanks as diverted milk from Toledo. Milk, at times, also is received from a plant located at Defiance, Ohio. Packaged milk and other dairy products are moved from the Toledo plant to the Palmyra plant for disposition.

Because under the present provisions of the order milk transferred or diverted from a Toledo pool plant to an unregulated plant may be assigned to Class II utilization to the extent of such utilization at the nonpool plant, producers contended that it is possible they are not getting the full utilization value of their milk. No Class II operations of any consequence, however, are conducted in the Palmyra plant. The evidence fails to show that significant quantities of producer milk have been

classified as Class II milk through diversion or transfer of milk to this plant from the Toledo market. However, because of the proximity of this plant to the Toledo plant and the ease of transfer of milk and milk products between these plants, it is possible that producer milk devoted to Class II uses, such as cottage cheese, butter, ice cream and the like, associated with the over-all milk business of this handler, may be manufactured in the Toledo plant and supplied to the Palmyra plant while at the same time, all of the fluid milk received at the Palmyra plant is disposed of as Class I milk. Thus, the business can be conducted in such a manner that the handler's own production and the other fluid milk which is packaged at the Palmyra plant has an exclusive Class I outlet throughout the year, while producers of milk for the Toledo market bear the cost of maintaining the necessary daily and seasonal reserve supplies of milk associated with the over-all operation of the two plants.

The procurement, handling, and sales of milk in the Palmyra plant and the Toledo pool plant of this handler are conducted primarily in competition with the corresponding operations of handlers under the order. The effective regulation of the handling of milk for the over-all Toledo distribution area, therefore, compels the extension of the marketing area to include the proposed townships in Lenawee County.

Provisions should be made for distributors of milk in the recommended contiguous area to pay the same price for milk used in a given class as that paid by handlers in the presently regulated area. This may be accomplished by extending the marketing area as heretofore stated. This extension of the marketing area is necessary to safeguard and make more effective the classified pricing plan of the order and to insure and promote orderly marketing conditions.

2. The Class I price differential should be increased and the supply-demand provisions should be revised.

Producers proposed that the Class I price differential be modified to reflect a closer and appropriate relationship with the Class I differentials in competing markets, both on an annual level basis and in the seasonal pattern of changes in Class I prices. They also proposed that the supply-demand adjustment provisions of the order be changed to reflect more adequately the present seasonal relationship of producer milk receipts to fluid milk sales.

Handlers under the Toledo order compete in the procurement and sales of milk principally with handlers regulated by the Cleveland, Lima, and Detroit orders. The basic formula price in the Toledo order is similar to that contained in the orders for these neighboring markets. There is considerable difference, however, in the Class I price differentials. On an annual basis, the differentials at the marketing area are $1.43 for Detroit, $1.63 for Cleveland and $1.14 for Toledo. The Class I price under the Lima order is established, through a location adjustment, at 34 cents below the Cleveland Class I price. Part of this difference in Class I differentials reflect the need for drawing milk supplies from greater distances to supply the requirements of the larger consuming centers of Detroit and Cleveland. For example, the Cleveland Class I differential adjusted to plants located at the fringe of the Toledo marketing area is $1.41.

Some of the additional differences in the Class I price differentials, between the Toledo and other markets, have been offset by additions to the Class I price provided by the supply-demand adjuster for the Toledo market and minus adjustments in the Class I prices in the other markets. During the 12-month period, immediately preceding the hearing, July 1955–June 1956, an average of 15 cents per hundredweight was added to the Class I price for Toledo. This compares with a reduction in Cleveland of seven cents and approximately four cents in Detroit during this same period. Based on the supply-demand adjustments under the Toledo order, during the first six months of 1956 and estimates for the remainder of the year, an average of between 20 and 25 cents per hundredweight is expected to be added by supply-demand adjustments for the year 1956.

From 1953 to 1955, the average monthly producer receipts of milk for the Toledo market increased 15 percent as compared with an increase of 16 percent in Class I sales. From 1954 to 1955, receipts increased 7 percent while sales increased almost 10 percent. During the first six months of 1956, receipts of producer milk increased 5 percent over those for the first half of 1955 as compared with an 11 percent increase in fluid milk sales.

One reason for the decline in producer receipts of milk in relation to sales during the past year or so is the stricter enforcement by the Toledo Health Department of temperature requirements on milk received from the farm. This has entailed purchase by farmers of additional cooling equipment, and in some cases, remodeling of milk houses to meet these more difficult requirements. For this reason, some producers have shifted from supplying the Toledo market to supplying the other markets.

The annual level of producer milk receipts in relation to sales is relatively low in the Toledo market. In 1955, producer receipts was 1.13 times Class I utilization as compared with 1.36 for Cleveland and 1.37 for Detroit. In addition, during the past two years, the Toledo market has become increasingly short of producer receipts in relation to Class I sales in the fall months. In the September–November period of 1955, producer milk receipts were 2.5 percent short of supplying Class I milk requirements as compared with a shortage of 0.2 percent for the same period a year earlier.

Through the action of the supply-demand adjuster in these markets, Class I prices have tended toward a more reasonable relationship than otherwise would have prevailed. Marketwide averages of blend prices to producers supplying the Toledo market have been relatively favorable in relation to the blend prices in competing markets. Nevertheless, the receipts of producer milk in the Toledo marketing area have not kept pace with increased sales of fluid milk products. Under the present pricing arrangement, however, any increase in producer milk receipts in relation to Class I sales would have the effect of immediately reducing the Toledo Class I price and widening the differnece in Class I prices among the competing markets. The seasonal characteristics of the adjustments under the present supply-demand adjuster have aggravated the problem of differences in Class I prices complained about, particularly by Detroit handlers. Even more important, however, uniform prices to producers would be lowered under the present supply-demand adjuster before an adequate supply of milk is attracted to the market.

The Toledo, Detroit, Cleveland, and Lima markets are affected by common or very similar economic conditions affecting the procurement and sales of fluid milk. Because of the close competitive relationships there should be a reasonable and "normal" alignment of Class I prices over a period of time. It is basic, therefore, that price alignment among these markets be achieved by establishing more similar Class I differentials over basic formula prices. This is not to say that changes in supply-demand relationships in an individual market do not require adjustments in the "normal" or longer term alignment of prices to reflect these changed local conditions. It is only through such adjustments in class prices in the individual markets that the available supplies of milk will be attracted to the different markets in accordance with their needs.

For the above stated reasons, the Class I differential should be increased 25 cents per hundredweight on an annual basis and corresponding adjustments should be made in the supply-demand adjustment provisions of the order. The present seasonal difference in the Class I differential should be maintained until such time as some other method to encourage a production pattern more nearly in accord with sales of fluid milk products is adopted. It is therefore concluded that the following Class I price differential pattern should be adopted:

April, May, and June	$1.00
February, March, and July	1.25
August through January	1.65

The above differentials will result in an average annual Class I price differential of slightly less than $1.39 per hundredweight. As previously stated, the seasonal differences resulting from the supply-demand adjuster should be eliminated. The proposed changes, therefore, will result in somewhat less seasonal movements in the Class I price and smaller differences in Class I prices among the competing markets.

Analysis of the receipts and sales relationships in the Toledo market and the operation of the supply-demand adjuster for the past several years shows the need for revising the supply-demand adjustment factor in the order to modernise the seasonal pattern in the standard utilization percentages. During the past three years, the pattern of producer milk receipts to sales has changed so that receipts in relation to sales are lowest in September as compared with November in former years. The supply-demand adjuster should be revised, therefore, so as to reflect more current seasonality patterns.

Because the Class I differential is being increased as previously discussed, the supply-demand adjuster should not operate until the supply of milk has increased to a more "normal" or desired level in relation to Class I sales.

The present method of determining utilization percentage, based on the receipts of producer milk and sales in the first and second months immediately preceding the month for which prices are announced, should be continued. The supply-demand adjustment factor should become effective when the supply-demand ratio equals or exceeds the standard utilization percentage, as set forth in the following schedule, for each of three successive months (i. e., the supply-demand adjustment will be operative for the third month and for each month thereafter):

Month for which the price is being computed:	*Standard utilization percentage*
January	115
February	123
March	129
April	130
May	130
June	137
July	138
August	127
September	116
October	108
November	105
December	108

The standard utilization percentages heretofore set forth are expressed in terms of the ratio of producer receipts to gross Class I utilization for all pool plants (excluding transfers between pool plants). The current order applies the ratio of Class I utilization to producer milk receipts. Industry representatives more frequently refer to supply-demand relationships on the basis of the former ratios. It is more natural and meaningful to express supply conditions in terms of the relationship of producer milk receipts to Class I sales.

The standard utilization percentages, incorporated herein, provide for an up-to-date seasonal pattern. The schedule was developed through the analysis of relationships during the past two years with allowances for trend in the relationship and with consideration of a need for a 5 percent reserve supply of milk during the two months when receipts are lowest in relation to sales, September and October. Based upon past history, a 5 percent reserve for the months of September and October, is necessary and adequate under present conditions in this market.

It is necessary to make appropriate changes in the present brackets providing monetary adjustments in the Class I price as a result of expressing the utilization percentages as ratios of receipts to sales. The recommended method of expressing the supply-demand ratio results in greater percentage point deviations under a given supply-demand condition than under the present method of computation. Therefore, to accommodate this change without altering the responsiveness of the spuply-demand adjuster, the "no adjustment" deviation bracket should be widened from (+1 or −1) to (+2 or −2) and other minor alterations. Thus, the amount of the supply-demand adjustment should be determined by the following schedule:

If deviation percentage is:	*Supply-demand adjustment in cents is:*
+16 or over	−50
+13 or +14	−40
+10 or +11	−30
+7 or +8	−20
+4 or +5	−10
+2 or −2	0
−4 or −5	+10
−7 or −8	+20
−10 or −11	+30
−13 or −14	+40
−16 or under	+50

Producers' proposal to incorporate separate "contra-seasonal factors" in Class I pricing mechanism should be denied. By continuation of seasonal Class I price differentials, as recommended, contra-seasonal changes in Class I prices are less likely than under more uniform differentials from month-to-month, as proposed by producers. Changes in Class I prices, resulting from the supply-demand adjuster should be permitted to operate regardless of the season of the year. Once supplies and sales are in proper balance, prices should be adjusted as soon as a change in the trend in the relationship of producer milk receipts to fluid milk sales becomes evident. It is essential that price changes be reflected as quickly as possible to bring about appropriate sales and production responses in accordance with changes in the market situation. The adoption of a contra-seasonal provision would partly nullify the effectiveness of the supply-demand adjustment factor.

3. The Class II price should be the basic formula price during the months of July through February.

It was proposed by producers that the order basic formula price be used as the Class II price during each month of the year. At the present time, the Class II price is the average of the basic or field prices announced for 3.5 percent butterfat content milk for the month by three manufacturing plants located in or near the Toledo production area. The order basic formula price is the highest of the average of prices reported by 13 representative midwestern condenseries for 3.5 percent milk and the prices resulting from two formulas applying central market quotations for manufactured products including butter, nonfat dry milk, and cheese.

In recent years, it has been the practice of the manufacturing plants, presently used in computing the Class II price, to pay premiums to farmers above the announced field prices. Such premiums or bonuses are paid to such farmers for using certain equipment and supplies in the production of their milk and for delivering certain minimum volumes of milk per day. Producers supplying the Toledo market unquestionably would meet the requirements for all of such premiums. The premiums paid by these plants amounted to between 30 and 40 cents per hundredweight at the time of the hearing. Such plants are alternative sources of skim milk and butterfat for Class II products made by handlers in their pool plants. The present basis of establishing Class II prices, therefore, fails to reflect the competitive value of producer milk for manufacturing uses or prices in relation to the cost of manufactured products from alternative sources of supply.

Because of a lack of information on the portion of the milk on which the premiums are paid and the delay which would be experienced, it would not be feasible to attempt to use a weighted average price received by all farmers at the local manufacturing plants. The basic formula price provided in the order is more representative of the competitive value of manufacturing milk than the field or basic prices announced by these local plants.

During the months of July 1954 through February 1955, the average field prices announced by the three manufacturing plants was $2.99 per hundredweight as compared with an average of $3.09 for the order basic formula prices. From July 1955 through February 1956, the corresponding figures are $2.99 and $3.08, respectively. During March through June of each year, the difference between the basic formula and local plant prices was greater. Nevertheless, it is during this same period of the year that it is necessary for seasonal reserve supplies of milk from the Toledo market to be moved to the listed or other nearby manufacturing outlets. It is difficult, if not unusual, for handlers or the cooperative association to be able to secure premiums above the field prices announced by these manufacturing plants when it is necessary to dispose of Toledo seasonal reserve supplies of milk. It is possible that the application of the basic formula price as the Class II price, during the season of the year that seasonal reserve supplies must be disposed of to such plants, could very well disrupt the orderly marketing of such milk. It is concluded, therefore, that the adoption of the basic formula price for the pricing of Class II milk should be limited to the months of July through February.

Producers also proposed that skim milk and butterfat used to produce cottage cheese, presently classified as Class II milk, be priced at 30 cents per hundredweight above the basic formula price. Cottage cheese is produced from producer milk in a number of pool plants. Cottage cheese distributed by other pool plants is procured from outside sources. Cottage cheese also is disposed of directly to retail and wholesale outlets by nonpool plants which produce cottage cheese from milk which is not required to be produced under "Grade A" milk or equivalent health standards. Some of the cottage cheese disposed of in the Toledo marketing area is produced from milk which is priced under the Detroit Federal order. The health departments of the various cities and communities in the marketing area do not require cottage cheese to be made from inspected milk. This is also true of milk used for the production of cot-

tage cheese for disposition in the Detroit market. Even though the production of a good quality cottage cheese requires a high quality raw milk, under the prevailing competitive conditions in the Toledo marketing area, producer milk used to produce cottage cheese should be priced at the Class II price the same as milk for other manufacturing uses.

4. The proposal to establish in the order premiums for bulk farm tank milk deliveries should be denied.

Producers proposed that premiums of 15 cents per hundredweight be established in the order for milk from producers using bulk farm tanks. They argued that some producers are being asked to make considerable investments in farm bulk tanks and improved milk house facilities to maintain their market outlets for milk.

The conversion to bulk tank operations in the Toledo area is in its early stage of development. About five percent of the producers supplying the market have farm bulk tanks. Most handlers are paying premiums to producers for bulk tank deliveries on a voluntary basis. Such premiums are about equivalent to the reduction in hauling costs from the farm to the milk plant which is experienced by most producers when they change from "can" to "bulk" shippers.

Bulk tank handling of milk has potentials for increased efficiency, both on the farm and in transportation and handling beyond the farm. The adoption of more efficient methods of producing, transporting, handling or processing milk affords no economic basis for increasing milk prices. The establishment of order price premiums for bulk farm tank milk could be discriminatory in effect to producers who deliver their milk in cans. Order provisions should not be such as to constitute artifical economic incentives, either for expansion or restriction of bulk tank pickup operations. Any premiums to producers for conversion to bulk tank handling can best be resolved on an economic basis in accordance with local conditions by negotiation between producers and handlers. It is therefore concluded, that producers' proposal should be denied.

5. Provision should be made for location adjustments on milk received at pool plants located more than 60 miles from the City Hall in Toledo.

Proposals were made to include location adjustments on producer milk at country pool plants. One proposal would allow location adjustments to handlers on such milk disposed of as Class I milk. Another proposal would permit location adjustments to handlers on all of the producer milk received at country pool plants regardless of its classification.

The handler formally submitting the proposal for location adjustments, operates a distributing plant in Toledo where a substantial portion of the fluid milk requirements for this plant is received directly from producers. This handler also operates plants at Angola, Indiana and at Bluffton, Ohio, where producer milk is handled. These plants are located approximately 80 and 65 miles, respectively, from Toledo. No processing facilities are operated at the Angola plant and nearly all of the milk received at this plant is moved as bulk milk to the Toledo bottling plant. At times, transfers of bulk milk are made to the Bluffton plant. The Bluffton plant has facilities for receiving "Grade A" milk and for the production of condensed milk and spray dried skim milk. Some or all of the milk transferred from the Angola plant to the Bluffton plant, at certain times, is separated into skim milk and cream and moved to the Toledo plant. In the past, milk received at the Bluffton plant directly from Toledo producers has been diverted producer milk from the Toledo distributing plant. The producers supplying all of these plants with milk for the Toledo market hold "Grade A" permits issued by the Toledo Health Department. The Bluffton plant also assembles "Grade A" milk from local producers which is moved regularly to a plant in Mansfield, Ohio, for fluid disposition in Mansfield and Findlay, Ohio. Milk assembled at the Bluffton plant for Mansfield and Findlay is required by the Health Departments to be kept physically separate from the Toledo milk. Separate storage facilities are provided for the Mansfield milk, although the same receiving equipment is used for all of the milk received at this plant. The milk received at the Bluffton plant for the Mansfield and Findlay markets is subject to the pricing and payment provisions of the Federal order for the Lima, Ohio, marketing area.

Because milk is transferred regularly from the Angola plant to the Toledo distributing plant, the Angola plant is subject to full regulation under the Toledo order. The Bluffton plant has not been subject to regulation under the Toledo order. However, it is quite possible that this plant could be subject to regulation in the future by virtue of transfers of milk, fluid skim milk and fluid cream to the Toledo bottling plant on more than the minimum number of days provided for exemption from regulation under the proposed order. This not only poses the problem of pricing milk at such plants but also the problem of providing appropriate provisions in this order and in other orders for ascertaining which order the handling of milk at such plants will be subject to regulation. This latter problem is discussed further under issue 7 of this decision.

The other proponent of location adjustments operates a distributing plant located in Tiffin, Ohio, from which milk is disposed of in the proposed extended marketing area in Sandusky County, Ohio. This plant is located between 50 and 55 miles from Toledo and about 25 miles from the center of the proposed extended marketing area in Sandusky County. There are other distributing plants which will be subject to regulation which are located within or near the proposed extended marketing area but more than 30 miles from Toledo.

Without a provision for location adjustments in the order, handlers are required to pay for milk received from producers at pool plants located at considerable distances from the marketing area, the same price as that paid for milk received at plants located in or near this consuming area. On the milk received from producers at distant pool plants, the handler assumes the cost of moving the milk from the plant to marketing area distributing plants or in packaged form to retail and wholesale outlets in the marketing area. In contrast, the entire cost of moving milk from farms directly to plants in the marketing area is borne by producers. Therefore, milk at farms or at plants has a progressively lower value to the market as such farms or plants are located farther and farther away from the market. The difference in value is related directly to the cost of transporting the milk from the respective locations to the market. It is economically sound and necessary to recognize such differences in value under the order by providing location adjustments in the pricing of milk at distant pool plants.

It is not necessary or sound, however, to apply location adjustments to milk at plants located within or near this marketing area, if the milk can be handled more economically by hauling it directly from the farm to plants in the marketing area. To do so would permit and even encourage uneconomic handling of the milk supply for the market, primarily at the expense of producers, and at the same time, result in differences in prices at distributing plants similarly situated with respect to the marketing area outlets for their milk.

As previously indicated, the only plant which regularly assembles milk for movement in bulk form to marketing area plants is located approximately 85 miles from Toledo. A substantial portion of the balance of the milk supply for the marketing area originates on farms within a 60-mile radius of Toledo and is moved directly from the farm to plants located in or near the marketing area.

In determining the appropriate application of location adjustments in this market, consideration also should be given to the resulting Class I prices applicable at plants at various locations in the production area as compared with the corresponding prices which would result at such locations under the orders for other markets which compete for the same milk supplies. In areas to the east and south of Toledo, milk is procured in competition with plants regulated under the Cleveland and Lima orders. In the area around Angola, Indiana, competition is experienced with the regulated Fort Wayne, Indiana, and Detroit, Michigan, markets and to the north of the marketing area with the Detroit market.

In view of all of these considerations, it is concluded that location adjustments should not be applied in the pricing of milk at plants which are located less than 60 miles from the City Hall of Toledo. Under present conditions, this would result in identical Class I prices at all distributing plants supplying retail and wholesale outlets in the marketing area.

The schedule of location adjustments proposed by the proponent was patterned after the location adjustments contained in the Cleveland order. The Cleveland order provides for location adjustments to handlers on Class I and Class II milk at the rate of 20 cents for plants located 60 to 74 miles from Cleveland and an additional two cents for each additional 14 miles that the plant is located from Cleveland. Under the Detroit order, an adjustment of 14 cents is applied to Class I milk in the 34 to 50-mile zone with an additional one cent for each additional 20 miles or fraction thereof that such plant is located from Detroit. No adjustment, however, is applied at distributing plants which are located less than 34 miles from the boundary of the Detroit marketing area. Under both orders, the uniform price to producers is adjusted at the same rate as the location adjustments to handlers on Class I milk. Because all producers supplying the pool plants of a handler share equally in the Class I utilization of such handler, prices paid producers supplying plants to which location differentials apply, should be reduced to reflect the lower value of such milk f. o. b. the plant to which it is delivered.

The proponent handler testified that the cost of hauling tank bulk milk from his Bluffton plant to Toledo, approximates $36 per trip or 15 cents per hundredweight and from Angola to Toledo approximates $45 per trip or 18 cents per hundredweight.

In view of all of these facts, it is concluded that the rate of adjustment under the Toledo order should be 15 cents per hundredweight for milk received at plants located more than 60 but less than 75 miles from the City Hall in Toledo and an additional 2 cents per hundredweight should be allowed for each additional 15 miles or fraction thereof that the pool plant is located from the City Hall. It is expected that the recomended location adjustment to handlers will generally approximate the cost of moving milk from a pool plant to the center of consumption in the marketing area. The Toledo City Hall is an appropriate point from which to measure the distance to the pool plant for the purpose of computing the applicable location differential.

Under present conditions and operating methods, it is likely that location adjustments would apply only to milk received at the pool supply plant located at Angola, Indiana. At other plants located in this general area and which are potential supply plants for the Toledo marketing area, the resulting Class I prices at such locations will be about the same as the levels prevailing for such locations under the orders regulating the handling of milk in the neighboring markets.

No adjustment should be made in the Class II (manufacturing milk) price to handlers because of the location of the plant to which the milk is delivered. There is little difference in the value of milk for manufacturing uses associated with the location of the plant receiving the milk. This is true because of the low cost per hundredweight of milk involved in transporting manufactured products and because of the widespread or national market for such products. The prices paid for ungraded milk received at various sections of the milkshed do not indicate any differences in value associated with location. After a handler receives milk for use in Class II products, he should be expected to handle and dispose of the milk in the manner most advantageous to himself. The prices paid by handlers for such milk should not be dependent upon the method or manner employed by the handler in disposing of the milk. To do otherwise, would remove part of the incentive for keeping marketing cost at a minimum.

To assure that milk will not be moved unnecessarily at the expense of producers, the order should provide a method for determining whether milk transferred between plants may or may not receive a location differential credit. This should be accomplished by assigning the Class I utilization at the transferee plant first to the milk received directly from producers and from plants at which no location differential applies. In view of the fact that distributing plants must carry some reserve supplies of milk to meet day to day variations in receipts of producer milk and sales of fluid milk products, it is reasonable to make some provision in the assignment procedure to accommodate this need for reserve milk. This should be accomplished by assigning to the Class I sales at the transferee plant 95 percent of the direct producer receipts and any balance of Class I sales to transferring plants, in sequence, according to their location beginning with the plant having the smallest location adjustment.

6. Proposals for separate pricing of Class I milk disposed of outside the marketing area should be denied.

The hearing notice included a proposal by two Toledo handlers to price Class I milk disposed of outside the marketing area at prices lower than minimum prices prescribed for in-area Class I sales. No testimony on this proposal was given by the proponent handlers at the hearing and the proposal therefore is denied.

Producers proposed that Class I sales by a Toledo handler within the marketing area governed by another Federal order should be priced at the higher of the prices paid for Class I milk in the two areas involved. Several Detroit handlers, on the other hand, proposed that Class I sales made in any other Federal order area should be priced under the order in which the Class I sales are made. As an alternative, they proposed that Toledo and Detroit Class I pricing should be brought into closer alignment.

Both producers and handlers testified to the effect that the solution to the problems prompting these proposals could be solved satisfactorily by bringing about proper Toledo Class I price alignment with the competing markets. Inasmuch as the conclusions reached with respect to pricing of Class I milk under Issue No. 2 will ameliorate the problem complained of, it is concluded that no further affirmative action is necessary with respect to these proposals at this time.

7. The entire order should be redrafted to change several definitions, add a number of new definitions, add more specificity in the provisions with respect to the reporting and accounting for milk, and to incorporate a number of conforming and clarifying changes throughout the order.

A number of changes should be made in the order to designate more clearly what milk and what plants would be subject to the regulation and the application of the order provisions to them. This can best be done by providing a number of new definitions to set forth the categories of persons, plants, milk and milk products. New definitions should be added for "distributing plant", "supply plant", "pool plant", "nonpool plant", "fluid milk product", "Chicago butter price" and the definitions of "producer", "producer milk", "handler", "producer-handler" and "other source milk" should be modified accordingly.

The term "distributing plant" should include all plants where milk is processed and packaged and from which fluid milk products are disposed of in the marketing area to wholesale and retail stops, including milk disposed of to such outlets through vendors. The term "supply plant" should mean a plant from which milk, skim milk or cream is transferred to a distributing plant.

The term "pool plant" should include all distributing plants and all supply plants which are to be fully subject to regulation under the order and whose receipts of milk from producers will be subject to the pricing and payment provisions of the order. A "pool plant" should be defined to include a distributing plant from which more than 10,000 pounds of fluid milk products are disposed of in the marketing area during the month. The term "pool plant" should also include supply plants from which shipments of milk, skim milk or cream are made to a distributing plant(s) on 15 days or more during any of the months of September through December or during any other month on 7 days or more, as provided by the present order. The present provision should be continued also to exclude from the pool plant definition a supply plant from which no transfers of such products are classified as Class I milk. With the proposed expansion in the marketing area, as heretofore discussed, it is possible that there may be a few plants which would be subject to full regulation under the present definitions of the order even though the sales of milk from such plants in the proposed marketing area are a very minor portion of the total sales in the area. It is not necessary to extend full regulation to the handlers of such milk. This may be accomplished by excluding from full regulation, distributing plants which dispose of 10,000 pounds or less of fluid milk products in the marketing area during the month.

Provision should be made also for the exclusion under the pool plant definition of supply plants or distributing plants which would be subject to the classification and pricing provisions of another order issued pursuant to the act, if a lesser volume of fluid milk products classified as Class I milk is furnished from such a plant for disposition in the Toledo marketing area than in the marketing area regulated pursuant to such other order. Plants which dispose

of fluid milk products in more than one marketing area need not be subject to duplicate regulation to accomplish the the declared purpose of the act. It is reasonable and economically sound to regulate a plant under the order regulating the handling of milk for the marketing area where the largest proportion of the plant's Class I milk is disposed of. This should be determined on the basis of sales during each of the immediately preceding three months. The use of a three-month period will reduce the possibility that plants which supply nearly equal amounts of milk in the Toledo and other marketing areas will be subject to different orders from month-to-month as a result of minor monthly variations in sales as among the areas.

"Handler" should be defined to include any person who operates a distributing plant or a supply plant. By defining the operators of such plants as handlers, such persons will be required to report to the market administrator with respect to such plants at such time and in such manner as the market administrator finds necessary to establish their status as partially or fully regulated plants and to assemble the necessary market information essential to the proper administration of the order. The foregoing plant definitions will include as fully regulated persons and plants the same persons and the same plants as are now regulated by the order.

The present order in some instances refers to plants operated by a nonhandler. A more explicit term for such references is the term "nonpool plant". Definitions also have been included in the order for "fluid milk product" and "Chicago butter price". The addition of these proposed new definitions is not intended to change the intent of the present order but their application will facilitate the drafting of other order provisions.

Definitions of "producer", "producer milk" and "producer-handler" should be modified to incorporate the necessary references to the other new definitions. Producer-handlers and the milk produced by them should be excluded from the producer and producer milk definitions. Under the present order, milk received from a producer-handler is treated the same as other source milk and this may be accomplished by merely excluding a producer-handler from the producer definition.

Milk is sometimes diverted directly from the farm to nonpool plants. In order to distinguish between the milk of producers who may be temporarily diverted and those who may be more or less permanently diverted from the fluid market, some limitation on the length of time that milk may be diverted and still be considered as producer milk under the order is desirable. Based on the conditions in this market, it is concluded that milk of a dairy farmer which is diverted to a nonpool plant on more than one-third of the number of days of delivery during any month, except during the months of March, April, May and June, when receipts of milk from producers are relatively large in relation to Class I sales should not be considered as producer milk under the order. Milk of a dairy farmer which is diverted to a nonpool plant in excess of one-third of his deliveries during July through February is not sufficiently associated with this market for his milk to be regularly priced and pooled with other producer milk. Free diversion of milk during March through June will facilitate the economical disposal of seasonal reserve supplies. In view of the recommendation to include location adjustments in the order, provision should be made to consider milk which is diverted to have been received at a pool plant at the same location as the plant from which it was diverted for the account of a cooperative or a proprietary handler.

The definition of "other source milk" should be modified to clarify its meaning and to specify in the definition that it includes all milk utilized in the operations at a pool plant except producer milk, fluid milk products received from other pool plants and inventory of fluid milk products on hand at the beginning of the month. Other source milk represents all skim milk and butterfat used in a pool plant which is not subject to the pricing provisions of the order during the month. It will include all fluid milk products from plants other than pool plants and all manufactured dairy products from any source which are repackaged, reprocessed or converted into another product in the pool plant during the month. It will include those manufactured products from a pool plant's own production which are reprocessed or converted into another product during the same or a later month.

Some handlers in the market produce condensed milk, nonfat dry milk and other manufactured milk products. Some of these products are reused in the pool plant where produced or are disposed of to other pool plants. Operators of other pool plants may purchase solids from outside sources. Condensed solids or nonfat dry milk may be used for reconstituting certain fluid milk products or to fortify skim milk drinks. Such solids are required by the health regulations to be made from Grade A milk and should be classified as Class I milk when disposed of in a fluid milk product the same as all other skim milk in Class I milk. There appears to be no reason why one portion of the solids nonfat contained in Class I products should be classified differently from another portion in this market. The pounds of skim milk disposed of in any reconstituted or fortified fluid milk product, therefore, should be accounted for as an amount equal to the nonfat milk solids contained in such product plus the water content normally associated with such solids in the form of whole milk.

To promote uniformity in the cost of milk among handlers and to effectuate the established principle of allocating current receipts of producer milk to Class I utilization to the fullest extent, the skim milk in other source milk in the form of a manufactured product, likewise, must be accounted for on the basis of the nonfat solids plus the water normally associated with such solids in the form of whole milk. This accounting procedure will have no effect on the net classification of other source milk used in Class II milk products.

The change in definition of other source milk and its application to all manufactured products on a milk equivalent basis, whether such products come from milk from producers or from other sources, necessitates providing that shrinkage be determined on the basis of other source milk received in the form of fluid milk products. The two percent limitation on the amount of shrinkage classified as Class II milk should apply only to other source milk received in the form of fluid milk products the same as that applicable to producer milk. Because skim milk and butterfat is accounted for in Class II milk products on a used-to-produce basis, any shrinkage is included in the amount of skim milk and butterfat reported in the manufactured products used for such manufacturing purposes. Furthermore, to allow unlimited shrinkage on other source milk, both in the form of fluid milk and manufactured products, and limit shrinkage on producer milk, would provide a basis for inequality in the cost of milk among handlers who use other source milk and those who do not. Thus, it is reasonable to preclude this possibility of inequality by the use of other source milk. Furthermore, without such provision, producer milk could be assigned inequitably to a lower classification under circumstances where substantial amounts of milk are unaccounted for and the handler has received other source milk.

By incorporating the proposed definition of other source milk together with conforming changes, the order will be more specific with respect to the method of accounting for such milk. Identical accounting procedures will be followed by all handlers whether or not manufactured products (Class II) which are used in the handler's pool plant are converted from producer milk or purchased from outside sources. The skim milk and butterfat used to produce manufactured products are now and should continue to be considered as disposed of when so utilized and therefore not enter into the monthly classification and allocation procedure again, unless such products are repackaged or reused. Records of sales and stocks of such products, however, must be maintained by the handler to facilitate the auditing program of the market administrator and substantiate current usage of such products. Any other source milk, including that derived from manufactured products will continue to be allocated first to the available Class II utilization. The application of the new definition of other source milk in conjunction with other provisions of the order will provide for the allocation of producer milk to Class I in each month to the fullest extent that producer milk is available from current receipts or beginning inventory of fluid milk products.

Because handlers may have inventories of milk and milk products on hand at the beginning and end of each month, such inventories must enter into the accounting procedure for current receipts and utilization of producer milk. Although the order is silent in this respect inventory variations are classified in Class II milk under current practice. Month-end inventories of fluid milk products whether in bulk or packaged form should continue to be classified as Class II milk. Manufactured milk products (Class II) will not be included in inventory accounting because the skim milk and butterfat used for such products are accounted for in the month when such products are manufactured.

Because handlers frequently use other source milk in their operations, the inventory accounting procedure should provide for producer milk from inventory to have prior claim on Class I utilization over receipts of other source milk in the same manner as current receipts of producer milk. Because inventories of fluid milk items are to be accounted for at the end of the month in Class II milk, as a temporary classification, it is necessary, therefore, to provide a method for handling producer milk in inventory which is allocated to Class I milk in the current month but which the handler accounted for in Class II milk at the end of the preceding month. The higher use value of any fluid milk product from beginning inventory of producer milk which is disposed of as Class I milk should be reflected in returns to producers. Such milk should be priced the same as a current receipt of producer milk. These goals may be accomplished, through the accounting procedure, by considering the opening inventory as a receipt in that month and subtracting such receipt, under the allocation procedure, in series, starting with Class II milk, following the subtraction of other source milk and receipts from other pool plants. To the extent that the opening inventory is allocated to Class I milk and there was an equivalent amount of skim milk and butterfat in producer milk classified in Class II milk in the previous month (after allocating allowable producer milk shrinkage and other source milk), a reclassification charge should be made at the difference between the Class II price in the previous month and the Class I price in the current month. Handled in this manner, milk from inventory will be priced to handlers identically with milk derived from current receipts of producer milk during the month. This method of accounting for inventory will result in equality in the cost per hundredweight of milk among handlers and returns to producers irrespective of whether or not such milk is from opening inventory or is a current receipt.

By incorporating the proposed changes, receipts of milk will fall within four categories as follows:

(1) Producer milk;

(2) Milk from pool plants;

(3) Inventory of fluid milk products; and

(4) Other source milk.

The order should be changed to incorporate references to these categories of milk. The use of these terms will add a desired degree of specificity to the reporting and accounting procedure of the order.

DEFINITIONS

§ 930.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 1940 ed., 601 et seq.).

§ 930.2 *Secretary.* "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary.

§ 930.3 *Department.* "Department" means the United States Department of Agriculture.

§ 930.4 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 930.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association: (a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; (b) to have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and (c) to have all of its activities under the control of its members.

§ 930.6 *Toledo, Ohio, marketing area.* "Toledo, Ohio, marketing area", called the "marketing area" means all of the territory within the boundaries of Fulton and Lucas Counties; all of the territory within the boundaries of Wood County north of the northern boundaries of the townships of Milton, Liberty, Portage, and Montgomery, including all of the town of Weston; all of the territory within the townships of Woodville and Madison in Sandusky County, all in the State of Ohio; and in the State of Michigan, all of the territory within the boundaries of Monroe County, except that territory within the boundaries of the townships of Ash, Berlin, Exeter, London, Milan, and Dundee; and all of the territory within the boundaries of the townships of Riga, Ogden, Palmyra, Blissfield, and Deerfield in Lenawee County.

§ 930.7 *Distributing plant.* "Distributing plant" means a plant where milk is processed or packaged and from which milk is disposed of as Class I milk in the marketing area, either on the premises or to a wholesale or retail stop(s), including sales through vendors.

§ 930.8 *Supply plant.* "Supply plant" means a milk plant from which milk, skim milk or cream is transferred to a distributing plant(s).

§ 930.9 *Pool plant.* "Pool plant" means (a) a distributing plant from which more than 10,000 pounds of milk is disposed of in the marketing area during the month and (b) a supply plant during September through December in which shipments of milk, skim milk or cream are made to a plant described pursuant to paragraph (a) of this section on 15 days or more during the month or during any other month on 7 days or more: *Provided,* That a supply plant, which was not a pool plant during the immediately preceding September through December period, shall not be included in this definition during any month in which no such transfers are allocated from Class I milk pursuant to § 930.46.

§ 930.10 *Nonpool plant.* "Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 930.11 *Producer.* "Producer" means any person, except a producer-handler, who produces milk and who holds a dairy farm inspection permit issued by the appropriate health authority of the community for which the milk is produced if such community requires such permit for milk for disposition as Class I milk therein, which milk is (a) received at a pool plant or (b) diverted from a pool plant to another pool plant or to a nonpool plant pursuant to the conditions set forth in § 930.12.

§ 930.12 *Producer milk.* "Producer milk" means only that skim milk and butterfat contained in the milk received at (a) a pool plant directly from producers or (b) diverted for the account of the operator of a pool plant or a cooperative association from a pool plant to another pool plant or to a nonpool plant: *Provided,* That producer milk shall not include that milk of a producer which is diverted to a nonpool plant on more than one-third of the number of days of delivery during any month other than the months of March through June. Producer milk diverted shall be deemed to have been received at a pool plant at the same location as the pool plant from which it was diverted.

§ 930.13 *Handler.* "Handler" means (a) any person who operates a distributing plant or a supply plant and (b) any cooperative association with respect to producer milk diverted by it in accordance with the conditions set forth in § 930.12.

§ 930.14 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers.

§ 930.15 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), concentrated milk, eggnog, cream, or any mixture in fluid form of skim milk and cream (except storage cream, aerated cream products, ice cream mix, and evaporated or condensed milk).

§ 930.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts during the month in the form of fluid milk products, except (1) producer milk, (2) fluid milk products received from other pool plants, and (3) inventory at the beginning of the month; and

(b) Products other than fluid milk products from any source (including

those produced at the plant) which are reprocessed, repackaged or converted to another product in the plant during the month.

§ 930.17 *Chicago butter price.* "Chicago butter price" means the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter, at Chicago, as reported for the month by the Department.

MARKET ADMINISTRATOR

§ 930.20 *Designation.* The agency for the administration of this part shall be a market administrator selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal by the Secretary.

§ 930.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 930.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 30 days following the date on which he enters upon his duties execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 930.74;

(1) The cost of his bond and of the bonds of his employees,

(2) His own compensation, and

(3) All other expenses, except those incurred under § 930.75, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to § 930.30, or (2) payments pursuant to §§ 930.70, 930.74, 930.75, and 930.77;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Audit records of all handlers to verify the reports and payments required pursuant to the provisions of this part; and

(i) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each delivery period as follows:

(1) On or before the 5th day after the end of such delivery period, the minimum class prices and the butterfat differential for each class computed pursuant to § 930.50, and § 930.52, and

(2) On or before the 12th day after the end of such delivery period the uniform price computed pursuant to § 930.61 and the butterfat differential computed pursuant to § 930.72.

REPORTS, RECORDS AND FACILITIES

§ 930.30 *Monthly reports of receipts and utilization.* On or before the 5th day after the end of each month, each handler shall report to the market administrator, for each of his pool plants in the detail and on the forms prescribed by the market administrator the following:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk;

(b) The quantities of skim milk and butterfat contained in or represented by fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in or represented by other source milk;

(d) The quantities of skim milk and butterfat contained in or represented by inventories of fluid milk products on hand at the beginning of the month;

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(f) Such other information with respect to such receipts and utilization as the market administrator may prescribe.

§ 930.31 *Other reports.* (a) Each handler, who operates a pool plant, shall report to the market administrator in the detail and on the forms prescribed by the market administrator, on or before the 20th day after the end of each month, his producer payroll for the month which shall show (1) the pounds of producer milk received from each producer and the percentages of butterfat contained therein, (2) the amounts and dates of payments to each producer or cooperative association, and (3) the nature and amount of each deduction or charge involved in the payments referred to in subparagraph (2) of this paragraph.

(b) Each handler who operates a supply or distributing plant, not a pool plant, shall report to the market administrator in the detail and on forms prescribed by the market administrator, at such time and in such manner as the market administrator may request.

§ 930.32 *Records and facilities.* Each handler shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of all of his operations and such facilities as, in the opinion of the market administrator, are necessary to verify reports, or to ascertain the correct information with respect to (a) the receipts and utilization of all skim milk and butterfat received including all milk products received and disposed of in the same form; (b) the weights and tests for butterfat and for other contents of all milk and milk products handled; and (c) payments to producers and cooperative associations.

§ 930.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That, if within such three-year period, the market administrator notifies a handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 930.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat which are required to be reported pursuant to § 930.30 shall be classified each month by the market administrator pursuant to the provisions of § 930.41 through § 930.46.

§ 930.41 *Classes of utilization.* Subject to the conditions set forth in § 930.43 the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be (1) all skim milk and butterfat disposed of in the form of a fluid milk product (except for livestock feed), and (2) not accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat accounted for (1) as used to produce a product other than a fluid milk product, (2) in inventory of fluid milk products on hand at the end of the month, (3) as disposed of for livestock feed, and (4) as actual plant shrinkage of skim milk and butterfat allocated to producer milk and other source milk in fluid milk products pursuant to § 930.42 but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively.

§ 930.42 *Shrinkage.* The market administrator shall allocate shrinkage at the handler's pool plant(s) as follows:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, at such plant(s); and

(b) Prorate the resulting amounts between receipts of skim milk and butterfat, respectively, in producer milk and in other source milk received in the form of a fluid milk product.

§ 930.43 *Transfers.* Skim milk or butterfat disposed of by a handler from a pool plant, shall be classified:

(a) As Class I milk if transferred or diverted in the form of a fluid milk product to the pool plant of another handler except as:

(1) Utilization in Class II milk is claimed by the operators of both plants in their reports submitted pursuant to § 930.30;

(2) The receiving handler has utilization in Class II of an equivalent amount of skim milk and butterfat, respectively; and

(3) The classification of the skim milk or butterfat so transferred results in the classification at both plants of the maximum Class I utilization to the producer milk at both plants, if either or both handlers have other source milk during the month;

(b) As Class I milk if transferred or diverted to a nonpool plant in the form of milk, skim milk or cream in bulk to a nonpool plant located less than 250 miles from the City Hall of Toledo, Ohio, by the shortest highway distance as determined by the market administrator, unless:

(1) The transferring or diverting handler claims classification as Class II milk in his report submitted pursuant to § 930.30 for the month;

(2) The operator of the nonpool plant maintains books and records showing the receipts and utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification of such mutually indicated utilization; and

(3) An equivalent amount of skim milk and butterfat was used in products in Class II milk.

(c) As Class I milk if transferred or diverted in bulk in the form of milk or skim milk or cream to a nonpool plant located 250 miles or more from the City Hall at Toledo, Ohio, by shortest highway distance as determined by the market administrator.

(d) For the purposes of paragraphs (b) and (c) of this section, skim milk and butterfat shall not be deemed to have been "disposed of" to a nonpool plant if merely retained in or transferred between trucks or other vehicles which enter the premises or come within the orbit of such plant in the course of movement elsewhere.

§ 930.44 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise;

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 930.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the pool plant(s) of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water normally associated with such solids in the form of whole milk.

§ 930.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 930.45, the market administrator shall determine the classification of producer milk received at the pool plant(s) of each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 930.41 (b) (4);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products;

(3) Subtract from the remaining pounds of milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk other than that received in the form of fluid milk products;

(4) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from the pool plants of other handlers according to the classification of such products as determined pursuant to § 930.43 (a);

(5) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph and if the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II.

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of producer milk remaining in each class computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 930.50 *Class prices.* Subject to the provisions of §§ 930.52 and 930.53, each handler shall pay not less than the following prices per hundredweight, on the basis of 3.5 percent butterfat content, for producer milk received at his pool plant during the month:

(a) *Class I milk price.* (1) Except as provided in subparagraph (2) of this paragraph, add to the basic formula price the following amount for the delivery period indicated:

Delivery period:	*Amount*
April, May, and June	$1.00
February, March, and July	1.25
All others	1.65

(2) The price for Class I milk shall be the amount computed pursuant to subparagraph (1) of this paragraph plus or minus a "supply-demand adjustment" computed pursuant to subdivisions (i), (ii), and (iii) of this subparagraph: *Provided,* That the price shall not be adjusted by the supply-demand adjustment factor until the utilization percentage computed pursuant to subdivision (i) of this subparagraph is equal to or exceeds the standard utilization percentage pursuant to subdivision (ii) of this subparagraph for each of three successive months:

(i) Divide the total receipts of producer milk during the first and second months preceding by the total gross volume of Class I milk (less interhandler transfers) during the same two months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the "utilization percentage".

(ii) Compute a "deviation percentage" by subtracting from the utilization percentage as computed in subdivision (i) of this subparagraph, the "standard utilization percentage" shown in this subdivision:

Month for which the price is being computed:	*Standard utilization percentage*
January	115
February	123
March	129
April	130
May	130
June	137
July	138
August	127
September	116
October	108
November	105
December	108

(iii) Determine the amount of the supply-demand adjustment from the following schedule:

If deviation percentage is:	*Supply-demand adjustment is: (cents)*
+16 or over	−50
+13 or +14	−40
+10 or +11	−30
+7 or +8	−20
+4 or +5	−10
+2 or −2	0
−4 or −5	+10
−7 or −8	+20
−10 or −11	+30
−13 or −14	+40
−16 or under	+50

When the deviation percentage does not fall within the tabulated brackets the adjustment shall be determined by the adjacent bracket which is the same as or nearest to the bracket used in the previous month.

(b) *Class II milk price.* The Class II milk price shall be (1) during the months of July through February, the highest

of the prices per hundredweight computed pursuant to § 930.51 or subparagraph (2) of this paragraph for the month and (2) during the months of March through June, the average (computed to the nearest tenth of a cent) of the basic or field prices per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following locations for which prices have been reported to the market administrator or to the Department on or before the 5th day after the end of the month by the companies listed below:

Company and Location

Pet Milk Co., Delta, Ohio.
Defiance Milk Products Co., Defiance, Ohio.
Pet Milk Co., Hudson, Mich.

§ 930.51 *Basic formula price.* The basic formula price per hundredweight (computed to the nearest tenth of a cent) to be used in determining the class prices pursuant to § 930.50 shall be the highest of the prices per hundredweight for milk of 3.5 percent butterfat content computed pursuant to paragraph (b) (2) of § 930.50, or to paragraphs (a), (b), and (c) of this section.

(a) The average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department on or before the 5th day after the end of the month by the companies indicated below:

Companies and Location

Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed as follows:

(1) Multiply by 8.53 the average of the daily prices per pound of cheese at Wisconsin primary markets ("Cheddars," f. o. b. Wisconsin assembling points, cars or truckloads) as reported by the Department during the month;

(2) Add 0.902 times the Chicago butter price; and

(3) Subtract 34.3 cents.

(c) The price her hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the Chicago butter price subtract three cents, and multiply by 4.2; and

(2) From the arithmetical average of the carlot prices per pound for nonfat dry milk (not including that specifically designated animal feed), spray and rolled process, f. o. b. manufacturing plants in the Chicago area, as published by the Department during the month, deduct 5.5 cents, and multiply by 8.2, except that if such agency does not publish such prices f. o. b. manufacturing plants, there shall be used for the purpose of this computation the arithmetical average of the carlot prices thereof delivered at Chicago, Illinois, as published weekly by such agency during the month; and in the latter event the figure "7.5" shall be substituted for "5.5" in the above formula.

§ 930.52 *Butterfat differentials to handlers.* If the weighted average butterfat test of producer milk which is classified, respectively, in any class of utilization, pursuant to § 930.46, is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of one percent that such weighted average butterfat test is above or below, respectively, 3.5 percent, a butterfat differential (computed to the nearest tenth of a cent), calculated for each class of utilization as follows:

(a) *Class I milk.* Multiply the Chicago butter price by 0.125;

(b) *Class II milk.* Multiply the Chicago butter price by 0.120.

§ 930.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 60 miles or more from the City Hall, Toledo, Ohio, by the shortest hard-surfaced highway distance, as determined by the market administrator, and which is transferred to a distributing plant which is a pool plant in the form of a fluid milk product and assigned to Class I pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 930.50 (a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the Toledo City Hall (miles):	Rate per hundredweight (cents)
60 but less than 75	15
75 but less than 90	17
For each additional 15 miles or fraction thereof an additional	2.0

Provided, That for the purpose of calculating such location differentials, fluid milk products which are transferred between pool plants shall be assigned to Class I milk to the extent that the gross Class I utilization at the transferee plant exceeds 95 percent of the receipts of producer milk at such plant, such assignment to transferor plants to be made first to plants at which no location adjustment is applicable and then in sequence according to the location differential applicable at each plant beginning with the plant having the smallest differential.

§ 930.54 *Use of equivalent prices.* If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

HANDLER'S OBLIGATION AND UNIFORM PRICE

§ 930.60 *Computation of net obligation for each handler.* The value of producer milk received during each month by each handler shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of milk in each class by the applicable class prices and add together the resulting amounts;

(b) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 930.46 (a) (6) and the corresponding step of (b) by the applicable class price;

(c) Add the amount obtained in multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of producer milk classified in Class II less shrinkage during the preceding month, or the hundredweight of milk subtracted from Class I pursuant to § 930.46 (a) (5) and the corresponding step of (b), whichever is less;

(d) Adjust the resulting amount by the sum of money used in adjusting the uniform price for the previous month to the nearest cent, pursuant to § 930.61 (d); and

(e) Add or subtract, as the case may be, the amount necessary to correct errors in classification for previous delivery periods as disclosed by audit of the market administrator.

§ 930.61 *Computation of uniform price.* For each month, the market administrator shall compute for each handler a "uniform price" per hundredweight, on the basis of 3.5 percent butterfat content, for producer milk received by such handler as follows:

(a) From the value of milk computed for such handler pursuant to § 930.60, deduct, if the weighted average butterfat test of all producer milk received by him is greater than 3.5 percent, or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the variance of such weighted average butterfat test from 3.5 percent by the butterfat differential computed pursuant to § 930.72 and multiply by 10;

(b) Add an amount equal to the total location adjustments to be made pursuant to § 930.73;

(c) Divide the resulting value by the total hundredweight of producer milk received by such handler;

(d) The resulting figure, rounded to the nearest cent, shall be known as the uniform price for such handler for milk of 3.5 percent butterfat content at a pool plant, located less than 60 miles from the City Hall of Toledo, Ohio.

§ 930.62 *Notification.* On or before the 12th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class;

(b) The uniform price for such handler pursuant to § 930.61 and the butterfat differentials computed pursuant to § 930.72; and

(c) The totals of the amounts to be paid by such handler pursuant to §§ 930.74 and 930.75.

PAYMENTS

§ 930.70 *Time and method of final payment.* (a) On or before the 15th day after the end of each month, each handler shall pay each producer for milk received from him during such month, an amount computed at not less than such handler's uniform price per hundredweight pursuant to § 930.61, subject to the butterfat differential computed pursuant to § 930.72 plus or minus adjustments for errors made in previous payments to such producer; and less (1) payment made pursuant to § 930.71, (2) location differential deductions pursuant to § 930.73, (3) marketing service deductions pursuant to § 930.75 and (4) proper deductions authorized by such producer.

§ 930.71 *Partial payments.* On or before the last day of each month each handler shall pay each producer for milk received from him during the first fifteen days of each month at a rate computed as follows: *Provided,* That in the event a producer discontinues shipping to the market during the month, such partial payments shall not be made and full payment for all milk received from such producer during the month shall be made pursuant to the provisions of § 930.70

(a) Deduct 75 cents from the uniform price for the preceding month for such handler which is applicable at the pool plant where milk is received from such producer.

(b) Add or subtract any amount by which the Class I price differential for the current month is greater than or less than, respectively, the differential for the preceding month.

(c) Round off the result to the nearest multiple of 10 cents.

§ 930.72 *Producer butterfat differential.* In making payments pursuant to § 930.70 the uniform price for each handler shall be adjusted for each one-tenth of one percent of butterfat content in the milk of each producer above or below 3.5 percent, as the case may be, by a butterfat differential computed as follows: Multiply the Chicago butter price by 0.12 and round to the nearest one-half cent.

§ 930.73 *Location differentials to producers.* In making payment pursuant to § 930.70 the uniform price pursuant to § 930.61 to be paid for milk which is received from producers at a pool plant located 60 miles or more from the City Hall, Toledo, Ohio, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the Toledo City Hall (miles):	Rate per hundredweight (cents)
60 but less than 75	15.0
75 but less than 90	17.0
For each additional 15 miles or fraction thereof an additional	2.0

§ 930.74 *Expense of administration.* As his pro rata share of expense incurred pursuant to § 930.22 (d), each handler, except a producer-handler, shall pay the market administrator, on or before the 15th day after the end of each month, 2 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe with respect to receipts during the month of (a) producer milk, (b) other source milk at a pool plant, allocated to Class I milk pursuant to § 930.46 and (c) Class I milk disposed of in the marketing area by a distributing plant, not a pool plant.

§ 930.75 *Deductions for marketing services.* (a) Except as set forth in paragraph (b) of this section each handler, in making payments to producers pursuant to § 930.70, with respect to all milk received from each producer (except milk of such handler's own production) at a plant not operated by a cooperative association of which such producer is a member, shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe; and on or before the 15th day after the end of such month, shall pay such deductions to the market administrator. Such moneys shall be expended by the market administrator to verify weights, samples, and tests of milk of such producers and to provide such producers with market information, such services to be performed by the market administrator, or by an agent engaged by and responsible to him.

(b) Each association of producers which is actually performing the services described in paragraph (a) of this section, as determined by the market administrator, may file with a handler a claim for authorized deductions from the payments otherwise due to its producer-members for milk delivered to such handler. In making payments to producers for milk received during the month, each handler shall make deductions in accordance with the association's claim and shall pay the amount deducted, to the association, within 15 days after the end of the month. Such claim shall contain a list of the producers for which such deductions apply, an agreement to indemnify the handler in the making of the deductions, and a certification that the association has an unterminated membership contract with each producer authorizing the claimed deduction.

§ 930.76 *Reports to cooperatives.* Upon request the market administrator is authorized to report to any cooperative association qualifying under § 930.75 (b) for each month the amount of butterfat shortage or overage in member milk found in any handler's plant, as revealed by the records of the market administrator. For the purpose of this report, the butterfat shortage or overage on member milk shall be determined as the percentage of total butterfat shortage or overage which total receipts of butterfat in member milk is of the total receipts of butterfat in the plant.

§ 930.77 *Errors in payments.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts disclose errors resulting in moneys due (a) the market administrator or cooperative associations from such handler, or such handler from the market administrator or cooperative associations pursuant to §§ 930.74 or 930.75, or (b) any producer or cooperative association from such handler pursuant to § 930.70, the market administrator shall promptly notify such handler of any such amount due; and said payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

APPLICATION OF PROVISIONS

§ 930.80 *Plants subject to other Federal orders.* The provisions of this part shall not apply to a distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant qualified as a pool plant pursuant to § 930.9 and a greater volume of fluid milk products is disposed of from such plant to retail or wholesale outlets and to pool plants in the Toledo, Ohio, marketing area than in the marketing area regulated pursuant to such other order during each of the three months, immediately proceeding: *Provided,* That the operator of a distributing plant or a supply plant which is exempted from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

§ 930.81 *Producer-handlers.* Sections 930.40, 930.50, 930.60, 930.70, 930.74, 930.75, and 930.77 shall not apply to the milk of a producer-handler.

MISCELLANEOUS PROVISIONS

§ 930.90 *Termination of obligations.* (a) The obligations of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers

or association, or, if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books or records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

§ 930.91 *Effective time.* The provisions of this part, or of any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 930.92 *When suspended or terminated.* The Secretary shall, whenever he finds that this part, or any provision thereof, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this part or any such provision thereof.

§ 930.93 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 930.94 *Liquidation.* Upon the suspension of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

§ 930.95 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 930.96 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Filed at Washington, D. C., this 24th day of January 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[7 CFR Part 966]

[Docket No. AO-257-A3]

MILK IN SHREVEPORT, LA., MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in Roof-D, Washington-Youree Hotel, 401 Edwards Street, Shreveport, Louisiana, beginning at 10:00 a. m., local time, Monday, February 4, 1957, for the purpose of receiving evidence with respect to the proposed amendments hereinafter set forth, or appropriate modification thereof, to the tentative marketing agreements heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Shreveport, Louisiana, marketing area (7 CFR 966 et seq.). The proposed amendments have not received the approval of the Secretary of Agriculture.

Proposed by Northwest Louisiana Pure Milk Producers' Association, Inc., Shreveport, Louisiana:

1. Amend § 966.7 to read:

§ 966.7 *Distributing plant.* "Distributing plant" means any plant from which a volume of Class I milk equal to an average of 1,500 pounds per day or not less than 4 percent of the total Class I milk and skim milk disposed of during the month through routes operating wholly or partially within the marketing area (including routes operated by vendors) or through plant stores to retail or wholesale outlets located in the marketing area.

2. Delete § 966.8 (a) and (b) and substitute therefor:

(a) In any of the months March through June;

(b) On five or more days or in an amount equal to a daily average of not less than 5,000 pounds in any of the months July through February.

3. Delete § 966.12 and substitute therefor (a) (1), (2) and (3):

§ 966.12 *Producer.* "Producer" means a person, other than a producer-handler, who produces milk in conformity with the Grade A inspection requirements of any duly constituted health authority having jurisdiction within the marketing area; which milk is received directly from the farm at a fluid milk plant or is diverted from such plant for the account of a handler or the account of a cooperative association provided that milk so diverted shall be deemed to have been received by the diverting handler at the plant from which it was diverted.

(a) *Associated producer.* "Associated producer" means any producer who, with respect to any milk not accepted or accounted for by a handler at a fluid milk plant in any month meets all the following requirements:

(1) Produces milk in conformity with the Grade A inspection requirements of any duly constituted health authority having jurisdiction in the marketing area; and

(2) Delivered milk for not less than 60 days during the previous months of September, October, November or December which milk was received at or diverted from a fluid milk plant; and

(3) Certifies in writing to the market administrator within ten days from the first time any of his milk is not accepted at or accounted for by a handler at a fluid milk plant, that he is ready and willing to deliver his milk to such fluid milk plant, and does so perform in response to appropriate request from the handler.

4. Add a new paragraph (a) to § 966.13 *Producer milk* to read as follows:

(a) *Associated producer milk.* "Associated producer milk" means that portion of the milk produced by one or more associated producers which is not accepted at or accounted for by a handler at a fluid milk plant and is sold at not more than the Class II price.

5. Add a new subparagraph (3) to § 966.27 (k) to read as follows:

(3) On or before the 5th day of the delivery month, furnish each handler operating a fluid milk plant the names and addresses of any associated producers who have declared their willingness to deliver milk to such plant pursuant to § 966.13 (a).

6. Add a new paragraph (c) to § 966.32 to read as follows:

(c) Each associated producer shall submit to the market administrator:

(1) On or before the 5th day of the following delivery month, a statement of the quantity and butterfat test of his milk sold for manufacturing purposes during the previous month; and

(2) On or before the 15th day following such delivery month, payment statements, weight slips and/or such other acceptable evidence to verify the quantity and butterfat test of milk sold by him for manufacturing purposes.

7. Delete paragraphs (a) and (b) of § 966.51 and substitute therefor:

(a) The Class I price shall be the basic formula price as determined pursuant to § 966.50, plus $2.00 for the months of March, April, May and June and plus $2.40 for all other months of the year, except those months when monthly average producer receipts for all handlers are less than 115 percent of average monthly Class I sales by all handlers during the immediately preceding two month period, then a differential of $2.60 shall apply.

(b) *Class II milk price.* The Class II milk price shall be the price computed pursuant to § 966.50 (c) for the months of March, April, May and June and the highest of the price computed pursuant to § 966.50 (a), (b), or (c) for all other months, rounded to the nearest one-tenth of a cent.

(c) *Shrink milk price.* The price for skim milk and butterfat allocated to shrink up to 2 percent of producer milk, as per § 966.42 (a) and (b), shall be the weighted average price for such plant for the current month.

8. Remember § 966.71 (a), (b) and (c) as (b), (c) and (d) and add a paragraph (a) as follows:

(a) Add the value, at the Class II price, of the quantity of associated producer skim milk and butterfat reported pursuant to § 966.27 (m).

9. Add to § 966.72 following aggregate value computed pursuant to § 966.71 by the total hundredweight of—the following: "—total hundredweight of (1) producer milk, (2) associated producer milk specified in § 966.71 (a) received or diverted by such handler."

10. Add new paragraphs (f) and (g) to § 966.90 to read as follows:

(f) On or before the 10th day following the delivery month notify each handler of the quantity and butterfat test of associated producer milk assigned to such handler and the amount to be remitted to the market administrator therefor pursuant to § 966.27 (m).

(g) Payments for associated producer milk.

(1) On or before the 12th day after the end of each month each handler having associated producer milk shall remit to the market administrator for payment to associated producers, an amount computed by multiplying the quantity of associated producer milk determined pursuant to § 966.32 (c) by the difference between such handlers uniform price determined pursuant to § 966.72 and the Class II price determined pursuant to § 966.51 (b).

(2) Such amounts shall be maintained by the market administrator in a separate fund out of which he shall on or before the 15th day after the end of each delivery month, make payments to associated producers on the basis of the verifiable quantity records submitted by them pursuant to § 966.32 (c).

(3) Payments pursuant to subparagraph (2) of this section shall be made to associated producers on the uniform price computed pursuant to § 966.72 for the months August through January and pursuant to § 966.73 for the months February through July.

11. Add a new paragraph (b) to § 966.92 as follows:

(b) In making payments to producers, to cooperative association or to the market administrator pursuant to § 966.90 (g) (2) a handler may deduct the amount computed pursuant to § 966.93 (a).

12. Amend § 966.94 *Expense of administration* by adding a new paragraph (d) to read as follows:

(d) Associated producer milk allocated to his plant pursuant to § 966.90 (f).

13. Delete § 966.80 *Computation of daily average base for each producer* and substitute therefor:

§ 966.80 *Computation of daily average base for each producer.* For the months of February through July of each year the market administrator shall compute a daily average base for each producer as follows, subject to the rules set forth in § 966.81:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of September through December immediately preceding by the number of days for which such producers milk was received by such handler(s) during such period, but not less than ninety.

Proposed by the Dairy Division, Agricultural Marketing Service:

14. Add a new § 966.54 as follows:

§ 966.54 *Use of equivalent price.* If for any reason a price quotation required by this part for computing class prices or for any other purpose is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

15. Make such changes as may be required to make the entire marketing agreement and order, as amended, conform with any amendments thereto which may result from this hearing.

Copies of this notice of hearing and of the order, as amended, now in effect may be procured from the Market Administrator, 3822 Linwood Avenue, Shreveport, Louisiana, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: January 24, 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[7 CFR Part 1013]

[Docket No. AO-279]

MILK IN PLATTE VALLEY, NEBR., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order, regulating the handling of milk in the Platte Valley, Nebraska, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 20th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminatory statement. The hearing on the record of which the following findings and conclusions were formulated, was conducted at Grand Island, Nebraska, on April 10–13, 1956, pursuant to notice thereof dated March 7, 1956 (21 F. R. 1538).

The material issues of record related to:

(1) Whether the handling of milk in the Platte Valley, Nebraska, marketing area is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects interstate or foreign commerce in milk or milk products;

(2) Whether the issuance of an order regulating the handling of milk in the Platte Valley, Nebraska, marketing area will tend to effectuate the declared policy of the act; and

(3) The appropriate terms and conditions to be included in an order with respect to:

(a) Marketing area,
(b) Milk to be priced,
(c) Classification of milk,
(d) Transfers of milk between plants,
(e) Allocation,
(f) Class prices,
(g) Payments to producers, and
(h) Administrative provisions.

Findings and conclusions. The following findings and conclusions on the

material issues are based upon evidence in the record.

1. *Character of commerce.* The handling of milk produced for the Platte Valley, Nebraska, marketing area is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk and its products.

There is interstate commerce in the procurement of milk for this market. One plant from which milk is regularly sold in the marketing area is physically located in Kansas and the majority of its Grade A shippers are also located in that State. Another handler, whose plant is located in the city of Holdrege, Nebraska, has some Grade A producers located in Kansas. Also, this market has regularly depended upon bulk supplemental milk in the fall months when local production is seasonally low. Such supplies are commonly obtained from plants located in Iowa, Minnesota, and Wisconsin. These sources were drawn upon in each of the months of July through December 1954 and August through November 1955. Supplemental milk is also obtained from plants regulated under the Federal milk marketing order for the Omaha-Lincoln-Council Bluffs (Nebraska-Iowa) marketing area. Some of this other Federal order milk is obtained in bulk form during the same months cited above but other portions are regularly obtained in bottled form throughout the year.

There is also direct interstate commerce in the distribution of milk. One handler distributes regularly into Colorado points from a plant located at North Platte, Nebraska. Another distributes regularly into Kansas points from a plant at Holdrege. A subdealer who does no pasteurizing or bottling of Grade A milk, purchases bottled Grade A milk at wholesale from two plants located in the marketing area and distributes it to various points in Kansas.

The production and distribution of milk for fluid purposes in the Platte Valley market is also closely related to the production and sale of milk for manufacturing purposes. It is generally recognized that the manufactured dairy products are sufficiently storable and transportable to be produced and sold on a national market. The producers of Grade A milk for the Platte Valley market are intermingled with the producers of manufacturing grade milk and the prices paid to producers for Grade A milk are established at a sufficient premium over manufacturing prices to encourage producers to undertake the additional expenses involved in Grade A production. Furthermore, the excess milk over and above fluid requirements for the North Platte market is either converted into manufactured products in the handlers' plants or is transferred to specialized manufacturing plants. In either case, substantial portions of the resulting products are sold in interstate commerce and all of them are in direct competition with manufactured dairy products moving in interstate commerce.

It will be noted that there is interstate commerce in three major respects: procurement of milk for the market, distribution by handlers, and in close relationships with the national markets for manufactured dairy products.

2. *Need for regulation.* Marketing conditions in the Platte Valley area are such that the issuance of a marketing order, such as that set forth herein, will tend to effectuate the declared policy of the Act with respect to milk produced for the Platte Valley fluid milk market.

Stability of marketing conditions and reasonable certainty of an adequate supply of pure and wholesome milk can be assured for this marketing area only when all milk handlers in the area have reasonably equal costs of milk according to use and only when farmers supplying the market receive substantially the same prices per hundredweight for milk of equal quality.

These conditions do not now exist. A cooperative association of producers supplies nearly all the milk used by dealers whose plants are located in Grand Island and Hastings. The association sells milk on a class use basis whereby each of the distributors pays the same price for milk used in each of four specified classes. The association pools the sales returns, and each producer is paid the uniform price, subject only to variations in butterfat content and in seasonality of production.

A diversity of purchase plans is in effect at other plants in the area. Both of the handlers operating plants at North Platte pay producers under base and excess plans. One of them assigned his producers fixed bases which remained unchanged regardless of subsequent production changes. The other handler operated a base plan under which individual producers established new bases each fall. However, the proportion of milk paid for at the base price was adjusted to the handler's Class I volume. Moreover, a discounted Class I price was paid by this handler for milk sold in an area outside of North Platte and a discounted Class II price for such portion of the excess milk as could not be accommodated in the handler's plant and had to be separated for sale as cream.

A handler whose plant is located in Kearney paid producers a single price for Grade A milk in each month of 1954 and 1955. In January 1956, he began to pay a separate price, based solely on butterfat values, for milk utilized for manufacturing purposes. A handler at Holdrege had utilized a base-excess plan for a few years, but was paying a blend price for the several months just prior to the hearing.

These variations in price plans and in net prices paid to producers reflect different raw material costs to the various dealers who are selling milk in the marketing area. A condition of unequal costs among the dealers may cause them to attempt to economize by reducing prices to producers. This in turn would tend to stimulate successive price reductions by competitors. This development is contrary to the interests of producers and over a period of time may jeopardize an adequate supply of milk. Alternatively, some handlers may attempt to achieve equality by reducing the quantity of their purchases of milk in order to obtain the highest possible proportion of the higher valued uses of milk. This reaction, however, may result in intermittent shortages of supply for the market.

If producers receive widely varying prices for their milk, they tend to shift around among milk dealers and to shift in and out of the market. Such shifts may become sufficiently frequent as to jeopardize a dependable supply of pure and wholesome milk.

A marketing agreement and order program is needed to establish and maintain orderly marketing conditions throughout the marketing area. The thorough auditing of the utilization of all milk received by handlers, the checking of butterfat tests and weights of all producer milk, and the publication of complete supply and use data for the market will aid in this objective by assuring producers that they will receive a proper accounting for their milk and by providing full information on market developments.

3. *Terms and conditions*—(a) *Marketing area.* The Platte Valley marketing area should include all of the territory within the corporate limits of the six cities of Grand Island, Hastings, Holdrege, Kearney, Lexington, and North Platte and should also include the Naval Ammunition Depot, Hastings, all in the State of Nebraska.

These six cities are served by nine handlers, one of whom operates two fluid milk processing and bottling plants. Four of the ten plants are located in Grand Island, two each in Hastings and North Platte, and one each in Kearney and Holdrege. These handlers are in close competition with each other throughout the marketing area. Two of the handlers cover all six cities, one of them serving the area from two plants. Three other handlers distribute milk in four of the six cities and the remaining four handlers serve only one city each. The Naval Depot purchases milk under contracts which are let on a competitive bid basis.

The six cities all require that milk distributed for fluid purposes meet Grade A standards. In each city, sanitary regulations are patterned on the U. S. Public Health Service standards for Grade A milk and are substantially uniform. The Naval Depot sets its own standards but, in practice, plants which have qualified for Grade A distribution in the named cities have been acceptable to the military authorities. It is clear, therefore, that milk produced under conditions which make it acceptable for fluid use are substantially uniform throughout the defined marketing area. It follows that a single structure of prices to handlers based on utilization and a uniform blend price to producers will be appropriate.

Producers proposed that the entire area of Hall County, which includes the city of Grand Island, and of Adams County, which includes the city of Hastings, be included in the marketing area. However, there are no Grade A ordinances in effect in the counties outside of the two principal cities. Accordingly, milk sold for fluid purposes in the county areas would not necessarily be of the same quality as that sold in the designated cities, and the same prices would not be appropriate.

(b) *Milk to be priced.* The type of regulation provided by a milk order is essentially a matter of establishing minimum prices to be paid to dairy farmers who produce milk for the market. The scope of such regulation may be made specific by providing appropriate definitions of the terms "producer," "handler," and "pool plant."

The primary factor in determining which dairy farmers are producers for the market is the plant to which they deliver their milk. Marketing conditions described in the record indicate that the most practical method of order regulation would be to establish minimum prices to all farmers delivering milk to plants from which milk is regularly distributed in the marketing area.

Handlers selling milk in the proposed Platte Valley marketing area receive their milk from dairy farmers at the plants where it is packaged for fluid distribution. Virtually all the plant operators who distribute any milk in the area have the preponderant part of their distribution in the defined marketing area. However, the record does contain mention of a plant operator who appears to have only a marginal portion of his total sales in the defined area. The order should, therefore, stipulate a level of within-the-area operations for determining whether this plant or others which may currently or subsequently distribute milk in the marketing area are to be fully regulated.

It was proposed by producers that plants from which a volume of Class I milk equal to the lesser of (1) 5 percent of total receipts or (2) an average of 600 pounds per day was distributed in the marketing area should be pool plants. The 600-pound limit was included as an alternative because of the possibility that 5 percent of the receipts of some large plant would be so large a quantity in relation to sales of other handlers as to constitute a major influence in the market and thereby require complete regulation. It is concluded that the quantity limitation is the appropriate measure of whether a plant is sufficiently identified with the market to be fully subject to the pricing, payment, and pooling provisions of the order. The limit of 600 pounds per day is designed to represent a normal-sized retail route or small to medium combination retail and wholesale route. Such volume is not considered a significant factor in this market and it is, therefore, not necessary that such a handler be subject to the entire reporting and payment provisions of the order.

Accordingly, "pool plant" should be defined as a plant at which milk received from dairy farmers is packaged for distribution as Class I milk and from which milk is distributed as Class I milk on a route(s) wholly or partially within the marketing area, except plants exempted because they have distribution of less than 600 pounds on such routes.

The term "route" is used in the definition of pool plant to cover a number of types of distributing operations in which handlers may engage in the proposed marketing area. "Route" should be defined as a sale or delivery (including a sale from a plant or a store) of Class I milk to a wholesale or retail stop(s). Such definition would include as route distribution a sale to or through a vendor.

The term "producer" should be defined to mean any person, other than a producer-handler, who produces milk which has the approval of the health authorities of any community in the marketing area or the approval of the authorities at the Naval Ammunition Deport for consumption as fluid milk in such community and is received at a pool plant. The definition should include a producer whose milk is temporarily diverted to a nonpool plant by a handler for his account. Such a provision will serve to maintain the status of producer for a dairy farmer whose milk temporarily is not needed by the handler and would facilitate interplant movements of milk for the purpose of adjusting to short-term variations in supply and requirements. In order that milk which is diverted would continue to be included in the regular pool computations, it would be treated as if it were received at a pool plant.

There are sanitation requirements applied by local governments within the area with respect to approval of the farms from which milk for fluid consumption may be supplied, and accordingly, such a qualification has been included as a part of the producer definition. The order provisions would be uneconomic if they had the result that dairy farmers who have met the health standards for the market shared the returns on fluid sales with farmers who have not met such qualifications.

"Handler" should be defined as any person (1) in his capacity as the operator of any pool plant, (2) in his capacity as the operator of any nonpool plant where milk is processed and packaged for distribution on a route(s) in the marketing area, and (3) any cooperative association with respect to the milk of any producer which such cooperative association causes to be diverted from producers' farms to a nonpool plant for the account of such cooperative association.

The handler is the person who receives milk from producers and who is responsible for reporting receipts and utilization of milk and payment therefor, with certain exceptions noted below. A cooperative association which markets the milk of its producer members may for short periods of time need to divert producers' milk from pool plants to nonpool plants. If the association is defined as a handler for such milk, even though it has no plant, the producers whose milk is so diverted will continue to receive the uniform price under the order and their milk will be available for fluid use when needed in the fall months or at other times.

The term "producer-handler" would apply to a person who produces milk and operates a plant from which a route(s) is operated wholly or partly in the marketing area, but receives no milk from producers. The order is not intended to establish minimum prices for such operators, but they should be required to make reports to the market administrator. Such reports are necessary to make a determination as to whether the operator is a producer-handler and will also facilitate accounting with respect to transfers of milk from other handlers.

A further exemption from the minimum price regulation is the handler whose plant is a "nonpool plant" because his distribution in the area averages less than 600 pounds per day. Such handlers should also be required to report for reasons similar to those for producer handlers.

"Fluid milk product" is specifically defined in the order because of frequent reference to this group of items. The fluid milk products are those which constitute Class I use, including milk, skim milk, buttermilk, milk drinks (plain or flavored), cream, and cream mixtures for fluid use.

A definition of "other source" milk is included to distinguish it from the regular milk supply which is priced under the order. There are three potential categories of "other source" milk which may be distributed in the marketing area for Class I purposes without subjecting the originating plants to the pricing and pooling provisions of the order. One of these is represented by distributing plants from which an average of 600 pounds or less per day is sold in the marketing area. Another potential category of "other source" milk is that which pool plants may obtain as supplemental milk, either bulk or in bottled form from unregulated plants at times when their supplies of producer milk are not sufficient to cover their Class I utilization. The third category is represented by receipts of supplemental milk at Platte Valley pool plants from plants which are subject to regulation under other Federal orders.

As previously explained, all distributing plants which sell a significant volume of milk for Class I purposes in the marketing area are defined as pool plants and are, therefore, completely subject to the pricing and pooling provisions of the Platte Valley order. Any plant distributing less than 600 pounds per day in the area would probably have its primary distribution in some other market. It would not be equitable to subject such a plant to complete regulation since its competitors in the other market would not be regulated. Further, since its activities in Platte Valley are so limited, it is not considered necessary to require anything more than such reports and verification as will enable the market administrator to determine precisely the quantity sold in the marketing area.

On the other hand, quantities of supplemental milk received at pool plants can be quite substantial. The Platte Valley market is commonly short of producer milk in the late summer and early fall months of lowest production. This shortage has usually been met by purchasing milk in bulk tank lots from plants in Minnesota, Wisconsin, or other distant points. Under the allocation procedures described in subsequent para-

graphs such milk, whether from plants subject to other Federal orders or from totally unregulated plants, is assigned first to the Platte Valley handlers' Class II utilization. This gives local producer milk the priority on Class I use in the market. (An exception, also explained later, is that packaged milk received from plants subject to other Federal orders is assigned to the same Class under the Platte Valley order as in the order of origin.)

No special pricing appears to be necessary for these supplemental supplies. Such milk is commonly higher priced than the prices which have been paid to local producers and also in excess of the price levels provided in the attached order. This supplemental milk has been called upon only when supplies of producer milk were insufficient and, therefore, have not tended to displace producer milk. To the extent these practices continue, the allocation of producer milk to the highest utilization in the Platte Valley plants will continue to be a fully effective means of preventing displacement of producer milk by "other source" milk. If a significant displacement of producer milk by other source supplies occurs under the order, corrective measures can be considered by amendment action.

(c) *Classification of milk.* The proposed order should provide for two classes of milk. Class I should include all skim milk and butterfat disposed of as milk, skim milk, buttermilk, flavored milk drinks, cream and any mixture in fluid form of cream and milk or skim milk. These are the products which are required uniformly by the local health regulations to be made of Grade A milk. Class II should include all skim milk and butterfat used to produce manufactured dairy products which normally are not required to be produced from Grade A milk.

Class II, in addition to including manufactured dairy products, should include actual shrinkage on producer milk in an amount not in excess of 2 percent of receipts from producers and actual shrinkage on other source milk. Unaccounted for milk in excess of a reasonable allowance for plant loss should be Class I in order to require full accounting by handlers for their receipts. Two percent is considered a reasonable maximum allowance for this purpose and the evidence indicates that an efficiently operated fluid milk plant should be able to keep its shrinkage within this allowance. No limit should be placed on shrinkage of other source milk. Such milk is deducted from the lowest use class under the allocation provisions and to classify any of it as Class I would result in reimbursing producers for shrinkage incurred on milk they did not produce. Since it is not feasible to segregate shrinkage of producer milk from that of other source milk in the same plant, total shrinkage is prorated on the basis of the volume of receipts.

Class II should also include the use of skim milk and butterfat for livestock feed to the extent that verifiable records of such utilization are maintained by handlers.

It will be noted that the uses of milk to be included as Class I are specifically enumerated. Collectively, they are defined as "fluid milk products". All other products, including any new items which may be developed, are automatically in Class II.

Handlers have inventories of milk and milk products at the beginning and end of each month which enter into the accounting for current receipts and utilization. Inventory is intended to include stocks on hand of bulk milk, skim milk, and cream and bottled milk and other fluid milk products designated as Class I milk. Manufactured products (Class II) on hand are not included in the inventory account because the milk used to produce such products will already have been accounted for as Class II milk. As previously indicated, handlers will need to keep stock records of such products but they will not be included in inventory for the purpose of accounting for current receipts.

It is concluded that ending inventory should be accounted for as Class II milk. If fluid milk products in inventory are accounted for as Class II milk at the end of a month, it will be necessary to provide a method to deal with the producer milk inventory which is used in the current month for Class I purposes but which the handler accounted for to producers as Class II milk at the end of the previous month. In plants which engage primarily in a fluid milk business, it is quite possible that a decrease in inventory in any given month may exceed their total utilization of milk in Class II. Handlers, at times, also use other source milk in their operations. Producer milk from inventory should have prior claim on Class I sales over current receipts of other source milk. This can be accomplished by considering the ending inventory in one month as a receipt in the following month and subtracting such receipt (under the allocation procedure) in series starting with Class II milk following the subtraction of other source milk. To the extent that opening inventory is allocated to Class I milk and there was an equivalent amount of producer milk classified in Class II milk in the previous month (after the allocation of other source milk) a reclassification charge should be made at the difference between the Class I price in the current month and the Class II price in the preceding month. This will promote equality in the cost of milk among handlers and returns to producers, irrespective as to whether or not such producer milk is from the previous month's ending inventory or is a current receipt.

In order to provide for the complete and accurate reporting, verification, and auditing of all receipts and uses of milk which are essential to the continued application of class prices, it must be the responsibility of the handler who receives the milk from producers to account for his entire receipts and to prove to the market administrator his claim that such receipts should not be classified as Class I. The handler who first receives the milk from producers is in the best position to satisfy this primary need of a class price plan. Such a handler must be held responsible for reporting the proper utilization of such milk. He must therefore maintain records to establish unquestionable proof of the utilization of the milk he receives.

(d) *Transfers of milk between plants.* Classification of butterfat and skim milk used in the production of Class II items should be considered to have been established when the product is made. Classification of Class I milk should be established when the butterfat or skim milk is disposed of. However, since some Class I items may be disposed of to other milk plants for processing, separate classification procedure should be prescribed for transfers to other plants.

Milk, skim milk, cream or other fluid milk products transferred by a handler to the fluid milk plant of another handler, except that of a producer-handler, should be classified as Class I milk unless both handlers indicate in their reports to the market administrator that they desire such milk to be classified as Class II milk. However, sufficient Class II utilization must be available at the transferee plant for such assignment after prior allocation of shrinkage and other source milk, as described below. On the other hand, if the transferring handler had other source milk during the month, the assignment of products transferred to another plant to the Class I utilization of such plant should be limited so that other source milk in the transferring handler's plant will not be allocated to Class I milk while at the same time producer milk is allocated to Class II milk in the transferee handler's plant.

Milk or skim milk transferred in bulk to a nonfluid milk plant located more than 300 miles distant is presumed to be used for Class I purposes. The costs involved in transporting milk or skim milk in fluid form such a distance are so large that it would not be economically feasible to move the milk for Class II disposition. Also there are adequate facilities for the manufacture of excess milk into Class II products within a radius of 300 miles. The automatic classification as Class I of milk or skim milk moved more than 300 miles will reduce the administrative expense which would otherwise be involved in having the market administrator verify actual utilization in nonfluid milk plants located at extreme distances from the market.

Cream presents a somewhat different problem since its value is so much greater in relation to its bulk that it may be transported long distances for manufacture. Accordingly, it is provided that cream may be Class II, even if moved to a nonfluid milk plant located more than 300 miles distant from a fluid milk plant if it is clearly labelled as manufacturing grade cream and if prior notice of the intended shipment is furnished to the market administrator.

The more common form of transfer to a nonfluid milk plant by Platte Valley handlers is the movement of excess milk to nearby manufacturing plants. There may, of course, be sales to such plants for fluid purposes. It is provided that transfers of milk, skim milk, or cream from a fluid milk plant to a nonfluid milk plant located less than 300 miles distant be Class I unless Class II use is affirmatively established. Evidence of Class II use consists of a certification by the fluid milk plant operator that the transfer was intended for Class II use, and verification by the market administrator of the records made available by the nonfluid milk plant operator showing that at least an equivalent quantity of milk was utilized for manufacturing purposes.

(e) *Allocation.* In view of the fact that the order class prices apply only to producer milk, it is necessary, if a fluid milk plant has butterfat or skim milk other than that received in producer milk, to determine the quantities of milk in each class to be assigned to current receipts from producers. The milk of producers who are regularly engaged in supplying the market should be assigned the Class I utilization first. This is necessary to insure the stability of the classified pricing program of the order. If the order permitted handlers to obtain other source milk whenever it was advantageous to do so for Class I use while producer milk in the plant was utilized in Class II, the order would not be effective in carrying out the purposes of the act. Also, the market would be deprived of a dependable supply of milk. The system of assigning utilization of milk to receipts from different sources which will carry out this objective is set forth in § 1013.46 of the order.

An exception to the general rule of assigning other source milk first to the lowest class of utilization should be made with respect to packaged milk received from a plant regulated under another Federal order. One of the Platte Valley handlers testified that his plant located in the marketing area was not equipped to bottle half-gallons in paper containers. These packages could be obtained more cheaply from this handler's plant at Lincoln, Nebraska. The milk so packaged is fully subject to the classification and pricing provisions of the Omaha-Lincoln-Council Bluffs order. Moreover, the daily and seasonal reserves of milk associated with such milk are carried by the Omaha-Lincoln-Council Bluffs producers rather than by the Platte Valley producers. It is concluded, therefore, that fluid milk products in packaged form which are classified and priced under another Federal order should be assigned to the same utilization under the Platte Valley order.

Under this allocation procedure, the skim milk and butterfat, respectively, remaining in each class is assigned to producer milk by making the following deductions from the gross utilization of each handler starting with Class II milk, except as otherwise noted;

(1) Class II shrinkage of producer milk.

(2) Other source milk, in bulk form, from plants not regulated under another Federal order.

(3) Other source milk, in bulk form, from plants regulated under another Federal order.

(4) Receipts of packaged milk from plants regulated under other Federal orders, according to the classification established under such other order.

(5) Beginning inventory.

(6) Receipts from other handlers (according to classification).

(7) Overage.

Since uniform prices paid producers by each handler are to be calculated monthly, the assignment of utilization described above should be carried out with respect to all milk received during each month. To apply a shorter accounting period would place an accounting and reporting burden upon handlers and increase the cost of administering the order.

(f) *Class prices.* In order to maintain an adequate and stable supply of milk for the market it is necessary that the price of milk for fluid use be closely related to the prices of milk used for manufacturing purposes. Keeping the Class I prices in line with manufacturing prices recognizes the fact that the most common source of replacement and additional Grade A shippers for the Platte Valley market is the conversion of manufacturing shippers. It also recognizes the fact that Class I prices in the adjacent Federal order markets are based on manufacturing values. The Class I price can be kept in relationship to manufacturing values by using a pricing formula which sets the Class I price at a differential over a basic formula price which reflects manufacturing values.

Basic formula price. The basic formula price should be the higher of (1) the average of prices paid to dairy farmers at 13 midwest condenseries, or (2) a butter-powder formula price. The midwest condensery pay price is widely used as one component of basic formula prices in Federal orders. The condenseries included in the average constitute a representative group of plants located in Wisconsin and Michigan. The prices paid by them are representative of the value of milk in a level manufacturing use and are reported promptly enough for use in establishing a Class I price.

A butter-powder formula is included in most Federal orders as an alternative basic formula price. It reflects the value of milk in a major manufacturing use, namely the manufacture of butter and nonfat dry milk. There are times when the butter-powder plants compete more strongly for supplies than the condenseries; such competition affects fluid markets and should be reflected in the fluid milk price.

The butter-powder formula price provided herein differs somewhat from the one proposed by producers but reflects substantially the same level of prices. The butterfat component is obtained by subtracting a "make allowance" of three cents from the market price of 92-score butter at Chicago, multiplying the result by an overrun factor of 1.21, and multiplying that result by 3.5 which is the amount of fat in a hundred pounds of milk at basic test. The skim milk component is obtained by deducting a "make allowance" of 5.5 cents from the average of the prices of spray and roller process nonfat dry milk, f. o. b. manufacturing plants in the Chicago area, multiplying the result by a yield factor of 8.2 which represents the quantity of solids in 96½ pounds of skim milk. At the currently effective support prices for butter and nonfat dry milk, this formula would result in the same price for milk as that proposed by producers, which is the same as the formula currently used in the Omaha-Lincoln-Council Bluffs order.

Class I price. The Class I price differential over the basic formula price should be fixed at a level which will reflect the additional costs involved in producing and transporting to market a year-round supply of milk of Grade A quality. Producers will thereby be provided with financial incentive to produce milk of Grade A quality as compared with the costs of producing milk of manufacturing grade. A differential of $1.30 per hundredweight should be sufficient to accomplish this purpose.

The level of Class I prices provided by the Omaha-Lincoln-Council Bluffs order affords the most direct guide to the establishment of appropriate level of Class I prices for the Platte Valley market. The Class I differential provided for Omaha is $1.40 per hundredweight in all months of the year. This differential has been in effect since September 1, 1952, and has been an appropriate price for that market. The western boundary of the procurement area or milkshed for the Omaha market adjoins the eastern boundary of the procurement area for the Platte Valley market and the production conditions in the two areas are closely similar. Direct competition between the distributors in the two markets is not extensive. However, this is partly attributable to the fact that the largest dealers in the two markets operate plants in each and can thereby avoid the inefficiencies represented by overlapping of sales territories. One of the Platte Valley dealers obtains milk in two-quart paper containers from his plant located in Lincoln in order to avoid the expense of installing bottling equipment in his Grand Island plant for a comparatively small volume of business.

The Omaha order provides for location adjustments to producers on milk delivered by them at plants located more than 45 miles from the marketing area in the amount of 10 cents per hundredweight. The same rate of location adjustment applies on milk delivered to the marketing area for Class I purposes from plants located more than 45 miles distant. The same 10-cent adjustment is reflected in the Class I differential proposed by producers for the Platte Valley market and should be adopted.

There is no seasonal variation in the Class I differential. A take-out and payback plan, described in more detail subsequently, is relied upon as the means of encouraging producers to deliver a seasonally uniform supply.

Class II price. The Class II price should be equal to the basic formula butter-powder price less 15 cents per hundredweight. The Class II price should be at such a level that handlers will accept and market whatever quantities of milk in excess of Class I needs as may arise from time to time. The price, however, should not be so low that handlers will be encouraged to procure

milk supplies solely for the purpose of converting them into Class II products.

All products included in Class II milk may be made from unapproved milk. Approved milk which may be used in such products by regulated handlers should be priced at a level which is competitive with the cost of milk or milk ingredients that they may need for Class II products processed in conjunction with their fluid milk business.

The Class II price provided herein is at virtually the same level as the Class II price proposed by producers, although the pricing formula is somewhat different. This Class II price is virtually the same as that provided under the Omaha order. During 1955 the Class II price would have ranged from $2.87 in June to $2.94 in October and would have averaged $2.90. The Class II proposal by producers would have ranged from $2.87 to $2.93 and would also have averaged $2.90 and the Omaha Class II prices for 3.5 milk ranged from $2.85 to $2.95 and averaged $2.91.

A handler who operates a plant at North Platte, Nebraska, proposed a substantially lower Class II price during the flush months of the year. He testified that during such months it is difficult to find manufacturing outlets for whole milk at points near enough to involve reasonable transportation charges. In such circumstances, it is sometimes more feasible to separate the whole milk, sell the cream to more distant plants, and dispose of skim milk by giving it away for livestock feed or letting it run down the sewer. The handlers, therefore, proposed that the price for Class II milk during such months reflects only the butterfat value of the milk. However, it appears that the circumstances which led to this form of disposition by this handler were occasioned, at least in major part, by a realignment of sales territories between the handler's North Platte, and Grand Island plants. There has since been time for a corresponding readjustment in the procurement of milk at the two plants and it seems unlikely that the necessity for such disposition will recur. Also, the higher Class II butterfat differential provided herein, and described in the following paragraphs will reduce the value of skim milk. It is concluded, therefore, that the level of Class II prices provided herein will be appropriate.

Butterfat differentials. The attached order provides that butterfat and skim milk be accounted for separately for classification purposes. It also provides that Class and blend prices should be established for milk containing 3.5 percent butterfat, the same basic test as is used in all other Federal orders in this general region except Omaha. It will, therefore, be necessary to adjust Class I and Class II prices in accordance with the average test of the milk in each Class by a butterfat differential which will reflect differences in the value of the milk due to variations in butterfat content.

The Class I butterfat differential for each one-tenth of one percent that the average test of Class I use varies from the basic test should be determined by adding 2.1 cents to the Class II differential. The Class II differential, in turn, should be established at 0.120 times the price of 92-score butter at Chicago.

This Class II differential is somewhat higher than the one proposed by producers. At current support prices for butter and nonfat dry milk, their proposed differential would be 0.111 times the price of 92-score butter. According to the evidence of record the Platte Valley market is commonly more nearly short of butterfat than of skim milk. During the flush season, disposal of skim milk is a more serious problem than disposal of butterfat. Raising the Class II butterfat differential will increase the value attributed to butterfat and will correspondingly reduce the value attributed to Class II skim milk, thus recognizing the higher value of butterfat in relation to solids-not-fat.

Producers proposed that the Class I butterfat differential be 2.6 cents higher than the Class II differential. This reflects the conclusion, commonly accepted in the West North Central States, that 70 percent of the Class I price differential of $1.30 should be attributed to butterfat and 30 percent to skim milk. The proposed 2.6 cents per one-tenth of one percent variation in butterfat content is the proportionate value, when the 3.5 pounds of butterfat are valued at 70 percent of $1.30. The proposed 2.6 cents has been reduced to 2.1 cents in recognition of the fact that the Class II butterfat differential has been increased. The resulting Class I differential will be at virtually the same level as the Class I differential proposed by the producers.

The butterfat differential to producers for milk containing more or less than 3.5 percent butterfat should correspond to the weighted average values of the butterfat and skim milk in producer milk utilized by handlers in Class I and Class II. This follows the same principle as the payment of a uniform price to all producers. Each producer shares equally in the total value of the handlers' Class I and Class II utilization, at the basic test of 3.5 percent butterfat. It is equally appropriate that each should receive the average utilization value of the butterfat and skim milk components for milk testing above or below 3.5 percent.

Location adjustments. Location adjustments should apply to all Class I milk distributed by handlers whose plants are located more than 80 miles from the nearer of the City Halls at Grand Island and at North Platte, Nebraska. The rate of adjustment should be 12 cents per hundredweight for plants located more than 80 but not more than 90 miles distant, plus 1.5 cents per 10 miles or fraction thereof for distances in excess of 90 miles. Distances would be measured by the shortest highway distance as determined by the market administrator.

At the time of the hearing, milk was distributed in the marketing area from a plant located more than 80 miles distant. The quantity so distributed was not sufficient to qualify this plant as a pool plant. However, if this plant or any other begins to sell significant volumes of Class I milk in the area, it should have location credit. This credit should be sufficient to defray transportation costs, since the order is designed to place all handlers on an equal cost basis at the marketing area. Evidence in the record shows that the rate of 1.5 cents per 10 miles appropriately reflects the costs of transporting milk in tank trucks. No separate data were available on the comparative costs of transporting packaged milk. No location adjustment is allowed a distance of less than 80 miles from Grand Island or North Platte since some points within the marketing area are nearly 80 miles from these cities.

Location adjustments to producers should be at the same rates as to handlers but should apply to all of the milk delivered by producers to any plant at which the location adjustments apply.

(g) *Payments for milk.* The attached order provides for a marketwide pool under which all producers supplying the market would receive the same price for their milk regardless of its utilization by the handler who received it. This type of pool contemplates the uniform distribution among all producers in the market of the proceeds of the Class I and reserve supplies of milk.

The largest cooperative association in the area already pools the returns due its members from all the handlers to whom they ship, and pays all members on a uniform basis. This same uniformity of payment should be extended to all producers whose milk is priced under the order.

The marketwide pool will also contribute to the flexibility of milk marketing in the Platte Valley area in two important respects. One is that supplemental supplies can be freely distributed among handlers without affecting the prices paid to producers at each plant. The second is that temporary or seasonal surpluses can be moved between plants, either by transfer of the milk or of the shippers without affecting the prices paid to producers at the individual plants.

A seasonal incentive plan of the same type as is contained in the Omaha-Lincoln-Council Bluffs order was proposed by producers and should be adopted. Both the procurement and sales interrelationships between the two markets make it highly desirable to utilize the same type of seasonal incentive. With similar plans, producers can more readily respond to long-run changes in supply and demand conditions in the two markets without being disturbed by seasonal differences in price plans. Also, distributors in the two markets will be on comparable competitive footings at all seasons. Under the "take out and pay back" plan the Class I differential remains the same in all months of the year. However, during the flush production months of April, May, and June, an amount equal to 8 percent of the Class I price multiplied by the total production is deducted from payments to producers and held until the shortage months of September, October, and November. One third of the escrow fund is added to the pool in each of these months. The effect is to encourage producers to maximize their production during the months when supplies are lowest in relation to Class I sales and to minimize production during the months of greatest excess.

The order provides that producers be paid once a month and specifies that in the case of qualified cooperative associations the handler shall make payment to the association instead of to the individual members, if the cooperative association has such authority from members and is desirous of exercising such privilege.

Since all producers are to receive the same price for milk (except for butterfat and location differentials), and since the amount which the order requires a particular handler to pay for his milk may be more or less than the amount he is required to pay to producers or cooperative associations, some method of balancing these amounts is necessary. A producer-settlement fund should be established for this purpose. All handlers who are required to pay more for their milk on the basis of their utilization than they are required to pay to producers or cooperative associations should pay the difference into the producer-settlement fund; all handlers who are required to pay more to producers or cooperative associations than they are required to pay for their milk on the basis of utilization should receive the difference from the producer-settlement fund. Amounts paid into and out of the producer-settlement fund for this purpose will be equal, except for minor differences that may result from rounding off uniform prices. In order to permit this rounding off of prices, to allow for unavoidable delays in receiving payments from handlers, and to permit payments to be made to any handler which audit by the market administrator reveals is due such handler from the producer-settlement fund, a reserve should be held in the producer-settlement fund at all times. The amount of the reserve contemplated in the order should be sufficient for these purposes. This reserve would be adjusted each month.

If at any time the balance in the producer-settlement fund is insufficient to cover payments due to all handlers from the producer-settlement fund, payments to such handlers should be reduced uniformly per hundredweight of milk. The handlers may then reduce payments to producers by an equivalent amount per hundredweight. Amounts remaining due such handlers from the producer-settlement fund should be paid as soon as the balance in the fund is sufficient, and handlers should then complete payments to producers. In order to reduce the possibility of this occurring, milk received by any handler who has not made payments required of him into the producer-settlement fund during the previous month should be eliminated in the computation of the uniform price in the current subsequent month.

(h) *Administrative provisions.* The remaining provisions of the order are of a general administrative nature, are incidental to the other provisions of the order, and are necessary for the proper and efficient administration of the order. They provide for the selection of a market administrator, define his powers and duties, provide for an administrative assessment, prescribe the information to be reported by handlers and set forth the rules to be followed in making the computations required by the order. They also prescribe the length of time that records must be retained and provide a plan for the liquidation of the order in the event of its suspension or termination. They are similar to like provisions of other orders, and except as set forth below require no comment.

Expenses of administration. As his share of the expenses of administering this order each handler should pay not in excess of 4 cents per hundredweight with respect to all producer milk received, all other source milk received at a pool plant which was classified as Class I milk, and Class I milk distributed in the marketing area from a nonpool plant. The market administrator must verify receipts and utilization of all such milk; therefore all such milk should be subject to the expenses of administration. Experience in other markets indicates that 4 cents per hundredweight with respect to all such milk should yield sufficient money to cover expenses of administration. If payment of expenses of administration at the rate of 4 cents per hundredweight yields more money than is needed, provision is made for the Secretary to prescribe a lesser rate of payment from time to time.

Records and reports. Reports are required from handlers on receipts and utilization so that the market administrator may make the computations necessary to the marketwide pooling operation and the uniform price to producers. Handlers would also be required to submit payroll reports which would show the details of milk receipts from each producer, the value of the milk received from the producer, deductions therefrom, and net amount paid to the producer.

The order should provide limitations on the period of time handlers shall retain books and records which are required to be made available to the market administrator, and on the period of time in which obligations under the order shall terminate. The provision made in this regard is identical in principle with the general amendment made to all orders in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444) covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as a part of the decision.

Time schedule. Dates must be prescribed for announcing prices, filing reports and making payments. The following time schedule should allow all interested persons adequate time to perform each function. (These time limits apply to the indicated day of the month following the month for which computations are being made.)

Day of the Month and Function

5th—Announcement of class prices by market administrator.

7th—Submission of monthly report of receipts and utilization by handlers.

9th—Announcement of uniform price and names of handlers who received producer milk and notification to handlers of the value of their producer milk by market administrator.

10th—Payment by handlers of amounts due to producer-settlement fund and for expenses of administration.

12th—Payments by handlers to producers and cooperative associations and by market administrator out of producer-settlement fund.

Milk subject to other Federal orders. A handler who operates a plant at which minimum prices to dairy farmers are established under another order issued pursuant to the act, but nevertheless supplies milk for distribution in the Platte Valley marketing area should be exempt from the provisions of this order, except for reporting his volume of Class I sales in the marketing area. It would be impracticable to attempt to regulate a handler under two separate orders with respect to the same milk. The applicable order should be determined by the volume of Class I sales.

General findings. (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act.

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(d) All milk and milk products handled by handlers, as defined in the proposed order are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products.

(e) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler regulated by the proposed order as his pro rata share of such expense, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight, as the Secretary may prescribe with respect to all milk received during such delivery period from producers, other source milk received at a pool plant and classified as Class I, and Class I milk sold in the marketing area from nonpool plants.

Proposed findings and conclusions. Briefs were filed on behalf of producers and handlers. The briefs contained proposed findings of facts, conclusions and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the record evi-

dence in making the findings and reaching the conclusions hereinbefore set forth. To the extent that such suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this decision.

Recommended marketing agreement and order. The following order is recommended as the detailed and appropriate means by which these conclusions may be carried out. The proposed marketing agreement is not included because the regulatory provisions thereof would be the same as those contained in the order.

DEFINITIONS

Sec.
1013.1 Act.
1013.2 Secretary.
1013.3 Department.
1013.4 Person.
1013.5 Cooperative association.
1013.6 Platte Valley marketing area.

1013.21 Powers.
1013.22 Duties.

REPORTS, RECORDS, AND FACILITIES

1013.30 Reports of receipts and utilization.
1013.31 Other reports.
1013.32 Records and facilities.
1013.33 Retention of records.

CLASSIFICATION

1013.40 Skim milk and butterfat to be classified.
1013.41 Classes of utilization.
1013.42 Shrinkage.
1013.43 Transfers.
1013.44 Responsibility of handlers and reclassification of milk.
1013.45 Computation of the skim milk and butterfat in each class.
1013.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

1013.50 Basic formula price.
1013.51 Class prices.
1013.52 Butterfat differential to handlers.
1013.53 Use of equivalent prices.

APPLICATION OF PROVISIONS

1013.60 Producer handlers.
1013.61 Milk subject to other Federal orders.
1013.62 Other source milk in Class I.

DETERMINATION OF UNIFORM PRICES

1013.70 Computation of value of milk.
1013.71 Computation of the uniform price.
1013.72 Notification of handlers.

PAYMENTS

1013.80 Time and method of payment.
1013.81 Butterfat differential to producers.
1013.82 Location adjustments to producers.
1013.83 Producer-settlement fund.
1013.84 Payments to the producer-settlement fund.
1013.85 Payments out of the producer-settlement fund.
1013.86 Adjustment of accounts.
1013.87 Adjustment of errors in payments to producers.
1013.88 Expense of administration.
1013.89 Termination of obligations.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

1013.90 Effective time.
1013.91 Suspension or termination.
1013.92 Continuing obligations.
1013.93 Liquidation.

MISCELLANEOUS PROVISIONS

1013.94 Agents.
1013.95 Separability of provisions.

DEFINITIONS

§ 1013.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.).

§ 1013.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 1013.3 *Department.* "Department" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this part.

§ 1013.4 *Person.* "Person" means any individual, partnership, corporation, association or any other business unit.

§ 1013.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application of the association:

(a) Is qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) Has full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or its products for its members; and

(c) Has its entire activities under the control of its members.

§ 1013.6 *Platte Valley marketing area.* "Platte Valley marketing area" hereinafter called the "marketing area" means all the territory within the corporate limits of the cities of Grand Island, Hastings, Holdrege, Kearney, Lexington and North Platte, and the Naval Ammunition Depot, Hastings, all in the state of Nebraska.

§ 1013.7 *Producer.* "Producer" means any person, irrespective of whether such person is also handler, who produces milk which is received at a pool plant: *Provided*, That such milk is (a) produced under a dairy farm permit or rating issued by a duly constituted health authority for the production of milk to be disposed of in the marketing area for consumption as Grade A milk, or (b) acceptable to a Federal agency located within the marketing area. This definition shall include any such person who is regularly classified as a producer but whose milk is caused to be diverted to a nonpool plant by a handler, and milk so diverted shall be deemed to have been received at a pool plant by the handler who caused it to be diverted.

§ 1013.8 *Pool plant.* "Pool plant" means (a) any plant from which a volume of Class I milk equal to more than an average of 600 pounds per day, is disposed of during the month on routes to retail or wholesale outlets (except other pool plants) located in the marketing area: *Provided*, That if a portion of a plant is operated separately and no producer milk is received in such portion of the plant, it shall not be considered as part of a pool plant pursuant to this section.

§ 1013.9 *Nonpool plant.* "Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 1013.10 *Route.* "Route" means any delivery (including delivery by a vendor or sale from a plant store) of a fluid milk product to retail or wholesale outlets (except pool plants) located in the marketing area.

§ 1013.11 *Handler.* "Handler" means: (a) Any person in his capacity as the operator of a pool plant, (b) any person in his capacity as the operator of a nonpool plant from which fluid milk products are disposed of on a route(s) in the marketing area, or (c) any cooperative association with respect to milk of producers which it causes to be diverted to a nonpool plant for the account of such association.

§ 1013.12 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at a pool plant directly from producers, or (b) diverted from a pool plant to a nonpool plant in accordance with the conditions set forth in § 1013.7.

§ 1013.13 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), cream (except frozen or aerated cream) and any mixture in fluid form of cream and milk or skim milk (except ice cream, eggnog ice cream mixes, and sterilized products in hermetically sealed containers).

§ 1013.14 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of fluid milk products, except (1) such products approved by the appropriate health authority for distribution as Class I milk in the marketing area received from pool plants, or (2) producer milk; and

(b) Products designated as Class II milk pursuant to § 1013.41 (b) (1) from any source (including those from a plant's own production), which are reprocessed or converted to another product in the plant during the month.

§ 1013.15 *Producer-handler.* "Producer-handler" means a person who operates, as his own personal enterprises, both a dairy farm and a milk processing or bottling plant at which plant each of the following conditions is met during the month:

(a) Milk is received from the dairy farm of such person but from no other dairy farm;

(b) Fluid milk products are disposed of on routes to retail or wholesale outlets in the marketing area; and

(c) The butterfat or skim milk disposed of in fluid milk products does not exceed the butterfat or skim milk, respectively, received in the form of milk from the dairy farm of such person and from pool plants of other handlers in the form of fluid milk products.

§ 1013.16 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the dairy wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department.

MARKET ADMINISTRATOR

§ 1013.20 *Designation.* The agency for the administration of this order shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1013.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1013.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to, the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator:

(d) Pay out of the funds provided by § 1013.88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this order, and, upon request by the Secretary, surrender the same to such person as the Secretary may designate;

(f) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 1013.30 and 1013.31 or payments pursuant to §§ 1013.80, 1013.84, 1013.86, 1013.87 and 1013.88;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Prepare and disseminate publicly such statistics and information as he deems advisable and as do not reveal confidential information;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(j) Publicly announce and notify each handler in writing on or before: (1) The 5th day of each month the Class I milk price pursuant to § 1013.51 (a) and the Class I butterfat differential pursuant to § 1013.52 (a), both for the current month; and the Class II milk price pursuant to § 1013.51 (b) and the Class II butterfat differential pursuant to § 1013.52 (b) both for the preceding month, and (2) the 9th day after the end of each month, the uniform price pursuant to § 1013.71, and the butterfat differentials to be paid pursuant to § 1013.81.

REPORTS, RECORDS AND FACILITIES

§ 1013.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator for each of his approved plants for such month as follows:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk;

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other handlers;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) Inventories of fluid milk products on hand at the beginning and end of the month; and

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section.

§ 1013.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator;

(1) On or before the 20th day after the end of the month for each of his pool plants, his producer payroll for such month which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, (iii) the number of days on which milk was received from such producer, if less than a full calendar month, (iv) the average butterfat content of such milk, and (v) the net amount of such handler's payment together with the price paid and the amount and nature of any deductions; and

(2) Such other information with respect to the utilization of butterfat and skim milk as the market administrator may prescribe.

§ 1013.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all fluid milk products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all fluid milk products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers, and disbursement of money so deducted.

§ 1013.33 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of 3 years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such 3-year period, the market administrator notifies the handler in writing that the retention of such records, or of specific books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1013.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat at pool plants which is required to be reported pursuant to § 1013.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 1013.41 through 1013.46.

§ 1013.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1013.43, 1013.44 and 1013.46, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of fluid milk products except those classified pursuant to paragraph (b) (2) of this section, or (2) not specifically accounted for as Class II utilization;

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used

to produce any products other than fluid milk products, (2) contained in inventory of fluid milk products on hand at the end of the month, (3) accounted for as livestock feed, (4) in shrinkage allocated to receipts of producer milk pursuant to § 1013.42 (except milk diverted to a nonpool plant pursuant to § 1013.7) but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively, and (5) in shrinkage of other source milk.

§ 1013.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat contained in producer milk and in other source milk.

§ 1013.43 *Transfers.* Skim milk or butterfat disposed of from a pool plant shall be classified:

(a) As Class I milk if transferred in the form of fluid milk products to a pool plant of another handler, except a producer-handler, unless utilization as Class II milk is claimed by both handlers in the reports submitted by them to the market administrator pursuant to § 1013.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk and beginning inventory of fluid milk products pursuant to § 1013.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk: *And provided further,* That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I milk utilization to the producer milk of both handlers;

(b) As Class I milk if transferred to a producer-handler in the form of fluid milk products;

(c) As Class I milk if transferred or diverted in bulk form as milk, skim milk, or cream to a nonpool plant located in the marketing area or not more than 300 miles by the shortest highway distance as determined by the market administrator from the transferor plant unless:

(1) The handler claims Class II in his report submitted to the market administrator pursuant to § 1013.30.

(2) The buyer maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available, if requested by the market administrator for the purpose of verification; and

(3) Not less than an equivalent amount of skim milk and butterfat was actually used as Class II milk in such buyer's plant; and

(d) As Class I milk if transferred in bulk form as milk, skim milk, or cream to a nonpool plant located more than 300 miles by the shortest highway distance as determined by the market administrator from the transferor plant, except that cream so transferred may be classified as Class II if notice is given to the market administrator at least 24 hours prior to shipment, each container is labelled by the transferor as "ungraded cream for manufacturing only", and such shipment is so invoiced.

§ 1013.44 *Responsibility of handlers and reclassification of milk.* (a) In establishing the classification of skim milk and butterfat as required in § 1013.41 the burden rests upon the handler who receives such skim milk or butterfat from producers to prove to the market administrator that such skim milk or butterfat should not be classified as Class I milk; and

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 1013.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization submitted by each handler and shall compute the pounds of butterfat and skim milk in each class for such handler: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk used or disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 1013.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 1013.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 1013.41 (b) (3);

(2) Subtract from the remaining pounds of skim milk in each Class, in series beginning with the lowest priced utilization, the pounds of skim milk in other source milk other than that received from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

(3) Subtract from the remaining pounds of skim milk in each class, in series beginning with the lowest priced utilization, the pounds of skim milk in other source milk received in a form other than that specified in subparagraph (4) of this paragraph from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing order issued pursuant to the act;

(4) Subtract from the pounds of skim milk in each class the pounds of skim milk contained in fluid milk products received in packaged form which were classified and priced under another marketing order issued pursuant to the act and disposed of in the same form as received;

(5) Subtract from the remaining pounds of skim milk in each class, in series beginning with the lowest priced utilization, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month;

(6) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers in the form of fluid milk products, according to its classification as determined pursuant to § 1013.43 (a);

(7) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(8) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage".

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section; and

(c) Determine the weighted average butterfat content of the Class I and Class II milk allocated to producer milk.

MINIMUM PRICES

§ 1013.50 *Basic formula price.* The higher of the prices computed pursuant to paragraph (a) or (b) of this section, rounded to the nearest whole cent, shall be known as the basic formula price.

(a) The average of the basic, or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or the Department:

Present Operator and Location

Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values determined pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the Chicago butter price subtract 3 cents, multiply by 1.21, and multiply by 3.5.

(2) From the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department, deduct 5.5 cents and multiply by 8.2.

§ 1013.51 *Class prices.* Subject to the provisions of §§ 1013.52 and 1013.53 the class prices per hundredweight shall be as follows:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price for the preceding month, plus $1.30; and

(b) *Class II milk price.* The Class II milk price shall be the price specified in § 1013.50 (b) for the current month less 15 cents.

§ 1013.52 *Butterfat differentials to handlers.* If the weighted average butterfat content of the milk received from producers classified, respectively, in Class I milk or Class II milk for a handler is more or less than 3.5 percent, there shall be added to, or subtracted from, the respective class price computed pursuant to § 1013.51 for each one-tenth of 1 percent that such weighted average butterfat content is above or below 3.5 percent, a butterfat differential computed as follows:

(c) *Class I Milk.* Add 2.1 cents to the butterfat differential computed pursuant to paragraph (b) of this section for the preceding month; and

(b) *Class II milk.* Multiply the Chicago butter price for the current month by 0.120 and round to the nearest one-tenth cent.

§ 1013.53 *Location adjustments to handlers.* For milk which is received from producers at a pool plant located more than 80 miles by shortest highway distance, as determined by the market administrator, from the City Hall in either Grand Island or North Platte, Nebraska, whichever is closer, and which is classified as Class I milk the prices computed pursuant to § 1013.51 (a) shall be reduced by 12 cents if such plant is located more than 80 miles, but not more than 90 miles from such city hall and by an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 90 miles.

§ 1013.54 *Use of equivalent prices.* If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 1013.60 *Producer-handlers.* Sections 1013.40 through 1013.46, 1013.53, 1013.70, 1013.71, 1013.72, and 1013.80 through 1013.93, shall not apply to a producer handler.

§ 1013.61 *Milk subject to other Federal orders.* Milk received at the plant of a handler at which the handling of milk is fully subject during the delivery period to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act and from which the disposition of Class I milk in the other Federal marketing area exceeds that in the Platte Valley marketing area shall be exempted for such delivery period from all provisions of this part except §§ 1013.31, 1013.32, and 1013.33.

§ 1013.62 *Other source milk in Class I.* In the case of pool plants which are permitted by the applicable health authorities to receive and process non-Grade A milk, non-Grade A skim milk and butterfat in other source milk shall be allocated to Class I up to the extent of verifiable actual disposition of non-Grade A skim milk and butterfat as Class I milk outside the marketing area in localities where Grade A milk is not required for Class I use.

DETERMINATION OF UNIFORM PRICES

§ 1013.70 *Computation of value of milk.* The value of milk received during each month by each handler at his pool plant(s) from producers shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices specified in § 1013.51, as adjusted pursuant to §§ 1013.52 and 1013.53, and adding any amounts computed pursuant to paragraphs (a) and (b) of this section.

(a) If the handler had overage of either skim milk or butterfat, an amount computed by multiplying the pounds of overage by the applicable class prices; and

(b) An amount obtained by multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by (1) the hundredweight of producer milk classified in Class II, less shrinkage, in the preceding month, or (2) the hundredweight of milk subtracted from Class I pursuant to § 1013.46 (a) (5) and the corresponding step of § 1013.46 (b), whichever is less.

§ 1013.71 *Computation of uniform price.* For each month the market administrator shall compute the uniform price per hundredweight of milk received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1013.70 for all handlers who filed the reports prescribed by § 1013.30 and who made the payments pursuant to §§ 1013.80 and 1013.84 for the preceding month.

(b) Subtract for each of the months of April, May and June, an amount equal to 8 percent of the Class I price multiplied by the total quantity of producer milk;

(c) Add during each of the months of September, October and November one-third of the total amount subtracted pursuant to paragraph (b) of this section;

(d) Add an amount equal to the total deductions made pursuant to § 1013.82;

(e) Subtract if the average butterfat content of the milk included in these computations is more than 3.5 percent or add, if such butterfat content is less than 3.5 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 1013.81 and multiplying the result by the total hundredweight of producer milk included in these computations;

(f) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(g) Divide the resulting sum by the total hundredweight of milk included in these computations; and

(h) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be known as the "uniform price" for milk received from producers.

§ 1013.72 *Notification of handlers.* On or before the 9th day of each month the market administrator shall notify each handler of:

(a) The quantity and value of his milk in each class computed pursuant to §§ 1013.46 and 1013.70 and the totals of such quantities and values;

(b) The uniform price computed pursuant to § 1013.71;

(c) The amount, if any, due such handler from the producer-settlement fund;

(d) The total amounts to be paid by such handler pursuant to §§ 1013.80 and 1013.84; and

(e) The amount to be paid by such handler pursuant to § 1013.88.

PAYMENTS

§ 1013.80 *Time and method of payment.* On or before the 12th day after the end of each month, each handler shall make payment for milk received from producers or cooperative associations as follows:

(a) To each producer for milk, for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, at not less than the uniform price computed in accordance with § 1013.71, subject to the butterfat differential computed pursuant to § 1013.81, the location adjustment computed pursuant to § 1013.82, and to any proper deductions authorized by the producer: *Provided,* That if by such date such handler has not received full payment for such delivery period pursuant to § 1013.85, he may reduce such payments uniformly per hundredweight for all producers by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(b) To a cooperative association for milk which it caused to be delivered to such handler from producers, if such cooperative association is authorized to collect such payment for its member producers and wishes to exercise such authority, an amount equal to not less than the sum of the individual payments otherwise payable to such producers.

§ 1013.81 *Butterfat differential to producers.* In making payments pursuant to § 1013.80 the uniform prices shall be adjusted for each one-tenth of one percent of butterfat content in the milk of each producer above or below 3.5 percent, as the case may be, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 1013.52, weighted by the pounds of butterfat in producer milk in each

class, the result being rounded to the nearest tenth of a cent.

§ 1013.82 *Location adjustments to producers.* In making payments pursuant to § 1013.80, for milk received from producers, the uniform price per hundredweight for milk received at plants located more than 80 miles, but not more than 90 miles, by shortest highway distance as determined by the market administrator, from the City Hall at Grand Island or at North Platte, Nebraska, whichever is closer, there shall be deducted 12 cents plus 1.5 cents addition for each 10 miles or fraction thereof distance beyond 90 miles.

§ 1013.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1013.84 and 1013.86 and out of which he shall make all payments to handlers pursuant to §§ 1013.85 and 1013.86: *Provided,* That the market administrator shall offset any payment due any handler against payments due from such handler.

§ 1013.84 *Payments to the producer-settlement fund.* On or before the 10th day after the end of each month each handler who operates a pool plant shall pay to the market administrator for payment to producers through the producer-settlement fund the amount, if any, by which the total value computed for him pursuant to § 1013.70 for such month is greater than the sum required to be paid by such handler pursuant to § 1013.80.

§ 1013.85 *Payments out of the producer-settlement fund.* On or before the 12th day after the end of each month, the market administrator shall pay to each handler, for payment to producers, the amount, if any, by which the sum required to be paid by such handler pursuant to § 1013.80 is more than the total value computed for him pursuant to § 1013.70: *Provided,* That if the balance in the producer-settlement fund is insufficient to make payments to all handlers pursuant to this section, the market administrator shall reduce such payments by a uniform amount per hundredweight of milk and shall complete such payments as soon as the necessary funds become available.

§ 1013.86 *Adjustment of accounts.* Whenever verification by the market administrator of reports or payments of any handler discloses errors in payments to or from the producer-settlement fund pursuant to §§ 1013.84 and 1013.85, the market administrator shall promptly bill such handler for any unpaid amounts and such handler shall, within 5 days of such billing, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within 5 days, make such payment to such handler.

§ 1013.87 *Adjustment of errors in payments to producers.* Whenever verification by the market administrator of the payments by a handler to any producer or cooperative association, discloses payment of less than is required by § 1013.80 the handler shall make up such payment to the producer or cooperative association not later than the time of making payments next following such disclosure.

§ 1013.88 *Expense of administration.* As his pro rata share of the expense of administration hereof, each handler shall pay to the market administrator on or before the 12th day after the end of the month for such month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight, as the Secretary may prescribe with respect to all (a) receipts of producer milk including such handler's own production, (b) other source milk at a pool plant which is classified as Class I milk, and (c) Class I disposed of during the month from nonpool plants on routes in the marketing area.

§ 1013.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the names of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representative all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives;

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed; and

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section (1) (a) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1013.90 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 1013.91.

§ 1013.91 *Suspension or termination.* The Secretary may suspend or terminate this part, or any provision of this part, whenever he finds this part, or any provision of this part, obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 1013.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations under this part, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1013.93 *Liquidation.* Upon the suspension or termination of the provisions of this part except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1013.94 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 1013.95 *Separability of provisions.* If any provision of this part or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this part to other persons or circumstances shall not be affected thereby.

Filed at Washington, D. C., this 24th day of January 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

Commodity Stabilization Service

[7 CFR Part 730]

RICE

MEASUREMENT OF ACREAGE, MARKETING, COLLECTION OF MARKETING PENALTIES, STORAGE AND RECORDS AND REPORTS, 1957–58 MARKETING YEAR

A national marketing quota proclamation for the 1957 crop of rice was issued by the Secretary of Agriculture on November 20, 1956 (21 F. R. 9161–9162), and the quota was approved by rice producers voting in a referendum on December 11, 1956. Farm acreage allotments were established pursuant to section 353 of the Agricultural Adjustment Act of 1938, as amended, and notice thereof mailed to farm operators prior to the date of the referendum in accordance with section 362 of the act.

Pursuant to the authority contained in the applicable provisions of the act, as amended and supplemented (7 U. S. C. 1301, 1351–1356, 1372–1375), the Secretary of Agriculture is preparing to formulate and issue marketing quota regulations covering the measurement of farms, the determination of farm normal yields and farm marketing excesses, the issuance of marketing cards, the identification of rice, the storage and delivery of rice to avoid or postpone payment of penalties, the collection and refund of penalties, and the records and reports incident thereto with respect to the 1957 crop of rice.

It is proposed that the regulations will cover the same subject matter as the regulations and amendments in effect for rice for the 1956–57 marketing year (21 F. R. 3169, 5963; 22 F. R. 4), and that no substantial changes will be made.

Prior to the issuance of such regulations, consideration will be given to any data, views or recommendations pertaining thereto which are submitted in writing to the Director, Grain Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued this 24th day of January 1957.

[SEAL] CLARENCE L. MILLER,
Acting Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 19]

CHEESES; PROCESSED CHEESES; CHEESE FOODS; CHEESE SPREADS; AND RELATED FOODS; DEFINITIONS AND STANDARDS OF IDENTITY

NOTICE OF PROPOSAL TO ADOPT DEFINITION AND STANDARD OF IDENTITY FOR GRATED AMERICAN CHEESE FOOD

Notice is hereby given that a petition has been filed by The Borden Company, 350 Madison Avenue, New York 17, New York, setting forth a proposal for the adoption of a definition and standard of identity for a food to be named grated American cheese food.

Pursuant to the authority of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended, 70 Stat. 919; 21 U. S. C. 341, 371) and delegated to him by the Secretary of Health, Education, and Welfare (20 F. R. 1996; 21 F. R. 6581), the Commissioner of Food and Drugs invites all interested persons to present their views in writing regarding the proposal published below. Such views and comments should be submitted in quintuplicate addressed to the Hearing Clerk, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington 25, D. C., prior to the thirtieth day following the date of publication of this notice in the FEDERAL REGISTER.

The proposal of the petitioner is as follows:

§ 19.— *Grated American cheese food; identity; label statement of optional ingredients.* (a) (1) Grated American cheese food is the food prepared by mixing, with or without the aid of heat, one or more of the optional cheese ingredients prescribed in paragraph (b) of this section, with one or more of the optional ingredients prescribed in paragraph (c) of this section, into a uniformly blended, partially dehydrated, powdered or granular mixture.

(2) The solids of grated American cheese food contain not less than 28 percent of milk fat, as determined by methods prescribed in § 19.500 (c).

(3) The weight of the cheese ingredient prescribed by subparagraph (1) of this paragraph constitutes not less than 51 percent of the weight of all ingredients used in the grated American cheese food.

(b) The optional cheese ingredients referred to in paragraph (a) of this section are cheddar cheese, washed curd cheese, colby cheese, and granular cheese.

(c) The other optional ingredients referred to in paragraph (a) of this section are:

(1) Nonfat dry milk.

(2) An emulsifying agent consisting of one or any mixture of two or more of the following: Monosodium phosphate, disodium phosphate, dipotassium phosphate, trisodium phosphate, sodium metaphosphate (sodium hexametaphosphate), sodium acid pyrophosphate, tetrasodium pyrophosphate, sodium citrate, potassium citrate, calcium citrate, sodium tartrate, and sodium potassium tartrate, in such quantity that the weight of the solids of such emulsifying agent is not more than 3 percent of the weight of the cheese ingredient of the grated American cheese food.

(3) Salt.

(4) Harmless artificial coloring.

(d) The label of grated American cheese food shall bear the common or usual name of the optional ingredients used as specified in paragraphs (b) and (c) (1), (2), (3), and (4) of this section, except that the cheese ingredient may be designated as "American cheese."

(e) Wherever the name of the food appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the words and statements specified in this section, showing the optional ingredients used, shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter.

Dated: January 22, 1957.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

NOTICES

DEPARTMENT OF THE TREASURY

United States Coast Guard

[CGFR 57-3]

COAST GUARD PORT SECURITY CARDS

The United States Coast Guard is authorized to issue Coast Guard Port Security Cards as one means of identification of persons regularly employed on vessels or on waterfront facilities or of persons having regular public or private business connected with the operation, maintenance, or administration of vessels, their cargoes, or waterfront facilities. The practice is to limit the validity of these Coast Guard Port Security Cards to a definite period of time from the date of issuance. The Coast Guard Port Security Cards issued prior to October 1952 bear a date of expiration two years after the date of issuance. Coast Guard Port Security Cards issued between October 1952 and January 1954 indicate a period of validity of four years from the date of issuance. The Coast Guard Port Security Cards issued between January 1954 and January 1957 bear a validity period of six years from the date of issuance thereof. It is not deemed appropriate or necessary to require the rescreening of holders of Coast Guard Port Security Cards and the reissuance of such cards at this time.

By virtue of the authority vested in me as Commandant, United States Coast

Guard, by 33 CFR 6.10–7 in Executive Order 10173, as amended by Executive Orders 10277 and 10352 (15 F. R. 7005, 7007, 7008, 16 F. R. 7537, 7538, 17 F. R. 4607), notice is given to holders of Coast Guard Port Security Cards (Form CG–2514) that the period of validity of such cards, unless sooner surrendered or canceled by proper authority, will be for a period of eight years from the date of issuance thereof instead of the various periods as indicated on the reverse of the cards.

This document supersedes Coast Guard Document CGFR 53–62 entitled "Coast Guard Port Security Cards", dated January 11, 1954, and published January 16, 1954 (19 F. R. 306).

Dated: January 22, 1957.

[SEAL] J. A. HIRSHFIELD,
Rear Admiral, U. S. Coast Guard, Acting Commandant.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

UTAH

RESTORATION ORDER UNDER FEDERAL POWER ACT

JANUARY 18, 1957.

Pursuant to Determination DA–115–Utah, of the Federal Power Commission and in accordance with the authority delegated to me by the Director, Bureau of Land Management, in Order No. 541, dated April 21, 1954 (19 F. R. 2473), it is ordered as follows:

Subject to valid existing rights and the provision of existing withdrawals, the lands hereinafter described have been open to entry and location under the United States mining laws pursuant to the act of August 11, 1955 (69 Stat. 683; 30 U. S. C. 621), and to applications and offers under the mineral-leasing laws, and, so far as they are reserved for power purposes, are hereby restored to disposition under the public land laws, subject to provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended:

SALT LAKE BASE MERIDIAN, UTAH

T. 15 S., R. 17 E.,
Sec. 7, Lot 4, SE¼SE¼;
Sec. 8, Lot 5.

The area described totals 93.26 acres of public lands.

The subject lands lie adjacent to the right bank of Green River, immediately downstream from the mouth of Rock Creek. The lands are primarily valuable for grazing of livestock.

No application for these lands will be allowed under the homestead, desert-land, small tract, or any other nonmineral public land law, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Any disposition of the lands described herein shall be subject to the stipulation that if and when the land is required in whole or in part for power development purposes, any structures or improvements placed thereon which may be found to obstruct or interfere with such development, shall without cost, expense, or delay to the United States, its licensees or permittees, be removed or relocated insofar as may be necessary to eliminate interference with such power development.

The land described shall be subject to application by the State of Utah for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of material for construction and maintenance of such highways, in accordance with the subject to the provisions of section 24 of the Federal Power Act, as amended, and the special stipulation provided in the preceding paragraph.

The order shall not otherwise become effective to change the status of such land until 10:00 a. m. on February 23, 1957. At that time the said land shall become subject to application, petition, location and selection under the applicable public land law, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended. All applications filed pursuant to the Veterans' Preference Act of 1944, on or before 10:00 a. m. of February 23, 1957, shall be treated as though simultaneously filed at that time. All other applications under the public land laws filed on or before 10:00 a. m. of May 25, 1957, shall be treated as though simultaneously filed at that time.

Inquiries concerning these lands shall be addressed to the State Supervisor, Bureau of Land Management, Post Office Box No. 777, Salt Lake City 10, Utah.

VAL B. RICHMAN,
State Supervisor.

[F. R. Doc. 57–628; Filed, Jan. 28, 1957; 8:45 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

LIMON LIVESTOCK SALES CO. ET AL.

PROPOSED POSTING OF STOCKYARDS

The Director of the Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of the act.

Limon Livestock Sales Company, Limon, Colorado.
Stratton Sale Barn, Stratton, Colorado.
Farmers Livestock Commission Company, Wray, Colorado.
Wray Sale Barn, Wray, Colorado.
Yuma Livestock Auction, Yuma, Colorado.
Charles City Livestock Exchange, Charles City, Iowa.
Eldora Livestock Sales, Eldora, Iowa.
Uhlenhopp Sales, Aplington, Iowa.
Clear Lake Auction Company, Clear Lake, Iowa.
Waverly Sales Company, Waverly, Iowa.
Humboldt Livestock Auction, Humboldt, Iowa.
Barne's Commission Company, Lake Charles, Louisiana.
Miscelle's Commission Yards, Lake Charles, Louisiana.
Avoyelles Livestock Commission Market, Mansura, Louisiana.
Stephenville Auction Company, Stephenville, Texas.

Notice is hereby given, therefore, that the said Director, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), proposes to issues a rule designating the stockyards named above as posted stockyards subject to the provisions of the act, as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule may do so by filing them with the Director, Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., within 15 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D. C., this 24th day of January 1957.

[SEAL] H. E. REED,
Director, Livestock Division, Agricultural Marketing Service.

DEPARTMENT OF COMMERCE

Federal Maritime Board

J. W. ALLEN & Co., and B. H. LOVELESS & Co.

NOTICE OF AGREEMENT FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8195 between J. W. Allen & Co., New Orleans, Louisiana, and B. H. Loveless & Co., San Francisco, is a cooperative working arrangement under which the parties perform freight forwarding services for each other.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement, and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: January 24, 1957.

By order of the Federal Maritime Board.

[SEAL] GEORGE A. VIEHMANN,
Assistant Secretary.

[F. R. Doc. 57–642; Filed, Jan. 28, 1957; 8:47 a. m.]

FERN-VILLE FAR EAST LINES AND WATERMAN STEAMSHIP CORP.

NOTICE OF AGREEMENT FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 7998–C between the carriers comprising the Fern-Ville Far East Lines joint service and Waterman Steamship Corporation, provides for the cancellation of approved transshipment Agreement No. 7998, covering the transportation of cargo under through bills of lading from Puerto Rico to the Philippine Islands, with transshipment at New Orleans, Louisiana.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: January 24, 1957.

By order of the Federal Maritime Board.

MEMBER LINES OF AMERICAN GREAT LAKES-MEDITERRANEAN EASTBOUND FREIGHT CONFERENCE

NOTICE OF AGREEMENT FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8250–2, between the member lines of the American Great Lakes-Mediterranean Eastbound Freight Conference, modifies the basic conference agreement (No. 8250) by deleting the words "for the first season" from the provision requiring that member lines must reply within 24 hours their approval or disapproval of a request of a member line to fix a vessel on a charter or tramp basis for a single trip.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: January 24, 1957.

By order of the Federal Maritime Board.

[SEAL] GEORGE A. VIEHMANN,
Assistant Secretary.

CIVIL AERONAUTICS BOARD

[DOCKET NO. 8432]

NATIONAL AIRLINES; SERVICE TO WINSTON-SALEM AND/OR GREENSBORO-HIGH POINT

NOTICE OF PREHEARING CONFERENCE

In the matter of the investigation instituted pursuant to sections 401 (h) and 1002 (b) of the act to determine whether the public convenience and necessity require (a) that National Airlines should be authorized to serve Winston-Salem and/or Greensboro-High Point, N. C., on route No. 31 in addition to Eastern Air Lines and Capital Airlines, (b) that National Airlines should be authorized to serve Greensboro-High Point and/or Winston-Salem on route No. 31 and, in that event, the authority of Capital Airlines to serve Winston-Salem and/or Greensboro-High Point, N. C. on route No. 51 should be modified, suspended or terminated, and (c) that, if National Airlines is authorized to serve Winston-Salem and/or Greensboro-High Point, on route No. 31, that appropriate restrictions be placed upon such service for the protection of local traffic served by Piedmont Aviation.

Notice is hereby given, that a prehearing conference in the above-entitled investigation is assigned to be held on February 13, 1957, at 10:00 a. m., e. s. t., in Room E–210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., before Examiner Richard A Walsh.

Dated at Washington, D. C., January 24, 1957.

CLASS B FM BROADCAST STATIONS

REVISED TENTATIVE ALLOCATION PLAN

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of January 1957;

The Commission having under consideration a proposal to amend the Revised Tentative Allocation Plan for Class B FM Broadcast Stations, and

It appearing that Notice of Proposed Rule Making (FCC 56–1235) setting

forth the above amendment was issued by the Commission on December 14, 1956 and was duly published in the FEDERAL REGISTER (21 F. R. 10262), which notice provided that interested parties might file statements or briefs with respect to the said amendment on or before January 11, 1957; and

It further appearing that no comments were received opposing the proposed amendment;

It further appearing that the immediate adoption of the proposed amendment would facilitate action on an application (File No. BMPH-5087) filed by the Southwestern Broadcasting Company for assignment of Channel No. 229 to FM Broadcast Station KSEL-FM, Lubbock, Texas;

It further appearing that authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended,

It is ordered, That effective immediately, the Revised Tentative Allocation Plan for Class B FM Broadcast Stations is amended as follows in respect to the city of Lubbock, Texas:

General area	Channel	
	Delete	Add
Lubbock, Tex.		229

Released: January 24, 1957.

JOHN S. CHAVEZ, ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of John S. Chavez, Raul G. Amaya, Guadalupe Caballero, Salvador Villareal and Gabriel S. Chavez, Ysleta, Texas; Docket No. 11915, File No. BP-10639; Robert L. Howsam, El Paso, Téxas; Docket No. 11916, File No. BP-10681; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of January 1957;

The Commission having under consideration the above-captioned applications of John S. Chavez, Raul G. Amaya, Guadalupe Caballero, Salvador Villareal and Gabriel S. Chavez, File No. BP-10639, and of Robert L. Howsam, File No. BP-10681, for construction permits for new standard broadcast stations to operate on 1150 kilocycles with a power of 1 kilowatt, daytime only, at Ysleta, Texas and El Paso, Texas, respectively;

It appearing that both applicants are legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to construct and operate their proposed stations, but that operation of both stations as proposed would result in mutually destructive interference; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the applicants were advised by a letter dated November 2, 1956, of the aforementioned deficiency and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that timely replies were received from both applicants indicating that they would appear at a hearing on their applications, and that the reply by John S. Chavez amended his application to include his above-named associates; and

It further appearing that after consideration of the replies the Commission is of the opinion that a hearing on the applications is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of these proposed operations, and the availability of other primary service to such areas and populations.

2. To determine in light of section 307 (b) of the Communications Act of 1934, as amended, which of these proposed operations would better provide a fair, efficient and equitable distribution of radio service.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That, to avail themselves of the opportunity to be heard, each of the applicants herein, pursuant to § 1.387 of the Commission's rules, in person or by attorney shall within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

Released: January 24, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-657; Filed, Jan. 28, 1957; 8:49 a. m.]

[Docket Nos. 11920, 11921; FCC 57-77]

JANE A. ROBERTS AND BELLEVUE BROADCASTERS

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Jane A. Roberts, Bothell, Washington; Docket No. 11920, File No. BP-10383; F. Kemper Freeman and Florence G. Hayea d/b as Bellevue Broadcasters, Bellevue, Washington; Docket No. 11921 File No. BP-10564; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington D. C., on the 23d day of January 1957;

The Commission having under consideration the above-captioned applications of Jane A. Roberts, and F. Kemper Freeman and Florence G. Hayes d/b as Bellevue Broadcasters, each for a construction permit for a new standard broadcast station to operate on 1330 kilocycles with a power of one kilowatt, directional antenna, daytime only, at Bothell and Bellevue, Washington, respectively;

It appearing that both applicants are legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate their proposed stations, but that the operation of both stations as proposed would result in mutually destructive interference and that the proposed operation of Jane A. Roberts would cause interference to Station KAGT, Anacortes, Washington (1340kc, 250w, U); and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated November 9, 1956, of the aforementioned interference and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that a timely reply was filed by each of the applicants; and

It further appearing that the application of Bellevue Broadcasters, by amendment filed December 26, 1956, proposed a directional antenna system which eliminated the possibility of causing objectionable interference to Station KAGT which had obtained prior to the filing of the amendment; and

It further appearing that Station KAGT, by letter of September 7, 1956, expressed an intention of appearing at a hearing on the applications; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation of Jane A. Roberts would cause interference to Station KAGT, Anacortes, Washington, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-captioned applications would better provide a fair, efficient and equitable distribution of radio service.

4. To determine in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That C. H. Fisher and Edna E. Fisher d/b as Skagit Broadcasting Company, licensees of Station KAGT, are made parties to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, Jane A. Roberts, Bellevue Broadcasters and the Skagit Broadcasting Company, pursuant to § 1.387 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

Released: January 24, 1957.

[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-658; Filed, Jan. 28, 1957; 8:41 a. m.]

[Docket No. 11922; FCC 57-78]

CLASS B FM BROADCAST STATIONS

REVISED TENTATIVE ALLOCATION PLAN

NOTICE OF PROPOSED ALLOCATION

1. Notice is hereby given of further proposed rule making in the above-entitled matter.

2. It is proposed to amend the Revised Tentative Allocation Plan for Class B

FM Broadcast Stations in the following manner:

General area	Channels	
	Delete	Add
Worcester, Mass.	236	271
Holyoke-Springfield, Mass.	270	
Hartford, Conn.	291	290
Bay Shore, N. Y.	290	291
Boston, Mass.	290	
Albany, N. Y.	290	
Keene, N. H.	282	300
Mt. Washington, N. H.	283	241

3. A request was submitted by the General Broadcasting Corporation licensee of FM broadcast Stations WFMX, New York City; WTMH, Providence, Rhode Island; and WFMQ, Hartford, Connecticut; for changes in the FM Allocation Plan in order to permit operation of a proposed concert network in New England and metropolitan New York utilizing the three above mentioned stations, Station WGHF, Brookfield, Connecticut, a proposed new FM station in Boston, Massachusetts, and an existing FM station in the Albany, New York area. Such changes would permit the off-the-air rebroadcasting by these stations without interference from other stations in the area.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i) 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before February 25, 1957, a written statement or brief setting forth his comments. Comments in support of the proposed amendment also may be filed on or before that same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: January 23, 1957.

Released: January 24, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[FCC 57-83]

STATEMENT OF ORGANIZATION, DELEGATIONS OF AUTHORITY AND OTHER INFORMATION

MISCELLANEOUS AMENDMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of January 1957;

The Commission having under consideration paragraphs (a) and (b) of section 0.253 of its Statement of Organization, Delegations of Authority and Other Information authorizing the Chief of the Common Carrier Bureau or, in his absence, the Acting Chief of the Bureau to act upon certain applications or requests for certificates and authorizations, or modifications thereof, under section 214 of the Communications Act of 1934, as amended;

It appearing that the above-described paragraphs (a) and (b) are not explicit as to the authority delegated and the limitations thereon insofar as they relate to certificates and authorizations, or modifications thereof, for the leasing of lines or facilities by carriers for the purposes of acquiring, operating or extending lines; providing temporary or emergency service; and supplementing existing facilities;

It further appearing that under the above-described paragraphs (a) and (b) it was intended to delegate certain authority, within reasonable limits, to the Chief of the Common Carrier Bureau or, in his absence, the Acting Chief of the Bureau to act upon the above-described applications and requests; and that clarification of the extent of such authority is desirable;

It further appearing that the delegation of authority to the Chief of the Common Carrier Bureau or, in his absence, the Acting Chief of the Bureau to act upon those applications and requests, as described above, which involve an annual rental of less than $100,000 is designed to improve the internal administration of the Commission and to facilitate the prompt and orderly handling of such applications and requests;

It further appearing that the publication requirements and rule making procedures prescribed by section 4 of the Administrative Procedure Act may be omitted since the amendment herein ordered relates to internal Commission organization and procedure and is not substantive in nature;

It further appearing that authority for the amendment herein ordered is contained in sections 4 (i) and 5 (d) (1) of the Communications Act of 1934, as amended;

It is ordered, That, effective February 1, 1957, paragraphs (a) and (b) of section 0.253 are amended to read as follows:

(a) For a certificate authorizing the construction, acquisition, operation or extension of lines or for an authorization for temporary or emergency service or the supplementing of existing facilities involving an estimated construction or purchase cost of less than $500,000 or an annual rental of less than $100,000.

(b) For modification of a certificate or authorization under this section of the act where such amendment or modification involves an estimated construction or purchase cost of less than $500,000 or an annual rental of less than $100,000.

Released: January 24, 1957.

FEDERAL POWER COMMISSION

[Docket No. E-6724]

EL PASO ELECTRIC CO.

NOTICE OF APPLICATION

JANUARY 23, 1957.

Take notice that on January 15, 1957, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by El Paso Electric Company (Applicant), a corporation organized under the laws of the State of Texas, and doing business in the States of New Mexico and Texas, with its principal business office at El Paso, Texas, seeking an order authorizing the issuance of 896,412 additional shares of Common Stock, par value $5.00 per share, to the holders of Common Stock of record. Applicant proposes to amend its charter by changing the presently authorized 896,412 shares of Common Stock without par value into 2,200,000 shares of Common Stock, par value $5.00 per share, and changing the presently issued and outstanding 896,412 shares of Common Stock without par value into 1,792,824 shares, par value $5.00 per share, such change and conversion to be evidenced, in lieu of the surrender and exchange of existing certificates, through the issuance to the holders of Common Stock of record, of certificates for 896,412 additional shares of Common Stock on the basis of one additional share of Common Stock for each share of Common Stock outstanding.

Any person desiring to be heard or make any protest with reference to said application should on or before the 15th day of February 1957, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 57-629; Filed, Jan. 28, 1957; 8:45 a. m.]

[Docket No. G-11235 etc.]

TRANSCONTINENTAL GAS PIPE LINE CORP. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

JANUARY 23, 1957.

In the matters of Transcontinental Gas Pipe Line Corporation, Docket No. G-11235; Pan American Engineering Company, Operator, Docket No. G-11236; Banquete Gas Company, Inc., Docket No. G-11237.

Take notice that on October 15, 1956, Transcontinental Gas Pipe Line Corporation (Transco) filed in Docket No. G-11235 an application, as amended November 26, 1956, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 3.5 miles of 4-inch lateral supply pipeline to extend southwesterly from a point of connection with Transco's existing 8-inch Luby lateral to a proposed 265-horsepower booster compressor station which, together with dehydration, metering and appurtenant facilities, is to be installed in the South Clara Driscoll Field, Nueces County, Texas. Transco states that these proposed facilities will enable it to purchase and receive natural gas from Banquete Gas Company (Banquete) in the South Clara Driscoll Field, Nueces County, Texas, purchased by Banquete from Pan American Engineering Company, Operator (Pan American). Transco further states that the estimated total initial cost of these facilities is $240,000, which cost is to be financed from company funds.

Take further notice that on October 15, 1956, Banquete filed in Docket No. G-11237 an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, covering the above sale of gas to Transco to be made pursuant to a 10-year gas sales contract dated September 7, 1956, between Transco and Banquete, as amended by letter dated November 8, 1956.

Also on October 15, 1956, Pan American filed at Docket No. G-11236 an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, covering its sale of gas to Banquete to be made pursuant to a 10-year gas sales contract executed August 20, 1956, between Banquete and Pan American.

All of the above applications are on file with the Commission and open for public inspection.

Banquete, sole signatory seller party to the contract involved, states that it filed its subject application on its own behalf and will transport the subject gas to a point of connection with Transco's proposed facilities in the field and such gas will be obtained from certain leases as described in the application and any other properties which may be covered by future gas purchase contracts Banquete may negotiate. Banquete further states that its facilities consist of field lines as shown on the map attached to its application.

Pan American, a partnership consisting of Roy A. Lamb and A. G. Salt, states that it is the only signatory seller party to the contract with Banquete, and has filed its application as operator and pursuant to § 154.91 (b) (1) of Commission Order No. 174-B, as amended, and lists in the application the acreage involved and the working interest owners thereto, together with their respective percentage interests in the subject acreage.

Pan American further states that its facilities consist of customary lease equipment; proposed deliveries to Banquete will be made at or within 200 feet of the wellheads involved and proposed deliveries to Transco will commence upon receipt of authorizations and completion of Transco's facilities proposed herein and minimum contract delivery rate to Banquete is specified to be 7,500 Mcf per day. Minimum contract delivery rate to Transco is specified to be 5,000 Mcf per day of high pressure gas (maximum delivery pressure of 1,000 psig) and 2,000 Mcf per day of low pressure gas (delivery pressure insufficient to enter Transco's system without compression but above 100 psig).

Transco will transport the gas received from Banquete commingled with its other gas supplies for sale in other states.

Transco alleges that the reserve estimates submitted by it indicates total remaining recoverable reserves, as of January 1, 1957, dedicated by Banquete to Transco, of 8,659 Mcf at 14.73 psia.

Transco also alleges that no new markets are proposed to be served by it other than those previously authorized by the Commission.

Concurrently with the certificate applications, Pan American and Banquete filed the aforementioned contracts as initial rate schedules to cover the proposed service. Rate schedule designations, prices, and estimated revenues for the first month of service are as follows:

Docket No.; Description; Price;[1] and Monthly Revenues

G-11236; Contract 8-20-56; Pan American Engineering Company (Operator), et al., FPC Gas Rate Schedule No. 1; 5; $16,000.

G-11237; Contract 9-7-56; Banquete Gas Company, Inc., FPC Gas Rate Schedule No. 1; 7; $14,000.

Transco further alleges that it is presently purchasing gas under filed rate schedules from other producers in this area under filed rate schedules at higher and lower rate levels.

These related matters should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 21, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 11, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

[1] Cents per Mcf at 14.65 psia.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 57-630; Filed, Jan. 28, 1957; 8:45 a. m.]

[Docket No. G-11553]

HEFNER CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JANUARY 23, 1957.

Take notice that The Hefner Company (Applicant), a partnership whose address is 720 Northwest 50th Street, Oklahoma City, Oklahoma, filed on November 29, 1956, an application for permission to abandon service pursuant to section 7 of the Natural Gas Act, authorizing Applicant to terminate service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to abandon service to Lone Star Gas Company. It states that it is imperative that it be permitted to terminate its contract with Lone Star Gas Company at the earliest possible date. The pressure on its well has declined to such extent that it is no longer able to deliver gas into the Lone Star Gas Company line. The pressure on Lone Star's line being maintained at 450 to 800 pounds, while its well pressure is only 125 pounds.

Applicant states further that the primary term of its lease has expired by reason of not being able to make any gas sales. It has obtained a market for its low pressure gas and hence may maintain its lease in force if permitted to abandon its Lone Star sales in order that it might make the low pressure sale.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Thursday, February 18, 1957, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before

February 15, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3679]

KROY OILS LTD.

ORDER SUMMARILY SUSPENDING TRADING

JANUARY 23, 1957.

I. The 20 cents par value Capital Stock of Kroy Oils Limited, an Alberta corporation (hereinafter called "registrant"), is listed and registered on the American Stock Exchange, a national securities exchange (hereinafter called "the exchange").

II. The Commission on November 2, 1956, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act") to determine at a hearing to be held on November 20, 1956, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the Capital Stock of registrant on the exchange for failure to comply with section 13 of the act and the rules and regulations adopted thereunder, in that the Commission has reason to believe that a current report for the month of May, 1956, on Form 8-K, filed by registrant with the Commission was false and misleading in certain respects set forth in said order. On January 11, 1957, the Commission issued its order summarily suspending trading of said securities on the exchange pursuant to section 19 (a) (4) of the act for the reasons set forth in said order to prevent fraudulent, deceptive or manipulative acts or practices for a period of ten days from January 14, 1957 to January 23, 1957, inclusive.

III. On November 7, 1956, counsel representing registrant requested a postponement of the hearing under section 19 (a) (2) of the act in order to enable him to prepare for the hearing. Pursuant to this request, the Commission on November 7, 1956, issued its order postponing the date of said hearing to November 26, 1956. Said hearing has commenced but has not yet been concluded by Commission order or decision.

IV. The Commission has reason to believe that the false report filed by registrant as alleged in the order and notice of hearing referred to in paragraph II and the relationship between registrant and Great Sweet Grass Oils Limited, also subject to an order issued concurrently herewith under section 19 (a) (4) of the act, and also subject to an order and notice of hearing under section 19 (a) (2) of the act, which hearing has been consolidated with the hearing referred to in paragraph III, are such as to cause widespread confusion and uncertainty in the market for registrant's shares. Under the circumstances recited in this order, the Commission is of the opinion that it would be impossible for the investing public to reach an informed judgment at this time as to the value of registrant's securities or for trading in such securities to be conducted in an orderly and equitable manner.

V. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the act and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the act that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten days from January 24, 1957, to February 2, 1957, inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 1-3827]

GREAT SWEET GRASS OILS LTD.

ORDER SUMMARILY SUSPENDING TRADING

JANUARY 23, 1957.

I. The $1.00 par value Capital Stock of Great Sweet Grass Oils Limited (hereinafter called "registrant") is listed and registered on the American Stock Exchange, a national securities exchange (hereinafter called "the exchange").

II. The Commission on October 19, 1956, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act"), and on October 24, 1956, issued its amended order and notice of hearing under the act to determine at a hearing to be held November 13, 1956, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the Capital Stock of registrant on the exchange for failure to comply with section 13 of the act and the rules and regulations thereunder, in that the Commission had reason to believe that the reports filed by registrant on Form 8-K and Form 10-K were false and misleading in certain respects set forth in said orders. On October 31, 1956, the Commission issued its second amended order and notice of hearing under section 19 (a) (2) of the act restating the allegations in the original and amended orders and including allegations that the Commission had reason to believe that the registrant's current report on Form 8-K for the month of December 1955, and amendments thereto, and that registrant's annual report on Form 10-K for its fiscal year ended December 31, 1955, and amendments thereto, were false and misleading in additional respects set forth in said order. On November 16, 1956, the Commission issued its third amended order and notice of hearing under section 19 (a) (2) of the act restating the allegations in the original and amended orders and including allegations that the Commission had reason to believe that the registrant's current report on Form 8-K for the month of August, 1955, was false and misleading in certain respects set forth in said order, and that the Form 8-K report for the month of December, 1955, and the Form 10-K report for the fiscal year ended December 31, 1955 were false and misleading in additional respects set forth in said order. On January 11, 1957, the Commission issued its order summarily suspending trading pursuant to section 19 (a) (4) of the act in said securities on the exchange for the reasons set forth in said order to prevent fraudulent, deceptive and manipulative acts or practices from January 14, 1957, to January 23, 1957, inclusive.

III. On November 7, 1956, counsel representing registrant requested a postponement of the hearing under section 19 (a) (2) of the act in order to enable him to prepare for the hearing. Pursuant to this request, the Commission on November 7, 1956, issued its order postponing the date of said hearing to November 26, 1956. Said hearing has commenced but has not yet been concluded by Commission order or decision.

IV. The Commission has reason to believe that the false reports filed by registrant as alleged in the orders and notices of hearing referred to in paragraph II and the relationship between registrant and Kroy Oils Limited, also subject to an order issued concurrently herewith under section 19 (a) (4) of the act, and also subject to an order and notice of hearing under section 19 (a) (2) of the act, which hearing has been consolidated with the hearing referred to in paragraph III, are such as to cause widespread confusion and uncertainty in the market for registrant's shares. Under the circumstances recited in this order, the Commission is of the opinion that it would be impossible for the investing public to reach an informed judgment at this time as to the value of registrant's securities or for trading in such securities to be conducted in an orderly and equitable manner.

V. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive,

or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the act and the Commission's Rules X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the act that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten days from January 24, 1957, to February 2, 1957, inclusive.

By the Commission.

[File No. 70-3463]

OHIO POWER CO.

NOTICE OF FILING REGARDING ACQUISITION OF COMMON STOCK OF NEWLY FORMED SUBSIDIARY COMPANY

JANUARY 23, 1957.

Notice is hereby given that Ohio Power Company ("Ohio"), a public utility subsidiary company of American Gas and Electric Company, a registered holding company, has filed an application and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") and has designated sections 9 (a) and 10 of said act as applicable to the proposed transaction, which is summarized as follows:

Ohio proposes to acquire 1,000 shares of the capital stock, $1 par value, being all of the capital stock proposed to be issued, of Captina Operating Company ("Captina"), a West Virginia corporation, at a purchase price of $1 per share.

Ohio has entered into a Memorandum Agreement under date of December 20, 1956, with Pittsburgh Consolidation Coal Company ("Pitt"), Olin Mathieson Chemical Corporation ("Olin"), Revere Copper and Brass Incorporated ("Revere") and Wheeling Electric Company ("Wheeling"), providing generally for the construction of what is, initially, to be a three-225,000 kw unit power plant near Cresap, West Virginia. Two units of this plant are to be owned by Olin Revere Generating Corporation ("Generating"), a wholly owned subsidiary of Olin Revere Metals Corporation ("Metals"), all the voting securities of which are to be jointly owned by Olin and Revere. The other unit is to be owned by Ohio. Generating presently proposes to use its units to supply energy to Metals for the reduction of aluminum, and to Olin for fabrication of aluminum, at facilities to be located near Clarington, Ohio. Generating, if requested, may also deliver energy to Revere at some future time for fabrication of aluminum. In addition, Generating will make excess capacity of its two units available to Ohio in consideration of appropriate demand charges. The Memorandum Agreement further provides that Captina will operate the entire generating plant for Ohio and Generating.

It is presently contemplated that Captina will supervise the operation, on behalf of Ohio and Generating, of the generating plant which is to be known as the Kammer Plant, and that Ohio and Generating will reimburse Captina for all its expenses in its operation of the Kammer Plant in proportion to the power and energy used by each. In addition, Generating will pay Captina a fee of ½ mill per kilowatt hour generated as provided for in the Memorandum Agreement.

The application states that no State commission or any Federal commission other than this Commission has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than February 8, 1957, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application as amended which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said amended application, as filed or as further amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57-638; Filed, Jan. 28, 1957; 8:46 a. m.]

[File No. 70-3543]

OHIO POWER CO. AND CENTRAL OHIO COAL CO.

ORDER APPROVING ISSUANCE AND SALE BY SUBSIDIARY OF COMMON STOCK AND ACQUISITION THEREOF BY PARENT COMPANY

JANUARY 23, 1957.

Ohio Power Company ("Ohio Power"), an electric utility subsidiary company of American Gas and Electric Company ("American Gas"), a registered holding company, and Central Ohio Coal Company ("Coal Company"), a non-utility subsidiary company, 100 percent of whose common stock is owned by Ohio Power, have filed a joint application with this Commission, pursuant to sections 6 (b) and 10 of the Public Utility Holding Company Act of 1935 ("act") regarding the following proposed transactions:

Coal Company proposes to issue and sell and Ohio Power proposes to acquire not in excess of 40,000 additional shares of Coal Company's capital stock from time to time prior to December 31, 1958, for a cash consideration of $100 per share, being the par value of such shares, or an aggregate of $4,000,000.

The proceeds to be derived by Coal Company from the proposed transactions will be used to pay a portion of the estimated cost of installing additional equipment for the purpose of expanding coal production at its Muskingum and Cumberland No. 3 mines and coal transportation facilities at the Muskingum mine not provided for by cash generated internally by Coal Company.

No legal or other fees, commissions or other expenses are to be paid or incurred by Ohio Power, or Coal Company or any associate company in connection with the proposed transactions except that services incident to the transactions will be performed, at cost, by the service corporation of American Gas. No State commission or Federal regulatory commission other than this Commission has jurisdiction over the proposed transactions.

Notice regarding the filing of said application having been given pursuant to Rule U-23 and no hearing having been requested of, or ordered by, the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied, and that said application should be granted forthwith:

It is ordered, Pursuant to Rule U-23, that said application be, and the same hereby is, granted forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57-637; Filed, Jan. 28, 1957; 8:46 a. m.]

[File No. 812-1056]

NORTH AMERICAN SECURITIES CO.

NOTICE OF FILING OF APPLICATION REGARDING PAYMENT OF BONUS TO EMPLOYEES

JANUARY 23, 1957.

Notice is hereby given that North American Securities Company ("Applicant"), has filed an application under section 17 (d) of the Investment Company Act of 1940 and Rule N-17D-1 of the rules and regulations thereunder for an order approving the payment of a year-end bonus to each and all of its employees, except its president for the year 1956. The applicant estimates that the proposed bonus payments to be made will be approximately $28,000.

Applicant is a wholly owned subsidiary and the investment adviser of North American Investment Corporation, a registered closed-end management investment company, and it is the underwriter and investment adviser of Commonwealth Investment Company and Commonwealth Stock Fund, Inc.,

both registered, open-end management investment companies. Applicant has approximately 52 employees who will be eligible to receive the payment mentioned above. Six of the employees are affiliated persons, as officers or directors, of North American Investment Corporation or Commonwealth Investment Company or Commonwealth Stock Fund, Inc., or of all three companies.

Applicant proposes to distribute 20 percent of the net income of the applicant for the year 1956, before federal and state income taxes, but after setting aside the first $50,000 of such income. Said amount shall in no event exceed 5 percent of the combined net income plus net realized gain on investments of applicant and its parent company, North American Investment Corporation, which has no paid employees and is managed by applicant.

It is desired that each employee with the company on December 31, 1956, except the President, shall participate by the assignment of unit credits to his basic salary (and/or guarantee) for December 1956 in the following manner: One unit for each $100 of monthly salary up to $350, plus two units for each $100 monthly salary between $350 and $700, plus three units for each $100 of monthly salary in excess of $700. Fractional units shall be assigned for fractional portions of each $100 of salary. For employees who have been with the company less than a full year, unit credits will be proportionate to the number of full months of service. The unit credits of all salaries shall then be added together and the total thereof divided into the total amount set aside for distribution and a unit value thereby determined. This unit value shall then be multiplied by each employee's unit credits and the result will be the dollar amount of additional compensation to be distributed to each employee.

Rule N-17D-1 provides, among other things, that it shall be unlawful, with certain exceptions not applicable here, for any affiliated person of a registered investment company or of any company controlled by any such registered company to participate in, or effect any transaction in connection with, any profit-sharing plan in which any such registered company or controlled company is a participant unless an application regarding such plan has been granted by the Commission.

Notice is further given that any interested person may, not later than February 8, 1957, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

FSA No. 33194: *Substituted service—Motor-rail-motor, N. Y., N. H. & H. and Pennsylvania Railroads.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent, for interested rail and motor carriers. Rates on various commodities loaded in highway trailers and transported on railroad flat cars between Boston, Mass., on the one hand, and Chicago, East St. Louis, Ill., Indianapolis, Ind., and Cleveland, Ohio, on the other, on traffic originating at or destined to points on motor carriers beyond the named points.

Grounds for relief: Motor-truck competition.

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1956 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 3, Wheat]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1956-CROP WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM

ELIGIBLE WHEAT

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 21 F. R. 4000, 5560, 6743, 8232, and 8307 containing the specific requirements of the 1956-crop wheat price support program are hereby amended as follows:

Section 421.1638 (c) (1) is amended to also make wheat grading "Sample" because of total damage only, eligible for price support if it otherwise grades No. 4 or No. 5 on test weight, and grades No. 3 or better in other respects so that the amended subparagraph reads as follows:

§ 421.1638 *Eligible wheat.* • • •

(c) • • •

(1) Eligible wheat shall be (i) wheat of any class grading No. 3 or better, (ii) wheat of any class grading No. 4 or 5 on the factor of "test weight" and/or because of containing "Durum", "Red Durum", or damaged kernels (other than heat damaged), but otherwise grading No. 3 or better, (iii) wheat of any class grading "Sample" because of damaged kernels only (other than heat damaged), if it contains not more than 14 percent moisture, is not musty, sour, heating or hot, and grades at least No. 4 or No. 5 on test weight, but otherwise grades No. 3 or better, or (iv) wheat of the class Mixed wheat, consisting of mixtures of grades of eligible wheat as stated in subdivision (i), (ii), or (iii) of this subparagraph provided such mixtures are the natural products of the field: *Provided*, That wheat shall not be eligible wheat if it does not meet the sanitation requirements set forth in paragraph (d) of this section.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 301, 401, 63 Stat. 1051, as amended, 1053, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1447, 1421)

Issued this 24th day of January 1957.

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1956-CROP WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM

DETERMINATION OF SUPPORT RATES

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 21 F. R. 4000, 5560, 6743, 8232, and 8307 containing the specific requirements of the 1956-crop wheat price support program are hereby amended as follows:

Section 421.1643 (d) (3) (vi) is amended to provide that wheat grading "Sample" because of total damage only, but otherwise grading No. 4 or No. 5 on test weight, and grading No. 3 or better in other respects will also be eligible for price support at a discount of 60 cents per bushel from the applicable basic terminal or county support rate, so that the amended subdivision reads as follows:

§ 421.1643 *Determination of support rates.* • • •

(d) *Support rates.* • • •

(3) *Premiums and discounts for classification, grade, variety, and protein content.* • • •

(vi) Wheat of any class grading "Sample" because of damaged kernels only (other than heat damaged), if it contains not more than 14 percent moisture, is not musty, sour, heating or hot, and grades at least No. 4 or No. 5 on test weight but otherwise grades No. 3 or better, shall be discounted 60 cents per bushel from the applicable basic terminal

PART 472—WOOL

SUBPART—1957 PAYMENT PROGRAM FOR SHORN WOOL AND UNSHORN LAMBS (PULLED WOOL)

This bulletin states the requirements with respect to the 1957 payment program for shorn wool and unshorn lambs (pulled wool), formulated by Commodity Credit Corporation (referred to in this bulletin as CCC) and the Commodity Stabilization Service (referred to in this bulletin as CSS).

PROGRAM OPERATION

Sec.
472.801 Administration.

SHORN WOOL

472.802 Incentive level and payments.
472.803 Eligibility for incentive payments.
472.804 Marketing within the 1957 marketing year.
472.805 Rate of incentive payment.
472.806 Computation of payment.
472.807 Supporting documents.
472.808 Contents of sales documents.
472.809 Preparation of application.
472.810 Report of purchases of unshorn lambs.

UNSHORN LAMBS (PULLED WOOL)

472.811 Rate of payment.
472.812 Eligibility for payments on lambs.
472.813 Computation of payment.
472.814 Application for payment and supporting documents.
472.815 Contents of sales documents.
472.816 Report of purchases of unshorn lambs.

GENERAL PROVISIONS

Sec.
472.817 Sales in good faith.
472.818 Joint applicants, successors, and representatives.
472.819 Filing application for payment.
472.820 Signature of applicant.
472.821 Payment.
472.822 Deductions for promotion.
472.823 Appeals.
472.824 Records and inspection thereof.
472.825 Death, incompetency, or other disability.
472.826 Set-off.
472.827 Assignments.
472.828 Forms.
472.829 Instructions and interpretations.
472.830 Violation of program.
472.831 Waiver by Executive Vice President or other official.
472.832 Definitions.

AUTHORITY: §§ 472.801 to 472.832 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 702–709, 68 Stat. 910–912; 15 U. S. C. 714c, 7 U. S. C. 1781–1787, 1446.

PROGRAM OPERATION

§ 472.801 *Administration.* The program will be carried out by CSS under the general supervision and direction of the Executive Vice President of CCC. In the field, the program will be administered through the Agricultural Stabilization and Conservation (referred to in this subpart as ASC) state and county offices. ASC state and county offices do not have authority to modify any of the provisions of this subpart or any of the amendments or supplements thereto. Neither are they authorized to waive any such provisions unless the power to waive is expressly included in the pertinent provision.

SHORN WOOL

§ 472.802 *Incentive level and payments.* For the 1957 marketing year (beginning April 1, 1957, and ending March 31, 1958, both dates inclusive, § 472.832), the price level which has been determined to meet the requirements of the National Wool Act of 1954 is 62 cents per pound of shorn wool, grease basis. Announcement of this price level was made by the Department of Agriculture on October 1, 1956, in accordance with section 703 of the National Wool Act of 1954, which states that the Secretary shall, to the extent practicable, announce the support price levels for wool sufficiently in advance of each marketing year as will permit producers to plan their production for such marketing year. For the 1957 marketing year, price support on shorn wool will be furnished by means of payments to the producer in accordance with the provisions of this subpart on the shorn wool he markets in that marketing year.

§ 472.803 *Eligibility for incentive payments.* Before payments under this program can be approved pursuant to any application for payment covering any lot or lots of wool, the following requirements must be satisfied:

(a) Except as provided in § 472.825, the applicant must be the producer, and in the case of a joint application each applicant must be a producer (as defined in § 472.832), of the shorn wool.

(b) The wool must have been shorn in the continental United States, its territories or possessions on or after January 1, 1955, and must have been marketed within the 1957 marketing year. For the purpose of this program, shorn wool is deemed to include murrain and other wool removed from dead sheep and other off wools such as black wool, tags, and crutchings.

(c) The wool as well as the sheep or lambs from which it was shorn, must have been owned by the producer at the time of sharing, and the sheep or lambs must have been owned by him for not less than 30 days at any time prior to his signing the application for payment (§ 472.818), with the following exception: The ownership, specified in the preceding sentence is not required of an applicant for payment who has an agreement with the owner of the animals pursuant to which the applicant, in return for furnishing labor in connection with caretaking, lamb production, or feeding, is entitled either to a share in the ownership of the wool shorn from such animals or a share of the sales proceeds of the wool; provided that the owner of the animals who joins in the application meets the ownership requirements. Ownership of wool or animals as used in this paragraph does not include the ownership which in some states is held by a person having a security interest, such as a mortgage or other lien.

(d) Beneficial interest in the wool must always have been in the producer from the time the wool was shorn up to the time of its sale. A producer has beneficial interest in wool (1) when he owns it without any other person being entitled to the wool or its proceeds and without his having authorized any other person to sell or otherwise dispose of the wool; (2) when the producer has authorized another person to sell or otherwise dispose of the wool, even transferring legal title to such other person, but the producer continues to be entitled to the proceeds from such sale or other disposal of the wool; or (3) when the producer is entitled to a share of the wool or of the proceeds thereof pursuant to an agreement described in the exception in paragraph (c) of this section though he does not own the animals from which the wool was shorn. If the producer has such beneficial interest, the fact that the wool may be mortgaged or subject to another lien does not change his position as having a beneficial interest.

(e) The producer must either report, in accordance with § 472.810, that the wool sold includes wool obtained by a first shearing of lambs (defined in § 472.832) he purchased on or after April 1, 1956, or certify that the wool sold does not include any wool so obtained.

§ 472.804 *Marketing within the 1957 marketing year.* (a) The National Wool Act of 1954 provides that price support under that act shall be limited to wool and mohair marketed during the period beginning April 1, 1955, and ending March 31, 1959. Since this program covers only the 1957 marketing year, payments under this program will be limited to wool marketed during the period beginning April 1, 1957, and ending March 31, 1958.

(b) Marketing shall be deemed to have taken place in the 1957 marketing year if, pursuant to a sale or a contract to sell, the last of the following three events in the process of marketing was completed in the 1957 marketing year: (1) Title passed to the buyer; (2) the wool was delivered to the buyer (physically or through documents which transfer control to the buyer); and (3) the last of the factors (price per pound, weight, etc.) needed to determine the total purchase price payable by the buyer became available. The factors are considered available when they are known to the applicant's marketing agency if he markets through a marketing agency, or they are known to the applicant if he markets directly. Any one of the three events previously mentioned may be the last event completed.

(c) Delivery of wool on consignment to a marketing agency (defined in § 472.832) to be sold for the producer's account does not constitute a marketing. This is so even though the consignee may guarantee the producer a minimum sales price or may give him an advance against the prospective sales price or may do both. Wool delivered on consignment shall not be deemed marketed by the producer until it has been marketed by the marketing agency. When a producer transfers title to his wool to a marketing agency and provides that such agency shall market the wool and that the producer shall be entitled to the proceeds of such marketing, the producer shall be deemed to have consigned the wool.

(d) The exchange of wool for merchandise or services (for instance, shearing) will be considered a sale, provided a definite price is established for the wool.

§ 472.805 *Rate of incentive payment.* Upon expiration of the 1957 marketing year and after the Department of Agriculture has determined the national average price for wool received by producers in that marketing year, the Department will announce the rate of the incentive payment under this program. The rate of payment will be the percentage of the national average price received by producers required to bring such national average price up to the announced incentive price. For example, if the reported national average price received by producers for wool sold during the 1957 marketing year should by 50 cents, the difference between that figure and the incentive price of 62 cents previously announced (§ 472.802) would be 12 cents, and this figure would constitute 24 percent of the national average price of 50 cents. In such a case, the rate of incentive payment would be 24 percent of the net sales proceeds received by each producer.

§ 472.806 *Computation of payment.* (a) In order to determine the amount of the incentive payment due to a producer on the wool he marketed during the 1957 marketing year, the percentage computed pursuant to § 472.805 will be applied to the net sales proceeds for the wool determined in accordance with paragraph (b) of this section. The amount so computed may be reduced on account of purchases of unshorn lambs (defined in § 472.832), in accordance with paragraph (c) of this section.

(b) The net sales proceeds shall be determined by deducting from the gross sales proceeds of the wool all marketing expenses, such as for transportation from the local shipping point; handling (including commissions); grading; scouring; or carbonizing. Items, however, listed in § 472.808 (a) (7) as "other deductions" shall not be deducted. The figure so arrived at will express the net proceeds received by the producer at his farm, ranch, or local shipping point (defined in § 472.832). For example, if the producer marketed his clip of 500 pounds at 50 cents per pound, he received $250 as gross proceeds and, if the marketing deductions totaled $25, his net proceeds of sale (after marketing deductions) amounted to $225. For the purpose of this program, the producer is expected to deliver his wool packed in bags to his local shipping point and to bear the storage expenses until the wool is sold. Consequently, charges made for furnishing wool bags, storing wool, or transporting wool to the producer's local shipping point shall not be considered deductible marketing charges. Neither are other charges, not directly related to marketing of the wool, such as interest on advances or dues owing an association, to be considered marketing charges.

(c) If pursuant to § 472.810, the producer reports, in his application for payment, the purchase on or after April 1, 1956, of any unshorn lambs, his incentive payment computed in accordance with paragraph (a) of this section shall be reduced by an amount resulting from multiplying the reported liveweight of the animals purchased on or after April 1, 1956, as unshorn lambs, by the announced rate per hundredweight to be paid producers under the pulled wool program (§ 472.811).

§ 472.807 *Supporting documents*—(a) *General.* The application for payment on account of shorn wool (§ 472.809) shall be supported by the original sales document (defined in § 472.832) for the wool sold.

(b) *Original sales document retained.* If the applicant does not wish the original sales documents to remain with the ASC county office, he may submit photostats or similarly reproduced or carbon or typewritten copies of the original documents. However, he must show the original documents to the ASC county office where the statements on the copies will be confirmed by comparison with the originals. The original sales documents will be appropriately stamped or marked to indicate that they had been used in support of an application for payment under this program and will be returned to the applicant. He will be required to retain them in accordance with § 472.624.

(c) *Practice of issuing carbon or photostat copies.* If it is the practice of the person or firm that prepared the sales document to furnish a carbon or photostat copy to the seller in place of the original, the producer may submit that copy in support of his application, provided the copy bears a signature, in accordance with § 472.808 (a) (10), of the person or of the representative of the firm that prepared the original sales document. Such copy shall be treated like an original for the purposes mentioned in this section.

(d) *Lost or destroyed sales document.* If the original sales document has been lost or destroyed, the applicant may submit a copy, certified by the buyer or the applicant's marketing agency, and such certified copy shall be treated like an original for the purposes mentioned in this section.

§ 472.808 *Contents of sales documents.* The sales documents attached to each application for an incentive payment must contain a final accounting, meeting the requirements of paragraph (a) or (b) of this section, for the wool covered by the sales document. Contracts to sell as well as tentative or pro forma settlements will not be acceptable as sales documents meeting such requirement. Except as provided in § 472.825, sales documents must cover wool sold by the applicant.

(a) *Sales other than at farm, ranch, or local shipping point.* Each sales document, except a document covering an outright sale at the producer's farm, ranch, or local shipping point and described in paragraph (b) of this section, must be prepared by the purchaser or the applicant's marketing agency and must contain at least the following information:

(1) Name and address of seller.

(2) Date of sale. In case the producer's shipment to a marketing agency is sold in parts within the 1957 marketing year, the date when final settlement is made within that marketing year for the wool that was sold within that marketing year may be shown on the sales document as the date of sale instead of the various dates on which the sales actually took place.

(3) Net weight of wool sold. If the wool was sold as scoured or carbonized wool, the original grease weight must be shown as well as the scoured or carbonized weight.

(4) The gross sales proceeds or sufficient information from which the gross sales proceeds can be determined, except when the practice is otherwise as provided in subparagraph (5) of this paragraph.

(5) Marketing deductions, if any (see § 472.806 (b)), except as otherwise provided in this subparagraph. The marketing deductions may be itemized or they may be shown on the sales document as a composite figure for all marketing charges with an explanation of what services are included in that figure. If it is the practice of a marketing agency to show, on the sales document, only the net proceeds after marketing deductions, the gross sales proceeds and the amount of the marketing deductions need not be shown, provided the sales document contains a statement reading substantially as follows: "The net sales proceeds after marketing deductions shown herein were computed by deducting from the gross sales proceeds charges for the following marketing services: _____. Details of these charges will be furnished on request." All the services for which deductions are made shall be enumerated in the blank space indicated. If a sales document shows charges without specifying their nature, they will be considered marketing charges and will thus diminish the net proceeds on which the incentive payment is computed.

(6) Net proceeds after marketing deductions. If a sales document contains a figure for net proceeds after marketing deductions computed for a location other than the producer's farm, ranch, or local shipping point, the person preparing the sales document shall show thereon the name of the location for which the net proceeds have been computed.

(7) Other deductions, such as those for bags, storage, interest, association dues, and charges not directly related to marketing of the wool.

(8) Amount paid to the seller.

(9) Name and address of the purchaser or marketing agency issuing the sales document.

(10) Signature. The sales document must bear a handwritten signature by or on behalf of the person or firm issuing the sales document. Acceptable signatures will consist of at least one initial or name by which the person is generally known, followed by his last name in full. A carbon impression or facsimile of a handwritten signature is not acceptable.

(11) A sales document issued by a marketing agency and covering sales made on various dates within the 1957 marketing year shall contain a statement that the wool was marketed during the 1957 marketing year as required by the regulations issued pursuant to the National Wool Act of 1954.

(b) *Sales at farm, ranch, or local shipping point.* Each sales document, covering an outright sale at the producer's farm, ranch, or local shipping point and attached to an application for incentive payment, shall be prepared by the purchaser and must contain at least the following information: Name and address of seller, date of sale, net weight of wool sold, the net amount received by the producer for the wool at his farm, ranch, or local shipping point, any applicable nonmarketing deductions, such as association dues or interest on advances, the name and address of the purchaser, and the signature of the purchaser or his agent.

§ 472.809 *Preparation of application.* (a) The application for payment on account of shorn wool, to be filed in the original only, shall be prepared on CCC Wool Form 55, "Application for Incentive Payment—Shorn Wool". The form consists of two parts. Part I is designed to give the ASC county office general information about the wool production of the applicant and contains his certification as to facts relating to the production and ownership of the wool marketed. Part II contains details about the marketing of the wool which is the basis for the application and contains another certification which covers these details. If the applicant paid any marketing charges (§ 472.808 (a) (5)) not shown on the sales document, such as for scouring or carbonizing, grading, or freight from the applicant's local shipping point, such charges shall be considered with the marketing charges shown on the sales document in arriving at the net proceeds.

(b) The applicant may, in his discretion, fill out both parts and sign both certifications. He may, however, fill out only Part I, sign the certification included therein, forward the application to his marketing agency, and request it to fill out Part II, to sign the certification included in this part, and to file the application with the required attachments on behalf of the applicant in the appropriate ASC county office in accordance with § 472.819 (a). If the applicant chooses this method of submitting his application, he will be responsible for the correctness of the information furnished by the marketing agency as well as for compliance by it with the requirements as to the time and manner of filing the application.

§ 472.810 *Report of purchases of unshorn lambs.* In making application for payment on the sale of shorn wool, the producer shall report as prescribed in this section, with reference to animals purchased by him as unshorn lambs on or after April 1, 1956, the date of each purchase as well as the number and liveweight of the animals purchased.

(a) *No purchases.* If the applicant knows that his application does not include any wool which was removed in the first shearing of the animals purchased by him on or after April 1, 1956, as unshorn lambs, he will report no purchases of unshorn lambs.

(b) *Report on actual basis.* If wool removed in the first shearing of such lambs is included in the application, and the applicant's operations are conducted in such a manner that he is able to identify the lambs from which such wool was shorn, he shall report the date of purchase as well as the number and liveweight of the animals that he purchased as unshorn lambs on or after April 1, 1956, from which such wool was subsequently shorn and included in the application. Among the lambs purchased he shall include those which died after purchase and from which the wool was removed and included in the application.

(c) *Report on "first in, first out" basis*—(1) In the event the applicant does not know whether or not wool removed in the first shearing from such lambs is included in the application, or knows that some such wool is included, but is unable to report the exact date of purchase of such lambs, he shall report on a "first in, first out" basis, as hereinafter explained, the date of purchase as well as the number and liveweight of a quantity of unshorn lambs equal to the number of lambs from which wool was shorn and included in the application. The reporting of purchased animals shall be continued in subsequent applications for incentive payment on shorn wool and applications for payment on unshorn lambs until the applicant has accounted for all animals purchased by him on or after April 1, 1956, as unshorn lambs and not reported in an application for payment under the 1956 payment program for shorn wool or unshorn lambs, except that he need not report such animals if he has not applied for a payment on their sale or on the sale of wool shorn therefrom. If the producer does not have sufficient marketings of wool and unshorn lambs during the 1957 marketing year to cover all of his purchases of unshorn lambs, including those that had not been reported in the 1956 payment program, and consequently does not report all of his purchases of unshorn lambs in applications based on sales during the 1957 marketing year, the balance shall be carried forward and reported in succeeding marketing years.

(2) For example, if the producer's first application for the 1957 marketing year covers the sale of wool shorn from 200 sheep or lambs, he shall report in that application the date of purchase, the number, and the liveweight of the first 200 animals he purchased on or after April 1, 1956, as unshorn lambs that were not reported on an application for payment filed under the 1956 payment program for shorn wool or unshorn lambs; if, for example, his second application covers the sale of 300 unshorn lambs, he shall report in that application the same information for the next 300 animals that he purchased on or after April 1, 1956, and that were not reported on an application for payment under the 1956 program; and as additional applications are filed either on shorn wool or unshorn lambs under the 1957 program, he shall report his purchases in chronological order until all purchases up to the date of his application are accounted for, in accordance with subparagraph (1) of this paragraph.

(3) If the producer makes application for a payment on the sale of either shorn wool or unshorn lambs after he has reported his total purchases of unshorn lambs on or after April 1, 1956, he will report no purchases of unshorn lambs in such an application.

UNSHORN LAMBS (PULLED WOOL)

§ 472.811 *Rate of payment.* The National Wool Act of 1954 provides in section 703 that the support price for pulled wool shall be established at such a level, in relationship to the support price for shorn wool, as the Secretary determines will maintain normal marketing practices for pulled wool. The support price for shorn wool has been determined to be 62 cents per pound, grease basis (§ 472.802). Payments on shorn wool will be made on a percentage basis, by applying, to the net sales proceeds received by the producer, a percentage which is based on the difference between the national average price received by producers during the 1957 marketing year and the incentive price of 62 cents (§ 472.805). Payments under the pulled wool program will be made in accordance with this subpart for wool on lambs that have never been shorn and are sold or moved to slaughter in the 1957 marketing year, and will be at a flat rate per hundredweight of live animals. The payments will be based on the average weight of wool per hundredweight of animals (5 pounds) multiplied by 80 percent of the difference between the national average price received by producers for shorn wool and the 1957 incentive price of 62 cents per pound of shorn wool.

The exact rate of payment will be determined after the end of the 1957 marketing year. For example, if the reported national average price received by producers for wool sold during the 1957 marketing year should be 50 cents, the rate of payment per hundredweight of live lambs would be 48 cents.

§ 472.812 *Eligibility for payments on lambs.* Before payments under this program can be approved pursuant to an application covering any lot or lots of lambs, the following requirements must be satisfied:

(a) *Fed or pastured in United States.* The lambs must have been fed or pastured in the continental United States, its territories, or possessions.

(b) *Thirty days' ownership.* If a producer is to qualify for a payment, he must have owned the lambs for 30 days or more, and if a slaughterer (as defined in § 472.832) is to qualify for a payment, he must have owned the lambs for 30 days or more prior to their moving to slaughter, with the following exception: Ownership interest in the lambs for the 30-day period is not required of an applicant for payment who has an agreement with the owner of the lambs pursuant to which the applicant, in return for furnishing labor in connection with caretaking or feeding of the lambs, is entitled either to a portion of the lamb production or to a share in the proceeds from the sale of the lambs; provided that the owner of the lambs who joins in the application meets the 30-day ownership requirement. Ownership of lambs, as used in this paragraph, does not include the ownership which in some states is held by a person having a security interest, such as a mortgage or other lien.

(c) *Never shorn.* The lambs must never have been shorn at the time of sale or, in the case of an application by a slaughterer, at the time of moving to slaughter.

(d) *Sold or moved to slaughter in 1957 marketing year.* The lambs must have been sold, that is, title to the lambs must have passed to the buyer within the 1957 marketing year or, in the case of lambs that are owned by a slaughterer for 30 or more days before moving to slaughter, the lambs must have moved to slaughter within the 1957 marketing year.

(e) *Report of purchased lambs.* The applicant must either report his purchases of unshorn lambs on or after April 1, 1956, in accordance with § 472.816, or certify that the lambs sold do not include any lambs purchased after that date.

§ 472.813 *Computation of payment.* In order to determine the amoupt of the payment due to an applicant, the rate of payment, computed pursuant to § 472.811, shall be applied to the liveweight (defined in § 472.832) of the lambs sold or moved to slaughter (§ 472.812 (d)), during the 1957 marketing year. Such liveweight, however, shall be reduced by the liveweight of any lambs reported in the application for payment, pursuant to § 472.816, as having been purchased by the applicant on or after April 1, 1956, as unshorn lambs. For example, if the applicant sells, during the 1957 marketing year, 100 unshorn lambs weighing 8,000 pounds which he produced on his farm or ranch, he will be entitled to a payment on a liveweight of 8,000 pounds. On the other hand, if the applicant sells, during the 1957 marketing year, 100 unshorn lambs weighing 8,000 pounds, having purchased those lambs at a weight of 6,000 pounds on June 30, 1957, he will be entitled to a payment on a liveweight of 2,000 pounds (i. e., 8,000 pounds minus 6,000 pounds).

§ 472.814 *Application for payment and supporting documents*—(a) *General.* The application for a payment on account of unshorn lambs, to be filed in the original only, shall be made on CCC Wool Form 56, "Application for Payment—Unshorn Lambs (Pulled Wool)." The application shall be supported by an original sales document, as set forth in paragraph (a) of § 472.815 or, in case of application by a slaughterer, by the substitute document as set forth in paragraph (b) of that section, and such other evidence as may show compliance with the program.

(b) *Applicant retains original sales document.* If the applicant does not wish the original sales documents to remain with the ASC county office, he may submit photostats or similarly reproduced or carbon or typewritten copies of the original documents. However, he must show the original documents to the ASC county office where the statements on the copies will be confirmed by comparison with the originals. The original sales documents will be appropriately stamped or marked to indicate that they had been used in support of an application for payment under this program and will be returned to the applicant. He will be required to retain them in accordance with § 472.824.

(c) *Practice of issuing carbon or photostat copies.* If it is the practice of the person or firm that prepared the sales document to furnish a carbon or photostat copy to the seller in place of the original, the producer may submit that copy in support of his application, provided the copy bears a signature, in accordance with § 472.815 (a) (6), of the person or the representative of the firm that prepared the original sales document. Such copy shall be treated like an original for the purposes mentioned in this section.

(d) *Lost or destroyed sales documents.* If the original sales document has been lost or destroyed, the applicant may submit a copy, certified by the person who issued the original, and such certified copy shall be treated like an original for the purposes mentioned in this section.

§ 472.815 *Contents of sales documents*—(a) *Sale by producers.* Each sales document supporting the application must cover lambs sold by the applicant, except as provided in § 472.825; must be issued by the purchaser or the producer's marketing agency; and must show the following:

(1) Name and address of seller.

(2) Date of sale.

(3) Number of unshorn lambs sold. If the sales document does not clearly identify the animals as lambs that had never been shorn at the time of sale, the person issuing the sales document shall add a statement to that effect. If the sales document refers to the animals as "unshorn lambs," this will indicate that the lambs were never shorn, in accordance with the definition of § 472.832. Likewise, if the document is issued in connection with the sale of unshorn lambs but also covers the sale of other animals, the person preparing the sales document shall clearly indicate therein in some manner the number and the liveweight of unshorn lambs included in the sale.

(4) Liveweight of unshorn lambs sold. If the weight is not determined by scales, this weight may be an estimated weight agreed to by the buyer and the seller.

(5) Name and address of the purchaser or marketing agency issuing the sales document.

(6) Signature. The sales document must bear a handwritten signature by or on behalf of the person or firm issuing the sales document. Acceptable signatures will consist of at least one initial or name by which the person is generally known, followed by his last name in full. A carbon impression or facsimile of a handwritten signature is not acceptable.

(b) *Substitute for sales document in case of slaughterer.* If the application is made by a slaughterer who owned the animals for 30 days or more prior to his moving them to slaughter (§ 472.812 (d)), it shall be supported by a scale ticket instead of a sales document. The scale ticket shall indicate that it covers unshorn lambs which moved to slaughter and must show the information normally appearing on scale tickets issued by stockyards (that is, date, number of head and classification, weight, scale ticket number, if any, place of weighing, and name of weigher).

§ 472.816 *Report of purchases of unshorn lambs.* In making application for payment on the sale of lambs, the producer shall report, as prescribed in this section, with reference to animals purchased by him as unshorn lambs on or after April 1, 1956, the date of each purchase as well as the number and liveweight of the animals purchased.

(a) *No purchases.* If the applicant knows that his application does not include any animals which were purchased by him on or after April 1, 1956, he will report no purchases of unshorn lambs.

(b) *Report on actual basis.* If lambs purchased by the applicant on or after April 1, 1956, are included in the application, and the applicant's operations are conducted in such a manner that he is able to identify such lambs, he shall report the date of purchase, the number, and the liveweight of the lambs included in the application that he purchased on or after April 1, 1956.

(c) *Report on "first in, first out" basis.* (1) In the event the applicant does not know whether or not the application includes lambs that he purchased on or after April 1, 1956, or he knows that some such lambs are included but is unable to report the exact date of purchase of such lambs, he shall report on a "first in, first out" basis, as hereinafter explained, the date of purchase as well as the number and liveweight of a quantity of animals purchased by him on or after April 1, 1956, as unshorn lambs, equal to the number of lambs included in the application. This reporting of purchased lambs shall be continued in subsequent applications for payment on unshorn lambs and applications for incentive payment on shorn wool until the applicant has accounted for all animals purchased by him on or after April 1, 1956, as unshorn lambs and not reported in an application for payment under the 1956 program for shorn wool or unshorn lambs, except that he need not report such animals if he has not applied for a payment on their sale or on the sale of wool shorn therefrom. If the producer does not have sufficient marketings of unshorn lambs and wool during the 1957 marketing year to cover all of his purchases of unshorn lambs, including those that had not been reported in the 1956 payment program, and consequently does not report all of his purchases of unshorn lambs in applications based on sales during the 1957 marketing year, the balance shall be carried forward and reported in succeeding marketing years.

(2) For example, if the producer's first application for the 1957 marketing year covers the sale of 300 lambs, he shall report in that application the date of purchase as well as the number and liveweight of the first 300 animals he purchased on or after April 1, 1956, as unshorn lambs that were not reported in an application for payment filed under the 1956 program for shorn wool or unshorn lambs; if, for example, his second application covers the sale of wool shorn from 200 animals, he shall report in that application the same information for the next 200 animals that he purchased on or after April 1, 1956, as unshorn lambs and that were not reported in an application for payment under the 1956 program; and as additional applications are filed under either the pulled wool or the shorn wool program, he shall report his purchases on or after April 1, 1956, in chronological order until all purchases up to the date of each application are accounted for, in accordance with subparagraph (1) of this paragraph.

(3) If the producer makes application for a payment on the sale of either shorn wool or unshorn lambs after he has accounted for his total purchases of unshorn lambs on and after April 1, 1956, he will report no purchases of unshorn lambs in such an application.

GENERAL PROVISIONS

§ 472.817 *Sales in good faith.* Payments provided for under this program shall be made on the basis of sales of shorn wool or unshorn lambs executed in good faith, and no payment shall be made on that part of any sale which has been cancelled or on the basis of sales at prices or weights increased in bad faith for the purpose of obtaining higher payments under this program. Examples of sales of wool in bad faith are those wherein the purchaser obtains a rebate or any benefit in form of money, property, or otherwise. Application for payment on the basis of a sale in bad faith may also subject the parties involved to civil and criminal liability.

§ 472.818 *Joint applicants, successors, and representatives*—(a) *Joint applicants*—(1) *Joint owners.* When the applicants for a shorn wool payment are joint owners of the wool and were also joint owners of the sheep from which the wool was shorn, all of them must sign any application based on the sale of their wool. When the applicants for a payment on unshorn lambs are joint owners of the lambs, all of them must sign any application based on the sale of their lambs. If one such owner refuses to join in an application and wishes to release CCC from any obligation to make him a payment, he shall sign a form of release prescribed by CCC for that purpose. Such release shall be attached to, and shall be referred to in, the application signed by those joint owners who apply for a payment.

(2) *Producers who did not own the animals from which the wool was shorn or did not own the lambs for 30 days.* Each application for a payment on shorn wool prepared by producers some of whom did and some did not own the animals from which the wool was shorn, as described in the exception in § 472.803 (c), shall be a joint application, irrespective of whether the wool was divided among such producers prior to sale or whether it was sold without division. Similarly, each application for a payment on unshorn lambs prepared by producers some of whom did and some did not own the lambs for 30 days, as described in the exception in § 472.812 (b), shall be prepared as a joint application, irrespective of whether the lambs were divided among such producers prior to sale or whether they were sold without division. All producers who are entitled to a share of the wool under the shorn wool program or of the lambs under the pulled wool program or are entitled to a share of the sales proceeds of the wool or the lambs, as the case may be, shall sign each joint application, except that where a producer releases his right to a payment by signing a form prescribed by CCC for that purpose, he will not join in the application and will not be entitled to a payment. Each joint application filed by such producers shall be supported by a properly executed CCC Wool Form 55–1 and 56–1, "Attachment to CCC Wool Form 55 for Producers Who Did Not Own the Animals from Which the Wool Was Shorn and Attachment to CCC Wool Form 56 for Producers Who Did Not Own the Lambs for 30 Days."

(3) *Other provisions.* If a producer entitled to join in an application fails to do so, does not release his right to a payment, and—because the application does not indicate his interest—payment is made by CCC to those who apply, he shall have no claim against CCC for a payment. Neither will CCC be responsible for a division among the applicants of a payment made by CCC to all of them jointly.

(b) *Successors and representatives.* (1) In case any person entitled to payment under this subpart dies, disappears, or is declared incompetent before applying for payment and therefore the application is made, in accordance with § 472.825 (a), by a person listed in 7 CFR Part 1108 in the order of precedence, such application, if it is for a shorn wool payment, shall be made on CCC Wool Form 55 and, if it is for an unshorn lamb payment, shall be made on CCC Wool Form 56. Each such application shall also include Standard Form 1055-Revised and, if necessary in accordance with paragraph (a) (2) of this section, CCC Wool Form 55–1 and 56–1. The application shall be filed with the ASC county office serving the county which includes the headquarters of the farm, ranch, or feed lot owned or operated by the person that died, disappeared or was declared incompetent.

(2) When CCC Wool Form 55 is part of an application described in subparagraph (1) and refers to delivery of wool by, or sale of wool for the account of, the applicants; or states that they ranged, pastured, or fed sheep and lambs; or that they purchased, owned, or had beneficial interest in, wool; or that they agreed as to the weight of animals in certain cases; or the marketing agency states in the application that it has not furnished sales documents to any person other than the applicants and that as agent for the applicants it complied with the program; or when it is stated in CCC Wool Form 55–1 and 56–1 that the applicants purchased unshorn lambs, in all those statements the words "the applicants" or "the undersigned" shall be deemed to refer to the applicants; or, to the best of the knowledge, information and belief of the applicant or marketing agency making the statement, to the person that died, disappeared or was declared incompetent; or to both. The reference in section A of CCC Wool Form 55 to the headquarters of applicant's farm, ranch, or feed lot shall be deemed to refer to the headquarters of the farm, ranch, or feed lot owned or operated by the person that died, disappeared, or was declared incompetent. The statements in section D (b), (c), (d), and (e) of CCC Wool Form 55 about shearing the wool and ownership of the wool and lambs and in section F (2) about marketing in a particular marketing year shall be deemed to be made to the best of the knowledge, information, and belief of the applicants.

(3) When CCC Wool Form 56 or CCC Wool Form 55–1 and 56–1 is part of an application described in subparagraph (1) and states that the applicants ranged, pastured, or fed sheep and lambs; purchased unshorn lambs; or owned such lambs for not less than 30 days, the words "the applicants" or "the undersigned" shall be deemed to refer to the applicants; or, to the best of their knowledge, information, and belief, to the person that died, disappeared, or was declared incompetent; or to both. The reference in section A of CCC Wool Form 56 to the headquarters of applicant's farm, ranch, or feed lot shall be deemed to refer to the headquarters of the farm, ranch, or feed lot owned or operated by the person that died, disappeared, or was declared incompetent. The statements in section D (c) and (e) of CCC

Wool Form 56 about shearing the animals and purchases of unshorn lambs shall be deemed to be made to the best of the knowledge, information, and belief of the applicants.

(4) In case any person entitled to payment under this subpart dies, disappears, or is declared incompetent after applying for payment, application may be made in accordance with § 472.825 (a) (1).

§ 472.819 *Filing application for payment*—(a) *Place of filing.* The application for payment on either shorn wool or unshorn lambs shall be filed by the producer entitled thereto with the ASC county office serving the county where the headquarters of the applicant's farm, ranch, or feed lot—as the case may be—is located. If the producer has more than one farm, ranch, or feed lot, with headquarters in more than one county, separate applications for payment shall be filed with the ASC county office serving each such headquarters, except that (1) if the producer sells his entire clip of wool in a single sale or if his entire clip is sold for his account by one marketing agency, he may file his application(s) for payment on shorn wool in any one of these ASC county offices, or (2) if the producer includes in one sale unshorn lambs that were ranged, pastured, or fed in more than one county, he may file his application(s) for payment on such animals in any one of those ASC county offices. In the event the producer conducts all his business transactions from his residence or office, and his farm or ranch has no other headquarters, his residence or office may be considered the farm or ranch headquarters. Applications by producers located in Alaska shall be filed with the Alaska ASC State Office, University of Alaska, Box B, College, Alaska, and applications by producers located in Hawaii shall be filed with the Hawaiian Area ASC Office, 303 Dillingham Building, Honolulu 13, Territory of Hawaii.

(b) *Time of filing.* An application for payment should be filed as soon as possible after the producer's sales of shorn wool or unshorn lambs for the 1957 marketing year have been completed or, in accordance with § 472.812 (d), as soon as possible after the last of his lambs moved in the 1957 marketing year to slaughter, and all applications must be filed not later than 30 days after the end of the marketing year, that is, not later than April 30, 1958. If delayed filing of an application is due to causes beyond the control of the applicant, the ASC county office may waive this 30-day limitation on applications filed before October 1, 1958, or such later date as may be approved by the Executive Vice President of CSC.

§ 472.820 *Signature of applicant.* No payment will be made unless an application for payment on shorn wool or unshorn lambs is signed. The ASC county office will determine with respect to each person who signs an application for payment in a representative or fiduciary capacity as agent, attorney-in-fact, officer, executor, etc., whether he was properly authorized to sign in such capacity.

§ 472.821 *Payment.* After the ASC county office has reviewed the application with the documents attached thereto and approved it for payment in whole or in part, and after the appropriate rate of payment has been announced by the Department of Agriculture, payment will be made. If one or more of the producers jointly entitled to a payment, release the right thereto, payment will be made jointly to the other producers who apply, and the payment will be for the amounts due them. Payment of less than $3.00 to an applicant, or to joint applicants, will not be made in connection with sales either of shorn wool or unshorn lambs. Likewise, payment of less than $3.00 will not be made to an assignee in connection with any assignment. If the ASC county office determines that for any reason an application for payment on shorn wool or unshorn lambs should be rejected in whole or in part, including the reason that it was not filed within the time provided for in accordance with § 472.819 (b), the ASC county office shall mail a notice to the applicant, and to each applicant who signed a joint application, that his application has been rejected for a specified reason and shall retain a copy of such notice.

§ 472.822 *Deductions for promotion.* If the Department of Agriculture has approved deductions for an advertising and sales promotion program in accordance with section 708 of the National Wool Act of 1954, the rate of such deductions will be announced and deductions will be made from the payment.

§ 472.823 *Appeals*—(a) *To ASC county committee.* Within 15 days from the date of mailing of the notice that an application for payment on either shorn wool or unshorn lambs has been rejected in whole or in part (see § 472.821), the applicant may appeal in writing to the ASC county committee, stating the serial number of the application, the number of pounds of wool marketed and the net proceeds, or the number and liveweight of unshorn lambs, involved in the application, and such pertinent facts as he may deem proper, and indicating in what respect the action of the ASC county office is considered erroneous. If the appeal is from the failure of the ASC county office to waive the final date for filing provided for in § 472.819 (b), the applicant shall also state the reason for his delay in filing the application. The ASC county committee shall notify the applicant, and each applicant who signed a joint application, in writing of its decision within 15 days after receipt of the appeal, and a copy of the notice shall be retained in the ASC county office.

(b) *To the ASC state committee.* If the ASC county committee sustains the decision of the ASC county office, the applicant may appeal in writing to the ASC state committee within 15 days after the date of mailing of the notice by the ASC county committee. The ASC state committee shall notify the applicant, and each applicant who signed a joint application, in writing of its decision within 30 days after receipt of the appeal, and a copy of the notice shall be retained in the ASC state office.

(c) *To Washington office.* If the ASC state committee sustains the decision of the ASC county committee, the applicant may appeal in writing to the Director, Livestock and Dairy Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C., within 15 days after the date of mailing of the notice by the ASC state committee. On this appeal, a determination by the Director as to a question of fact shall be deemed final and conclusive unless it is found by a court of competent jurisdiction to have been fraudulent, arbitrary, capricious, or so grossly erroneous as necessarily to imply bad faith, or is not supported by substantial evidence.

(d) *Joint applications.* If a joint application is rejected, an appeal may be taken by all applicants jointly or by one or more of them acting in behalf of all. An appeal by one or more joint applicants shall be considered an appeal in behalf of all.

§ 472.824 *Records and inspection thereof.* The applicant for a payment under this subpart as well as his marketing agency and any other person who furnishes evidence to such an applicant for the purpose of enabling him to receive a payment under this program, shall maintain, until April 1, 1961, books, records, and accounts showing the purchases of lambs by the applicant on or after April 1, 1956, and the marketing of wool or lambs, as the case may be, on which an application for payment may be based. CCC shall at all times during regular business hours have access to the premises of the applicant for a payment, of his marketing agency, and of the person who furnishes evidence to an applicant for the purpose of enabling him to receive a payment under this program, in order to inspect, examine, and make copies of their books, records, accounts, and other written data.

§ 472.825 *Death, incompetency, or other disability*—(a) *Death, disappearance, or incompetency.* (1) Except as provided in paragraph (b) of this section, in case any person who is entitled to a payment under this subpart dies, disappears, or is declared incompetent, before receiving such payment, whether before or after making application therefor, payment may be made upon proper application, without regard to claims of creditors other than the United States, in accordance with the regulations contained in 7 CFR Part 1108, Payments of Amounts Due Persons Who Have Died, Disappeared, or Have Been Declared Incompetent, except as follows: References in 7 CFR 1108.1 to section 8 of the Soil Conservation and Domestic Allotment Act, as amended, and to statutes authorizing parity payments, shall be deemed to refer to the National Wool Act of 1954. The reference in the last sentence of 7 CFR 1108.2 to the Agricultural Conservation Program Service shall be deemed to refer to the Commodity Stabilization Service. The reference in 7 CFR 1108.7 to Standard Form 1055 shall be deemed to be a reference to Standard Form 1055–Revised, Claim Against the United States for Amounts Due in the Case of a Deceased Creditor.

(2) If the person entitled to payment died, disappeared, or was declared incompetent before making application therefor, the application by his successor or representative shall be in accordance with § 472.818 (b).

(b) *Incompetent Indians.* Applications for payment on shorn wool or unshorn lambs may be filed on behalf of Indians who are incompetent by the Superintendent of the Indian Field Service of the reservation on which the Indian resides or by the authorized representative of such Superintendent. In such cases, the application for payment will be filed in the ASC county office where the headquarters of the Indian's farm or ranch is located.

(c) *Other disability.* In cases of bankruptcy, dissolution, or other disability, payments will be made to a representative only in accordance with specific instructions issued by CCC.

§ 472.826 *Set-off*—(a) If the county debt register shows that the applicant for payment is indebted to CCC, to any other agency within the United States Department of Agriculture, or to any other agency of the United States, such indebtedness will be set off against the payment due to the applicant. Such set-off shall not deprive the applicant of the right to contest the justness of the indebtedness involved, either by administrative appeal or by legal action.

(b) If the payment due to the applicant has been assigned by him, the ASC county office will accept the assignment subject to setting off such debts as exist at the time of acceptance by the ASC county office with interest to the date of set-off.

§ 472.827 *Assignments* — (a) *Form.* The producer may assign payments which may be determined to be due him under this program in connection with sales of shorn wool or unshorn lambs during the 1957 marketing year by filing with the ASC county office the original and two copies of CCC Wool Form 57, "Assignment of Payment Under National Wool Act of 1954," duly executed by both parties. Such assignment shall be null and void unless it is freely made and (1) is executed by the producer in the presence of at least two attesting witnesses, neither of whom shall be an employee or agent of, or by consanguinity or marriage related to, the assignee; or (2) is acknowledged by the producer before a notary public, a member of the ASC county committee, the ASC county office manager, or a designated employee of such committee. In the case of a joint application for payment, an assignment shall be executed by all those who signed the application.

(b) *Provisions.* An assignment of a shorn wool payment may only be given as security for cash advanced or to be advanced on sheep, lambs, or wool by a financing agency (as defined in § 472.832) or a marketing agency. An assignment of a payment on unshorn lambs may only be given as security for cash advanced or to be advanced by a financing agency on sheep, lambs, or wool. An assignment made to a financing agency shall cover all payments earned by the producer under the 1957 program on the sale of shorn wool or unshorn lambs, as the case may be. An assignment made to a marketing agency shall cover all incentive payments earned by the producer in connection with all wool marketed by the agency for the producer's account during the 1957 marketing year, but shall not cover payments earned by the producer in connection with his marketing his wool directly or through other marketing agencies during the 1957 marketing year. The assignee shall not reassign to another person any payment which has been assigned to him pursuant to this section. CCC will make payment pursuant to an accepted assignment unless the ASC county office is furnished evidence of a mutual cancellation of the assignment by both parties thereto or unless the assignee releases the assignment, that is, asks the ASC county office in writing that payment be made to the assignor and not to the assignee.

§ 472.828 *Forms.* CCC Wool Form 55, "Application for Incentive Payment—Shorn Wool"; CCC Wool Form 56, "Application for Payment—Unshorn Lambs (Pulled Wool)"; CCC Wool Form 55–1 and 56–1, "Attachment to CCC Wool Form 55 for Producers Who Did Not Own the Animals from Which the Wool Was Shorn and Attachment to CCC Wool Form 56 for Producers Who Did Not Own the Lambs for 30 Days"; CCC Wool Form 57, "Assignment of Payment Under National Wool Act of 1954," and other forms issued by the United States Department of Agriculture for use in connection with this program may be obtained from ASC county offices. These forms may be reproduced, provided the reproduced forms retain the same language, format, and size as the official forms, except that the printer's identification on the official forms must not be reproduced.

§ 472.829 *Instructions and interpretations.* CCC shall have the right to clarify any provision of this subpart by the issuance of instructions or interpretations.

§ 472.830 *Violation of program.* Whoever issues a false sales document or otherwise acts in violation of the provisions of this program, shall become liable to CCC for any payment which CCC may have made in reliance on such sales document or as a result of such other action in violation of the program, apart from any other civil or criminal liability he may incur by such action.

§ 472.831 *Waiver by Executive Vice President or other official.* The Executive Vice President of CCC or his designee and the Deputy Administrator, Production Adjustment, of CSS are authorized to approve waivers covering the submission of evidence by sales documents or by other procedural methods, with the same force and effect as if they were approved by the President of CCC.

§ 472.832 *Definitions.* As used in this subpart, the terms enumerated in this section have the following meaning.

(a) "Financing agency" means any bank, trust company, or Federal lending agency. It also includes any other financing institution which customarily makes loans or advances to finance production of sheep, lambs, or wool.

(b) "Joint ownership" of wool or lambs also includes ownership in common.

(c) "Lamb," for the purposes of this program, means a young ovine animal which has not cut the second pair of permanent teeth. The term includes animals referred to in the livestock trade as lambs, yearlings, or yearling lambs.

(d) "Liveweight," for the purpose of this program, is the weight of live lambs which a producer purchases or sells. In the event the price for the lambs is based on weight, the weight actually used in determining the total amount payable shall be considered the liveweight.

(e) "Local shipping point" means the point at which the producer delivers his wool to a common carrier for further transportation or, if his wool is not delivered to a common carrier, the point at which he delivers it to his marketing agency or a purchaser.

(f) "Marketing agency" with reference to shorn wool means a person or firm that sells a producer's wool for his account, and with reference to lambs, it means a commission firm, auction market, pool manager, or any other person or firm that sells a producer's lambs for his account.

(g) The "1957 marketing year" means the period beginning April 1, 1957, and ending March 31, 1958, both dates inclusive.

(h) "Person" means an individual, partnership, association, business trust, corporation, or any organized unincorporated group of individuals, and includes a state and any subdivision thereof.

(i) "Producer" of shorn wool under this program means a person who is either a producer, feeder, or pasturer of sheep or lambs and who shears his animals. "Producer" of lambs under this program means a person who is a breeder, feeder, or pasturer of lambs. The term "producer" also includes a person participating in the production of shorn wool pursuant to an agreement with a person who owned the sheep or lambs as described in the exception in § 472.803 (c) and a person participating in the production of lambs pursuant to an agreement with an owner of the lambs, as described in the exception in § 472.812 (b).

(j) "Sales document" means the account of sale, bill of sale, invoice, and any other document evidencing the sale by the producer of shorn wool or unshorn lambs.

(k) "Slaughterer" means a commercial slaughterer, that is, a person who slaughters for sale as distinguished from a person who slaughters for home consumption.

(l) "Unshorn lambs" means lambs which have never been shorn.

NOTE: The reporting and record-keeping requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 25th day of January 1957.

[SEAL] CLARENCE L. MILLER,
Acting Executive Vice President, CCC, and Administrator, CSS.

[F. R. Doc. 57-705; Filed, Jan. 29, 1957; 8:52 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter D—Exportation and Importation of Animals and Animal Products

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), AND NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS): PROHIBITED AND RESTRICTED IMPORTATIONS

DESIGNATION OF COUNTRIES WHERE RINDERPEST OR FOOT-AND-MOUTH DISEASE EXISTS; IMPORTATIONS PROHIBITED: ISLAND OF CURACAO

Pursuant to the provisions of section 306 of the Tariff Act of 1930 (19 U. S. C. 1306) and section 2 of the Act of February 2, 1903, as amended (21 U. S. C. 111), it has been determined, and the Secretary of the Treasury has been notified, that foot-and-mouth disease now exists on the Island of Curacao, and the regulations relating to prohibitions and restrictions upon importations of certain animals and products because of rinderpest, foot-and-mouth disease, fowl pest (fowl plague), and Newcastle disease (avian pneumoencephalitis) (9 CFR, Supp., 94.1), are hereby amended by adding a new subparagraph (1) to paragraph (a) of § 94.1 to read as follows:

§ 94.1 *Designation of countries where rinderpest or foot-and-mouth disease exists; importations prohibited.* (a) • • •

(1) Island of Curacao.

The primary effect of the amendment is to prohibit the importation of cattle, sheep, other domestic ruminants, and swine, and of fresh, chilled, or frozen beef, veal, mutton, lamb, or pork from the Island of Curacao, and to prohibit or restrict the importation of certain meat and meat products of wild ruminants and swine, and certain other meat and products, from that island, as specified in Part 94, Title 9, Code of Federal Regulations.

The protection of the livestock of the United States demands that this amendment be made effective as soon as possible. Accordingly, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure concerning this amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER. Such notice and hearing are not required by any other statute.

This amendment shall become effective upon issuance.

(Sec. 2, 32 Stat. 792, as amended, sec. 306, 46 Stat. 689; 19 U. S. C. 1306, 21 U. S. C. 111)

Done at Washington, D. C., this 24th day of January 1957.

[SEAL] M. R. CLARKSON,
Acting Administrator, Agricultural Research Service.

[F. R. Doc. 57-704; Filed, Jan. 29, 1957; 8:52 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Suppl. 7]

PART 18—MAINTENANCE, REPAIR, AND ALTERATION OF AIRFRAMES, POWERPLANTS, PROPELLERS, AND APPLIANCES

MISCELLANEOUS AMENDMENTS

The purpose of these amendments is (1) to clarify § 18.30–2 (a) (6) (ii) (b) with respect to proper curing times and temperature for ureaformaldehyde glues; (2) to set forth in §§ 18.11–2 and 18.30–3 (g) recommendations on glass cloth coverings (a new material) for the guidance of operators wishing to reinforce or replace the conventional fabric covering on their light aircraft; (3) to correct a typographical error in § 18.30–15 (b) (2) (xvii); (4) to set forth in § 18.30–15 (b) (3) (iv) a new policy on safe practices for straightening aluminum propellers; (5) to add acceptable inspection methods for finding cracks in aluminum propellers to § 18.30–15 (c) (4) and by transferring information concerning the type of flaws which prohibit repair of propellers from § 18.30–15 (c) (4) (ii) to § 18.30–15 (c) (4), to emphasize the importance of this information with respect to all types of inspections; and (6) to set forth in § 18.30–22 recommended standards for approval of radio maintenance, alterations, and repairs made in all certificated aircraft.

1. Section 18.11–2 (e) is revised as follows:

(e) Replacing of fabric covering with metal or impregnated glass cloth (see § 18.30–3 (f) and (g)).

2. Section 18.30–2 (a) (6) (ii) (b) (2) is revised as follows:

(2) The glues listed in this table are the room temperature setting type. The suitable curing temperatures for both urea-formaldehyde and resorcinol glues are from 70° F. up. At the 70° F. minimum temperature it may take as long as one week for the glue line in a spar splice to cure to full strength. Thinner pieces of wood and/or higher curing temperatures shorten curing time considerably. The strength of a joint cannot be depended upon if assembled and cured at temperatures below 70° F.

3. A new § 18.30–3 (g) is added as follows:

§ 18.30–3 *Fabric covering (CCA policies which apply to § 18.30).*

(g) *Reinforcement*[1] *or replacement of conventional fabric covering with glass cloth.* Before attempting a glass cloth covering installation it is advisable to consult with your local CAA inspector. The recommendations listed in this section should be used to supplement guidance information provided by CAA field personnel.

(1) *Classifications.* Glass cloth applications generally fall into the following three classes:

(i) Class A is a reinforcement of a serviceable fabric covering either complete or partial wherein no direct structural attachment of the glass cloth is provided. This composite covering is considered airworthy until the underlying conventional fabric deteriorates below the strength values listed in Table 3–1.[2]

Class A—The underlying cloth should be tested annually in the conventional manner (undoped strip or accepted tester) after peeling back glass cloth in the areas to be tested.

Class B—Applications should be tested annually (see par. (e) of this section), by pulling an undoped strip cut from the cover when the base fabric has deteriorated below the minimum strength values in Table 3–1.

(ii) Class B is a reinforcement of a fabric covering wherein the glass cloth is provided with the same direct structural attachment as was used with the original covering. This composite covering is considered airworthy until the underlying conventional fabric has deteriorated to a strength less than 50% of the minimum tensile strength values for new fabric listed in Table 3–1.[2]

(iii) Class C—replacement coverings applied either independently or over a conventional covering wherein the glass covering should possess all the necessary characteristics for airworthiness and is in no way dependent upon the underlying covering if one is present. Covering of this class is considered a major alteration and requires engineering evaluation (discussion with a representative of the Administrator as explained in § 18.11–2).

(2) *Detailed recommendations applicable to Class A and B.* (i) The tensile strength of the glass cloth should be at least equivalent to the tensile strength of the fabric originally installed on the aircraft, and the chemical finish of the glass cloth should be compatible with the dope or resin to be used.

(ii) Either the blanket or envelope method of reinforcement should be used on treated cloths which can be sewn. Untreated cloths that cannot be sewn may be applied in overlapping sections. The practice recommended for doped seams should be used. Where the glass cloth is applied only to the upper surface of wings (hail protection) it should wrap around the trailing edge at least one inch and extend from the trailing edge up to and around the leading edge and back approximately to the front spar.

NOTE.—Blistering or poor adhesion has occurred when using bonding agents which were not chemically compatible with the present finish on the aircraft, or which had already deteriorated because of age. Before starting the work, the person making the installation should ascertain that the bonding agents used will be satisfactory. Favorable experience to date has been gained mostly with epoxy resins; however, other types may prove suitable. A simple means of determining this is to apply a small piece of the reinforcement cloth to the original cover using the proposed finishing process. The test sample should be visually checked the next day for blistering or poor adhesion.

(iii) When butyrate dope is used to bond the glass cloth, the finishing may be accomplished in the following manner:

(a) Thoroughly clean surface and allow to dry. If the surface has been waxed or previously covered with other protective coatings, thoroughly remove to the extent that at least the top finish coat is removed. After placing the glass cloth on the surface, brush out smoothly and thoroughly with butyrate dope thinner and 10 percent retarder by volume.

(b) Apply a heavy coat of butyrate dope between all glass cloth overlaps. When dry, brush in butyrate rejuvenator and allow to set until the surface has again drawn tight.

(c) Install reinforcing tape and structural attachments (Class B) and dope on finishing tape (cotton is recommended); then brush in one coat of 50 percent thinner and 50 percent butyrate dope.

(d) Follow by conventional finishing schedules which call for application of one or more coats of full-bodied clear butyrate dope, two spray coats of aluminum pigmented butyrate dope, light surface sanding, and two spray coats of pigmented butyrate dope.

(iv) When resin is used to bond the glass cloth, after surface cleaning, the finishing may be accomplished in the following manner:

(a) Rejuvenate the doped surface. After placing the glass cloth on the surface, brush in a coat of resin thoroughly. Saturate overlap areas thoroughly. Allow to cure.

(b) Brush in a second coat of resin smoothly and evenly and allow to cure. The finished surface should not be considered completed until all the holes between the weave of the cloth are filled flush with resin.

(c) After water sanding, paint the surface with one coat of primer surfacer and finish as desired.

(v) Install drainage grommets and inspection holes as originally provided.

(vi) After reinforcing moveable control surfaces, their static and dynamic balance should be checked to ascertain no change has been made therein. The flutter precautions stated in § 18.30–4 (a) (4) should be rigidly adhered to.

(3) *Detail recommendations for replacement glass cloth coverings (Class C).* In view of the lack of available information on such alterations, these should not be undertaken unless definite evidence of reasonable service life is furnished. This may entail operation on an experimental basis until it is clearly substantiated that there are no obvious unairworthy features or deficiencies associated with such installations as compared with the conventional covering originally provided. Before making this alteration the applicant should consider such factors as service results; tautening to assure proper airfoil shape and no adverse fabric buffeting; adequate tear strength; attachment reliability; adequate filler penetration and adhesion; and the weight added in the modification and its effects on useful load and flight characteristics.

4. Section 18.30–15 (b) (2) (xvii) is amended by changing the diameter for a No. 60 drill from "(.030)" to "(.040)."

5. Section 18.30–15 (b) (3) (iv) is amended by deleting the last sentence and in its place inserting the following new sentences: "Blades with bends exceeding these values should be straightened only upon recommendation of the manufacturer, and only at facilities having proper heat treating equipment. In all cases, the blades should be inspected as discussed in §§ 18.30–15 (c) (4) (i) and (ii) for cracks and other injuries both before and after straightening."

6. Section 18.30–15 (c) (4) is amended by deleting the first sentence and in its place inserting the following new sentences: "Aluminum propellers and blades should be carefully inspected for cracks and other injuries. A transverse (chordwise) craft or flaw of any size is cause for rejection. An excessive number of longitudinal flaws is cause for rejection. Any unusual condition or appearance revealed by these inspections should be referred to the manufacturer. Acceptable inspection methods are the acid etching process, the anodizing process, the fluorescent penetrant process (see § 18.30–8 (d) (5)), or the dye penetrant process (see § 18.30–8 (d) (6)) where applicable, supplementing one process with another where necessary."

7. Section 18.30–15 (c) (4) (ii) is amended by deleting the last three sentences.

8. A new § 18.30–22 is added as follows:

§ 18.30–22 *Radio systems (CAA policies which apply to § 18.30).* Aircraft radio systems should be maintained, repaired, altered, and installed in accordance with the equipment manufacturer's maintenance instructions or manuals and the following standards.

(a) *Wiring.* Radio systems should be wired to minimize the possibility of fire or smoke hazards or unsatisfactory operation of the radio equipment.

(1) The radio systems should be connected to the airplane electrical system at a terminal strip or by a plug and receptacle connection. Protective devices (fuses or circuit breakers) should be installed in the load circuit. These should, in general, be selected on the basis of the highest rating that will adequately protect the cable. All loads should be connected in such a manner that the master switch of the aircraft will interrupt the circuit when the master switch is opened.

(i) If a terminal strip is used, it should be designed or mounted so that loose metallic objects cannot fall across the terminal posts. Posts should be No. 6 or larger to permit proper tightening of the nuts, thus providing maximum current carrying capacity without a danger of shearing the studs.

(ii) If a plug and receptacle type of connection is used, the soldered connections of the wire to the plug and receptacle inserts should be individually insulated from each other and from other metallic parts of the plug and receptacle.

(2) Junction boxes should be used for enclosure of terminal strips. The boxes should be made from a fire-resistant, nonabsorbent material, such as aluminum alloy, or an acceptable plastic material. They should be of sufficiently rigid construction to prevent "oil-canning" of the box sides, thus avoiding the possibility of the sides causing internal shorts. They should be designed and installed to permit easy access to the enclosed terminals and to allow any loose metallic parts to fall away from the terminals. Sufficient space should be provided in the junction box so that it will not be necessary to bend the wires sharply as they leave the terminal strip. The terminal strip should be mounted within the box rather than on the inside of the box cover.

(3) Interconnecting wires and cables between various pieces of radio equipment should be supported by insulated clamps so that they do not rub against the airplane or each other under vibration conditions encountered in flight.

(b) *Location of radio equipment.* The equipment, controls, and indicators should be located where they can be satisfactorily operated and read respectively from the appropriate crew member station. The equipment should be so located that there is sufficient air circulation to avoid overheating of the equipment. Also, clearance should be provided between high temperature areas of the equipment and readily flammable parts of the airplane.

(c) *Mounting of radio equipment.* The equipment should be attached to the airplane by means of locking devices to prevent loosening in service from vibration. Examples are self-locking nuts, serrated washers, cotter pins, self-locking hold down clamps, or snap-slides and hold down assembly nuts which are safety wired. Mechanical remote control devices should have the control cable so routed and so supported as to prevent kinking, binding or abrasion. Items mounted on shock mounts should have sufficient clearance for normal vibration and swaying of the equipment without hitting adjacent equipment or parts of the airplane. Electrical and mechanical cables to shock mounted equipment should be routed and supported so that they will not be unduly stressed by motion of the equipment. In order that the occupants will not be endangered by moving equipment during minor crash landings, the equipment mounting and rack should be capable of withstanding

[1] After reinforcing, the airplane should be operated within the approved maximum weight and c. g. limits listed in the aircraft specification and the weight change determined by weighing the aircraft.

[2] *Testing of Fabric Covering.*—The following procedure should be used for continued acceptance of classes A and B glass cloth coverings.

ultimate accelerations for which the airplane was designed.
